THIRD SEVERE
COLD WAVE IS
BELIEVED OVER

Unsettled Weather Throughout Northwest Expected Today; Score of Deaths Marks Drop in Temperature.

CHICAGO, Dec. 29 (AP)—The backbone of the third severe cold wave of the winter to attack the middle west was broken tonight while the mercury which has been hovering in the minus section of the thermometer, bounded up to the two figure readings again. While today found moderating temperatures over nearly the entire region from the Rocky mountains eastward, it was still below the seasonal normal. Unsettled weather throughout the northwest and middle west is indicated for tomorrow with a possibility of snow and rain.

Score of Deaths.

The latest cold wave left in its wake upwards of a score of deaths for the entire country, damaged rail and wire communications in the west caused a 25 per cent damage to the citrus fruit crop on the Pacific coast and some livestock damage.

The latest cold wave extended to the Atlantic seaboard and eastern states today reported near zero readings although temperatures were moderating tonight.

TWO DIE ON TRAIN

FORT MADISON, Ia., Dec. 29 (AP)—Yesterday's cold weather resulted in two deaths aboard Santa Fe mail train No. 15, according to members of the train crew. An unidentified man was frozen to death at Streator, Ill. Michael Gold, 43 years old, enroute to Nebraska City, Neb., with his wife, following a heart attack, died from heart disease as the train pulled into the station here. Mr. Gold had been in poor health and it is believed exposure in the extreme cold while changing trains in Chicago, resulted in the fatal illness.

CAB DRIVERS OF BERLIN
RESIST ADVENT OF AUTOS

BERLIN, Dec. 29 (AP)—The probable elimination of horse drawn cabs from the streets of this city by the motor taxi, has brought up the question of the future of the 1820 cab drivers of Berlin who today are far from pleased with the change that is coming over the city.

The young men naturally become chauffeurs, but some older drivers seem unable to adjust themselves to the new vehicle. It has been suggested that two cabbies, an older and a younger one, club together and acquire an auto taxi between them in such a manner that the older man will acquire to keeping the car properly cleaned, repaired, and disinfected, while the younger man does the driving.

M'COY GUILTY
MANSLAUGHTER

Boxer Gets One to Ten Years for Murder of Mrs. Theresa Mors.

LOS ANGELES, Dec. 29 (AP)—Kila McCoy, former pugilist, was convicted in superior court late today of manslaughter in connection with the shooting here August 12 last of Mrs. Theresa Mors. The penalty for manslaughter is from one to ten years imprisonment.

When the verdict was read McCoy's eyes became tear-dimmed as he sat at the end of counsel table.

"I don't believe it was a just verdict," he said. "If I am not guilty as charged, I am not guilty at all. It was not a just verdict."

Comforts Sisters.

The prisoner, then rose and in custody of bailiffs walked across the courtroom to comfort his three sisters, who were weeping.

Foreman F. W. Coulter of the jury said that the verdict was a compromise one—"the best we could do."

The jury, which was out longer than any other in the legal history of Los Angeles county, has been locked up for 78 hours when the verdict was returned at 5:00 o'clock tonight, and had been in actual deliberation for 34 hours.

COMRADE CARRIES ON
AFTER FLIER DIES

R. G. PAGE

R. G. PAGE, known as the only bearded air mail pilot, found the body of Charles Gilbert, his "buddy" in the service, after a search begun when Gilbert failed to report at Omaha. Gilbert's plane crashed near Kanabville and the pilot was killed. Page retrieved the mail from the wrecked plane, clasped the lifeless hand of Gilbert and then continued on the latter's route cross-country.

HELD ON FELONY CHARGE

Edward Redford, 19, who last week finished serving a jail term for issuing a check without funds, was by Judge O. P. Duval at the conclusion of a preliminary hearing in probate court here Monday, held under bond to answer in district court to a felony charge of issuing a fictitious check.

SWISS SCRAP LOCOMOTIVES

ZURICH, Dec. 29 (AP)—The Swiss national railways will spend \$8,000,000 in 1925 to continue the work of electrifying the entire railway system of the country, according to the government budget of 1925. Already 400 miles of track have been electrified, and next year is to witness the electrification of 92 additional miles.

Rockefeller Gives
Art Museum Large
Block of Oil Stock

Securities Worth Million Dollars in California Company Turned Over.

NEW YORK, Dec. 29.—John D. Rockefeller, Jr., has given stock of the Standard Oil company of California, valued at approximately \$1,000,000, to the Metropolitan Museum of Art, Robert W. DeForest, president of the museum, announced today. The trustees have voted to add the gift to the museum's permanent endowment fund, although it can be used for other purposes.

Heretofore Mr. Rockefeller's philanthropies have been chiefly in the field of education.

FOUR KILLED
WITH SHOTGUN

Woman Unable to Account for Death of Father, Mother, Brother and Her Daughter.

LOGANSPOUT, Ind., Dec. 29 (AP)—Refusing to answer all questions regarding the deaths of four members of her family, but talking volubly of alleged ill-treatment at their hands, Mrs. Jimma Hobough, aged 30, a widow, was taken into custody late this afternoon by Sheriff Walter Boyer at the home of Thomas Sheets, about four miles from the Basler home, where shortly afterward Henry Basler, 60, her father; Catherine Basler, 60, her mother; John Basler, 23, her brother, and Viola Hobough, aged 3, her daughter, were found with their heads partly blown away with a shotgun.

WHEAT SELLS FOR \$2.

ST. LOUIS, Dec. 29.—Wheat sold on the market for even \$2, the highest price reached since January 1921, when government price fixing ceased. One car of No. 2 red brought the high mark.

KAHN'S WIDOW SEEKS
SEAT IN CONGRESS

MRS. F. P. KAHN

MRS. FLORENCE P. KAHN, widow of the late Julius Kahn, of San Francisco, congressman from California, has announced she will accept the nomination to succeed her husband if the honor is tendered her. Friends have urged her to assume his office and continue his work, with which she is familiar.

ILLEGAL SALE ALLEGED

Victor Ocanica, Basque proprietor of a pool hall at the corner of Maine avenue and Third street south, is to be arraigned in police court this morning on the charge of illegal sale of liquor, according to police who arrested Ocanica at his place of business Monday evening. Officers who took part in the raid were P. O. Herriman, chief of police; H. U. Butz and John Bigley.

SUMS PAID TO EASE TRAFFIC

LONDON, Dec. 29.—The widening of the Strand, in the heart of London, is an expensive proceeding, according to H. H. Gordon, a former London county councillor. He places the cost at \$25,000,000 a mile. Traffic congestion makes the operation necessary.

U. S. Air Mail Pilot
Narrowly Escapes
Death in Accident

Plane Crashes Into Mountain West of Shafter, Nev. As Result of Bad Fog.

RENO, Nev., Dec. 29.—Paul P. Scott, air mail pilot on the Salt Lake-Reno run, narrowly escaped death yesterday and his plane was wrecked when he crashed into a mountain west of Shafter, Nev., it became known today when he arrived at Elko, Nev. Fog obscured the flier's vision, causing the accident.

Scott was uninjured. He walked several miles to a railroad track and flagged a train for Elko. Another plane was sent after the mail which was undamaged.

FRENCH DENY
ANY PLAN TO
FORGET DEBT

Embassy Repudiates Rumors That Country Would Disavow Amount Owning U. S. As Result of War Loans.

WASHINGTON, Dec. 29 (AP)—Hint that France might be moving toward a disavowal of her war debt to the United States were repudiated unconditionally tonight by the embassy after they had caused an uncontented stir in Washington.

Embassy officials not only reiterated the intention of their government to meet its obligations, but declared the widespread apprehension that suddenly enveloped American capital today had been evolved from a set of circumstances which in themselves had no international significance.

The incident apparently had genesis in the publication of a new balance sheet by the French ministry of finance, in which all reference to the debt in the United States was omitted. This, the embassy declared, was due simply to a provision of French law, which prevents inclusion of contemplated expenditures in the budget unless the exact amounts are known and specific appropriations are included to effect them. No statement having been reached with the United States, it was added no such item could be entered on a ledger which must balance down to the last centime.

GILLIS GOES TO SCENE
OF LEGISLATIVE MEET

W. D. Gillis of Filer, who was last November re-elected as a member of Twin Falls county's delegation in the house of representatives at the coming session of the state legislature, left here Monday evening for Boise, where he expects to spend several days in conference with other members-elect prior to the opening of the session January 5, next.

Mr. Gillis is regarded as one of the more prominent candidates for speaker of the house.

Other members of Twin Falls county's delegation expect to leave for Boise within the next few days. Frank L. Stephen of Twin Falls, expects to leave within a day or two, and R. E. Brooks of Buhl, will leave a little later for the capital city. Both are members-elect of the house.

O. P. Devall, senator-elect, stated Monday that he does not expect to leave for Boise until Saturday next.

PLAYGROUND EXPERTS DECIDE

TO MEET IN NORTH CAROLINA

NEW YORK, Dec. 29 (AP)—In recognition of the big strides which the south is making in playground and recreation work, Asheville, North Carolina, has been chosen as the convention city for the national recreation congress, October 5 to 10, 1925, from a field of invitations presented by 30 cities representative of 13 states, Canada and Belgium.

STOCK INDUSTRY
GETS ATTENTION

Agricultural Commission Appointed by Coolidge to Take Up Cattle Situation.

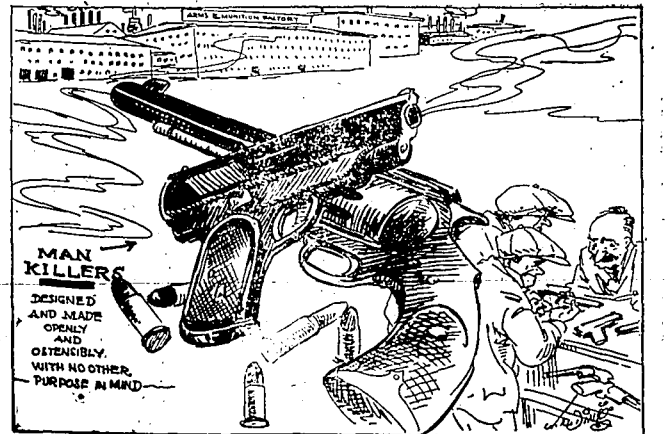

MINNEAPOLIS, Dec. 29 (AP)—The agricultural commission appointed by President Coolidge will give its first attention to the cattle industry, "the sickest industry in agriculture," W. C. Coffey, dean of the University of Minnesota agricultural department, a member of the commission, said today.

Dubu Coffey said co-operative marketing probably would be the second subject, because of a bill pending in congress appropriating \$7,000,000 for establishment of government machinery to aid co-operative marketing.

Public Land Policy.

"A third question to be taken up is that of a public land policy," he said. "There are 181,000,000 acres of domain. In the past they have been distributed to settlers on the most liberal terms. With agricultural lands suffering from over production the last few years, a new public land policy should be formulated which will not tend to increase this over production."

ODD FELLOWS HERE TO
CONFER ANCIENT DEGREE

Lodge Men to Exemplify Old Ritual at Event Planned for Benefit of Grand Lodge Entertainment Fund.

Odd Fellows of Twin Falls, on the evening of New Years day, are to confer upon a large class of candidates the ancient degree of the order as it was conferred first in 1707, according to announcement Monday by S. G. McAuley, degree master, under whose direction the degree work is to be exemplified.

Conferring of this degree is to be one of a series of social events of the winter season that has been arranged for the benefit of the fund to be raised for entertainment of grand lodge officers and delegates to meet here in annual session next October. In connection with the degree work, members of the local lodge are to serve each luncheon and there is to be a dance later in the evening.

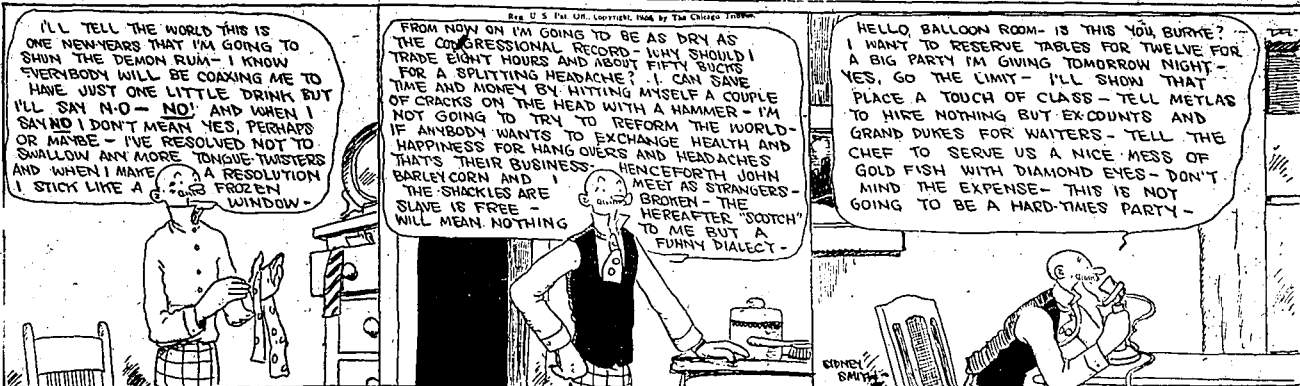

The degree is to be conferred by a staff composed as follows: Noble grand master, O. W. Dougherty; ancient grand master, Leo McKinley; vice grand master, Henry Mahankin; grand warden, A. A. Carlson; grand guardian, W. J. Glascock; grand secretary, Ed Royston; grand treasurer, Henry Bruggeman; grand scribe, C. E. Howdell; almoner, M. H. Ruble; scene supporters, F. W. Mackey and Phil Compton; conductors, O. E. Raines and A. D. Gates.

All persons who have at some time taken the initiatory degree, whether now in good standing or not, are eligible to receive the ancient degree. Mr. McAuley stated, and an invitation is extended to all members of the order regardless of present standing.

WILL NOT HINDER FOREIGNERS
BOUND FOR YUCATAN DIVORCE

MEXICO CITY, Dec. 29 (AP)—Foreign divorce seekers will encounter no obstacles from the federal government to disembarking at Progreso, en route to the Yucatan mill for unceremonious marriages. These matrimonial misfits need only prove that they earn their living honestly. According to Assistant Secretary Benitez, of the department of the interior, in order to take advantage of Yucatan's almost automatic legal machinery for breaking marriage bonds.

THE GUMPS—THE PURE WATER LILY

FRENCH FAIL TO LIST DEBT

Liability to America and England Does Not Appear on Treasury Balance Sheet.

PARIS, Dec. 29 (AP)—France's war debts to America and Great Britain, amounting close to 31,000,000,000 francs, are not listed as liabilities of the French treasury as shown in a balance sheet issued by the French ministry of finance.

Neither are the amounts due France from other countries for war and post war advances, amounting to about \$15,000,000,000 gold francs, included in the balance sheet. The inventory was issued "for non-party purposes" with the view of creating confidence by a clean breast of the facts, as the document says.

On the other hand, 103,000,000,000 francs, as the capitalization of the French share in the Dawes plan annuities are included in the assets.

Forests of Canada.

Of the total area of forests in the British empire, Canada holds more than 50 per cent. In Canada more than 85 per cent of the forest area is publicly owned. The Canadian people gain from their forest possessions the substantial annual revenue of \$500,000,000, representing the production of all branches of their forest industries. More than 100,000 men are engaged in Canada converting forest products into wealth in some form or other. Nearly 400,000 other people depend on this "forest army" for their food and shelter. In the pulp and paper mills are 33,000 men, drawing \$40,000,000 a year in wages. The lumber industry pays 55,000 men \$60,000,000 annually.

Flying Speed of Birds.

The crow is the least rapid of a list of 22 migratory birds, flying at an insignificant average of 45 feet a second, or 30 miles an hour. Curlews and jacksnipes can fly 50 and 55 feet a second, while quails, prairie chickens and ruffed grouse can make 75 feet. The dove can reach a speed of 100 feet a second, or 68 miles an hour, although its usual rate is less. Redheads, blue-winged teal, green-winged teal, Canada geese and different varieties of brant can fly over 100 feet a second, ranging in speed from 68 to 98 miles an hour, but usually fly at a much slower gait.

Invisible Wires.

Tungsten, the metal of which the modern electric bulb filament is made, can be drawn into wire so fine as to be invisible to the naked eye except when held against the sunlight. A pierced diamond is used as the die through which the wire is drawn. This very fine tungsten wire is used chiefly in fuses for delicate electrical experimental instruments, where the slightest excess in current would destroy the intricate and costly apparatus. When such a rise in the current occurs the tungsten wire melts and the circuit is broken.

The Ultramicroscope.

There is an instrument called the ultramicroscope which makes visible bodies which are much smaller than can be seen with the microscope. It does this not by magnification, but by very bright illumination. The bodies are seen only as bright specks. It is claimed that some of the largest molecules can be seen separately by this method. These molecules contain a large number of atoms, a hundred or so. From the motions of these ultramicroscopic particles their masses can be estimated.

The Real Goods

English Candidate—Now, my friends, when you vote you don't want to vote for a pig in a poke; you want to vote for me—and get the genuine article.—Boston Transcript.

President Calles Takes Oath

GENERAL PLUTARCO ELIAS CALLES is shown at the moment on taking the oath of office as President of the Mexican Republic, in impressive ceremonies held in Mexico City.

OLYMPIC GAMES FOR CALIFORNIA

America May Be Next Scene of International Athletic Contests if Holland Fails.

PARIS, Dec. 29 (AP)—Will Holland pass up the 1928 olympic games? Such is the question which is agitating European athletic circles since the close of the eighth olympic games.

It is expected that the rules of amateurism to be laid down at the olympic congress at Prague next year will be such that possibly half of the south American countries will be unable to participate. There is a specific charge against the Uruguay soccer football team which carried off the championship of the world at Colombia. It will probably emanate from the French.

The Amsterdam stadium, it is pointed out, judging from the huge crowds which attended the finals of the soccer football matches at Colombia, would prove woefully inadequate to accommodate the spectators in 1928. The belief persists that at the Prague meeting the Dutch olympic committee may ask to be relieved of the task of organizing the 1928 meeting.

Should the case of the United States be presented, the Prague meeting may not be so near to the European superlatives, there will be little objection to Los Angeles being the seat of the ninth Olympiad. America's prior claim arises from the fact that the 1928 games have been awarded to Los Angeles.

Not to Be Trusted.

A hired man left a farm near Tepic, Mich., taking a horse, a buggy, 75 chickens, 20 jars of canned fruit, one raton, one pair of rubber boots, five bushels of potatoes, one-half bushel of onions, two shirts, one pair of pants one revolver, 15 gunny sacks, one pair of shoes, one photograph and 30 records. In addition, the owner intimates, this hired man is not a fellow who can be trusted.

Gethsemane

On the land now known as the Garden of Gethsemane there are eight very old olive trees which tradition says were living in the time of Christ. The actual location of the Garden of "Our Lord's Agony" was lost, and the present site selected as the probable location.

Tolstoy's Opinion of Women.

In a recently published volume of reminiscences, Alexander Borisovich Goldenweiser, a Russian pianist and an intimate friend of Tolstoy, says that one day the great writer, who was perhaps the greatest feminist of the century, remarked to him: "If you won't repeat it, I'll tell you confidentially: women are generally so evil that there is scarcely any difference between a good woman and a bad one." Mr. Goldenweiser apparently does not explain this extraordinary remark, which may have been made in a mood of levity, or perhaps when Tolstoy was suffering from indignation.

What the World Is Doing

(As Seen by Popular Mechanics Magazine)

Pistol Slot in Night Stick Helps Policemen Shoot Straight.

Police night sticks with a steel slot in one end to hold the revolver both in one hand and in the other, as shown in the illustration, are being tested by the New York department as an aid to accuracy in firing. Holding the club against one shoulder and putting the handle of his revolver in the slot, the policeman can take a steady aim.

Keeping Tools Out of the Transmission

Anyone who has dropped a wrench, pair of pliers, or other tool into a Ford transmission while adjusting the bands, knows how difficult it is to recover it. Usually it slides down to the bottom, where it is practically impossible to reach it, unless one takes off the transmission cover, which is a long job. Many mechanics try to prevent such mishaps by tying a length of cord or wire to the tools, but this makes it rather unhandy to use them. A better method is to seal a gap between the gears and the case so that all open ports are closed and the tools cannot fall through if dropped.

Gasoline Is Produced from Plants to Be Grown on "Oil Farm"

Following his announcement that he has successfully produced gasoline from automobiles from various kinds of plants, a French scientist has proposed that a tract of 500,000 acres of land in western Africa be devoted to the cultivation of this vegetation for the production of 10,000,000 gallons of petroleum annually. His process is based on the fact that artificial petroleum can be manufactured from certain so-called "other salts," and these are found in a bromine plant and in other fibrous and textile vegetation. Gasoline is next obtained in an ordinary manner, which, the professor asserts, is "exactly like that produced in Pennsylvania and equally good for use in motors." Utilization of the fibrous by-product of the vegetation on the proposed "oil farm" in the silk industry and in paper mills, is feasible, he claims, and will afford an additional source of revenue.

Wireless Locomotive Run by Steam

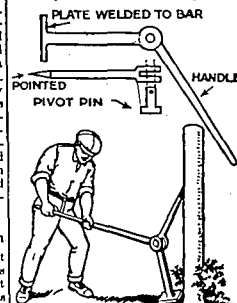

Charged with water and live steam at a boiler plant before it is started on its task, a wireless electric locomotive that has been tested by the New York department has been tested successfully. It is said to run two or three hours without recharging, a process that requires about twenty minutes.

Economy is claimed in operating as no firemen are needed and the expense of cleaning smoke from the walls of adjacent buildings is saved.

Effective Post Puller

Farmers and others who have frequent occasions to pull posts, will find the device shown in the drawing effective for doing this work. It is portable and can easily be operated by one man. The upper details clearly show its construction. It consists of two parts made of heavy bar iron. The lower part and

the handle or lever are integral, being bent to the shape shown and the elbow flattened and drilled to receive a pivot pin. A plate is welded on to serve as a foot. The upper part is forked at one end to straddle the flattened elbow and is pointed at the other end to grip the post. In use, the device is set in the position indicated and the lever is pulled upward, which causes the post to rise.

Small glue tubes are hard to keep at hand on the desk or in the drawer without having some of the contents ooze out over the papers or on the surface of the desk. A simple holder, which eliminates this trouble, can be made by cutting three sides of the can in which the tubes are packed so that the top of the tubes projects. The upper portion is then doubled over and tacked to the wall.

EPISCOPAL BISHOP TELLS OF ACTION AT OPIUM PARLEY

RUFFALO, N. Y., Dec. 29 (AP)—Bishop Charles H. Brent, of the Episcopal diocese of Buffalo, speaking at a luncheon here tendered him by the city in recognition of his recent work in connection with the international opium conference at Geneva, reiterated that he did not consider the conference a failure and that he had not felt it in disgust.

A described events preceding his withdrawal from the conference as well as the treaty prepared by the eight nations which was made known a week before it was to be signed and which he said American delegates at once decided to assent to a "disgraceful and ridiculous document." At this stage he said he felt that his services were needed in work at home and he departed.

Mr. Bert Stenton of Twin Falls, on Thursday.

Mr. H. P. Larsen and son, Russell, are spending the school vacation at their country home near Rock Creek.

Mr. and Mrs. William Van Houten were hosts on Christmas day at dinner guests being held for the following guests: Dr. and Mrs. N. Davis and daughter, Margaret; Mr. and Mrs. G. L. Noble, Mr. and Mrs. William Van Houten and daughter, Hazel, Frances and Alice Van Houten.

Mrs. L. H. Walden and Miss Neola Wilson were visitors in the Magic City Friday.

Mr. and Mrs. Dewey Steelman are the parents of a daughter, born December 18, and christened Rose Mary.

Mrs. Ida Drayer and son, Ford, of Nampa, spent Christmas at the home of Mr. and Mrs. J. A. Steelman, returning on Friday by auto to Nampa.

Mrs. D. R. Hammond and children left on Wednesday to spend the holidays at her parents at Rexburg, Idaho.

The infant child of Mr. and Mrs. Clyde Denning, who has been ill the past two months, is reported in a serious condition.

Mrs. E. Berger and Miss Alma Steelman of Hamilton are spending their holiday vacation with friends and relatives in Rexburg, Idaho.

Miss Hazel Van Houten arrived on the 4 o'clock train Wednesday from Boise to spend Christmas with her parents. She will return to Boise Sunday.

Dutch Schmidt returned on Thursday from Portland to enjoy turkey dinner with his mother, Mrs. Catherine Schmidt.

Mr. and Mrs. George Freeman of Nampa, are at the home of E. B. Wood for the holidays. Mrs. Wood, who has been visiting the Freemans the past two weeks, will return to Nampa.

Mr. and Mrs. W. A. L. Stowe were dinner guests Christmas day at the home of Mr. and Mrs. J. L. Shepard.

Mr. and Mrs. M. R. Gill and Miss Edith Gill drove up from Twin Falls on Thursday for dinner with their parents, Mr. and Mrs. W. E. Gill.

Mr. and Mrs. E. G. Ridgeway and sons, E. G. and Carl, and Mr. and Mrs. Clinton Ridgeway and children, arrived at Christmas dinner with Mr. and Mrs. N. W. Swearingen.

Alex Dawson was the guest of Jack Spence over night on Thursday of this week.

W. P. Beckwith was a passenger to Buhl Thursday morning to spend Christmas with friends.

Mr. and Mrs. E. E. White were business visitors in Twin Falls on Friday.

The program given at the churches Christmas eve were largely attended, considering the severe cold weather.

A general trend to all and especially to the children, was a marked feature of the evening and much comment is due the committees in charge in completing the festivity.

Why Planets Don't Crash.

Imagine an orange on the top of the Eiffel tower and eight small specks from the site of a caraway seed to that of a pea rotating about it at distances of from ten to a thousand feet—the height of the tower itself—says Robert A. Millikan in Scribner's. Little wonder that with this immense ratio of empty space to volume occupied by matter, the planets scarcely exert appreciable influences upon one another, much less are in danger of colliding. If we tried to represent Neptune's orbit by a circle table is pushed so that the width of this page, the sun itself would be the small visible speck at the center and none of the planets could be seen at all.

Today's Sporting News

CAMP PICKS 3 ALL AMERICAN "GRID" TEAMS

But One From Far West on First Football Lineup; Stivers of Idaho in Third Eleven at Quarterback.

NEW YORK, Dec. 29 (AP)—The 1924 All-American football eleven picked by Walter Camp, dean of gridiron authorities—is notable chiefly for the selection of not more than one star from any eleven in the country and in its failure to place on the first team any representative of the "big three"—Harvard, Yale and Princeton.

The east's famous triumvirate, ancient strongholds of the game, is ignored on the first team for the first time in the 35 years Camp's selections have been made.

It marks, too, a climax in the widespread development of playing standards since 1889 and 1890, when Camp picked his first two-all-American teams entirely from the squads of the "big three" then dominant in the game, but now forced to yield their ancient supremacy to other and over-achieving rivals.

The lineups of the three teams selected by Camp and published in Collier's follows:

First Eleven

End, Bjorkman, Dartmouth.
Tackle, McGinley, Pennsylvania.
Guard, Slaughter, Michigan.
Center, Garlich, West Point.
Guard, Horrell, California.
Tackle, E. Welr, Nebraska.
End, Berry, Lafayette.
Quarterback, Stubbler, Notre Dame.

Second Eleven

End, Wakefield, Vanderbilt.
Tackle, Beattie, Princeton.
Guard, Abrahamson, Minnesota.
Center, Loveloy, Yale.
Guard, Pundell, Chicago.
Tackle, Waldorf, Syracuse.
End, Lawton, Stanford.
Quarterback, Single, Princeton.
Halfback, Pond, Yale.
Halfback, Wilson, University of Washington.

Third Eleven

End, Mahoney, Holy Cross.
Tackle, Wisinger, Pittsburgh.
Guard, Fleckenstein, Iowa.
Center, Walsh, Notre Dame.
Guard, Mahan, West Virginia.
Tackle, Gowdy, Chicago.
End, Fraser, West Point.
Quarterback, Stivers, Idaho.
Halfback, Imley, California.
Halfback, Keifer, Brown.
Fullback, Strader, St. Mary's (Cal.).

His Wife Knows Him

Jud Tunkins says he'd like to run for office, only his wife, while personally forgiving, might feel morally bound as a good citizen to vote again him.—Washington Star.

POCATELLO MAN BUYS BOWLING ALLEYS HERE

Removal of Establishment to Purchaser's Home Town Stops League Season in Middle.

Sale of Twin Falls bowling alleys to a Pocatello purchaser was consummated Monday and dismantling of the establishment preparatory to its removal to Pocatello was begun at once under direction of Walter L. Fenster, to whom contract for work of removing the alleys and equipment was let by the purchaser. The alleys are to be opened at Pocatello, it was stated, under management of Julian Roy of this city.

Sale of the alleys brings to an end Twin Falls bowling league games for the season. Directors of the league have on hand some funds that have been paid in by players which, they state, will be difficult to divide and it has been suggested that the money be expended at a banquet for all league players.

The alleys were established here about three years ago by Charles P. Larsen and P. R. Thompson, who last year sold the establishment to Jack T. Mr. Tritt spent fall and early winter months as traveling salesman in Alaska for a wholesale concern. He announced on his recent return here that he expects to continue in that occupation and offered the bowling alleys for sale.

Rare Tapestries.

Although kings were responsible for the creation of tapestries, it was in the monasteries they were preserved, for here were often received as gifts many valuable examples. As the monks were interested in early arts and crafts, it followed that many of the subjects chosen for the tapestries were of a religious character. The statement that many of these tapestries are worth their weight in gold is no fable. One fifteenth century example has a value of \$40,000, but it weighs only six and one-half pounds. Two of the rarest pieces in America are of English origin and came from the Monks' works from towns established by James I in 1603.

Japanese Ivory Carvings.

In Japan no carvings are made in factories. The artist works in his own studio. At the bottom of the piece when it is finished the maker carves his name, initials or sign. In due time this distinguishing mark comes to have a commercial value as art dealers, just as the name of a great writer has with editors and publishers. In Tokyo there is an art school in which an average of about 500 pupils a year study art under different teachers. In every art under different teachers, but in this the Japanese are but following out the rule which governs their conduct in all matters of education and progress. That is, the person who is best fitted for the profession is given the chair.

Of Venetian Origin

The word "flask" meaning a failure, is an Italian word and originally meant a flask. Venetian glassblowers were very keen craftsmen, and if one of them detected the smallest flaw in his handiwork, he turned it into a flask or common flask, and so the word came to be applied to any kind of failure.

Many Jewels Mined

One million carats of rubies, 64,000 carats of sapphires and 23,000 carats of spinels were produced by one mining company in Burma last year.

Headlined in the News of the Day

EVANGELINE WALKER and MARGOT KELLY. MRS. KELLY, noted comedienne, collapsed in a theater at Providence, R. I., and is in a critical condition because of pneumonia. Remarkable presence of mind enabled Mrs. Kelly, of the cast of "The Second Mrs. Tanganyika," to avert a disastrous fire and panic in the Court theater, New York, when a cigarette she tossed away, as part of her role, fell into a mass of artificial flowers in the stage setting. She seized the flowers and tossed them off stage just as they burst into flame, then calmly continued her role. While the audience, which had started to its feet, dropped back again into vacated seats and drowned out the actress' words in a roar of applause. Paris courts have ruled that Edith Kelly Gould, American dancer, must pay out of her own funds the cost of 50 pairs of stockings which she purchased from a Paris shop. She had endeavored to force her former husband, Frank J. Gould, to foot the bill. Jules J. Jusserand, retiring French ambassador to the United States, in effect was directly rebuked by the White House for his plea in a Washington address for a moratorium before the French war debt of \$4,000,000,000 to the United States is taken up, a spokesman for President Coolidge pointing out that Ambassador Jusserand, instead of taking the matter up with Secretary of State Hughes, virtually had gone to the country as a whole with his appeal.

September's Many Names

September falls within the zodiacal sign of Libra, the balance, or scales. September gets its name from the Latin numeral septem, because the month was the seventh of the ancient Roman calendar, which had but ten months. In the days of Charlemagne the French called the season the harvest month. Among the early Saxons it was known as harley month. The Americans called it "Moon of Falling Leaves."

Teeth of Elephants

An elephant has eight teeth, two above and two below on each side. They are huge yellow molars as wide as a man's hand. Over these their food is shifted by the queerest, ugliest tongue in the whole animal kingdom. Elephants, like human beings, have two sets of teeth. The milk teeth, which are smaller than the permanent molars, fall out when the animals are fourteen years old.

"Mother Goose"

It is not known for certain that Mother Goose was a real character. It is supposed that possibly the name is derived from Queen Goosefoot, or Berthe au Grand Pied, mother of Charlemagne. The queen was a special patron for children.

"Carillon" and "Chime"

The word "carillon" should be used to indicate the musical instrument consisting of about three or four chromatic octaves of perfectly attuned bells, played by both hands and both feet by means of a keyboard and pedal board. A chime is made up of from four to sixteen substantially diatonic bells.

Odd Writing Material

Blindstones of sheep were used by the Arabs as material on which to write when paper was unknown and many famous sayings have been found on these remarkable "paper substitutes."

For all MILK and CREAM Uses,

ORDER Today!

An Undesirable Citizen.
Rev. Harold H. Griffiths of Portland, Ore., says: "This prosperous citizen (in the parable of the rich man and Lazarus) was not dishonest, or licentious or intemperate. So far as the record goes, he never stole any money, he never eloped with another man's wife. He never guzzled any champagne. The fact is, this man stood condemned, not for something he did, but for something he did not do. His crime was that of omission, not that of commission. He was afflicted with nothing more than the damning sin of selfish inhumanity."

Birds Affected by Fog.
Curiously, although human beings are utterly bewildered by a fog, most animals find their way through it with very little difficulty. A horse will trot along in its right direction as though the air were perfectly clear, and not only that, but will take the right turning at the right moment if it is at all accustomed to the road. Birds, on the other hand, are utterly bewildered by fog. Pigeons, for instance, will remain motionless all day long, half asleep, huddled up in their pigeon-houses. Chickens and poultry of all kinds won't stir all the time a heavy fog is about.

Careless Letter Writers

It is said that 500,000,000 pieces of mail yearly receive "directory service," which means that postal employees must take time from the regular handling and dispatching of mail in the endeavor to provide correct addresses. This service costs approximately \$500 daily in the city of New York alone.

First People in Britain

Geologists are not yet agreed when and by whom Britain was first peopled. Real knowledge began with the two Celtic invasions, that of the Golds, in the latter part of the Bronze age, and that of the Brythons and Belgae in the Iron age. By the time of Julius Caesar all the inhabitants of Britain, except perhaps some tribes in the North, were Celts in speech and customs.

The Rainbow

The glow made a bridge from earth to heaven which is called Bifrost (trembling way). Thou must have seen it; perhaps thou call it the Bow in Heaven? It has three colors.—Ullshop Snorre Sturleson.

Joe-K Says:

A few weeks ago we heard a lot about Presidential Timber, but one of them turned out to be mostly "bark." Eh, What!

FAMOUS INN TO BE TORN DOWN

Five and Ten Cent Store to Take Place of Once Noted Hostelry; Oxford Grows Ugly

OXFORD, Eng., Dec. 29 (AP)—The black and white photograph of the famous inn, famous in the days of coaching and well known to American tourists as one of the old inns of Oxford, is to be torn down to make way for a Woolworth store. This is but one of the changes Oxford is soon to know, for many of the old inns will soon expire and the stately timbered houses of the Broad and Holywell, with their carved facades and overhanging upper stories, will be replaced by modern shops and garages.

Oxford is no more the quiet retreat of the scholar, but a busy and dirty trading and manufacturing town, noted for the production of marmalade, beer and cheap motor cars. The university which once held complete sway, enforcing order with its own police and bullying all more tradesmen, is now becoming a secondary interest. The town has fought the town for 600 years, often in pitched battles with swords and bludgeons, but at last the town has won.

From being one of the most beautiful cities in Europe Oxford bids fair to become the ugliest. English architecture, and especially public and commercial architecture, has created only ugly and ill-proportioned piles of stony Renaissance and half-and-corner Gothic, while the suburbs are now a dreary wall of the worst brick and glauconite.

The noise of the street traffic has become a great nuisance to students who want to work. Time was when a noisy carter or drayman was pretty sure to become the target of cloth-yard arrows shot from the windows of furious scholars, but today a regulation forbids the use of bows and arrows except for innocent sport, and now the motorist may hark his loudest in safety.

Maat-Furnishing Tree.

In Canada and eastern United States the larch, a sturdy tree which belongs to the pine family, grows 50 or 60 feet high, and is generally known as hackmatack, while in the Central states it is called tamarack. The European variety is even taller and has longer leaves which don't beautiful autumn tints, before falling. The tamarack will go up the hillsides, says a writer, "it can grow in dry land, but it loves the swamp best of all. If, perchance, a small lake has so far dried up that a thin coating of soil covers it, the tamarack creeps down and takes possession and soon the result is a tamarack swamp." On account of its long, tapering form, the tree is extremely useful for masts in sailing vessels, telegraph poles and a variety of purposes, and as it is common from the Arctic circle to the United States, it is easily found for the special use for which it is adapted.—Christian Science Monitor.

Wage Stick Battles.

Single combat in various forms survives all over the world, and different peoples have different methods of showing their prowess. In the island of Trinidad, for instance, the natives, who speak a mixture of French patois and English, call their method "playing hole" (literally stick fighting). The stick used is about a yard long and usually made from the "pole" tree, a very hard wood. This is held at each end diagonally in front of the body, and the blows are struck by releasing one hand and striking with the other left or right. In the carnival season bands from the various districts are made up and contests take place whenever two bands meet. The stick-men are extraordinarily clever at parrying blows, and an expert will stop a cricket ball thrown at him.—Exchange.

Algerian Bazaars.

The most Arab-like picturesque in Algeria is found by plunging into the little cross streets that zigzag up the hillsides. In dim lanes, where he can sit and watch the population pass up and down; where he can watch the waiting lines of over-carriers at the fountains; where he can hear the news of the quarter, and where his friends can always come and talk with him over his counter. It is a social institution.

Hold to Things of Beauty

"A farm woman's prayer" reads: "Keep ever in my soul a sense of the perspective, that my kettles and distillate may not obscure the beauty of the rose blooming outside my door, the quiver of the leaves in the summer wind and the classic purity of the snow on the valley or hill."

Tested by Difficulties

Difficulties show what men are. If they do not overcome them they demonstrate lack of power in one direction or another. If they surmount them, they prove capacity of one kind or another. Difficulties test man as nothing else can.—Grit.

Actress Is Married to Composer.

CHARLOTTE GREENWOOD

MISS CHARLOTTE GREENWOOD, star of numerous musical successes of recent years, was married in Jersey City to Martin Broome, music composer, who wrote some of the hits of the comedy in which she is being featured. Later the couple left for a honeymoon, which was cut short because of the fact that Miss Greenwood's vehicle opened in Boston on Christmas night.

Mental Travel for Educators.

We must never forget that education is a form of mental travel. Its aim might be described as that of sending the youth on voyages intellectually. Hence the inadequacy of regarding the local as the staying place, rather than the starting point, of education. We know the breadth of view ordinarily characteristic of the "traveler" man. We should seek in our schools and colleges to afford the education of the youth on voyages intellectually. Hence the inadequacy of regarding the local as the staying place, rather than the starting point, of education. We know the breadth of view ordinarily characteristic of the "traveler" man. We should seek in our schools and colleges to afford the education of the youth on voyages intellectually. Hence the inadequacy of regarding the local as the staying place, rather than the starting point, of education. We know the breadth of view ordinarily characteristic of the "traveler" man. We should seek in our schools and colleges to afford the education of the youth on voyages intellectually.

Haunted Mountain.

The Matterhorn, in the Swiss Alps, enjoys a sinister reputation—although its fascination has lured many first-class climbers and guides to their death. Its conquest by climbers in 1865—just over 65 years ago—remains the thrilling story of how on their exultant return from the summit the rope which tied the party together snapped, and four men were dashed over a 1,000 foot precipice. Lord Francis Douglas, Rev. Charles Hudson, Mr. D. Hadwin and a guide were killed instantly, the bodies of the last three now resting side by side with many other mountaineers in the little churchyard at Zermatt. The body of Lord Francis Douglas has never been found.

Curb Market in Diamonds.

One of the most interesting open air markets in the world is held five days a week in Hutton Gardens, London, where shabby men, nearly all of them Russians with long, shaggy beards and worn overcoats, buy and sell hundreds of thousands of dollars' worth of loose diamonds. Although they look like men who have scarcely a penny to their names, single transactions run into large sums. They ask no questions; they keep no books; they know diamonds, and they trust one another. One of them will not lend another \$20, but without a receipt he will give him \$50,000 worth of diamonds for a possible customer.—Youth's Companion.

Juicy Fruits Valuable

Juicy fruits are the best and most wholesome of the raw foods, and while they provide little in the way of starch, fat or protein, so large is their content of organic mineral salts that we may now justify call them nature's perfect sugar-coated pills.

SOCIETY AND CLUBS

Edited by
MRS. E. B. WILLIAMS
Phone 396

Wives and daughters of Kiwanis club members were honored guests at a "ladies' night" meeting Monday evening at the Rogers hotel at which covers were laid for 104 persons. The entertainment program included numbers of the high school orchestra and Al Marineau's jazz orchestra, singing by the Kiwanis club and three solo numbers by Nelson Hayward, who gave Harry Lander songs, with accompaniment at the piano by Mrs. D. L. Alexander. A cross-word puzzle contest was won by Mrs. James S. Hall, Miss Ruth Youngs, Merlin Batley and J. G. Barkley. Attendance prizes consisting of potatoes donated by Alvin Harbour, chairman of the attendance committee, were won by P. W. McRoberts and Dr. Hal G. Bieker.

Mr. and Mrs. A. J. Peavey were hosts at an informal dinner Saturday evening at their home on Seventh avenue north. Covers were laid for 12 and following dinner the evening was spent with cards.

Mrs. F. W. Dunbar, Mrs. H. C. Gettler and Mrs. I. H. Masters are entertaining at bridge this afternoon and also on Wednesday, at the home of Mrs. Masters on Second avenue north.

Miss Julia Hunter, daughter of Mr. and Mrs. T. E. Hunter, entertained Mrs. C. D. Irwin's class of girls in the Presbyterian Sunday school with a delicious four course dinner Friday evening at her home on Maple avenue. After dinner there was an exchange of gifts from a beautiful Christmas tree. The rooms were attractive with evergreens and the red and green emblems of the Christmas season. The guests numbered 18.

The wedding of Miss Ogretta Murray and Lyle G. Carpenter of Baker, Oregon, was solemnized at high noon Sunday in the Baptist church, the Rev. W. J. Agnew of Ustick, officiating. The church was beautifully decorated in green and white. Just before the ceremony Mrs. L. H. Masters sang "I Love You Truly." The bridal party entered the church to the strains of Mendelssohn's wedding march played by Mrs. Carl Benson. The bride wore a beautiful gown of white cotton crepe with a long veil which was carried by her little sister, Nan, who wore a pink and white dress. The bride's bouquet was of calla lilies. She was attended by

her sister, Miss Veronna Murray as Matthei Duke, Beth Flier, Regina Jenks, Mildred Dietrich, Ruth Kobs, mauve georgette, and her bridesmaids, Misses Ruby Warberg and Miss Mildred Kobs, who wore blue georgette, and Miss Hazel Koss and Genevieve Lewis, who wore pink. All carried bouquets of sweet peas. Veronna Murray, brother of the bride, was best man. Immediately after the ceremony a wedding breakfast was served at the Hotel Rogers, with covers for the bridal party, Mr. and Mrs. E. J. Murray, Otto Murray and Miss Joseph Keefe. The bride is the eldest daughter of Mr. and Mrs. E. J. Murray, a member of the class of 2122 of the Twin Falls high school, and is an accomplished musician. Mr. and Mrs. Carpenter left on the evening train for Baker, Oregon, where the groom is engaged in business and where they will make their home. The bride's going away gown was of black velvet. With it she wore a beaver hat and cent to match.

Fourteen Twin Falls young people enjoyed a delightful sleighing party Friday evening. After the ride they adjourned to the home of Miss Eunice Boone on Blue Lakes boulevard for refreshments.

CARD OF THANKS.
We acknowledge with grateful appreciation the sympathy and kindness of neighbors and friends, and the helpful ministrations of the Elks' lodge, in our time of bereavement.
Mrs. G. O. Street and Family.

Everything for QUALITY—nothing for show

THAT'S OUR IDEA in making
CAMELS—the Quality Cigarette.

Why, just buy Camels and look at the package! It's the best packing science has devised to keep cigarettes fresh and full flavored for your taste. Heavy paper outside—secure foil wrapping inside and the revenue stamp over the end to seal the package and keep it air-tight.

And note this! There's nothing flashy about the Camel package. No extra wrappings that do not improve the smoke. Not a cent of needless expense that must come out of the quality of the tobacco.

Camels wonderful and exclusive Quality wins on merit alone.

Because, men smoke Camels who want the taste and fragrance of the finest tobaccos, expertly blended. Men smoke Camels for Camels smooth, refreshing mildness and their freedom from cigarette aftertaste.

Camels are made for men who think for themselves.

High, 1924 118.28 102.09

Low, 1924 102.27 81.

Total sales stock 2,047,600 shares.

NEW YORK, Dec. 29 (AP)—Stock prices developed considerable irregularity toward the close of today's market after an early period of strength, during which more than three acres of the highest quality real estate in industrial averages showed net declines on the day. Total sales exceeded two million shares for the first time since December 19.

Lowering of the renewal rate on call money to 4 per cent, establishment of the highest quotations in five years for sterling exchange, and the uncertainty of holiday demand for stocks and currencies influencing the early rise.

Deadly French Mistral.

The mistral is a famous wind which blows cold and strong in southeastern France. In the districts where it prevails the trees all lean toward the southeast, and the gardens must be protected on the northwest side, from which the wind comes, by lofty walls. One winter in Marseilles a carriage in which a woman was driving was blown bodily into a canal by the mistral and both the woman and the horse were drowned. In consequence of this accident and of other manifestations of the power of this destructive wind orders were issued that no vehicle should be allowed to drive alongside the canal or the waterfront of the harbor while a mistral was blowing.

Mahogany in Hawaii

Hawaii supports on its several islands an adequate timber supply covering slightly more than 1,000,000 acres. They are tropical forests, with considerable mesquite. The commercial value of the woods is not great, however, as the Hawaiian mahogany, being the most valuable, is the Forestry Department of the American Tree Association. This is a valuable wood for protecting watersheds and is the dominant wood in the native forest.

Hindu Delicacy

A delicacy much prized by the Hindus consists of bamboo seeds roasted and afterward mixed with honey.

TWIN FALLS MARKETS

These prices are obtained daily at 4 o'clock in the afternoon and are intended to cover only the average of prices. Where certain dealers for short periods offer more than the quoted prices an effort is made to include such quotations. Quotations are offered merely as a guide to producers and should not be accepted as reflecting extremes of either high or low prices.
