STORM WRECKS BUILDINGS ON PACIFIC COAST

Northern and Central California Hit by High Wind; Man Killed; Bridges Washed Out by Tempest.

SAN FRANCISCO, Feb. 12 (AP)—Northern and central California was receiving tonight from the preliminary buffet of a storm that was severe enough to rip numerous buildings from their foundations, cause at least one train wreck, wash out railroads and highways, uproot telegraph and power wires and even change the contour of the landscape in places by causing tremendous landslides.

The storm is not over, according to the United States weather bureau, but it is generally believed that the "peak" has passed and that there will be a quick subsidence of the elemental gusts that have for some time been thousands of dollars damage and indirectly taken one life.

Collar Caves In
John Watson, a former mariner and former resident of Aberdeen, Wash., was killed in a collar cave near Sitka, Alaska, north to Napa. Two fellow workers, J. R. White and C. D. Clark, were injured, White seriously. The collar has been undermined by flood water.

Flood waters were receding gradually, but the railroads and highways of the storm region, particularly in the coast counties, presented a series of miniature lakes and landfills.

The Northwestern Pacific railroad, virtually bereft of all service except early yesterday morning, hopes to get two stalled passenger trains through from Eureka tonight. This railroad ran stub trains between local points where the storm lakes and landfills along the right of way permitted. "It was on this line that the wreck occurred, the locomotive and two coaches of a southern passenger train striking into a rain forest slough at Novato, 25 miles north of here, and overturning."

CHAMBER OF COMMERCE OPEN MEETING CALLED

Outline of Past Achievements and Future Activities of Organization to be Presented to Members.

The Twin Falls Chamber of Commerce members at an open meeting this evening in the Elks club room, to be presided by S. L. Hodgins, president of the organization, with a review of its activities during the past year and an outline of proposed activities for the coming twelve months.

Mrs. Evelyn Ahlrich, who recently negotiated the sale of the Copper School building property at Contact for \$2,000 to European investors, also is to address the meeting, setting forth her estimate of the possibilities for development of resources of this region.

Diphtheria Breaks Out Anew in Nome; Other Cases Feared

Epidemic Thought Under Control in Alaska Again Giving Trouble, Doctor Reports to Board.

NOME, Alaska, Feb. 12 (AP)—A second case of diphtheria was reported here today after an epidemic which straddled the middle of January and took its toll had been pronounced under control.

Dr. Curtis Welch, in charge here for the United States public health service, had agreed with the board of health that quarantine should be lifted February 20. This last previous case was reported one week ago today. The new patient is Bob Wolf, a bachelor, who lives in the town of Nome.

Dr. Welch expressed a fear that a number of cases might be found among persons living in "shacks" and seeking to avoid being under quarantine for a month.

ANTITOXIN ON WAY
RUBY, Alaska, Feb. 12 (AP)—Antitoxin being carried by relay dog teams from Nome to diphtheria-stricken Nome, placed Whiteback between Kaitik and Unalakleet at 2:10 o'clock last night, according to information received today. It was expected to arrive in Unalakleet three and one-half hours later.

RESCUERS NEAR FLOYD COLLINS IN SAND CAVE

Miners Strike Cavern Which They Think May Lead to Entombed Explorer; Preparations Made for His Removal.

CAVE CITY, Ky., Feb. 12 (AP)—Workmen in the San cave rescue tunnel late tonight were nearly to the two-foot limestone roof of a cavern which they hope will lead them to the tomb of Floyd Collins.

"We are now rarely in the cavernous area," said an official bulletin late tonight by M. E. B. Tossy, secretary of the state highway department and engineering representative of Governor Fields. "We are removing dirt four times as fast as we sink. The shaft is 45 feet deep on the lower side and 35 feet on the higher side and the core drill penetrated limestone into a cavern at 50 feet, a little over two feet below the bottom of the shaft."

Start in Solid Block
As soon as the fifth-section of shaft having to be placed in the core drill was examined by Dr. W. D. Bannaker, geologist in charge of the rescue staff, T. Carmichael in charge of the engineering work, and Mr. Tossy and they agreed that the cavern was a solid block of hand. While the tunnel below the limestone roof might be filled with sand or silt, they indicated they were sure it could be cleared out to lead to some opening through which Collins might be reached.

Debate in Prospect
Chairman Cummins, of that committee, who was one of those to confer today with the executive, expressed the belief that action could be deferred, holding that with extent of debate in prospect, the nomination should not be pressed because the inevitable result would be the blocking of important legislation on the senate program for the remaining three weeks of this session.

ROMANCE

You often hear people refer to the "dear old days of romance"—to the time when knight-errants roamed the earth to do honor to a lady's blue eyes.

These folks say we are living in an age of realism! An age of "realism" where the human voice is hurled across the world without wires; where the temperature of Mars is taken more than thirty millions of miles away; where tons of steel and people ride easily and safely through the air or under the sea!

An age of realism! Why, this is the most romantic of all ages!

The advertising columns of this paper are full of romance—the romance of men who have devoted their lives to bringing new comforts, conveniences and pleasures for mankind.

Advertisements tell these stories, not with the romantic exaggeration of a jongleur, but with the calm, simple words of sincerity. Here is a firm that spent millions to develop a product that makes your baby comfortable. Here is a company that has labored fifty years to cut a single hour of toil from your day's work. Here is a man who has searched the Seven Seas to produce a new flavor for your dinner.

Romance—this age is full of it. Not just empty romance, but the true romance of achievement, of progress, of the betterment of mankind.

Advertisements tell you what the romance of business is doing for you. Read them.

SETS GOAL FOR TWIN FALLS BOY

H. R. Risley of Boise Urges Scouts to Make the Most of Possibilities.

Adherence to Boy Scout principles amid such favorable natural surroundings as exist here should produce the finest type of boys to be found anywhere, H. R. Risley of Boise, executive of the northwest regional scout executive board told an audience of nearly 400 persons assembled Thursday evening at the high school auditorium at a Boy Scout demonstration that marked a central event in the observance here of the fifteenth anniversary week of the Boy Scouts of America.

The demonstration was the occasion for the first appearance in public of the newly organized Boy Scout orchestra under direction of the exercises with Prof. Sanger, a scout, an assistant director. This organization furnished music at intervals between the several numbers of the program.

Robert Hogan, an eagle scout, participating in the ceremony, presented a scroll in an address of his own composition.

Attention, Farmers

1925 is the year to put a reasonable part of your good land in sugar beets.

We do not know of a failure in crop following a winter when we have had good frozes with sufficient moisture.

Seven per cent of the available land, properly formed to beets, will insure a 120-day run for the Twin Falls plant, which has stood idle this year.

By utilizing the by-products from beets 200,000 lambs can be fed with your surplus hay and still produce enough milk and butterfat to supply the state of Idaho.

Beets are the best cash crop grown on the Twin Falls tract because when the crop is raised the market is ready and price fixed so that the farmer who has enough beets to pay his taxes and other obligations is able to hold his beans, potatoes, wheat and hay until the price suits him.

The 1925 Contracts are now available and are the only profit-sharing contract ever and above an amount guaranteed price that is in existence today.

Now You Too Can Get This Delicious Fruit-Flavored Dessert - Four Reasons Why You'll Like It Best

Jell-well—California's gem of all desserts—is now here! Your grocer now has it or will have it soon. He will get it for you if you ask him.

For years it has been the favorite among housewives on the Pacific Coast—and for definite reasons.

Jell-well is always successful, because it jells well. No disappointments, no failures with this dessert—pure gelatine assures this feature.

The pure gelatine we use gives forth only an appetizing aroma of the fruit flavor when hot water is added! Then and there you will know that Jell-well is a new treat for you!

Jell-well is easily prepared—it is free running (not lumpy), dissolves as quickly as granulated sugar. Handy, convenient—made in a jiffy.

California or any other state has never before produced a dessert so

Four Reasons Why You'll Like Jell-well Best: 1. Fruit-flavored gelatine, only made by the factory (grapefruit when hot water is added). 2. This is a "free running" gelatine—ready granulated (no lumps)—dissolves very easily in hot water. 3. Contains fruit flavors and is a "jiffy" dessert. 4. Never so good as it looks.

delightful to look upon—or so delicious to taste. Jell-well is a jewel on the table—the certified colors we use make it the most attractive dessert we know. And you have six true fruit flavors for your choice—anyone of which will be a favorite in your home.

Try Jell-well, California's "gift-giver."

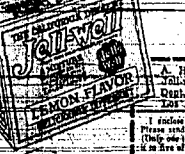

Just see how delicious it is, how quick and pleasant to make, how invariably successful. Once you try it you will want no other.

But... insist on Jell-well, in the red box, if you want these qualities in a gelatine dessert. California produces it, likes it, and now offers it to you.

Our Free Offer

Want for Limited Time Only! I want you to try Jell-well, the California Dessert. I know if you do you will prefer it to all others. And I want you to tell your friends about it, too. So I make this FREE offer:

METEORS MEET JEROME TONIGHT

North Side High School Boys' and Girls' Basketball Teams to Play Twin Falls.

The Jerome basket ball team will play the North Side High School team this evening in the first in a series of games in this district during the present season. The Twin Falls team hope to make amends for the victory the Jerome team had over the Twin Falls team in the game played on several weeks ago at Jerome. The Jerome girls ran up a big score of 62 to 3, but according to the local fans the girls' game has improved at least 100 per cent over that played in Jerome. The boys had their game by a close score and in the opinion of those who follow the Twin Falls team should take the game by a small margin.

Coach Platinus is planning on using the same men who have captured the regional title for this season. The team and possibly Louis Cole lead in suits although it is doubtful as to whether the lucky Cole will get in the fray. The Meteors have had a good record since they started since that time and Platinus hopes to bring them out of their slump which may be due to too much work.

The girls have been working hard and are showing a good deal of improvement over that of the last game. The forwards have been drilled on long shots which all but won the Tyler game. Coach Sandberg of the Jerome has a big squad working out and according to those who saw them play the locals at Jerome may be rated as one of the best teams of this district. Sandberg will be rewarded by the local basket ball fans as the man who coached the championship team of Oakley.

JOBS IN STRAITJACKET. KANSAS CITY, Mo., Feb. 12. (AP)—Wayne ("Big") Mann, world's heavyweight wrestling champion, successfully defended his title here last night but fast match here last night by losing Stanislaus Zyzanski, veteran Polish wrestler, with the crowd and local hold.

Lad Got Bargain. Standing in front of a bake shop, a crowd was watching an automatic cash register turn out doughnuts. A sign announced that the price of the doughnut was 30 cents a dozen. In the crowd row of the crowd was a small negro boy. As he passed his nose against the window his attention was attracted to the sign and he counted over in his hand. Thirty cents a dozen would be more than two cents apiece, and less than three cents. Finally he entered the shop and indulged in the girl's doughnuts at the register that he pointed out. She handed it to him and he took the proffered coin. Then, noting that he had given her three cents, she called him back and returned one of the doughnuts. A look of astonishment appeared over the architect's face. They realized he had made a bargain, he walked across the street, snatching his doughnut.

INVOLVE NEW ISSUES IN SUIT OVER HAY CROP

J. P. Martin, in "Cross Complaint" against E. T. Huestetter, Asks That Once Due on Lease.

The suit of Levi F. Huestetter against E. T. Martin and M. E. Huestetter, for restraining order against foreclosure of a crop mortgage, against certain hay crop, and answer and cross complaint were filed in district court here Thursday by defendant Martin through Sweeney and Sweeney, attorneys.

The answer denies Huestetter's claim that he has in question and asserts that defendant has no knowledge as to whether Huestetter is the owner of this hay which is alleged to have been grown on land subleased by Huestetter from Wesley E. Hanson.

The cross complaint defendant Martin filed in the district court is for judgment for \$175 which is claimed as the balance due in payment on account of hay given by Martin to Hanson.

The case was set for trial at 10 o'clock by the county and Mrs. O. B. Peairs for court order restraining payment of dividends by the defendant Sweeney, solicits an agreement under which Huestetter to purchase of shares of stock in the corporation, an answer has been filed in district court by defendant W. M. and Nora B. Peairs. The answer denies that Huestetter is the owner of this hay which is alleged to have been grown on land subleased by Huestetter from Wesley E. Hanson.

Commercial Caudor. Increasing banking was provided by the advertisement of a new photo play, recently, to the effect that "This new play will cost a million dollars. It is not to be produced, but still so believe it to be a good thing." Caudor like this cannot but make a good impression on the reader to whom claims of extravagant sums spent in the movie studios, with results that many persons feel justified in characterizing as worthless, have come to mean little.

LUNcheon AND FOOD. The Unlucky Task. Even when we have learned the ordinary duties of life, so they no longer have power to feel his as such as a man who is the subject of a task. He wanted retains a nightmare hold upon nerves and brain. How often we dislike a duty simply because it interferes with a plan, and we stow over the difficulties of our particular lot and make the obstacle to peace in the same quality of spirit we bring to the task we face. It is, perhaps, too much to ask of humanity that we ever have shall be as untroubled as that we would. But meet the unluckiest task as a challenge to strength and patience, as without any doubt, in the sight of the angels, something we need to do for our soul's good and get it done and over with.

Pronothus. The word Pronothus, the name of a character in Greek mythology, means forethought, and forethought is the father of invention. According to the Greek tradition, Prometheus brought man the use of fire, and punished him in architecture, astronomy, mathematics, writing, reading, navigation, medicine, the art of prophecy, working metal, and, indeed, every art known to man. The tale is that he made man of clay, and, in order to endow his clay with life, stole fire from heaven and brought it to earth through a hollow tube. HANSEN SCORES NEW TRIUMPH

Corn Show and Farmers' Institute Closing Session Provides for Next Year's Event.

HANSEN, Feb. 12.—(Special to The News)—Hansen's annual corn show and farmers' institute last year was the most successful when members of the Men's Community club, one of the sponsoring organizations, traveled their membership with payment of one dollar annual fee at closing session of Hansen's second annual corn show and institute.

Hansen Community church was crowded to capacity at the closing session this evening when Dean E. A. Tidings of the University of Idaho college of agriculture, spoke on "The Romance of Agriculture," and Dr. W. H. Smith, president of the agricultural industry and outlining an agricultural program for this region. The evening session opened with prayer and music and closed with the singing of "God Be With You Till We Meet Again."

Officers of the Hansen Men's Community club were elected at the evening session. Willis Simpson being re-elected president, and other officers being elected as follows: Vice president, A. R. Scott; secretary, O. J. Hollister; treasurer, Charles A. Ward.

Prize Awards. Five men and boys of the Hansen district who own eight out of a possible 12 corn show prizes were awarded the Cady-Traker grand corn prize, and in the Amalgamated Sugar company's guessing contest in the 400-500-gallon range and three grand prizes which were contained best sugar, prizes were awarded as follows: First, Ed Durk; second, Mrs. Albert McLevy; third, Gus Town.

MEAT PROSPECTS GOOD. NEW YORK, Feb. 12.—The outlook for the meat packing industry is much better than it has been for a long time. The January earnings were about 50 per cent more than in the preferred dividend requirements on the monthly basis. From present indications 1925 earnings should be 10 or 15 per cent better than in 1924.

THE ORPHEUM THEATRE

Matinee and Night—10c and 30c—Today and Tomorrow

A mighty drama laid in Dakota had lands where Theodore Roosevelt spent much of his youth on the trail of bear and bison.

Clarence E. Mulford's famous novel, "The Orphan," is a sunshiny story of the days when the Iptian ruled the west.

A great cast with hundreds of Indians and cowboys.

Photo drama of a thrill-a-minute clip!

William Fox presents
Tom Mix
and TONY the wonder horse
in The DEADWOOD COACH

Positively the greatest outdoor romance produced this year.

A feature that critics declare more than equal to previous successes like "Sundown" and "The Covered Wagon."

Facts About The DEADWOOD COACH

- 1—First stage coach in the west put into service, May, 1840, running from Independence, Missouri, to Santa Fe, Mexico.
- 2—Original Deadwood coach, built in 1863, now at Smithsonian Institution, Washington, D. C.
- 3—The Deadwood coach made of iron to make it bullet proof, thus being forerunner of modern armored cars.
- 4—First coach drawn by six horses and protected by eight armed guards.
- 5—Later William F. Cody, "Buffalo Bill," used the Deadwood coach at attraction with his show.
- 6—When "Wild West show" played London in the 80's, four European kings, during special performance, sat inside coach.
- 7—Original Deadwood coach, ran from Cheyenne to Deadwood, B. D., a pedantic route infested by bandits and Indians.
- 8—Gold discovered in Deadwood in 1876, making every trip a life and death gamble for passengers.
- 9—On one trip Miss Lodi attempted to ride this "big show" down in history.
- 10—Many scenes in this production photographed in the picturesque bad lands of South Dakota, where the late Colonel Theodore Roosevelt spent his youth trailing bear and bison.

Also comedy by Richard Harding Davis, "Paul Jones Junior," and Aesops Fables.
