ALL CANDIDATES READY FOR RACE

Nominees for Mayor and Council Formal Acceptances.

All candidates heretofore nominated for mayor and two councilmen of Twin Falls to be elected next month have filed their acceptances and their nominations are to be certified to the municipal commission at its regular meeting, the next Monday evening at which time call for the municipal election is to be issued, according to J. L. Mey, city clerk.

The first election is to be held Tuesday, April 7, and the second election is to be held on the 14th.

The candidates who have accepted nominations are:

Edgar L. Ashton for mayor; Ralph B. Smith and S. B. All for councilmen.

J. A. Finch for mayor; T. J. Douglas and L. A. Moon for councilmen.

Each of these candidates who are to be nominated at the municipal election two years ago are not required to register again for the election this year, but citizens who have moved within the past two years from one voting precinct to another are required to obtain certificates of transfer at the city clerk's office, where the registration books are kept.

Registration books will be ready for inspection up to and including the Saturday preceding the first election.

CROSS-WORD PUZZLE STORY A PRESENT FOR MOTHER

Do you think Mother would like a nice sofa 1-2-3-4-5-6 for her birthday present?

I saw a nice blue 1-7-13-19-25 one at the store. It had a picture of a boat 5-9-16 on one side. He 22-27-32 on a branch and looked quite 11 if you might have him for a 33-31-22.

The storekeeper showed us another cushion. I think he was French, for he said "16-17, 16-17" instead of "25-26, 25-26".

There is a picture of a spider 9-10-11-12 on this one and a garden full of different colored pieces of grass. Sister said the gardener probably used all different kinds of 19-23-22 for the lawn.

"I always tell the truth and never have 3-8-15-21 to any of my customers," said the storekeeper. "So I must tell you that cover cannot be washed unless you 13-14-15 the very best 14-20-26-30 suits. It will 6-10-17-23-29-33 the stitches to rub it much and it will 33-31 doubt fade a great deal!"

27-28-29 you sure Mother won't like this one with the 12-18-24 knot on the side? I think it is much the best.

Members of the P. C. club entertained with one of the most elaborate social affairs of the season at Dance held Thursday evening. The guests centered the room which was beautifully decorated to represent a Japanese garden over a Japanese span bridge. Overhead was a canopy of pink crepe paper and many wind bells and Japanese lanterns added to the effect, while along the sides of the rooms were cushions and easy chairs. In one corner of the room there was a wishing well and in another a tea garden where tea and rice cakes were served with much during the entire evening by Miss Violette Wilson, Mildred Dietrich, Dorothy Parks, Regina Jenkins and Marjorie Duke. The Misses Mattie McMaster, Jessa and the "Coke" officers of the club, formed the receiving line. Dining began with a grand march led by Miss Mattie McMaster and Pat Daily. Other features of the evening were an orchestra and two acts, for which the girls who were received, wore bouquets of violets and roses, and the boys winning were presented with neckties. Interspersed between dances were catholic dances by Janet Pitt and a number of vocal selections by Mrs. J. A. Dyer. The affair was chaperoned by the parents of the club members. Two hundred invitations were issued. The music was furnished by the Blue Bird orchestra.

The Presbyterian missionary society met at the home of Mrs. E. W. Beardsley Thursday afternoon. Mrs. H. C. How Cheese Got Name

"Jack cheese" sometimes known as Monterey cheese, originated in Monterey county, California, and was first made about 1822. The method grew out of a need for disposing of surplus milk at a small expense for equipment, and because of this fact it can be made on farms where only a small amount of milk is available.

Brain and brawn pay tribute to this coffee of the West

As you hover over a cup of Hills Bros. Coffee, the aroma that floats upward sets your whole being astir. Eagerly you lift it to your lips and dash it down! Every drop. That first savory sip tells you the aroma has not held out false promise.

Stimulating alike to mind and muscle, Hills Bros. Coffee is the favorite drink of the coffee-loving West. Just break the vacuum seal of a tin of Hills Bros. and liberate that wonderful aroma! Brew a cup and taste that marvelous flavor! Any wonder they call it "The Recognized Standard from the Coast to the Mississippi?"

To insure this rare flavor reaching your table in its original freshness and strength, Hills Bros. originated the vacuum pack for coffee. It is still fresh whenever you break the seal—days, weeks, even years later! Hills Bros. Coffee is economical to use.

Because She Loved Him So

She was only seventeen, beautiful, fresh and whole. He was only twenty, a little wayward, but his eyes were heavy-lidded and his smile appealed to his loved fancy. And she married him—or rather, her parents sold her to him. Then youth and love—strong clean, fine—came between them. They were happy, but she was not content. What could she do? She found an answer to her question—but through a process so strange, so startling that it made her heart beat as if it were a drum. Don't miss this true story. It's the only one of its kind. With it in your hand, you'll have a name for April. And this is but one of 25 astounding features.

CROSS-WORD PUZZLE

SUGGESTIONS FOR SOLVING CROSS-WORD PUZZLES

Start out by filling in the words which you feel reasonably sure. These will give you a clue to other words crossing them, and they in turn will clue others. A letter belongs in each white space, words starting at the numbered squares and running either horizontally or vertically or both.

GIRLS' TITLE AT STAKE AT BUHL

Clash Between District Champions Seems Likely to Determine State Championship.

BUHL, March 12.—(Special to The News)—The girls' basketball team arrived here this evening to compete against Buhl girls in the Buhl high school gymnasium Friday evening in what has been announced as an inter-district title contest. In which the state inter-scholastic championship for girls' basketball teams seems likely to be decided.

Buhl girls hold the title for the south central district, and Parma girls are champions of the southwest district. There are only two other athletic districts in the state. The eastern district has developed an outstanding champion for the state, or even for district title, and no reply has yet been received from the northern district to challenge sent out by M. M. Van Patten, superintendent of high schools.

Aside from the prospect for determination of the state championship, interest is keen in the Parma-Buhl girls' contest here Friday evening because of indications that it is to be a hard fought contest and one that will be decided by a close score.

Parma girls have almost the same lineup as last year, when Buhl girls defeated them at Parma in a score of 24-23. Buhl's lineup is practically the same as last year.

The game has been called to begin at 6:30 p. m. in order that it may be finished early for the public school elementary contest which also is to be held here Friday evening.

BREAKS RACE RECORD

NEW YORK, March 12.—(AP)—Havay Nurnal of Finland broke his own 3,000 meter record tonight in a special two mile race. His time of 8 minutes 56 2/3 seconds, bettered by 2/3 of a second the mark he made in Madison Square Garden January 15.

WANTS RETURN MATCH

CHICAGO, March 12.—(AP)—Bill Sandow, manager of Ed "Strangler" Lewis, will offer \$50,000 to Gabe Kaufman, manager for Wayne Munn, for a return match between these two champions of the world's heavy weight wrestling title, when the wrestlers come here to witness a mat about next Tuesday. Sandow announced tonight.

FERGUSON RIGHTS RESTORED

AUSTIN, Texas, March 12.—(AP)—Legislative assembly for James E. Ferguson, state ex-governor, was unanimously reported today when the house of representatives finally passed the World War bill restoring to Ferguson "the civil rights taken from him by the judgment of the court of last resort." FERGUSON 1917 found guilty of treason for charges and removed him from office.

POWER MERGER TAKES IN MANY COMPANIES

(Continued from Page 1)

TUTMAN ISSUE, STAYING...

BOISE, March 12.—Operations of the Idaho Power company will not be affected in any way by the formation of a new electric corporation, a holding company which has been organized to take over certain of the securities of the Power Securities corporation, New Orleans Public Service, Inc., Dallas Power and Light corporation, a holding company and the assets of the Utah Securities company.

The Idaho Power company will continue to be managed as heretofore by a board of directors and by local officials.

The above statement was made today by W. R. Tutman, vice president and general manager of the Idaho Power company, in regard to an announcement received from New York with respect to the organization of a holding corporation which has obtained securities of the Power Securities corporation.

The common stock of the Idaho Power company.

According to Mr. Tutman the various local companies joined in this ownership last year did a business of over \$35,000,000 among a population of 1,175,000, with over 300,000 customers and have 500,000 horse power electric generating plants.

"The benefit of the organization," according to the statement, "is that it brings together a diversity of earnings that makes for a greater financial strength in the new company than in the several individual companies, with the result that the financing of the future growth of the Idaho Power company can be accomplished at a much more favorable cost than would otherwise be possible. There will be no change in the securities of the Idaho Power company. We will continue our program of increasing ownership of the company by our own customers. At the present time more than two-thirds of the owners for the stock are customers of the company. The Idaho Power company's performance will become more attractive investment by reason of this consolidation."

COOLIDGE FACES THE CABINET POST ISSUE

(Continued from Page 1)

For reconsideration saying that he was afraid the appointment would be rejected again by three or four votes. Some of the cabinet members who had advised the president against re-submitting the nomination expressed a like apprehension.

There were indications that neither side would be disposed to delay a vote and the consensus seemed to be that action could be had within two or three days.

Favorable Report.

A third favorable report on the nomination by the judiciary committee tomorrow is the plan, but the situation as to immediate action consideration is complicated somewhat by the filibuster in the late of Finis treaty.

There were suggestions today that Mr. Warren might be invited to appear before the committee to reply to the attacks made on him in the senate with respect to his former connections with the sugar interests, but there was no official information on the subject.

Chairman Cunniff said he had no intention of having Mr. Warren before the committee unless he indicated a desire to appear, and that in any event the matter was one for the committee itself to decide.

SESSIONS RUN OVER DAY SET FOR CLOSE

(Continued from Page 1)

Republican whip, and Willis of Ohio, argued against such a plan, taking the position that the party had gone far enough already in "disciplining" these senators for their failure to support President Coolidge in the election last year.

The republican conference also adopted a resolution stipulating that no senator attending a party conference would be bound by any action taken, but would be entirely free to act upon any matter considered by the conference as his judgment might dictate.

WASHINGTON, March 12.—The greatest enemy of the livestock industry this spring is financial help to replace the cattle on the ranges and increase the breeding herds, Commissioner Cooper of the federal farm loan board declared tonight on his return from an extended tour of the agricultural sections at the request of President Coolidge.

Mr. Cooper is convinced that all branches of the agricultural industry are moving forward satisfactorily except livestock which he asserted although the threat to recover from the depression struck bottom, some months ago and is now on an upward trend. He attributed this improvement to several factors: First, there is ample credit available immediately for use in financing the industry generally.

Cattle Loans Rate

Second, practically all existing restrictions in the farming areas now regard cattle loans as safe and are supplying important help to it.

Third, depletion of the ranges and the general liquidation of livestock has reduced the number of cattle in all sections and the future of the industry is brightened by the evident future requirements of food.

WOOL GROWERS MAKE ALLIANCE FOR MARKETING

Financial and Other Advantages Brought to Idaho Producers Through New Method, Association Secretary Declares.

Through an association with the Wool Growers' Service corporation of Yakima, Washington, which took place in the office of the Twin Falls county auditor, the Idaho Wool Growers' association is bringing to Idaho producers a method of marketing their clip that has become important to the wool grower in this section.

The new marketing method, Mr. McLean stated, was not originated but is held in the owner's name and subject to his orders. It is not pooled but remains in the original bags and is sold in the market. It is stored in warehouses at Portland of the Western Warehouse company, a bonded and licensed warehouse giving full protection.

Financial Features.

The plan offers financial advantages to the wool grower in that it provides a pre-paying advance of 41 per cent of the value of the wool as it is available and as soon as the wool is available at the warehouse and appraised the owner is privileged to borrow up to 41 per cent of the appraised value at 4 1/2 per cent interest with no commission at other charges attached. Officials of the Idaho association and of the service corporation expect wool to sell this year at 45 to 50 cents a pound, a price as high as received in 1919. In a recent interview J. P. Sears, secretary of the service corporation, expressed his opinion that wool prices here have been the lowest for several years. He said that the wool market is showing a decided shortage of wool, with a consequent increase in price. He stated that wool in Japan is selling at a price higher than ever before and is competing keenly with British and American wools in Australia and other foreign markets.

HELD TO ANSWER FOR THEFT OF SHEEP PELTS

Three Accused Men Face Trial in District Court Here on Grand Larceny Charge.

Joe Jon Gonzales, Paul Decker and Leo Perkins, as a result of decision by Judge J. E. Hough at the conclusion of a preliminary hearing in prison court here Thursday afternoon, are held to answer in district court to grand larceny charge of theft of 45 sheep pelts from the property of the late John W. Perkins, Fourth avenue south, last February. The accused men were admitted to bond in the sum of \$100 each, which was not furnished and they were remanded to the custody of the sheriff. They were represented at the preliminary hearing by O. W. Witham of Postor and Witham, the case for the state being conducted by Prosecuting Attorney J. W. Taylor. The accused men are alleged to have offered for sale at the junk house a number of the pelts they are alleged to have stolen from the establishment a few days previously.

INDIVIDUAL STORAGE ISSUES UP ON APPEAL

Balmon River Canal Company Carries Contention Overlaid by Judge Lee to State Supreme Court. Reason on appeal to Idaho's supreme court in the case of R. Olavin against the Balmon River Canal company, involving validity of individual water storage rights in Balmon River reservoir, has been completed by C. L. Bowen, clerk of the district court here. Appeal was taken by the canal company from judgment rendered by Judge T. Dalley Lee in district court at Burley, in July, 1923, holding against the company's claim of right to hold storage rights in the reservoir. The company is asking for a writ of habeas corpus to deliver available water in 1925 on a pro rata basis to all water users of the Balmon River project. Olavin was represented by John W. Graham and the canal company by its attorney, J. R. Holwell.

Kimberly Epworth League Members Offer "Rich Young Man" Before Appreciative Audience.

KIMBERLY, March 12.—The Epworth League play, "The Rich Young Man," which was given at the Kimberly high school auditorium, was Wednesday night, was attended by a large and appreciative audience and in every way was a decided success. The play depicted the rich young man in his rebellious garden surrounded with every luxury, attended by many slaves. The time of the play was within the ministry of Jesus. There were several who sought to dissuade him from his path, but he was determined to follow the will of his father as a member of the nobility because of his interest in Christ and his kingdom. "The boys and girls who made up the cast were very well prepared and their individual performances were most beautifully arranged and lighted to suit the occasion.

COFFEE AS A BEVERAGE GROWS IN POPULARITY

Five Hundred Cups Per Person Year Consumed Annually in United States, Says Statistician.

Did you drink 500 cups of coffee last year? Statistician say you did. For the department of commerce estimates that 55,000,000 cups of coffee were consumed in the United States during 1923, and this was an average of 500 cups per person.

This gives coffee, first place in the list of staple groceries used by the average family. Though coffee is consumed on practically 365 days of the year by at least one member of the average family, how well it is prepared? How many of your 500 cups, for example, were really good?

Not another part of a meal is thrown together as carelessly as the average cup of coffee. Many a housewife spends hours preparing a meal. She pinches the ingredients for the white sauce, the light bread and the dessert, but when it comes to coffee she just dips into the coffee can and never thinks of measuring the water.

Variation Necessary.

Little wonder that the coffee enjoyment of the family varies from day to day when coffee is made in this manner. But, perhaps the most common—Monday and on Tuesday says it's too weak. Usually the coffee, not the coffee maker, gets the blame.

You hear such statements as "every year my husband's coffee has become weaker than the one before." But is this true? Today the reputable coffee manufacturer can afford to materially change the blend or strength of his coffee. HELD FOR FEDERAL COURT

Blackfoot Man Charged at Filer to Answer to Charge of Violation of Liquor Law.

On a bench warrant issued out of United States district court at Pocatello, Leonard Smith of Blackfoot, was arrested at Filer Thursday afternoon by operatives of the sheriff's office, and is held for removal authorities. Smith is said to be accused of violation of federal liquor laws in connection with alleged manufacture of liquor to which his brother is reported to have pleaded guilty at Pocatello this week. Smith is said to be the owner of the property at Blackfoot where the brothers' alleged liquor operations were carried on.

trade and consequent. This much is coffee certain: the housewife who gives her family the greatest and most constant coffee enjoyment is the one who has learned the secret of a shiny, clean pot, coffee and water carefully measured, and the fragrant taste brewed freshly made.
