

OIL LEASE SUIT GOES TO JUDGE FOR A DECISION

Teapot Dome Legal Battle Between Sinclair Interests and Government Now in Hands of Federal Court for Action.

CHEYENNE, Wyo., March 26 (AP)—The die of unknown shape which will mount the Teapot Dome controversy into its final form is cast. The case has been overreached by the court in United States district court here today, Federal Judge T. Blake Kennedy will await the filing of briefs both by the government and the defense before he decides whether Harry P. Sinclair or the United States shall possess the big Wyoming naval reserve.

The case came to an end in a fiery argument between attorney George L. Haskins, government attorney, and counsel for the defendant, the Mammoth Oil company. After 13 days of transcripts, in which about 1,500 pages were put in the record of the case, the high tension verbal exchange marked the fourteenth day as the only exciting one in the trial.

Makes Accusation.

The argument between counsel started when Mr. Martin W. Littleton, of defense counsel, of getting outside the record in the case, and the court, the court, and declared that government counsel "had just the instant" placed "silence" over the months of Sinclair and Albert S. Full, former secretary of the interior, who excused the Jews to the oil company, in speaking of the bulletins mentioned in them in Washington."

RAIRIE FIRES DOING CONSIDERABLE DAMAGE

(Continued from Page 1)

here, although it is feared that a check up will reveal causation.

FAMOUS GRAVE THREATENED.

MILES CITY, Mont., March 26 (AP)—Prairie fires "raging in the Grand river territory in South Dakota," are threatening the grave of Sitting Bull, famous Indian medicine man, according to reports reaching here tonight.

The noted Indian, met death at the hands of the Sioux Indians on December 15, 1890, when he resisted arrest after refusing to give up practice of the traditional "ghost dance."

THREE FIRES RAGING.

WHITE RIVER, N. D., March 25 (AP)—Three prairie fires were raging in the Rosebud reservation tonight while ranchers and Indians were fighting desperately to check the flames. Three Indians had been killed, two by fire, by their own supporters, received help in a wagon and two small children being buried in death at Twin Falls, a small town in Bennett county.

The villages reported swept by fire were Vetoel, Tuthill and St. Francis.

The fires have already covered over 10,000 acres and were sweeping over the state border into Nebraska. Urgent calls for help were sent from ranchers in three districts. Heavy loss of farm and ranch property has been reported.

HIGH WIND WHIPS.

One of the fiercest, 15 miles southwest of White River, has covered a large area and has become uncontrollable due to the high wind. The second fire started in Wadabough county, 43 miles southwest of White River yesterday and was still burning tonight. This fire has already covered a third, 70 miles west of White River, the Omaha line, Valentine, Nebraska. The third fire started this morning in the northern part of Mellette county, 29 miles east of White River. It has covered many miles of prairie land. These are regarded as the worst fires in this section for ten years.

ONE JUROR YET TO BE SELECTED AT HEARING

(Continued from Page 1)

he who charged that Mrs. McEvilyan, wife of the girl's attorney, asked telegrams questions to this effect:

"It should develop from the evidence that this defendant did not commit the crime charged, but had knowledge of it and is attempting now to cover the fact, prevent you from finding her guilty."

NOTICES.

A little thinking about us that the effects of kindness we do are reflected in proportion to the love we put into them. More depends upon the amount than upon the gift. If the thought be helpful, if we expect compensation, or are guilty of clever calculation, the result will be like the attitude of mind which invited it. —Dugay.

CROSS-WORD PUZZLE STORY PUFF-PUFF!

Here is an 11-10-16-25. There are 3-4 cars fastened 33-13-10. Do you think it will pull freight cars? 26-27-28 just hear it hiss! There is a man, I will ask him about the cars.

"Say, Master, where does this train go?" Have you enough 24-11-17 aboard for us to ride in there?"

"Oh, I-2-2 I stammer, "I thought you were the boys!" You'd better keep off the railroad, 34-35-36-38-39. It is never safe to stand on them!" he warns us.

"Well we have to 21-22-23-24 very long for a passenger train?" I ask.

"There is a freight train now—it's hauling something 5-12-19-27 off the saw mill. If you go to the next station I think you will 31-32-33 the next express train in it you can go in an auto. The taxi-boys are over there now, say the men. "If you aren't in a hurry there's another train an hour later!"

Well 18-26 there is time let us go to the rivers 18-23-30-38 and see the fish swimming about in the water. You can see your 16-17-19-20 in the clear water it is 39-42 much like a looking glass. We can sit here and 13-20-28-34 ashile.

Answer To Last Puzzle.

SUPPORT SEEN FOR BUHL BANK ROAD CLAIMS FEDERAL LAND

**Crawford Moore of Boise Is
Reported Interested in Re-
Opening of Institution.**

BUHL, March 26.—(Special to The News)—Possibility of early reopening of the First National bank of Buhl, which was closed last week by the voluntary action of its directors, is seen in announcement made yesterday.

At a conference to be held next Saturday between Crawford Moore of Boise, president of the First National bank of Buhl; representatives of the federal bureau; bankers and officers of the local institution, it is expected that a plan will be adopted to re-open the bank.

It is believed here that interests represented by Mr. Moore, who are regarded as among the strongest financial interests in the state, may give support to the local institution as a result of the conference. Two representatives of the Moore interests have been here for some days examining records of the local bank.

The remained claimed by the company under its charter, he said, was surrendered under protest.

Value Held Greater.

The forestry service has disputed the amount of timber in the cutover areas on the ground that the value of the 1,000,000 acres selected was greater than that of the 3,800,000 acres returned.

Mr. Duval was receiver for the Colorado State Bank of Buhl, which closed its doors in 1921.

AUTO LICENSES LIMIT REACHED

**Sheriff and Police Chief Issue
Warning to Delinquent Car
Owners; Arrests to Begin.**

Preliminary to a campaign for enforcement of state law requiring payment of motor vehicle license fees, which under provisions of the new law were due and payable March 15, 1925, Frank W. Shields, sheriff, and O. H. Hegeman, Twin Falls chief of police, issued Thursday a warning to automobile owners pointing out that operation of motor vehicles without license for this year is in violation of law and stating that "No permission can be granted to operate any vehicle without such license and arrests will follow immediately."

Both sheriff and police headquarters have been provided with holding wharf which, when placed on cars that do not display this year's license will require owners to appear in court and settle the account.

Text of Warning.

"The statement issued by the sheriff and police chief is as follows: 'Under the state law, any vehicle owner operating cars without license is called to the fact that the new law with reference to licensing such motor vehicles is now in full force and effect, and that it is a violation of law to operate such vehicles on the roads and highways and streets of any city without a license. Get your license at once and put it on your car. No permission will be granted to operate any vehicle without such license and arrests will follow immediately. Do not operate your car further until you buy a license. Get them at the county assessor.'

Oppose Control.

Dr. Louis J. Dublin, statistician of the Metropolitan Life company approved recently study and discussion of the subject, but opposed birth control practices for the present, saying it will not be effective. American spirit of progress and adventure, based the old a burden to the young.

J. O. Blund, English author and authority on the Far East, declared the future civilization "depends entirely upon whether the population problem is going to be solved by birth control or by natural gas."

New Hats at Riley's

You will find one you must have in the wonderful selection now showing, both in the popular priced lines and in the higher grade models. The best, and most varied assortment we have ever shown Twin Falls people, including Easter Patterns now arriving in both hats and sets in the dressier models and the smart "Burlingsane" and "Cattail" sports.

Also in tailored hats for all ages and at all prices from \$1.95 up to our "Gage Banded" hats.

VETERAN CRITICALLY ILL NAVAL OFFICER MAY RESIGN FROM SERVICE HIS UNCLE ANNOUNCES

Judge James W. Shields, Plaintiff in Civil suit, suffers from serious illness. Allmen, home in Boise.

James W. Shields, veteran of the Civil war pioneer citizen of Twin Falls and brother-in-law of Judge James W. Shields, Plaintiff in Civil suit, has been confined for about three weeks to his home in the Patriotic Inn, Twin Falls, after recovering from an attack of appendicitis, from which there appears to be little probability of his recovery, according to Major L. A. Axting, attorney of the city, who visited Judge and Mrs. Shields at their home the first of the week.

Lieutenant Frank E. Kennedy, U. S. N., recently released from the Naval Hospital in San Francisco, California, after a legal battle between his wife and the hospital, accepted a position as a legal advisor to the Patriotic Inn.

Lieutenant Kennedy and his wife arrived here from Washington yesterday, due to spend a month's leave of absence with his relatives. They moved to Twin Falls early today and were not expected back until summer.

Major L. A. Axting, attorney of the city, is in a peculiar situation and we prefer to let the matter drop for the present and give him a chance to rest up," Mr. Petitions declared. "While nothing definite has been decided, it is his intention to ultimately resign. Decision will be reached before or at the termination of his 30 days' leave of absence."

It is understood that a condition of Kennedy's leave is that he not discuss his case for publication.

Frank Stoner Manager

**Attention,
Daddies!**

Next to the wedding day, the greatest event in a young man's life usually is the birth of the first child.

If every proud father would open a savings account for "the baby" this boy is born with twenty-one dollars, deposit twenty the first birthday, nineteen the second and so on until he becomes of age twenty-one—he would give his youngster a pretty fair start—a compound interest almost doubling the money.

Certainly a fine, fathery thing to do for a child.

BREAKS.

An extraordinary story is that which
comes from the California town of
Oroville of the death of a member of
a religious cult through the infliction
of lassos as a part of the ceremonies
of a "religious" cult known as the
"Assembly of God."

From time to time remarkable tales
of religious frenzy and the effects
thereof are brought to public notice,
but rarely has a stranger story made
its appearance. Apparently, but it
seems, persons participated in the actual
searing of the flesh of the unfortunate
victim, which is the one bright
spot in the whole miserable history.

The statement is made, and is doubtless
inexplicable, that religion
in some form or other has been re-
sponsible for most of the wars fought
on earth from the first dawn of time.

Certainly it is one of the greatest of
all contributing causes of insanity.
Sects and cults of large memberships
have indulged in practices which by
no stretch of the imagination can be
regarded as Christian, or even as civilized.

Religion softens some characters and hardens others. Certainly, to an extreme it refines and brutalizes. Happily, such extremes are but a small part of the whole fabric of religous teaching and practice.

People who lack balance and who
have no sense of moderation, who are
inclined to interpret, misinterpreted
habit of thought, simply the field
which comes such cases as that
in Oroville. There is no cure because
in the case of such individuals the
nothing to work upon.

The world will never be without its
supply of fierce, animal, vegetable
and human.

THE WHIPPING TOOT.

Delaware is one of the few if not
the only State in the Union which
legally retains that relic of barbarism
known as the whipping post. It does
this just as in North Carolina, long
ago, it punishment by death, in Utah
men are legally executed by shooting
and in Nevada by asphyxiation.

Barbarous, yes, but, quite likely,
necessary.

There is no getting away from the
fact that human nature is pretty much
the same today as it was always been.
Various restraints in the way of law
and custom have served to curb many
an evil impulse. Our thin veneer of
civilization has left a superficial glaze
to many a hardened character, and
"cruel and unusual punishment" for
crime has been definitely legislated
against in a great majority of the
States.

Yet every thinking man knows
whether he is willing to admit it or
not, that there are certain criminals
whose punishment should consist of
the lash, and certain crimes which in
most cases should be so punished.
When both crime and criminal fit, all
other forms of punishment but the
one which should properly be adminis-
tered are the wrong punishment, and
as such they neither fully punis-
h nor correct.

Occasionally one may dip back into
the barbaric age and resurrect a
principle the practice of which today
would make for progress.

The Legislature of the Sovereign
State of Delaware has delayed that
the whipping post embodies one of
these principles.

A STABLE DOLLAR.

Dr. Irving Fisher, professor of
economics at Yale, argues in defense
of his drive for a "stable dollar."
He finds it necessary to clear away
many misconceptions. Answering a
calligrapher who was criticizing him
as trying to keep the dollar stable, and
saying "what's that dollar unchanged
that if I put it into the savings
bank you can't get back a dollar
of the same intrinsic value," Fisher
replies: "That's right; but I'm not
the last person to emphasize the
fact that the present dollar is not
stable." He declares that "between
1900 and 1920" the "stable dollar"
had "lost twenty-five per cent."
through the depreciating dollar—more
than they have gained in interest." He
also quotes Edison's weekly to the
effect that ten thousand dollars in
gold would buy less than half as
many goods now as it did in 1900.

Below: GLADYS JOEL and BABY E. H. M. BROWNE.
AMBASSADOR MATSUOKA of Japan has presented his credentials to
President Coolidge. Above: FORMER CONGRESSMAN James H. McLaugherty of California, has been appointed assistant secretary of commerce.
Left: GLADYS JOEL, of New York, who admits she earns much more than her husband, Gladys, who is a well-known advertising man of London, as an example of what business women of America are capable of doing.
BABY E. H. M. BROWNE, 72, has been arrested in New York city, charged with amassing President Osgood with letters demanding \$10,000 for his
son, who was working for the New York Stock Exchange.

per cent as much of the necessities of
life as it would twenty years ago.
Another authority says the fluctuating
dollar "has done forty billion dollars
worth of social injustice."

The current index figure of the
purchasing power of the dollar now
as compared with its prewar value
is about sixty-two. That is, since 1912
the one hundred dollar bill has bought
practically to sixty-two cents.

Professor Fisher wants to devise a
dollar which will always have the
same purchasing power so that a
given salary or fixed income from in-
vestment will continue to mean the
same living standard, the same amount
of necessities and comforts of life.

There is a growing tendency to
agree with Professor Fisher about the
principle of the thing, whatever may
be thought of the particular remedy
he proposes, varying the amount of
gold in the dollar from time to time to
keep its purchasing power steady.

Sooner or later, some practical
scheme will be worked out for this
purpose.

As matters stand, the gold dollar
standard, while extremely useful and
apparently simple, fluctuates so greatly
that it is always upsetting values in
general and working injustice to one
another. In recent years, the
greatest injustice has been to the
retail dealers and the greatest benefit
to bankers, from the payment with
heavy money of debts contracted when
money was dear.

IDaho's Wheat Supplies Low

Shortage of Seed for Spring Planting Reported in Some Sections; Hay Also Short.

Only 213,000 bushels of wheat, 57.12 per cent of Idaho's 1924 crop, remained on farms March 1, 1925, according to J. H. Jacobson, agricultural statistician in charge of the state department of agriculture. This compares with 6,421,000 bushels or 18 per cent, on hand a year ago. "Present wheat supplies are the lowest since they have been the past six years on March 1." On the same date in 1918 there were 1,903,000 bushels on farms or 13 per cent of the state's 1917 wheat crop. Jacobson said the reason was due to the short 1924 wheat crop and the world movement intercommercial channels under the urge of advancing prices.

Reported several days ago, the state statistician's figures of wheat for spring planting. In this connection it should be noted that some 367,000 acres were seeded to winter wheat last fall, while 350,000 were planted in Idaho. In the fall of 1923, and the acreage will be further reduced because of some winter killing.

Lowest in Years

For the United States, wheat stock on farms total 182,933,000 bushels, or 50 million bushels less than a year ago. With the exception of the small supplies of corn on farms of the nation are the lowest since 1908.

Supplies of other grains on farms in Idaho are as follows: barley, 1,000,000 bushels, against 490,560 bushels a year ago; oats, 1,335,000 bushels this year and 1,700,000 last year; barley, 385,000 bushels compared with 300,000 bushels

last year; hay supplies on Idaho farms total 410,000 tons or 29 per cent of last year's crop. This is about half the amount of hay on hand in 1923, when there were 870,000 tons or 31 per cent of the 1923 crop. Reports from over the state indicate a probable small carry-over in some just now. The Snake River valley wheat sections supplies are already low and prices high. Favorable February weather reduced hay requirements, and with early range prospects favorable, the expected invention will get through in fairly good condition.

High School Notes

The Philadelphians club met in regular session Thursday noon in the office of the prescriptives, and in pursuance of the announced plan for the utilization of spare time, the members had a lesson from Miss Mary Ruth Fischer on the making of sealing wax beads.

Miss Wilda Hammon announced to the members in the senior class concerning the organization of the "Wards of a Senior Class." The girls agreed to get to the music of "Bygone," Miss Hammon won over 15 contests.

Owing to the many calls from the townspeople for help in the work of spring planting and cleaning up, all students who are willing to undertake such tasks are requested to leave their names on the addition in the office of the prescriptives, where the work of bringing the worker and the job together will be expedited.

Announcement is made of a social party to be held by the members of the Blue Triangle in the high school build-

Sargent New Attorney-General

JOHN G. SARGENT

JOHN GABRIELLO SARGENT, 45 years old, of Ludlow, Vermont, where he has practiced law for many years, a close personal friend of President Coolidge, has been nominated by Mr. Coolidge to be attorney general of the United States, following the action of the senate in refusing to confirm the nomination of Frank Murphy, Mr. Coolidge's first choice. Mr. Sargent, who was attorney general of Vermont 25 years ago, stands six feet six inches, weighs 250 pounds, and played center on the Tufts' college football team in 1887.

On Friday evening, April 2, decided to give \$10 to forward the work of foreign relief. On April 21 the club will present a group of two players in the auditorium, the proceeds to go to the camping fund.

For the benefit of the east of the playlets will be given next week under direction of Mrs. Harrah.

The election of officers for the next year will be held on April 14.

PLEASANT VALLEY

PLEASANT VALLEY—Orion Butler and Elmer McLean were in Twin Falls as witnesses in the trials of Jenkins and Hawkins.

P. E. Yoder and family have moved

from this neighborhood, putting the home of the community represented. The pagant was given by the service committee. Miss Lola H. H. told the story of Joan of Arc, and Mrs. J. S. Hall sang "Alice Farles" from the opera Jeanne d'Arc, by Tchaikovsky.

Harold and Mrs. Dunkin gave a party at their home last Saturday night for the young people. Games and dancing were enjoyed and refreshments were served. Mrs. Dunkin was assisted

by Mrs. L. P. Larson. Mrs. Larson, who has been working for George Frickel for the past two years, has moved her family to the Brown ranch where she will continue working for a few weeks.

Among those who attended the party were Mrs. Marceline Jones, Mrs. Emanuel and Haskell Yallow, Mr. and Mrs. Delph Murray and Mr. and Mrs. Matt Fehr.

L. P. Larson and Curtis Bower brandied and turned out nicely Sunday, and the following day P. E. Yoder were exalted. Mrs. Dunkin was assisted

by Mrs. L. P. Larson. Mrs. Larson, who has been working for George Frickel for the past two years, has moved her family to the Brown ranch where she will continue working for a few weeks.

Among those who attended the party were Mrs. Marceline Jones, Mrs. Emanuel and Haskell Yallow, Mr. and Mrs. Delph Murray and Mr. and Mrs. Matt Fehr.

L. P. Larson and Curtis Bower brandied and turned out nicely Sunday, and the following day P. E. Yoder were exalted. Mrs. Dunkin was assisted

Today's Sporting News

BUHL GIRLS TO PLAY SHELLY

Claimants to State Champion-
ship Basketball Title Leave
This Morning for Pocatello,

BUHL, March 26.—(Special to the
News)—The "Buhl" girls' basketball
team with Coach Harry will leave here
this morning overland for Pocatello
where Saturday evening they are to
meet Shelly girls for championship
of the state. Hurh, through an edict
of the state athletic control board,
must meet the Shelly girls for a
basketball game before they can lay
claim to the state championship,
although they did defeat Parma girls
on the Buhl floor recently by a large
margin.

A large crowd of boosters is ex-
pected to attend the Pocatello game
from here and up to the present time
between 10 and a dozen cars loaded
with visitors are panning upon
Leviton. More cars are thought will also
join the caravan.

While the Buhl girls have accepted
no outside challenges up to date, the
outcome of Saturday evening's game
is expected to have considerable
to do with whether or not they will play
the Edington, Washington, girls
team.

CORNELL TAKES GAME

CALDWELL, Idaho, March 10.—(Special to the
News)—Staging a hitting rally in the sixth
inning Cornell's Coyotes took the lead
from Whitman and ran away with the
second game of the series, 13 to 6.
Hits and errors were both numerous,
but the outstanding event of the nine
innings was Buhl's home run over
the left field fence, which was
the connecting link with "Orange's" first
firing. In the first half of the sixth,
J. Lowell also injected some of the
spectacular into the game when he
pulled down a Whitman Texas leaguer
between first and right field, retiring
the side.

RUMORS CAUSE BREAK-IN THE STOCK MARKET

Report that Relicount Rate Would Be Increased Precipitates Sharp Downturn in Price of Issue.

STOCK MARKET AVERAGE.

Stocks	Monday	Tuesday
Thursday	116.05	97.80
Friday	116.44	98.95
Wednesday	116.25	104.08
High, 1925	126.10	
Low, 1925	116.25	97.00
Total stock value, 1,332,000 shares.		

NEW YORK. March 26 (UPI) — widespread circulation of rumors that the New York federal reserve bank would increase its discount rate that afternoon, which later proved to be unfounded, precipitated another sharp break in prices toward the close of trading. A stock market, many issues having lost their gains of the last two days and dropping to a new low ground.

Prices were directed chiefly against stocks which had been moderately well up to near the peak of 111-1/4 to nearly 22 points below the high record established just one month ago. One issue which yielded in sympathy to the market was hammered down two points to 117, duplicating the year's low established seven days ago. American Can broke through the 100 mark, and one-half a point, showing a new low point.

Two stocks, one in each market, were hammered down to 116-1/2.

BUREAU. March 26 (UPI) — Another decline of 1.32% occurred in the raw sugar market today to the basis of 104, due to sales. Sales included 25,000 bags, 100-lb. bags, 100-lb. sacks, 50-lb. bags, 25-lb. bags, 10-lb. bags, 5-lb. bags, 2-lb. bags, 1-lb. bags, 1/2-lb. bags, 1/4-lb. bags, 1/2-lb. bags, 1/4-lb. bags, 1/8-lb. bags, 1/16-lb. bags, 1/32-lb. bags, 1/64-lb. bags, 1/128-lb. bags, 1/256-lb. bags, 1/512-lb. bags, 1/1024-lb. bags, 1/2048-lb. bags, 1/4096-lb. bags, 1/8192-lb. bags, 1/16384-lb. bags, 1/32768-lb. bags, 1/65536-lb. bags, 1/131072-lb. bags, 1/262144-lb. bags, 1/524288-lb. bags, 1/1048576-lb. bags, 1/2097152-lb. bags, 1/4194304-lb. bags, 1/8388576-lb. bags, 1/16777152-lb. bags, 1/33554304-lb. SPAN BUILDER HERE TO STUDY NEW PROPOSAL

R. M. Murray Who Built the Hansen Bridge and Planned Blue Lakes Span, Looks Toard Fulfillment.

H. M. Murray of Spokane, builder of the great bridge that spans Snake river canyon north of Hansen and a recognized authority on bridge construction, arrived here Thursday for the purpose of studying the plans for building of another suspension span across Snake river canyon at a point near Blue Lakes. Mr. Murray drafted plans for this second bridge when he directed building of the Hansen span about six years ago, and his plans have formed the basis for computations in the movement now under way toward completion of the project.

Incorporation Advances

In connection with Mr. Murray's visit, it was disclosed that arrangements for incorporation for a corporation to build and operate for a time the proposed new bridge are being drafted by S. L. Holden, president of Twin Falls Chamber of Commerce, and that the incorporation already has been signed. These incorporation papers, it was stated at the chamber offices, have been drafted with care, in their filling about 30 days have in order that the corporation may take advantage of provisions of a new law that extends the time in which a proposed corporation must be started and brought to completion.

Estimated cost of the proposed bridge is given at \$250,000, it is believed that revenues from its operation as a toll bridge over a period of three or four years will be sufficient to meet the total cost of the enterprise.

The bridge at Blue Lakes would span the canyon at a point where it is approximately 1,400 feet wide, and its long would be 420 feet above the river.

The Hansen span is 688 feet long and 345 feet above the river.

JUDGE HANSEN TO MEET FRIENDS ON BIRTHDAY

Judge Lawrence Hansen, distinguished pioneer citizen of southern Idaho, on the occasion of his eighty-first birthday anniversary, is to be the guest of honor at a reception to be given today by the Rev. Mr. and Mrs. Arthur G. Lewis, the "Presbyterian man," Fifth Avenue parish, to which invitation is extended to all of his friends and acquaintances.

One of the first settlers of Rock Creek, Judge Hansen served for nearly a quarter of a century as justice of the peace; his name was given with the development of the Twin Falls region. He left the town of Hansen, eight miles east of Idaho Falls, about 1870, and for several years, during the past few years, he has made his home in Twin Falls. He served in 1917 as representative from this county in the state legislature.

BALLASTING OF RAILWAY PUSHED

Thermometer Records Lower Temperatures

Forecast for today—Cloudy and moderate with moderate temperature.

Cooler weather Thursday was reflected in readings of the thermometer at the government weather service station here, which showed a minimum of 27 degrees at 5:30 a.m., which was a decline of seven degrees as compared with Wednesday's maximum, and low at 29 above, a decline of 17 degrees.

Fair weather conditions with plenty of sunshine prevailed.

Two Crews of Workmen Labor on Roadbed Between Roger- son and Contact.

Two crews of workmen are employed in ballasting the Oregon Short Line-Rogers-Wells road between Rogerson and the present railroad at the outskirts of Contact, Nevada, according

to C. J. Clark, of the Contact Town Council. The work is proceeded from Contact north toward Rogerson over a distance of 12 miles.

Work extension of the railroad is being accumulated at Contact, Clark believes, that rail laying will not be resumed until the ballasting is completed between Contact and Rogerson, but extension of the rails will proceed rapidly after that work is finished.

T. V. Lancaster at Elmer hauled 41 carloads of rock to the roadbed at Contact for Portland markets, and Mar-

tin, 10 miles away, the day before, the rail being moved to the site over the salt at a speed in excess of eight miles an hour.

10 carloads of rock were loaded

SUFFERS PAINFUL HURT

W. J. Helm's Nose Is Crushed by Auto Block Absorber-Spring That Escapes Grip of Vice in Workshop.

W. J. Helm, proprietor of Bill Helm's Motor service, 140 Second Avenue south, was painfully injured Thursday afternoon when a powerful spring in an automobile shock absorber tore loose from the vice in which it was held and struck Mr. Helm. In the face, crushing his nose, Mr. Helm was at work with the device which was being installed by another workman, but was released when it escaped from the grip of the vice. He was not rendered unconscious by the blow, and after receiving medical attention was taken to his home, when his condition Thursday evening was reported to be favorable.
