

YOUTH ADMITS THEFT OF CAR

David Harkness, Witness for State Against Co-defendants, Sentenced and Paroled.

David Harkness, 19, originally co-defendant with Raymond Jennings and Paulie Armitage, neither of whom was Thursday convicted of grand larceny of an automobile owned by T. M. Jannouh and taken from here last January, pleaded guilty in district court here Friday to grand larceny charge in connection with the theft of the car. Harkness was a principal witness for the prosecution in trials of the Jennings brothers, his testimony impugning himself as well as the Jennings brothers in the act of the car.

Harkness was sentenced by Judge W. A. Babcock to serve one year in the state prison and was paroled to John R. Auhl, county probation officer, with the understanding that Harkness was to be returned to the state industrial school to remain there until 21 years old. Harkness stated on Friday that he had been paroled from the state school to which he had been committed, following conviction of a former theft of a car.

Harkness, who had evaded preliminary hearing and confessed guilt an arraignment in the probate court, entered a plea of guilty when arraigned in district court. He was permitted Friday to withdraw this plea and substitute a plea of guilty to the state industrial school for judgment and received sentence immediately after entering his new plea.

Judgment in the case of the Jennings brothers is to be pronounced by Judge Babcock next Monday.

John W. Davis, convicted of illegal possession of liquor, was sentenced Friday by Judge Babcock to serve 30 days in jail and pay \$100 fine, with the provision that the jail term should be remitted on payment of the fine. Davis, in default of bond, had been held a prisoner in the county jail since his arrest, January 29, last.

Letter Way and a Better Way

THE LETTER WAY was a good way when it was the only way. But the art of letter writing has been lost in the rush of modern business life.

The telephone way—a better way, a more personal way—has taken its place.

More and more, Long Distance is doing the work of the postman and the social and business letters of other decades are being replaced by the social and business telephone calls of today.

The modern business man calls up his family when he is out of town, makes hotel reservations in the next city, insures appointments with his customers and keeps in touch with his business at home—all by Long Distance.

It is the better way—the best way—to meet the needs of communication in business.

One of the advantages of Long Distance service is the station-to-station call. It means calling a number or an address without specifying a particular person. It saves time and money.
