## CONFESSIONS OF JAZZ GIRL TOLD BY JAIL MATRON

### 17-Year-Old Matricide Tells Policewoman She Doubts if Alienists Could Answer Questions They Asked Her.

SAN FRANCISCO, April 6 (AP)—The prosecution in the murder case against Evelyn Dillingham, alleged to have killed her mother, began today to present to the jury evidence intended to show that she got the idea of killing her mother from a film she saw in a local theater. The girl, 17 years old, is charged with the murder of her mother, Mrs. Dillingham, on Jan. 1, 1924, in a rooming house in San Francisco.

Mrs. Katherine Sullivan, a protective officer in the police department, quoted the film's "jazz girl" as saying, with reference to the alienists who examined her: "If the position were reversed, I doubt if they could have answered my questions as intelligently as I have answered theirs."

The defense closed its case for insanity shortly before noon. Mrs. Sullivan, the first witness for the state, said she had known Dorothy Dillingham for four years, and after the girl's arrest last January, had remained with her constantly for 15 days.

"I am of the firm opinion that she is sane," said the witness, after Judge Louderback had overruled an objection that the witness had been charged that the witness had not established an intimate enough acquaintance with the girl to be allowed to express such a conclusion.

Details indicated many incidents in the court room, including the girl's refusal to answer questions, and the girl's refusal to answer questions, and the girl's refusal to answer questions.

"I had to do something to force her," the witness quoted the defendant as saying. "I had to do something to force her," the witness quoted the defendant as saying. "I had to do something to force her," the witness quoted the defendant as saying.

## Idaho Falls Man Is Named to Board of Education Agency

### Cloney St. Clair Appointed by Governor Moore to Take Place of I. E. Rockwell, Whose Term Expires.

BOISE, April 6 (AP)—Governor O. C. Moore Monday morning announced the appointment of Cloney St. Clair of Idaho Falls, to the state board of education.

The appointment is for five years, and dates from midnight Monday, when the term of I. E. Rockwell of Idaho Falls expires.

Important Appointment. Mr. St. Clair's appointment to the board is probably one of the most important in Governor Moore's administration, because it is the first time since the board was organized in 1919 that a representative of Idaho Falls has been represented on the body.

Nor was the appointment made without friction. There were other candidates for the place, and although the governor has been ready to name Mr. St. Clair for several weeks, he wanted all opposition removed first.

Announced at Moscow. Word that the way was clear did not come to the public until the appointment was announced at Moscow, where the board was organized.

Decision of laws governing the city election to be held today, approval of a new library bill and the reading of a report on specifications and estimates for the work of gravestone Lake Boulevard between the intersection of Main avenue east and Blue Lakes boulevard.

After considerable discussion and approval of the Idaho statute it was decided that the vote cast today would be officially canvassed at the next regular meeting next Monday evening.

Following Past Action. Decision that the new officials should begin their duties at the next meeting was made following the precedent set at past city elections.

City elections which is taken as a pattern for the city election, no set time is given for taking effect. The law reading that the newly elected officials shall be seated following the official canvass of the vote and upon qualification.

## CALIFORNIA MAN WILL BE TRIED

### Jury Being Selected to Hear Evidence in Killing of Former Mayor of Buhl.

SALT LAKE, April 6 (AP)—Selection of a jury which will decide the fate of a California man charged with the murder of C. H. McQueen, an Idaho lumber dealer, began today in district court here.

McQueen was shot and killed and the young woman companion severely beaten by a hand who held them up in a rooming house in Buhl, Idaho, on the night of October 13, 1924.

Orellia and his wife, automobile tourist, who had many friends in the town, were arrested the following day. Mrs. Collins was later released.

It is expected several days before the jury is completed and the taking of testimony begun.

Collins is alleged to have driven from the scene of the murder in the stolen machine, which is said to have been abandoned on a short distance away, then after disposing of his gun in a ditch, boarded a street car and went back to his camp, where he was arrested.

## HUGE COMBINE SEEN IN MEAT PACKER PLANS

Government Counsel Urges That Sale of Morris Company to Armour be Brought Before Courts for Action.

WASHINGTON, April 6 (AP)—Validity of the acquisition by Armour and Company of the meat packer Morris Company, meat packers, should be decided by the courts, government counsel urged Secretary Justice in a letter to the department of agriculture.

Walter L. Fisher, special government counsel, urged Secretary Justice to issue an order against the merger so the courts could pass finally upon the question and declared that unless this was done there would be nothing to prevent Swift and Company, the next largest packer, from buying out Wilson and Company.

This would further lessen competition in the industry, he argued, and eventually would lead to one large company controlling the entire meat packing business.

Set Time Limit. Secretary Justice set Thursday night as the time to conclude the hearing.

Declaring that the issue involved is vital and should be decided by the courts of last resort, Attorney Fisher said that the merger would be an "exceedingly dangerous thing" as it was the first important case to be brought before the courts.

The validity of the proposed combination of the Morris and Armour packing interests was argued before Secretary Justice.

The Baltimore and Ohio railroad asked Interstate commerce commission authority for refinancing \$45,000,000 southwestern division bonds.

## HELD ON LESSER CHARGE

Youths Accused in Connection With Gasoline Shot-Fire Piled Outlets to Minneapolis and Are Sentenced.

John Vance and G. Uda and P. Uda, originally charged with burglary in connection with the shooting of a man in a shed in which gasoline was stored at Twin Falls highway district court, pleaded guilty to the same charge.

Following Past Action. Decision that the new officials should begin their duties at the next meeting was made following the precedent set at past city elections.

A gun, belt and ammunition, which the state claims was used by Collins in the holdup and killing were found in a field here the following day. Collins was tried on Collins and appeared to fit him, the state claims, although Collins claimed to be innocent.

Evidence is to be presented to show that Collins had such a gun and shot in California before he came here.

## Governor of Idaho Grants Extradition Of Bandit Suspects

O. C. Moore Authorizes Return of Two Men to California-Accused of Robbing Train.

BOISE, April 6 (AP)—Extradition papers were authorized Monday by Governor O. C. Moore for the return of two men to California, accused of robbing a train.

The crime for which they are wanted was committed Nov. 7, 1923, by three men. The third, James E. Haverly, was previously arrested in Idaho, at Twin Falls.

It is alleged that the three engaged in a "raid" of the Pacific Electric company, operating out of Los Angeles, and while two "covered" the motorcar and conductors, the third, with revolvers, the third relieved the passengers of their valuable possessions.

## WHAT'S THE USE OF WORRYING?

## ASSURANCE OF FAIR SAILING IS HELD FORTH

President Coolidge Predicts Increased Prosperity in Speech Before Cotton Manufacturers Association.

WASHINGTON, April 6 (AP)—An assurance of increased business prospects was voiced by President Coolidge in an address tonight to the National Cotton Manufacturers' association.

In the present and prospective situation, Mr. Coolidge saw justification of the tariff and he again pledged an administration of justice to the government in its relations with business.

The policy of restoring to the American producer of the right of first opportunity in the home market, he said, "has resulted in a very fair appreciation of the industry."

He also promised full assistance by the national government in fighting the tariff and under the tariff the agricultural producer of the cotton producing states.

The president reviewed at length the problem of the cotton manufacturing industry, noting even the return of short skirts and the consequent reduction in consumption of cloth. He added that he saw little prospect of a return to the past in the home market.

Justifying the tariff, the president declared that the purpose of the tariff was to protect the industry from unfair trade practices and to maintain and correct it. If you are wrong, you are wrong.

"DINO" DARLING IMPROVING

DES MOINES, Iowa, April 6 (AP)—The condition of "Dino" Darling, cartoonist, who has been seriously ill with pneumonia, was reported as "improving" tonight by his physicians. A resolution expressing hope for the speedy recovery of "Dino" Darling was adopted today by the Iowa senate in session here.

Before the ambassador called, it was said at the state department that there had been no recent developments with reference to the French ultimatum plan for a further conference on the limitation of armaments. No steps have been taken to ascertain the attitude of the Paris government toward the conference plan, nor does it appear likely that any will be taken until Secretary Bell is prepared to outline, at least in a general way, preliminary suggestions as to arms limitation which the Washington government desires to put forward.

Announcement was made Sunday at Boise that Representative Andrew J. Bonior of Washington had been named as secretary of war to authorize the use of three reserve army airplanes now in the custody of the War Department for the opening of the main line at Boise, and that the request had been referred to the commanding general at San Francisco to ascertain if it will be practical to loan the planes for this occasion.

Woodlock was given a recess appointment by President Coolidge after the senate had twice failed to confirm him.

## DEBTOR NATIONS TO BE REMINDED OF OBLIGATIONS

Reports Current in Congressional Circles of Plan to Open Negotiations Given Added Strength by Conference.

WASHINGTON, April 6 (AP)—Reports current in congressional circles that the administration was considering the advisability of initiating communication with all debtor nations which have not yet begun debt refunding negotiations with the United States, were recalled today in connection with a conference between Paul Dierker, the French ambassador, and Secretary Kellogg.

The latter department secretary of state, would discuss the nature of the conference which was held late in the day.

Renews Agitation. The suggestion was considered by the debt refunding commission some time ago, but no action was taken, except that the possibility of creating diplomatic pressure by means of identification notes on the subject, however, rests with the president and the state department.

The French ambassador's talk with Mr. Kellogg today would probably touch on other subjects, it is believed, and have direct as well as more the Washington government might have in contemplation in the debt matter.

HOOR OR LOW PRICES?

It has been believed pretty generally  
the last year or two that prices were  
going to stabilize themselves some  
where from one-half to two-thirds  
above the pre-war level. In recent  
months they seemed destined to do  
again rather than recede. Now ob-  
servers are not so sure of this.  
An interesting comment is made by  
"Theodore" in the "Editorial" of Com-  
merce and Finance. He recalls the  
fact that seven years ago the Na-  
poleonic were inflated values began  
to swing back to pre-war values, and  
that the same thing occurred after  
the end of the Civil War. It is now  
seven years, he believes, since the  
World War ended. Will economic li-  
tary repeat itself this time?

Evidently this authority would not  
be greatly surprised if it should. And  
he is not alarmed by any such pros-  
pect, as many financiers and business  
men are inclined to be. For if there  
were a new deflation now, he recalls  
the public, "the cost of living would  
be reduced and people would be will-  
ing and able to go back to work at  
wages that would justify renewed ac-  
tivity in enterprise that is now as-  
sailed because capitalists fear to put  
their money into new enterprises."  
So high.

He admits that such a decline might  
bring about "psychological depres-  
sion" for a time, but holds that "the  
ultimate effect would be salutary" be-  
cause "while decreasing the cost of  
production and cost of living, it would  
provide employment for many now un-  
employed."

If receding prices were considered  
certain to have such effect, there would  
be little objection to them. There  
are more consumers than pro-  
ducers. It is not very welcome to most  
business men.

There are other factors of impor-  
tance, too. Rising values, by cheapen-  
ing money, benefited dealers at the  
expense of creditors. Falling values  
would benefit creditors at the expense  
of dealers. It is not very welcome to  
most business men.

GERMAN ANOMALIES DET.

The "anomalization" of the German  
national debt is an interesting pro-  
cedure. The German government is re-  
financing its internal debt at five  
cents on the dollar. War and pre-war  
bonds with a face value of seventy  
billion gold marks are being called in  
for redemption at the rate of one  
mark to one hundred gold marks.  
The bonds will be given bonds amounting to  
three and a half billion gold marks.  
Thus Germany reduces her national  
debt, exclusive of reparations, at one  
stroke from about seventeen billion  
dollars to less than one billion dol-  
lars.

It amounts to a stupendous robbery

of the German people and of the for-  
eign sympathizers, including many  
Americans, who bought the German  
securities in good faith. Most of the  
bonds, it is true, are now held by  
speculators; therefore there is a slight  
inconvenience given to them. But  
held their bonds more than five years.  
The original investors were moved to  
sell their holdings only after de-  
liberate inflation of German currency  
had already made an "government" pa-  
per of little value. The present re-  
valuation of bonds is a piece with the  
original swindling of German money  
holders.

NEGRESS DYING OFF.

"The negro death rate" in American  
cities is appalling. This is especially  
true in the North, where there has  
been a large migration of southern  
negroes, living mostly in poor, crowd-  
ed, unsanitary quarters and per-  
petrating a "race riot" in one large  
city. The mortality rate among negro  
children last year was over and abov-

## THE GUMPS—WE WHO ARE ABOUT TO DIET SALUTE YOU

HERE I'M DOING JUST WHAT THIS BOOK TELLS YOU NOT TO DO—SITTING DOWN IN A STEPPED ROOM FILLED WITH SMOKE—AND EAT—I EAT THREE TIMES AS MUCH AS I NEED THREE TIMES A DAY NOT COUNTING WHAT I PACK AWAY BETWEEN MEALS—THIS BOOK IS RIGHT—KNIVES AND FORKS ARE MORE DEADLY THAN SWORDS AND BAYONETS—AND BISCUITS HAVE KILLED MORE MEN THAN BULLETS—

EVEN THE ANIMALS HAVE BRAINS ENOUGH TO EAT THE RIGHT KIND OF FOOD—A COW EATS GRASS—A HORSE LIVES ON OATS—A TIGER LIVES ON NOTHING BUT FLESH—A SEAL EATS ONLY FISH—BUT A MAN WHO IS SUPPOSED TO BE LORD OF CREATION EATS AND THEN HE WORRIES ABOUT HIS WEIGHT—KEEP HIS STYLISH FIGURE—HE SET MAN O'WAR WOULDN'T WIN MANY RACES IF THEY WERE FEEDING HIM ON FISH CHOPS AND HOT ROLLS—

I'LL JUST GO ON A DIET AND GET RID OF THAT FAT PARLOR—THERE'S NO REASON WHY I SHOULD RUN A GOOD FIGURE FOR A COUPLE OF POTATOES ASSESSING FROM FOOD HELPS THE STOMACH—HEAVY AND TOXIC FOOD—A LION ONLY EATS MEAT—A LION CAN GET NEAR THE TONGUE THAT'S WHY THE LION IS THE KING OF BEASTS FROM NOW ON I'LL BE A LION—

## STOCK PRICES RESUME TREND TO HIGH-GROUND

NEW YORK, April 6 (AP)—Stock prices resumed their upward movement today under the leadership of the motor and oil shares. The recovery was given impetus by the substantial advance in grain prices. The temporary stiffening of money rates and the political crisis which has developed over the French cabinet's financial policy apparently were disregarded. Trading was in moderate volume, the day's sales aggregating about one and one-half million shares.

Buyers of the high price industrial group were the most active. Nash Motors soared 2 1/2 points to a record top of 530 and then eased to 528, while General Motors, which had been recorded by Associated Press, rose 1/2 point to 52 1/2.
