NEW CABINET IN FRANCE TO MAKE ITS BOW TODAY

Premier and His Associates to Appear Before Parliament for First Time; Declarations Will Be Brief

PARIS, April 20.—The new French cabinet will make its bow before parliament tomorrow. Premier Painleve is at the head of the ministry, but Aristotle Briand, as foreign minister, and Joseph Caillaux, head of the finance department, figure in such important roles that the cabinet is rarely referred to in Paris as a "Painleve ministry," but rather as a composite government.

In the chamber the premier will read the ministerial declaration which was approved unanimously this evening by the first council of ministers presided over by President Doumergue. Simultaneously M. Steeg, minister of justice and vice-president of the council, will perform a similar duty in the senate.

Concise Document.
The declaration is a concise document, as French ministerial declarations are. It deals briefly with the financial policy. Mr. Caillaux, not having as yet had time to make a proper survey of the mass of figures confronting him or acquire a clear view of the situation, it dispenses of the religious question quickly, indicating the government's desire to relieve the present tension and avoid further friction with the church.

The indications are that the government will receive a comfortable majority in both houses. The customary vote of confidence may be reached in the chamber late in the evening or it may even be deferred until Wednesday. The senate, after hearing M. Steeg, will probably adjourn until the chamber has defined its attitude toward the new government.

Comment Leader.
Interpellations will be presented by M. Cachin, the communist leader; M. Goy, radical, and M. Bertrand and M. Tailhfer of the center and right parties. M. Cachin's interpellation is likely to cause the usual exasperated reply; M. Goy's will be answered friendly, while the demand which will be made by Dorey Bertrand, on behalf of Mr. Goy, veterans that the premier explain Mr. Caillaux's position in the cabinet, seems highly inflammable. The two orators who are on the list for speeches are M. Lathiere, former minister of education and M. Esnault, both of whom are considered friendly to the incoming administration.

M. Painleve for two days has been conferring with the leaders and considering with delegations of the left groups with the object of living up to the majority. Several of the smaller groups have not yet returned on their attitude.

I Idaho Power company, \$180,000; Burlington, \$10,000; Los Angeles, \$38; Idaho Falls, \$64; Tacono, \$150.

On the basis of the examples set forth in the report, Mr. B. J. Cavanaugh said that the average rate for the privately owned system is unity the same as the municipally owned plants rendering the same service.

Question of Profit.
Analysis of statistics bearing on the matter of profit appearing through operation of both municipally and privately owned systems, is concluded in the report with the statement that "even with rates comparatively low whether under private or municipal ownership, electric systems are operated at considerable profit."

Management and correct accounting coupled with favorable physical conditions. If a municipally built plant at a reasonable cost and favorably located and operated by a capable manager paying him as much salary as private or commercial company would pay and giving him under the same conditions, there is no doubt that a profit can be earned. Under the city manager plan or under an electric works superintendent who has direct charge of the works, but is responsible to the city commission, there seems no good reason why the service rendered and the efficiency of the organization should not be as good as in the case of a private company.

Twin Falls power consumption at the present time, the engineer reported, would require generators of a rated capacity of 2000 kilowatts with 10 per cent overhead capacity for a short time. During June, July, August and September, he advised, the load drops down to about 1000 kilowatts, "which means that unless some summer load could be found to raise the load factor, approximately two-thirds of the plant would be idle every spring during its service."

Development Cost.
Cost of power development at Clear Lake is estimated at \$239,147.50, or \$100.60 per kilowatt.

Cost of Angus Falls development on a basis of 7500 kilowatts is estimated at \$692,792, or \$92 per kilowatt. Since one-half of this installation would suffice for present needs, the report continues, "an expenditure of \$346,396, or at the rate of \$118 per kilowatt, would be required." By an outlay of approximately \$140,000 at a later time the development could be brought up to the full 7500 kilowatts.

Rock creek might be developed either by combining with Angus falls or by combining with developed falls at a cost of \$252,003.49, or by separate installation by choosing a site somewhat farther down the river, thereby expenditure that would be lower by some 10 to 15 per cent.

Generation system and transmission lines, which are expected to cost \$2 the estimates given, the report points out, are only a part of the system required to bring electricity into the homes.

"The distribution system in the city is often more costly than the generating end and more expensive to operate."

Assuming that the Idaho Power company distribution system could be bought at the company's valuation of \$106,000, the report estimates the actual cost of operation of such a system would amount to \$40,000. "Satisfactory operating rates of municipal

THE DAY IN WASHINGTON

"Two more agreements were made in the Marjorie Day and Chemical company case."

The cruiser Denver landed at Colma, Honduras, to protect American interests and property.

The proposed New England trip of the Los Angeles was ordered postponed because of inclement weather.

Secretary Mellon announced negotiations had been opened with another country regarding its war debts.

Prefecture Coidge headed the list of speakers before the thirty-fourth annual convention of the Daughters of the American Revolution.

Operating plants when added to this figure are given as follows: Clear Lake, \$180,000; Angus Falls, \$151,500; Rock Creek, \$120,000; Tacono Profitable

"Should the present gross income to \$200,000, the report states, "the profits of the rates now in force would be \$45,000, \$50,000, \$75,000, 74 1/2 per cent income in which case the profit shown in the foregoing figures would be decreased by \$25,000."

In connection with proposed purchase by the city of power at wholesale at the rate of \$1.25 per kilowatt hour at the station for distribution by the city, the report states: "This is the method applied at Burley and also at Weiser, where wholesale power is bought from the Idaho power company at \$1.25 cents per kilowatt hour. Since the average income per kilowatt hour at the station here at the present time is only .35 cents per kilowatt hour, the city would have to pay at wholesale at about 1 cent per kilowatt hour in order to receive the same service, operate the distribution system and still make some reduction in rates."

PROSECUTION NOW READY FOR DECISION

(Continued from Page 1)

ited as the Lincoln Oil well, or the Lincoln property. I said I did not particularly care to open the matter up."

Hayes declared the meeting was in the lobby of the hotel. He said Wheeler mentioned his retainer fee and agreed to split it for whatever services Hayes would render. On cross-examination Hayes said he did not recall that the amount of the retainer had been mentioned, but that Wheeler left the impression that it was a legal case.

As Hayes unfolded his story, which the government conceded is the strongest point in its case, Senator Wheeler leaned back in his chair and sat with eyes closed. He yawned occasionally. On cross-examination, the accused senator smiled broadly when the voices of the jury were heard whispering which case it was a legal case.

FRANCE MUST PAY AMERICA'S WAR DEBT

(Continued from Page 1)

a settlement could be reached. The report had it also that the Ohhrall note for recovery of \$17,000,000 was not to be considered, though the amount of \$1,200,000,000 would be paid in the fixed yearly amount which France would be expected to pay independently of the results of the Paris plan, and the amount which France would pay to Great Britain from her share in the three plus reparation payments.

forecasting with instruments attached to airplanes to determine whether better information can be obtained among the clouds than from land instruments. One such flight was made today at Bolling field, in an army air service plane, and army officials are studying the results with the view of using airplanes regularly.

CAN'T BEAT 'TIZ' WHEN FEET HURT

Just take your shoes off and then put those funny, sun-drikked, sizzling, burning, car-petested, limbo-tortured feet of yours in a "Tiz" bath. "Your feet will wriggle with joy; they'll look up at you and almost talk and then they'll take another dive in that "Tiz" bath.

When your feet feel like lumps or lead—no ill tired out—just try "Tiz." It's grand—it's glorious. Your feet will dance with joy—also—they will find all pain gone from corns, callouses and bunions.

There's nothing like "Tiz." It's the only remedy that drives out all the poisonous exudations which puff up your feet and cause foot torture. A few cents buy a box of "Tiz," at any drug or department store; don't wait. Ah! how glad your feet feel; how comfortable your shoes feel; how "Tiz" free—kind this comfort.

At Walker-Lester Drug Co. 126 Madison Ave. New York City. At Main Sample "Tiz" Free Trial.

STAB-WITNESS WILL NOT GO TO JAIL YET

(Continued from Page 1)

and their family physicians, Dr. Oscar Olsen, which was to have been resumed tomorrow, was indefinitely continued because some of the members of the jury are out of the city. An examination of Mrs. McClintock's body revealed sufficient poison to have caused death, but except for a small amount of poison probably administered as medicine, according to the coroner's chemical, none was found in the body of Dr. Olson, a brother of Judge Harry Olson, who instigated the McClintock death investigation.

COOLIDGE TELLS OF PATRIOTISM NEED

(Continued from Page 1)

We ought to remember that it is at best but a temporary makeshift, an effort to make things better, and that we can not expect through these methods to attain perfection.

"There is only one way in modern civilization with its broad privileges of the franchise, with its representative legislative bodies, to avoid the constant interference of the government into practically all the affairs of the people, and that is for the people to adopt a correct course of action, to provide the proper standards of conduct by their own motion. If they do not want government through public action, they must provide it through private action. That is the true ideal of self-govern-

ment. The attainment of that ideal lies some distance in the future, but is an ideal toward which we should constantly strive.

"If the people wish to be in full enjoyment of their liberties—if they wish to be unhampered by government restrictions that can secure that privilege—they can not secure it by securing it by adopting a broad system of individual self-government. Government is an absolute necessity to human progress and human happiness. If we do not wish to have it imposed from without, we must ourselves impose it from within."

COOLIDGE TELLS OF PATRIOTISM NEED

The Americanization work of the Young People of the American Revolution League in Twin Falls was praised by Mr. Coolidge, who declared that the United States policy of restriction seemed necessary. "In view of the certainty that supposed nations would figure to us from Europe; more than we could be sure of assimilating more than the European countries could will spare."

"That there has been no limitation," he added, "the number of Europeans among us in the last four years would probably have been several million greater." If he had been called upon to retrace and place such a number, it may well be doubted whether they would have found their condition here much better than it was in Europe. Certainly our problems of housing and of those to the new conditions of the hard competition of such a situation would have been far more difficult.

of our political traditions, fifty years ago. We have all the time been struggling toward spiritual and moral unity.

"It is only by and through it that we need just such interests and activities as those to which the Daughters of the American Revolution are so strongly attracted. We need not only to bring the new spirit into our structure, but we need also to make these organizations to the strength and beauty. We may gain much from others. In the diversification of our culture, the broadening of our interests, the development of our literature, and arts, the formation of a rounded, symmetrical national character, they can help us realize. We shall but serve both them and ourselves if we shall fall recognize their nationality of interest."

POWER PROJECT PLANS ARE GIVEN TO COUNCIL

(Continued from Page 1)

Los Angeles, \$1.08; Burley, \$2.07; Idaho Falls, \$2.70.

On the basis of 200 kilowatt hours the comparative costs for domestic lighting per month would be as follows: Idaho Power company, \$4.10; Los Angeles, \$6.50; Burley, \$6.60; Idaho Falls, \$4.10 (rooms (6-room house), \$4.50.

Taking 1000 kilowatt hours as the average monthly motor consumption per individual, under the cost under the various power schedules it is as follows:

You'll find it wherever they sell real good candy!

It's a wow! A ten strike!

There's no getting around it, Sweeter's No-Dap Bar is certainly taking the candy-selling public by storm.

Skip a dime across the country, your favorite candy store, drug store, grocery store, no-Dap Bar is certainly taking the candy-selling public by storm.

Try "Gimme a Dime" candy, it's the best you'll ever taste. It's a ten strike!

Why are the American people so far ahead?

Wherever world-travelers come together, the amazing comforts of Americans are sure to come in for discussion. Why is it that the average American lives like a king?

To be sure, he has more money to spend than any other person in the world, but then he insists on spending it to bring better living to himself and family. Who knows what a subtle, but influential, part advertising plays in putting the American people ahead?

Advertising, by showing us new and better things, keeps us from being satisfied with "well enough."

Advertising, by making us want more, walks the springs of action within us to get more. American advertising is a pretty substantial explanation of American advancement.

Read the advertisements. They call you to better things.

THE SPORTS OF A DAY

CLEVELAND WINS FIFTEEN WINNING DETROIT BATTLE

Home Run by Burns Largely Responsible for 4-to-5 Victory After Game Goes Six Extra Frames.

DETROIT, April 20.—Cleveland won a 15-inning baseball game here today 4 to 5, largely through a home run by Burns in the third inning, driving in the winning run. The game was tied in the seventh, Detroit failed to hit effectively, although Manager Cobb being up his record for the season, making his own first appearance of the season in the seventh inning when he batted for Holloway.

Johnson also pitched great ball but let control in the fifth when he walked Speaker to start the inning. J. Sewell sacrificed and Myatt struck out. Stephenson was walked purposely to bring up Koenig. Johnson failed to get the ball over in the first inning, Koenig taking the winning run across the plate. Kirk forced Koenig.

BROWNS LOCK AGAIN
ST. LOUIS, April 20.—The St. Louis Browns lock back into the losing ways today, dropping the third game of the series with the Chicago White Sox, 11 to 10, in a slugfest match. Sisler's two slugs and record of having hit safely in every game of the season thus far.

TWO GAMES POSTPONED
Boston at New York postponed. Washington at Philadelphia, postponed, cold.

What's What in The Sport World

Golf was in Great Britain—no longer are they proud of that. Rather, the folks who yearn for athletic supremacy have sprung in bit-tingling excitement over the fact that the link game will be played in the United States.

Everybody Come.

GLAND PATIENT IN RUNNING RACE AMAZES AUDIENCE
Breasting the tape with a final burst of almost super-human speed, with the sparkle of victory glinting in his eyes, a man 75 years of age hurled across the line a triumphant victor in a 60-yard race in the amazing time of 6 seconds.

COUNCIL HEARS LINCOLN FIELD PETITION READ

School Board Asks for Closing of Streets Back of Athletic Park; Near-by Residents Enter Protests.

Members of Twin Falls city council in regular weekly meeting last evening received a petition from the Twin Falls school board asking for the closing up of portions of streets back of Lincoln field park and those heard arguments against granting of the petition.

Between 15 and 20 residents in the vicinity of the Lincoln field athletic park were present at the meeting, and following the reading of the petition from the school board, listened to the presentation of their objections through their spokesman, T. J. Lloyd, who declared that he had been appointed a member of a committee to find a new location for the park and that while making definite head advance, two titles were under consideration.

He also declared that on advice of attorneys he did not believe that he had the right to grant the school board the portions of streets in controversy.

Following a statement of the citizens' objections in which reference was made to a petition signed by a number of residents living in the vicinity of the park which was presented to the school board some time ago which objections were made to the park as a harboring place of vice and being noisy and unsightly, C. E. McClain, chairman of the school board, presented the board's side of the question.

Mr. McClain, in opening his remarks, asserted that the school board was in question case following a suggestion from A. L. Swin, when it was proposed that the park be located down some line along the street, he said, Mr. Swin suggested that the board obtain the streets which would give them a regulation size field for athletic events.

Following the petition of residents to the north part of the city, he said, a committee consisting of one school board member, Mr. Lloyd and another of the petitioners, he said, had been formed to see that the petition was read for a while. At a recent meeting of the school board, E. T. Crabtree, the member of the committee, and the other members asserted that he did not think anything would be done.

He said that the matter ought to be settled once and for all time, it was decided to present the petition to the council. Even after this, said the chairman, Mr. Lloyd and others were notified and given to understand that in the event they had a proposition to make the petition to the council would be held up. No action was forthcoming on this and as a result the petition was brought up.

Answers Objections. Following the objections to the park presented in the first petition to the board by the residents Mr. McClain declared there were six points. First he said was that the park being a tentorium for vice. If moved, he said, it would continue to be that as well as it left where it is.

MOTHER OF MAN SOUGHT HERE AT DEATH'S DOOR

The mother of W. A. Gardner is lying at the point of death in a telegram, Colo., according to a telegram under date of last Sunday received here by Dr. W. M. Huber.

Request is made that Gardner be notified. Hospital officials here stated that mail for W. A. Gardner was delivered in the event of his death a month ago, but that since that time it has been unclaimed and the postoffice has no record of Gardner's present whereabouts.

and noise, he declared the noise pollution he had heard that he personally enjoyed the enthusiasm that the young people obtained in the athletic events held there. The day, he said, he did not think of anything else, but that he had to be taken to the hospital to be treated.

Following the disposal of this matter the city council heard W. H. Eldridge, representing the planning commission, who asked for the setting aside of one week to be observed in Twin Falls as "Clean-up week." The council then voted to set aside the week beginning Monday as "Clean-up week."

The council then took up the matter of water rates in an attempt to fix a rate which would induce residents to water their lawns and prevent a recurrence of dead lawns as happened last year.

LACK OF SIGNATURE OF WIFE FIGURES IN SUIT. Suit was instituted in district court by R. D. Baker, through Porter and Wilham, attorneys, against Steven Bos for cancellation of an agreement entered into in January, 1925, between Baker and Bos, and a resulting judgment in Twin Falls on February 23, 1926.

TRIBUTE PAID HEROIC DEAD

Dedication of Daughters of American Revolution Memorial Impressive Occasion.

The dedication of a "soldiers' memorial" monument held on the corner house laws by the Daughters of the American Revolution—a great block of native Java bearing the names of 41 of Twin Falls county's sons who sacrificed their lives in the world war—marked a solemn moment in Twin Falls annual Sunday afternoon when nearly 1000 persons assembled about the monument to join in a fitting observance of the occasion.

The hour set for the dedicatory exercises brought a clearing of the atmosphere marked by frequent showers that had threatened to require a postponement of the ceremony. The sun appeared about the monument, although a chill wind swept across the open space.

Comrades Join Tribute. In the assembly were members of the American Legion posts of Bush and Twin Falls, accompanied by representatives of the Legion posts of Piler and Kimberly; Boy Scouts with their colony; War Mothers and Gold Star Mothers; Company C, Twin Falls unit of the Idaho national guard, in uniform and under arms; and the Twin Falls band under leadership of Jack Thors, formerly director of the Idaho field artillery band in services overseas.

Mr. Kennedy Packard of Twin Falls, president of the Daughters of the American Revolution, presided at the monument, after it had been unveiled by John Breckenridge and Stuart Wilson Peck, and decorated with flowers by a city planning commission, including Alice Peavy, Anne Peavy, Jane Walker, Mary Jane Bolton and Betty Brown.

In the parishal address of the occasion, the Rev. Arthur D. Pearson, pastor of the Presbyterian church, paid tribute to the memory of the county's sons and the possibility of another war that would destroy civilization, emphasizing necessity for private and national conduct that would remove his danger.

PrOUGH GOES TO OGDEN TO ANSWER FOR FORGERY. William Prough, arrested here by the police in this morning, was delivered by the sheriff's office Monday into custody of Sheriff R. D. Pincock of Weber county, to return to Ogdon to face prosecution of a charge of forgery.

Gigantic Snowflakes Boost Precipitation

Forecast for today—Unsettled and cloudy.

Snowflakes an inch and more in diameter that fell for a time Monday afternoon, contributed to the day's precipitation record of one-hundredths of an inch, according to measurement at the government weather observer's station here. Stormy weather that set in Sunday continued throughout the day although temperatures were slightly higher. Heavy frosted high temperatures were in the 40's in advance of three degrees over Sunday's maximum at 49 above, and low for Monday was 39 above an advance of 10 degrees over Sunday's minimum.

Leaders of the Boy Scout movement in Twin Falls are to assemble at a get-together meeting to be held Thursday evening May 1, according to decision reached at a regular meeting of the Twin Falls scout council Sunday afternoon in the probate court rooms. Invitations are to be extended to scoutmasters, members of scout committees of sponsoring organizations and officers of the scout council, and arrangements are to be made for a meeting of about 15 one-hundredths of an inch.
