# BLOCKADE AGAINMENT REACHED

## France and Spain Sign Pact to Accord Due Today

CAIRO, July 9 (AP)—France and Spain today signed an agreement to establish a combined land blockade of the Moroccan rebel zone. The agreement, which implements the second accord signed recently, was effected by the delegates of the Franco-Spanish conference on Morocco at a session today.

Louis Malvy, head of the French delegation, declared a note of protest for Franco-Spanish political cooperation in Morocco would be signed tomorrow.

General Juan Ybarra of Spain, who is president of the conference, declared that "the accord signed today provides for the blockading of the land borders, to prevent traffic in arms, ammunition, foodstuffs and other supplies needed by the rebels, and to suppress suspicious maneuvers."

TEFAN, Spanish Morocco, July 9 (AP)—Spanish forces, assisted by local squadrons, have stormed the heights of Beni Amran, besieging the rebel zone. The Spaniards established new positions on the heights to prevent the enemy from retreating and further blockading the Spanish line.

Spaniards found four rebel dead, but they believe many more were killed and fell into the deep ravines along the heights.

(By The Associated Press) CHICAGO, July 9.—Chicago's defense went to pieces in the long game today after George Connally, White Sox pitcher, had been hit in the neck by a line drive off Dick's bat and forced his retirement from the game. The Senators picked good game until the ninth inning, when he was driven off Dick's bat and Hunter was unable to stop the attack and the visitors led the score, forcing the game into the extra innings.

Daddy's Evening Fairy Tale by MARY GOWAN BOWEN. THE DOLLIE'S TRUNK. Probably little Ben, the true doll, would never be invited to go away on any trips where her mother was not invited.

She said, "I did not a mother. She was my mother, and she was my mother." All the children were holding their heads in the support of their father's face and the mother could come along and take her and punch it, just as her mother had seen the conductor do to tickets sticking out of men's hats.

WEEK FAVORS GROWING CROPS

Rapid Advance of Vegetation Recorded in Weekly Summary for Idaho.

The week ending last Tuesday was exceptionally favorable for rapid growth of crops in southeast Idaho, according to a weekly summary of weather and crop conditions in Idaho issued by the Federal States weather bureau office in Boise.

THE DOLLIE'S TRUNK. Probably little Ben, the true doll, would never be invited to go away on any trips where her mother was not invited.

But at the same time it was very nice for her to have a trunk. She had been given the trunk, or rather it had been given to her mother, for her, on her mother's fifth birthday.

It had a tag in it, and in the top there was a little pocket in which could be put pictures and pressed flowers and other little odds and ends to be saved carefully.

At home one kept all one's things. She couldn't travel alone or get along alone, even though she was so young.

At home one kept all one's things. She couldn't travel alone or get along alone, even though she was so young.

And there were poems and letters and valentines and Christmas cards to the scrap book.

Oh, the trunk held so much! All the special treasures of little and of her mother's.

What more could be expected of a trunk? Even a trunk used for traveling a trunk which was filled with dear, rare doll Alice's clothes, and her treasures and those of her mother's!

## Power Company Auditor Accused Jay L. Lockie of Embezzlement of \$15,000.

Jay L. Lockie, since July 1922, bookkeeper for the power company here, was Thursday arrested and held under \$5000 bond to answer to charge of embezzlement of \$15,000 from the power company. The indictment was returned by Judge J. L. Holkin in probate court here. Lockie stated that he had taken part of the much-needed money taken out of it, and on receiving assurance that he might later change his mind, he withdrew the money. He was admitted to bond pending preliminary hearing, the date for which was set for Thursday late Thursday evening.

The complaint in the case, which was returned by Judge Holkin, charges that Lockie has embezzled various amounts throughout the history of his employment here by the company during the past three years.

Lockie's lawyer has been retained as special counsel to assist in the prosecution of the action.

The power company has indicated that Lockie's bond against loss from the alleged embezzlement, according to Mr. Doyle:

James Chester Porterfield, one of Idaho's best known civil and irrigation engineers, died at 11:30 a. m. Thursday morning at his home on Kimberly street a mile east of this city, following an illness of several days. He was 50 years old. The body was taken to the Blue and Company mortuary. Funeral services for which Mr. Porterfield left explicit directions, will be held at 2 o'clock Saturday afternoon on the lawn at the family residence. The services will be conducted by Dr. J. H. Burlington, John Irwin, J. E. Wilby, Charles Hushon and C. L. Baker.

### Moets End Courteously

Mr. Porterfield had known for months that his condition was hopeless and he was characterized by fortitude and consideration for his family and friends. The end came quietly a little while after he had expressed desire only for rest. All of his children, including his daughter, Frances and Boris who had come from New York and Philadelphia where they are employed as teachers, and his son Harold from Pasadena, California, with his wife, were at his bedside when he expired. The other children are two daughters, Helen and Mahal, who are attending school here. Mr. Porterfield is survived also by two granddaughters, Pulverton, Nebraska, and by four sisters.
