Child of Three Is Victim of Strange Kidnapping Attack

Little Girl Stolen and Abandoned in Sewer Is Rescued by Brother in Nick of Time.

CHICAGO, Aug. 6 (UPI)—A three year old girl was safely returned to her parents in the nick of time after she had been kidnapped by a stranger who had hidden her in a sewer. The child was rescued today after the child's 12 year old brother had heard her faint cries for help and had traced them to the exact basin of the sewer.

The boy, who was wearing iron shoes, had been lifted from the trash-beds seven feet deep, the little girl was found almost exhausted, but still breathing. Physicians say the child had not been harmed, but that she

would have died in the sewer without a few hours of medical aid.

The boy, David Danner, son of Samuel Danner, cigar manufacturer, disappeared last night. She

said a kidnapper had taken her and had hidden her in a sewer.

The father asked the police to look

for a man with whom he recently quarreled and taught a tailor, who

now wears the name of conditions giving birth to the boy was taken into custody for questioning.

Judge Joseph B. David found him

innocent and he will be committed at once to state hospital.

The jury reached its verdict after deliberating three hours and 40 minutes. It first failed to agree to give the defendant and then after the vote gradually swung to the insanity verdict.

Scott was immediately committed to the Clark County asylum for the insane.

The boy was never home.

Scott, three weeks ago, just now was

arrested from death 48 hours before his execution by a week's reprieve from the governor.

Two weeks ago, last night, less than four hours before he was condemned

to the death trap, he again was saved from the noose by a petition filed before Governor Joseph B. Day, 2 o'clock in the morning, declaring him to be insane.

Scott sat森ly in his chair while the jury fled into the box. He turned his head to the front, when he announced to the world that the verdict was ready, and as the ballot passed the scroll followed the slip of Scott's eyes over the clerk's desk, that might mean life or death.

When the verdict was read, Scott's mouth twitched nervously, and he shifted his position, in the chair, he sat alone, facing the side of the courtroom, with his hands clasped, awaiting the judgment on the verdict and then was hurried out of the room as the bulletins announced the session.

Mrs. Scott, wife of the condemned

wife of the prisoner, whose dangerous fight saved Scott from the gallows, leaned forward in an attitude of despair, while the verdict was read. Scott's mother, Mrs. Scott, his wife, while Thomas Scott, his aged and crippled father, who celebrated his 80th birthday yesterday, when Scott was sentenced to hang, stayed close to his son in court but received the verdict, without show of emotion.

Scott, while going to the scaffold, instantly, still faces death on the gallows should he ever be found to have regained his sanity.

CRIMINAL TO ARRIVE AUGUST 12

WASHINGTON, Aug. 6 (UPI)—Japan's criminal, Tamaki, which is being held in the home of Ambassador Joseph E. Clegg, is expected to reach San Francisco Aug. 12, when he will be the American chief of Takeo, Prince L. Neville, informed the state department today, in a dispatch telling of the extraordinary honors paid in Japan at the funeral of the diplomat.

Tears Take Place of Happy Smiles of Adopted Girl

Public Welfare Commission of New York Takes Hand in Affairs of Millionaire and Recently Acquired Wife

NEW YORK, Aug. 6 (UPI)—Tears for a moment were replaced by joyful smiles when Mrs. Mary Louise Spur, her adoption by Edward W. Browning, millionaire real estate operator who has lavished clothes and jewels upon her during the past two days.

The tears were "realized" by persistent declarations that Mary is a woman more than a child, when the announcement of the Board of Education was made at the board of education meeting today, in a dispatch telling of the extraordinary honors paid in Japan at the funeral of the diplomat.

HAYLN MAY NOT BE A CANDIDATE

HYLAN MAY NOT BE A CANDIDATE

Second Term Proposals Meet With Strong Opposition In Democratic Party.

NEW YORK, Aug. 6 (UPI)—Democratic opposition to Mayor Hylan as candidate for re-election became an open secret today when the committee of Tammany Hall and the democratic committee of the Bronx chose State Senator James J. Walker to fight the mayor in the primary election.

Admiral George C. Goepfert, Brooklyn leader, said that it was "reasonably certain," that he, Maurice Connelly of Queens and Davis H. Miller of Brooklyn, will name Mr. Hylan as their candidate.

It was reported that Governor Smith, a political foe of Mayor Hylan, would support him if Mayor Hylan would not run as a candidate.

On the other hand, the democratic committee of Tammany Hall and the democratic committee of the Bronx

chose State Senator James J. Walker to fight the mayor in the primary election.

They said that the records

they say Mary is 21, said Mr.

Browning, while Mary added:

"I was one year old when I came

to America." The records

which made the 10 year old girl

believe she was 21 years old.

Mr. Browning, licensed at the

Collegiate, discussing the adoption, said: "I am not a bachelor, and I am not a divorcee. I am making arrangements to get married."

He said: "I am not a divorcee."

DEBT FUNDING TO GO FORWARD

American and Belgian Commissions to Begin Work on Re-financing of Loans.

WASHINGTON, Aug. 6 (AP)—The re-financing of the Belgian \$400,000,000 war debt to the United States will be taken up formally by the American and Belgian governments.

Almost simultaneously with the fixing today of the date for these negotiations, information reached American government officials here that it is planned to send a debt cancellation bill next month. Italy also is expected to resume negotiations in the near future. Agreements will be made on the amount to be paid and the funding of approximately ten billions of dollars of the total unfunded foreign debt of slightly more than twelve billions of dollars.

The American delegation will attend the first formal meeting today since last December to consider a comprehensive statement regarding Belgium's ability to pay its capacity to do so in the particular circumstances of the agreements with the debtor nations, which will be made.

Terms to be liberal

Monetary experts concurred at the time the British settlement was approved that the United States probably could not make as good terms with any of the other nations as with Belgium. Other members of the American Commission are not yet advised as to the proposals the Belgians will make, but any plan to re-finance the Belgian war debts to this country, with Germany held responsible for the former, could not be seriously entertained.

Under the terms of a truce, Germany agreed to pay all Belgian war debts, but the United States never exercised that right. Moreover, the amount of compensation received by the United States under the armistice from Germany probably does not exceed the amount of debts as between the nations owing the American government.

The Belgian committee, headed by Baron de Cartier, the Belgian ambassador to the United States, The other members are: Jeanne Preud'homme; Emile Franquet, Vice Governor of the Bank of General de Belgique; and M. Cuttler, head of the Banque d'Outremer.

SUGAR CONSUMPTION IS STEADILY INCREASING

NEW YORK, Aug. 6.—More sugar has been eaten by the American people in the first half of 1925 than ever before in the history of the United States. The consumption, as given by Facts About Sugar, which is the recognized trade authority on the subject, shows that during the six months between January 1 and June 30, 1925, the average daily consumption of 353 pounds per day for every one of the 114,000,000 population of the country.

This is an increase of over 42,000,000 pounds per day over the average half pounds per capita over the period for the first six months of 1924 and is more than twice the quantity consumed 10 years ago.

While the use of sugar usually is larger than during the first half of the year, last, during the second six months, the consumption of sugar indicates that the total consumption in the United States during 1925 will be over twelve billion pounds or more than 100 pounds per person for the whole population.

POSTAL RATES OF 1910 URGED ON COMMITTEE

—NEW YORK, Aug. 6 (UPI)—A return to the postal rates obtaining July 1, 1910, with a minimum charge on each piece, was urged today before the special joint sub-committee of congress by Arthur E. Baldwin, president of the American Postal Association. He characterized the new rates as a "fix on advertising," and asserted it was absurd to use the post office department's fact-finding committee to determine what rates should be.

"Don't you think it is fatal to advertising as a business, just as it would be to a mill?" asked Senator Moore, who presided.

"It would be fundamentally or materially fatal to the source that generates the mill," the witness retorted.

He contended that club and association magazines, entered as second class mail, should be required to pay the same rates as first class mail in the field.

Mr. Baldwin said that under the present practice, obscene matter enjoyed a cheaper rate than higher class publications. As a result, he asserted, Mr. Baldwin said the postage rates had shut off profitable mail traffic.

LOS ANGELES, Aug. 6 (UPI)—Dr. J. Norris of Massachusetts, president of the American Chemical society, told the annual meeting of the division of organic chemistry that oil which when tapped by chemist will yield some of science's greatest triumphs.

Professor Norris said: "We are producers of vast quantities of petroleum products. We have the opportunity to develop great chemical industries based on an abundant raw material. I believe that the time is ripe to begin the development of oil which will yield some of science's greatest triumphs."

He characterized the new rates as a "fix on advertising," and asserted it was absurd to use the post office department's fact-finding committee to determine what rates should be.

"Don't you think it is fatal to advertising as a business, just as it would be to a mill?" asked Senator Moore, who presided.

"It would be fundamentally or materially fatal to the source that generates the mill," the witness retorted.

He contended that club and association magazines, entered as second class mail, should be required to pay the same rates as first class mail in the field.

By cracking the crude oil we can make many sources of compounds soluble in water for myriad of uses.

—Points Out Missing Link

Manganese is the "missing link" of plant life, was dragged into the spotlight today by Dr. J. E. McHargue, chairman of the department of the Kentucky agricultural experiment station.

Dr. McHargue declared that until now mankind had thought that only plants could take up manganese.

He contended that club and association magazines, entered as second class mail, should be required to pay the same rates as first class mail in the field.

Mr. Baldwin said that under the present practice, obscene matter enjoyed a cheaper rate than higher class publications.

SAG DEVELOPS IN CEREAL MARKET

Lack of Large Export Business and Heavy Selling Tend to Force Wheat Down.

CHICAGO, Aug. 6 (AP)—With no large export business in evidence and with heavy selling pressure from the east and from Winnipeg a factor, the Chicago wheat market today underwent another sharp decline. The market has shown a disposition to regard something of a reaction as due after the sharp advance of late. Closing prices for wheat were unmet at the same as yesterday's finish to 1 cent lower, September 1.50 to 1.60 and December 1.60 to 1.60 1/4, with corn at 6 1/2 to 14 1/2 down, oats 1 1/2 to 3 1/2 off, and barley 1 cent, varying from fifteen cents to an even dollar.

Shortly after the opening wheat values had scored a moderate upturn but selling quickly ended, and although good buying support developed on declines the rallies that followed firmed the force which has recently been the rule. An unexpected advance in wheat was not met, however, ascribed largely to unfavorable weather in England, Germany and France, but reports of welcome rain in parts of the Canadian northwest acted as more than a counterbalance and tended to give an advantage to sellers here.

Wheat交換 for 85,000 bushels of wheat arrived from Chicago to Buffalo and New York, and were generally construed as a move to fortify the position of the principal Chicago owner of cash wheat. However this night, September delivery of wheat in Chicago showed relative strength today, and was quoted temporarily above December. Further, moderately offering of wheat to arrive here was steady, though it was reported to be drawing wheat away from Chicago in western Iowa. Some local advice thought, were current that only 200,000 bushels of wheat had been taken today for delivery.

Reliable ratios in Nebraska exacted the price of the corn market and in line with lower wheat and with grain, the provision market was exacted.
