**PN-9 Battling With Failing Gas Supply Believed Forced Down Into Sea; Searching Ships Find No Trace.**

(UPI Associated Press) HONOLULU, Sept. 1.—Tragically threatened the navy's non-stop flight from San Francisco to Honolulu tonight when the seaplane PN-9 No. 1, her fuel tank had been forced down into the sea, searching ships find no trace.

Zigzagging along the seaplane's charted course, the navy ships *Aron-*

*tank* and *Tanager* used their day-light searchlights to the minute rain in a determined attempt to track down the giant flying machine. The two ships left their pre-determined stations in the afternoon after more than an hour of zigzagging without word from the fliers.

Commander Wilbur H. Van Auken of the *Aron-tank*, at 1 p.m., sent the following message to the *Tanager*, 150 miles toward the southwest:

"The plane probably came down about 12:45 p.m. between the *Aron-tank* and *Tanager*, search along the coast southward to Aron-tank."

The message added that the *Aron-tank* would take up the search along the course toward the *Tanager*.

The last message received from the seaplane was not calculated to inspire much confidence that she would be able to reach the shelter of the island of Maui, the nearest land.

## Too Rough for Landing.

"We will crack up if we have to land," read one message from the plane to the *Aron-tank*, which was on station 1800 miles from the California coast and less than 300 miles from Hawaii. "Intended destination of the flight."

Another message added: "Are you in the rain?" The *Aron-tank* replied affirmatively.

The first message of actual distress was transmitted at 1:18 p.m. when the seaplane commander, John Rodgers, broadcast the following to all NAVFAC:

"Plane very low on gasoline and doubt ability to reach destination. Keep careful lookout."

The message was addressed to the *Tanager*, reading:

"Please keep good watch. Gas is almost all gone. Think it impossible to get in."

A series of similar messages followed.

"Running out of gas. Will probably have to land, *Aron-tank* or *Tanager*. Please stand by."

"Please stand by. Asking helpings from *Aron-tank*."

## Ask Compass Bearings.

The last message received were frequent requests for radio compass bearings from the *Aron-tank* and

## New Mexico Editor Too Ill to Stand Court Appearance

Carl O. Magee, Accused of Murder, Will Not be Arraigned Until State of Health Permits.

EARL VEGAS, N. M., Sept. 1 (UPI)—District Attorney Chester Hiniker tonight announced that the arraignment of Carl O. Magee, Alququerque, New Mexico, for the murder of his wife in connection with the shooting and killing of John H. Lasseter, which was to have been held tomorrow, has been adjourned until Friday.

The decision to postpone the arraignment was reached after a conference between Hiniker and counsel for Magee. The postponement is being made because the public trial of Magee which will not permit him to come to Las Vegas at this time, was announced.

A number of men from Las Vegas, sustained in a stalemate with Justice-Doctor Judge David J. Shultz, and to the fatal shooting of Lasseter, Lasseter's widow, Mrs. Lasseter, attempted to intervene during the encounter between Magee and Judge Lasseter. He was struck and killed by one of three bullet holes in his body.

Magee had been brought to the floor by Judge Lasseter, Magee and Lasseter have been bitter political enemies for years.

**BLASTOCK LAMB TOPS SALT LAKE RAM SALE**

SALT LAKE, Sept. 1 (UPI)—The executive committee of the National Ram Association selected Boise, Idaho, as the 1926 convention city of the organization. Dates for the convention are to be set later this month.

The high point of the ram sale this afternoon was the \$1,000 J. H. Neleker and sons of Stockton, Calif.'s largest breeders of Hampshire sheep, for a lamb entered by Robert Blastock.

The Nelekers cling to the bidding opposed by L. L. Breckinridge of Twin Falls at \$800. Previous to this level \$800 had been high.

## El Paso Residents Again Threatened With Flood Waters

RIO-GRANDE—Swollen—Beyond Point of Previous High Mark; Rain Falling.

EL PASO, Sept. 1 (UPI)—Another flood, originating in the mountains of southern New Mexico, is threatening this city.

Federal water service officials said the water, which crest yesterday, probably would not reach here until tomorrow.

The waters of the Rio Grande are now in even greater proportion than during the flood that inundated portions of farm land around Fabens, Texas, but city officials do not expect any damage.

Heavy rains last night caused washouts on the Santa Fe railroad between Deming and Silver City, New Mexico, and high water is expected to hold back Santa Rita and Hatch waters.

(By the Associated Press)

NEW YORK, Sept. 1—Babe Ruth came home today, repentant and apologetic. Broken in spirit by the iron grip of discipline, he was a changed man, trudging through the cold, drizzling rain to the Bronx.

The club, like the band of

men who followed him to the Bronx, was silent. Ruth still remains on the Yankee inactive list. Manager Miller, who had been silent, Saturday, on the incident, was definitely suspending Ruth and giving him no

excuse for alleged misbehavior, accepted the star's apologetic apology and refused to give him his original position until assured by Ruth's own actions that he is repentant and in possession of a full understanding of the seriousness of his shortcomings.

Wife Willing to Forgive.

But the domestic difficulties which confronted Ruth and his wife, Ruth, were far from over.

After a gathering of newspaper writers and photographers in his apartment in a local hotel, the teamster declared he was still a member of the family.

Ruth, however, was suffering from a number of Ruth's old afflictions on off the field of play, accepted the humble assurances of his wife and convinced him that his faith in her was not broken by the tremendous

rumblings of unfeelingness.

Ruth arrived in New York at 10:10 o'clock this morning and met Colonel Huggins, manager of the New York club, at his office at 1 o'clock.

After the conference, Colonel Huggins said that Ruth had apologized for his conduct and was ready to make a public apology to Manager Miller.

President Coolidge, on behalf of

the family, accepted the apology.

Ruth, however, believed there was a chance for the difference between President Coolidge and Ruth to be worked up before next congressional session.

"Please, very low on gasoline and doubt ability to reach destination. Keep careful lookout."

The message was addressed to the *Tanager*, reading:

"Please keep good watch. Gas is almost all gone. Think it impossible to get in."

A series of similar messages followed.

"Running out of gas. Will probably have to land, *Aron-tank* or *Tanager*. Please stand by."

## FOSSIL REMAINS OF AMERICAN CAMEL ARE FOUND IN WYOMING

unique discovery uncovers new evidence of prehistoric animal life.

CHEYENNE, Sept. 1 (UPI)—Eighty thousand years ago a freak storm drove thousands of camels, each eight or nine feet high, into an area ten by four miles near Laramie, Wyoming. Probably all of them perished.

The skull, limb bones and neck of one of the animals, named "Bigfoot," was discovered by Dr. Charles E. Miller, curator of the Walker museum at the University of Chicago. He is sending them, together with other fossilized mammals found in the same area, to the Peabody Museum of Natural History, New Haven, Conn.

# THE SPORTS OF A DAY

## \*BASEBALL NOW IS CHIEF TOPIC IN WASHINGTON

Struggle Between Senators and Closest Rivals, Philadelphia Athletics, Creates Keen Interest Among Fans.

(By The Associated Press)

WASHINGTON, Sept. 1.—A world title, a championship, a pennant over the last month has been fought for by the two leading Senators and their closest rivals, the Philadelphia Athletics.

The Athletics, led by Miller, Washington, 7 to 6, has increased its lead to four and one-half games.

A further world series touch was given the game by the presence of the manager of the other team, Miller, for the other, the championship contest.

The victory was Washington's fourth in a row, and is using Philadelphia markedly in seventh defeat.

The veterans, Walter Johnson and Roger Peckinpaugh were the outstanding performers.

Pitching a steady game throughout,

Johnson gave up no hits, but Miller had two, one hit, and Miller had three trips to the plate contributed two double plays and a single to the hit total.

Miller, too, was a single to the hit total.

Both teams had four runs.

The battle started Peckinpaugh was the power behind the third winning wave of the New York team that never faced, though it won the first two.

With the aid of a single, sandwiched in a double which drove in two runs and paved the way for a third when Lannan, the Athletics leftfielder, fumbled the ball in the air, Peckinpaugh had crossed the plate, Peckinpaugh himself taking third on the play. A few minutes later he stole home while Harris was waiting near the plate.

Miller had a shower of straight bats to the playing field and also gave the 25,000 fans an opportunity to exercise their lung power.

In the seventh inning, Washington again attacked Harris and forced him to give way to Quinn, after a run had been scored.

Philadelphia was the first to fall, though it had a chance to do so.

A triple by Miller and a sacrifice fly by Coughlin thrived the trick. After Washington had sent a runner home in the fifth and scored a third in the ninth,

## MORMONS AND BAPTISTS IN CONTEST FOR CROWN

Battling for the crown honors of the twilight league, the L. D. S. and the Baptists will meet this evening in the final judgment game of the twilight church league with the contest to get under way at 8:15 on Lincoln field.

The Baptists have less than a week.

Philadelphia was the first to fall, though it had a chance to do so.

A triple by Miller and a sacrifice fly by Coughlin thrived the trick. After Washington had sent a runner home in the fifth and scored a third in the ninth,

the Baptists have less than a week.

## DUMB-BELLS

## ATHLETICS IN SECOND PLACE

First of Two-Game Series Goes to Senators in Exhibition of Errorless Ball.

WASHINGTON, Sept. 1.—Playing errorless ball the world champion Senators defeated the Philadelphia Athletics in the first game of their two game series here today, 7 to 3.

The league leaders kindled "Bilby" before the bat and batted their way to the eighth against Quinn in the seventh and eighth.

Johnson, in addition to pitching a steady game, knocked out two doubles and a single.

The score: — R. H. E.

Washington ..... 7 0 3

Philadelphia ..... 3 1 0

Batteries — Harris, Quinn and Johnson; Johnson and Hart.

## WASHINGTON IS STILL LEADING

American League Champion-ship Grows Steadily Closer for Winning Senators.

CHICAGO, Sept. 1 (AP)—Washington today struck a decisive blow in the defense of its American league champion-ship. The Senators are tough leaders, their nearest challengers, the Philadelphia Athletics, by four and a half games, by virtue of today's 7 to 3 victory over the Athletics.

The standing:

Won. Lost. Pet.

Washington ..... 80 45 .629

Philadelphia ..... 71 48 .607

Continuing their bulldog-like effort to hold off the Athletics, the Philadelphians, who are in second place, lost to the Senators in the eighth.

Miller, the Athletics leftfielder, fumbled the ball in the air, Peckinpaugh had crossed the plate, Peckinpaugh himself taking third on the play. A few minutes later he stole home while Harris was waiting near the plate.

Miller had a shower of straight bats to the playing field and also gave the 25,000 fans an opportunity to exercise their lung power.

In the seventh inning, Washington again attacked Harris and forced him to give way to Quinn, after a run had been scored.

Philadelphia was the first to fall, though it had a chance to do so.

A triple by Miller and a sacrifice fly by Coughlin thrived the trick. After Washington had sent a runner home in the fifth and scored a third in the ninth,

the Baptists have less than a week.

NATIONAL REPRESENTATIVES.

Vice President, New York; Chicago, Boston, San Francisco, Los Angeles, Seattle.

## ANTI-CRIME AD.

If New York's crime curve turns downward from now on, it may be attributed partly, at least, to the advertising campaign in behalf of honesty. The New York Police Department is using ear-cards, placed conspicuously in elevated, surface and subway trains to prevent crime by warning criminals and to stimulate public confidence in the department's protective work. A few of the signs, with appropriate pictures, are worded as follows:

"YOU CAN'T WIN! You have to get all the breaks. One little slip means Sing Sing."

"YOU CAN'T WIN and they LOSER!" ("They" are the criminal's wife and children.)

"YOU CAN'T WIN! The clever attack in New York police history is old and broken, with twenty years yet to serve in Sing Sing."

It is hoped that these signs will at least deter potential criminals from committing that first misdeed which sets them on the "wrong road." This novel advertising really ought to accomplish much good. Every one knows that advertising for many other purposes is effective and profitable. Why not advertising for honesty?

## ELLISS ISLAND.

With the examination of immigrants at foreign ports, before they start for America, and the landing of many of them at ordinary steamship docks, Ellis Island begins to lose its importance. At the same time there develops an appreciation of the fact that Ellis Island has performed a real service, not only for the country but for the immigrants themselves.

As a place of detention, usually overcrowded and always hampered by congressional neglect, that famous island has come into much unpopularity at home and abroad. There have been only too many cases of immigrants detained there, unnecessarily and subjected to grievous hardships. But also Ellis Island has afforded protection, shelter and personal attention to hundreds of thousands. It has enabled social organizations of many kinds to provide their own special services in making the transition easier.

The fact that the immigration authorities and accommodations are now relieved of so much of the old deluge should enable Ellis Island to transform itself into a more human, helpful and typically American institution serving as a wholesome and fitting introduction of immigrants into American life.

## PEACE BREEDERS.

The Prime Minister of Australia recently replied, at a public dinner, to the group in England and the British Dominions who still cling to the idea of a single Parliament to govern the destiny of the whole Empire. Though he spoke only for Australia, his words may well be given wider application.

"Australia," he declared, "would never tolerate the idea of such a Parliament. What is wanted is closer collaboration, closer co-operation, closer trade relations" among the members of the Empire.

And those who are presently what is wanted among the members of the community of civilized nations. These things are true peace-breeders.

**TOTAL LOSS OF HUGE PLANE SEEMS CERTAIN**

## (Continued from Page 1)

that of Florence L. Bradley, New York, who paid three cents.

Huge fluctuations were recorded in the returns published today in comparison with returns made at the same time last year. John D. Rockefeller, Jr., paid less by more than a million dollars than he paid last year. J. P. Morgan, on the other hand, paid \$1,000,000 more this year compared with \$93,000 last year. G. M. Gray, chairman of the United States Steel corporation, paid \$22,000 this year as compared with \$17,500 last year. Returns showed that while the total tax paid generally from all commercial firms reporting,

On New York newspaper, the New York Evening Post, referred from Philadelphia, said that it had figures stating that such publications as the *Newspaper of the Times* violated the rights of the individual.

**TRAFFIC RULE VIOLATORS MAKE WORK FOR OFFICERS**

## (Continued from Page 1)

Out of a total of 75 arrests made by Twin Falls police during the month of August, 63 were in cases involving violation of traffic ordinances, according to a monthly report submitted yesterday by Lt. C. E. Leekton, chief of police.

Violations given an account of minor violations of traffic ordinances in 21 instances; on account of driving under the influence of alcohol, 22; on account of drunkenness, 5; and on account of misdemeanors under state laws, 7.

Violations given an account of minor violations of traffic ordinances in 21 instances; on account of minor violations of various ordinances, 32; and on account of minor violations of sanitary ordinances, 10. An investigation was made of 58 complaints.

Six beds were furnished to persons who had suffered from skin diseases. Sixty-four persons were arrested and four were recovered. Eight bicycles were reported stolen and five were recovered.

**LIGHTNING KILLS ONE.** In Lincoln, Texas, Sept. 1. Lightning during a thunder storm here today ignited a tank of the Magnolia Petroleum company's tank farm and destroyed 65,000 barrels of oil. The explosion was heard a mile off. The tank truck was carrying 100 barrels of gasoline and 100 barrels of kerosene.

From the Hawkeye side, two submarine ships left Port Harbor, were loaded with coal and supplies from Leavenworth, and expect to return to the ship before nightfall.

## WOULD SETTLE MINERS STRIKE FOR ALL TIME

Coal Operators Will Insist That

Next Wage Contract Provide Against Any Future Walkout of Workers.

(By the Associated Press.)

SCRANTON, Pa., Sept. 1.—Anhur operators will insist that a settlement of the present hard coal strike in the industry, W. M. Ingalls, chairman of the anthracite operators' negotiating committee announced in this afternoon.

Mr. Ingalls' statement came in reply to John J. Lewis' declaration that no other course was open to the miners than to suspend mining operations.

The operators' spokesman said: "The miners' spokesman says that 'the miners' deeply regret that another course is open to them than to accept our offer.'"

"There was no way open that the operators have over and over again proposed; namely, that operations should go on while negotiations for a new contract were in progress."

That the miners cannot work unless they have a contract is unsupported by reason of practice.

"The miners' spokesman says that 'the miners' spokesman says that 'the miners' deeply regret that another course is open to them than to accept our offer.'

"There was no way open that the operators have over and over again proposed; namely, that operations should go on while negotiations for a new contract were in progress."

That the miners cannot work unless they have a contract is unsupported by reason of practice.

"The miners' spokesman says that 'the miners' deeply regret that another course is open to them than to accept our offer.'

# TRADE IN CORN GAINS STRENGTH

Unofficial Estimates Tend to Nullify Predictions of Bump-up Crop; Wheat Lower.

CHICAGO, Sept. 1 (AP)—Unusual activity and strength in the corn trade sprang up in the outstanding feature of the grain market today. New official estimates of the 1925 yield of 2,000,000,000 bushels were held to be too low to reflect the predictions that a bumper crop of corn was to be harvested. Closing quotations on corn were firm at \$3.60 per bushel, December \$3.63, with wheat irregular at 3¢ decline to 3¢ gain, oats 1¢ 1/2¢ up and provisions varying from unchanged figures to a rise of 2¢ 1/2¢.

Commodity writers, while other grain values, the price of corn showed a decided swing upward instantly throughout the day. Highest quotations were reached shortly after private crop reports were available from leading experts. In some quarters, these reports were construed as indicating a bumper crop had been anticipated a bumper corn crop whereas today's estimate would indicate the outlook is apparently for less than 2,000,000,000 bushels as against 2,000,000,000 bushels expected on August 1.

Reports of continued dry weather, which was forecast of a warm spell, added to the upward bias of the corn market, and likewise did not meet on prevailing shortage of hay and forage. Most commanding houses took to the buying side of the market and there was also lively purchasing on the part of previous specie sellers. Country offerings of corn to market were practically nil.

Wheat, which had responded to the influence of corn strength and to the fact that an average of private crop reports suggested a domestic spring wheat yield but little larger than the government figures of August 1, whereas a substantial gain had been expected by the other hand, still maintained developments at 1¢ upward, a minor effect, however, as the low wheat, weakness, and selling ascribed to a prominent Chicago factor.

Oats and provisions were both given more or less by corn.

Wheat—Open, High, Low, Close: Sept., 135¢ 153¢ 135¢ 135¢ Dec., 135¢ 135¢ 135¢ 135¢ May, 135¢ 135¢ 135¢ 135¢ Oats—

Sept., 37¢ 38¢ 37¢ 38¢ Dec., 41¢ 41¢ 40¢ 41¢ May, 45¢ 45¢ 45¢ 45¢

## CASH QUOTATIONS

CHICAGO, Sept. 1 (AP)—No. 3 red \$1.66¢; No. 2 hard \$1.60¢; Corn No. 3 mixed \$1.60¢; No. 2 yellow \$1.66¢; No. 1 white \$1.60¢; Oats No. 2 white 33¢¢; White No. 3 white \$1.60¢; No. 2 gray \$1.60¢; Barley \$0.60¢; Oats \$0.60¢.

Cherry seed \$20¢; 27.75¢.

## PORTLAND GRAINS

PORTLAND, Sept. 1 (AP)—Wheat: Hard white \$1.80; Hard Sept. 1, 43¢; Oct. 1, 44¢; soft white Sept. 1, 45¢; Oct. 1, 45¢; Hard white Sept. 1, 45¢; Oct. 1, 45¢; Hard white, Sept. 1, Oct. 1, 45¢; Oats: No. 2 white feed, Sept. 1, 45¢; Oct. 1, 45¢; No. 2 gray, Sept. 1, 45¢; Oct. 1, 45¢.

POTATO MARKET

CHICAGO, Sept. 1 (AP)—Potatoes: Receipts 328, Total United States: shipments 168 tons, trading only market steady; Wisconsin bulk round white \$20¢; 22¢; ordinary round white \$20¢; 22¢; marketed round white \$20¢; 22¢; Market bulked sacked round Ohio \$2.10¢; 25¢; Wisconsin sacked round Triumphant \$1.75¢; Idaho sacked round Russell \$2; Michigan sacked round whites \$2.10¢.

Potato, higher; Receipts 17,700 tons; cash price \$10¢; 12¢; first flats 14¢; 12¢; second 16¢; 18¢.

Eggs, higher; Receipts 17,184 cases; first 20¢; 21¢; ordinary flats 28¢; 29¢; 30¢.

Poultry, Oliver, higher; fowls 20¢; 25¢; broilers 20¢; 25¢; roasters 25¢; turkeys 20¢; ducks 10¢; 21¢; geese 15¢; 20¢.

GODEN LIVESTOCK

ODGEN, Sept. 1 (AP)—Lives: receipts 10, for market; part load medium grade 100-pound hoppers, including mostly hoppers at \$1.27; 20¢; 25¢ lower; packing sons at \$1.25¢.

Cattle: Receipts 10, for market; dials 10¢; 12¢; 15¢; 18¢; 20¢; 25¢; 30¢; 35¢; 40¢; 45¢; 50¢; 55¢; 60¢; 65¢; 70¢; 75¢; 80¢; 85¢; 90¢; 95¢; 100¢; 105¢; 110¢; 115¢; 120¢; 125¢; 130¢; 135¢; 140¢; 145¢; 150¢; # WORK DONE BY CREDIT CONCERN IS MADE CLEAR

Twin Falls County Retailers' Association Seeks to Establish Credit of Local Purchasers.

One of the Twin Falls institutions which is meeting with general success and which has made steady progress even since its inception some months ago, is the Twin Falls County Retailers' association, a concern engaged primarily in the business of dispensing credit, insuring of better and cleaner business and fewer credit losses to business interests generally.

Members of the association meet every two weeks and discuss credit.

It is at these meetings that the credit worth of the Twin Falls citizens is discussed, according to J. J. Hughes, the secretary, who rates the user of credit, according to the secretary, the person rates himself in the manner in which he pays his bills.

"It is at these meetings that the names of those persons who do not pay their bills are discussed," said Mr. Hughes. "Although the association has been in existence only about four months it has become very effective in handling credit ratings."

The Twin Falls association was organized May 15, and is but one in a long chain of similar organizations now operating in practically every city in the United States and Canada, and each one of these associations is affiliated with the National Credit Association, Inc., in Los Angeles.

Through an interchange of credit information the past record of anyone applying for credit can be obtained, so you see that no matter where you have lived, your credit rating can be obtained, and your record investigated when you apply for a charge account, and should you take up your residence in another city or distant state you will find that your credit record has preceded you.

"The membership is composed of men representing practically every line of retail business in the county of Twin Falls, and vicinity, and includes not only the largest department stores, but also the coal, seed and lumber dealers, hardware, drugs and furniture stores, electric, automobile, bicycle shop, druggists, ministers, and grocery stores in every section of the county.

**Rated at Meetings.**

"Once every two weeks the members meet and discuss credits. It is at these meetings that the names of those who do not pay their bills are brought up for rating. The association does not care who you make your own rating by—the manner in which you pay your bills, and your card in the files will tell one of the following stories: prompt, slow, too slow for credit, along with other bits of information concerning you.

"The credit association—also known as the credit bureau—keeps a record of all the members' customers. Your card tells a simple story of manner in which you take care of your obligations, both past and present, and through these meetings the cards are kept right up to date.

"In addition to collecting and disseminating credit information, the credit association keeps its membership informed concerning the latest news and bad check passes who may use the retail merchants throughout the country. By assistance of the postal department and express companies its members are kept informed of the thefts of postal and express money orders.

"Its methods of working with the police department is of great value in apprehending cases of bad checks, for within 45 minutes information and descriptions can be phoned to every member in Twin Falls.

**After Check Artists.**

"Persons who make a habit of issuing insufficient fund checks are known to the members and some have been prosecuted. Credit associations are of two kinds: They are of value to the merchant because they furnish him with the necessary information when opening new accounts and aid him to avoid losses from bad debts and fraudulent schemes.

"They are of value to you, the customer, because they enable you to obtain credit quickly if you can pay promptly to your card, tells the story of prompt pay you will have little difficulty in obtaining credit at any store that is a member of the association, for all the merchant has to do is to phone the association office and secure your rating.
