DOUBTBOY STILL SUPREME IN WAR THINK OFFICERS
High Ranking Officials of the Army Tell President's Aid Board Infantry Holds First Place in Defense.

(By the Associated Press.)
WASHINGTON, Oct. 13.—High ranking officers were won by the army and the president's aid board today in the opinion of the American public, according to the findings of the national defense board.
Opposing views advanced by Colonel William Mitchell and others, three officers testified that they were charged with the drafting of defense plans do not believe the "whirl of airplane paper" or "any other mechanical device" can in time of emergency replace the "aged determination and the will to win of the American infantryman."
Major General Charles P. Summerall, senior officer of the army, asserted that "war is a ruthless thing that knows only force and whose object of ways will be to destroy the enemy's ways." Because many lives on the line, he said, "we must have land power and the army is the infantry and every other arm must contribute to the infantry through."
Geta Support.
He was supported in this view by Brigadier General Hugh A. Drum, who said by the nature of the war, it is repulsive to the citizens that Colonel Mitchell and others have made concerning the present defense program, and also to answer specifically charges of mismanagement that have been brought by newspaper-writers against the army air service.
General Drum read a prepared statement, covering fifty-one eye-witness statements, in which he asserted that "no power alone cannot win a war, as air craft, by their very nature, cannot hold a position there to defend."
General Drum, testifying after Major General Simon M. Patrick, army air chief, had criticized his endorsement of the proposal for creation of a separate air corps in the army as a step toward the establishment of a department of national defense, also opposed both of these projects as "mismanagement."
Against Bureau.
He declared neither the separate corps nor the defense department proposal, "because their chief object would be justified on my grounds, whereas there was a possible separate responsibility, separate situation, or separate theater of action which can be assigned to a separate (air) force."
General Patrick, who appeared before the board for the second time, during charges made yesterday by Chairman Martin B. Madden of the house appropriations committee that the army had "squandered millions of dollars" in a reckless "expedition of money in aviation experimental work." He asserted much of this work was necessary to determine what should not be done.

TWO ANSWER TO FEDERAL CHARGE
Wyoming Man Arrested Here Held for Violation of Prohibition and Narcotics Acts.

An arraignment here Tuesday before United States Commissioner H. E. Foxworth on a charge of violation of the prohibition and narcotics acts, Alexander S. Duncan pleaded guilty to violation of the liquor law, but denied having committed an offense against the narcotics act, while George W. Ross pleaded not guilty to both charges. The accused men were admitted to bond in the sum of \$200 each, and were released here Tuesday night, after October 21, and in default of bond both men were committed Tuesday evening to the county jail. The accused men claim residence in Laramie, Wyoming.
The accused men were arrested by the following search of their car in a garage at a dwelling on Second avenue north that Duncan had arranged to have.
The search resulted in discovery and confiscation of approximately 13 gallons of liquor, and a quantity of hash, and a quantity of powder that are said to have contained a narcotic. "Duncan, in his statement, stated that he had obtained the powder on a prescription given him by a physician."
The car was confiscated under provisions of the federal revenue laws.

BACK OF A GOOD NAME

Rarely in manufacturing history has a name entrenched itself so firmly in the confidence of the entire world as the name Dodge Brothers.

Everywhere and to everyone this name means but one thing—a product built honestly of the best available materials and sold at a just price.

Behind this product, this price and this enviable reputation lie certain impressive and fundamental facts.

So important is a knowledge of these facts to the motor car buyer that Dodge Brothers, Inc., have determined to publish them, from time to time, until every newspaper reader in America may be presumed to have read them:

Dodge Brothers, during the past eleven years, have built and sold more than one million four hundred thousand motor cars—and more than 90% of these cars are still in service. This record requires no comment. It stands impressively alone in motor car history.

It has never been Dodge Brothers policy to build yearly models. When an improvement, that is really an improvement, is discovered, it is made at once. Their slogan, "Constantly Improved But No Yearly Models" is familiar the world over.

Dodge Brothers build one chassis and only one. This policy materially lowers manufacturing cost. It also enables Dodge Brothers engineers to concentrate their entire time and thought on the betterment of this one type.

Dodge Brothers have never had an "off year" or an "off car." This is because they have never used the public as a testing ground for "new models" or lowered the quality of their product in the slightest degree. Every change has been an improvement on the original design.

Dodge Brothers pioneered in building the first all-steel open car and the first all-steel closed car. These epochal develop-

ments have saved Dodge Brothers owners many millions of dollars by materially prolonging motor car life and by effecting marked economies in manufacture. This construction has also reduced incalculably the danger from accident and fire.

Dodge Brothers sell directly through their dealers to the purchaser. There are no sectional distributing agencies to increase the cost of distribution and the cost of the car.

Dodge Brothers have never given so-called "free service." The car is sold at a fair and honest price. Nothing is added to this original purchase price to pay for service that the owner may never need.

Dodge Brothers Dealers were pioneers in unanimously adopting the flat rate service system.—By this system, the owner knows in advance what any service job will cost. There are no unpleasant surprises in his bills.

The sturdiness and long life of Dodge Brothers Motor Car is reflected in its resale value. Comparatively few Dodge Brothers Motor Cars are advertised in the resale columns of the newspapers. The values they bring testify unambiguously to their goodness—and the public's belief in their goodness.

COMPLAINT FILED AGAINST MANY FOR CONSPIRACY CHARGE

SEATTLE, Oct. 13 (AP)—A complaint filed today by W. H. Ficker and wife charged that 22 defendants were illegally stockholders of the Submarine Gold Placer and Quartz Mining company and seeking to dominate the company's affairs.
The organization planned to mine gold from the bottom of the sea with a patented dredge, the complete plant road, but its assets consist of a lease on mining rights in Idaho. The dredge will cost \$1,000,000, it is said, but only a fifth of the money was used for legitimate business of the company.

GIRL RESERVES WORK EXPLAINED

Club and Church Women Hear Plan and Purpose of Organization for Girls.

Young women representing fifteen different churches in Twin Falls met in the parlors of the home of Mrs. J. M. Maxwell Tuesday afternoon. The value of Girl Reserve work and its method of operation in the Twin Falls high school, was brought out by talks by Isabelle Clark, president of the club, and Mrs. Frank Bernhart, high school club; Mrs. Frank Bernhart, Mrs. Vera O'Harey, and Miss Helen N. Clark.

Girl Reserve clubs, it was explained, are divisions of the reserve girls in high school. Girls are not voted into the club. Every girl who wishes to enter is invited to join. The value of Girl Reserve work may become a member. Each club decides how much its dues shall be. The Twin Falls girls decided upon 50 cents a year. This money the girls use for their own club expenses and to send some of their members to District conferences. The officers of the club are democratically elected. Two new Girl Reserve clubs have been started this fall; one for freshmen girls and one for girls who eat their lunches at school.

Citizenship Laboratories.

In speaking of the relationship of Girl Reserve work to the schools, Mrs. Bernhart said that she had found a Citizenship Laboratory for practice in citizenship and democracy. "Through our club program," said Isabelle Clark, "we bring girls into the school in a practical way. We try to give every girl an opportunity to develop her abilities. By getting a hobby which is of value to the community, we are supposed to do. I have discovered my vocation."

Mrs. O'Harey stated that she felt fortunate in being able to attend the Puyallup conference last June, after she found that it meant much to advisers and committee women as well as to the girls.

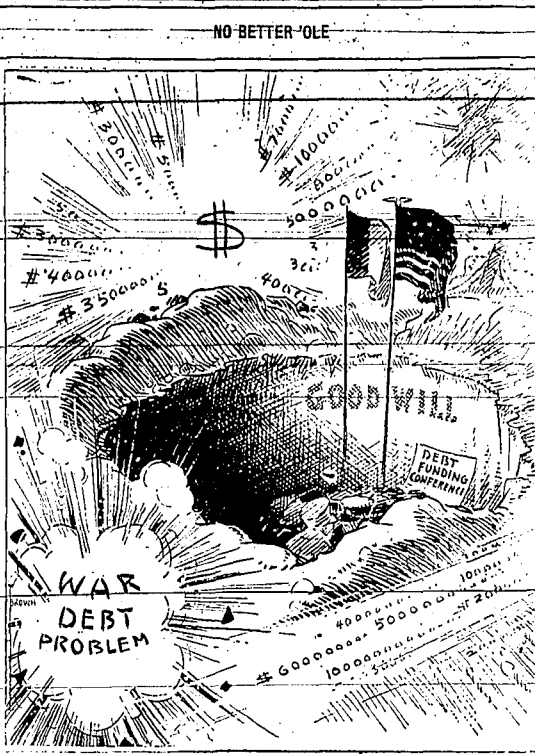

VANDAL DEBATERS FACE HEAVY YEAR'S SCHEDULE

MOSCOW, Oct. 12.—(Special to The News)—Eight intercollegiate debaters on the University of Idaho schedule for this year. It has been announced by William Mitchell, varsity coach, that the Washington State college orators will be in the town of Boise in December. Two triangular contests are the first between Idaho, Washington and Oregon and the second between Idaho, Montana and Utah, have been scheduled for this spring for dates yet to be fixed.

His expounded debaters will be eligible for competition this year. They include Frank Wyman, a three year man and manager; Edmund Becker, Twin Falls, another veteran of three years; J. Earl Simmons, Burley; Arthur J. Peavey, Jr., Twin Falls, and Herbert Wundellich, St. Maries, each with one year's experience. Wyman and Becker will be the nucleus around which Mr. Mitchell expects to build his team. Thorvald Darling of Boise, and Jean Collette, Burley, who debated in the Whitman and University of Washington meets last year, are back.

Work Explained.

The work in both these sections consists of direct help with Girl Reserve clubs, recruiting and training of advisers, work with the committee of women back of the work in each town, planning and administering the two fall conferences, and the summer conference at Puyallup, Wash., and the training of college girls for leadership in church, school and Girl Reserve work. Miss Foster stated that it was the hope that some day there would be a service for the Twin Falls area and the work correspondingly enlarged. There is a grade school Girl Reserve club, and it is not yet in effect. While a secretary for the Twin Falls section cannot make possible an increased amount of work it would, of course, mean a budget considerably larger than the present one.

NO BETTER 'OLE

Copyright, 1925, by the New York Tribune, Inc.

DATE IS FIXED FOR HOME PRODUCTS WEEK

BOISE, Oct. 13.—(Special to The News)—The first week in November has been designated by the Idaho Home Industries Association as Idaho Home Products Week. In order to call to the attention of all the producers grown and manufactured within the state, commercial builders, women's club and men's clubs of all sections of the state have most enthusiastically endorsed the week and pledged by many manufacturers and other producers will be one of the chief features of the observance.

Retailers are asked to stock up with Idaho made goods; to display the same and offer attractive values for the prospective buyer who wishes to buy his winter's apparel. Manufacturers will no doubt offer special inducements during the week and the distributors are also entering heartily into the plan for featuring Idaho made products.

"Buy Idaho Goods" and "Buy Only at Home" are suggested slogans for the use of all on that week.

HUNTER PAYS FINE FOR SHOOTING FROM HIS CAR

On arraignment here Tuesday before W. R. Malloy, justice of the peace, Fred J. Falls of Twin Falls, pleaded guilty to charge of shooting Chinese pheasants in the vicinity of Castleton on an automobile, license No. 20,905, in violation of the state game laws. He was sentenced to pay \$25 fine and \$655 costs.

The complaint was signed by John Callahan, deputy state game warden. It was the second complaint wherein shooting from an automobile was alleged that has been brought to Mr. Falls' attention recently through a recently formed organization of farmers of the west end of the county that is known as the West End Gun Club.

The mother and brother's duties are searching for larvae.

DISCOVERS NEW COMET

KIEL, Germany, Oct. 13.—(Special to The News)—A comet was discovered by the Kiel observatory from the astronomical observatory at Kiel, Germany, on Oct. 13. The discovery of a new comet by the Kiel observatory is the first since the discovery of the comet of 1918, which was discovered by the Kiel observatory. The comet is named after the Kiel observatory.

Act Passed 190 Times

Each year for 190 years from 1829 to 1925, the British parliament passed the "Plutiny Act," which provided for the punishment of cases of mutiny and desertion, and for the proper upkeep of a standing army.

Queer Human Nature

It does seem passing strange that the more you tell about some fellow the harder they know you when your back is turned.

FRESH, charming, immaculate

under ALL conditions. Sheer goodness without a second's fear, any time, any day!

If you seek this added charm, stop employing old-time "sanitary pads," insecure, uncertain.

8 in 10 better class women now employ "KOTEX" . . . a new way, 5 times as absorbent as ordinary cotton pads!

Alarms and deodorizes at the same time, thus ending ALL danger of offending.

You discard it as easily as a piece of tissue. No laundry. No embarrasment.

You ask for it without hesitancy, at any drug or department store, simply by saying "KOTEX."

In fairness to yourself, try this amazing way. Costs only a few cents. Comes six in a package.

Women's Allure

no longer imperiled even under the most trying hygienic problem

Have the Same Meaning

The words "pure" and "chummy" may be used interchangeably, but the word "chummy" usually has reference to the upright structure of brick, stone or the like that extends some distance above a building; it also has reference to the funnel or stack of a steam boiler. The word "pure" is the channel or passage for smoke, air and the mass of combustion to pass through.

WHEAT GOES UP ON DAY'S MART

Swinging Over Wide Range, Prices Registered Sharp Advance in Chicago.

CHICAGO, Oct. 13. (AP)—Swinging over a wide range, wheat prices registered a sharp advance today after showing extreme weakness at first. Reports of extensive damage by frost in Argentina accompanied the advance. Top quotations, however, failed to hold, and the close was unsettled, with a Saturday's finish to 1 1/2-1/2 higher, new style, December 1 1/4-1/4 to 1 1/4-1/4, and old style 1 1/4-1/4 to 1 1/4-1/4. Provisions varying from 10c decline in a line of 22c.

Hand in hand with the advance in wheat prices, buying and selling rates took place. According to stock observers, the lion's share of the buying was for speculative purposes who was in a position to collect profits, having recently been a seller at prices ranging downward from \$1.00 a bushel. Estimates held that the Australian crop would be 40,000,000 bushels less than last year's totals. A considerable strengthening feature in addition to reports of cold weather in Argentina and of low-level rain in Canada, together with the fact that the United States visible supply had increased only 507,000 bushels for the week.

Contributing to the late reaction in the wheat market, however, were private advices telling of beneficial rains over wheat in Australia and in Argentina. Earlier weakness was more or less due to the fact that wheat prices had brought 300,000 bushels of wheat paid, and that Buffalo has also taken 1,500,000 bushels of wheat, making a total of 2,000,000 bushels brought from the United States from Canada since Saturday.

Provisions were responsive to a decline in the value of logs.

Wheat—Open. High. Low. Close. Dec. 1 1/4 1 1/4 1 1/4 1 1/4. May 1 1/4 1 1/4 1 1/4 1 1/4.
