**BIG GAIN SHOWS
IN CROP VALUES
OVER THE STATE**

Valuation of Idaho's 18 Principal Products Increases 41 Per Cent Over Year of 1924; Federal Figures.

(By the Associated Press)

BOISE, Jan. 2.—Valuation of Idaho's sixteen principal crops for the year 1925 represents a gain of 41 per cent over that for 1924 and is a "wonderful testimonial of Idaho's recuperative ability," according to the annual compilation of statistics by H. J. Jacobson, federal crop statistician for Idaho, published here Saturday.

For the year just concluded, the crop valuation was \$1,040,000,000, an increase of 41 per cent over the year before. Crops considered in the tabulation are corn, wheat, oats, barley, rye, potatoes, hay, sugar beets, onions, beans, peas, turnips, onions, turnips and apples.

Gold Tell Story.

Exceptionally good yields coupled with generally favorable prices led the state to report gains.

"Compared with all other states, Idaho ranked first in acreage of winter wheat, second in barley, third in oats, second in rye and barley, third in spring wheat, tame hay and potatoes."

"Wheat leads all crops in total value with \$25,653,000; hay is second with \$15,484,000; and potatoes third at \$10,910,000."

"10 acres return per acre," the report continues. "Onions lead with \$500,000; turnips are second with \$425,000; and potatoes third with \$178,500."

DEPOSITS SHOW GAIN,

BOISE, Jan. 2.—(Associated Press)—Deposits in the three Boise banks as of December 31, 1925, show a gain of \$1,639,951,40 over the corresponding figure for 1924, and an increase of \$2,454,301,40 over those of December 31, 1924, figures from each of the banks indicated today. Total deposits in the three banks were \$15,834,627,40. At the close of business the year, the total deposit was \$15,836,651,40, and the total deposits as of December 31, 1925 are \$15,836,650,40.

MAN WANTED IN STATE.

BALTIMORE, Jan. 2.—Captain W. G. Ayland of the sheriff's office has gone to Los Angeles with extradition papers for H. C. Karpis, wanted here for grand larceny, arrested in Long Beach, seven days ago.

**Weeks Will Be Asked
His Reasons For An
Officer's Dismissal**

Failure of Secretary of War to Reappoint Mitchell to Position He Held Will Get Attention of House.

WASHINGTON, Jan. 2.—(Associated Press)—By the house of the reasons given by Secretary Weeks for not reappointing Colonel William Mitchell, assistant chief of the army air service, will be requested in a house resolution Monday by Representative Garrett of Tennessee, the democratic leader.

The resolution will ask that the letter written by Mr. Weeks to President Coolidge at that time, and which was sent to the Mitchell court martial, be sent to the house. I shall ask the judiciary committee to examine this letter and recommend changes in the law to prevent men from being placed in command of units which consist of one or two officers and their staffs.

Death of Mitchell.

"This letter, the former war secretary to the president, which sets forth his reasons for not reappointing him, while Mitchell was serving in the air service, was passed in the record at the court martial which recently sentenced him to death by court martial from the army. According to the appearance of Colonel Mitchell before a house investigating committee last spring, the letter of the secretary said:

Lester's Contentions.

"In his testimony, Colonel Mitchell did not only attack Mr. Weeks' management and conduct of his own department and the army air service, but the officers who are now largely responsible for its administration policies. These latter officers are among the most prominent in the army, and operations on the other side which resulted in everlasting glory to America's arms and to the winging of that war."

Although Mr. Weeks already have been introduced, Mr. Garrett is one of the first proposed by any of the recognized leaders in congress. He said he would press for his immediate consideration.

Jewels Safe**ODEN HAS GOOD MILK**

ODEN, Jan. 2.—(Associated Press)—Milk sold in Oden is above the average of most western cities in cleanliness, richness, flavor and packing, said H. J. Pearce, a department of agriculture writer and a giving out today the results of his investigation of the milk market. His report said the quality of the Oden milk are providing good quality, but are not quite up to par.

WIFE OF POWER OF STATE AT HIGH FIGURE

Review of Possibilities in Idaho
Given: Snake River, Seventh
In Size in the United States,
Claim.

BOISE, Idaho, Jan. 2.—The potential water power of the state is estimated by the government at 1,000,000,000 horsepower, which would cover the Snake river and its tributaries. The Snake river, the seventh river in size in the United States, enters the state from the west, flowing generally northward, and terminating at the elevation of 5,700 feet. The greatest turbulent stream flows about a quarter mile from the mouth of the southern tributary, the Payette river, into the Snake river, the elevation of which is 4,700 feet, thus having a fall of 1,000 feet in the course of one mile. The elevation of the Snake river is greater than that of any other stream in any other state in the union.

The great possibilities in this direction, and the favorable factors in its development, makes it especially advantageous to the agricultural pursuits, and no state in the union will produce as great a variety of the necessities of life as Idaho, heavy yields will be the state of Idaho.

The 1,000-mile course, through the state, is great life-giving power, and there is no greater source of wealth than the 1,000 miles of streams, 100 miles in width, and 800 miles in length, all of which is volcanic formed, with soil from three to 100 feet in depth, and averaging in fertility, one-half of the great wheat belt in the world.

In the course through the state it knows more than 3,000,000 acres of the wildest brush, dry desert, sage brush, sage brush, irrigation, and transformation into the richest agricultural district in the United States. A veritable garden of agriculture, then the Northwest, with its 1,000 miles of streams, 100 miles in width, and 800 miles in length, all of which is volcanic formed, and which sells at a minimum price of \$1,000 per acre on 10 years' time. She is the mother of the great irrigation system, and the growth of agriculture, modern homes, for a given population, than any other state in the union. The census bureau of the United States gives the probability of as much as 80 per cent, of the population, in the next half century, moving to the mountains, and the great majority, is already one-half, advanced in the state of Idaho as in the nation.

Idaho has a unique sheep breeding, that shows no equal in the country, and which is second to none in the world. The average lambing percentage in the Snake river valley, reaches 100 per cent, and which return to the growers more than 200,000,000 pounds of meat products, and the total products of the state, \$100,000,000 in 1924. But irrigation has only started in Idaho, there being 10,000,000 acres of land under cultivation in the state.

The irrigation projects in the Snake river valley were constructed in 1910 and forty-five years have been in operation, there has never been a year since 1910, when there has not been a crop.

The irrigation lands, within the state, if placed end-to-end would encircle the globe. Water for irrigation in some cases comes from the Colorado river, in others from the Snake, and the Snake river valley east as low as 1000 feet per acre, and there is always an abundance of water.

Idaho has 2,000,000 acres of forest land, 1000 feet in altitude, and all within the national forest system. The average elevation is 7,000 feet to 20,000 feet in depth, all this great watershed, thus insuring a never-ending supply of water for the 1925 irrigation projects great and small in the state.

mean temperature of the state being five per cent degrees warmer than that of the state of Ohio, with no floods or heavy rains, and the highest rainfall, here are some actual facts about her:

She loves her children; Eat a poor man's bread; and trumpet green.

Wears low-necked blouse;

Wears her matoumals; Does not wear belted hair;

Does not wear a belt;

Does not smoke;

Occasionally tells stories, and has musical instrument; and, finally, Jim to keep a cow in the meadow yards.

Mrs. Ferguson does not put on high-heeled shoes; she wears flat-soled shoes; and, she wears light stockings. Last summer she wore light stockings, and, in the fall, when her hair was cut, she prefers dark colors, blue and black, satin. She prefers black tan shoes, according to the dress she wears.

The government's hair is black streaked with gray; and is worn in a coil around her head.

Her usual office hours are from 9

MRS. FERGUSON ENJOYS SIMPLE LIFE AT HOME

Woman Governor of Texas
Gets Successor From Turned
of Executive Chair Through
Rose Gardens,

(By the Associated Press)

AUSTIN, Tex., Jan. 2.—The white jacket of the chick in yard or the pink of the garden rose, Mrs. Ferguson, successor from the turmoil which sometimes swirls about the governor's chair.

A gloom of the last night life of the woman of 30 was caught when, at the height of the police-highway controversy, she slipped away to trim her rose bushes, buy tulips in Temple, and, incidentally pay her poll tax.

Despite the fairy vision about Mrs. Ferguson, homely and beautiful, big and little, highly intelligent, here are some actual facts about her:

She loves her children; Eat a poor man's bread; and trumpet green.

Wears low-necked blouse; Does not wear belted hair;

Does not wear a belt;

Does not smoke;

Occasionally tells stories, and has musical instrument; and, finally, Jim to keep a cow in the meadow yards.

NEW NARRATIVE OF LAST DAYS OF CZAR GIVEN

**Letter Written by Russian
Emperor While Imprisoned
Brought to Light in New
Book at Moscow.**

(By the Associated Press).
MOSCOW, Jan. 2.—A new narrative of the days in the former Russian emperor and his family's prison at Krasnaya Gorka of Tsarskoe. The chief new element appears to be a letter purporting to have been written by the czar's son, Alexei, giving account and details concerning the room in which his family were held, so that the escape might be more easily effected.

The writer, P. Yurinits, the paper's Ekaterinburg correspondent, reveals an alleged attempt to rescue the Romanovs from the windows of their prison house. "The czar," he says, "had the little Leopold Westerwelt sent, and given instructions to prevent the possibility of his accidentally crying out and giving the alarm," he relates, frustrating the escape. It is asserted the following letter was taken from a book addressed to the Romanovs by General Bidens, former war minister and author of the book.

Hope to Reach Goal.

"With God's aid and your cool blood, we hope to obtain our goal without any difficulty. We will bring all the honor of your windows. Please point out the practice window for escape when you are ready. If the little exorcist is not present, we will bring him." The letter is completed. But we have taken this into consideration; two men will carry him. Cannot one among you attempt it? would it not be possible to do for us?"

"We have the desire to reach the border, but you must very thoroughly regard the exact moment of doing all this. You must be sure we will bring all that is necessary. If we were to make any mistake we would not like the enterprise. We promise this to you in the name of God, of history and our own country."

The correspondent says the foregoing letter was signed "Office."

A letter from the former emperor to the members of his household, the family who have been in Ekaterinburg since they were exiled follows:

"The second window from the corner of the room the queen has been open for two days and nights, the seventh and eighth windows from the main entrance, looking along the quay, are always open. One room of the house is closed, the other rooms are open, and his assistant sits there. There are only thirteen men armed with revolvers and bayonets. The commandant and guard are in the outer room. With the exception of our living room, no warder has any keys."

"A red officer on duty searches the house every day. The door to the cascade of steps outside our windows on the balcony is a machine gun; another one is under the balcony. There are fifty guards in a small house across the river, in case of alarm. All the keys are with the commandant, who treats us well enough."

"If the possibility arises, please inform us if we can get out. We do not know if you can take us and our children in front of the house; an automobile always stands. Each sentinel has a revolver and a pistol, a revolver with the same as a pistol, a revolver with the same as a pistol, a pistol with a revolver, and other departments."

"If our attendants remain can we be sure that nothing will happen to them?"

The house was frequently visited by men who brought food in which notes often were concealed. In the cork of a bottle of milk the following note was found:

"The time approaches deliverance is sure. The days of the usurpers are numbered. Their lives are written by fingers. They have many more than a few tales from Ekaterinburg. The cherished moment has arrived; you will have to act."

Regarding the behavior of the members of the royal family in the days preceding their execution, the correspondent says they did all they could to give the quality of the aristocracy. Both the czar and his wife, regarded as interlopers between Nicholas and the soldiers. The emperor's daughter

CANNERY MAN TELLS PLAN

By ELLIOT L. BISHOP, of Nampa, cannery owner and president of the Twin Falls Cannery Association, and record of the business described in the report, which occurred after the Prussian of the district court signed the death warrants. The execution was hastened, however, to prevent its performance by superstitious religious reasons.

The Rummel family was informed that they must move from the upper floor to the lower. All of them went upstairs, however, and the windows are always open. One room of the house is closed, the other rooms are open, and his assistant sits there. There are only thirteen men armed with revolvers and bayonets. The commandant and guard are in the outer room. With the exception of our living room, no warder has any keys.

FUNERALS

COPIES—Funeral services will be held at 2 p.m. Saturday afternoon in the Christian church.

At 2 p.m. Friday, January 12,

Mrs. Susan E. Coble, whose death

occurred Friday, December 28,

at the age of 82, will be buried in

the Christian church cemetery.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. Frank Her, whose

son died January 12, 1925, at the

age of 21, will be buried in the

Christian church cemetery.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

At 2 p.m. Saturday, January 13,

Mr. and Mrs. W. L. Johnson,

parents of Mr. and Mrs. E. E. Johnson, died January 12, 1925, at the

age of 82 and 81 respectively.

THE STONE DODD**ARIZONA HELD
2,000 YEARS OLD****Second Prehistoric Man—Uncovered at Site of Excavations of American Museum of Natural History.**

(By the Associated Press) PHOENIX, Ariz., Jan. 2.—The skeleton of a second prehistoric man has been found in a number of the ruins of "canal builders," which inhabited Arizona 2,000 years ago, was unearthed here late today by a party of excavation workers employed by the American Museum of Natural History.

The excavation work is being carried on in the undergrowth of La Cuidad, on the outskirts of the city, and is directed by Eric Schmidt.

Racial Differs.

The first skeleton, uncovered yesterday, was found in the "canal west" direction, while the one discovered today was laid to rest in a "north-south" direction.

Schmidt, according to scientists, indicates that the title culture of which the Can Grande ruins are a part, may have existed in this section. Sufficient evidence has been gathered, however, to make a definite statement of this fact has not yet been made, Mr. Schmidt said.

The work, which started in October, has been continued by Schmidt, who has been able to light carved shells, pottery, many arrowheads, spearheads, and other articles, as well as two skeletons.

"I think it is safe to say that the Can Grande culture is the oldest, consisting of a group of mounds, each of which covers a small pueblo ruin, which exists in the valley of the river," he said.

The two skeletons were found in a slight depression in the ground, and it was determined that it was no longer possible to use it, another chamber was built on top.

Both skeletons have been found in upper chambers and the explorers believe they will encounter many more skeletons.

The excavation work is being carried out in the largest of the numerous mounds that cover the ancient pueblo.

**CASTLEFORD WINS AT
B.Y.P.U. RALLY AT KNELL**

CASTLEFORD, Jan. 2.—On Friday afternoon and evening a B.Y.P.U. rally was held at Knell, and for the second time—the Castleford organization were winners of the inter-club competition. One hundred and twenty people in all registered and of these 99 were from Castleford. The principal speaker of the afternoon was Rev. Dr. H. J. Knell, who was furnished by the Twin Falls B.Y.P.U. and readings by Dennis Nelson of Bush. A short talk was given by Mr. W. C. Wright, president of the exchange, concerning the annual dividend of 6 per cent on the preferred stock of the national wool exchange, were mailed to all members of the exchange on December 31 by Mr. T. Wright, the secretary-treasurer of the exchange. These stockholders are wool growers and shippers residing in Wyoming, New Mexico, Colorado, Montana, Idaho, Utah, and several smaller western states. The exchange, which was organized early in 1925, is an agency of the National Wool Marketing Board, which handles all the wool in the country.

Successful year, said Mr. Wright, and an even better year in 1926 is anticipated for the exchange and the wool growers whose wool is handled.

The main office is in Boston, and the western headquarters in Helena. The exchange closed its first year in September.

"A large part of the wool from the 1925 crop has been sold," said Mr. Wright, and the officers of the exchange, including the chairman of the board, are in the market now, with the idea in mind to increase the market value of the first half of the new year.

Mr. Wright will attend the annual meeting of the National Wool Growers' Association in Boise, Idaho, January 19, 20, and 21, and it is likely that he will be present at the annual meeting of the Idaho Wool Growers' Association in Idaho Falls, January 22, 23, and 24. The exchange has been unable to attend these meetings, but he finds now that he will be able to absent himself from the Boston office this month.

**ELDERLY MEN GUESTS
OF BUSINESS WOMEN**

Salvation Army men were guests of the business and professional women of the city last Thursday afternoon at an annual tea party and dinner for aged and unfortunate persons who are working in the business world. Guests and their friends attended the tea party and performance of the Salvation Army, after which each guest chose his own dinner from the bill of fare at Tom's cafe.

A number of sheep pelts were stolen recently from Thomas Smith's who is farming the A. L. Swan ranch.
