Agriculture in No Condition to Stand Increase in Freight Costs, Kansas Professor Inform Commerce Commission

(By the Associated Press) KAN CITY, Mo., Jan. 5.—Farmers, recovering from the period of depression, were asked to give up condition-to-condition freight rates adopted upon it. W. F. Grimes, professor of agricultural economics of Kansas State Agricultural College, testified before the commerce commission freight hearing.

Professor Grimes' testimony was a part of a general attack on the proposal to increase the maximum condition-to-condition rates by five per cent. Economists and rate experts, testifying for opponents of the increase, declared the plan would take millions of dollars in additional amounts from the pockets of the western farmers.

See No Balter.

Farmers have an immediate prospect for relief for the agricultural industry.

Conditions for the farmer in the next two years do not carry the promise for betterment that existed in the last two years. The improvements of 1924 and 1925 were due to an abnormal situation which will not be repeated. It is to be hoped that the new administration will continue to do its best to assist the farmer in the future. The prospects are that the prices for those products which the department members have confidence in will increase rather than decrease.

Professor Grimes declared the existing levels in the wheat and hog markets are largely to speculation in the case of the hogs and the shortage of supply of hogs.

But One Good Crop.

The farmers had but one good crop in the last four years, the economy declined, and there was a depression. "The crops from 1920 to 1924 were bad and it will require several years for the farmer to overcome the reverses suffered in those years." At the same time, the prices for those products which the farmer can raise are high enough for the farmer to realize his self."

Under cross-examination at Kansas City, Grimes said he did not know if the blighted railroads of Texas, Georgia, declared that prospects in the cattle industry were "anything but rosy." He

Budget Limitations on Enlisted Pay to Affect Men in Army

Reduction of \$3,000,000 Will Result in Four Months Suspension of Army Promotions Secretary Davis Assures.

WASHINGTON, Jan. 6 (AP)—Budget limitations on enlisted pay for the regular army for the fiscal year 1927 will result in a suspension of four months or more in army promotions affecting more than four thousand enlisted men, Secretary Davis assured his congressional associates today in a formal statement.

The enlisted strength would remain at 118,750 but the announcement said "immediately as a lesser amount is possible in the interest of economy in the army during the fiscal year 1927, it will be necessary to reduce the number of non-commissioned officers, privates first class and specialists below that authorized at the present time."

No Demotion.

This would not, however, be the reduction in pay affecting the promotion of enlisted men or replacement of high-ranking and the withdrawal of promotions to fill these vacancies. Simultaneously the lowest paid enlisted men, who now receive \$100 a month, would be recruited up by approximately 3,000 men, thus replacing high paid men with low paid men.

The secretary's statement reflected the point of conflict between the chief point of conflict between the war department and budget authorities when the army estimates were being framed. The president made his estimate of the total cost of the war department for 1927—\$41,000,000—while for 1927 the figure recommended was \$49,073,485.

There would be no reduction in the regular army's personnel, but the regular army now serving as instructors and equipment carriers with organized reserve units.

UNION BANK WANTS LOAN. NEW YORK, Jan. 6 (AP)—Several New York banking clubs will submit offers for a \$45,000,000 gold pool loan to the government to help finance the construction of a new bridge over the Mississippi River at Montevideo, Minn. It was indicated today that the loans called for between now and March 1, it was indicated.

FOURTEEN YEAR OLD
SCHOOL GIRL FALLS
HEIR TO A FORTUNE

(AP)—SAN FRANCISCO, Jan. 6.—A fourteen-year-old school girl in San Francisco, whose father is an Englishman, came into the legacy of her mother, who died yesterday through the termination of a trust fund in the name of Claus Spiegel, pioneer San Franciscan sugar planter, whose wife, Anna, died in San Francisco, the daughter of the testator.

The girl is Jean Perris, daughter of Mrs. Emma G. Perris, deceased owner of the sugar refinery which she erected 12 years ago in the name of Mrs. Perris and included some of the finest business property in San Francisco.

WASHINGTON, Jan. 5 (AP)—Secretary Mellon expressed his approval of the House measure to appropriate \$100,000,000 for the building of the bridge across the Mississippi River at Montevideo, Minn.

He said the bill was introduced by Rep. John J. Pfeiffer, Democrat of Wisconsin, and that it contained a large percentage of increase of a year with 43.40.

San Francisco had the smallest increase with 3.47 per cent.

WASHINGTON, Jan. 5 (AP

SUSPENSION PLAN EFFECTIVE

One of the Outstanding Social Reforms Brought About by Baldwin Government.

LONDON. — A new old age pension scheme, one of the outstanding social reforms brought about by the Baldwin government, the extension of old age pensions to include also pensions for widows and dependents, came into operation today, when the first payments became payable under the new law.

This reform was promised by the Baldwin government in 1924. Much had been done to bring about financial extenuations. It is part of a larger program from national insurance against unemployment, sickness, old age and death, which applies to persons under 25 pounds (\$1,250) a year, approximately 15,000,000 workers. It is estimated that it affects 70 per cent of the entire population of the United Kingdom.

Under this scheme workers are given a weekly contribution of unison (10 cents) for pension. Four additional contributions between pension half yearly (\$6 cents) for women and employees. This amount is added to a similar amount already payable under a previously existing health insurance.

Under the new widow and orphan pension law, each widow of an insured man is entitled to a pension of 25 pounds (\$2.50) a week, and she attains the age of 70 when she becomes entitled to the ordinary old age pension. For the eldest child of widow, a weekly pension of 12 pounds (\$1.20) is given; for every other child three shillings a week until the children reach the age of fourteen. This age limit rises to fifteen if the child is unable to work at that time.

The sugar produced by company in season

2,178,894 SACKS OF SUGAR PRODUCED BY COMPANY IN SEASON

MOUNTAIN CITY, Jan. 5 (UPI)—Production of 2,178,894 sacks of sugar was reported today as the 1925 crop by the Utah Idaho Sugar Company. While the sugar of the year 1924, when 2,330,000 sacks were made, was the greatest yield in the history of the company, the report said. Total sugar produced to sugar beet-sugar-cane plants in sugar beet-sugar-cane fields in Utah last year was the average, but the price was yield of sugar, especially in Utah, was above the average.

The sugar produced by company in season is as follows: Utah, 2,178,894 sacks; Idaho, 22,083; Arizona, 64,813; Washington, 91,273; and Canada, 55,445.

BUYS PHILADELPHIA PAPER

PHILADELPHIA, Jan. 5—Rexar Magazine, of Magazine News Publishing Company, has acquired the Philadelphia News and City Inquirer, the world's largest publisher, issuing three daily newspapers and thirteen papers.

In a statement, Mr. Rexar,通俗地说，说：

"In a statement, Mr. Rexar,通俗地说，说：

"The former owner of the newspaper will retain their interests and work with us in making this publication an outstanding feature of our paper. The Pacific Coast is a leading divisor and issuing manager over the sixty golf courses of southern California in preparation for the opening of the First Friday, Saturday, Sunday, and Monday at the Pacific Country Club. The largest party of golfers ever offered for golf in the west, \$10,000 in cash, is the prize for the 72 holes of the eight acre, the three days."

GOLFERS ARE BUSY.

LOS ANGELES, Jan. 5 (UPI)—The great field of golfers, professional and amateur, in Southern California, the Pacific Coast is a leading divisor and issuing manager over the sixty golf courses of southern California in preparation for the opening of the First Friday, Saturday, Sunday, and Monday at the Pacific Country Club. The largest party of golfers ever offered for golf in the west, \$10,000 in cash, is the prize for the 72 holes of the eight acre, the three days."

PERRIN WILL QUIT POST.

SAN FRANCISCO, Jan. 5 (UPI)—John Perrin, chairman of the board and general manager of the San Francisco Bank and Trust Company, announced yesterday that he had tendered his resignation to the federal reserve board in Washington last November to become effective on March 1, 1926.

cisco, Los Angeles, Seattle.

WHAT IT MEANS

Twin Falls, Jan. 5.—The new bridge
complies to the safety with
which the holders of the new bridge
franchise have taken hold of the
work in hand since the awarding of the
necessary authority for the building
of the structure.

The company's safety bond for per-
formance of the work was filed within
forty-eight hours of the granting of the
franchise. On Monday a survey
party was placed on the work
beginning the bridge.

The interests represented by Mr.
Murphy, who will build the Snake
River bridge, have already built six
toll bridges similar to and in some
cases larger than this structure. They
bring to bear upon the local enter-
prise a wealth of experience which
should lend strength to public con-
fidence in their complete ability to
carry the project to a successful
completion.

It all looks good.

An interesting situation from the
standpoint of Jerome and Twin Falls
Counties is presented in the financial
possibilities of the bridge. Each of
the two Counties will receive income
from the bridge owners amounting
to \$6000 a year, over and above
all funds received from taxation. On
the basis of assumed valuation for
tax purposes of \$100,000, or \$170,
000, the bridge would yield an
annual income of \$10,000, or \$17,000
above and beyond taxes. This would
amount to \$16,000 a year, which would
be divided in taxes between the two
Counties.

The point of most interest lies in
the fact that by setting aside the two
sources of revenue during the life of
the franchise—contribution and
money to rebuild the entire structure
two or three times over during the
life of the franchise—would result in
the end of the 50-year franchise
period.

It would seem that Twin Falls and
Jerome Counties are to be warmly
congratulated upon this decision—to
issue a franchise for this purpose
through their action they have added
immensely to the taxable wealth of
the two Counties and thus contributed

to the lowering of individual franchises
by just that much. In addition they have made possible a step forward
in the development of the part of
Southern Idaho of great if not
greater degree of importance than any
other single accomplishment in a good
many years.

The American Falls Dam.

The new railroad, —

The snake River Bridge.

What section can show more in the
way of progress and development with
in the same period of time?

Possibly some day the Heavens will
open and shower down judgment upon
this particular spot, but in the
meantime it might be well to offer
an occasional word of congratulation
for the things already accomplished.

FASTER TRAINS

Rapid transit in the future may
not be in the air, after all, as most
people have assumed. President Al-
fred of the Pere Marquette Railroad
tells the American Railroad Association
that the railroads can hold their
lead in passenger traffic in freight
traffic if they will only adapt them-
selves to the new situation.

The public, says Mr. Alfred, can
be given just as rapid transportation
as wants by the steam lines, run-
ning on the solid ground, with greater
safety than air transport can ever
achieve. It is unlikely in question
of speed improvement and better han-
dling stock. He proposes to build solid
concrete roadway and elevated tracks
over roller-bearing. These improve-
ments, together with cable grades and
gentle curves, and presumably with
electric or internal combustion en-
gines, would enable the trains to run
at any speed desired.

The same principles might overcome
any of the motor competition.

It sounds reasonable enough. Rail-
road transportation instead of being
obsolete, may be only in its in-
fancy. —

TOOLKIT PIECES

It has been customary to write
of the South for farmers and cattle
men to burn leaves and underbrush in
the belief that burning over the range
destroys the cattle tick and im-
proves the condition of the range.
This custom has often led to the
destruction of fences and farm build-
ings and has started a good many
forest fires.

Now comes a report from the gov-
ernment experiment station at Mr.
Nell, Miss., stating that those range
fires do only good but are not
good for agriculture in the timber areas.
They fail to wipe out the cattle
ticks, but they do kill other rarer grass
and other valuable plants, along with
the more valuable timber.

Therefore the Arkansas Gazette ad-
vises farmers of that state and of
every southern state to make himself
a volunteer fire warden to stop burn-
ing over his land to help in checking
the nation's wildfire.

It is known that needs to be taken
to burn up brushwood in many
sections of the North as well as the
South, where that custom of burn-
ing out groves and underbrush exists.

THE FORUM

WHY?

Editor, Twin Falls News:

A portion of your editorial in
this morning's paper stated: "None
elsewhere, who is not possible to put
something of the kind to put on
permits, expenditure from \$100 to
about \$3,000, when there is no
traffic on the streets to warrant
such an expense." I am writing to you
to say that the whole town should be
put on the permit system because
the whole community benefits.

Twin Falls, January 5.

NORTH-SIDE WATERUSERS...
RE-ELECT OLD DIRECTORS

JEROME, Jan. 5.—(Special to The
News)—Three members of the North-
Side Camp company were re-elected
as company's stockholders, in which there

WEDDING BELLS RING OFTEN IN INDIANA TOWN

Grown Point Gains National Renown as Mecca of Quick and Easy Marriages; Justice Has Busy Time.

(By the Associated Press) —
CROWN POINT, Ind., Jan. 5.—The marriage industry of the nationally renowned Mecca of quick and easy wedding is experiencing a gradually increasing volume of business.
Chief Justice of the Hoosier Circuit Court is Justice of the Peace H. H. Kemp, a man of a smile, rather short, heavy set, dressed to the top, capless.
His office is just across street from the county building. It is one flight up, and signs direct the way to the "marriage parlor." There is more than one door, and the room is large and nice couple while Judge Kemp performs the finishing touches of the ceremony immediately in hand.

30,000 Marriages

He has been in office as a magistrate for 11 or 12 years and says he has performed 30,000 marriages during that time.

This year alone has witnessed him officiating at 4,000.
In the county building at Chicago, persons may get married and then travel to another city to register, to take new names and be legally attached inside 30 minutes. It requires daylight hours for that, however, since the clerks and tellers often shut down to the sound of a business day.

In Crown Point, where performing ceremonies is a business, the rate of production is different. The very same officials here can be persuaded to open shop at almost any hour. A hard road runs directly here from Chicago, and if two are in a hurry, even the taxi fare is double their other stay due to the sound of a business day.

New Divorce Law

When the Illinois divorce law was amended a year ago to permit reduced hearings of dissolved cases without waiting a year, it was thought that perhaps Crown Point would be one of the first. However, it has not.

Wisconsin, with its law requiring a five day wait after establishing a formal hearing before a certificate of a certificate showing he has passed a physical examination by a responsible physician, a just step farther away from the law, and many couples visiting the Badger State because their love lies in Crown Point.
The new Illinois law requires

Wednesday wait between the application for divorce and the hearing of it.

Crown Point is much nearer and a gradually increasing number of individuals with Michigan tags have been noted here.

Good Citizenship To Be Topic At Kimberly

KIMBERLY, Jan. 5.—The Kimberly Parent-Teacher association will meet at the high school Saturday evening at 8 o'clock.

Following a short business session of the local program planned for the year will be given. The topic will be "Good Citizenship," the protecting party, the names of celebrities in many parts of the world would be disclosed.

Two fellow justices as well as Justice Kemp will speak on the subject and tidy. When Justice Kemp is not available for the joining of hands, these men officiate. The number of marriages they have performed, added to the record of their other work, the proportion of the Crown Point market.

The Coolidges at Home

LATEST photograph of the Coolidge family taken on the White House grounds while John Coolidge was home from college for New Year's.

SITE FOR NEW SCHOOL AT HAZELTON BOUGHT

HAZELTON, Jan. 5.—Plans for the construction of a new high school building carried by 150 to 200 at a election held Friday. The new building will cost \$150,000. A five acre plot containing the Hazelton houses on the hill has been purchased from S. S. Brooks for the site of the new building.

The election was held Tuesday evening at the L. O. P. hall there being 1,000 registered voters.

The Maxine Heater and Murray Price man and Mrs. Goldie Dean who have been attending school at Caldwell, are returning.

Mrs. Dixie Prentiss is in California visiting her daughter, Mrs. Veda Prentiss, who is a nurse in a hospital there.

Mrs. Lester McFerrin of Jerome is here visiting her father, Walter Rose and family.

Mr. Vanier is spending the week in the hotel business.

Elmer Johnson, a freight driver

home from Moscow where they have been attending the university there will return to the school working on the holidays.

Miss Elmer Edwards and Miss Anna Mendenhall of Albion are spending the Christmas holidays with their respective families.

Mr. and Mrs. Ernest Kelly returned yesterday from a week's trip to Los Angeles.

THIRD HORSEMAN CELEBRATES

SAINTS OF SHIRLEY IN JAPAN

TOKYO, Jan. 5.—For the third time in the history of Japanese horse racing, a man has ridden on the long Tokyo-Miyazaki track of the Asahiyama Shrine, and made the return journey without falling off his mount. The record-holding was flight is 99 feet high and has an altitude of about 100 degrees.

The first basketball game of the season will be held Friday evening in the gymnasium when Twin Falls girls' team meets the local adult.

HAZELTON WOMAN AT HOME FROM HOSPITAL

HAZELTON, Jan. 5.—Mrs. George H. Murphy, returned to her home in Twin Falls county hospital, where she had submitted to a major operation ten days ago.

Dr. W. C. Miller, of Los Angeles, who had been called to perform the operation, was unable to leave again soon for San Francisco, where he has secured a position in electrical work.

Misses Lorraine and Marjorie, returned yesterday afternoon after a week's visit with their daughter, Mrs. Gordon Murphy.

Misses and Mrs. H. Murphy returned to Los Angeles, Calif., where they were called last week to attend the funeral of Mrs. Murphy's brother, Maurice Johnson, who was manager of the Los Angeles branch of the Bank of America.

Mr. and Mrs. D. S. Becker and son of Dover who have been visiting at the D. O. Longenberger home, left for home Tuesday.

Miss Mary Murphy returned Thursday from Los Angeles, where she had been called by the death of her father, Dr. C. Miller, which occurred December 21.

George F. "Pete" Greenwald, gave a special "Pete" Greenwald's annual dinner for the Greenwald schoolhouse Wednesday evening. It was well attended and enjoyed.

A group of young folks enjoyed a night at the "Pete" Greenwald's annual dinner evening of Miss Leslie Cooks and brother, and others, who came right from school spending their holiday vacation.

MONTANA TEAM WINNER

MISSOURI, Jan. 5.—Miss Anna Turtel left Worcester, Mass. E. and took a job selling candy in the lobby of the Metropolitan Opera House, New York, to bear the name of the team which won the national title.

Miss Turtel, 18, is a graduate of the University of Worcester, Worcester, Mass. She has just made her debut as a concert singer. Some day she may sing in the theatre where she formerly sold candy.

TRAINED FISH STORIES PROVE TO BE CORRECT

Methods Used by Natives on Island Are Related by Museum Representative; Stories Used for Bait

(By the Associated Press)
AGAIA, Guana, Jan. 5.—Natives of the Marquesas Islands who have long been noted for their legendary allusions of the South Sea Islands to "trained fish" and "stone fish" have been given an explanation of these terms by H. G. Herbst, field representative of the Bishop Museum of Honolulu.

Present day inhabitants of the Marquesas are as unfamiliar with the training of fish or the use of stones in catching them as they are with the use of coconuts.

After two months of regular feeding the natives have found a way to catch them.

During the months of June and July the natives have been catching their stones at a depth of some fifty feet.

By jiggling the bait up and down they have been able to bring the stones to the surface of the water.

A fish called "Ahuau," the Chamorro word "Ahuau" means stone,

is particularly fond of coconut.

After two months of regular feeding the natives have found a way to catch them.

During August and September the stones are brought nearer and nearer to the surface of the water, until the fisherman with a hand net or hook is able to catch them.
