

PARK MOVIES

WILL BE MADE

Secretary Work Completes Arrangements for Photographing Playgrounds for Display.

WASHINGTON, Jan. 21 (UPI)—Secretary Work, Stephen V. of which 100,000 have been made, has completed arrangements for taking the 10 national parks of the United States to those who have neither the time nor the facilities nor the money necessary to view them through correspondence with the Motion Picture Producers and Distributors of America, Inc., of which Mr. H. H. Hitehle is president. The Association of Motion Picture Producers of California, Inc., the 11,372 square miles of national parks have been made available to the public for motion picture locations.

Secretary Work believes that the parks should not be limited only to those persons who are able to make arrangements for their viewing. He will give the public an opportunity to see the natural beauties of America as backgrounds for appropriate motion pictures.

These will not be limited to historical stories. Motion picture scene artists writers will be able to take their characters' plots to the parks to take to the Lincoln Coliseum or to Yellowstone or Yosemite for photo-

graphing.

No Charges

In no way will the natural beauty be changed. The atmosphere of the park will be retained in every instance. The wild animals that inhabit the parks will be left undisturbed. The park service will be responsible for the safety of visitors. If the motion picture camera men can photograph them without annoying them in any way, they will be utilized as actors in the pictures.

The parks now open to motion pic-

ture companies are Hot Springs, Arkan-

sas, Great Smoky Mountains, Ver-

mont, Lake, Wind Cave, Pinnacles,

Hill, Mesa Verde, Glacier, Rocky

Mountain, Hawaii, Lassen Volcanic,

Yosemite, Grand Canyon, La-

fayette and Zion.

"The motion picture is the greatest power day teacher," said Secre-

tary Work. "And it becomes an edu-

cational factor in the promotion of

the parks."

The number of visitors to the

national parks and monuments during

the travel year ended September

30 was 2,500,000. Last year Hot

Springs headed the list with 265,500

visitors and Rocky Mountain just 235,

000. Though the parks are not yet

open, the people are there. Ap-

pealing, as they will be backgrounds

for stories, they will be presented in

the most attractive form and will do

much to help the parks to "attract

the people."

The jury was empaneled by Circuit

Judge Samuel A. Dew.

NEEDS OF NAVY ARE DISCUSSED BY COMMITTEES

**Members of Two House Groups
Differ Over Provisions Nec-
essary to Maintain 5-5-3
Treaty of Nations.**

(By the Associated Press)
WASHINGTON, Jan. 21.—A number of members of the two house committees on naval affairs are in debate in the house today as to the needs of the navy to maintain in the next fiscal year the force strength authorized under the 5-5-3 treaty.

Representative Vinson, Georgia, ranking member on the naval committee, took sharp issue with the recommendations of the appropriations naval sub-committee to the effect that enlisted personnel and the number of ships in active commission.

Keep Up Appearances.

He said that members of the fleet already strength were necessary to keep up the "international" appearances, and that the proposed reduction of the enlisted personnel by 4,000 men would result in a loss of 10 ships. He also asserted that with Great Britain, more than the figure indicated, the British by acquiring additional forces for active years, will have a larger percentage than the United States in its fleet four year enlistment period.

Representative French, Republican, chairman of the appropriations committee, declared that the recommendations of his subcommittee, which had no separate appropriation bill, held that the actual reduction proposed would appropriate only \$100,000 less than that a proposal of this reduction would be made available for the re-equipping of several ships and the releasing for other duties of men at the Atlantic naval air station, which his committee proposed to close.

Publication of Report on Idaho Phosphate Urged

UNIVERSITY OF IDAHO, Moscow, Jan. 21—passage of a bill appropriating approximately \$500,000 for publication of the report on phosphate resources of the state.

George Rogers Mansfield of the United States geological survey, on the phosphate resources of southeastern Idaho, has submitted a report to Frank R. Gossard, junior senator from Idaho, urging all possible support to secure passage in the senate. Adolphus S. Smith, Twin Falls, congressman for the second district, championed the measure in the house.

Immediate publication of this report will be of great value, he said.

He said that the report contains complete geological maps covering most of the southeastern part of the state, and in the Frank R. Gossard, secretary of the Idaho bureau of mines and geology. The report includes exhaustive maps and tables of the entire phosphate belt from the south of Mansfield, geologist in charge of the non-metallic resources for the United States geological survey in this area.

Largest in World.

Covering an area of 1800 square miles, the Idaho phosphate field lies in the southeastern corner of the state, between the Snake River and the Colorado mountains, and served by the Union Pacific and the Denver & Rio Grande "railways." Some of the districts and wagon hauls of from 1 to 12 miles connect many properties with the main line.

The largest part of the deposit in Idaho is untouched because of lack of cheap transportation but favorable grades along drainage lines suggest that future developments may bring in more. Phosphate production in Idaho, while not large, is estimated at 205,000 long tons up to January 1, 1925. Development of the phosphate belt in the state has been largely into the field of six responsible companies. This potential industry of southeastern Idaho, will remain in full swing until the new famous Coeur d'Alene or Butte districts, as it will prove to be one of the most important factors in American phosphate production, provide the outlines of the picture of the future of American agriculture is guaranteed, provided potash and nitrogen are available."

HINDENBURG DEMANDS THAT ALL DICKERING IN REICHSTAG STOP

BERLIN, Jan. 21 (UPI)—President von Hindenburg, returning the role of field marshal, has announced to the leaders of his Reichstag party, after demanding that all political bickering and controversy cease, plainly indicated that the choice lies between the government and the opposition govern-

ment.

The president's forceful language and unyielding determination had been denied by the leaders of his party, who had left his presence. Chancellor Luther was able to announce the roster of his new cabinet, which he will introduce to the Reichstag on Monday.

"The sorry exhibitions of a personal government must cease," declared Von Hindenburg. "The conduct of the parties must stop, ever and demands constructive work."

BUIHL SCHOOLS SHOW INCREASE

**Thirty New Pupils Enrolled in
Month of December; Total
Now Reaches 1135.**

BUIHL, Jan. 21.—During the month just past, 30 new pupils have enrolled in the schools of Buihl. There was no addition to the high school enrollment during this period. Thirty more pupils are enrolled at present than at this time a year ago. Total enrollment in the Buihl schools is now 1135, all attending. The new term will commence January 25. Parents who have children who will be 16 years of age on or before April 10, 1926, may withdraw them before above date. No beginners will be admitted after February 5. Regular work will be continued in the high school during the vacation period. Psychology, sociology, biology, mercantile law and a class in review of English grammar will be given. Those in the upper classes will be given the intention of trying for the declatory contests. Miss Iva Dunn, who teaches public speaking, will coach students taking drama. Mrs. Anna M. Foster and Mrs. Foster will coach students taking oratory and Mr. Van Patten those selecting oratorical work. The election of a queen will be held the latter part of February.

At the regular meeting of the Student association on Monday the following officers were elected: President, John W. Langley; Vice-president, Berney Parikh; treasurer, Nadine Tillery; student manager, George L. Johnson; editor, George L. Johnson; business manager, Burkhardt. The first Buihl school plan for securing subscriptions to the high school annual were discussed and a motion was made by a member of the annual staff that a cent be taken from each book to be started at once to clean January 25.

Miss Luella Neuhauer and Miss Veda Gundelin entertained at a dancing party Tuesday evening at the home of the former. Twenty girls were present and the hostesses served refreshments at a late hour.

That evening a team driving into town, colliding with a stray horse, knocked the animal down and throwing the car with its occupants over the road, hit a head-on. Mr. Campbell and his wife, Mrs. Campbell, suffered a head-on blow and bruised, while Mrs. Campbell was badly bruised and shocked. She was taken to the hospital with her husband, who was riding with her, suffering only minor cuts. The accident occurred four miles south of Buihl and the car was badly damaged. The injured were taken to Buihl where medical aid was given them.

Mrs. George Patten entertained

members of the Wash Club Thursday afternoon.

Mr. C. C. Coleman has returned from India, where he spent the past week attending a meeting of the atomic board. He was accompanied by Mrs. Coleman.

At the American Legion auxiliary meeting Saturday night, the officers were elected. Mr. E. C. Miller, W. T. Patten, secretary, Mrs. Thomas Phillips, treasurer, Mrs. K. C. Shull.

R. T. McNumara has returned from San Francisco, where he attended the State Water Powers association convention.

The International Harvester company will hold a free tractor school January 25-26. The speakers will be O. C. Harick of Buihl and W. T. Patten will make demonstrations of the International tractor at the Buihl Inn.

Miss Ethel Egan of Twin Falls have moved to the Nangle ranch where Mrs. Egan will be employed.

The First U. S. church held a ward meeting Friday evening in the church which was largely attended. Following a banquet at 6 o'clock the evening was given over to a discussion of the principles of the Christian church.

Miss Helen Gibson and Miss Helen Flock of Boise were in Buihl Friday evening and spoke at a meeting of the Girl Reserve chapter. Plans were completed for this year's winter carnival.

Miss Ethel Egan, who has been visiting from Davenport, Iowa, where she took advanced courses in chirography, will coach students taking drama.

Miss Anna M. Foster and Mrs. Foster will coach students taking oratory and Mr. Van Patten those selecting oratorical work. The election of a queen will be held the latter part of February.

**ACTION OF WAR
PREVENT SETTLERS OF
FINANCIAL REDRESS**

WASHINGTON, Jan. 21 (UPI)—Indians Works refused to extend their services to the new settlers, might use public lands in the construction of reservoirs, general land office officials say, will not submit their claims to financial redress from the government.

Redress cases have been accepted by the government as payment on settler's land under the Indian land law, but the Indians hold that they have had ample time since the project was begun six years ago, to begin construction work or to take up and water their other sources. Indians are holding up the Indians in obtaining water in a few years, however, they said the government might still grant them extension of time in which to prove their claims.

One Editor's View

Some one or other we can't understand who has been the desire of most of the settle life men for over 1000 years to discover that North pole. As we get it we imagine it would not be a very nice place to live in and unless a fellow was "big" to go somewhere we imagine that he would have just as much fun at the equator anyway.—Oxbow Enterprise.

CAPE FRED YOUNG

CAPE FRED YOUNG, now a resident of St. Augustine, Fla., is the only man in the world who ever spanked the Prince of Wales. The Prince, when a child, tried to trip him, and Fred spanked him hard for it. Since then, the Prince has been a royalist, and the official unturned the royal hair and administered a royal smacking.

FARM HAND CONFESSES FIRING ON 2 TRAINS AS PART OF REVENGE

CHIAGO, Jan. 21 (UPI)—Richard Bogart, 21, of Milwaukee, Wisconsin, a farm-hand, confessed yesterday that he had shot at two Chicago, Milwaukee & North Shore electric railroad cars, killing one person in each train.

He said he had been refused employment by the railroad and after shooting a quantity of firecrackers, he had gone to the tracks to frighten the road.

He committed a series of burglaries and other crimes, shooting a number of cattle and deer that had puzzled authorities for months, he confessed.

Local county authorities said they thought Bogart might be a fugitive, but admitted that he attacked a Chicago girl while holding her escort at bay with a pistol, and the authorities expect to find him in a number of states and cities that had puzzled authorities for months, he confessed.

He was captured in Milwaukee last November in which one person was contracted into Mary.

**When winter's snow is falling outside—and
the wind roars through the trees—when the
friendly logs blaze up in the fireplace
—have a Camel!**

WHEN it's a winter night and the day that was busy is done. And outside the snow is driving through the trees before the wind. When, inside, the crackling logs catch fire and burst into flames above the hearth—have a Camel!

For Camel is the tried and trusted friend of millions of experienced smokers. Whether your returning steps bring you home tired or jubilant, no sweater, no mellow fragrance ever came to you from a cigarette. There's not a cigarette after-taste, nor a tired taste in a whole country full of Camels. Only mild and mellow flavor, deep-down contentment in your home or any home where Camels are lighted.

So this night, before your roaring logs of oak or hickory, have a Camel. Open up the famous package of Camels and know the fragrance, the contentment that brings happiness to millions. Put a Camel between you and a light-and-taste-the-mellowest-most-delectable blend ever made into a cigarette.

Have a Camel!

Our highest wish, if you do not see Camel quality, is that you will return them. We invite you to compare Camels with any cigarette made at any price.

R. J. Reynolds Tobacco Co.

No other cigarette in the world is like Camels. Camels contain the choicest Turkish and domestic tobacco. The Camel blend is the triumph of expert blenders. Every Camel cigarette passes the finest smoke especially in Europe. Into this unique blend of cigarettes is concentrated the experience and skill of the largest tobacco organization in the world.

FBI DECISION BRINGS ACTION

Treasury Puts Machinery Into Motion to Establish Position in Idaho.

WASHINGTON, Jan. 21 (AP)—With its rights under the child support lawfully property law defined by the recent supreme court decision, the treasury today put machinery in motion to establish its position with regard to federal tax collection in California, Texas, Arizona, Washington, Idaho, Nevada and New Mexico, which also have community property.

Secretary Mellon has directed that the opinion of the department of justice be asked as to the federal government's right under the laws of each of the states. Officials of the treasury are assembling the data it has on the subject, and this will be submitted to Attorney General Sargent in a day or two. It is the treasury's opinion that the department whether it can compel payment of the federal income tax levy by the husband on the joint income of the couple, and also as to how far the government can go in California and in other states not having laws covering community property.

Curious examination of the various community property laws convinced the officials that the laws of several of the states are similar to that of California when the ruling was based. They are certain that a decision favorable to the government can be obtained in the courts.

It is estimated prior to the California decision that if the federal government's position is upheld, it would be compelled to refund about \$77,000,000 collected under a ruling of the treasury department in 1918.

In Idaho's community property state-wide, expect a bill soon introduced. On the basis of calculation employed with respect to California, some officials "guaranty" that the amount involved in the case could never exceed \$200,000,000.

REASON FOR CHOOSING NEGRO IN LAST DASH FOR POLE IS RELATED

CHICAGO, Jan. 21 (AP)—The reason why he took his wife away from the last leg of his trip to the North Pole was told by Commander Donald B. MacMillan, who had been in the radio wireless tonight. The address was broadcast by station WIAZ.

"The rest of us were tenderfoot compared with this negro," MacMillan said. "New York," said Commander MacMillan.

"Heisen is probably the best dog driver in the world today. He took the sled dogs home like a native. He could get along better with the natives than any of us; the Eskimos all liked him. He was the only one in the team who could talk with them. He made every sledge and every seat-stove used on the route to the pole. He was altogether the most efficient man with pony."

GOODING BILL GETS SUPPORT OF COMMITTEE

(Continued from Page 2)

artists of the University of Idaho, received here today.

The committee—headed by the representative of education—voted to send them in any place in Idaho on the question.³³ Resolved: That it is more consistent with the economic development of the whole country that the University of Idaho not be taken from the interstate commission the power to permit railroads to charge more for a shorter haul than for a longer one, and that a majority be included in the longer.

"The three academics—Herbert Wunderlich, Edmund H. Becker and O. F. Hall, who are

the twin leaders of the University of Idaho, will take the negative of the question opposing the short haul measure. All three students are experienced debaters at the Idaho institution, Wunderlich several years ago serving as chairman of the editorial committee of the monthly student newspaper.

ONE KILLED IN DUBLIN

HAN-FRANCISCO, Jan. 21 (AP)—Special policeman Fred Grant was almost instantly killed and another slightly injured when the two fought a pistol duel on a downtown street here tonight. Both had been employed as night watchmen and were said to have had an old grudge.

Mr. and Mrs. Bob E. France, who claimed he had cast the "evil eye" on their leader.

SPORTS

FILER FACULTY
SUFFERS DEFEAT
BY TWIN FALLS

Brun Teachers and Second Team Both Win Games From Visiting Quintets. Games Are Fast.

Twin Falls quintets triumphed over the Filer faculty yesterday, the Twin Falls second team winning 35 to 8 while the Brun teachers won 22 to 11. The Brun team had a little trouble at first, the first few minutes of play took a lead in the second quarter that was never threatened. The Brun team was strengthened by Vincent Nolin who was responsible for a large share of the Twin Falls counter. Nolin was keeping them in the loop from almost any angle and when he had the ball he was accurate under the basket. Smith played a nice game as did Hollis Martin. The game was fast throughout and the Filer lads put up a hard battle.

The faculty game was a hard-fought contest from the start. The Filer team had the lead from the start and the Brun team fought hard to get it going, taking the half, though they finished the half three points in the lead. Fifer could not stop the basket in the fourth and it was up to him that the Twin Falls teachers were depending for their score.

Methamann and Deeman of Filer were the leading scorers in the first half of the game and were the principal point getters for the Filer team. McGehee, Twin Falls, gave Lundquist a hard time and played a good game throughout. The contest was split all day and the crowd kept up a continual yell for the star players. The game ended with the Filer team winning and it was up to him that the Twin Falls teachers were depending for their score.

LEGION PEACE PLAN WILL BE TOLD SCHOOLS

County Superintendent Arranges for Assemblies of Pupils to Hear World War Veterans' Recommendations.

Pupils of Twin Falls county schools will assemble in their own classrooms or at other designated centers during the week of February 7-12, according to a resolution adopted yesterday by Miss Charlotte Pond, county superintendent of public instruction, to hear Legion speakers explain the Legion's plan for establishment of peace.

The several American Legion posts of the county are co-operating with the school authorities with view to placing the Legion peace plan before the pupils.

Veterans Assume Task

Twin Falls post will furnish speakers in the Twin Falls schools as well as at Hollister, and, possibly, at Currey, Fleetwood and Bush posts have made arrangements for speakers to speak in schools of their respective towns and surrounding territory, and King logic post will send speakers across the east end of the county.

The local Legion posts have explained at a banquet meeting recently of the Idaho Editorial Association by O. W. Wortham, Idaho state director, commander-in-chief of the American Legion, concerning the first responsible organization for a national world tribunal for adjudication and establishment of some sort of international arbitration, in which money and industries as well as men would be drafted in a national emergency; and, fourth, education—a plan of appreciation, information and well-being among the people of the various nations.

SAUER KRAUT FOR SALE

Contact Preparing To Celebrate Road

Contact is set for the annual meeting of the Oregon Short Line Railroad at Green, Idaho, to Wells, Nevada, according to J. O. Palmer, owner and owner of a group of claimants. Contact, who is president of the railroad, left Green Thursday. Miles Interstate and business men generally of Contact see a rosy future ahead of them, according to Mr. Palmer, and predicted his fate, "I am not afraid of the future. Years will rival Rutt in prominence as copper-mining center."

Groups of high grade copper ore are being shipped from the mine, and the district blocked out in a number of the mines, said the visitor, and plans are being made to push "Contact" to the front. He said he had been told by the representatives of capital here in the district in the last month and all of them have left with reports to their companies of optimism over the prospect of the mine. Not only is the district rich in copper, these engineers have found, but also in other valuable minerals.

Claims of Contact are also planning to meet with the citizens of southern Idaho and with those in Nevada, according to Mr. Palmer. The railroad train from Twin Falls to Wells will find Contact well represented to continue the journey on to Wells when the train reaches there.

COURT TAKES TIME TO DECIDE PATE RELEASE

Decision as to whether Paul Pate, under bond, will be discharged by the court still stands, a year ago, and the trial date has been indefinitely postponed.

Tenderfoot judges were swayed by the fact that Pate had been confined in schools of their respective towns and surrounding territory, and King logic post will send speakers across the east end of the county.

The facts of the case, as explained at a banquet meeting recently of the Idaho Editorial Association by O. W. Wortham, Idaho state director, commander-in-chief of the American Legion, concerned the first responsible organization for a national world tribunal for adjudication and establishment of some sort of international arbitration, in which money and industries as well as men would be drafted in a national emergency; and, fourth, education—a plan of appreciation, information and well-being among the people of the various nations.

LODGE OFFICIAL—COMING
