# SLIDE RELIEF TOWN SWELLED TO LARGE SUM

### \$40,000 Subscribed so Far for Victims of Sap Gulch Disaster That Cost Lives of 40; Mine Companies Donate.

(By the Associated Press.)  
SAP GULCH, Feb. 20 (AP)—The relief fund for the Bingham snowslide disaster, in which 39 were killed and 100 injured, has been swelled to \$40,000 by local subscriptions. Mining companies of the state have been the principal donors, and the Bingham Copper company of New York, which yesterday gave \$25,000 to assist in relief.

Joint operation of the relief fund by the Red Cross and the Bingham relief unit was agreed upon this afternoon at a meeting of the officials of the relief organizations with Governor H. H. Dyer in the state capitol.

George W. Bingham, president of the Bingham unit, who was at the meeting, said his organization had a membership list of 100,000 persons in the Red Cross.

# Maniac Sniper Is Still At Large; Third Man Is Hit

### Railroad Detective Fighting for Shot in Hospital as Result of Life From Dark.

OMAHA, Feb. 20 (AP)—While the third victim of Omaha's "maniac sniper" battle for his life in a Council Bluffs hospital police officers tonight confessed to their own frustration in their hunt for years.

The shooter who has stalked with a .22-caliber weapon a rifle or automatic pistol supposedly equipped with a silencer, was sought to night in Council Bluffs railroad yards. He transferred his activities there Friday night, shooting down Rose Johnson, Wabash railroad detective.

As in the killing of Dr. A. H. Smith, the physician, found in his office Wednesday morning, and the shooting of William McCreilly, night worker, on the street Sunday night, no motive has been found for wounding of Johnson. In each case, no one heard shots fired, and no one saw the caller were found at the scene.

It was for the apprehension of the shooter have reached \$250.

# GRAND JURY IS ACTIVE IN DRY INVESTIGATION

### More Than Two Weeks Probe Into Alleged Nationwide Inquiry Shows How Extensive Operations of Ring Are.

(CLEVELAND, Feb. 20 (AP)—More than two weeks of federal grand jury investigation into an alleged nationwide conspiracy to violate the eighth amendment have served to show how extensive were the operations of the supposed "ring" but have not brought in the light the end of the inquiry.

Before many days, District Attorney A. Egan, hopes to have indicted between 50 and 100 persons for an alleged ring connected with the alleged conspiracy.

Forty arrests have been made in the case and more than 100 are likely to be made, it is believed. Consistently stated. Among those who are still sought are said to be four Philadelphia millionaires, the Wall Street of the ring.

The conspiracy was headed by four Philadelphia millionaires. Associated with the millionaires were thirty others who controlled 75 percent of the alcohol business in the United States, regulating the price from coast to coast.

The output was sold to wholesalers for \$141,000,000 a year, and related at \$10 to \$25 a gallon through the country. A total of \$400,000,000 a year.

Police to Exhume Bodies of Three to Find Out Death Cause

(NEW ORLEANS, Feb. 20 (AP)—Police will exhume the bodies of three members of the family of Mrs. Nancy Bussey tomorrow in an effort to determine how they died. In the meantime, Mrs. Bussey is held in jail without bond and her five-year-old daughter, Virginia, is at the point of death from poison, which police say Mrs. Bussey fed the child to eat.

Mrs. Bussey's husband and two of her three children have died in the last 11 months. Mrs. Bussey stoutly maintains that they died from natural causes.

WALDO G. PAYNE DIES  
(SPOKANE, Feb. 20 (AP)—Waldo G. Payne, vice president of the Spokane and Eastern railway, died at his home today of heart trouble. He had been identified with electric railroads here for many years.

Each man, woman and child cost federal government \$58.71

(NEW YORK, Feb. 20 (AP)—Each man, woman and child in the United States in 1925 cost the federal government approximately \$58.71, it was revealed by figures made public today by the national industrial conference board.

Of the \$58.71, \$16.00 went for education, \$10.00 for highways, \$8.00 for interest and amortization charges, \$1.07 for protection of persons and property, \$2.00 for general government, \$1.00 for sanitation purposes, \$1.24 for administration and general government, \$1.00 for recreation and \$3.00 for public services, entertainment.

UNMARRIED MOTHER ENTITLED TO HELP LEAGUE BELIEVES

(CHICAGO, Feb. 20 (AP)—Society must discard its "staid-old-mother" attitude toward the unmarried mother and her illegitimate child, speakers at the final session of the Child Welfare League's annual conference asserted this afternoon.

A state welfare board of control, which has been formed, faces the task of untangling the legal and moral threads and to compel the recording of his name, with the birth records, was asserted by Mrs. Ruth Reynolds of St. Paul, Minn.

PLANE FLIGHT IS ASSURED  
(BRUSSELS, Feb. 20 (AP)—Belgian airplane flights from Brussels to the Congo is assured by the government's decision today to grant a subsidy of \$40,000 francs (about \$1,000) to finance the enterprise.

# Attempts of Couple To Marry in Jail Gets Aid of Court

### District Court of Appeals Declines Right to Wedding Permitted to Every One.

(DALLAS, Texas, Feb. 20 (AP)—Attempts of a couple to be married in jail were today rejected by the district court of appeals which declined "that the right to marry was a fundamental right which could not be denied by the state without a hearing by the court order and by this order their attorney appealed.

CONFESSES SHOOTING  
(HOLTON, Kan., Feb. 20 (AP)—Louis Kishka, 23-year-old Poltava native, confessed today to shooting Sheriff Charles M. Fletcher and Floyd W. Duhon, county attorney, that he shot and held captive in the jail at Holton, Kan., on Feb. 17, 1925.

# TWIN FALLS MAN GETS POSITION

### E. J. Ostrander of Vicinity Named Vice-President of Association at Portland.

(PORTLAND, Feb. 20 (AP)—E. J. Ostrander, president of the Western Retail Lumbermen's Association, was elected here today to the vice-presidency of the association here today.

WALDO G. PAYNE DIES  
(SPOKANE, Feb. 20 (AP)—Waldo G. Payne, vice president of the Spokane and Eastern railway, died at his home today of heart trouble. He had been identified with electric railroads here for many years.

# ARCTIC EXPEDITION OF U. S. OBSERVED

### Conditions Different on New Attempt to Locate Land in North Pole Region; Planes Take Place of Ships.

DETROIT, Feb. 20 (AP)—On May 22, 1870, two brigantines, the "Hecla" and "Polaris," sailed from the Brooklyn Navy Yard, bound for the north they embarked the first United States Arctic expedition.

When a ship, George H. Wilkins took off from Point Barrow, Alaska, in March to explore the last uncharted areas of the Arctic basin, his expedition will present a striking contrast to that first American effort of Polar research. Instead of two sturdy ships of the sea, constructed to withstand the buffeting of gales and the crushing power of huge ice cakes, Captain Wilkins will command two ships of the air—gigantic Fokker planes, built for speed.

There will be yet another contrast, Captain Wilkins' flight will be in the interest of science and the search for land, the original American expedition sought neither and nor scientific data; it was humanitarian effort, dispatched sympathetically to learn the fate of Sir John Franklin, the 66-year-old British veteran of several Arctic expeditions and his expedition of 1845.

Captain Wilkins expects to find land in the great unexplored region of the Siberian and Alaskan coasts. From those shores, toward the geographical Pole lies the only really unknown area of the great Polar basin. This area, it is estimated, approximates 1,000,000 square miles.

In comparing the equipment of the Arctic by the Wilkins expedition will be devoid of much of the romance of the earlier Wilkins' voyage—much of the hardship that attended the early attempts to reach the pole by ship and dog sledging.

Where the earlier explorers spent long winters on their ships locked in the ice or on their pushing over the frozen surfaces on sledges, battling not only the elements, but disease and privation, and sometimes insanity, Captain Wilkins expects his journey to be a matter of but a few days.

Taking off March 21 in a plane of the United States military aircraft, Captain Wilkins' destination will be Spitzbergen, 4,000 miles distant across the top of the world. Should land be sighted from the plane the journey will be in two jumps with a landing on the discovered territory for geographical and meteorological research.

Nighting on land the journey from Point Barrow to Spitzbergen will be a matter of a few days, and the return will pass into history through the inception.

**Too Designing**  
"Should we have female architects?" is being discussed in a daily paper. A male cynic unparaphrasedly protests that there are quite enough designing women about already.—London Times, Feb. 20.

## DICKINSON BILL IS NOT FAVORED

### Measure Dealing With Farm Surplus Will Encounter Rough Going in Committee.

WASHINGTON, Feb. 20 (AP)—Indications became more definitely apparent today that the Dickinson bill, drafted with the farm surplus problem in mind, will encounter rough going in the House agriculture committee.

It was disclosed that the executive committee of the national grange was not in complete accord on the measure, and Representative Clifford of Arkansas, the domestic wool and halibut man of his party's congressional committee, introduced a bill for farm relief somewhat similar to

the recently introduced in the Senate by Senator Hobbs of Arkansas, devotional floor leader. The bills proposed by the two Democrats, differ from the Dickinson measure as to the method of disposing of the farm products surplus.

### The Skylark

The skylark is to me the most wonderful bird in the world, because there is no scarer but just rare beauty to his way of singing. Like some wood thrush, name little bird song, he flies in ever widening circles toward the heavens, singing as he glides higher and higher, until you swear his very throat would burst. Then when he is only a flashing speck away up almost out of sight, he dives like a graceful hummingbird, settling his pure joy, wild with life, until you swear his very throat would burst. Then when he is only a flashing speck away up almost out of sight, he dives like a graceful hummingbird, settling his pure joy, wild with life, until you swear his very throat would burst.

## French Ambassador Is Busy in Revising History of Populace

PARIS, Feb. 20 (AP)—The French ambassador in Washington, who ended 20 years of service in French embassies to the United States last year, since his retirement has been engaged in revising the three-volume "Library History of the English people" and has nearly completed this task. The third volume will be issued in May.

Meanwhile the former ambassador has found time, to take widely in French society, especially among the readers of conservative papers. The government has authorized him to retain for life the title of ambassador.

The French Institute which is charged with the organization, has chosen him one of its two representatives to the meeting of the international union of academies in Trieste next June.

With their salaries fixed at only 27,000 francs (about \$1000) a year, members of the French chamber of deputies are finding the item of clerk hire almost the most serious check on their personal budgets. Unlike their congressional brethren in America, the deputies receive no allowances for secretaries or stenographers, and if they wish to keep a voluminous correspondence with their constituents, they must do so at their own expense.

One member, Admiral Jauregui, brother

## German Journalism Being Americanized

BERLIN, Feb. 20 (AP)—The German press is being Americanized, according to a report from reporters, who have observed that the Berlin press is becoming "Americanized." It is thought that here at least it should be safe from reporters, who are not so much interested in the news as they are in the sensational.

# What Studebaker Saves through One-Profit Manufacture

## Gives you these fine-car features at a new low price—\$1565 Delivered at Twin Falls

- More power at less cost**—according to the rating of the Society of Automotive Engineers, the Standard Six Sedan is the world's most powerful car of its size and weight. 28 Sedans have less rated horsepower, yet sell for \$100 to \$1800 more.
- Automatic spark**—regulated by speed of engine.
- Coincidental lock**—to ignition and steering gear. A single key operates this lock as well as the locks on the door and on the spare-tire carrier.
- Gasoline gauge, 8-day clock**—speedometer, oil-pressure gauge and ammeter in oval group under glass. Walnut-finished instrument board.
- Complete equipment** includes automatic windshield cleaner, rear-view mirror, ash receiver, dome light, door pockets, attractive cowl lights, stop light, natural wood wheels.
- Farm-fit upholstery**—almost riding comfort provided by a new feature of seat back and cushion design.
- Double-layer fenders**—with Ivory striping, assures permanent beauty and lasting lustre.
- Oil filter, gas strainer and air cleaner**—Sealing the engine against foreign matter.
- Water-proof ignition**—even the spark plugs are protected from moisture by rubber shields.
- Oil drain valve**—for draining engine oil, without getting under the car.
- Always kept up-to-date**—Direct manufacturing control enables Studebaker to keep cars constantly up-to-date. We add improvements regardless of the calendar—we do not save them for spectacular annual announcements which make cars artificially obsolete. Insole values are thus stabilized.
- One-Profit savings** enables Studebaker to reduce the price of the Standard Six Sedan for the third time in 14 months.
- Three times since January 1, 1931**, One-Profit savings have been passed on to purchasers of Studebaker cars in price reductions—although refinements and improvements have been added which make the present Studebaker the finest ever built.
- They are possible at the price** because Studebaker, the only manufacturer in the world equipped to build quality cars in a One-Profit basis.
- Studebaker's unique facilities**—Few motor car "manufacturers" have foundries, forges, etc., to make their own engines—yet one-fifth of an automobile's cost is in the engine. Even fewer build their own bodies—yet one-third of a car's cost is in other body.
- Studebaker builds all its own bodies**, all engines, all chassis, gear sets, springs, differentials, steering gears, brakes, axles, gray-iron castings and drop forgings. Only Ford in the low-price field and Studebaker in the fine-car field have such complete manufacturing facilities.
- One-Profit value**—These facilities enable Studebaker to manufacture quality cars in a One-Profit basis—eliminating outside profits. The savings thus effected are passed on to Studebaker owners in the form of higher quality and lower price.

## Studebaker Standard Six Sedan

\$1565 AT TWIN FALLS

Under Studebaker's fair and liberal Budget Payment Plan, this Sedan may be purchased out of monthly payments for a small initial payment and at the lowest time-payment rates known to the automobile industry.

# SALMON TRACT GETS NEW ROAD

## Highway-District-Commissioners Award \$3990 Contract For Graveling to Duffy Reed.

Contract for graveling of three and three-fourths miles of road beginning one mile east of Springdale school house, east of Hollister, and running north and east to connect with improved road extending of Blue Lake boulevard south from Twin Falls, was awarded by Twin Falls highway district commissioners at a meeting here Saturday, to Duffy Reed of Twin Falls, who bid at \$3990 was the lowest of several bids received. This contract will gravel 2000 tons of gravel to be taken from McCallan creek on the road under contract.

Grading of the road has been done by residents of the district through which it passes.

The highway commissioners also heard petitions presented by a delegation of Idahaca citizens for graveling of roads south and east of Thurston but took no action on this regard because of lack of funds.

# SOCIETY AND CLUBS

Edited by Mrs. E. B. Williams Phone 296

Mrs. Wilson Deven entertained very delightfully at her party here Friday evening at dinner, followed by bridge. The guests enjoyed an excellent table and the hospitality of the entertainers. The color scheme was elegantly carried out in honor of George Washington. The table decorations consisted of green cherries combined with green leaves, the menu also carried out in the same motif. The entertainment also furnished delightful entertainment. Following the five games of bridge prizes for high scores were awarded. Miss Betty Bird and Mrs. Alan Senior. The hostess was assisted by Mrs. M. C. Ware and Miss Pauline Ware.

Miss Dorothy McMill entertained with two tables of bridge Wednesday evening commencing at 7:30. Mrs. Bowen, who has gone to San Francisco, favor for high score was won by Mrs. Wilson Deven and there was a pretty gift for the guest of honor. Delicous refreshments were served after the games.

A very unique shower was given to Dr. Mabel Hahn Monday. Miss Alice Loring and Mrs. Alan Senior were the hosts. Red and white sweet bread and orange paper streamers were decorations. The same color scheme was carried out in the dietary refreshments.

At the home of Mrs. Alan Senior presented with a box in which had been placed her gifts in linen and silver. Mrs. Kline of Ellettsville and Mrs. and Mrs. Lambert King had high scores. The bride received many useful and beautiful gifts.

Mrs. T. J. Douglas gave a delightful one o'clock luncheon Friday at her home on Black street. The guests were Mrs. H. E. Skelton, of Ellettsville, Washington, and Mrs. Nellie Reynolds of Ellettsville. Commencing Washington birthday and patriotic colors were used to decorate the table, where places were marked for seven, including the hostess. Following luncheon the afternoon was spent with needlework and conversation.

Mrs. H. C. Maguire entertained with four tables of bridge Saturday afternoon at her home on Fourth avenue north. Prize for high score was won by Mrs. W. T. Putter and Mrs. W. A. Patrick received commending congratulations for the game. Delicous refreshments were served appropriate to Washington's birthday.

Mrs. O. T. Koster and Miss Minnie Pomeroy entertained on Saturday afternoon at the home of Mrs. Koster on Fourth avenue east in honor of Mrs. P. Thibault. Bridge was the amusement with three tables of players. Mrs. Robert Heller received prize for high score and Mrs. F. Mattison low, and Mrs. Thibault was presented with a gift. A delicious afternoon luncheon was served after the games.

A strong Washington party was given Saturday night by Miss Leona Boyd and Miss La. Yonna Guttery at the home of Mrs. Boyd. The guests were decorated to form a canopy of the patriotic colors. A delicious two-course dinner was served, at four tables with candle holders and figures in the national colors. The four cups

and glass were were elegantly arranged in a combination of the new with which George Washington felt the cherry tree. These present in addition to the flowers were Betty Day, Maude Stump, Maurine Taylor, Marvella Lund, Edna Kunkle, Mary Miner, Ann Hiep, Helen Perry, Wilma Perry, Margaret Harriet Martin, Lalora Guttery, Dorothy and Mildred Cunningham of Hah who are guests during the week end of the Guttery home.

The Waz Mothers chapter was entertained at the home of Mrs. B. J. Day Friday afternoon. Slides of J. J. Hodgin gave an interesting talk on the American Legion post plan. Paul Kiehl was also present and gave further information on the memorial in course of construction. Mrs. Kate Day was received from the Waz Mothers. Mrs. Simpson, Howe and Dore assisted the hostess in serving delicous refreshments.

Mrs. S. P. Newman was hostess to the T. S. E. club Friday afternoon at her home in Boling addition. The hostess also presented and gave further information on the memorial in course of construction. Mrs. Kate Day was received from the Waz Mothers. Mrs. Simpson, Howe and Dore assisted the hostess in serving delicous refreshments.

Members of the Fortnightly club were entertained by Mrs. E. S. Salliday on Friday evening. Bridge was played at two tables with favor for young girls. Mrs. W. T. Putter, Mrs. L. Brockway and Mrs. C. D. Thomas were guests.

The Salmon Social club held its regular meeting at the home of Mrs. Jeanie Thibault, Thursday with seven members and two visitors. Mrs. Short and Mrs. Stanford, present. The afternoon was spent with sewing. At the close of the afternoon the hostess served in-course lunch. The hostess was assisted by Mrs. M. C. Ware and Miss Pauline Ware.

The Minnie A. L. Howell entertained afternoon at her party at the Orpheum theater, after which a two-course lunch was served at her home. The hostess was assisted by Mrs. M. C. Ware and Miss Pauline Ware.

The current events department of the regular country club will definitely postponed the Valentine luncheon and the regular meeting which were to have been held on February 21.

The community service department will meet on Monday, March 1, at 7:30 at the home of Mrs. D. L. Alexander, and Ellettsville avenue north.

Masons' play memorial Washington's birthday will be fittingly commemorated in a program which will be given at the Orpheum on February 22, at 8 o'clock in the Masonic temple, by Twin Falls Lodge, No. 2, & M. of the Sublet of February anniversary" is the subject of a lecture which will be delivered by Dr. Robert D. Gibson of Ellettsville. The lecture has been extended to all members of the order in this vicinity.

Twin Falls Shrine club will entertain Valentine luncheon and their families at luncheon at 3 o'clock. The dinner menu will be furnished by the Blue Bird club. The subject of the lecture is "The Taylor Players" and also scheduled to appear on the program, and will present a variety of entertainment ranging from vaudeville to vaudeville.

"Snail's Pace?" "It moves at a snail's pace," is a remark frequently heard, especially when the subject is a youngster going to school or an old-timer who has been sent on an errand.

But even of the slowest of the snails, the Caledonian government has permitted a motion picture company to shoot scenes of the lion here. But Universal was recorded not only this privilege but was given the exclusive right to film the famous stampede at Calgary, which forms the background of a thrilling picture.

If you place a snail on a sheet of glass and watch the underside, you will see a series of ripples along the animal's foot. This foot is a network of muscles, and the rippling is produced by these muscles lengthening the foot in front and shortening it behind, which is the snail's mode of progression.

Plants Sleep Plants sleep ten to eighteen hours a day, according to recent experiments.

# Lost in Storm

ROSE DELEENA was found wandering, half frozen during a blizzard in Montana. She was rescued and taken to Italy and discarded there in America because they forced her to beg.

The reason for the annual cooperation of the Canadian government was the desire to offset the damaging publicity which has been given in recent years to the Canadian northwest. In the Gibson film we are shown that the region usually expected to be a land of snow and ice is really a land of verdant fields flowing with milk and honey. Canada wanted the world to know that the "rough" can't be "rough" and "wild" in the northwest the same as they do in Alabama.

"THE GIRL FROM HOME" TAYLOR PLAYERS' OFFERING "The Girl From Home" is the attraction for the first half of the week by the Taylor Players. It is an up to date comedy drama and besides being an extremely funny presents a problem of the present.

The story tells of the troubles of a young man who is in love with the daughter of a blind mother's best friend. He has a lot of funny experiences but succeeds in winning the girl's love and the mother's approval. It is one of the best bits to be presented by this popular company so far, and will be sure to please old and young alike.

For the last half of the week "The Girl from Home" will be the attraction, a very interesting play of the north borderland.

METHOD LADIES AID PLANS SOCIAL AND SUPPER On Monday evening, February 22, at 6:30 o'clock, in the parlors and dining room of the Methodist church, the Ladies' Aid society will hold its regular social, combining it with the get-together supper of the Methodist congregation.

Each family is asked to bring one plate, each member and the members of the club, cup, spoon, etc. The friends will all be together, being served in their style by the members of the society, serving from several tables.

After the supper a unique program will be given by the women consisting of tableaux and net. The program will be given during the month of the year. The whole families of the membership and their friends are invited to attend in the supper and the good time promised.

HOLLISTER AND MURTAUGH DIVIDE DOUBLE HEADER HOLLISTER, Feb. 20—Murtaugh and Hollister divided a double header in banker ball more Friday night. Struck high last Hollister in a four and also gave by the score of 19 to 10. The Hollister girls won much improvement by their winning their game, it being the first time they have won in the last two weeks. The home team is badly crippled after their last loss, and several of the players are stiff from injuries and lames.

CHURCH PLAYERS SCORE Members of First ward, L. D. S. church, Mutual Improvement association, Friday evening staged a three-act comedy, "The Hospital, Mr. Buba." The offering, which was produced under direction of Mrs. J. D. Buba, was substantially received by a large audience. Members of the cast were George Cleveland, Agnes Wicks, Wally Bagley, Fannie Harris, Carl Black, Carmen Johnson, Lila Johnson, Melba Nelson, Charice Bates, Ili Black and Ullina Kirkman.

WALKER WILL SERVE TERM Under appointment issued by the federal district court in Boise and received here Saturday by Sheriff M. E. Fitch, Oscar Walker, who was arrested recently by the police on his arraignment of federal prohibition enforcement agents and who pleaded guilty in federal court at Boise to charges of illegal possession and sale of liquor, will serve four months in the county jail at \$500 fine.

TAKEN ON LIQUOR CHARGE P. King, 23, arrested by the police Saturday evening in a local pool hall in Boise in answer to charges of illegal possession of a pint bottle of liquor which was found in his pocket, it was stated at police headquarters. King is one man who served four months in the county jail at \$500 fine.

# ISOLATIONISTS IN SENATE TAKEN TO TASK

### Former Attorney General Criticizes Attitude of Senators on World Court and Versailles Treaty.

NEW YORK, Feb. 20 (AP)—The Senate today took a strong line against isolationists at a meeting today of the former foreign affairs committee, criticized the attitude of Senate "isolationists" including Senator Borah of Idaho, toward the world court and the Versailles treaty.

# Indian Girl Badly Hurt in Accident

POCATELLO, Feb. 20 (AP)—Bylina Wagon was badly injured Saturday night when a wagon in which she and Lilly Wagon and Betty Boller were riding struck a tree on the highway. Mrs. Wagon was struck by an automobile on a paved road, 12 miles north of Pocatello. The Wagon girl received a head injury, to her shoulder, her head was badly bruised and it is believed she is injured internally. Other two occupants of the wagon escaped with slight bruises.

# COOLIDGE IS STILL SICK

WASHINGTON, Feb. 20 (AP)—President Coolidge remained in bed again today, hoping to shake off the cold which has been bothering him since his arrival in the White House, however, that his condition was improving and that he would be able to return to his apartment to speak here Monday night before the department of superintendent of the National Education association.

# GIVEN FIFTEEN YEAR LEASE

CHICAGO, Feb. 20 (AP)—A 15-year lease on the Coliseum, meeting place of national conventions and scene of many exhibitions and sports events, was announced today as the preliminary move toward extensive program of remodeling of the building and cost which was given the go-ahead for a schedule of 20 games a season to be played at the Coliseum. The project is being carried out by New York and middle western interests.

# Modern Ideals Make

### Cave Men Seem Tame

Another ideal of the fopper has been shattered. The idea of the cave man is all wrong.

# NOTED ACTOR IS DEAD

PALO ALTO, Cal., Feb. 20 (AP)—George J. Sowers, physician-manager of the Stanford hospital in San Francisco, died at his home at Stanford near here, late today after an attack of sleeping sickness that lasted two weeks.

# EDITOR STARTS SENTENCE

EL CENTRO, Cal., Feb. 20 (AP)—Norman H. Parks, Herald Tribune editor, began serving today a five day sentence for contempt of court growing out of an editorial attacking Justice Ira S. Thompson, Los Angeles, George H. Freeman, Riverside, and Lacey Jennings, San Diego, for their practices in the superior court.

# Squirrel Changes Coat

On the Pacific coast chickadee is a slight-of-hand artist in the matter of color. He changes with the climate, says Nature Magazine. In the humid, heavily-wooded region bordering the Pacific, he wears a coat that is rich, dark brown but underneath it carries a beautiful orange tone.

# Monkeys as Pets

Monkeys as natives of warm climates and cannot endure a low temperature, therefore they should be provided with heated quarters, if kept during cold weather. It is an amusing thing to see a monkey sitting on a chair should be less than four feet in length. The cage should be entirely light with only the front window being shaded. The following are prescribed as a diet: Vegetables—bananas, oranges, sweet apples, peaches, bread, sweet corn, and cracked chicken, fresh milk to which raw egg has been added; water should be provided at all times—Washington Star.

# New Idea in Spectacles

Scientists have discovered a new way to make spectacles so that they will not have to be re-adjusted to suit the eyes. The new glasses will be made of a material that will expand and contract with the eyes, so that they will fit perfectly at all times.

# A COMEDY IN PRODUCTION AT THE ORPHEUM THEATER

BARBARA BRONILLA, dancing star in the title role of the musical extravaganza "The Merry Widow," is being supported by a brilliant array of singers, dancers and pretty girls.

# Former Kaiser Now Spending Money On Series Of Dinners

Prospects of Receiving Millions From Germany to Visit States Leads Wilhelm Spending

DOORN, Holland, Feb. 20 (AP)—With the prospect of receiving millions from Germany as recompense for the loss of his vast estates, the former kaiser has dropped his role of poverty and has embarked on a series of sumptuous and summa dinners of the old imperial days.

# MISSISSIPPI GUARD ORDERED OUT TO AID IN PROTECTING MEN

JACKSON, Miss., Feb. 20 (AP)—Commander of the Mississippi National Guard, at Gulfport tonight was ordered by Adjutant General Curtis Green to immediately take to protect Harold Jackson and James Payne, arrested as a result of the murder of W. M. Magee and J. A. McClellan, two members of the Mississippi State Guard.

# MANY TURN OUT AT THE UNIVERSITY FOR FOOTBALL

UNIVERSITY OF IDAHO, Moscow, Feb. 20—More than 100 candidates expected to respond to Coach R. L. Mathews' first call for spring football practice which starts next Monday, February 25. The practice this year will continue until the middle of May and will be accompanied by football lectures and classroom "talks."

# Many Names Bestowed On Species of Duck

A single one of the names of American ducks is less used to believe that our citizens delight to invent names for the species in which they take interest. In almost any region for certain birds can be found that are not used elsewhere. Hence it is possible to collect rather long lists of names for birds that attract popular names. For instance, 22 local names are known for a single species of wild duck; the ruddy duck, in this case, is no others, some of the names have a touch of humor or local color that renders their usage a pleasure.

# GOOD USED CARS

NEWS OF THE DAY AS CAUGHT BY THE CAMERA

ALL FOR A THRILL—Gladys Ingle demonstrates how to change from one airplane to another while in mid-air. The photographer who snapped these remarkable pictures took as many chances as Gladys as he poised on the plane wing opposite her to get his "close-ups."

FASHIONS FOR KIDDIES—Children displayed the latest Spring styles at a New York fashion show. Above, Richards Jacks, boy's play suit; center, Helen Jones, broadcloth Spring coat and hat; right, Lorane Gilbert, love bird green broadcloth coat and hat embroidered in black. Below, Helen Stroll poses as a human powder-puff at the exhibit.

MOTHERS IN CONTEST—Now that bathing beauties from Washington to Florida have worn out the nation's cameras with their contests, mothers are making a bid for a place in the limelight. Members of the Hudson Guild, New York, are weighing in for a contest to find the healthiest mother.

ACTION!—These Los Angeles girls, training for the national championship lacrosse match, get a lot of pep into their play.

TWIN SCHOOL—Teachers of the Sarrin Park School, Alhambra, Cal., get dizzy spells trying to figure out just which of their pupils is which. There are seven sets of twins in the school.

ROYAL DUDE—The Emir of Katsina, a walled town of the Sudan, Africa, was so proud of his new wrist watch he danned his finest clothes and posed for his first photograph in many years.

DON'T NEED OCEAN—When the clouds gather up in Florida you don't have to go to a beach to swim. Here is a scene at Thrasher's place, Palm Beach, after twelve hours' continuous rain.

WHY THEY'RE CUT LOW—Rita Carewe explains to Lloyd Hughes why downs are cut low in the back and Dolores Del Rio demonstrates her point by playing a game of "Tick, Tack, Toe." This is in Hollywood.

HEIRESS TO WED—Mrs. Jennie Crocker-Whitman, member of the wealthy Crocker family of California, is to marry Robert F. Henderson, head of the Pacific Portland Cement Company. Mrs. Whitman divorced her husband, former tennis star, just August in Paris.

KING GEORGE IS ASTONISHED AT INROADS OF U. S.

British Industries Fair at Shepherd's Bush Shows Invasion of American Products in Foreign Fields.

LONDON, Feb. 20 (AP)—On closing the British industries fair at Shepherd's Bush today, King George learned something about the American industrial invasion of Great Britain. This enlightenment came to him while he was inspecting a display of typewriters which the manager told him were three hundred per cent British—and they certainly informed him of the British governmental departments were using typewriters of foreign make.

The king immediately voiced his astonishment and promised to "see to it" personally. His campaign, already begun, seems likely to produce speedy results.

The subject had been ventilated in the house of commons last Monday when Ronald Meakin, secretary of foreign affairs, extended the government's statutory department for having American typewriters on the ground that "almost all the latest type writing machines are of American make."

Deed—J. A. Koster to James W. Reese, \$1,100; lots 1 and 11, Eden Lea Home.

Complex and Varied

Is the Human Soul  
I never cease to admire the intellectuality of human nature. It does not wear off. Whatever they say do, men are and remain what they are. They may deceive themselves, they may delude others, especially the short-sighted ones, those who cannot look from the proper distance. Thus the surface of the sea appears to be calm when you are very near to it, but if you climb into the crow's nest you will see how clear the water is, and the higher you go the deeper you see. George Barton writes, as quoted from "Transparencies," in Scribner's Magazine.

If you have learned to contemplate life in its true perspective, how beautiful it becomes. This transparency is, indeed, the very price of life. Among the many splendors of nature, what could be more impressive, more delightful, than the infinite variety of the men and women who pass, mix and play before our eyes? Birds are pretty enough, and there seems to be no end to their beauty and variety of their plumage, but what of women? what of men? Can there be anything under the sun more complex, more varied, more full of problems and possibilities, more delightful, than the infinite variety of the men and women who pass, mix and play before our eyes? Birds are pretty enough, and there seems to be no end to their beauty and variety of their plumage, but what of women? what of men? Can there be anything under the sun more complex, more varied, more full of problems and possibilities, more delightful, than the infinite variety of the men and women who pass, mix and play before our eyes?

Collects Valuable Data  
The geological survey has a field organization that extends its work into the remotest corners of the United States and Alaska. Of the public notices which it has issued since its establishment in 1870, all are the results of first-hand investigations of its geologists and engineers.

Ex-Kaiser Walks on Birthday

EX-KAISER & PRINCESS HERMINE

A QUIET CELEBRATION at his Doorn retreat marked Ex-Kaiser Wilhelm's birthday. During the afternoon he took a stroll with his wife, Princess Hermine.

ELECTION OF POLAND TO LEAGUE PLACE IS UNDER CONSIDERATION

GENEVA, Feb. 20 (AP)—The election of Poland to be a permanent member of the league of nations council by the assembly next September is expected in influential circles here as a probable solution of the difficulties created by the demands of Poland, Spain and Brazil for permanent seats.

The position of France, as indicated in Geneva, is that she considers international cooperation may best be achieved by allowing Poland to remain a permanent member of the league council in possible place with Germany. Since British opinion is generally as sympathetically opposed to the creation of new permanent seats in the council holds that for

Italy, it is understood in league circles that the governments of London, Paris and Berlin are actively carrying on a discussion in an effort to reach an accord.

Earliest Known Letters

It was formerly believed that the earliest extant collection of formal letters was the series of about 150 Greek epistles reported to have been written by the tyrant Phalaris of the Sixth century B. C. A controversy exists, however, and Richard Bentley, in his famous "Dissertation on the Letters of Phalaris" in 1690, demonstrated, as is now universally admitted, that they are of comparatively late origin, about the second century A. D. Among the early genuine letters of the Greek period are those of Isocrates (died 338 B. C.), nine in number.

WOOL DEMAND IS HELD POOR

Inquiries However Toward End of the Week Indicate Increasing Interest.

BOSTON, Feb. 20 (AP)—The Commercial Bulletin said today: "Demand has been rather desultory this week in the wool market but inquiries towards the end of the week indicate increasing interest on the part of the manufacturers. A few sales of heavy-weight goods thus far have left much to be desired. Confidence in the future market, however, is still unshaken, although prices have been somewhat irregular in the raw material.

"The foreign markets look generally better, and wool is available in quantities against the buyers. Cross-bred wools hold a more pronounced position than the great weakness anywhere. Early sales of Arizona wools are being made anywhere from \$100 to \$125 a hundred pounds, according to the wool. The western situation generally is unchanged.

"Mohair is in limited demand with light stocks and prices steady. "The rail and water shipments of wool from Boston from January 1, 1925, to February 18, 1926, inclusive, were 25,417,000 pounds against 27,745,000 pounds for the same period last year. The receipts from January 1, 1925, to February 18, 1926, inclusive, were 2,538,000 pounds against 2,611,000 pounds for the same period last year.

The Commercial Bulletin published the following wool quotations: Ohio and Pennsylvania fleeces—the time unshorn—\$2 to \$2.50; half-blood, 50 to 55; fine unwashed, 45 to 50; the time unshorn, 3.75; half-blood, 40 to 45; three-fourths blood, 35 to 40; fine unwashed, 45 to 50; Wisconsin, Missouri and average New England—half blood, 40 to 45; quarter blood, 35 to 40.

Scoured hair—Texas fine 17 months (selected), \$1.25 to 1.25; fine eight months \$1.10. California—Northern, \$1.20 to 1.25; middle county, \$1.05 to 1.10; southern \$1.00. Oregon—Eastern No. 1, staple \$1.25 to 1.25; fine and P. M., 1.10 to 1.15; western, 1.05 to 1.10. Territory—Montana and similar (fine staple), 1.25; half blood, 1.10 to 1.15; three-fourths, 1.05 to 1.10; quarter blood, 1.00 to 1.05. Idaho—Delano, \$1.25 to 1.25; 1.15 to 1.20; 1.10 to 1.15; 1.05 to 1.10.

Silesian Judges Take Up Driving In Traffic Cases

BERLIN, Feb. 20 (AP)—Magistrates and prosecutors in Silesia who have been punishing violators of traffic laws are beginning to drive automobiles themselves in order to discover how easily traffic rules can be broken. Traffic officers of the United States few German officials are wealthy enough to afford motor cars and are taking their lessons under police direction.

Motorists believe this innovation because they believe it will make judges more lenient in their enforcement of traffic legislation.

Thousands of cars and more, living spaces in partial order for 20 years, have ruined the interior of the 12-year old castle of Scherwinburg, near Dirschauer, Markburg.

Sold recently on the basis of its beautiful interior the castle, opened for the first time in 20 years by its new owner, was found to be a wreck. The roof had collapsed, the walls were crumbling and the floors had been eaten by the beautiful chandeliers.

The interior, made to stand 250,000 for repairs, again held the doors and left the rats in multiplied possession of the castle, according to the Marburg Silesian in the style of the famous San Simeo palace at Potsdam.

Full dress evening gowns are being eliminated from men's wardrobe in Germany by the high cost of clothing. The dinner jacket or "tuxedo" is coming into its own for formal wear. Fashion experts say that nine out of every 10 "evening suits" worn at the most fashionable balls are at least ten years old. Experts forecast that the "tuxedo" is considered just as proper as full dress.

Tracing Use of Gas

Natural gas was used in a practical way by the Chinese shortly after the opening of the Chinese for such purposes as the illumination of cities. The "waxing" of the Chinese in Peking were heated—if not lighted—with the gas.

In Europe the first use of gas for commercial purposes was in the lighting of the houses in Peking which were lighted with the gas.

In the United States the first gas plant was established in Baltimore in 1810, which was followed by one in Boston in 1823 and one in New York in 1825.

Where We Get "Clabber"

When you get "clabber" from the Irish "clabber," meaning thick cream, it is a provincial name for milk in this process of souring was "honeyclabber," "honey" being a corruption of the Irish "clabber," meaning milk.

Preparedness

STRICKER WEARS HELMET

WHEN STRICKER took workers of the 22d St. J. marched to a nearby town to try to persuade other mill workers to join them, one of the strikers was arrested for being troublesome. The clubbing police says some of his companions several days ago when their parade was broken up.

Counsel Demands Name of Men Who Hold Metal Stock

Question of Producing List of Stockholders in Aluminum Company of America Comes Up at Hearing.

PITTSBURGH, Feb. 20 (AP)—The question of producing the names of persons holding more than three percent of the stock of the Aluminum Company of America, came up again today during the hearing in the federal court here in connection with the investigation of alleged monopolistic practices of the concern. Commission counsel went on record a second time in demanding the names, counsel for the company entered objection, again, contending the names were irrelevant.

W. F. Whiteley, counsel for counsel, said he would consider the question further and that if he decided the steps to oblige the company to produce them.

Refusal is Made  
"Refutation of the demand and the refusal to produce the names, were the high spots of a lively hearing, during which the commission had received letters of the company, subpoenaed by the commission, were making.

When Whiteley said it was his intention to press for the list of stockholders, W. F. Smith, company counsel, wanted to know if he desired the names of shares held by each Whiteley, answered in the negative. Then Smith went back to the records of Whiteley's hearing, repeating his objection. He said he did not believe the company could be forced to produce the list.

Use Electric Shocks for Regulating Hearts

One of the most remarkable recent medical inventions is the static wave device.

Its purpose is to regulate the beating of the heart, should it be too fast or too slow. The patient sits in a specialized chair connected with a machine which passes an electric current through the body.

Outside the machine is a revolving ball, fixed in the end of a metal rod. Every time this ball passes another stationary ball, electricity is discharged from the body, causing the muscles to relax.

It is said to be beating 74 times a minute, but is six beats fast, says the Detroit News, the revolving ball is sized to surround at 74 revolutions a minute and cause a 74th revolution down to its correct time. In the same way, the heart can be quickened.

This wonderful machine was exhibited at a recent medical exhibition in London. The force of the current is such that a person putting his hand within six inches of the chair receives a powerful shock.

THE PRICELESS INGREDIENT

C. S. BEEBE, Life Insurance-Plus OVER ELEVEN YEARS OF STUDY

have verified for me that the \$35,000 of policies shown in the picture on my life are the best that the world affords.

If you have a life insurance adviser, stick to him.

If you have not, and you have been getting a little here and a little there, with no one responsible for the fitting together of the program, with no definite program—I want to be your life insurance adviser.

I want to be the Architect of your Life Insurance Estate so that as the years roll around it will be a thing of beauty—something that fits YOU—that is flexible—that it may be a thing of which we may both well be proud.

I want to put into your life insurance contracts the greatest amount of PRICELESS INGREDIENT—THE FULL EQUIVALENT OF EVERY DOLLAR.

LIFE INSURANCE DIRECTORY  
Office—Desk room with Arthur L. Swim and Co., Mortgage Loans.  
Office Phone 561—Residence 1437 Sixth Ave. East.  
Residence Phone 441-NW.

When the late war started military restrictions were properly put on life insurance policies and some companies wrote policies on the lives of soldiers under a war clause upon the payment of various rates of extra premium. The Mutual Benefit placed this amount finally at \$37.50 per \$1000, though some companies put it at \$100 per \$1000. Some life insurance contracts still have military restrictions.

An Idaho boy took two \$1000. policies in the Mutual Benefit at age 21 on the 20 year endowment plan, in April 1917, paying one annual premium, later he went to war without paying extra war premium, and also failed to pay his second annual premium and his insurance lapsed on April 4, 1918.

This young man died in France in September, 1918. Can YOU imagine how he possibly could have had any life insurance under the above facts? He would not have had, had it not been for the the PRICELESS INGREDIENT.

When the Armistice was signed the Mutual Benefit wired all General Agents that all extra war premiums collected would be refunded and all claims barred by the war clause would be paid in full.

That barrier having been removed he would still have had a lapsed policy had it not been for the FIRST YEAR NON-FORFEITURE provisions of the policy which gave him extended insurance for THREE YEARS and 110 days.

The General Agent saw the name on the casualty list, the War Department was appealed to, the identity and death established, and the mother eventually in due course was sent a draft for \$2000.

Let me show you the PRICELESS INGREDIENTS of the life contracts I negotiate—there are many!

(This Ad. Not Paid for With Company Funds)

# SAVING MONEY A HABIT WITH THOSE IN EAST

### New Englanders Adopt System From Necessity; Accounts for Savings Deposit Lead for Nation.

DOSTON, Feb. 20 (AP)—Savings money is a habit among New Englanders. It is a habit formed by necessity, which accounts in a large measure, for the fact that this section, despite the lack of natural resources in the way of ores or fertile soil for agriculture, leads the nation in the average savings bank deposits per person.

Seven per cent of the country's population lives in the six states and in their savings banks are 16 per cent of the total deposits. Fifteen per cent of the total number of depositors live here. The need of the New Englander, to save was with him from the time the Pilgrims landed on Plymouth Rock, said Joseph H. Soliday, president of the Savings Bank Association of Massachusetts. The climate of the Plymouth colony was such that the Mayflower's passengers were limited to the fact that they had to make provision for the winter if they were to exist. The very nature of the situation demanded that they save.

From this need came the habit of saving. The first savings banks were established in the sixteenth century in England. In addition to the fundamental and natural causes for the habit of saving, has been made attractive in New England. It was in 1816 that the Mutual Savings Bank was first organized in Boston and Philadelphia simultaneously. In Boston a group of citizens met in a coffee house and formed the Provident Institution for Savings in the Town of Boston. Some \$50,000 were now in deposit in that bank. The limit of the individual deposits was set at \$500. Because of the object of the institution is to aid the poorer and indigent classes of society, the donors and holders were obliged to deposit their prize money. It was the days of privation, and the bank was suggested for the use of a young man intending to marry at a future date, and young women who may expect to change their condition.

As New England became increasingly industrial, the mutual banks became more and more a necessity. There are no stockholders and the trustees are without pay. The profits, with the cost of operation deducted, are returned to the depositors in dividends. They also have had the effect of obtaining a higher rate of interest to depositors in com-

mercial banks. The average rate in Massachusetts is more than 4 1/2 per cent. The rate in New York is 4 per cent. The rate in Pennsylvania is 3 1/2 per cent. The rate in Ohio is 3 1/2 per cent. The rate in Michigan is 3 1/2 per cent. The rate in Indiana is 3 1/2 per cent. The rate in Illinois is 3 1/2 per cent. The rate in Missouri is 3 1/2 per cent. The rate in Kentucky is 3 1/2 per cent. The rate in Tennessee is 3 1/2 per cent. The rate in Georgia is 3 1/2 per cent. The rate in Florida is 3 1/2 per cent. The rate in Alabama is 3 1/2 per cent. The rate in Louisiana is 3 1/2 per cent. The rate in Mississippi is 3 1/2 per cent. The rate in Arkansas is 3 1/2 per cent. The rate in Texas is 3 1/2 per cent. The rate in Oklahoma is 3 1/2 per cent. The rate in Kansas is 3 1/2 per cent. The rate in Nebraska is 3 1/2 per cent. The rate in Colorado is 3 1/2 per cent. The rate in Wyoming is 3 1/2 per cent. The rate in Utah is 3 1/2 per cent. The rate in Arizona is 3 1/2 per cent. The rate in New Mexico is 3 1/2 per cent. The rate in Nevada is 3 1/2 per cent. The rate in Idaho is 3 1/2 per cent. The rate in Montana is 3 1/2 per cent. The rate in North Dakota is 3 1/2 per cent. The rate in South Dakota is 3 1/2 per cent. The rate in Minnesota is 3 1/2 per cent. The rate in Iowa is 3 1/2 per cent. The rate in Missouri is 3 1/2 per cent. The rate in Wisconsin is 3 1/2 per cent. The rate in Illinois is 3 1/2 per cent. The rate in Indiana is 3 1/2 per cent. The rate in Michigan is 3 1/2 per cent. The rate in Ohio is 3 1/2 per cent. The rate in Pennsylvania is 3 1/2 per cent. The rate in New York is 4 per cent. The rate in Massachusetts is more than 4 1/2 per cent.

## House Republicans Would Put Brakes On Probe Epidemic

### Move to Start Investigations by Committees Will Meet Legis- lative Action Leaders De- cide at Coptab.

WASHINGTON, Feb. 20 (AP)—A group of prominent house republicans agreed at a conference today to put a stop to the investigation of the epidemic of venereal diseases. The group, which includes the start investigations by house committees. This decision is in line with the action of the senate republicans to check inquiries in that chamber.

The action of the house group was aimed directly at investigations in general and indirectly at two resolutions now pending before the house. One is a resolution to investigate the Anti-Saloon league and the other to direct the house alcoholic liquor traffic committee to make a survey of conditions under prohibition.

The group took the position that the house would receive no benefit from an investigation from the prohibition situation at present and that an investigation of the league or a traffic committee would be a waste of time if anything to lay enforcement.

## IMPAIR EFFICIENCY

The view also was held that investigations of any kind impair the efficiency of the house in carrying out other legislation and that the inquiries themselves result in a loss of time. At least one of the recognized republican house leaders is in sympathy with the position of this group and is expected to oppose any inquiry proposals now pending before the house. Whether the house members generally will meet this line of thought, however, is problematical.

## CLOVER OBSERVES LENT

CLOVER, Feb. 20.—Special Lenten services will be conducted in the Lutheran church at Clover Sunday evening beginning at 7:30 and every third evening hereafter during Lent. Mr. and Mrs. A. J. Reeder and family and Mr. and Mrs. Rudolf Marz and family were dinner guests Sunday at the Reeder home. The members of the saxophone quartet met and practiced Sunday afternoon at the Reeder home. Howard Koster, son of Mr. and Mrs. P. Koster, spent Saturday and Sunday with his grandparents, Mr. and Mrs. John Koster. Many in the community are sick with the flu. It seems to be a more serious form than for the past few years. The pupils of the parochial school here are observing Lent in school prayer.

# AMERICAN LIFE SHOWN IN OPERA

### Clamor of Riveting and Labor of Men in Shadows of Sky- scrapers Is New Theme.

NEW YORK, Feb. 20 (AP)—The slanting clatter of riveting, the minor harmonies of negro spirituals, the labor of men in the shadows of skyscrapers and men at play in the shadows of towering tower dips and ferris wheels, were the chief elements of the Metropolitan opera house in "Sky-scrapers," the ballet in which John Alden Carpenter has sought to mirror the broken, violent rhythms of American life.

Yankee backgrounds designed by Robert Edmond Jones rate behind the dancers—backgrounds idealizing the immensity and the dominance of mechanized civilization. The costumes showed violent alterations of silver and black and winking red lights flashed on and off, intensifying the chaotic impressions of the scenery, music and costumes.

Frequently during the rapidly shifting movements of the ballet, the audience broke into applause for Mr. Carpenter's easy toward "a purely American choreography." Combined with the movements of the chorus were dances that might have been part of a Broadway musical show. At the opening of the ballet, the orchestra simulated the jangle of working and riveting and the workmen went through a pantomime of work. The curtain then fell and in the next scene the men were seen punching a time clock and leaving.

## WILLS CONTINUES TO WIN GAMES ON COURT AT BEAULIEU FRANCE

BEAULIEU, France, Feb. 20 (AP)—An hour on the tennis courts this afternoon was enough for Helen Wills to advance two stages in the singles of the Baulieu tournament, this afternoon. Without leaving the court, she defeated her opponent with the loss of only one game, taking advantage of her great service to experiment to improve her game. Two English girls were her victims. Miss Betty Wright went down in two sets, one of them finished in the unusual time of nine minutes. The American champion then defeated Mrs. Randolph Lovett, the former Miss Austin, now wife of the British Davis cup player, by the score of 6-0, 6-0.

NEW YORK, Feb. 20 (AP)—Sweeping to a triple triumph on the New York regional tennis courts, France's brilliant Davis cup team today overcame three leading American players, including William T. Tilden, and carried the victor into the semi-finals of the national indoor championship in the biggest series of tennis sports since this country gained international net supremacy six years ago. Vincent Richards, number 3 in national ranking, and Francis X. Hunter, former indoor titleholder, fell with the national amateur champion, all three being eliminated in straight sets. Jean Borotra defeated Tilden, 13-21, 6-3; Rene la Coite defeated Richards, 6-1, 6-2; and Jacques Brugnon eliminated Hunter, 6-4, 6-4.

# One in Every 500 Persons on the Federal Payroll in Germany Says Berlin Advises; Taxes Increasing

BERLIN, Feb. 20 (AP)—One of every five hundred persons in Germany, it is estimated is on the federal government's payroll. While taxes have increased 250 per cent since the war, despite the fact that the country is virtually free from public debt for reparation obligations, the number of federal job holders has increased at such a pace that several party newspapers are demanding a wage ceiling.

The finance minister, charged with the collection of more than a score of federal taxes alone employs 13,000 persons and spends 100,000,000 marks annually, or more than the total income tax receipts of the state of Prussia in 1923. One in every 250 inhabitants draws a pay check from the finance ministry.

Under American administration the cost of collecting and allotting 1,000,000,000 mark reparation payments is one fourth of its present. The German government spends nearly six per cent to collect 7,500,000,000 marks annually. One in every 2,500 persons enjoys the title "minister" having served at one time in federal or state cabinet under the republic which is little more than seven years old.

General Hans von Seeckt, chief of staff of the reichswehr has been promoted to the rank of Colonel General.

Kulmbach until 1898 and later of Prince Christian of Bavaria.

BERLIN, Feb. 20 (AP)—In spite of the protests of the Cologne Federation of women's clubs against "the shock of women's" masculine control of Cologne, which begins tomorrow and lasts three days, will be held this year with more gusto and display than in any year since 1914. Rejoicing over the recent evacuation of the city by the British, will add to the holiday spirit.

The women's clubs complain that the annual carnival has degenerated into a series of wild parties and street parades of women scantily clad.

The murder of a 37 year old carpenter, Fritz Karpinsky, because he wore bell shaped Oxford trousers has set the police on the trail of a dozen secret societies, which are said to have conspired the building trades of Germany.

Among the secret orders discovered by the "brothers of labor" were: the "Brothers of Labor," more commonly known as the Order of the Blue Necktie, Karpinsky, a member of a rival society, the order of Neckties, Brethren, was accused of the theft of a pair of bell shaped trousers from a member of the blue necktie order.

There are fratricides of the red, black and white neckties. These orders are not political organizations and have no connection with labor unions.

Unable to raise salaries of civil servants appointed because of the lack of funds the Prussian government is being petitioned by its minister of health and welfare to confer professional salaries as rewards for meritorious service.

Thousands of German soldiers graves at home and abroad will be consecrated on a national holiday day, February 22. For the first time, efforts are being made to honor one day in the year to honor soldiers in the manner of memorial day in the United States.

## TOO MANY THEATRES CLAIM

NEW YORK, Feb. 20 (AP)—Crosby Gilgic, the producer, believes there are too many theaters in New York because there are not enough good plays to fill them.

"Nothing hurts the theater more than a sorry production," he said. "People spend their money expecting to see something good and the disappointment is so keen many stay away for some time."

"If we could fill our 60 theaters with 20 good plays it would be a wonderful accomplishment but the fact is we seldom have over a dozen good productions a season."

The producer believes the American drama is improving, however, and that there are many present-day actors who rank with the stars of old.

# A Great Year A Great Car and Lower Prices

1925 was the greatest year in Dodge Brothers history. More than a quarter of a million Dodge Brothers Motor Cars were built and sold, yet demand was far in excess of production—and continues to mount. To meet this world-wide need for a smart and dependable motor car, Dodge Brothers, Inc. have recently completed a \$10,000,000 program of expansion, vastly increasing production and lowering the cost of manufacture.

Remarkable new machine equipment has also been installed—further reducing costs and perfecting quality. As a result Dodge Brothers, Inc. were enabled on January 7th, to announce a schedule of prices that has revolutionized all previous standards of motor car value. Prices all the more impressive because they apply to a dependable and trusted product made still better in many vital respects—

- Engine operation incredibly smooth and quiet.
- Instant engine response and elasticity.
- Stylish new bodies finished in rich and distinctive colors.
- Exceptional driving vision.

And the most important advance in steel body construction since Dodge Brothers pioneered in building the first all-steel body.

### Pros and Cons of Labor Problem Are Discussed by Statistician in His Review: Points to Situation

#### Factors Favoring Higher Wages and Those for Lower Wages Are Discussed by Roger W. Babson.

ROGER W. BABSON, Florida, in an exclusive interview, discussed the pros and cons of the labor situation. He gives us four reasons for both higher and lower wages with this conclusion as to the outlook. His complete statement is as follows:

**Factors Favoring Higher Wages.**

The four factors favoring higher wages are as follows:

1. The immigration continues to be in full force and is constantly becoming more serious in reducing the supply of labor in the country.

2. The immigration continues to be in full force and is constantly becoming more serious in reducing the supply of labor in the country.

3. The immigration continues to be in full force and is constantly becoming more serious in reducing the supply of labor in the country.

4. The immigration continues to be in full force and is constantly becoming more serious in reducing the supply of labor in the country.

**Factors Favoring Lower Wages.**

The greatest labor economic factor in the country is the immigration. It is the constant development of our country. It is the constant development of our country. It is the constant development of our country. It is the constant development of our country.

**Factors Favoring Lower Wages.**

### What's What in The Sport World

Copyright, 1926, King Features Inc. BY FRANK O. KIRK

In an open day, San Langford swished an apparent under-throw—a rival of the day—first the other way for about 24 inches off the canvas covered terra firma. While the man was still in the air, the other hit him in the body. That punch lifted him but higher, drove him back onto the top strand of the rope from which he had performed an involuntary backward, head first, dive into the press box.

Long years ago Sam McVey hit Steamboat Hill Scott on top of the head with a hammer. Scott, who fell to the floor, grabbed his head and was moaning in pain while being pointed out. Afterward it was discovered that McVey had hit Scott on the forehead with a hammer. Scott was taken to the hospital and died.

Demmy hit Carl Morris on the head with terrific force. Carl went down, face first. For some reason or other, his tongue protruded from his mouth. When he got up, he was unable to speak. It was necessary to manipulate Carl's throat to get his tongue back into his mouth. When he got up, he was unable to speak. It was necessary to manipulate Carl's throat to get his tongue back into his mouth.

Jim Griffin singled one night with a fellow named Everett. About the only thing Everett was willing to do was to turn the other way. Jim Griffin was willing to do anything for a few dollars. He finally trapped him in a corner. As Everett twisted and started to run, Jim Griffin hit him on the head with a bat. Everett went down—and that ended the fight.

The story is told of a fighter possessed of false teeth who was jabbed so hard that the plate was knocked into his throat. The man refused to give up. He was jabbed so hard that the plate was knocked into his throat. The man refused to give up. He was jabbed so hard that the plate was knocked into his throat.

### MURTAUGH, Feb. 19.—Mrs. Charlene Mack entertained at a birthday dinner in honor of Mr. Mack. The party was given at the home of Mrs. Mack. The party was given at the home of Mrs. Mack.
