**Twin Falls** (By the Associated Press) — A man appears in very woman entered the Grand Chap white cap and gave it to him for the court playing in effect to obtain a new trial and save Pecatello, who from the gallows, wear uniform. After announcing that the petition for a writ of habeas corpus had been filed, it has been denied, evidence would indicate, by the club. Filed tomorrow, Frederick J. Grech, the uniform chief counsel for Chapman, made an appeal to a woman whom he identified as a girl, whom he does not know, to come to Chapman's new unfortunateness, work by the Need Testimony.

The woman, who is a resident of New Britain, Conn., he said, will corroborate the evidence of a Long Island man who that since he saw the man who fled from the right side of Chapman, he was present when his client James Skelly was murdered. This man has asserted the fleeing man was not Almost too.

During the trial of Chapman for murder, it was shown that the man who was being sued was a writer skilled "fat play," and told of the killing the supposed master of Skelly.

"Tells of Incident." —  
It is said that on the night of the murder he knew an acquaintance in New Britain girl and went to her home. He and every ball had been received this before he died, because he was.

Grech asked that the woman, who is a widow, be allowed to remain in New Britain, Miss., and New Britain where she is being sought, it was said.

Officer's Union at a meeting Tuesday, March 21, voted to accept the resolution of Mr. F. A. Rice, trea tress, Edith Remmell

March 25—Five committees to handle Forest Week, April 18 to 24, have been appointed by E. G. Miller, dean of the University of Idaho school of forestry, and state Forest Week chairwoman, Mrs. Anna McCloud, head of the division of the Idaho Forestry school faculty, will serve.

The purpose of the observance is to afford the citizens Idahoan citizens an opportunity to learn about Idaho's forest resources and to explain the actual working of the new Idaho forestry law enacted recently.

You know that more than two-thirds of the timber in Idaho is now forested?" asks a leading forester by the general committee. "Idaho's forest industry is one of the most important in the country, particularly for woods and supplies. The value of state owned timber in Idaho is conservatively placed at \$400,000,000.

"The timber in Idaho is first class, fine and the best in the West. It comes from the many timber states."

Plans are being made by the committees in charge to send speakers into high schools throughout the state to speak on "Forest Week" programs. Three cash prizes of \$100 each and \$50 will be awarded to the three best essays written by any Idaho high school student on the subject.

The "dishes" will be held at the Nettleton, Idaho school of forestry, Prof. George S. Schaefer, Idaho state of agriculture, Mrs. T. A. Seelye of the Idaho Dept. of Education, and the North Idaho Forestry association.

**HONESTY OF PIMA INDIAN WOODCUTTER WITH JUDGE WINS FREEDOM FROM JAIL**

TWIN FALLS, Idaho, March 25 (UPI)—H. L. Lanigan, charged with the kidnaping of a California woman today was freed from state jail for Fernando Carter, a Pima Indian woodcutter.

A week ago, Carter, a man found guilty of kidnaping, unable to pay the \$10,000 bond set after he had escaped, was returned to the state jail at Twin Falls, Idaho, and confined in solitary confinement.

The woodcutter was accused of robbing the first day of a \$10,000 bond for his wife, a woman he had been married to for 10 years, Carter admitted the robbery.

He estimated that his wife, Juanita, a woman who had lost his money, had left \$10 to cover half the fine and the judge, fearing his wife would be unable to pay the fine, Carter admitted the robbery.

# STRIKE SET FOR DEBATE CLASSIC

Annual Forensic Event Will Be Held at Pocatello, Boise and at Twin Falls Auditorium.

Promised to fall at 7:45 o'clock tonight was the annual meeting of the judges in the high school auditoriums of Boise, Pocatello and Twin Falls, the three intermediate schools for boys in the state secondary school debating class will be.

Pocatello high school debaters will arrive this noon to meet the Twin Falls trio here tonight on the high school platform. The two schools will then go over their points of view to do everything legitimately within their power to break the Jinx which during the past few years has been sending representatives of the guitars city to the state competition in Boise. The question that will be considered tonight is: "Resolved, That the United States Should Enter the Permanent Court of International Justice, Under the Reservations Proposed by Harding, Hughes and Coolidge."

The Blue and White team that is to be seen in action here tonight will be composed of Lewis Joyce, Byron Reed and Maxine Hansen. The team of three years James Battwell is the alternate on this combination. This team, the affirmative, will present arguments in favor of entering the court of international justice from the ranks of Helen York, Charles Loux, and Robert Techau, with Echel Del Watson as alternate.

The Twin Falls team upholding the negative of the same proposition will be composed of those that met their old capital city crew in the annual meet that had its inception more than a decade ago. The travelling team members are Kenneth Ladd, Roy Ladd, and Alvin Ladd. Loyal Perry will be accompanied by Conrad Allert, Gulek, and the team alternate, Kelli Evans.

At Pocatello the debate negative will be the gateway city affirmative aggregation.

The question to be discussed at each of the three places will be the same.

Thus for this season, Twin Falls has emerged from one contest unfeated.

## FILER VETERAN NAMES LEGION AS BENEFICIARY

FILER, March 23—Homer Lechner, world war veteran, has made Filer past, No. 47 of the American Legion, the beneficiary of his services and just enough money to add \$1,000 to the amount to \$1,000, it was learned yesterday after he filed his application for his claim.

Adjusted compensation is issued to ex-service men in the form of a valid discharge policy payable to the service man at his face value at the end of 20 years. In the event of the soldier's death before that time, the family will receive the same benefit as the beneficiary named in the policy.

Mr. Lechner is a charter member of the local post and declared: "I would make it the honor of his widow to receive the compensation in the event of his death before his maturity. He served overseas in the infantry and was among the first to enlist and the last to be discharged."

## Sisters Separated Sixty-three Years Reunited at Filer

Sisters who had been separated since 1863 were back again having given up the search for each other up for decades, a family has been reunited here during the past few weeks and been living ever again in the old home in Filer, Idaho, sixty-three years ago.

The story reads like a novel, the circumstances of the meeting of Mrs. M. M. Davis, wife of the Bogart, and Mrs. Anna McLaughlin, wife of the Filer, both of whom had been separated from their parents at birth, and their husbands, for many years. Mrs. Anna had been married to Mr. and Mrs. Henry, a brother and sister, who resided in Filer, Idaho, for many years.

"It seems mighty queer to us, but it would not interest anyone else," said Mrs. Anna, to a friend, "but we have not seen more than half a century, and I am still in the blood and all their whereabouts unknown to each other."

This team, the affirmative, will present arguments in favor of entering the court of international justice from the ranks of Helen York, Charles Loux, and Robert Techau, with Echel Del Watson as alternate.

The Twin Falls team upholding the negative of the same proposition will be composed of those that met their old capital city crew in the annual meet that had its inception more than a decade ago. The travelling team members are Kenneth Ladd, Roy Ladd, and Alvin Ladd. Loyal Perry will be accompanied by Conrad Allert, Gulek, and the team alternate, Kelli Evans.

At Pocatello the debate negative will be the gateway city affirmative aggregation.

The question to be discussed at each of the three places will be the same.

Thus for this season, Twin Falls has emerged from one contest unfeated.

## GIVES BANQUET FOR HOOPSTERS

Mrs. Joseph Keefer Entertains Officials and Members of Bruin-Wildcat Squads.

Mrs. Joseph Keefer of the Rogerson hotel entertained the Filer and Twin Falls basketball teams at a banquet in the Hotel Rogerson yesterday evening. There were twenty men present including the coaches and officials. Mrs. Keefer presided at a well-laden table.

Guests were Capt. Sidney McLaughlin, Superintendent George E. Dennis, and the coaches of the squad, Buhl, Atkinson, Barry, Bain, Bain, Captain Moore, Hall and Farrell, of Filer, and Coaches Hall and the Team, Eddie Martin, Captain Nolin, Johnson, Kelley, Bertch, Owis, Williams and Hollie Martin of Twin Falls.

The Filer team defeated Twin Falls in the final game of the district tournament at Buhl for the district championship and the Wildcats quietly went into the semi-final at the Bruneau. The theatrical life is vividly depicted in the new production, "The Song and Dance Man," which opened at the Idaho theatre yesterday. Mrs. Brenon has taken this original George M. Cohen play, decked it out with the most brilliant and sacrifice of a typical vaudeville trouper, and transferred it to the screen with a smoothness that speaks a thorough familiarity with the material.

Mr. Brenon has the able assistance of a competent and experienced personnel, Tom Moore is the song-and-dance man to the very life, comic relief is provided by a veteran whose skill and dash are unequalled, and outstanding virtue, and whose can summate comedy, his most distinguishing trait. Recent love gives a very interesting and natural atmosphere to the film.

The Shoshone team is an unknown quantity so far this season but had a good aggregate last night and is expected to do well in the future. The Filer team will be available awaiting the umpire's first call of Play Ball.

COLLEGE MEN MAKE BEST OFFICERS SAY VETERAN

HONOLULU, March 23 (AP)—College men make the best army officers, according to a report released yesterday.

Franklin H. Clegg, president of the college corps, said: "The college men are the best because they have more education and better training."

They are bright, feel that the average man is worth getting together, are reluctant to separate again, but so fond of their work that they will stick to it.

Aughter of Colonel Koehler's does not fight so much for the flag as he does for his country, he is likely to be interested in politics.

Colonel Koehler was the originator of the mass-command system of giving instructions to troops.

# BEET GROWERS HOLD SESSION

Interesting Story of Profits Made in Crop is Told at Dinner Meeting.

Between thirty and forty farmers of this section met at Tom's Cafeteria last night and later engaged in a lengthy discussion on the sugar beet industry here, an effort being made to interest the public in the crop.

Nearly all present took occasion to state the discussion and the consensus of judgment of the entire meeting was that the sugar beet is a profitable and useful crop. Many of the speakers told of an experience covering years of beet growing, one or two of them giving their entire experience before coming to Twin Falls. Some of the speakers admitted accidental disappointing years with the crop but emphasized that, year in and year out, sugar beets make money, just along through the sale of the beets, but because of the advantageous methods which could be made of the pulp, as fed and through the general advantages to the land brought about by the crop.

Crop Possibilities.

Some interesting figures as to beet crop possibilities were offered by Ray Hager, agriculturist of the American Sugar Company but the bulk of the information came from the speakers.

The actual damage of the white fly were minimized by one speaker who stated that he had grown sugar beets for four years. He declared that the beet crop was safe and reliable under extraordinary conditions which rendered the plant so weak that it was unable to throw off the prison effects and that ordinarily the beet crop would bring a good price.

A number of questions those present stated that they had voluntarily increased their beet acreage this year in order to help swell the total acreage of the state. It was also agreed that a failure on the part of the Sugar company to continue operations would have no effect which would be felt by the entire community.

Creating Interest.

A number of suggestions were made in the proper method of advertising the beet crop to create more interest in the crop and insure the planting of a sufficient acreage to ensure factory operation. Perhaps the most popular idea was advanced by a speaker who suggested the idea of a series of small meetings in each of the whole matter of beet growing could be discussed in the various neighborhoods after man expressed himself as authorative on the subject of the beet crop was mentioned.

"Many people have blamed me for not getting married. Since childhood I have suffered from stomach and liver trouble, never being able to get any medicine or doctor to help me. I am anxious to get a wife." It is a simple, harmless procedure that removes the intestinal aches from the body, tones up the system, and gives the body a new lease of life. It is a great tonic that when taken in the morning, will help to cure all kinds of intestinal trouble, including appendicitis. One dose will enliven or money refunded. Adv.

All present told of the profits from the crop in detail and a general pledge of assistance in the securing of a market for the crop.

A number of Twin Falls business men were present at the meeting.

Rich Bachelor Wants Wife

"Many people have blamed me for not getting married. Since childhood I have suffered from stomach and liver trouble, never being able to get any medicine or doctor to help me. I am anxious to get a wife."

It is a simple, harmless procedure that removes the intestinal aches from the body, tones up the system, and gives the body a new lease of life. It is a great tonic that when taken in the morning, will help to cure all kinds of intestinal trouble, including appendicitis. One dose will enliven or money refunded. Adv.

Quaker Oats "stands by" you through the morning.

That's why doctors urge it to start every day.

To feel right through the morning, you must have well-balanced, complete food at breakfast. At most other meals—that is, at luncheon and at dinner—you usually get that kind of food.

But at breakfast the great dietary mistake is most often made—a hard, meaty, heavy-body breakfast.

This Quaker Oats, containing 16% protein, food's great tissue builder, 30% carbohydrate, a great energy-stimulating food, contains vitamins and the "vitals" that make laxatives seldom needed, is the dietary urge of the world today.

It is food that "stands by" you through the morning. Food that should start every breakfast in your home.

Quick Quaker cooks in 3 to 5 minutes. That's faster than plain toast. Don't you just feel the natural stimulation this rich food offers.

# MISSIONISTS BOARD CARS ON TRIP TO COAST

Twin Falls County Delegation  
Sets Out to Promote Closer  
Relations With Nevada and  
California Centers.

**On a special train furnished by the Oregon Short Line on the first leg of their journey over the mountains, the Twin Falls, Oregon Short Line Twin Falls-Wells road, more than 400 citizens of Twin Falls county citizens will leave at 6:30 o'clock.**

This morning an excursion arranged by the Twin Falls Chamber of Commerce to Nevada and California centers, including Reno, Oakland, San Francisco and Los Angeles.

The excursionists will arrive in Los Angeles next Wednesday to join forces there with members of the Idaho delegation, associated business men in cooperation with the Idaho Chamber of Commerce. The return trip is to be made by way of Salt Lake and Pottsville. Most of the excursionists expect to spend two weeks on the trip.

#### Excursion Objectives.

Objectives of the excursion, Asher R. Wilson, president of Twin Falls Chamber of Commerce, stated last evening, are to promote acquaintance between the business men of the two editions of the Twin Falls country and the people of Nevada and California.

We want them to know up better about our products, especially with our products," Mr. Wilson said. "While in the next two days should be developed in California markets for all of the potato products in this country."

Total revenue of at least \$100,000 on this product alone, Bradley, California should consume larger proportions of our hog and sheep and cattle and other products. Our products should be sent here for mixing with Idaho hams instead of to Denver where the mixing process is carried on now. There are only a few of the things that we expect to result from this excursion, such as making neighbors to the south and on the south-western Pacific coast."

#### Welcome Promised.

The excursionists will be guests at breakfast, luncheon or dinner meetings of business men in either which stop along the route. In addition to visiting the Indians in several instances include arrangements for sightseeing excursions. It is expected that opportunity will be given for a Twin Falls speaker to broadcast a message for the Twin Falls county

# PROHIBITION TO BE 1928 ISSUE says DEMOCRAT

Representative Rankin of Mississippi Tells House That Volstead Law is Binding Alike Upon Both Parties.

(By the Associated Press)

WASHINGTON, March 23. (AP)—The subtlety of members of Congress in discussing Prohibition today and from different viewpoints was apparent in the house debate on the resolution of officers of the District of Columbia.

While on the floor another debate opened around the reported statement of Dr. Clarence True Wilson on drinking among congressmen, the last prohibited article was announced. The bill was introduced by Rep. George H. Miller, of Idaho, who forced the introduction of the ultimate outcome of Idaho's liquor law, found Saturday night in the corridor of the house office building.

**Little Interest Shown.**—The threat of the prohibition officers apparently aroused but passing interest in the representatives, although the alleged perverts in Idaho, N. W., were taken into custody early in the day.

Wilson's reported statement on the number of congressmen who drink in the house reflected slight interest.

The incident was not even mentioned in the daily round of prohibition debates. Representative John Rankin, of Mississippi, however, turned the discussion with county officials, saying he was sure Rep. Miller's speech regarding he was more representative of the people than any other member of Congress.

Rankin pointed out that the demerit of Wilson's statement was that it did not

mention the members of his church.

Attorneys and religious organizations, it is believed, would get the wets interested.

There was applause on the demand:

"That the bill be referred to the Committee on Manufactures."

Rankin pointed out that the bill had been referred to the Committee on Manufactures.

He said:

"I am not now in favor of this bill."

Rankin, however, did not say whether he would support it.

# ASPIRANTS TRY HARD FOR TEAM

**Many Flock to Lincoln Field  
In Effort to Make Twin Falls  
High School Track Squad.**

Hordes of track-meet contestants to fill Lincoln field every night to overflow. Active girls have been going all night, every night, with a large number of them staying there too early to tell much about the material but if numbers count Twin Falls will have a real track team from this school.

The interclass meet will be staged on April 9 and it is in this event that the coaches depend on to show what the material can do in competition. The girls' classes are well represented and it will probably be this meet.

Senior Runners.

The seniors have several good girls although they are not up to the other events. It looks as though at this time though the Juniors would take the meet although the sophomore have a good representation yet.

The juniors will look away in the distance probably in the spirits also. The sophomores will probably show in the hurdles and broad jump and possibly in some of the middle distances. Not much has been the first year team as far and the freshmen may be planning a surprise.

However it looks as though the real battle would be between the upper class.

Other interest is being manifested in track this season than ever before and while there will be the natural drop off after the class meet there will still be a good sized squad of aspirants for the balance of the season.

**Paper Preservation.**

Preservative treatment of telephone poles and crossarms greatly prolongs their life. It is estimated that \$2,000,000 will be saved by such treatment of the poles and crossarms now in service in the Bell system.

Arctic expedition has been delayed pending repairs to the planes Alaskan and Detroit, is shown here in his flying clothes.

## HIGH SCHOOL NOTES

One of the 7-A classes has the highest spelling average for the first two weeks of the second semester, according to announcement by Miss Jeanne L. Clegg, teacher of the class. The average is 92 per cent, and a 7-A class also has the lowest average, or 81 per cent. Recent, kept of the scores in the contest, for the spelling champion, was the 8-B class, which had the highest average for the balance of the semester.

Another interest is being manifested in track this season than ever before and while there will be the natural drop off after the class meet there will still be a good sized squad of aspirants for the balance of the season.

### Unflattering Prospect.

Last night on top of bodies like a splinter of wood, and short arms like twigs—in fact—all bodies and no faces—that is the picture of men and women in 2,000,000 years' time, as drawn by an American scientist.

## EXAMINATION ARRANGED AT CHURCH AT CLOVER

CLOVER, March 25.—The following day of sixteen catechumens will be examined in the Trinity Lutheran church of Clover Sunday, Palm Sunday morning, beginning at 10:00 o'clock:

Walter Schreiber, Melvin Barnes, Walter Mattila, Marvin Lierman, Alfred Ulrich, Elmer Schneiter, George and Alvin Johnson, Carl and Arnold Werner, Otto Reith, Alvin, Edward Becker, Lyda Meyer, Bertha Fischer, Clarence Behrhorst. The public is cordially invited to attend the examination.

The examination of Clover proved to the boys that they had not forgotten how to play ball when they played a game—10 to 10—with them Sunday.

A fair crowd attended the game.

A number of friends pleasantly surprised Gertrude Lierman, who recently fractured her leg, by gathering at her home Friday evening to play cards.

Mr. and Mrs. Rudolf Jorgel and family, Mr. and Mrs. Clarence Jagel, Mr. and Mrs. E. Meyer and family; Mr. and Mrs. Peter Michaelach and family; Mr. and Mrs. Alford Johnson and family were Sunday diners at the A-List home.

## Dogs at Roseworth Show Rabies Signs

CARLETON, March 25.—Several dogs at Roseworth are believed to have rabies. One dog in particular, an Alsatian, showed severe signs of the disease and was destroyed Saturday by Mr. Worthy, owner from the country, having bitten and several dogs, and people have been killed.

Mr. and Mrs. Ernest Willard and daughter, Mrs. Edna Willard, the French family at Carleton.

Quite a number of fishermen from here spent Sunday at the Roseworth dam, shooting and fishing. Mr. and Mrs. H. H. Neumann of Twin Falls spent Sunday with their daughter, Mrs. E. A. Heller.

A. E. Heller is preparing to plant 50

acres of alfalfa on his farm.

These views were new information to the State, said A. E. Heller, of Franklin, Minn., and others in the valley. It was the result of a desire to have presented the distinctive features of the state, with elaborate prints derived from history.—Minneapolis City News.

**Ancient Indians** **Legend**  
The burst of American ethnology says the mounds of the Mississippi valley were generally foundations of semi-constructed houses or temples and were used as burial places. They may be made in the form of animals and may have been used in worship. There's a raw rock containing any number of Indian mounds located on the public domain.

# WHEAT MARKET CLOSES STRONG

Despite Effect of Stock Fluc-  
tuations, Grain Prices Rise  
in Day's Trading.

**CHICAGO.** March 25. (P)—Although shaken as a result of violent fluctuations in the New York stock quotations, wheat prices today scored a strong finish, with a record of new buying at the last. Notable gains were made in export shipments from Argentina, and a heavy export demand for wheat from North America as well as further wind and dust storms in the west and southwest. The market was quiet, however, and there were no outstanding bullish factors. Wheat closed 1 1/8 to 1 3/4 cent higher; May new \$1.30 to 1.30 1/4; corn 1 3/4 to 1 4/4; July 1.30 to 1.30 1/4; early 1.30 to 1 4/4; May old 1.30 to 1.30 1/4; June 1.30 to 1.30 1/4; July 1.30 to 1.30 1/4; August 1.30 to 1.30 1/4; September 1.30 to 1.30 1/4; October 1.30 to 1.30 1/4; November 1.30 to 1.30 1/4; December 1.30 to 1.30 1/4.

## Strength At Liverpool.

Surprising strength of wheat quotations at Liverpool accompanied early news of a big decrease in this week's wheat export from Argentina. The estimate was for 1,000,000 bushels, compared with 3,600,000 bushels last week. In this connection, it was pointed out that this swing to smaller exports must be due to the fact that Brazil is now drawing its supplies from North America instead of Argentina. Under such circumstances, wheat values in Chicago showed an upward trend from the start. The market, although fluctuating also by demand based on notice of 50 degrees drop in temperature in parts of the domestic winter wheat belt, and by predictions of further unseasonable cold.

## Rallies After Setback.

In the final hour—increased selling pressure largely of eastern origin gave the wheat market a sharp temporary setback which turned previous gains into losses until the aggressive fresh buying of the foreign exchanges again turned the situation about. Late in the day, however, the market rallied to a rise of 5 cents.

# ROUTE TO INDEPENDENCE FOR VETS ON MOUND DUTY

**Reports From Training Camps Indicate That Few New Flings Will Be Seen in Action This Season.**

(By the Associated Press.) WASHINGTON, March 25.—Despite noteworthy performances by nearly 1000 young veterans from all training camps here, there few new flings will figure in the 1926 major peacock hunt.

Correspondent at the American Legion Hall here for early春, he veteran writer, with the Braves and Giants of the National League leading both circuits in spring pitching effectiveness. As a result, he said, the veterans, who usually take back a generous portion of their capsules, will gather in most of the others before the season gets under way.

### Some Make Good.

A few exemplars stand out almost单独 to make the grade. In the American League, Myron McCormick of the Indians has been elected to place on the Yankee staff, while Alphonse Thomas of Baltimore is expected to be reinstated by the White Sox. Several young pitchers, which had right back with the Indians and Indians Manager Dutch Harris has indicated that he will likely take two of a quartet that has been hunting here—Tomie Washington, Ward Miller, Eddie Kahan and Eddie Morris and Jim Lee. Wertz and Hearn may gain berths on the Boston National staff.

"Ed Beach, 19 year old sensation in the ranks of the Phillies, virtually has joined the major leagues," says manager Arthur Plotkin. "He is likely to be one of the Cardinals." Lefty Heffner of Syracuse has impressed Manager Hobbs, while Tom McNamee has convinced John McGraw of the Giants that he is unusually a buster of big league caliber.

Pitching regulars on nearly all the clubs have furnished the spring season's surprise. Carl Mays, who has been the best pitcher in the country last year, has been one of the most effective pitchers in the Cincinnati camp, while Indianapolis' Eddie Lueke, Cuban star, has entirely recovered from his shoulder trouble.

Detroit has already signed off its Holy Cross prospect, Orval Carril, and will depend on its veteran stars. Connie

For the information of all concerned (which means every taxpayer on the Twin Falls Tract) we wish to advise you at this time that we will operate the Twin Falls Sugar Factory this Fall for a minimum of 60000 Tons of Beets. 50% of the 1925 Beet Growers averaged 20 tons per acre, while the general average for the Tract is 15 tons.

At the low average only 4000 acres, or 1500 more than have already been signed are needed to insure a run for the Local Plant.

This will mean \$25000 Taxes on Sugar and Live stock in addition to the \$50000 already being paid, Plus, a \$480,000 Beet payroll, \$120,000 factory Payroll of which 85% is spent at home. Pulp and Molasses will also be available to create a hay market and induce Fall and Winter feeding—the surest and safest essential in a successful Agricultural program.

For the past ten years, 60% of the Spud help, 90% of the Bean help and 95% of the Onion help have been shipped in and fed at the expense of the Sugar Company.

If You as a Community consider this additional Cash Crop and this million and one-half dollar plant a part of the industrial requirements that we are all so eager to incorporate with our assets, Right Now Is The Time For Action.

One moment please! There is one and ONLY ONE thing that ever made a City in a farming community, and that one thing is a Pay-Roll. Furnish your own Bread Basket and then: Feed It.

If you seriously consider the above mentioned facts and conditions worthy of your co-operation this apparent little thing can be put over Big, and we guarantee an untiring effort in an attempt to Get Results.

### Said to Be No Spot.

**Quite Free From Dust.** When beams of sunlight strike into a partially-darkened room you are able to realize how thick the air is with millions of tiny particles of dust. But it is only with the help of a strong microscope that you can appreciate the number of dust particles.

In the dust in one room you may find such various matters as the pollen grain of grasses, scales from our own skin, as well as fragments from our clothes.

You may also find atoms of salt, dust is carried scores of miles inland from the sea, dust from the soil, sand, etc.

Stand, too, about in the air, both sand, sand, sand—there is more.

There is innumerable dust, ground-up molecules of some lost planet, floating in the air. This dust—you find everywhere, on the tops of snowdrifts, mountains and in the deepest abysses of the ocean.

### Can Tell Coal's Thickness.

The Bureau of Mines says that in drilling for coal a man can tell by the color of the broken coal that he takes out from the drill hole about how thick the coal is.

**Hansen Farm Home Is Destroyed by Fire**

HANSEN, March 25 (Special to The News).—The farm-home of J. E. Lowery, four and a half miles south was totally destroyed, with all contents, during a fire which started at about 8 o'clock Tuesday evening. The flames came from sparks carried by the high-wind from weed fires in the neighborhood. Efforts of Mr. Lowery and neighbors who came to his assistance were unable to save the house, but the big barn, which was in danger from the flames, was saved. The loss was only partially insured.

### The Cleaning Bell.

In some English villages the bell and may still hear the ringing bell being rung at noon and sometimes to tell the miners that they must stop working and when they must cease.

The custom is of considerable antiquity, being mentioned by Tusser in the year 1557. As a rule, the bell is sounded from the belfry of the parish church, and the ring is entitled "To a bell of the church" in which period from each point that goes glideth.

In some parishes, however, a cleric pennititates the parish with a hand bell while in others a gong, suspended from a tripod on the village green, is utilized.
