STANFORD HEAD
SAYS HEALTH IS
GREATEST NEED

Dr. Ray Lyman Wilbur, Addressing California Medical Association, Discusses Idea As Crime Preventive.

(By the Associated Press.)
OAKLAND, Cal., April 30.—A study of the health of the potential criminal stands in the first rank in the prevention of crime, Dr. Ray Lyman Wilbur, president of Stanford University, told the fifty-fourth annual convention of the California Medical Association here today. Law makers have an obligation to take advantage of medical science that they have actually passed laws enforcing the disinfection of immigrants while refusing to demand the treatment of little children for hereditary diseases.

In his efforts to control human conduct, the laws of nature and the laws of commerce, the lawmakers have seriously violated the demands of common sense. The lesson a call to the delegates to take part in politics, "no matter how unavailing they might be," so that health laws may be properly passed and enforced.

Regarding medical education, he said:

Superstitions Beliefs.

"Many still believe in cure by pills," he said. "The medical profession has been hampered by many a barrier against sanitation and others are carrying loathsome diseases around in their pockets."

Other ideas such as that diseases are the consequence of sin, certain diseases can come from immoral conduct, but in general they are the result of contact with germs."

"The medical profession," he said, "has been hampered by the term 'disease' which has been dropped in favor of the term 'health science' in medicine."

"The medical profession," he said, "has been hampered by the term 'disease' which has been dropped in favor of the term 'health science' in medicine."

"The medical profession," he said, "has been hampered by the term 'disease' which has been dropped in favor of the term 'health science' in medicine."

"The medical profession," he said, "has been hampered by the term 'disease' which has been dropped in favor of the term 'health science' in medicine."

"The medical profession," he said, "has been hampered by the term 'disease' which has been dropped in favor of the term 'health science' in medicine."

"The medical profession," he said, "has been hampered by the term 'disease' which has been dropped in favor of the term 'health science' in medicine."

"The medical profession," he said, "has been hampered by the term 'disease' which has been dropped in favor of the term 'health science' in medicine."

"The medical profession," he said, "has been hampered by the term 'disease' which has been dropped in favor of the term 'health science' in medicine."

"The medical profession," he said, "has been hampered by the term 'disease' which has been dropped in favor of the term 'health science' in medicine."

Professor Declares
Pull of Moon May
Cause Earthquakes

Possibility of Governing Influence of Solar Body Discussed in Address.

WASHINGTON, April 30.—The possibility of having earthquakes predicated on the moon was discussed in an address before the American Geological Union today by Professor Harry Fielding Hall, of Johns Hopkins University, who said the "pull" of the moon on the earth not only caused tides but measurable strains in its crust. When the direction of these strains coincided with those existing because of breaks or faults in the crust, he added, earthquakes are not unlikely.

Before reliable forecasts could be made, Dr. Hall thought, it would be necessary to know more about the faults and the strains near them.

Reporting on an investigation of the engineering problems connected with earthquake prediction, Dr. Hall said that the American Geological Society, said, "An earthquake is a sudden release of energy in the earth's crust which results in the shaking of the ground."

In his efforts to control human conduct, the laws of nature and the laws of commerce, the lawmakers have seriously violated the demands of common sense. The lesson a call to the delegates to take part in politics, "no matter how unavailing they might be," so that health laws may be properly passed and enforced.

Regarding medical education, he said:

Superstitions Beliefs.

"Many still believe in cure by pills," he said. "The medical profession has been hampered by many a barrier against sanitation and others are carrying loathsome diseases around in their pockets."

FARM LEADERS
RESIST ACTION
ON RELIEF LAW

Move to Bring Aid Legislation to Forefront in Senate Fails When Agricultural Bloc Voices Opposition.

WASHINGTON, April 30.—A move to bring farm relief legislation immediately to the front in the senate and with strenuous opposition today from leaders of the agriculture bloc and consequently failed. The senate rules committee adopted a resolution providing for four days of general debate on such legislation in the senate beginning May 1. The House price stabilization bill was given right of way, with the Timber-Barnett and the Cattle-Acta measures left in opposition to be offered as substitutes.

Proposed in the senate to displace the public buildings bill by the enactment of cooperative marketing and farm measures was sponsored by Senator Harrison, democrat, Mississippi. It brought a storm of protest as well as earnest pleas to the senator to withdraw his measure.

The Mississippi stand pat and grounds of farm relief legislation and the public buildings bill combined in a filibuster which staved off a vote on the motion for the present at least.

Leaders Oppose Motion.

Such leading proponents of farm legislation as Ben McNary, of Oregon; Norris of Nebraska; Natchez of South Dakota; and Gooding of Idaho, all expressed opposition to the motion.

The department of justice expects no unusual demonstrations of protest by single members of radical groups, such as being generally absent, and is taking no special precautions.

Figures for April, compiled by the employment service, show general labor surplus in but few states. Loss and Oklahoma have been hit by unfavorable weather for outdoor work, while some New England states have experienced a slackening in the building trades, where a possible high annual record of activity is indicated.

William H. Oliver, president of the American Federation of Labor, made May day the occasion of a statement to the Associated Press, outlining the strike and strike-the aims of the federation.

PENSIONS GRANTED

WASHINGTON, April 30.—The following pensions have been granted:

Idaho—Albert C. Jester, Nampa, \$12; Charles Peterson, Harley, \$12; Charles Peterson, Harley, \$12; Edward Lee, \$12.

Neighbor State Is
Only One Without
Electric Car Line

Wyoming to Be Unique in Matter of Street Railways; Motor Busses Replace.

CHEYENNE, Wyo., April 30.—In addition to being one of two states having a motor governor, Wyoming now has the distinction of being the only state in the union without an electric street railway system.

Only two street railways ever existed in the state of Sheridan and Cheyenne. The latter was abandoned in 1922, and the Sheridan line will never operate again.

Financial deficits in operating caused the cessation of both lines.

Motor busses have been used since the lines were abandoned.

SOCIETY AND CLUBS

Edited by Mrs. R. W. Williams Phone 306

Twin Falls lodge of Masons entertained a Friday evening for its members and their ladies at a banquet and entertainment program in the Methodist Episcopal church parlors followed by dancing in the Masonic Temple, the affair marking a real event in the social calendar of the lodge. The evening was held for nearly 200 guests at long tables in the dining room. In the receiving line were J. H. Glendon, master, and J. C. Beebe, senior warden of the lodge and K. R. Johnson.

REGISTRATIONS GET UNDER WAY

Books Open in Each Precinct of County to Record Voters in Coming Elections.

Registration books for the primary and general elections this year will be opened today in each of Twin Falls county's 28 voting districts. Primary elections for each of the three parties in Idaho will be held August 3, at which candidates will be nominated for district judges, the legislature, and county officers. Precinct committees and delegates to county conventions will be selected also. The county conventions will be held August 24, when delegates to the state conventions will be named. A county platform may also be adopted if the convention wishes.

Hours for Registration:

Any person of legal age is entitled to vote at the primary or general elections, provided he or she is a citizen of the United States and has resided six months in the state and 30 days in the county.

The law provides that registrars in each precinct shall be at their residences every Saturday from 9 o'clock in the morning until 5 p. m. in the afternoon, and on the evening of May 30, 9 o'clock. The registration books will be kept open until July 24, then registered voters will be required to register at the general election, and remain open until October 23. The general election will be held November 2. The law provides for the primary elections will not have to register again for the general election, but for the primary, he must register in order to be entitled to cast a ballot at the general election.

After the year the new law regarding registration will go into effect, and thereafter registration will not be necessary until every election unless a person has changed his residence from one precinct or county to another.

Date of acceptance of nomination for legislative representatives will be June 3, and the period will continue until July 3.

Here are the lists of registrars in Twin Falls precincts:

Twin Falls precinct No. 1, Mrs. E. B. Williams, 1208 Seventh avenue west, Twin Falls precinct No. 2, Mrs. Mary (Olliver), 211 Second avenue north, Twin Falls precinct No. 3, Mrs. O. W. Hutchins, Twin Falls precinct No. 4, Mrs. W. H. Hutchins, 141 West Washington street, Twin Falls precinct No. 5, Mrs. Arthur Edward North, Washington street, Twin Falls precinct No. 6, Mrs. E. L. Leichter, 1126 Bush street, Twin Falls precinct No. 7, Mrs. M. W. Shick, 1141 Third street, Twin Falls precinct No. 8, Mrs. A. M. Hartley, Twin Falls precinct No. 9, Mrs. Margaret Moore, Twin Falls precinct No. 10, Mrs. L. Brown, Deep Creek, Mrs. George McPherson, Deep Creek, Mrs. Edna Hurling, Albion, Mrs. Nelson Howard, Albion, Mrs. C. A. Grimm, Albion, Mrs. W. B. Shoup, Albion, Mrs. J. A. Ross, Albion, Mrs. Joseph McDonald, Berger, T. L. Shaw, Albion, Mrs. W. S. Stewart, Albion, Mrs. Myrtle Kirkpatrick, Albion, C. A. Crary, Albion, Mrs. Alta V. Lee, Albion, Mrs. W. D. Davis, Rock Creek, Mrs. Henry Hansen, Amsterdam, Mrs. Anna Kimball, Rock Creek, Mrs. T. A. Sanderson.

BREVITIES

Retains From Lays—Mrs. R. P. Mollan has returned from Lays last spring after an absence of about three weeks.

Leave For Kansas—Gilbert Michel left Friday evening for Kansas, where he will spend some time visiting relatives.

Leave for California—Mr. and Mrs. C. W. Brown left Friday evening for California, where they are visiting relatives.

Goes to Salt Lake—Mr. and Mrs. C. J. Visser left Friday evening for Salt Lake where Mr. Visser was called on account of business.

Inspector Visser—D. J. Elrod, sanitary inspector for the Oregon Short Line, left Friday evening for Pocatello, after a short visit here.

Here From Boise—J. R. Kiehl, representative of the Idaho Power company, arrived Friday evening from Boise and will spend a short time here on business.

Back From Pocatello—Ed Strum, manager of the Strum Clothing company, returned Friday evening from Pocatello where he spent a short time on business.

Here From San Diego—Miss Mary Lynn arrived Friday evening from San Diego and will spend some time visiting her mother, Mrs. J. Miller, and her aunt, Mrs. L. M. Huxley.

Warehouses Being Numbered—Warehouses situated along Oregon Short Line spur tracks are being numbered in order to facilitate delivery of cars by crews in the switching yards here.

Safety Agent Visits—W. L. Hill, safety agent for the Oregon Short Line, left Friday evening for headquarters in Salt Lake after spending a short time here in the interests of the railroad here.

Engineer Leaves—T. W. Alford, engineer in charge of the Oregon Short Line, left Friday evening for Pocatello, his headquarters, after transacting business in behalf of the railroad here.

Medical Officer Leaves—Dr. A. J. Campbell, member of the medical corps of the federal government, left Friday evening for Los Angeles, California, after spending a short time here on business.

Here From Ogden—Paul Kier, formerly with the Ogden Laundry, left Friday evening for Los Angeles, California, after spending a short time here on business.

Called to Boise—Mr. and Mrs. Allen Casey and Mr. and Mrs. Charles Casey left Friday afternoon by way of the overhead route for Boise where they will attend to business.

Salesman Detained As Yegg Suspect

A traveling salesman and wife reported to have been arrested by the Boise police, were detained for a time Friday at Harston for investigation in connection with the investigation of a robbery of a store at Buhl last Wednesday night.

He was released when he gave the police a satisfactory account of himself, and exhibited letters and papers in support of his statements.

Investigators were especially interested in discovery of fragments of a broken safe lock found in Dilson's possession. He explained that the lock had been given to him by the sheriff at Burns, Oregon, and that he was going to provide a new lock.

His statement was confirmed by the Oregon sheriff in reply to inquiry sent from here by wire.

No clues were uncovered Friday evening in apprehension of the law. The man who broke into the safe at Buhl and got away with approximately \$150 in cash and about \$200 in merchandise.

Mercury Stops at 51 for Day's Low

Forecast for today—Fair. Maximum temperature here yesterday dropped several degrees below the high mark recorded for the two preceding days stopping at its lowest point at 51. Low for the day was 51 which is the highest minimum temperature recorded here this year.

A strong wind was in evidence most of the day. Thunder clouds hovered in the southern and western skies and tended to convey the impression that the valley is due for another rainstorm.

FOX FARMS START HERE

A. H. Dewar, representative of the Fox-G-Lar company of Seattle, extensive raisers of fur bearing animals, and operators of several fox farms in the northwest, Friday announced the purchase of a ten acre tract of land here in the Orelana tract for the establishment of a fox farm.

Dewar stated that about \$10,000 will be spent in the immediate future in preparation for the accommodation of 100 foxes which will be shipped in this fall.

ADMINISTRATOR DEMANDS SHEEP MAN'S PROPERTY

T. C. Bacon, administrator of the estate of Ernest Philby, deceased, indicated last in district court here Friday against H. P. Sweet, former owner of Philby, for possession of Philby's personal property, including bank books and deposit slips, showing deposits totaling \$13,100 in banks of Halley, Shoshone, Pocatello and Twin Falls.

Philby had been employed for many years in sheep camps in this region. He was survived by no known relatives in this country.

The complaint was filed by Stephen and North, attorneys.

Endeavorers Open Kimberly Sessions

"KIMBERLY, April 30 (Special to the News)—Nearly 100 delegates and visitors at the opening session of the Northern Idaho district conference of the Christian Endeavor society in the Catholic church here today.

After the opening session, an evening held an inspirational address delivered on that occasion by Rev. Arthur O. Pearson of the Presbyterian church in Twin Falls. Mr. Pearson spoke on "Personal Conversion," and emphasized the thought that conversion is a matter of the heart.

That if any man fails to realize properly it is his own deterioration of the whole.

Devotional services were conducted by Rev. H. C. Shropshire of Rupert, Idaho, which were held on Sunday and Monday, are presided over by Miss Edna Mae Chapin of Kimberly, president of the district organization.

Discussion of "Our Aim," reports on committee work and a business session figure in the program for Saturday, which will be held at 8:15 a. m. Luncheon will be served at noon. Kenneth Houghland of Twin Falls will be toastmaster at a banquet Saturday evening, and the speaker for the evening session will be Rev. E. H. Shoup of the Christian church of Kimberly, who will discuss "Fidelity to Christian Endeavor Principles."

During the day the delegates and convention visitors will be addressed by Mrs. Eva J. Smith, missionary in India, and Mrs. Evelyn Browne Hancock of San Francisco, Pacific Coast secretary of national missions for the Presbyterian church, who attended and addressed an annual meeting of the Twin Falls Presbyterian Women's Missionary society in Twin Falls this week.

Dog Owners Stage Rush for Licenses

Licenses for 202 dogs had been procured Friday evening when the time limit for licensing dogs in Twin Falls for 1926 expired. The city clerk's office has kept busy all day Friday issuing 1926 dog licenses to eleven hundred applicants. Under rule of the city council calling for strict enforcement of dog license regulations, owners of dogs in Twin Falls who are not provided with 1926 license tags on Saturday, and thereafter, will be liable for payment of fine as well as for the license fee.

Several owners of dogs who expect to move to the county at the end of the school year in about three weeks have been advised to secure licenses for the current year or move their dogs to the county at once.

"House" and "Home"

A house is only a roof and four brick or stone and posts and sills, but a home is built of loving deeds and enduring associations that last throughout the years. A home, though only a humble cottage, may within its modest walls hold a home, like a priceless gem in a ring, rich in affection's eternal gold.
