TREASURY PAYS REGULAR BILLS WITHOUT HELP

First Time Since War That
Quarterly Financing Trans-
actions Have Not Required
Special Issue of Securities.

(By the Associated Press.)
WASHINGTON, June 15.—Payment of \$77,785,127.40 for foreign nations on account of war debts today aided the treasury in retiring \$230,000,000 in maturing securities.

The second installment of income taxes due today and balances already on hand permitted Secretary Mellon to complete the regular quarterly financing transactions without the aid of a new issue of securities for the first time since the war.

The total of collections received from income taxes for this quarter is expected to reach between \$300,000,000 and \$400,000,000, but the total will not be known definitely for several days. This payment will serve to determine the surplus with which the fiscal year ending June 30 will be closed and will be a gauge also as to whether early tax reduction is in prospect.

Largest Contributor.
Great Britain, making its usual annual payment of interest on its debt, was the largest contributor to the day's receipts with \$47,550,000.

All of this was paid on the short term securities of the United States government which matured today and therefore reduced by that amount the total necessary for the treasury to retire.

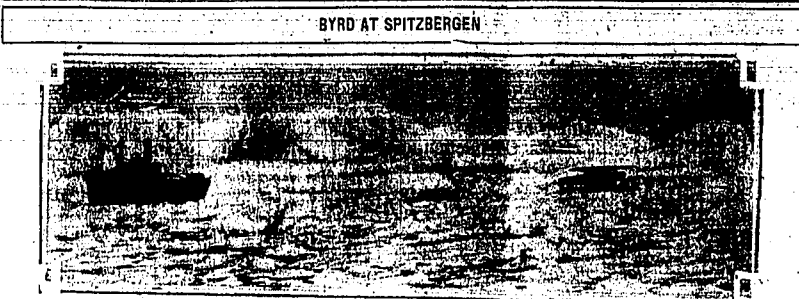

Italy made its first payment \$500,000 under its debt agreement recently ratified by congress. This also was paid in United States securities, \$4,150,000 in first liberty loan bonds and \$500,000 in the short term securities matured today.

Some Cash Payments.

While these payments automatically went toward debt retirement since they were made in securities of this government, the other nations making debt payments today paid in cash but most of this also is required by law to be used for retirement of the war debt of the American government.

The following cash payments were made:

THE DAY IN WASHINGTON

President Burns of Haiti was at White House luncheon guest.

A Senate vote on the McNary farm bill moved as debate was continued.

Congress sent the \$165,000,000 federal aid bill to the president.

Complete collapse of the American economy was feared by officials.

Treasury received \$77,785,127 in war debt payments from foreign nations.

The waste confirmed the P'Young and Myers shipping board nomination.

A favorable May trade balance of \$28,000,000 was reported by the department of commerce.

Dismissed Dean of Women at Pocatello School in Politics

Mrs. Maude E. Dayton, After 17 Years' Service at Tech, Enters County Race.

POCATELLO, June 15. (AP)—Mrs. Maude E. Dayton, recently dismissed dean of women of the Idaho Technical Institute (ITI) for nomination to the office of county treasurer on the progressive ticket here today.

In a lengthy statement Mrs. Dayton charges her dismissal, after 17 years of service, for her activity in behalf of a one-year course at that institution.

"It is with sadness and regret that I have witnessed the recent efforts to throttle the school," she says.

"I feel that a most corrupt political ring is behind this organized campaign of persecution, and knowing this, I decided to play my name on the third party ticket for this office."

Watson Stumps Road.
Rehearsed for a third time, Watson temporarily stumped even such a cross-examiner as Senator Bland, but finally overcame the \$25,000 personal contribution which he made to the Vero campaign resulted from "accidents" to his business.

He explained that he did not give a check, because he did not want it to appear that he had contributed a sum.

Leaving no doubt that he was proud of the work he had done, Markey denied pre-campaign charges of the Vero Fiber factory that there would be no work for Vero in its strong hold, Philadelphia, and told the committee that "the delinquency of votes is unknown in Pennsylvania."

The measure was immediately dispatched to Ambassador Coughlin's office.

CABINET SENDS MESSAGE.

SANTIAGO, Chile, June 15. (AP)—The cabinet today decided to send a message to the Chilean ambassador at Washington, requesting him to inform the United States government that Chile has terminated its obligation to abide by the good offices of the United States in the Tacna-Arica negotiations.

The message was immediately dispatched to Ambassador Coughlin's office.

SENATE NEARS FINAL VOTE ON FARM AID BILL

Supporters of McNary Measure
Aroused by Outspoken Criticism of Secretary Mellon;
Limit Debate to 30 Minutes.

(By the Associated Press.)

WASHINGTON, June 15.—With supporters of the McNary farm bill plainly aroused by Secretary Mellon's outspoken criticism of its provisions, the senate played along today toward a final vote on the measure with debate limited to 30 minutes on the bill and 15 minutes on amendments for each senator.

Several champions of the proposal, including the Hagen bill, recently turned down by the house, remained in their offices during most of the day's session to prepare replies to the views of the treasury head, made public yesterday, and indications were that his mind would be changed by various senators before a final vote is reached.

Letter in Record.

After Senator Veto, of Ohio, floor manager for the republican opponents, had invited in the congressional record the Mellon letter to the group of house members who had requested his review, Senator Simmons, democrat, North Carolina, an advocate of the bill, inquired if all departments of the government were "aligning themselves against this measure."

When the Ohio senator replied that he had "no information," Senator Simmons remarked that "probably this is a movement for the purpose of bringing the consolidated interests of the administration and all the departments against this bill."

For a while this farm relief also was under a cloud in the house. Representative Hagen, democrat, Missouri, declaring the bill for an equalization fee was not "dead," although it had been defeated in the house. When the farmers understand the principles of the bill, he added, they will be for it.

As the senate continued with debate, Senator Mayfield, democrat, Texas, offered an amendment for the repeal of section 15, the ruling making provision of the transportation act, which he declared would bring immediate relief to the farmers.

He said the president's agricultural commission had recommended revision of freight rates more than a year ago, but that nothing had been done and the farmers are continuing to suffer under the "withering and paralyzing effect of section 15."

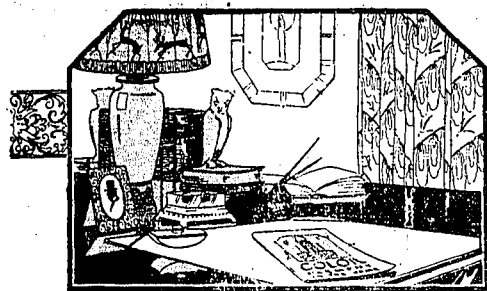

Asked by Senator Borah, republican, Idaho, if the cotton planters wanted the equalization fee, he said he did not know, but that the club represented the agricultural thought of the state.

Late in the day, Senator Norbeck, republican, South Dakota, obtained unanimous consent to disregard the debate limit and for more than an hour appealed for aid for the wheat farmers of the northwestern. He warned that if they were not given the benefit of the tariff they "would tear down the tariff wall as Napoleon tore down the pillars of the temple."

BUYING SEEDS GRAIN UPWARD

Corn and Wheat Values Move Higher on Commission House Purchasing; Smaller Supply.

CHICAGO, June 15. (AP)—Commission house buying on a large scale in the late dealings today pushed all grain values upward on the basis of trade. Final figures for wheat showed a gain of half a cent. Corn finished 5-8 to 1-16, oats 5-8 to 3-4 higher, and provisions 3 to 3 1/2 above yesterday's close.

Wheat values reached their highest levels shortly before the final going. Free buying of the day delivery by speculators on the heels of commission house buying on an earlier basis, found offerings scarce and the market ascended rapidly.

Although there was nothing outstanding in the area early, later reports told of the probability of delay in harvesting in Kansas and Texas, because of rains. A report also was received from an eastern exporter, which said the situation in France was critical with a possibility of a crop disaster. Added to all this, the Canadian wheat supply figures showed a decrease of 4,230,000 bushels.

Corn shorts also covered near close inducing some outside demand and causing a stronger tone. Oats, which had slightly lower early in the day, followed later in the wake of wheat and corn.

Hay, credited to cash industries and packers gave strength to provisions.

EARLY DAYS IN IDAHO MOTIF FOR PAGEANT SCENES

Pioneer Settlers Work Out
Plans for Part in Twin Falls
Celebration of Fourth of
July:

First settlers of southern Idaho and of the Twin Falls country will enter in the pageant parade that is to be an outstanding feature of Twin Falls' celebration of the Fourth of July, a number of floats depicting pioneer incidents and experiences.

Plans for their part in the celebration were outlined by a number of the pioneer settlers at a meeting Tuesday evening in the chamber of commerce offices with E. L. Ashton, chairman of the celebration, and L. V. Borg, chairman of the committee.

At least two floats, two stage coaches, a freight wagon and possibly an ox cart will be entered in the parade.

One of these floats will represent the work of the engineers in advance of the building of the Twin Falls irrigation system and the activities of the Twin Falls Investment company which conducted the sale of Twin Falls city lots and lands under the canal system.

The other float suggested by ex-lieutenants James H. Beavert, will carry a "pioneer" shack in the center of a swirling Idaho dust storm.

Call on History Makers.

Servicing officials of the investment company including L. R. Berg, co-founder of the Twin Falls country, George F. Spague and S. T. Hamilton of Twin Falls, will be invited to appear on the first float, along with engineers who had part in the working out of plans for the irrigation system including Paul S. A. Baker, John McDonald, S. A. Shubert and D. E. Clark of Twin Falls.

Carl G. Meigs, former Twin Falls mayor who in the early days piloted a freighter's wagon across the canyon from the railroad to the new town, will be invited to drive the freighter's wagon on this occasion, it was suggested.

Surviving pioneer residents of south Idaho, who were citizens of Idaho before the Twin Falls country came under the quickening influence of irrigation, should be invited to ride in the stage coaches, it also was suggested.

Plans outlined at the meeting Tuesday evening are to be taken under consideration for a day or two, and a subsequent meeting is to be held to work out final details.

Planners who attended the meeting Tuesday evening were Mrs. A. D. Van H. O. Miller, John McDonald, S. T. Hamilton, George F. Spague, Carl G. Meigs.

Celia Dawson to Serve Jail Term

Celia Dawson, former Twin Falls housewife, convicted in United States district court in Boise last fall on charges of conspiracy to violate the Mann act, will begin to serve six months' term in Twin Falls county jail.

Mrs. Dawson, who has been living for some time in Nevada, was in Twin Falls Tuesday and was advised at that time by Sheriff M. E. Finch of the arrival of the commitment to her regarding her term in the jail term.

Her husband, Paul Dawson, convicted on the same charges, is serving term of 18 months in the federal prison at McNeil's Island.

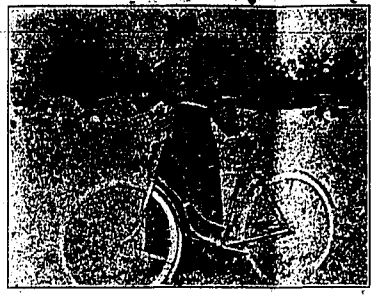

DEATHS

McCLAIN—Funeral services were held Tuesday at Eden for Barbara McClain, two days' old daughter of Mr. and Mrs. Robert McClain, whose death occurred Monday. Interment was in the Twin Falls cemetery.

WEBB—J. W. Webb, 75 years old, resident of Twin Falls, for several years and for some time actively associated with the Salvation Army corps here, died Tuesday morning in a hospital here. Death was attributed to effects of cancer from which he had suffered for a long time. He was removed to the hospital last week from the nursing home at Twin Falls, where he had been nursing since he was taken to the Blue and Company mortuary. Completion of arrangements for funeral services awaits receipt of word from relatives in Utah.

AGE NO BARRIER

M. V. BAKER, 84 years old, took part in a "Safety First" bicycle demonstration in San Mateo, California, conducted by J. Howard Rodda, representing the Cycle Trades of America, who is here to stage a similar demonstration in Twin Falls. Rodda has had them out ranging from three and one-half years to 80 years of age. An old timer's division in the bicycle parade here has been suggested.

BICYCLE COMES INTO SPOTLIGHT

Fine Array of Prizes for Cyclist's Parade to Draw Riders from Miles Around.

The good old faithful bicycle is expected Saturday to occupy a commanding place in Twin Falls' spotlight, when a real enthusiastic bicycle parade will be staged. That it surely will be ushered back into its rightful heritage with much gusto is evidenced by the fine array of prizes gathered to serve as a magnet to draw into the event every cyclist from miles around. The prizes range from a large attractive silver loving cup down to the useful bicycle bell, with a couple of gold watches included. The principal prizes have been placed on display in an Idaho Department store window.

The parade and subsequent rally of cyclists has been arranged by the local bicycle dealers in cooperation with J. Howard Rodda, representing the Cycle Trades of America, of New York, and will start at Main avenue and Third street east and after parading Main avenue will return to that point.

It will be a combined available bicycle ride and decorated wheel parade and is open to all who have bicycles and can ride them.

Open To Everyone.

The fundamental idea of the event will be to interest and secure the participation of all bicyclists, young and old. It will be open to everyone, from the smallest kid, who has mastered the art of preserving his equilibrium on the two-wheeled machine, up to the oldest man and woman who wishes to demonstrate that he or she has not forgotten the accomplishment of youth.

Rodda travels all over the Pacific states preaching the gospel of good cycling, educating young folks into the proper way to ride a bicycle for health and pleasure, and giving lectures on the current cycling as well as status on road department. All these will be given at the end of the parade Saturday.

Prizes In The Parade.

The parade will have its starting at the Main avenue and Third street east through the courtesy of Chief of Police H. E. Leighton. Here the prizes will be given to the riders in different classes such as riders with decorated wheels, oldest and youngest rider, comics and others. The results in uniform making a most impressive and the schools with the greatest number of riders in line, will also compete for awards.

As a concluding feature to the parade and subsequent rally of cyclists has been arranged by the local bicycle dealers in cooperation with J. Howard Rodda, representing the Cycle Trades of America, of New York, and will start at Main avenue and Third street east and after parading Main avenue will return to that point.

It will be a combined available bicycle ride and decorated wheel parade and is open to all who have bicycles and can ride them.

bicycle rally, riding on a plank 120 feet long, six inches wide and one inch high, a novel and exciting event, will take place in which all riders may compete with perfect safety. Three prizes will be given for the best performers on the plank. The first will be a gold watch valued at \$25.

There will positively be no racing allowed along the route of the parade and all riders will be expected to observe the rules of the road. There is no charge whatever to get in the parade and all that is needed is to have a bicycle and an inclination to ride it.

It looks like a big comeback for the bicycle and Saturday will be bicycle day in Twin Falls.
