Conservative Estimate of Damage Is Eight Millions; More Than 75 Boats Sunk or Destroyed as Hurricane Strikes.

(By the Associated Press.) More than 150 persons were believed drowned, damage estimated conservatively at \$8,000,000, and more than 75 boats sunk or destroyed between Monday night and Tuesday morning in the most destructive hurricane recorded in the Nassau and the Bahama Islands.

Nassau, the heart of the damage in the storm, was hit by the eastern end of the Caribbean sea, wrecking houses throughout the entire British group.

Many homeless. With many families homeless, her beautiful dunes littered with smashed glass and masses of debris, all public utilities paralyzed, the islanders' efforts for alleviating her own plight resulted in dispatch all available craft in search of the picturesque young fleet, many of her own boats and 200 small boats and sailboats.

The majority of the 150 persons missing are members of the Nassau fleet. The line of ships fled out of Nassau Friday morning for the famous beach, lying along the submerged land of the western rim of Andros Island, the largest lake of the Bahamas.

Yacht submerged. When the storm hit, about 100 yachts were in the harbor. When the storm hit, about 100 yachts were in the harbor.

SHERIFF BRINGS IN RESISTING OFFENDER

A young man who gave the name of Charles J. Anderson is a prisoner in the county jail awaiting hearing on charges of resisting an officer, growing out of a violent altercation that occurred Thursday afternoon on the roadside at the sheriff's home northwest of Twin Falls when Sheriff M. E. Finch arrested the accused man on charges of being intoxicated on the public highway.

Anderson, according to the sheriff's account of the affair, when advised that he was under arrest, struck at the sheriff, landing a right blow on the ear. The sheriff, retaliated with a blow with an empty bottle that he had taken out of Anderson's pockets while Anderson lay in slumber at the roadside. Two other bottles that were not empty also were brought in with Anderson by the sheriff.

Anderson is a salesman for a particular concern, and has been traveling in this region for several days.

Similarly thousands of persons flocked to the shrine of the Virgin of Guadalupe, all the more tending to it being jammed with trading pilgrims. FOUL BALLS
By Pudge

Today's day, today, at 5 p. m. Let's see out there to give the Bruins a good welcome. They are here for a long stay and we have a couple of strangers to look over.

That was a tough one to lose and it must have been the bunnies that did it. The Bruins outfit Al Bonner's crew and it looks like big Pete was pitching all okeh.

Notice that new third sacker got three bingles, on a two-bagger. He has hit in both games and is beating out his rep as a sacker.

Zamloch went hitless yesterday for the first time in many a moon. Must have been a new experience in the slapper.

That drops the Bruins down to third place but only temporarily. We ought to take three from Pocattello and six from Ogden. Of course that won't happen but then stranger things than that have happened.

Anytime we get to a ball game over again. Six days is a long time without a ball game.

At last, the Collegians' long ball event and his gang to a cheering if he began to look as though they never would lose a ball game.

Reduced Estimates of Canadian Crop and Unfavorable Weather Send Values Up.

CHICAGO, July 29. (AP)—Seasonal reduced estimates of the 1926 wheat yield in the Canadian provinces, brought about a lively upturn of wheat values today. Closing quotations on wheat were about virtually the day's top figures, 2 1/2 to 2 3/4 cent higher, from 1 1/2 to 1 3/4 up, with uncontracted, 1 1/2 to 1 3/4, and provisions varying from 2 1/2 to 2 3/4 to the gain.

The upward Canadian crop estimate came from a leading Chicago factor who has made an extensive tour of the spring wheat belt and who says that weather and insect attacks in Canada have greatly curtailed wheat prospects in the last month. His forecast is much below any other recent figures, and is roughly 100,000,000 bushels less than was harvested last year in the Canadian territory referred to. According to this authority, the three million bushels which this year is not to exceed 220,000,000 bushels—Montana 25,000,000, Idaho 10,000,000, and Alberta 48,000,000.

Higher Quotations
An unexpected rise in wheat quotations at Liverpool contributed to further strength to the wheat market here. The wheat weather was not so good as the weather which had been reported from Canada, and the forecast was for fair and warm conditions there, undesirable at present. Meanwhile, export business to London amounted to 200,000 bushels, the premium paid for wheat at the Gulf of Mexico was relatively to a lower level. Vancouver wheat quotations for 250,000 bushels to be shipped from Chicago to Buffalo.

Unfavorable crop reports from Texas and Illinois, together with high temperatures and lack of rain in various parts of the corn belt, gave farmers to the corn market, demand for corn being less than usual.
