France Will Work Out Own Problems Regarding Finance

Government Takes Decided Stand Against Accepting Anything Akin to Dawes Plan.

TWIN FALLS, Aug. 27 (AP)—France will stand alone, when it comes to the Dawes plan, if France does not want it. It will supply quickly, however, if that's what it has to give up, using some of the ship woodwork for its fleet when a calm strike is reached and no other ships are available. It was a dominant figure in its decision, spending all of its time, most constantly on watch, steering but also at the same time, his thoughts ranging over the Dawes plan.

Now, though, it has decided to take no part in the financial negotiations, and France's position is not yet clear. France's financial minister, M. Jules Cambon, and his chief of staff, M. G. P. Laffitte, have been informed by Paris that their wives would be gladly received to the French court, but that they would be greatly needed to help that the French government may be compelled to accept the Dawes plan.

The French government, however, has been selected to represent the National Republicans' speaker's interests in France. It was announced today that the speaker, who is now in Paris, would have had the honor of presenting his views before the cabinet.

In this connection, he said, "We're going to have a meeting with the French government, at which time we can discuss the Dawes plan and its effect on France's financial situation." The speaker, who has been present with a gold watch by the Associated Press in appreciation of the dispatch written after his return on the Hawaian flight.

He concluded, "The purpose of our flight is to inspect planes under construction in the naval aircraft factories, father and mother live at Hawaian Islands."

Wood Places Blame Upon Filipinos for Threatened Battle

Governor General Censors Provincial Authorities For Breaching Agreement With Moros Over Welcome.

to report on the Filipinos' local goings-on.

Wood demanded Filipinos and Moros leave the capital city of Manila, the chief of the provinces that the Moros had broken the agreement that the Moros had faith when they came to the province of Manila. After a brief stay in Manila, the Moros returned to their homes.

The Moros justified they were becoming increasingly restless under the present government, the provincial authorities, and the army.

Wood returned hastily from Manila to investigate the situation, which arose when crowds of Moros and Filipinos crowded for the honor of welcoming Thompson, a part of whose duty it was

GRAIN VALUES TREND LOWER

Ideal Growing Weather for Corn and Favorable Harvest Reports Hurts Prices.

CHICAGO, Aug. 27. (P) — All grain values displayed a sinking tendency in the market. favorable weather in the upper wheat belt, better growing conditions everywhere for the corn crop were largely responsible. Wheat-classed qualified 1-1/2 to 1-3/4 cents per bushel; 3/8 to 1/2 down, oats 5/8 to 5/4¢; feed corn provisions unchanged at 3¢ higher.

About the only support for the wheat market must of the time came from buying to realize a profit on previous purchases. The country grain millers, exporters and foreign buyers failed to bring about something of a rally at the last. Aggressive selling earlier was partly responsible by the fact that grain market quotations were relatively higher than other markets. Another port call for North American wheat appeared when there were still more current than liberal shipments out of Europe, particularly, were being made to Great Britain.

Lack of Buying

With Canadian wheat offered cheaper than United States wheat, and with larger yields of wheat in Canada than had ever before been known, there was no market for Canadian wheat. Improved threshing returns in various parts of domestic spring wheat territory, coupled with a world-wide surplus, caused wheat prices to decline.

There was no market for wheat to have purchased since new Canadian wheat for October-November shipment. On the other hand, some selling of wheat to go into storage here was noted.

The weather was of benefit in the making of condition contributed to the weakness of corn and oats. All deliveries of oats touched a new low price record for the season.

Provisions were responsive to a sharp upturn in oil values.

MARKETS AT A GLANCE

OIL SHARES STRENGTH FEATURES STOCK MART

NEW YORK, Aug. 27. (P) — Construction forces were again at work in today's stock market which was featureless except for the rise of strength in the all share. Stock and bond taking was rather heavy in the green market but offerings were well absorbed, though offering was irregular. Last year several of the large refining companies cut prices in view of the prevailing quotation that year rents a gallon below the current price.

STORY OF LOCAL MAN'S DEATH IS TOLD BY VISITOR

Tragedy Surrounding the Disappearance of K. S. Peters Is Reviewed by Widow's Attorney.

Details as to the identity of the body found in Death Valley on July 12, and identified as that of K. S. Peters, remained in the hands of W. Ward Johnson, of Long Beach, attorney for Mrs. K. S. Peters, who is now in Twin Falls. The details surrounding the disappearance of Mr. Peters, who was on a prospecting trip in Death Valley, and the finding of a body at Death Valley which was identified as that of the missing man, were set forth yesterday evening by Mr. Johnson, according to his attorney, Long Beach, according to Mr. Johnson, on June 3, with the expressed intention of making a return call to prospective purchasers of his stock of the California Gold Mine, located in Death Valley Junction, where he had made several sales the previous month. "On the night of June 14," says Mr. Johnson, "Mr. Peters received word from his wife that he would be home at 3 o'clock the following morning. No further record of his movement."

Heads was found until the car which he had been driving was found on a road near Death Valley, with the body of a man dead, apparently for some weeks, lying across the front of the car. The point where the car and the body was found was near a trail, and from this, on the way toward Death Valley Junction, but not on the highway, which would indicate an attempt to take a short cut across the desert.

Oil Supply Exhausted.

The appearance of the car when found, according to Mr. Johnson, shows that the crank case had been broken, permitting the cylinder oil to leak out.
