

NO ACTION ON DIBBLE PLANS

City Council Re-cesses After
Three-Hour Session; To Re-
draft Original Contract.

Final action on the contract to be taken by the Twin Falls city council relative to proposals submitted by Harry Dibble, electrical engineer, for the construction of a municipal power plant on the Clear Lake site will probably be determined this evening when officials convene after a 2 1/2 hour recess. A bill was introduced by Mr. Dibble to amend the original contract and embody such changes as were agreed to by both parties last evening.

Proposed Rate Schedule.
One of the most interesting phases of the Wednesday evening session was the introduction by Mr. Dibble of a rate schedule that will be in effect should the city council and electrician accept the contract for the construction of the new power plant. This schedule will be the rates for the city and interests represented by Mr. Dibble will be as follows: as compared to the present rates of the Idaho power company, the residence lighting there will be a reduction of 25 per cent, which will mean a saving of \$11.25 per year for each family during the course of one year; commercial lighting will be reduced 50 per cent with an annual saving of \$10.00; municipal, incandescent street lighting will reduce the present amount for that purpose against the taxpayers to the extent of 25 per cent, with an annual saving of \$30.00; and high and low voltage power will be reduced 25 per cent, saving approximately \$10.00.

Checks Specifications.
E. V. Reed reported that he had checked the specifications for the power plant. Mr. Dibble's contract had been found correct, and it was the general opinion of the commission that Mr. Reed's opinion was sufficiently correct.

The question of whether or not Mr. Dibble's interest would be in the city's cost in taking the steps incident to and including submission of the contract, and approval of the contract, should the decision of the people be adverse was raised by J. K. Kuhl, Councilman.

The extent to which the former will be liable will be determined today by counsel for both of the parties.

Question as to whether or not it would be possible for the city to condemn property for the power plant was raised by Mr. Reed, also. Opinion was expressed that it would be possible for that to be done.

Definite action of the traffic problem, which was to have been settled last evening, was postponed, due to delay in receiving information requested by Mayor E. L. Ashby from officials in Idaho and Seattle. It was thought by the council that this matter would be ready for disposal at the regular meeting next Monday evening.

REPORTS EARLY BEAN HARVEST

First Shipment of Beans Is
Two Weeks Early; Quality
Higher, Yield Less.

Approximately two weeks in advance of last year's shipping date the first shipment of beans of the season's shipping has been dispatched by the Southern Idaho Bean Growers' association, according to J. C. Hootney of the Southern Idaho Wholesale Grocers' association. In 1925 the first crop was shipped on September 15, and in the previous year on September 11, whereas this year August 31 marks the beginning of the season's shipping.

The quality of the beans this season is excellent, Mr. Hootney stated, but the yield will be considerably less than last year. The first shipment of beans, which was shipped on August 31, consisted of 18 bushels of beans, which were shipped to the Southern Idaho Wholesale Grocers' association, and the remainder of the crop will be shipped to the same association.

Miles Browning, who with his son J. E. Browning, are now in Twin Falls completing arrangements for the transfer. Both have previously been connected with the Idaho Falls branch. The former will be permanently in charge hereafter in Twin Falls. "You will remember," said Mr. Browning yesterday, "that we were in the auto business here some time ago and all I can say is that we are glad to again be back in Twin Falls. My company has made an investigation of the possibilities and prospects in this section and the best evidence that I can offer as to the results of our findings is that from now on we are going to be permanently located with you."

Mr. Cassy of the Cassy Parker company states that his company will continue in the implement business at

"Parents try to do their best, maybe, but I wish they knew how important it is to wake up a boy if there's a dandy fire down town at night."
