The technique to a still higher level may result from the new restriction imposed on the aerial game by the football rules committee, in the opinion of Charley Erb, Idaho grid man.

The rule, which provides for a five-yard penalty on the second down if the punter is fouled, will, however, make little difference, if any, Erb believes.

The new rule, Erb says, will stay in the game, he said.

THE LAST FRONTIER

A tremendous western picture that will thrill every motion picture lover—A superb visualization of early-days-on-the-frontier—The best screen Romance of the season.

You don't know what you're missing!

It's the only one way you can know the joys of a jimmy-pipe packed with Prince Albert... smoke it! Nothing your friends may tell you, nothing you may read, can possibly give you the correct picture. If you don't know P. A., you're on the outside looking in.

Buy a tidy red tin today. As you throw back the hinged lid, revel in that rich fragrance. That's tobacco Tamp a load into your pipe and light up. Get that wonderful P. A. taste. Cool as an ocean breeze! Sweet as an unexpected legacy. Delightfully mild.

Mild, yes, but with a body that satisfies your smoke-taste to the full. The one tobacco that you can just keep smoking from morning till midnight. No other tobacco is like it. You can prove this in five minutes. Make the personal test today!

Be skeptical. Challenge Prince Albert to give you the best all-round session you ever had with a pipe. No matter how set you think you are in the matter of smokes, try P. A. It will revise all your notions of how a pipe can perform when put on the right diet.

TREE SPRAYING DISTRICT PLAN MEETS BARRIER

City Attorney Makes Adverse Report on Proposal for Combating Insect Pests; Douglas Renews Sidewalks Demand.

A plan proposed by Ralph H. Smith, commissioner of streets and waterworks, for establishing a tree spraying district for the purpose of spraying shade trees in Twin Falls encountered an apparently insurmountable legal barrier when Frank L. Stephan, city attorney, submitted an opinion on the subject at a regular meeting of the city council Monday evening.

Among legislative powers given by law to cities, the attorney pointed out, is the right to "cause to be planted, set out and cultivated shade trees along the lines of streets or thoroughfares." However, he stated, he believes that in cases where owners of city property have planted and cultivated their own trees in parkings they have no authority to require that they would preclude the right of the city to make owners thereof liable for purchase of spray which, of course, was contemplated by the council in the event the local improvement district were formed.

However, he stated, he believes that in cases where owners of city property have planted and cultivated their own trees in parkings they have no authority to require that they would preclude the right of the city to make owners thereof liable for purchase of spray which, of course, was contemplated by the council in the event the local improvement district were formed.

A resolution extending to the Oregon Short Line the privilege of extending a switch track across Second street and along the front of the west front of Second and Third streets was adopted by the council after the city attorney had advised that preliminary steps in regard to the extension of notice of the application and the proposed extension of the council had been completed with the exception of the demand for an order of the council to require the railroad to vacate the street sidewalks on Second street south of Main avenue and the depot to the city limits.

T. J. Douglas, commissioner of public grounds, renewed at this session his demand for an order of the council to require the railroad to vacate the street sidewalks on Second street south of Main avenue and the depot to the city limits.

Petition for removal of lots 10 and 11 in block 131, facing block street, the limits were removed and added to the lots in question face on Fourth avenue west and are owned by James Walker. The petition was presented by six owners of property in the block on immediate vicinity of it.

Bill in the sum of \$773.65, including collector's charges, were ordered paid.

Court Grants Plea of Mother for Son

Recent arrest of 17-year-old boy, who was convicted in district court here last week of forgery of a check after plea of insanity had been made in his behalf, was sentenced Monday by Judge W. A. Babcock to serve an indeterminate term from one to 14 years in the state prison and was admitted to parole to John H. Adams county, pending appeal.

Petition for parole was submitted by Mrs. Sarah Norris, mother of the young man, and a plea in his behalf was made by E. V. Larson, his attorney.

Norris was convicted of forging the name of P. E. Frost to a check for \$7.50 which he cashed at the Riley millinery store in Twin Falls. The check in question, according to the officers, was one of a number of checks that had been issued by Norris.

JURY DISAGREES IN LIQUOR CASE

Six Hours Deliberations Fails to Bring Verdict on Felony Charges Against Mexican.

Justice in district court here late last night had failed to agree on a verdict in the case of Jose Martinez, Mexican proprietor of a pool room in Twin Falls, charged with the felony charge of illegal possession of liquor after prior conviction. Trial occupied the entire day in court and the case was set for the jury at about 5 p. m. Jurymen retired for the night with no agreement in sight for six hours later.

Martinez, whose testimony was translated by Frank Pico, interpreter, denied that he had any knowledge of a certain bottle of medicinal whiskey which had been found in his possession.

COURT RULES IN WATER DISPUTE

Calls for Additional Testimony in Action to Restrain Changing Diversion Points.

The supreme court has declined rehearing in the case of George Creek and others against Henry Jones and H. Turner, who seek to have their water rights, in which the supreme court rendered its decision last spring, and has ordered that additional testimony be taken and remanding the case to the district court here for introduction of additional testimony.

The action was brought to restrain Jones and Turner from changing the point of diversion of 60 inches of water decreed to appellants above the former diversion point, Jones and Turner appealed from the district court judgment, granting at present a permanent injunction changing the diversion point.

The supreme court's request for additional testimony was granted and the court has set forth as follows:

The lower court in its majority opinion in this case, that under the pleadings in this case and on a hearing on the question of whether or not the appellants should be allowed to change the point of diversion, further testimony should be taken for the purpose of showing the effect of the diversion of 60 inches of water decreed to appellants. Jones was supplied from springs arising within or adjacent to the land of George Creek above the point where the waters heretofore have been diverted or are diverted at the time the subsequent diversion point was established.

Water rights involved in this action, the supreme court points out, were not changed by the decision of the court in the Twin Falls irrigation system, and the physical conditions are somewhat complicated by the fact that the high line canal of that system crosses around and through the lands of the respondents, across Rock Creek channel and is a continuation of the same.

Appellants Jones and Turner were represented by Walters and Parry and J. M. Reynolds.

Police Warn Many Traffic Offenders

Warnings were issued by Twin Falls police to 423 instances of minor violations of traffic ordinances during the month of September, according to a monthly report submitted to the city council Monday by Police Chief J. H. Ferguson. The number of warnings issued on this account is attributable in large part to lack of familiarity on the part of automobile owners generally with the new regulations, which were made effective during the month. Decreases in violations or violations of other ordinances, 35 warnings were issued on account of minor violations of sanitation regulations. These warnings were issued. Total of 99 complaints called for investigation by the police.

Out of a total of 23 arrests during the month, 21 were on account of violations of traffic ordinances, one on account of violation of "change of mind" statute and 10 for misdemeanors under state laws.

Five arrests in police court total at \$25.

Local Gridsters Nursing Injuries

Lynch field resembled a home for crippled last night. Ted Williams and Polizer are both confined to their beds with cuts and will probably not play out all week. Owens and Berg were both on the sidelines with bad arms and shoulders. Anderson was ill in a hall and Hollis Martin was ill at home.

Plays got together a first string, however, using Kampton at center and Blee and Ferrie in the backfield, and sent the boys through a light scrim play. Continual work on the line plays and development of hand hitting were great assets to the order of the day.

The fifth eleven although weakened by graduation losses, as reported strong on for this season and have been taking their early season curriculum by large scores. The Bruins will have a real battle next Friday and a second breaking crowd is expected to attend as both the Hall and Fifer teams will play away from home. The game is called for 7:30.
