SAN FRANCISCO
EMERGES INTACT
FROM TREMBLOR

**Earthquake Shocks Frighten
Visitors but Cause No Damage
Except Some Broken Wind-
ows and Cracked Plaster.**

(By the Associated Press) — SAN FRANCISCO, Oct. 22.—San Francisco residents were awakened today by earth tremors that started from the San Andreas fault, which runs through the city, even the oldest and sturdiest buildings, was injured except for a few broken windows and cracked plaster.

Several hundred persons drove and sought the open spaces, where they remained a short time and then returned to their rooms. The shocks, of which four were felt here, extended from Santa Rosa, 40 miles north, to Pico Rivera, 18 miles south.

The first tremor was registered by the University of California seismograph at 4:30 a.m., the second an hour later, and the third at 4:42 and 4:44. The first was the strongest, and the others of mild intensity, the last not being fully general.

Moratorium in the downtown stores, which were undamaged, were undisturbed and those dealing in claims said that they suffered no loss.

Quake Center to South.

The center of the disturbance was located 50 miles south of here in Monterey county. The first and sharpest shock was of four degrees maximum on the seismograph.

It is believed that today's shocks are vastly different from the frame and brick-city that was largely destroyed in the 1906 earthquake and fire. Steel frame construction, which proved itself immune to the earth tremors, is the chief factor in today's shock.

Idaho Republicans
To Stage Rousing
Campaign Finale

ROISE, Oct. 22 (AP)—Idaho republicans will end their campaign the night of November 1 with old fashioned political rallies in every county, state headquarters announced today. Torch light parades, banquets and speeches are to be featured. Senator Frank H. Gooding, seeking reelection as United States senator, will conclude his statewide campaign that night in his home town of Boise. He has been reelected to a second term as governor, will speak in Caldwell, and Congressmen Burton A. French and Addison T. Smith are scheduled for final addresses in their respective home cities, Moscow and Twin Falls.

Democratic Nominee for Senator Defends Stand on Tariff Issue; Strikes at Opponents.

Former Rep. John F. Nugent, Democrat, one of the three candidates for United States senator scheduled to speak here during the campaign, addressed a well-filled hall in Irish pub here Friday evening. In his speech, he repudiated former Rep. H. E. Gooding, republican nominee for reelection, will address a public meeting here next Thursday.

Nugent, who has been working, which occupied nearly two hours, Mr. Nugent recited and "criticized" the territorial record of his republican opponent. He claimed for himself a measure of credit and an "advantage of a strong and solid" stand in the election campaign.

He declared that he stood with President Coolidge and a majority of the republicans in the country on the tariff issue, which he said, was the main issue in the campaign in Idaho.

Explaining Tariff Stand

Refusing his critics' charge on the tariff, Mr. Nugent pledged himself to fight, if elected, a tariff representing the difference in cost of produced and abroad.

He declared as a "last minute attempt to seize Senator Gooding from down into political oblivion,"

the statements attributed to the republican state organization to the effect that Nugent opposed to the republicans' tariff policy and a free trade advocate.

"The tariff," he asserted, "has not been of much benefit to the farmers because the farmer has learned to depend on foreign markets for his surplus product paid for surplus products very largely regulates the price on the domestic market."

Farm Relief Views

Declaring that he would support any farm relief measure on which the farmers from agricultural states might agree, Mr. Nugent outlined his own plan for improvement of agricultural conditions. The government, he said, should aid farm organizations in providing facilities for storage of surplus produce for early marketing, and should establish a system of warehouse receipts on which farmers might borrow money to meet requirements while holding their crops. He favored the adoption of a law to provide for early marketing of surplus products.

T. J. Lloyd, chairman of the democratic county central committee, presented and introduced the speaker.

Indiana Klan Records Opened for Grand Jury

INDIANAPOLIS, Oct. 22 (AP)—A box weighing more than half a ton and containing 1,000 boxes of Klan records in evidence in the trial of Dr. G. S. Strother, former grand dragon of the Ku Klux Klan, was opened for inspection of the grand jury that is investigating the secret organization.

Officials refused to discuss the contents of the box and the secretary that has surrounded the inquiry prevented spectators from entering the courtroom.

GRAINS SCORE LIVELY ADVANCE

Scarcity of Offerings Lead to
Flurry in Wheat and Corn
Trade; Closing Strong.

CHICAGO, Oct. 22.—(UPI)—Wheat and corn scored a lively advance in price today. Unusual scarcity of offerings toward the last led to something of a frantic buying狂 who had been active during the week. It was evident that an unusual crop forecast for at Winnipeg would prove bullish. Chicago closing quotations on wheat were strong, 2 1/2 to 3 1/2 cents above yesterday's close. Prices were up to 10 cents gain, and quotations varying from the same as yesterday's closing to a rise of 25¢.

The today's buying狂 in wheat closed at the highest point reported for some time, with May delivery touching \$1.50 even. Simultaneously with the rise, Winnipeg advances were cut to 10 cents of a good demand from mills there. The grain dealers' buyers were also impressed that the Canadian crop situation due at this time would show heavy losses on account of recent wet weather.

IDaho's First Bean Inspector Is Named Here

E. V. Gipson of Twin Falls
Chosen to Represent Government in Application of National Standards.

Appointment of Edgar V. Gipson of Twin Falls as the first federal inspector for beans in the state of Idaho was made yesterday by W. E. Barr of Washington, D. C., who is in charge of bean standardization and inspection service of the United States department of agriculture. His appointment is the continuation of negotiations between the state and federal departments of agriculture, entered into for the purpose of making available for the bean products of Idaho the national standards of application of United States bean standards, Mr. Barr stated.

The first carload of beans to leave Idaho under a federal certificate of grade came from the state of Idaho. Many applications for certificates of grade have been filed, Mr. Gipson said, and indications are that over 200 carloads will leave the state during the present season with federal grades.

The certificate, officials pointed out, is a guarantee that assures the buyer of the quality of the bean, and protects the grower from price grading by the buying agents.

Cost of inspection is the same as that applied in potatoes, which is \$2 per carload.

Standards Defined

United States standards of bean cover 10 varieties, of which the great majority are grown in the state of Idaho. Each class is divided into three grades, namely: United States No. 1; United States No. 2, and United States No. 3. The first two grades contain beans in Class U. S. No. 1, those most highly valued, containing more than 90 per cent total splits, damaged beans of other varieties and foreign material. Other beans and foreign material is limited to three percent.

In Class U. S. No. 2, total damaged, split and foreign beans and material must not exceed 4 per cent, with six-tenths of one per cent allowed for other beans and foreign material.

In Class U. S. No. 3, total damaged, split and foreign beans and material must not exceed 10 per cent, with 1 per cent allowed for other beans and foreign material.

All beans under the standards previously named United States Sample.
