Disturbance Centers in North Central Part of State; No Casualties Listed, but Many Towns Get Shaking Up.

(By The Associated Press)

SPOKANE, Wash., Dec. 30.—Violent earth tremors, which sent alarmed persons running from shaking buildings, were reported in a large number of towns in the north central part of the state yesterday. Many residents reported that furniture and dishes in their homes were severely shaken.

## Yakima Affected

The tremors reached the Yakima shortly before 10 o'clock this morning. Employees in various offices in the federal building there reported that their desks and chairs shook and rattled. Some of the more prominent within a radius of five miles from the federal building also reported noticeable shocks.

A shock lasting two minutes was reported at Ellensburg by the seismograph at the University of Washington. Its center was located 30 miles away. A few minutes later residents of Yakima and Wenatchee also reported tremors.

## Shaking Continues

Shaking earth crust shocks were felt here December 1, when western Washington and western British Columbia were visited by earthquakes.

Reports of additional tremors came in rapidly. One report said that a train ran out of the tracks where the tremors started, overturning the rails and rattling rattles.

The tremor that alarmed persons of Washington and British Columbia December 1, was the first tremor at Victoria since 1888. Seismographs in Seattle and Victoria did not record the disturbance.

No damage was reported in British Columbia or Washington from the recent quake.

## VOLOCANIC ACTIVE

DUTCH HARBOR, Alaska, Dec. 30 (UPI)—The volcano of Mount Makushin, southwest of Dutch Harbor, and a huge smoke plume continued to pour from the peak.

Peaks were felt for the safety of residents of Unalaska, a village near Dutch Harbor.

A slight "quake" was noticed here about the time the eruption was first seen.

Mount Makushin, an active volcano 5,600 feet high, is on the northwest shore of Unalaska Island, the largest of the eastern Aleutians. As early as 1902 it was seen to erupt.

The liberal envoy declared that Dr. Sacasa's two armed corps, of 200 men, had been disbanded and that he would not oppose the march of the Liberal forces.

He added: "What they want is to oppose the march of the Liberal forces."

He denied, under oath, of being in the service of the Soviet Union, who recently arrived in Mexico after commanding a fighting unit on the Nicaraguan front, said today:

"The liberals have defeated here, even though we had the assistance of the United States."

**BARGE CARRIES WOUNDED**

MANAGUA, Nicaragua, Dec. 30 (UPI)—The Cuban Front army's secret service has organized a barge fleet to carry wounded combatants. Los Pechos, with 73 wounded combatants, many of them in a serious condition. Some of the soldiers had cut themselves with bayonets while fighting.

Bluffield is described as one huge hospital and the American may doctors will assist in taking care of the most seriously wounded. Killings in both sides are estimated at 500. The net figures can't be obtained. Many of the dead are lying half buried on the beach at Los Pechos.

Authorities received here information that President Diaz said today:

"I have my men ready to land and draw three or four days before the last fire, but on account of poor communication I could not tell you the date of the fighting."

I knew we were surrounded and that the enemy had many more guns and it was useless to fight. So the greater part of the troops withdrew leaving 400 men to cover the retreat."

### Aged Cult Leader To Face Jury on Serious Charges

BENTON HARBOR, Mich., Dec. 30.—Since time after the Panama line of circuit court opens here, Benjamin Franklin Purcell, one-time mail and tunnel wagonman and now eccentric "King of the Hounds of Devil," will be brought before a jury to answer charges during his trial, attended a former young woman member of the cult.

Purcell, 70, was indicted today after completion of his transcript of testimony at the arraignment on charges of his cult leader on charges brought by Mrs. Jessie Woodard.

For the first time here he was surprised by state police in a midnight raid on his cabin in November and faced a four-year search. Purcell came into court today. As each previous arraignment, he was carried in a stretcher by his dedicated followers of the "King" of hell.

Likewise as on previous occasions the little courtroom was jammed, the crowd of curious ones flowing over into the hallway.

At the conclusion of today's trials to the police court proceeding in the Woodsdale charges, Purcell, clad in the same fur-trimmed coat and cap he has worn so long, again appeared, was carried back to his cabin, his 24-hour trial being concluded.

member of the stampede's latest staff at the time of his preliminary hearing.

Woolley said he had been excused from the oath of secrecy and told newspaper men that his testimony had been a detailed denial of the story of Mrs. McPherson that it was she who had been drunk and unconscious when she was at Carmel with Orton during a part of the time she says she was in the state of kilometer.

Realizing that such alcohol is seeping into bootleg channels, Mr. Mellon is not willing to poison drinkers to enforce the禁酒令. He said that the alcohol he ordered is the kind which is undistilled to drink at the same time not poisonous.

The cheetahs, however, are not so easily satisfied by the new formula. If industrial alcohol is the kind which is made nauseating to drink it must contain a small portion at least of wood alcohol which they desire is the least injurious denaturing ingredient.

Mr. Mellon believes that a combination of the two formulas will be effective in preventing the sale of pure alcohol.

Enforcement of the prohibition law is an unusual and difficult experiment, he said, and it will not prove very injurious. He is not alarmed over the new formula which goes into effect January 1 causing the sale of wood alcohol instead of the present 20 per cent which he ordered used hereafter.

# AIRWAY RULES EFFECTIVE ON FIRST OF YEAR

All Flying Craft Must Carry License Number, Lights and Other Contrivances for Safety of Pilots and Passengers.

(By The Associated Press)  
WASHINGTON, Dec. 30.—Rules of the airmen's code, which will control traffic in the clouds as do the 222 speed zones which guide vessels on the seas, will take effect over the United States and the New Year.

The rules, prepared today by the commerce department, after Secretary Hoover's assistants in the task of drafting them called in conference representatives of all groups interested in the field of air navigation.

Bischoff's letter—Bischoff, who flies the air mail, has been flying at night, and if it is used for public conveyance of people or goods, its swiftness and safety must be certified to by the commerce department, and the application of detailed tests that touch every part, flight, and wings.

**Must Pass Test:**

Pilots and mechanics, little used to the grade of their service, must be picked men of proven competence, who have survived the ordeal of both physical and mental examinations.

Once a flight, the ships must fly them, and the airmen must be fit for meeting and passing in the air, by fighting at night, and by carrying instruments which will demonstrate the functioning of all portions of their conveyance.

As to airplanes, the new regulations recognize five classes of machines, ranging from the 250-pound plane to the big machine that lifts 1,000 pounds. Tests were made which each machine must meet before its airworthiness can be certified, with the exception that when a manufacturer turns out an approved type of airplane, the following technical markings may be given, indicating its value based on the demonstrated safety of the model. Inspectors of the commerce department will see to it that machines in service are kept up to standard, and not put in shape for use after accidents, thus saving lives.

Operators of commercial vehicles, likewise, must make regular daily and detailed inspections, and keep log of their findings, true, which they will make regular reports to the government.

**Airway Traffic Rules**

Machines in the air must remain 1,000 feet above the ground, except other craft. The man may pass to the right when meeting, and airplanes must give way to balloons and airships. By night, a plane must carry a red light on its right wing, green light on its left, and violet light on its miles, and must show a white light to the rear visible for three miles. Passing over landing fields, pilots must take note that a red flag is burning, or that a red signal is shown, a sign of bad weather, and if the flag is dimmed, so that two red lights are blazing, he must come instantly to ground.

The numbers that denote the license and may be painted in large letters under the left wing, visible from the ground, and on top of the right wing, visible from the air, as well as along undercarriage to be seen from the side.

The new code prescribes qualifications for drivers of passenger-carrying machines which are more severe than those for pilots of goods-carrying planes, and strict class limits for the latter machines, also determined. One feature of the airmen's license is that which makes it invalid under certain conditions unless the pilot has kept in practice at his difficult art, and the least he must have with at least five hours' flying mouth, before the passenger carrying airman, or "transport pilot," can qualify for his license.

All of the airmen granted under the new code will be limited to 100 hours, a year being the longest as to both craft and pilots. Vigilance of regulations can bring about suspension of revocation or license for both craft and men.

**ANTI-EVOLUTION BILL TO GO BEFORE LEGISLATURE**

MINNEAPOLIS, Minn., Dec. 30 (AP)—A bill will be introduced in the Minnesota legislature which convenes next week, to prohibit the teaching of the theory of evolution in the schools of the state.

This was announced today by Dr. W. H. Riley, pastor of the First Baptist church of Minneapolis, and president of the World's Christian Fundamental association.

Similar bills have been introduced in Missouri, Kansas and Arkansas, and the fight for anti-evolution will be reviewed in Kentucky.

**SUGAR BEET GROWERS HOLD OUT FOR \$8 TON**

DENVER, Colo., Dec. 30 (AP)—No agreement was reached today on a new contract for sugar beet growing next year, although representatives of the Beet Sugar Company, the Great Western Sugar company, discussed the question all day. Beet growers of Colorado, Nebraska, Wyoming and Montana were represented at the conference.

The beet sugar companies yesterday agreed to oppose the signing of any contract that would give them less than 48¢ a ton, the price which gave them last year.

## LANDIS ACCEPTS RISBERG OFFER

Commissioner Answers Purported Statement of Former Member of 'Black Sox' Club.

CHICAGO, Dec. 30 (AP)—Charles E. Risberg, former manager of the Chicago White Sox, who recently invited his successor, M. Landis, here to discuss financial difficulties, has been invited to come to Chicago and formally place before him the information Risberg has been quoted in newspapers since as saying he would stand a crew of major league players never before mentioned in connection with crookedness.

Risberg's fair compensation and expenses were guaranteed in a telegram sent to him by the White Sox, and he is to find, this night at Rockford, Illinois, the answer to his letter.

"The earlier the better," said the Landis reply to Risberg's "challenge to the commissioners," printed in today's newspapers.

**Don't Want Facts**

"Landis and the big bosses of baseball don't want to know the facts," the newspaper quoted Risberg, "who was invited from Boston to Chicago along with other 'old-timers' of the Chicago team of 1919." "This is a challenge to the commissioners, let's see what he'll do about it."

Risberg's telegram represents what the commissioners did.

"Paper print statement purporting to come from you to the effect that you can give 'information that will help us gain longer' who are now in your service, is a lie," Risberg wrote.

A., "holding that the 'game has no challenge to the right of the Amateur Athletic Union 'to govern track and field competition of other sports,' over which it claims jurisdiction."

## SUZANNE LENGLEN'S NAME OMITTED FROM RANKINGS

PARIS, Dec. 30 (AP)—The name of Suzanne Lenglen, who forfeited her women's status by becoming a professional tennis player, from the present place where she has been many years, at the meeting of France's feminine tennis stars. The men's 1926 ranking, as stated by the French Tennis Federation, shows that Suzanne Lenglen, Jean Boutroux and René Lacoste will share honors for supremacy.

Suzanne's place at the head of the women players will be shared by Didier Viala and Robert Contet, French girls of Greek origin.

# SCHOOL PROBE NEWEST MOVE

Association Plans Five-Year Study Program to Make for Better Citizenship.

**ROCHESTER, N. Y.**, Dec. 30 (AP)—The school and its students are to be investigated now.

The American Historical association, seeking men and means for a five-year study of the gifts of America and "education for effective social membership," decided today to make a five-year study of school practices, educational activities and influences beyond its reach.

The schools with the idea of suggesting revisions which will react upon such a way as to develop better citizens.

## Details of Plan

A detailed plan for the survey, prepared by Professor George K. Kerby and his associates in Minnesota, and announced today by Dr. Henry Osborn Taylor of New York City, newly elected president of the association, provides for the expenditure of \$375,000 in the work.

A central committee of direction made up of 15 leaders in education, sociology, psychology, educational research and in other fields of public activity will be the largest committee under the chairmanship of Dr. Taylor, and the schools with the idea of suggesting revisions which will react upon such a way as to develop better citizens.

## Research in the University

"School practices in this country, France, Germany, Austria and England will be studied in an effort to effect a better society which has made no significant mark on the teaching of social sciences in American schools," said at present "the content of school subjects presented to train for effective citizenship in society, particularly determined with reference to the immediate social experiences of the student."

Among the objects of investigation are the family, the neighborhood, church, camp, club, libraries, movies, radio, public demonstrations, games and recreation, travel and the general experiences of boys and girls outside of school.

## STAMP LICKER HAS NO FEAR OF BAD EFFECTS

**WASHINGTON**, Dec. 30 (AP)—No panic of the mailing question is felt in the lack of postage stamps as it might affect others, the leaker has no need to fear harmful effects from the operation.

On the contrary, the postoffice department says it is real fun to staff members, and they are after to make it more palatable by adding flavoring because that might be an incentive for users to remove too much of the adhesive.

The man who has been trouble to offer people into trouble with an average load of mail to be sent back for postage.

The man used his mail in August, the man who had asked for his compensation. It is composed of 48 per cent cassette, a starch obtained from certain South American plants which is used in making napkins and cassava bread. Two per cent of corn flour, and about 2 per cent glucose completes the mixture.

**ATHENS, Ga.**, Dec. 30 (AP)—"The Tree That Owes Itself," one of the sights of the city, has been cut down as part of the city's expansion in work by the Indians. It was free and it is hoped the famous oak will continue to live.

The tree now lies on the hillside by the stream through a steel bridge which M. J. Davis, a member of the faculty of the University of Georgia, when the opening of a street by the city prompted him to make the decision. Davis, a tree that "owes itself."

Mr. Davis offered to treat the park after it had been endangered by insects and disease.

Every river originating in the state of Arizona finds its source in "Old Idaho," a 14,000-foot peak in the northern part of the state.

**Ghost City Lives After Long Lapse**

SAWTOOTH CITY, Idaho, Dec. 30.—A "ghost city" since 1903, Sawtooth City has come back to life.

Buildings which have withdrawn the elements for more than three decades, are being brought back to life by the old soldier who had faith in the ledge and sought some redress for his backay as a watchman for many years after the mine, which was the community's "bread and butter," had closed.

It was in 1903 that the shaft headhouse caught fire and burned to the ground. Known only as "Captain Tom," this soldier was told to remain quiet about the accident, so he did, and the old soldier had faith in the ledge and sought some redress for his backay as a watchman for many years after the mine, which was the community's "bread and butter."

Recently, "Tom" appeared in California, capital, in the mines and it has been reported.

# WOOL GROWERS 1927 OUTLOOK CONSERVATIVE

**Idaho Sheepmen Experience Satisfactory Year and Look Forward to Another Good Season, T. C. Bacon Asserts.**

Idaho sheepmen generally indicate a conservative viewpoint with regard to the outlook for the industry in 1927. T. C. Bacon, president of the Idaho Wool Growers' association, said late last evening:

"The past season has been, on the whole, a satisfactory one for all wool growers. The market has been good, but there were some fluctuations in the market during the year, particularly in the early part of the year. The wool growing industry has been reaching a peak this year. They do not anticipate that it will go down too much."

## Woman Gets Reward For Burglar Capture

A check for \$50 issued by the Maryland County company as a reward for information leading to arrest and conviction of burglars who entered the home of William H. Miller, Twin Falls, last winter, was turned over Thursday by Ralph E. Leighton, Twin Falls chief of police to Mrs. W. H. Haines of Twin Falls, as a result of information furnished by Miller.

That Fred Morris, recently convicted of the Miller burglary, and his brother were arrested here early last May in connection with a burglary in Twin Falls, had been held up to the authorities by the officers that strongly suspecting a nearby house met so suspiciously.

In his letter to Mrs. Haines, he said that the check was enclosed, the police chief said.

"We are very lucky today. The new dog Mama said I couldn't keep yesterday has got nine puppies under the house."

**OFFERS METHOD FOR BEATING BURGLARS**

A communication, inspired probably by recent epidemics of housebreaking in Twin Falls, has been delivered to the Twin Falls News. It suggests a method of dealing with the burglar that is effective and is selected by the author as "A scientific receipt against home burglary."

Persons who wish to try it are at perfect liberty to do so.

It is the suggestion of the author that each family should have a large pile of bills around the third chapter of "Second Timothy. Pay all the money you have in bills over this chapter. Then take the same with Ezekiel 16, but cut out verse 53. This will be a good receipt for special jewels. Place the Bible on the dining room table. Don't lock the door, but hang upon card, 'This house is now open day and night. If the money and jewels are taken you have 999 chances to catch the burglar, to me otherwise.'

"Young for safety first."
