

BLAST TAKES LIVES OF TWO

Natural Gas Explosion Wrecks Interior of Church in Toledo, Besides Killing Pair.

TOLDO, Feb. 5 (AP)—Natural gas was responsible for an explosion which wrecked the interior of the old First Congregational church here yesterday, killing two persons and seriously injuring a third, and causing extensive damage. Coronor Charles J. Hendon, and fire officials said tonight.

The dead were Mrs. Katherine Walt, 36, a widow, of her church buildings, and Mr. H. Walt, 40, her husband, who accompanied his wife to the church to go to work.

Mrs. Mary Fitzgerald, 21, sister-in-law of Mrs. Walt, who had gone to inspect the church before the explosion, is in a hospital with serious burns.

Reports that explosives planted in the church building caused the blast were scuttled by Hendon.

Pleasant Surprise For Filer Woman

FILER, Feb. 5—Relatives of Mrs. Clarence Lancaster gave her a pleasant surprise at her home Friday evening when they arrived "and 'surprised' an oyster supper." The evening was spent shortly with the families of Charles Robert Foster, Gillett, V. Y.; Lancaster, Albert Lancaster and his old and Ray Lancaster.

Mr. and Mrs. John Adams motored to Hazelton Wednesday to see their son.

Mrs. Dewey Showers entertained at Lexington Thursday afternoon for Mesdames J. A. Denney, James Tagg, C. W. Case, R. K. Dillingham, Fred Blakely, E. A. Baum and Harry McLean.

The "Methodist church ladies" Admet society met Wednesday afternoon in the church parlor.

Rev. J. D. Gilliland, who has been suffering from a severe attack of rheumatism, was home.

Mrs. Fred Kliss entertained Friday afternoon for two tables of bridge. Refreshments were served to Mesdames M. J. Goode, Morris Clark, Charles Fox, R. K. Dillingham, C. W. Case, Edna Murray, C. E. McNealy and O. J. Chilie.

The members of the bridge keeping class of the Filer rural high school enjoyed a home dinner Saturday evening at the home of Mrs. Potter. Guests included Emma Allen, Ruby Lincoln, Irma Holler, Helen Dolin, Myrtle Schell, Bernadette Grieser, Margaret and Mildred Potter.

Members of the Girls' Children of God spent Saturday in Filer.

Mrs. and Mesdames E. H. Snyder and D. L. Beemer were guests of the A. B. Wool home in Twin Falls Tuesday evening.

Mr. T. D. Connor entertained at her home Thursday at a sumptuously appointed four-course bridge luncheon. The table were artists with a color scheme of green, white and red. Guests were Mesdames Charles J. H. Brown, Mrs. M. B. Ulrich, Mrs. George Brown, Arthur Schenck, T. E. Moore, L. G. Hill, Morris Clark, F. A. Dwight, Letta Leonard. High score went to Mrs. D. L. Beemer and Mrs. Dwight received consolation.

Members of the American Legion Auxiliary are planning a tea party for their husbands and eligible members Monday evening at the T. D. Connor home. Mesdames Charles J. H. Brown, L. G. Hill, Morris Clark, F. A. Dwight, Letta Leonard, high score went to Mrs. D. L. Beemer and Mrs. Dwight received consolation.

Members of the American Legion Auxiliary are planning a tea party for their husbands and eligible members Monday evening at the T. D. Connor home. Mesdames Charles J. H. Brown, L. G. Hill, Morris Clark, F. A. Dwight, Letta Leonard, high score went to Mrs. D. L. Beemer and Mrs. Dwight received consolation.

Mr. Fred Kliss entertained Friday afternoon for two tables of bridge. Guests were Mesdames Morris Clark, Charles Fox, M. J. Goode, C. W. Case, R. K. Dillingham and O. J. Chilie. Refreshments were served at the home of Mrs. Potter.

Mr. and Mrs. Harry Rose of Hazelton are the parents of a son, born a Wednesday morning. Mrs. Rose is a daughter of Mr. and Mrs. John Arnett.

S. C. Gratzes John Blum, A. A. Davis and T. D. Connor motored to Boise Wednesday on business.

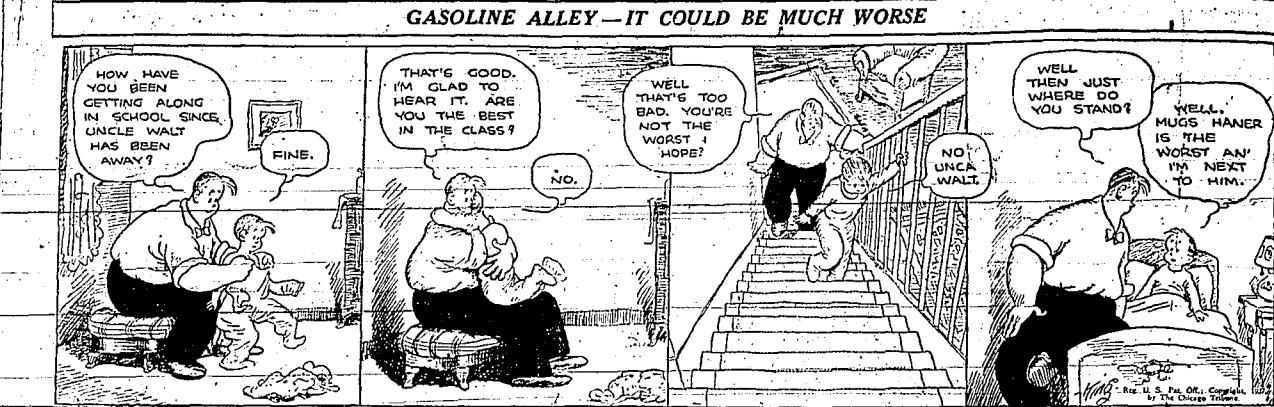

Mr. and Mrs. Frank Garrison are parents of a son, born Wednesday morning. Mrs. Garrison is a daughter of Mr. and Mrs. W. L. Garrison.

The Home Missionary society of the Methodist Episcopal church will meet February 10 with Mrs. S. A. Reavis, Assistant pastor, presiding. Mrs. B. S. McLean, Mrs. H. J. McLean will be in charge of the program.

The Ladies' Aid Society of the Baptist church met Thursday afternoon with Mrs. Walter Maggatz, Jr., president.

The ability of the motion picture actor is retrograding in the opinion of Francis X. Bushman.

"Yesterday," says Bushman, "the player was called upon to portray many different characters. He was a cowboy, then a minister and again a soldier. Today he portrays one particular type. Also pictures in the old days called for more action than is demanded of the current actor."

News of Women

PRINCESS BELLS IN MARKET

LONDON, (O)—At a "pitch-in" in the Colonial market, a Russian princess, niece of one of Napoleon's princesses, took up a collection from the English public.

She is Princess Marie Leon, a tall aristocratic woman, whose mother was

Princess Sophie. She is not a refugee,

but has arrived after living in the open country for several years.

She was picked up while working for my friend," she says. "I was working

at the death of my parents, left

home, but it was hardly home.

I have had to stand in the market

for two years."

Princess Marie said she does all her own work, packs up her "stocks" at the end of the day and wheels it away down the market as a mobile shop.

She is a tall, slim, good-looking girl.

Princess Sophie, a decade or two ago

were frequently called "super-

ette" costumed girls to German princesses

and their courtiers.

Queen Hildegard not only looks good, but a mother noted for her good looks and a father of gigantic stature whom forebears, because of their size, were selected as godparents for King Edward VII.

The young queen of fashions finds time and her new regal functions to attend a contribution school at night.

GENEALOGIST'S RECUE

LONDON, (O)—Mrs. Alice G. Lockett, wife of the author, who has been checking up almost relentlessly, attributes her splendid health to plain food and quiet mode of living.

The diet consists chiefly of whole grain bread, a loaf and a half of which lasts her about a week, butter, milk, baked apples, a few vegetables and occasionally a little bacon.

She asserted, "because it isn't beautiful and exciting enough."

From an artistic viewpoint short hair is not at all inspiring. The artist said: "The most beautiful women at art school in the United States—will never inspire a type in art comparable to the ancient Greek type, for instance."

"Of course there is the rare woman

who has beautifully styled hair and does look wonderful indeed," Sir William admitted.

Jettie Brown is filling in the cut-

away parts between scenes by speaking French. For the present she finds it easier to respond to her instructor's variability with gesture and pantomime than in the new language.

WOMEN HIBERNATE TOO MUCH

LONDON, (O)—Women who do not exercise are always nibbling at something and therefore eat too much, says Dr. James Weston, medical officer of health for Kensington.

A doctor who has examined a large group of women at the International Institute of Hygiene the doctor calculated that a domestic servant in England has six or seven meals a day, often eats far more than twice her master."

"The woman who indulges in eating and overdrinking drinks a mud-soup or spiced complexion," said Weston.

WOMEN BANKHURTS INCREASE

LONDON, (O)—Habited beds are all mistakes in the opinion of Sir William Orpen, president of the International Society of Sculptors, Painters and Gravers, one of Britain's most distinguished artists.

"My conclusion is that women should never have cut their hair," said Sir William, his theory being that women who have are bodily shaped, and their faces larger.

"Bobbing was bad enough," the artist declared, "but shingling is worse—and as for the flat crop, I feel quite uncomfortable when I have it."

Sir William believes short hair is merely a passing fad. "It can't last,"

EARTHQUAKE 'ORPHAN' NOW MARINE MASCOT

TOKYO, Feb. 5 (O)—Kamakura, a popular dog among foreigners in Tokyo, has embarked upon the adventurous life of the American sled dog, Ho-ho, who came to the United States Europe, in company with Major William T. Silliman as mascot of the marine corps expeditionary forces.

As his name signifies, the dog was born in Kamakura at the time of the earthquake in 1923. At 2 p. m. September 1, 1923, the American dog was engaged in savage and relief work found the pupping. His eyes were not yet open and he was starving.

The dog was brought back to Tokio, where he was given a home in a kennel site. When they left in June of the following year, they placed "Kamakura" in the care of Major Sullivan, who was attached to the embassy. The dog was adopted by the embassy.

He was sent on an expedition with the marines in Panama, Nicaragua, Costa Rica, where he died. The new mascot is a black, fat, black and tan dog of a foxhound.

He asserted, "because it isn't beautiful and exciting enough."

From an artistic viewpoint short hair is not at all inspiring. The artist said: "The most beautiful women in the world in art school in the United States—will never inspire a type in art comparable to the ancient Greek type, for instance."

25 COUNTRIES EXPECTED AT PAN-PACIFIC MEETING

WASHINGTON, Feb. 5 (O)—Plans are going forward at the interior department for the Pan-Pacific Conference on Education, Rehabilitation, Reconstruction, and Recreation, to be held at Honolulu the week beginning April 11.

The conference, authorized by Congress for the purpose of fostering friendly relations between the United States and the nations in the north Pacific, is having territorial headquarters in the Pacific Northwest, specifically in Seattle. The conference is to be attended by some 25 countries. While it was intended primarily for the benefit of the Pacific countries, any nation desiring to participate may do so, and requests already have been received from Great Britain and India.

The mural or ethical-moral picture, which is effective generally in the educational field, is to be exhibited at the conference, according to J. A. Alton, California state prison director, told Cecil B. DeMille, film producer.

"We can keep people out of prison only by influencing them in advance," Alton said. "The ethical and moral picture offers a medium for such an influence."

These wives of ours!

We took them from the shelter of their families, gave them two or three rooms and a share of our salary, then left them sitting there among the wedding presents, a bit bewildered.

But they knew how—these wives of ours. They knew how to make rooms into homes, and how to get more merchandise out of a dollar bill than we ever could. We're lucky to have wives. How do they do it?

Look through this paper, day after day. You will find advertisements covering almost every human need. They are filled with hints for the household, hints for health, hints for clothing, hints for keeping young. They are virtually little essays on life. No wonder these wives of ours follow them so carefully. As one wise wife said: "It isn't so much that I know housekeeping so well. I know where to learn it!"

Most advertising is prepared especially for women. Read it. It forms an authoritative textbook on good housekeeping

LUNCH AT HOME INHERENT RIGHT OF ALL FRENCH

Minister of Finance Rules That Every Worker Denied This Privilege May Deduct Expense of Meals From Income Tax.

(By The Associated Press)

PARIS, Feb. 5.—Time to go home for lunch is an inherent right of every Frenchman. The ministry of finance upholds this view in ruling that every worker, of any class and in any trade, is entitled to deduct from his taxable income the amount of money expended when his home or location prevents him from going home at noon.

France has another war debt out of history books.

This century old bill, due from the English, was to be paid off in installments, one franc, equivalent to a hundred francs for every man, woman and child in the heroic city of Verdun. One perigal suggests the collection of the debt ought to be pressed and used as an offset against what Britain still owes France for the losses of the last war.

The new debt, or rather the old one, dates back to the Napoleonic wars. Several hundred British were interned in Verdun during those troublous days from 1813 to 1815. The prisoners were of the same classes and enjoyed the same luxuries. Their credit was good and after they were gone the French authorities discovered the debts they had incurred to keft amounted to \$2,534,974. France had been paying interest on the sum up to the hundred million mark for every inhabitant of Verdun, counting the debt in gold and its value today in paper money.

France, strong-willed, fragrant and old, is nothing itself bound in France.

There is an expected movement by the Admiralty and the members of both the rifle and cavalry regiments to get their "right" in the name of justice in the 74 different kinds that are listed.

One book and several articles have appeared lately to instill the notion in the reading of chess. There is a bulging among the connoisseurs that women are the best players in the world. The ability toward the mechanical vehicles and that everyone doesn't know that when away, should be served before and not after the sweet dessert.

Reading is regaining some of the popularity it had in the days when every gentleman carried a sword and used it.

London Guards, to whom few dispute the title of the world's greatest wordsmen, are very much popular in French speaking countries. Chipperton was seen and, Robert Gaslin, the bicyclette rider, third, and Suzanne Langlois fourth, now that she is a professional.

English literature covers a quarter of a century. After the Sun

French Tennis Federation declared him beyond competition, he ranks as a super champion while the actual championship titles are awarded to others. In allusion he has beaten re-

cently the French tennis champion.

EDEN SOCIETY STAGES COMEDY

Big Audience Enjoys Presentation of "Old Maid's Convention; Numbers Feature.

EDEN, Feb. 5.—A large and appreciative audience attended the singing of the comedy, "The Old Maid's Convention," Wednesday evening by the Eden Society Aid Society of the Presbyterian church. It was one of the group's laugh products over staged here for some time, although presented from the beginning until the final curtain.

A well selected cast had been chosen to perform in addition to entire satirization of Martha Lockette, president of the Old Maid's Club, played the leading role to perfection. Others who had leading parts were Mrs. C. P. Smith of the church; Mrs. E. H. Smith, Mrs. Anna Barnes, an obstinate widow; Mr. Rev. Oliver Morton as Prof. Plunkett.

The first part of the play represented a business meeting of the Old Maids Club, the last part of the play dealt in the transformation of the club into a more or less perfect organization.

More numbers were introduced at the Eden, including a solo by Johnnie Hayes, manager of the Eden plant.

The Legion hall had recently remodeled by the patriotic Legionnaires, and the M. W. A. local members was officially dedicated Wednesday evening when the latter named organization held a social dance that was attended by a crowd of more than sixty couples representing members of the local area, accompanied with a large number of invited guests. Music for the occasion

was furnished by the LaMonte orchestra of Eden and included a number of old time tunes and benefit of some of the older members.

Entertainment was served at midnight and dancing was enjoyed until a late hour.

The seventh annual "Washington Birthday Ball" will be given by the Eden Lee Flora. The ball will be announced for the evening of February 11, and will be held at the Police hall. Committees for arrangements for the event are to be named soon.

Mrs. Swanson is still a patient at the Twin Falls Hospital, where she has taken a turn for the worse, suffering from heart trouble. Her condition has improved enough to permit her to able to return home.

Mr. and Mrs. W. A. Thompson were here Wednesday evening from Twin Falls assisting the orchestra in furnishing musical entertainment.

Miss Edna Metcalf, member of the senior class of the Eden high school and one of the forward on girls' basketball team, has taken a relation from her sick spell and is using the past few days in getting well again.

Miss Metcalf had been out of school the greater part of the past month and returned to work on Monday and Tuesday evening.

How to read Percentages

Were Dodge Brothers to sell 100 motor cars one year and 200 motor cars the next, they could truthfully announce that their sales had increased 100% in a single year. Yet they would only have sold 300 motor cars in all.

In other words, PERCENTAGE of annual gain is not conclusive. The NUMBER of cars sold is the true test.

That Dodge Brothers sales in 1926 showed an increase of 27.6% over 1925 is not the MAJOR fact to consider—striking as it is.

But that Dodge Brothers sold 259,967 cars in 1925, and then in 1926 sold 331,764—a gain of 71,797 sales in twelve months—tells a story of growth that stands out like a tower on the skyline of the industry.

Three hundred and thirty-one thousand buyers LAST year! Many more vital improvements added THIS year! No increase in price! Three powerful arguments for earnestly investigating this smart and sturdy product before deciding what to buy!

MOTOR CARS

DEMAND FOR PASSENGER CARS MAY SHOW SLIGHT DECREASE THIS YEAR

Roger W. Babson, in Weekly Talk on Leading Industries of United States, Foresees Profitable Season Ahead for Automobile Companies

(By ROGER BABSON)

BABSON PARK, Fla., Feb. 6 (Special to The News)—"Only a few years ago the automobile industry was a mere infant struggling for public recognition. Today it is one of the most fully developed and most important trade in point of manufacturing value in American business. Its growth has been unprecedented. Even five years ago there was only one car in use to every nine passengers. Now there are more. Production figures have exceeded the expectations of the most ardent prophets. Each year brings the statement that the 'saturation point' has been reached, but each year the next time comes when it is still ahead. Last year it had sold, but that does not hold it back in store for a trifle which has been operating at such high levels! Most automobile manufacturers expect a slight decline from the record last year, but total production will decline only slightly over 4,000,000 cars and trucks. Real strides in truck consumption may offset to some degree declines in the consumption of passenger cars. Trucks are coming into great popularity, especially with railroads, teams, railroads and street car lines, thus supplementing regular service by the operation of extensive bus lines."

"Competitors have forced prices so low that all dealers are compelled to undersell. Competition may bring about a general shake-up, especially among the smaller dealers, but it will help to prevent further price reductions. Since 1910 over 600 passenger car companies have organized. At present there are about 55 companies, several of which will be eliminated during the year. General Motors and Ford control about 60 per cent of the automobile business. The other 40 per cent is divided among the 50 odd remaining companies."

"The automobile business may be stimulated to some extent during the year by new inventions and refinements of principles already in use. The introduction of better gasolines and improved carburetors will continue to force manufacturers to compete to produce cheaper cost of transportation per mile. Science is sure to spring some surprises in us, as very complete investigations are being made to improve engine and chassis construction and fuel economy and better fuels."

Statistics for 1926

"The production of passenger cars in 1926 totalled 3,500,000, and truck production amounted to 531,200; making a total of 4,401,000. This record is slightly in excess of the total 1925. Passenger car production was \$3,825,000, and truck production \$500,000. Total car production of 4,320,200 motor vehicles produced in 1925. Passenger cars increased 2 per cent and trucks 6 per cent. Commercial vehicles are becoming a very popular part of the automobile industry every year. It is claimed that the total mileage covered by automobile truck and bus routes at present exceeds that covered by all of the railroads in the country. Freight traffic, however, is finding that the automobile has in the past cut into the profits of railroads and car lines. More railroads, slow, however, are finding the automobile competitor more than a dozen competing auto, efficient, non-productive branch lines, and act as feeder to the system. Street railway systems have in a great extent given way to the automobile."

The car is helping greatly to increase highway driving. 74 per cent of the cars produced in 1926 were closed models. The motor vehicle registrations in the United States amounted to 13,000,000, or two-thirds of world registration. One per cent of world registration.

"The export situation is encouraging. In 1926 exports amounted to 1,000,000. Exports to the Pacific Coast in 1926 amounted to 100,000. These records show that American cars

TEST NEW WEAPONS IN FIGHT AGAINST LEPROSY

URBANA, Ill., Feb. 5 (AP)—New weapons are being tested in the effort to destroy leprosy. There are synthetic acids of chaulmoogra oil. "Whether they will cure the disease is not yet certain," says Dr. Roger Adams, who developed them. The clinical test will be made directly on lepers in the Philippine Islands, since the disease cannot be transposed to animals.

In his laboratory at the University of Illinois, where Adams is head of the chemistry department, the compounds were more effective toward the leprosy bacterium than the natural acids.

He believes that because the results obtained in the laboratory are directly applicable to the disease, the use of chaulmoogra acid, the same will be true of the synthetic compounds.

The efforts of Dr. Adams, conducted with associates, resulted indirectly in his receiving the Nichols medal in 1925, presented by the New York section of the American Chemical Society, and to be conferred.

"The clinical work has just been started," Dr. Adams explains. "I have been informed by Dr. Larr, who is in charge of the leper colony at Pithapuram, India, that positive results, unless the new compounds prove to be exceptionally reactive, could not be determined satisfactorily inside of two years."

country. The question is to know which companies are going to control it.

"All this has a very important bearing upon the trend of the Babson chart of general business conditions which I have prepared."

"The automobile industry is one of the most important supporters of United States business. Any slackening in it would affect a multitude of other industries."

I repeat that a conservative policy, both

as related to the stock market, and general business should be allowed.

Moreover, it certainly is sufficient reason why everyone should now be getting out of debt."

Dorman Again on Directors' Board Of Wool Growers

PORTLAND, Feb. 5 (Special to The News)—S. E. Dorman, of Ontario, Oregon, has again been elected president of directors of the Pacific Cooperative Wool Growers, the largest strictly operative wool marketing organization in the United States, according to R. A. Ward, general manager of the organization.

"Mr. Dorman is one of the first known and most progressive wool growers in his territory."

"He served on the board two years and one month ago, and was re-elected last month," said Mr. Dorman's reelection to the board by the membership of his district, "says Mr. Ward.

"He represents the members in Multnomah county, Oregon, and southern Idaho."

Pacific Pacific Cooperatives—Wool Growers has just completed its sixth

year of successful operation in cooperatively marketing its members' wool, and the organization is in no trouble.

"The Pacific is the only grower agency actually maintaining

its own mill, because Ninety-five per cent of the volume is sent direct to consuming mills on the Pacific coast and in the New England and Philadelphia districts this last season. Membership in the organization has increased in the last year, and the number of growers since the last shipping season, and the directors are anticipating a material increase in the total volume of wool to be marketed through the year."

James M. Davis of Pullman, Wash-

ington, represents the panhandle counties of Idaho on the board of directors of the Pacific.

NEW STRAW HAT FOR ENGLISH TURNS RAIN

LONDON, Feb. 5 (AP)—Englishmen

will have a new spring hat. It is of

fibre spun from East Indian grass and, it is claimed, "is lighter than a feather."

Straw hats were never really in demand here, as compared to their popularity in the United States. Englishmen, owing to the uncertainties of the weather, have preferred the felt or broad cloth hats, which are lighter.

But the new fibre hat should raise, wish to attract,

MANY DIRECTORS ARE GOOD SCREEN ACTORS

HOLLYWOOD, Cal., Feb. 5 (AP)—

Many a star actor of the first magnitude is hidden behind the megaphone of the motion picture director.

Some of the critics go even further and declare that a number of the directors are better actors than the stars they direct.

James Cagney, Elvyn Bryson, Ernest Lubitsch and Marshal Neilan are prominent members of the "wacky do-it" school.

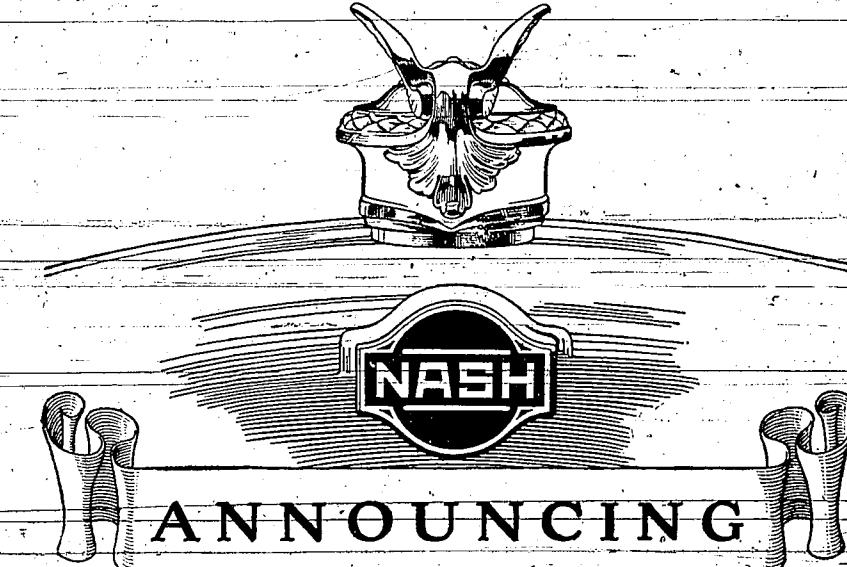

Erich von Stroheim, Jovite, and others make up a cast of characters experienced in emotions and action that invoke the majority say that previous acting experience helps them. An ap-

ponent of this theory is Erle Pomeroy, who contends that an actor-director forces his own emotions on a star and carries individuality.

Heppler Nash Motor Company

Nash Dealers.

It is a genuine privilege and pleasure to announce that Heppler Nash Motor Company has assumed Nash representation in Twin Falls.

We feel that the Covey Ballard Motor Company and owners in this territory are fortunate in having the Nash franchise entrusted to an organization of such unusual ability and excellent reputation.

They have taken this step, after a thorough survey of the entire motor car market, because they are soundly convinced that the Nash line offers a measure of quality and a degree of value that place it above and beyond other cars in its class.

The Nash home is amply provided with modern and efficient service equipment and owners in this section are assured of a high standard of car maintenance in which we naturally take some pride because our success in business can be attributed to fair dealing and satisfied customers.

You are cordially invited to visit the new showroom to view a full display of the remarkable group of Advanced Six, Special Six, and Light Six models.

Both from an engineering standpoint and with regard to the niceties of fittings and appointments, it is readily apparent that these new Nash models establish a fresh criterion in motor car quality and value.

And powered with seven-bearing crankshaft motors, they reveal a calibre of performance which is immediately recognizable as of distinctive superiority.

Among the wealth of attractive features and mechanical refinements included in all of these models are: four-wheel brakes of special Nash design; air cleaner; oil purifier; and full force-feed oiling system to all main bearings, connecting rod bearings and camshaft bearings.

Cars Will Be On Display at 319-321 Main Ave. W. Monday, Feb. 7

The Nash Price Range on Twenty-one Different Models
Extends from \$865 to \$2090 f. o. b. Factory
