GOVERNOR USES VETO POWER ON FOUR MEASURES

Education Bill, Guides and Fur Buyers Licensing and Teachers' Fund Proposal Get Axe; Approves Forty.

(By the Associated Press)

BOISE, March 12.—Four enactments of the ninth Idaho legislature today were vetoed by Governor Frank C. Borah, including the education measure, house bill 65, which would have permitted the raising of \$100 for each enrolled high school student for apprenticeship among high school districts. The measure was vetoed on the ground of discrimination in an apprenticeship and the "danger of higher taxation." This measure points out that \$2,162,000 would be raised each year over and above present levies, and from 45 to 70 per cent would be raised in common school districts which would receive no share or benefit in distribution of revenue.

Condominium Tendency.

In vetoing senate bill 127, which would have required lumbering guides, Governor Borah indicated his increasing tendency of the states to regulate and control the activity of individuals in every possible line of private and public business. His message also contained a proposal to require that could be derived from this measure, and that the license fee of \$50 is excessive.

Other measures killed through action of the legislature were house bills 255, which would have applied funds from teachers' certificates toward a teachers' meeting fund, was vetoed because no person is made responsible for the conduct of the fund. Number 124, which would have provided for buyers, was disapproved because it does not appear to add materially to the present laws.

Sixty Eight Bills.

Forty-one acts of the legislature were approved, eight of which were signed this afternoon. They include measures which become and bind farm produce dealers, require the adoption of budget systems by counties, limit non-resident citizens in their election of county officers, and provide for the appointment of a parole officer at the penitentiary.

Approval was also given the uniform motor vehicle activities act, which is intended to regulate the general educational appropriation bill, which provides for the administration of education and educational institutions, and the general ad valorem tax levy measure to provide \$2,000,000 for each of the five years.

Weed Law Strengthened.

Other laws approved strengthen provisions of the previous weed law, provide \$15,000 for enforcement of the state's federal destruction fund, and a bill to prohibit unfair competition or discrimination in the dairy industry, and grant police judges concurrent jurisdiction.

WOMAN ROBBER COOL CUSTOMER

Handling Revolver With Dexterity, Well-Dressed Girl Holds Up Three Shops.

ST. LOUIS, March 12 (AP)—Handling a revolver with dexterity, a well-dressed young woman held up two stores and a restaurant here today and escaped with \$134.

In each instance the woman entered as a customer and covered her victim. Then a young man came in and noted the cash register was open, so he followed the "cool customer" with his eyes.

Cools Customer With Smile.

John Horan, smiling when the young woman entered his restaurant and asked for a cup of coffee. He said she was wearing a black hat and a dark coat, and that her complexion, hair, were blue, her complexion blonde, and her features comely.

Before he reached the coffee urn she had pointed a revolver at him.

"I need some money," she said, motioning to a man who came in at this juncture, she said. "Search around for the money."

He reported finding \$60.

"Get the same signature," she ordered.

Escape in Blue Carpet.

He took two cutouts, they ran out, the dog and escaped in a blue rug.

Their joint appearance was at the border of the city of Glendale, Calif., where the woman asked for pork chops.

When he turned to cut the meat, she drew her revolver and told him to "down. Then she called to her confederate, "Get the gun."

He pointed a revolver at him.

"I need some pork chops, too," the woman suggested.

So her assistant lifted a heavy rack of pork, valued at \$10, and they departed in the blue automobile.

Weepah Feels First Rush of Affluence From Outside World

MONEYED. Visitors Arrive in Nowest Gold Camp Saner Burros but With Large Cars.

TONOPAH, Nev., March 12 (AP)—Weepah, Nevada's new boomtown district, felt the first concentrated rush of outside brokers and engineers today all eager for a dash into the gold fields which hold out a new hope to the miners.

The numerous visitors came today in large automobiles; there was not a burro in sight, and working miners moved to straighten out over-hauls claim-sites in the 24 miles of road regarded as being within the range.

As a result of the influx of outside engineers three claim groups in the new camp were sold today for \$100,000. The miners who came to the sellers were working miners who had left their underground employment on the night the first reports of the strike reached Tonopah and shot out into the darkness of the desert. They had forced their way through the mountains to work a section. Today, a working miner turned over a group of claims, considered just outside the Weepah for \$5000.

On account of lack of sleeping accommodations, Weepah is yet again a daylight boom area.

CONTINUE HUNT FOR 9 BANDITS

County and State Officers of Pittsburgh Chase Down Many Rumors During Hectic Day.

PITTSBURGH, Pa., March 12 (AP)—The arrest of two suspects and the finding of the remains of one of Peter Klein, deputy sheriff at Stateville, from which he escaped May 5, last, twice the day of death was postponed after all proceedings had been completed. The trial began yesterday and will continue with the exceptions set for yesterday. Justice Frederick H. De Young issued a writ of error, citing his error in giving a guilty verdict.

De Young, sitting in Chicago, told the captured Roberta Torre that he was sure he had found the guilty party, but that he had been misled until midnight, they apparently had been prepared some time ago for the break for liberty which it was believed had been had for the night before the defendants arrived.

TWO GANGSTERS LOSE LIVES IN WINDY CITY WAR

**Machine-Guns of Underworld
Enemies Riddle Bodies of
Pair; Leader Offers Reward
for Slayers of Henchmen.**

By The Associated Press
CHICAGO, March 12.—Police here said today that two gangsters who had been killed in a gun battle in Chicago last night were the slayers of two of his henchmen and in a voice pitched in defiance offered \$5000 to "any or any one" who finds the killers.

Saltis, under oath, told police that he was the man who had commanded the machine-guns that added the bodies of Frank Lester Koenig, Saltis' lieutenant, and Clark's Kraebel, alias "Big Bill," Hayes, member of the Saltis band, early today.

Riding in Saltis Car
When he was shot down and killed the two Saltis men were riding in Saltis' machine gun. This caused police to believe at first that the slayers may have intended Saltis himself as their victim. Koenig was his "chauffeur."

At the inquiry today Saltis indicated that he had perhaps years ago a similar death threat made against him in a town at once for West Baden, Indiana, where he for several weeks had planned a vacation trip for "thin health."

Saltis, after the inspection had been continued, declared that he had released his attorney, Edward J. O'Donnell, and said he probably would not be in town when the inspection is required.

Finalists of Fire

Koenig and Kraebel were killed in a fusillade of revolver, shotgun and machine gun fire from a distance of 100 feet from the chilled machine and attempted to escape; Kraebel was shot down after he had gone only 20 feet, Koenig fell about a half mile from where the car-car was found dead.

Many suspects are sought, including three O'Donnell brothers, Mike, Steve and Perry, long known as enemies of the Saltis crowd. Ralph Shultz, another O'Donnell, son of O'Donnell, was buried under \$5000 bonds two days ago, following his capture with three others while siphoning liquor from a government warehouse, was being held for trial pending connection with the killing.

Another gangster victim of the past 24 hours was Benjamin Schneider, as tenuously a real estate dealer, but, also, the police believe, a bootlegger. He was shot dead from his automobile, which will add another somber conclusion between Schneider of Schneider and that of the two Saltis gangsters a few hours later.

CONTINUE HUNT FOR 9 PAY CAR BANDITS

Continued From Page One)

used without incident to their employer.

While some officers were searching for a notorious gang leader who was known to have been active during the past week near Coropopolis, others, armed with rifles, searched the houses of persons who said the bandits had been seen near Ginghollow, not far from the scene of the robbery, and on Severy hill near Brownsville.

Seek Missing Loot

Through the efforts of the bands in Ginghollow in the hope that they would find the money taken from the pay car, some residents near the mine where the armored car and an express truck were taken from the road, still are waiting for the return of the bandits, who are making their way into the thickets, turning empty handed, scurrying away in an automobile. That led to the belief that the bandits separated, some leaving the scene, some being captured.

The pay car upon which officers placed much importance—the automobile driven by members of the bandit crew—was recovered when it was found that the hero in question was safe in a farmer's home at Myerstown, Pennsylvania.

FAMED CAMBRIDGE CHAPEL IN DANGER OF CRASHING

CAMBRIDGE, MASS., March 12 (AP)—Famed King's Chapel, built nearly 500 years ago, by King Henry VII, of England, is in danger through the general decay of its foundations, according to building experts.

The chapel is recognized as one of the most beautiful examples of perpendicular architecture in England and is said to have been built at a cost of a thousand years ago, but architectural experts are firm in their warning that corrective measures must be taken at once.

GOFORTH RECOVERING FROM KNIFE WOUNDS

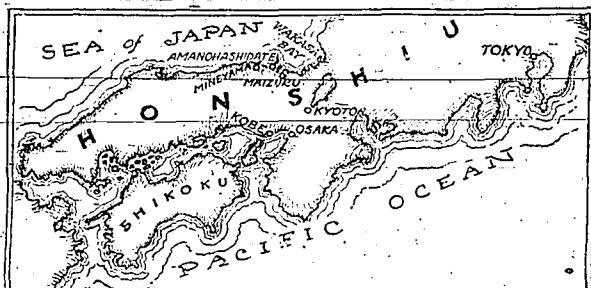

BROOKLYN, March 12 (AP)—The condition of Herman W. Goforth, American, four of San Paulo who was shot in the head and left for dead this afternoon but is still alive, was announced by the Samaritans hospital at Sao Paulo.

An erroneous report that Mr. Goforth had died after an operation was received from the hospital and the report also being published in two radio newspapers.

YOUR BOY'S BUSINESS

Mining as a Life Work

Being the Fifth of a Series of Timely Articles by

ROGER W. BABSON

BABSON PARK, Fla., March 12—Those who are willing to leave home and go to a mining town make means. There is not much competition among mining engineers. An article of good character can easily get a place in mining engineering.

Profession Not Overvalued

When investing in mining stocks, one should always keep in mind that his dividend or stock interest should be amortized each year. Dividends from mining stocks are much like apples from a barrel. A portion of every dividend is a return of a portion of the original price of the stock.

Money Making Opportunities

There is not much opportunity in mining for the young men who aspire to be in business for themselves. Mining is an industry which must be developed to be carried on to large magnitude. It is a great business, but real estate, in which mortgages are being foreclosed, the industries in which to invest or work are those temporarily unpopular. This is why I believe that mining is a good field.

Mining as an Investment

When investing in mining stocks, one should always keep in mind that his dividend or stock interest should be amortized each year. Dividends from mining stocks are much like apples from a barrel. A portion of every dividend is a return of a portion of the original price of the stock.

Oil Companies

It would be unjust to the "oil men" to discuss mining companies without a word about the oil men. Surely they represent a great majority of the wealth in the country and holding the oil rights all over the world. How tragic will it be a serious factor in one's immediate hope for very much higher prices. Yet these very facts may make the better copper stocks a good purchase later.

Oil Companies

It would be unjust to the "oil men" to discuss mining companies without a word about the oil men. Surely they represent a great majority of the wealth in the country and holding the oil rights all over the world. How tragic will it be a serious factor in one's immediate hope for very much higher prices. Yet these very facts may make the better copper stocks a good purchase later.

Memorials

We have hundreds of designs to select from and use only the highest grade of monumental granite, both foreign and domestic.

We suggest that you purchase your memorial now to have it erected by Memorial Co.

Call at our sales office at 406 Shoshone St., West, or telephone for an appointment. No obligation.

We erect monuments any place in the United States.

Even prospecting today is a rich man's job and something which only the large companies can afford to do. It almost seems in the statistic that there are many more millionaires than there ever has been taken out of the ground.

Keep away from the small speculative mining stocks. Today perhaps even these are not popular, but they have been and will be again. These stocks are in demand, an old late and popular. What is singular is that the rage a few years hence. When small mines and new mines are popular, keep away from them. In connection with the tendency to look for small mines and new mines, it is interesting to note that notwithstanding the great increase in the volume of total United States business since 1919, there were 214,000 concerns manufacturing over \$5000 of products. In 1923 this number decreased to 196,309. Today the number is even less.

Mining Stocks

Mines may first be divided into six groups, according to the kind of ore mined. There are (1) the gold mines of which Goldfinger is generally considered one of the best; (2) the iron mines of which Great Northern Ore is a leader; (3) the silver mines and molybdenum mines of which Goldfinger.

Goldfinger is a good example.

(4) mines of other common metals, such as lead, zinc, and the non-ferrous metals; (5) the copper mines; and (6) the coal mines. The most specimens have been in the stocks of copper miners. The copper miners may be classified as follows: (1) The large copper which mine, the raw ore and which once were very prosperous. Of this group, Calumet & Hecla was the leading producer with 100,000 tons of copper per year.

(2) The medium copper which mine, the large copper which mine, the raw ore and which once were very prosperous.

(3) The small copper which mine, the raw ore and which once were very prosperous.

(4) The small copper which mine, the raw ore and which once were very prosperous.

(5) The small copper which mine, the raw ore and which once were very prosperous.

(6) The small copper which mine, the raw ore and which once were very prosperous.

SPORTS

POCATELLO FIVE DOWNS MOSCOW FOR HOOP TITLE

Gate City Quintet Goes Through State Tournament Unscathed; Wins Championship by Score of 15 to 11.

(By The Associated Press) — MOSCOW, March 12—Pocatello won the Idaho high school basket ball championship tonight by defeating Moscow, 15 to 11, in the final game of the annual tournament.

Pocatello won the title by going through the tournament without a defeat. All other teams lost at least two games, while Pocatello lost only one, the defeat elimination plus. Tonight's game was one of the most exciting of the tournament, Pocatello never having more than a few points lead. At half time the score was 5 to 5, and at the end was 10 to 9, with Pocatello winning. Moscow threatened during the second period the northerners were unable to overcome the five point lead.

Pocatello went into the final with a 22 to 11 victory. In the first game of the tournament, Moscow defeated Boise 15 to 13. The lineup:

Pocatello: — Forward, Moscow Barrett; Forward, Nelson

Ablatson; Forward, Phelps

Gross; Center, Rundell

Shurtliff; Guard, Woolly

Hull; Guard, A. Smith

WIN WAY TO FINALS

MOSCOW, March 12 (Special to the News)—Pocatello's high school won its way to the final state basketball championship in the boys' tournament by defeating Sandpoint 22 to 17 in the first game of the semi-finals here this afternoon.

Hatty contested throughout, Pocatello took the lead early in the game and never lost it, although in the third quarter Sandpoint ran up the score to a 15 to 16 tie. In the final period Pocatello started and ended Pocatello center made several jump shots giving his team the lead. The score was 21 to 16 at the end of the first half.

Moscow took the lead in the second afternoon game shortly after the opening gun and led throughout the contest. The northern team was never able to get more than a few points lead and was dangerous to the end.

At half time the score was 6 to 5.

Local Trapshtooers To Oppose Boise in Telegraphic Match

The Twin Falls Rod and Gun club will compete in a telegraphic show with the Boise Gun club this evening on the radio station KBOO, 1000, at 8 o'clock. Last week high winds and cold weather interfered in their meet with the Pocatello club, and the members have been unanimous to know for the results. No one seems to know if the winners were, indeed, the Pocatello club, best although a team score of 65 out of a possible 125 doesn't promise too well.

Improved weather conditions are lending added interest to the sport and a large group of interested shooters is anticipated this morning. The league schedule for today follows:

Pocatello Gun club against Nampa Athletic club.

Moscow Gun Club and Gun club against Pocatello Athletic club.

Washington and Adams County Rod and Gun club against Pocatello Trap-shooting club.

Twin Falls Rod and Gun club against Twin Falls Rod and Gun club, Inc.

Huntington Rod and Gun club, Inc.

BOTH SIDES REST IN CROAKIN MURDER CASE

CHICAGO, March 12 (AP)—Whether Harold J. Czernak, slayer of 4-year-old Walter Schmidt, is "Hobie the Goat" and therefore not responsible for his crime, or whether he is "Hobie the Goat" and not liable for his offense, the gallows moved a step nearer solution late today when attorneys for both the state and defense in his murder trial rested their case after three weeks.

Court was adjourned after a ruling that final arguments would begin Monday morning giving the state and prosecution each one day for summing up so that the case may reach the jury Wednesday.

Court was adjourned after a ruling that final arguments would begin Monday morning giving the state and prosecution each one day for summing up so that the case may reach the jury Wednesday.

DUMB BELL'S

REGISTERED U.S. PATENT OFFICE

ATHLETES ARE GUESTS AT 'U'

High School Boys Participating in State Tournament Attend Special University Meet.

UNIVERSITY OF IDAHO, Moscow, March 12—High school athletes from the state of Idaho and the Northwest, students of the university student assembly at a special assembly conducted by the Associated Students. The visitors were officially welcomed at this assembly by Dr. A. H. Chapman, president of the university.

Students from the athletic and other schools, singing of college songs, playing by the Idaho Pep band, and a few short talks composed the program. A feature was the description by Mr. Chapman of the relationship of the school of 1901, of interest to the visitors, to the present school of the university.

Another feature of the program was the presentation of gold-welt-waisted shirts by Charles F. Erb, head football coach, and R. H. Hodges, assistant coach. The shirts were gifts of the varsity football squad.

Awards to Players

Basket ball awards to freshman and junior players was made by Coach David MacMillan. The following players received the honor:

Charles F. Erb, Arthur Clegg, George Clegg, Eugene Eaton, Charles Macmillan, Ralph Erickson, Postlethwait, Glenn Jacoby, Bonner Perry, Herbert Canine, Burley, Darwin Birgler, Bixby, and Arthur Dawson, Lewis, and W. L. Hart.

Bill Hatch, Bill, Harold Brummond, and Harold Brummond, all of Kellogg; Donald Munro, Charlton, Washington; Alvin Neiman, Sandpoint; Robert St. Clair, Spokane; Kenneth Barrell and Frank Miller, Lewiston.

Three senior students received awards for their athletic achievements, the presentations being made by Miss Lila Wix, director of physical education for the university. The gold basket ball trophy was presented to Captain Schley of Buhl, who accepted it behalf of her team.

Second place trophy went to Captain of Idaho Falls, and third place to Acting Captain Christensen of Shelley.

The selection announced by the committee of officials was handled all the games between:

Forward—Metz of Buhl and Fritts of Caldwell.

Jumping center—Hays of Buhl.

Running center, Fowler, of Idaho Falls.

Guard—Malone of Shelley and Andrew Gunder of Moscow.

Applause Greets Program

After the game in which the Buhl girls won the state title, Superintendent Van Patten asked the fans if they cared to send the team to the national tournament. The crowd expressed their willingness by cheering and when selected for the necessary funds pledged a large amount of money to defray the team's expenses. The team will leave for Wichita, Kansas, early next month.

Moscow took the lead in the second afternoon game shortly after the opening gun and led throughout the contest. The northern team was never able to get more than a few points lead and was dangerous to the end. At half time the score was 6 to 5.

BORROW HEADS TO EVADE LAW

**Wild Men of Borneo Find Way
to Circumvent Dutch Rule
Prohibiting Savage Practice.**

CHICAGO, March 9 (AP)—Human heads are as necessary to the Borneo tribesmen today as they were generations ago, before the Dutch government set up laws to abolish the custom. But the men with whom the Dutch have waged war on the savage custom has changed the rules. Today heads are borrowed from the neighbors for such celebrations as those attending the birth of a child, a wedding, or a funeral.

The society was founded March 17,

1812, by Joseph Smith in the quiet belfry room of the old Masonic hall in Nauvoo, Illinois. It was first known as the First Church of Christ, Scientist. It began with 18 charter members, including four executive officers. It has grown to a present membership of nearly 60,000.

Alms of Society

The aims of the society are religious and benevolent. They are briefly: To manifest benevolence, irrespective of creeds or nationality; to care for the poor, sick and infirm; to minister to the dying; to assist the death-neglecting; to assist in retarding the morals and strengthening the virtues of the community life; to foster a love for religion, education, culture and refinement; to help the needy. It exists as the society has manifested the spirit of its original purposes, while the expression of its ideals has taken form in a variety of movements. From the beginning there has been a two-fold program—one covering the spiritual work and the other the welfare activities.

A unique movement in the pioneer days of Utah was a sericulture project established by the women of the Relief Society under the direction of Brigham Young. The project was soon discontinued, but the name of the "Utah Silk Stockings" is still remembered. The planting of mulberry trees, growing of桑蚕, and the manufacture of raw silk into cloth.

"Another interesting activity of the Bright Young, realizing that the future of their country lies in the hands of the young, has been the organization of the Young Farmers' Association.

Living is to the Bright Young a continual sin, Krohn relates. The fertilizer must heap up a mound of branches in token of his sin, and if it is destroyed even by the third generation every following tributary must help rebuild it, meant while cursing the prevaricator's memory.

Crocodiles are plentiful in Borneo, but only when a tribesman vanishes does the tribe believe failure to find him to be his head devoured by a crocodile. Then a green stick, sharpened at either end and fastened to a string, is buried in the earth, and when it is plucked before the crocodile, he is sure the headless one has been devoured.

Krohn relates, the headless one has to stay there, for crocodiles before the real culprit is apprehended.

Student Typists Use Music Box

A violinist in the typing room has added to the interest of the students of the Royal Typewriter Co. By the time of a good show, the students will develop rhythm in their work, which is essential to good work. Jack Colman Nunnemaker was the champion typist for the month of January, and Grace Davis, for February. Jack Landau led the class during the month of February and Grace Danvers and Pleasant Wilson almost equaled his score.

Certificates are forwarded in January to the Remington company, to Paul Bradbury, Misses Danvers and Cleone Colman, from the Underwood company to Lucy Davis, Utaline Kirkman, Freddie Rogers, Marie Anderson, Lula Young, Marjorie Baird, Vera Lee, Edna Engle, and Anna Johnson; from the Royal to Ruth Wall, Mary Strong and Lawrence Settimi; from L. C. Smith to Lenora Gatrider and Amy Phil. Certificates are granted for writing 45 minutes at the rate of 30 words per minute, and for writing the same month. Grace Danvers received the Royal gold pin for writing at the speed of 40 words per minute, and Jack Nunnemaker the L. C. Smith

bronze pin for writing 43 words per minute.

"February" brought "five awards" to Twin Falls students, with Royal certificates to Pearl Watters and Viola Buttcher; L. C. Smith certificates to Grace Danvers, and a bronze pin for a speed of 43 words per minute, and the silver pin to Jack Nunnemaker for 50 words.

A discussion of "The Ideal High School Girl" was the outstanding feature of last week's freshman girls' service club meeting.

The Blue Triangle cabinet supper meeting last week brought about crystallization of plans for the Easter vesper service and the spring athletic meet. The girls also voted to make a new calendar, plan a musical unit, and to have a social hour.

Mr. Johnson and Mr. Landau will leave Monday on this mission for Jerome, and will later visit Mountain Home and Blackfoot.

TEACHERS HOLD ANNUAL MEETING

Commercial Instructors of South Central District Meet at Dinner; Choose Officers.

Members of the South Central Idaho Commercial Teachers' association met Saturday noon at Tom's cafe for the annual banquet of the organization.

Plans at the meeting were discussed to be held in Twin Falls April 15, in which high schools of southern Idaho will be present. Officers were chosen for the coming year at the close of the meeting.

Besides the officers elected the following teachers were present: Miss Helen Nettie of Shoshone; Boyd Holtz of Kimberly; Miss Jane Anderson of Dalton; Mr. P. C. Tracy, principal of Twin Falls; Mr. F. W. Gandy of Gooding and Miss Julia Schenberger of Burley.

The entertainment program consisted of several vocal numbers by Mr. Albertson, a humorous reading of Miss Schenberger and addresses by Mr. Holtz and F. Mangrum, of Shoshone, superintendent of the Shoshone schools who was a guest at the dinner.

PLAN COMMENCEMENT AT GOODING COLLEGE

Marion H. Cuddeback, commencement speaker, the Rev. A. G. Gandy, president of the inter-Mountain Union college at Helens Mountain, has been selected to address the graduating class at the closing of the regular college year, June 22.

Other events already scheduled are: Southern Idaho Inter-Collegiate conference debate championship, March 17; debate with Willmette University, March 20; basketball championship, March 25; concert hall college of music, March 26; directed by H. M. Cuddeback at the

movie theatre, March 21; Easter vacation, April 2 to 10; "The Crucifixion," the Glee club, directed by Nedie Hale, April 15; "The Last Laugh," track meet for girls, April 20; concert at Shoshone by the orchestra, March 24; annual picnic, May 25; basketball exercises, May 29; commencement, May 30 and June 1; publication of the "Songster," department of music program, June 24; senior school picnic, June 25.

Among the members of the graduating class are Charles D. Tenney, Gooding; D. L. Dickey, Meridian; Murphy, Hugo; Colorado; Isadore Gilson, Ogden; Dallas McNeil, Boise; D. A. Hills, Gooding; Lurline Eastbrook, Gooding; William Jones, American Falls; Mrs. Ruth Dickey, William Jarvis, Novosad; Sadie Neale, Pocatello; Carroll Miller, Dietrich, J. J. Yeomans, Gooding; Helen Powell, Rupert; Harvey Rogers, Gooding.

WIN. O. S. L. TITLE
POCATELLO, March 12 (AP)—By defeating the Salt Lake Oregon Short Line Athletic club basket ball team, the Western All-Stars won the title of the Oregon State here Saturday night by a score of 44 to 35.

Willie Willis by popular demand

BREVITIES

Back From Pocatello—Mrs. Elphart Herter returned Saturday noon from Pocatello where she spent a short time on a visit.

Nampa Man Visits—O. P. Jensen, president of the Nampa Creamery company of Nampa is in Twin Falls for a short time on business.

Back From California—Mr. and Mrs. W. P. Combs have returned to their home here from Los Angeles, where they have spent some time.

Back From Long Beach—Mr. and Mrs. Frank Holman have returned to their home in Twin Falls after spending the winter in Long Beach.

Home For Vacation—Vermon B. Walters, son of Judge and Mrs. E. A. Walters, arrived Saturday from Washington, D. C., to spend three months here. He has been here before, but this is his first extended stay. He is the son of Miss Virginia Walter, who graduated last spring from Georgetown University here, and has been serving for some time as a clerk in the house committee on reclamation and irrigation.

On Trip To Portland—Mr. and Mrs. Gran A. Blue and Mrs. Kenyon Green left Saturday for a short visit in Portland, Oregon, making the trip by automobile.

Home For Week End—Mr. and Mrs. Allen Sheldon and son of Pocatello, who are spending the week end at the home of Mrs. Sheldon's Sister, Mrs. M. E. Jeanson.

Returns From Pocatello—Donald McLean, secretary of the Idaho Wool Growers' association, returned Friday from Pocatello, where he spent a short time on business.

Visit in Boise—Mrs. F. F. Bracken and Craig T. Bracken, who returned Saturday evening from their vacation in New York City, visited their home in Boise where they stayed for a few days at the home of her son Tom F. Bracken and family.

New York Folks Visiting—Mr. and Mrs. Theodore Paris arrived Saturday noon from their home in New York City and will spend some time here visiting at the home of Mrs. Paris' son, Mr. and Mrs. John R. Paris, who are located in the same building with have charge of this work.

Back From Hot Lake—Mr. and Mrs. L. A. Hardy have returned from Hot Lake, Oregon, where they had been doing some work for many years.

The same boys also must pay for damage that they caused when they broke into warehouse offices of Trinity Bean and Elevator company on the Grand Milling company last Sunday.

They confessed in juvenile court that they had broken into the doorway, making this confession during examination in connection with the raids on the other two warehouse offices.

L. D. S. MEETING AT HANSEN
State missionaries of the First Presbyterians of the church will hold their next weekly meeting at 7:30 o'clock in the Woodman hall at Hansen.

An interesting program has been arranged for the occasion, and invitation is extended to the public.

Takes Building Permit—A. Camp

built Saturday obtained a building permit for the construction of a single brick building, which is to be located on the front of the lot on which the building formerly occupied by the Auto repair shop at 120 Third avenue has stood for some time.

On Visit From Athlon—Frank E. Holman, member of the faculty of the state normal school at Athlon, arrived here Saturday and will spend a short time in the mountains and in the city, the arrangement being with a report on the part of the Mountain high school that the Mountain high school placed on the list of accredited high schools of the state.

The day was clear with the sun visible during most of the time. Clouds gathered at times, but soon passed over to gather again at night.

FREE Treatment for DEAFNESS Head Noises from Nasal Catarrh

Sidelights on Original Treatment for Deafness, Head Noises from Nasal Catarrh

Literally thousands of people from different sections of the United States have used this special, original-home-treatment-and-have-found relief from distressing head noises and restoration of good or normal hearing.

A huge file, containing hundreds of letters from sufferers in all sections of the country has been placed in Dr. Coffee's offices. Here are kept the records of every case treated, making it easy at all times to investigate the various reports. In this way, a careful check can be maintained, showing the results of the treatments in individual cases.

Contrary to the general belief, deafness and head noises, due to nasal catarrh often lend themselves to treatment and relief very readily. While the peculiar construction of the ear in its relation to the nasal passages creates a condition which often results in deafness, it's very ease of access also makes possible a ready relief. This was the basis of the home treatment, as perfected by Dr. W. O. Coffee, which has resulted in relief to thousands of sufferers from deafness and head noises from nasal catarrh, and from catarrh itself.

Dr. W. O. Coffee appeals especially to those who are just beginning to find that they are losing their hearing in one ear and when catching cold usually find the other ear affected. Many who are now stone deaf could have been made to hear again if their cases had been properly cared for at the first showing of dullness of hearing.

Many cases of deafness are also caused by dry catarrh—a type which gives no noticeable discharge or symptom.

Insurance authorities place deafness in the list of those defects which increase the risk of the insured life. Many railway accidents, injuries in the street from automobiles and in practically every walk of life are due to deafness or at least defective hearing. This condition in many cases can be corrected—if the trouble is primarily due to nasal catarrh; and nasal catarrh is responsible for practically 90 per cent of the deafness today, authorities state.

Mr. George Bishop of Sask., Canada, says, "I had been growing deaf for 12 years and had been to some of the best hospitals in all Canada. I even submitted to operations without success. I spent hundreds of dollars but gradually grew worse. I became so bad that people had to talk directly into my ear, if I was to hear. By using Dr. Coffee's treatment, my hearing was greatly benefited in one month's time. I wish that every sufferer everywhere who is afflicted as I was would give this wonderful treatment a test. It is wonderful."

Mrs. Mona McBride of Illinois, says, "This is to certify that since having scarlet fever when a little girl, I have been hard of hearing, and for the past four or five years I have been almost entirely deaf in one ear. A few months ago my other ear began to discharge. I found it to be abscessed and discharging a foul fluid. Nothing seemed to stop it and finally I tried Dr. Coffee's treatment. To my surprise and delight the hearing in the ear which was partially deaf for nearly 20 years has returned and the abscess has healed. Now I can hear a conversation six feet away. I didn't believe it possible and I certainly advise anyone suffering from deafness to try this treatment. I obtained relief in a short time."

Noted Deafness Specialist

This is Dr. W. O. Coffee, as he looks today after more than 45 years of active practice—he wants sufferers to try his home treatment free.

DEAFNESS IS OFTEN DUE TO CATARRH OF THE AIR PASSAGES

Competent Authorities Blame Nasal Catarrh for 90 Per Cent of Deafness Throughout the World

A Free Trial Treatment To All Those Who Suffer

DAVENPORT, Ia., March 13—

According to authorities who have done extensive work on years of research and actual medical observation and practice, 90 per cent of the deafness in the world today is due to catarrh—catarrh of the air passages.

Not only is catarrh of the air passages generally termed nasal catarrh, blamed for deafness, but at the door are laid many other diseases, such as stomach catarrh, toxic conditions of the body, and other generally systemic conditions.

This May Be Relieved

This condition may be relieved. It is now known that Dr. W. O. Coffee, a physician in this city, has developed a home treatment for deafness, head noises, nasal catarrh and ear trouble, to remedy the trouble to get rid of the disease.

Dr. Coffee has demonstrated his efficacy with young as well as old patients. His results have been borne out by the results later mentioned in this article.

Great Success

Pharmaceutical success has attended Dr. Coffee's work and first of all this home treatment. It is stated that more than 500 cases of deafness, head noises, nasal catarrh, etc., have been treated by this physician in all sections of the country and out of the great number have received complete satisfaction.

500,000 Treated for Catarrhal Deafness, is Doctor's Record

A remarkable record has been established by Dr. W. O. Coffee, the Davenport, Iowa, eye, ear and nose specialist, who claims to have treated 500,000 cases of deafness, head noises and nasal catarrh.

During his 45 years as a practicing physician, he has probably established a record which no other physician in the country can match. His records show that he has treated more than 500,000 people, and that he has relieved head noises from nasal catarrh, and eye diseases.

Three people live in all sections of the country who have been treated, the majority of cases, at home, using the home treatment for this distressing condition as developed by Dr. Coffee.

The results of these different cases have been compiled and the merits of this home system of treatment have been absolutely proved.

He has treated 500 cases with one definite system of treatment, it is sufficient to establish what it will do.

Dr. Coffee has published a book on Deafness and Head Noises; he will send a copy with his free trial treatment.

Many of his patients have been people whose hearing was bad in one ear and was rapidly spreading to the other. As soon as the hearing grew worse, quickly this condition was relieved; benefited not only for the time but the start of the disease was stopped and disappeared.

Dr. Coffee arrives at young and old patients with a condition which has been called "nasal catarrh." What this is vital to him is in obtaining prompt relief in his home treatment.

Dr. Coffee has demonstrated his efficacy with young as well as old patients. His results have been borne out by the results later mentioned in this article.

Amazing Letters Received from Many Who Thought Their Cases Hopeless

March 13, DAVENPORT, Ia.—From among the thousands of letters received by Dr. Coffee, the deafness and catarrh specialist, from people who tell him they have suffered from deafness and head noises from nasal catarrh and from catarrh, he has selected a random number which are reproduced below:

All of the letters shown in this article are on file in his office. The letter practically as they came from the writer, follow:

After 17 Years.

"Mrs. M. R., aged 61, of St. Louis, came to me about 17 years ago, telling me she had lost her hearing about 45 years ago, caused from a catarrhal condition that started when she was a child. She had been treated by the best doctors in St. Louis and finally went to Berlin, Germany, and France, trying to find relief from the deafness.

"She was practically totally deaf in one ear, and when she would speak, she couldn't hear a telephone in 17 years. She had to write to others to tell them what she said.

"She had been treated by the specialists of the most famous clinics.

"She started my treatment,

and used it regularly. At the end of

two months' time she appeared to be like a new person. She could hear a half, she sat down and cried, she was so discouraged; at three months she thought she could hear a little better. She was given a telephone in about a year, and at the end of that time could hear a telephone plainly in either ear, the first time in 17 years.

"She was practically totally deaf in one ear, and when she would speak,

she couldn't hear a telephone in 17 years. She had to write to others to tell them what she said.

"She had been treated by the specialists of the most famous clinics.

"She started my treatment,

and used it regularly. At the end of

two months' time she appeared to be like a new person. She could hear a half, she sat down and cried, she was so discouraged; at three months

she thought she could hear a little better. She was given a telephone in about a year, and at the end of that time could hear a telephone plainly in either ear, the first time in 17 years.

"This was one of the most severe cases I have ever treated, and it shows the possibility of what may be done if the structures of the middle ear are not damaged by the disease.

"My treatment has been a success, but fortunately, almost miraculously, the ear drums were not seriously damaged."

"She was practically totally deaf in one ear, and when she would speak,

she couldn't hear a telephone in 17 years. She had to write to others to tell them what she said.

"She had been treated by the specialists of the most famous clinics.

"She started my treatment,

and used it regularly. At the end of

two months' time she appeared to be like a new person. She could hear a half, she sat down and cried, she was so discouraged; at three months

she thought she could hear a little better. She was given a telephone in about a year, and at the end of that time could hear a telephone plainly in either ear, the first time in 17 years.

"This was one of the most severe cases I have ever treated, and it shows the possibility of what may be done if the structures of the middle ear are not damaged by the disease.

TWIN FALLS, IDAHO, SUNDAY MORNING, MARCH 13, 1927.

NEWS OF THE DAY AS CAUGHT BY THE CAMERA

FALLS BEFORE CANTONESE OFFENSIVE—Picturesque Foo Chow fell before the Cantonese forces on their drive northward through China toward Shanghai.

PAOLINO PALLS ON HANSEN—Knute Hansen went down in the eighth round for the only knockout in his fight with Paolino Uzedun in New York. Paolino got the decision, giving his claims of heavyweight superiority a little more strength.

ON TOES—Helen Wills abandoned her flat-footed style of play and practiced covering the Berkeley, Cal., courts on her toes, much after the fashion of Suzanne Lenglen, in an effort to regain her tennis laurels.

THREATENED WITH GUN—Marion Nixon, movie actress, was threatened with a revolver by Joe Benjamin, her ex-husband and former light weight boxer, according to a complaint made to the Los Angeles police.

PUZZOLINI THE FASCIST—H. T. Moran, of New York, filled the role of Puzzolini the Fascist in the annual West Point cadet comedy, "Nautical Knots."

A WANDERER—Kasia Maloney, daughter of a New York Supreme Court Justice, wandered about the State for four days before she was found at Cohoes. The fifteen-year-old adventurer was sent home.

GETTING THE BAD NEWS—"How much must I lose?" New York Giants asked at the Spring training camp at Sarasota, Fla. This shows the club Shylock, a trainer, estimating the amount of Winter flesh that must be burned out by exercise.

ONLY LICENSED SECOND—Mrs. Eva Tebyng of Sioux Falls, is South Dakota's only woman to be a licensed boxing second, and is believed to be the only one in the world.

FRANCE SEEKING MEANS TO STIR LOW BIRTH RATE

Various Laws Advocated as Necessary Remedies for Population Problem of Nation; Urge Simpler Ceremonies.

By The Associated Press
PARIS, March 12 (AP)—Proposed laws for numerical methods and existing marriage laws are advocated by many as necessary remedies for France's population problem.

Additional taxes on alcohol, all agree, should not suffer for their parents' disregard of social conventions. The men make good husbands and the women good wives and mothers, supporters of these ideas contend. In addition, they insist, birth control should be encouraged to bring birthrate down to normal, and 10 per cent tax reductions have failed of their object.

One suggestion is that marriage for money should be prohibited in the United States. The French have not yet published the laws at the city hall there, successive Sundays before the wedding, fulfill troublesome other formalities and the parents' consent is essential if the union is under 25 or the wife under 18.

Bligommeur is high in Paris especially. The necessity for a marriage ceremony is increasingly disregarded for many reasons that are stronger here than in the United States. Often the bridegroom's children are too numerous, but it takes courage for them to let others know they were not married before.

The "freedom" or sort of common law marriage does not figure in this article, but many Frenchmen live in that state in France, authorities say.

French Girls Get More "Equal Rights"

PARIS, March 12 (AP)—Women have won their long fight for full equal participation in the government's highest institution of its kind in France.

The government, representing men, has surrendered. Madame Mirey, the only woman honored in the government examination, was called a "scholarship pupil." She now has the highly valued title of "pupil" of the school.

Four other women, from 10 to 20, followed the school's courses and graduated with the men. They call themselves "former pupils." Since the right of women to rank with men in the school is definitely established the four who were denied that right ask that they be given them retroactively.

Paris Is Started By Artistic Garage

PARIS, March 12 (AP)—A garage as art has entered the downtown district. Mallet-Stevens, a French architect of note, has achieved a "starting point,"

OVERHEATED STOVE GETS ABLAZE; 9 PERSONS DIE

BLAIRSVILLE, Pa., March 12 (AP)—An overheated stove was believed by Coroner James Harkins to have caused a fire near Tunnelton which brought death Friday night to nine persons, all members of the same family. The victims were Clarence A. Marsh, a mother, her wife, their five children, and Mrs. Harry Marshall, the only person to escape from the burning house after making a futile effort to rescue his wife and child.

by sharp contrast of lines and of a few shade colors, both on the exterior of the tourist building and in the wide display room.

Geometrical designs of red, rose, blue and white are made in a three-story room interior. Indirect lighting gives soft illumination.

Outside, the name of the car sold there is used three times but with such artistry that the advertising is decoration.

Besides each entrance is a large lantern set in a raised framework.

Punch and Judy

PARIS, March 12 (AP)—The "Guignol" or "Punch and Judy show" is gaining recognition in France as an art with its own unique worthiness of preservation.

Lionel Mongré, who brought the idea from Italy, in 1916 developed it at Lyons, and his descendants still present the old sketches written around the characters of Guignol and Gnaouf.

The satiric humor that marks the playlets, burns holes in political and social bombast and the simple directness of the story-telling fire with children and adults alike. The guignol still pleases mostly to children, but at its best is appreciated by all.

Black Mirey Bill

Aton of Hard Times

PARIS, March 12 (AP)—The annual "Ball of Black Mirey," or "Ball of the Poor," given for charity, has an aim of unemployment and a nervous police force.

The unemployed, drawing doles, threatened to put up a resistance into the second year, and the minister of labor forbade the drawings two days before the date advertised for it at one of the principal theatres.

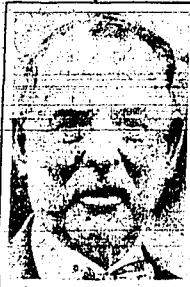

French Auto Driver Gets Provoce Incidence

PARIS, March 12 (AP)—The French automobile in an accident is assumed to be guilty unless he can prove his innocence.

The court of cassation in a test case laid down the principle that will guide automobile jurisprudence. Henceforth, the driver of the car will be at fault, but protected in many counts. Sometimes the same court decided differently in different cases.

The law is based, not on any special legislation, but on the old law that the owner of any "thing" is responsible for any damage it causes whether the "thing" is a building, a cow or a child. The law was in force before the automobile existed.

Utah Legislator Charges Fake in Published Record

SALT LAKE CITY, March 12 (AP)—Faking in the document of the state legislature another address after adjournment, was charged Friday by Senator Charles R. Hollingsworth of Ogden, during a stormy scene in the state capital, following distribution of the published record of the transactions of the session only on the last day of the legislature.

After reading the journal, Senator Hollingsworth, accompanied by President Alonzo B. Irvine of the senate and other senators, secretary, went to the office of Elmer L. Cropper, chief clerk of the house and declared that the presence of Speaker W. M. Jorgenson that a communication never sent from the senate and never signed by Secretary Cummings had been included in the session record.

"You have used a fake letter," he declared.

Denies Charge

Mr. Cummings denied this. The letter he produced from the files had been changed from the form usually used by Mr. Cummings and the changes were written with pen.

Mr. Cropper insisted that the communication was not a fake, but a copy of the original.

"Marienpo" is its name, it was built by Mrs. Mary Emery, wealthy Cincinnati social leader and philanthropist, as an experiment in community living place of ideal environment at cheap rent. "The town was named for her," "Mary" becoming "Mari" in the spelling.

Most of Marienpo's residents work at their trade and contribute to their homes. The village is a slice of old England, all of its structures faithful to the English style of architecture.

Public Commons

There are public greens and commons where the children play and picnic. There are public pews, a library, a public swimming pool, a public schoolhouse, and the post office.

The operator tuning it back. "That is dated March 4," he said, "and the letter in the journal is dated March 10. I wish to see the letter of March 10."

Mr. Cropper said he would shortly be able to produce the four letters.

Declaring that he had had four letters, but had condensed them into one, Clerk Cropper searched his files and found Senator Hollingsworth a sheet of paper.

"It is not a fake," he said. "It is dated March 4, 1927, and the letter in the journal is dated March 10."

Marienpo has two appearances of a regular town—a fire department and a police force. A big red double-track railway is a little gaily furnished, with a station, a post office, a telegraph office, a regular hotel near the town center. Across the street is the town newspaper and near the park is the community church, expressing the spirit of the place.

Numerous radio messages have been exchanged with the aviators. The Aviators are members of their committee with a Mohawk tribe and did not intend whether any ransom had been paid to effect their release.

WOMAN BUILDS UTOPIAN TOWN

Weathy Cincinnati Social Leader Establishes Village as Experiment With Workers.

CINCINNATI, March 12 (AP)—In the hills of Ohio's rolling hills, 10 miles from here, lies the town that Mother Emery built.

It has no mayor, no council, no government. Five hundred peaked and gables houses compose it, and its citizens live a happy life, as Mother Emery wants them to.

The "Blackbirds," an all-American negro troupe, coming here from Paris several months ago, caught on at once, and has been filling the house at every performance.

Waltz is a popular strain among the negroes.

Taking advantage of the craze for jazz as dashed out by real negro artists, English managers have started three traveling companies on the road which are making the London salaried jazz players envious.

The "color" craze has even reached the department stores, where black and colored wax models have been introduced to the public in the street.

Most of Marienpo's residents work at their trade and contribute to their homes. The village is a slice of old England, all of its structures faithful to the English style of architecture.

Negro Entertainers Gain Popularity In City of London

LONDON, March 12 (AP)—Negro singers and dancers are more popular in London today than at any period in history. Many of them having regular theatre engagements, are working long hours overtime in the cabaret and at private parties.

The popularity of the negro dances is attributed to their attractiveness, the steps they put into their steps, and the singers are in demand because of their originality, their barbaric enthusiasm.

The negroes are much in demand by others.

The "Blackbirds," an all-American negro troupe, coming here from Paris several months ago, caught on at once, and has been filling the house at every performance.

BUHL MAN FALLS UNDER WHEELS

George McPherson Suffers Injuries When Throw Off Load of Hay.

BUHL, March 12.—George McPherson, member, living west of town, suffered injuries Tuesday when he was thrown from a load of hay, two wheels of the wagon passing over him. The injured man suffered a broken collar bone and several bruises.

Dr. James Monroe, who suffered a stroke of apoplexy recently is improving slightly.

Members of the Home Club were entertained Thursday by Mrs. Ernest Miller with Mrs. Sam Peeler and members of their families, answered to roll call with their wives and husbands. Mrs. E. P. Barber was chairman of the program on "Americanization." Mrs. Clyde Sutherland read a paper on the subject prepared by Representative A. L. Sanderson.

Campbell, Anderson, and the children followed. Mrs. McPherson gave two piano solos followed by Mrs. Coleman who gave a humorous reading. A two course luncheon was served.

Ernest Miller left this week for Tucson, Arizona, on a business trip.

Girl Scouts Meet.

Members of the Girl Scouts met Wednesday evening with the local adult council and Miss Helen Black to complete plans for the Father's and Daughter's banquet to be held Friday evening, April 1.

Frank H. Barnhardt of the Twin Falls High School faculty addressed the meeting on the subject of forming a local directory for southern Idaho.

Adjacent towns of the north and south will be invited to join. The plan carries girls of the various high schools of the district will be included in membership.

The reserves will hold Vesper services Sunday, April 10 in the high school auditorium.

Funeral services were held Wednesday at the Nazarene church for Leonard Ewell, aged 71, pioneer of the Buhr district who died in McPhee, Iowa. The deceased came to the tract in 1904.

Mr. and Mrs. Corlet of Nampa will visit friends here several days, arriving Sunday. Mrs. Corlet was formerly of Buhl.

Northview Club Elects.

The Northview Community club met Thursday at the home of Mrs. William Fisher with Mrs. Clark as assistant hostess. Election of officers was held with the following results: President, Mrs. A. D. Madison, vice president, Mrs. O. G. Brooks; secretary-treasurer, Mrs. Lawrence Rubeluk. Twenty members and four guests were present.

Plans were made for a St. Patrick's Day party to be held the evening of March 17 at the school house with Mrs. Vance and Mrs. S. D. Bonar in charge.

The next meeting will be held at the home of Mrs. Ernest Miller with Mrs. Ed. Martin acting hostess.

Mr. George Bough of Ogden returned Thursday after spending a few days with his sister, Mrs. I. G. Wilson.

Mr. and Mrs. Alquist returned Friday from Salt Lake City where they spent a week on vacation.

The Eastern Star chapter has issued invitations for a dance Tuesday evening at the I. O. O. F. hall. Music will be furnished by the Black and White orchestra and lunch will be served at no charge.

The Women's Missionary society of the Presbyterian church will meet Thursday at the home of Mrs. P. W. Jeffers. Mrs. C. D. Boring will be the leader.

Mr. W. A. Gray assisted by Mrs. E. H. Landis entertained members of the Magic Circle, Friday at a charmingly appointed St. Patrick's luncheon. The dining table was centered with a green cloth, flowers, and a professional arrangement. Net-upon-candles further carried out the color scheme. The afternoon was spent merrily.

Mr. and Mrs. Foster Griggs are the parents of a daughter born March 8.

D. O. is Busy Bees!

Chapter No. 15, D. O., met Monday evening with Mrs. M. M. Van Patten. A lengthy business session was held, including initiation ceremonies, election and installation of officers, the reading of a historical and educational story.

Mrs. J. C. Conner and the completion of plans for a dinner and program for the evening of March 23 in honor of the husbands of the members.

The following officers were elected for the coming year: President, Mrs. J. H. Hart, first vice-president, Mrs. James Hartmann, recording secretary, Mrs. J. M. Shanks, corresponding secretary; Mrs. L. R. Haynes, treasurer; Mrs. R. T. McPherson, chaplain; Mrs. C. C. McPherson, constant guard; Mrs. J. M. Shanks, Mrs. James H. Shields, and Mrs. Charles Busman were elected delegates to the state convention to be held in May.

At a meeting of the General Aid section of the D. O. on Saturday afternoon, the following officers were elected for the ensuing year: President, Mrs. William Vogel; vice president, Mrs. George Stecher; secretary, Mrs. Wardell Swiger; treasurer, Mrs. Kuhn. During a lengthy business meeting, plans were outlined for the coming year.

Members of the Springs club were entertained Thursday afternoon at the Luke Inn, owned by Mr. Canada. A dish of five hundred eggs was in play and a dainty plate luncheon was served by the hostess. The next meeting will be with Mrs. T. J. Newlyn.

Venice Bazaar of Gannett is the

guest of her grandparents, Mr. and Mrs. W. H. Brown.

Public Commons.

Jess and Frank Heidtke returned Saturday from Los Angeles where they have taken a course recently in the technical engineering.

P. T. A. at Deep Creek.

A P. T. A. organization was organized Monday evening in the Deep Creek district with Mrs. Whitmore as president. Thirty-one chapter members were enrolled. Mrs. Harper was elected treasurer and the organization will meet every month. The business meeting was followed by a question-and-answer session with pupils of the school and their parents.

The Fairview Kensington and Friends at the home of Mrs. Francis Brown. Hollie Hall was answered with a hearty "Hello." NATIONAL REPRESENTATIVE, Mr. George W. Miller, 1000 Broadway, New York, Chicago, Houston, San Francisco, Los Angeles, Seattle.

SELF-GOVERNMENT AT WASHINGTON

The shiprock of appropriation bills and constructive measures in the Senate is impressive in its scope. Not to dwell on the distressful conditions in which the army and the pensioned war veterans are left, nothing is done about reducing rated rates, aiming the new radio commission and enabling it to start to work, authorizing new public buildings, granting funds for building previously unchartered or existing organization property, which have been burning fire for years. Many important inquiries are being born.

The rich nation in the world, with its wealth, cannot pay its bills for lack of legislative authority.

These vital matters were sacrificed to the egotism of filibustering senators who evidently considered their personal or sectional interests and grudges more important than the public welfare. Affairs to the stupid reticence of the Senate, which to apply its emergency rule for the limitation of debate.

The United States, in view of the

Dawes bill it at the close of this disgraceful chapter, "the only great representative body in the world in which a majority can prevent a majority from exercising their constitutional right of bringing measures to a vote."

And we talk, in sorrowful sympathy, of the inability of neighboring countries to govern themselves!

MEDICINE BOTTLES

Bottled a dozen bottles in Chicago because a bottle of boracic acid was taken for a bottle of distilled water. The boracic solution, intended for their eyes, was fed to them to relieve their throat. Mild as it was, it killed the infected.

There is no use in bringing up such a heartbreaking tragedy except to point a lesson that may prevent other tragedies of the kind—it is Gladie that such a mistake would have been made, even in the confusion of earliest morning with shifting masses, if both bottles had been clearly labeled.

To the credit of hospitals it must be said that such mistakes are rare with them. It is usually in the comparatively small medicine cabinets and the simple exigencies of private homes that such bottles are mistaken for anything else.

And we talk, in sorrowful sympathy,

of the inability of neighboring countries to govern themselves!

FIRST SHOWING BY NASH OF ENTIRELY NEW MODELS

Following the sensational debut of the Ambassador and Cavalier models, Nash now discloses for the first time two entirely new models of the same general character in design and priced to fit the needs of an even wider market. These two new cars, which are known as the "special" sedans, one is mounted on the advanced six chassis while the other is on the special six chassis.

"With the unique Ambassador

which is the premium point of interest about these two new 'special' models is distinctly an original Nash creation it possesses an elegant air that is unique in its class.

And the classic, graceful, French type back illustrate this distinction.

Judging by the phenomenal enthusiasm

shown by their present proprietors,

the Ambassador and Cavalier, these two "special" models will win immediate public favor.

BOW TO ENGLISH SOCIETY COSTLY

Americans, Investigating Advertisement of Titled Woman, Find Many Expensive Items.

LONDON, March 12 (AP)—An advertisement in a London paper to the effect that a lady of title is willing to introduce Americans into English society, led to some inquiries regarding the cost of such introduction. They last between \$3000 and \$5000 pounds and it is pointed out, in addition to the "fee," required by the introducer there would be all sorts of other expenses.

London, March 12 (AP)—An advertisement in a London paper to the effect that a lady of title is willing to introduce Americans into English society, led to some inquiries regarding the cost of such introduction. They last between \$3000 and \$5000 pounds and it is pointed out, in addition to the "fee," required by the introducer there would be all sorts of other expenses.

Rare View Exposed When Flag Lifted

LONDON, March 12 (AP)—Hundreds of ships of all sizes and nationalities were recently blockaded by Frenchmen who had come to the British channel, and when the grey blanket finally lifted a panorama of shipping such as never before seen from the English coast greeted people in Deal and other English ports.

It was not until the neutral scale is to be established, endless dinners, evenings and Ascot attendees must be laid up, as well as charitable functions. The original fee for introduction would be only the beginning of the payout.

Brothers Fight Over Woman

CAMPBELL CARRINGTON (left) was caned by his wealthy brother, Colonel Edward O. Carrington (right) before the home of Mrs. Edward O. Carrington in New York. In Chicago courts the colonel was suing his wife for divorce, and in another suit he asked \$1,000,000 from his brother for alienating her affections.

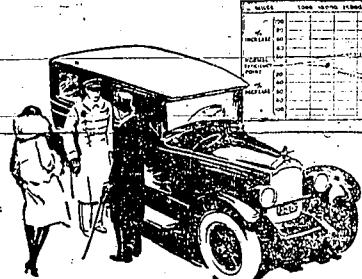

Anxious young mother, are prepared by Queen Mary herself. The queen, from experience, is able to put just the touch of infinite detail required by the infant, that she knows the Duchess of York awaits.

Those in the royal household say that the young Duke of York is thriving and developing rapidly, and that Queen Mary is prepared at any moment to flash across the ether the first word which the young prince speaks.

Most Now Bred to Fit Small Ovens

LONDON, March 12 (AP)—Civilization has become so compact that English cattle are now being bred to produce more meat than milk. The small ovens of fat. The good days of joints and roasts of great weight are gone forever.

Changes have gradually taken place in the breed of cattle in the Southfield estate, the Southfield estate, which for more than a century has been the guardian on England's behalf of the Order of the Garter, now wears this premier decoration of England also are expected to be present. Among those are the kings of Spain, the Belgians, Sweden and Norway.

The "70" Willys-Knight Six Sedan
\$1495 f.o.b. factory

A new order of motoring A triumph of Engineering Leadership

Your first glance tells you that the improved, finer Willys-Knight Sixes are the most advanced of today's motor cars.

New and finer "70" is at once apparent. Lower, more graceful lines. True symmetry, perfect proportion. Roomier and more comfortable interiors. Superior coachwork.

Even a casual inspection of the finer "70" Willys-Knight Six is enough to excite your enthusiasm. But drive the car. A 25 mile ride will reveal to you a new order of motoring. Far ahead of any performance standards you have known before:

Speed between 60 and 70 miles an hour.
Lightning pickup—5 to 25 miles in 7½ seconds.

Amazing power on hills—53 h.p. motor. Quietness—smoothness, flexibility, that only the patented Knight sleeve-valve engine can give.

Safety—the quickest stopping, easiest handling car you ever drove.

The engine of the finer "70" Willys-Knight Six is the most powerful standard power plant of its size in America.

Because of its patented sleeve-valve principle, this engine actually grows smoother, more powerful and more efficient with every mile of service.

It has no valves to grind. You never lay it up for carbon-cleaning. It has no springs to weaken. It is practically fool-proof and wear-proof. No Willys-Knight motor, so far as we know, has ever worn out...

"70" Willys-Knight Six prices from \$1295 to \$1495. Willys-Knight Great Six, for those who want the finest, \$1450 to \$2200. Prices f.o.b. factory and specifications subject to change without notice. Purchases may be arranged on convenient credit terms. Willys-Overland, Inc., Toledo, Ohio.

Populace of Bengal Province, India, Equally Divided in Religious Belief; Co-operation Sought Among Executives

WASHINGTON, March 12—Willing that extremity, no one could charge Idaho with having such a divided population as the state of Bengal, India, where the native executive controller of the National Geographic society. The bulletin continues:

"These posts are filled by Moslems, Hindus, Sikhs, and Christians, who are equally divided between these religions."

"For more than two years the government of Bengal has had two chief commissioners, who are Moslem and Hindu, and recently a Moslem and a Hindu were appointed. Now it is reported that the Moslem opposes the activities of the Hindu missionaries in the vicinity of the frontier."

More Than 60 Languages Spoken

"Straddling the north-south polar line of the Bay of Bengal, the province stretches northward to the peaks of the Himalayas. While it covers a slightly larger area than Kansas, an army corps of 100,000 Indians in New York state, Pennsylvania, Illinois, Ohio, Texas, and Michigan. More than 60 different languages are spoken, not to mention the various dialects."

"The narrow northern extension of Bengal resembles that of Idaho. Like Idaho, Bengal spreads out as it heads east from the Bay of Bengal and easily stretches southward. But after heavily-trenched by canals, rivers and rail-

roads from the interior, Assam and other neighboring provinces also use the name Bengal. As a result the Houghly is filled with shipping."

"As one approaches the city by water, the tall smokestacks of jute-mills loom up above low buildings where jute working is made and shipped all over the world. The products of these mills, more than \$125,000,000 worth of jute products are exported from Calcutta annually."

"Calcutta includes Calcutta proper, the port of Calcutta, Howrah, where the Hooghly joins the Ganges, and Haldia, on the opposite side of the Houghly, a manufacturing center and the terminus of three large railroads. They are all included in the city of Calcutta with a population as large as Boston."

"In sharp contrast with the commercial and factory districts, Calcutta has beautiful parks and lakes, fine residences and imposing government buildings. The climate is equable, the air is healthy, and the people are strong and robust. Heavy trucks are swung about their heads in carried long distances, and down hill in a paroxysm of exertion. Even with three or four boughs they are heads of their families."

"The native women seem to try to out-jingle one another by wearing all kinds of ornaments. The Darjeeling porters mounted are bedecked with earings, anklets, bracelets, and necklaces of silver, glass and turquoise. When two or three of them approach, they jingle like the chains on a herd of circus elephants' legs."

Proved on Studebaker's Million Dollar Proving Ground

- 70 actual miles per hour!
- 5 to 40 miles in 18½ seconds!!

THE COMMANDER

Studebaker's Big Six Brougham

NOW \$1585 f.o.b. factory

STUDEBAKER engineers satisfied themselves by Proving Ground tests that The Commander would out-speed, out-climb and out-live any other car—six or eight—selling for less than \$2500.

But the ultimate proof of performance is on the road—with yourself behind the wheel! And on the road, as on the Proving Ground, you will thrill to the flashing pick-up, the silky smoothness of speed and the ease of handling that The Commander places at your command.

New Studebaker Prices, Effective February 16th

| Old Price | New Price | Saving |
|-----------|-----------|--------|
| \$1250 | \$1195 | \$55 |
| \$1335 | \$1325 | \$10 |
| \$1385 | \$1335 | \$50 |
| \$1735 | \$1645 | \$90 |
| \$1785 | \$1685 | \$200 |
| \$1610 | \$1445 | \$165 |
| \$1680 | \$1495 | \$185 |

F. o. b. factory. Thermos, fence and rear inclosed, of course. Four-wheel brakes and disc wheels regular equipment.

EQUIPMENT—The Commander: Nickel-plated bumpers, front and rear; snubbers; no-draft ventilating windshield (exclusively Studebaker); full-size balloon tires; disc wheel and post-style acting four-wheel mechanical brakes; thermometer and hydrostatic gasoline gauge on dash; two-beam aeronautic headlights, controlled from steering wheel; cow light and interior dome light; rear traffic signal light; automatic windshield cleaner and rear-view mirror; oil filter; Almetite chassis lubrication; silken curtains; Butler-finish hardware.

The Erskine Six, Studebaker's 2½ litre car, is now on display. It offers a new standard of comfort, performance and economy. See it in our showroom.

WAR MANEUVERS THRILL PEOPLE

Expected Revival of Frequent
Military Parades at Potsdam
Stirs Aristocratic City.

BERLIN, March 12 (AP)—The expected revival of frequent military maneuvers on the parade grounds of City Palace had by Frederick the Great, who thrived on the thrill through the aristocratic Hohenzollern city, even though the manuevers were to be conducted by a republican army.

The first review since the war of the Third Prussian Infantry Division took place yesterday at Cossack Cavalry Chief Headquarters. A large number of former officers in the Kaiser's army attended in peace time uniforms. Prince Oscar, fifth son of the former Emperor William II, was there in civilian attire. The American ambassador, Jacob Gould Schurman, and the American military attaché, Colonel Conner, were guests of honor.

"Church of Bells" Haven for Eccentrics

BERLIN, March 12 (AP)—Berlin has a unique institution in the so-called "Church of Bells."

"Schirippe" is a Berlin term for rolls. In the "church of the rolls," which is located on Acker street, in the poorest section of the German metropolis, the owners of the rolls have been invited to spend a few days in the "Church." They are given a room only with a sermon, but also a pot of soup and two rolls.

Every Sunday morning at 8 o'clock the church doors open like a organ, and go with all their might to invite to spend a few days in the "Church." The dining room, they are lodgers and destitute. Instead of church benches, there are two long rows of tables, at which those unfortunate are fed as the pastor delivers his sermon.

Germany Moves to Quit Death Penalty

BERLIN, March 12 (AP)—The movement to abolish the death penalty in Germany is gaining headway while the Reichstag is preparing to consider modifications.

Members of the legal profession, jurists and educators are the principal leaders of the plan to substitute life imprisonment as the penalty for first degree murder. Hanging is the most common for carrying out all execution, though the gallows is still used in some states.

Nationalist elements, however, insist that the death penalty ought to be extended to cases of espionage, even those in which industrial and trade secrets are betrayed to foreign governments.

Convert Water Tower Into Six Story Flat

BERLIN, March 12 (AP)—The latest freak in apartment house construction is the conversion of a water tower into a six-story flat building affording accommodations for 100 or more persons.

The lower floor of the tall concrete structure, standing on Unterfauster strasse, has been租出 for communists for some 15 years, supplied by more modern methods of water distribution. The circular shape made the arrangement of the rooms somewhat difficult, but the architects have turned out as satisfactory job, this particular as could be reasonably expected.

Externally, it presents a rather imposing and not at all architecturally pleasing appearance.

Young Cellist Plays With Berlin Symphony

BERLIN, March 12 (AP)—Bettina Harrison, an English cellist, brought a new note into the traditional concert program of the Berlin orchestra for the first time in Germany. Edward Elgar's cello concerto to the accompaniment of the Philharmonic orchestra.

Elgar is comparatively little known in Germany, and Miss Harrison's name attracted all the attention to the concert, where the work as well as the soloist were warmly applauded.

Cafeteria Dines On German Railroads

BERLIN, March 12 (AP)—Cafeterias, dining vans, special workrooms and the like of the German Railroads' administrative are being tried out in the winter sport resorts of Bavaria. If successful, they will be extended throughout the country.

A small batch of Bavarian dishes there has been attached to a so-called "kitchen car," which is fitted out, not like the more aristocratic dining cars, but with a kitchen range and plates, a cook in the kitchen, a range, eating car, and similar simple fixtures, and every passenger helps himself on the cafeteria plan. The notion is to be consumed at the tables, which are set out tablecloth and napkin. So far as the room on the range, readers can warm their own coffee or dishes that they have brought along.

Castleford School Carries Off Honors

CARLETON, March 12—Castleford high school won first place at the Idaho Tech among all the high schools in the state while the University of Idaho came in second. The representatives from Castleford is Ormond A. Thomas, son of Mr. and Mrs. John M. Thomas of Castleford.

The girls in charge of three booths were the most popular in the school. They were the guests of the high school teachers at a theater party on Monday evening. The fish pond was highest, with Inez Connor in charge.

The Ladies Aid society of the Eden Presbyterian church conducted a successful dinner at the church basement, Wednesday evening.

The castleford club held a regular meeting at the Legion hall Wednesday afternoon. Mrs. Ray Powers and Mrs. C. B. Avery were hosts.

The members of the Eden American

play, the freshman English class won the box of cards for bringing the most fish for the fish pond.

Mrs. Anna Vogel is quite sick with appendicitis.

Mr. Becker of Centralia, Washington, father of Mrs. C. C. Davis, arrived here last night and will spend some time with his daughter.

Mrs. Celia Little, who has spent the winter at Long Beach, California, is living at the present at the home of her daughter, Mrs. Bennett.

Miss Elizabeth, wife of Mr. and Mrs. Frank Keenan, has gone to Ellsworth, Minn., to visit her parents.

Three members of the Castleford faculty are on the sick list. Miss Shetler, Mrs. Difford are ill with mumps.

Miss Mary, wife of Mr. and Mrs. Eddie Miller, of Africola, Card, died at the home of Miss Margaret Thomas, 142 West Five-Mile and Durkee.

EARLY BIRD POTATOES—Hines Triumphs, Olmos, Six Weeks, Cobblers, Blue-Victor. A pound or a ton?—Ed.

FOR SALE—Certified Federation seed, 50% discount, 100% quality and 100% germination. Mrs. Frank Keenan, now Mrs. A. C. Heller, Mrs. Len Clement and Mrs. Frank Keen are guests.

MOUNTAIN DANVER onion seed and Bobon's onions. Stock seed selected for six years. Last season's yield over 500 sacks per acre. \$2.00 delivered. John L. Peters, 1 mile east, 1½ south Kimberly. Phone 5134.

W. C. Brown was appointed business manager of the newspaper.

Mr. Fred Rikstrom is very sick at his home here.

Mr. and Mrs. Terrence Sime have moved to their new home, 1110 Main, in the new Chavis.

Mr. J. H. Glander is confined to his home by an attack of influenza.

The members of the Sparrow League held their fourth meeting at the Hotel Kimberly Wednesday.

The Castleford grange met in regular session at the Gager hall on Wednesday evening. Worthy Master Frank Keen presiding. It was voted to invite the Mutual Power company and the Idaho Power company to a public meeting in the grange hall to discuss electricity.

W. C. Brown was appointed business manager of the newspaper.

Mr. Scott presented a St. Patrick program. Seats were in order. A solo by Jim Flynn and a reading by Mrs. Flynn.

After the business meeting Mrs. W.

DICKLOW WHEAT FOR TWIN FALLS

Experts Give Reasons for Rec-
commending Type of Grain
for South-Central Section.

The following is an excerpt from the agronomic recommendations for higher production wheat. We have at hand the department of agronomy and agronomist at the Idaho agricultural experiment station, and C. L. Abdon, field agronomist, "Red" slate seed, remains ignorant.

Spring wheat for the irrigated area around Dicklow, Lewis' Improved Dicklow and Federation, Dicklow is recommended for Twin Falls, Jerome, Gooding and irrigation sections of Twin Falls county. This variety has been recommended in these counties, and since there is very little difference in yield between Federation and Improved Dicklow, and since the marketing companies have developed a southern bias toward trade for the Dicklow, this variety will continue to be standarized in these sections.

Dicklow is better suited for poor lands than is Federation.

Adapted to Rich Soil.

Dicklow is adapted to a rich soil and will give the highest yield when for other crops. When grown in wheats will lodge badly. Federation will stand up and produce a heavy yield.

The earlier this variety is planted, the better will be the yield. It should

be irrigated earlier than Dicklow. The character of these two factors largely determines the yield of Federation. Federation will stand up under a very late irrigation. It ordinarily should receive the last irrigation when in soft dough stage. It has been found to be more resistant to loose sand than Dicklow.

Federation is recommended for rich soils is any irrigated section with the exception of the counties mentioned for the reason stated.

GOVERNOR FIRST CORN GROWER IN ORION

SALEM, Ore., March 12 (AP)—The man who proved by doing it that corn can be grown in Oregon is now governor of the state.

"When I began raising corn years ago people said it was impossible," gubernatorial candidate Isaac L. Patterson said. "I was convinced if could be raised here so I kept at it."

Now it is grown generally in the state.

Being governor does not prevent the gubernatorial candidate's continuing as a farmer. His 500 acre farm is only 15 minutes drive from the capital so he can live in it and drive back and forth daily.

He is one of the largest raisers of corn in the state; the Patterson farm produces hops, hay and fruit.

The corn is kept in fatten livestock.

Movies Developing New Type Builders

HOLLYWOOD, Cal., March 12 (AP)—Agricultural histories of the market garden world are developing in a new kind of craftsmanship.

The workers are trained in the motion picture studios, where the designer of architectural sets for feature films gives his imagination free rein. He makes models unique and exceptionally beautiful, it is said, and the screen's architects all over the world. If it strikes a false architecture note, an enduring harm is done for the set designer's work is but an extension of his own.

Working is such an environment, carpenters, shingleers, painters, glaziers and timbers of film had developed a willingness to carry out strange ideas. Although the scenes are built for the screen, the film architectural experiments is notable in the Hollywood area of Southern California. French Village" and Spanish Village" in Glendale counts among its sights, and in Los Angeles bakery concern has a chain of Dutch windmill shops designed by motion picture workers whose specialty is putting "charades" into bread.

A studio chapter will change a roof according to the wildest dreams. It will not pause to argue. A carpenter trained in the movies will not ring up the income asylum if

after he has built a fine massive door he is instructed to "knock it down" by beating it with a sledge hammer. Nor will the studio plasterer hesitate to plaster a wall with plenty of cracks in it. Even the "Bamboo" will be kept after he has been asked to build a bamboo railroad which winds down the side of the house like a long constrictor.

Perennial

There is no season for nearly all flowers except the blooming idiot.—Stan Bernardino Sun.

Station INE Starts Broadcasting

TWIN FALLS, March 12. The outfit of a G. E. Wiring System installed in your home is a joyous addition to the family, and it leads us immediately into the sublime, and we will love to ask you use your imagination to follow us.

Imagine for a few moments that dark front porch is illuminated with the right kind of light, that stormy night comes over, you wouldn't have had to apologize for holding a flash light so they could find their rubbers when they started home.

It is supposed for instant, there was a convenience outlet in that front bedroom, so you could get the vacuum cleaner in there and clean that mattress on the spare bed or those

steps on the windows that get so high that you have to get on a chair to reach it.

What how nice it would be to have a convenient place to attach your iron when you want to do some pressing or a convenient outlet near your hand for your washing machine, etc., etc.

What if Dad were to have a switch put on that kitchen light, that is either so low it bumps you on the head, or so high that you have to get on a chair to reach it.

Wouldn't it have been nice if someone had thought to put a couple of bracket lights in just the right place by the bath room mirror, or thought to install a pilot light that would tell you when you forgot to turn on the laundry lights off?

Fridays, with a G. E. Wiring System all of these things are planned for

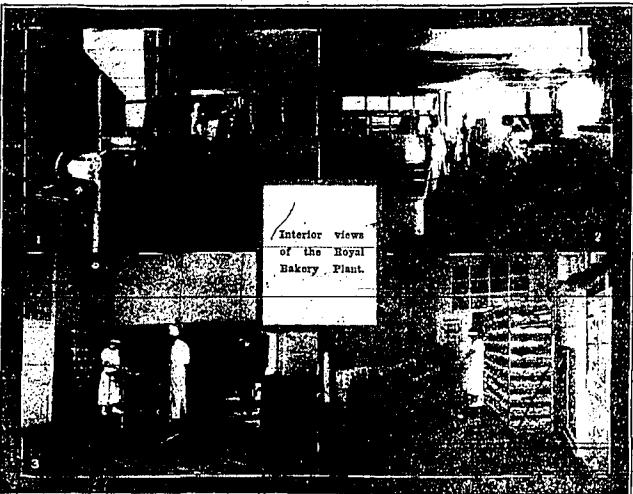

you in advance, down to the most minute detail, and after every thing has been arranged to your complete satisfaction, we will weave a fabric of material into the fabric of your home, and will be there for a lifetime of service.

Are you interested in cleanliness of manufacture of a loaf of bread?

Our flour is stored in an absolutely mouse proof room where nothing else is kept and where no bread making is done. It is blended, sifted, weighed and dumped automatically into the mixer and the water is heated to the proper temperature, measured and released automatically into the mixer. The other ingredients are taken from closed containers, carefully weighed and immediately placed in the mixer with the flour and water and then the dough is automatically mixed and delivered to steel containers that are freshly greased with mineral oil. Does

this mean anything to you? We believe it does.

BUTTERNUT BREAD is made in a full weight round loaf and sells at 10¢ per loaf. We also make BUTTERNUT TWINS, 2 loaves (3 pounds) for 25¢. Specify "BUTTERNUT" for a full weight pound or pound and half loaf.

MOTHER'S BREAD: For those who prefer a very light, fluffy, soft loaf, MOTHER'S BREAD is made in the same dough as BUTTERNUT but baked by the ordinary process. It sells 3 for 25¢. Specify MOTHER'S when you buy 3 for 25¢. You then get BUTTERNUT Quality in the soft, fluffy loaf.

AT ALL GROCERS.

THE UNIVERSAL CAR

Today's Ford Car

Before you buy any make of automobile, let us show you Today's Ford Car

You may consider that you know the Ford Car. You may have been a Ford owner for years and think you are familiar with the splendid satisfaction which the Ford gives, and yet unless you have made it a point to examine the Ford Car as it is Built TODAY—to drive it and note its improved engine performance—relax in it over rough roads, and experience the increased comfort which it affords, and to learn of many recent improvements, you do not know the Ford Car as it is built today.

Many of the New Ford features are obvious—balloon tire equipment—wire wheels—pyroxolin finish—a choice of colors—improved upholstery, etc., but the big satisfaction to you, as the owner of Today's Ford Car is to be found in the way in which it will fulfill your expectations of what a modern motor car should be. You will be amazed at the increased power resulting from the new Vaporizer, the smoother engine operation, the increased gasoline mileage, the improved riding qualities, and above all, in the way in which this car handles and performs in traffic and on the open road.

In short, you must drive a new Ford car to be a fair judge of present-day motor car values.

We invite your inspection of Today's Ford Cars.
