GARDEN FIGHTS OFF FOR WEEK

Boxing Activities at Madison Square Suspended Following Decision of Commission.

NEW YORK, March 14 (AP)—Boxing activities at Madison Square Garden are under suspension for the entire week of March 21 as a result of the state athletic commission's decision to delay finding the Richard gamble of paying Paul Berubeau an extra 25 per cent of the gate receipts for the fight in which he lost out on the Mike McTigue at the Garden on January 28. The suspension is directly at the next feature of the Garden's heavyweight championship program, facing the promoter to postpone the bout between Paulino Cruz of Spain and Tom Flanagan of New Zealand from March 21 to April 1.

Violations Ruled

By approving Berubeau on a basis of 32 1/2 per cent of the gate receipts in stead of 10 per cent called for by the contract filed with the commission, Richard "misled the commission," the latter charged, besides violating the rule which limits the amount of money paid participants to 20 per cent of the receipts. McTigue, though the victor, received only 20 per cent. "The promoter approached the commission with his attempt to contact the case but was unable to explain the case of the violation. In the commission's hands had been a report that Berubeau's percentage showed 20 per cent to have been substituted for 32 1/2 per cent. Richard admitted paying off at the higher figure but insisted he knew nothing of any "double contract" arrangement.

Richard also understood the commission had evidence of similar violations in connection with the Mackley-McTigue fight at the Garden March 4 but had no reference to this but was made in today's decision.

Richard declared the would not contact the title.

BUHL INDIAN MAIDENS TO NATIONAL TOURNEY

TWIN FALLS, March 14 (Special to The News)—The Buhl Indian maidens will take part in the national basketball championship of the United States at Wichita, Kansas. With an impressive record, these young athletes will represent Buhl Falls in the coming season. Many Twin Falls citizens. May their medicine man be powerful.

Bailey Turns in Perfect Score at Gun Club Shoot

The Twin Falls club and gun club turned in a good score in their regular match with those held Monday. The team score was 72 out of a possible 75, Judge Bailey did the shooting, scoring a possible 25 out of 25, while Alvin Harlow, shooting a newly adjusted gun, scored 24, and the club, 23. The original plan of a five-man team from each club has been changed, and hereafter only the three best scores will be submitted. Many good shooters are turning out and the competition is getting keen. The following is the score:

Boys	Shot at
Harlow	27 100
E. L. Patrick	25 100
W. E. Kist	22 100
Boys	62 25
Bailey	47 50
Whannel	45 50
W. E. Kist	42 50
M. T. Miller	39 50
Patrick	35 50

Training Camps to See More Regulars On Field of Play

ATLANTA, Ga., March 14 (AP)—More athletic games and the use of more regulars and lower coaches marked the opening today of the fourth week of spring baseball drill in major league camps in the South.

That seasoned campaigners of the American and National leagues have had time to strike their stride without the handicap of new players, and that the fitness is the theory of most players and from now until the regular season opens, they will see the large portion of the work.

As for the youngsters, most of them have had ample time to show their wares. Bob O'Farrell, who trimmed nine youngsters from the St. Louis Cardinals' training table Saturday at Avon park, said today, however, that he was about through. Only a couple more will be "farmed" while the regular roster of 25 will start the chase for another championship.

With the exception of Buckie Harris, of the Washington Senators, who turned away five Saturday, the punning knuckleball still is hot folk over in camp in Florida, Louisiana and Texas.

CLUB TO ELECT NEW DIRECTORS

Stockholders of Twin Falls Baseball Unit of Utah-Idaho League to Meet Tonight.

A stockholders' meeting of the Twin Falls baseball club is called for this evening at 8 o'clock at the Elks hall. The purpose of the meeting is to elect a new board of directors and elect officers for the coming season.

That special executive youngsters from the Sacramento club spring camp are to be named out with the Twin Falls club was recently announced on the springing page of the Sacramento Bee, by Rudy Hickox, sport writer. The names of Tony Krasovich, third baseman, Pete Samsel, pitcher, Moryl Hoag, outfielder, and Champ Alloway, catcher, are mentioned as candidates in the Twin Falls line-up. Krasovich is reported to be doing exceptional work at third and to be a hefty hitter. Hoag, from Berkeley, and is a youngster with a great deal of promise. Samsel, looked good in the league games he worked last year, it is said, and with added control, his exceptional speed will make him a useful infielder.

Hong Good Hitter

Hong and Alloway have had less experience than the others but are making a name for themselves at the spring camp. Hong is a hitter of exceptional ability, and has been knocking the offerings of the league pitchers out of the lot.

Nothing definite has been received by officials of the local club concerning players to be sent to Twin Falls by the Sacramento club, but President Colwell has been assured that a selection of promising youngsters would soon be made. Lewis Moring of the Sacramento club expressed his satisfaction in arranging with Twin Falls to season his most promising young stars.

Filer Track Men Defy Weather to Report for Duty

PILER, March 14 (Special to The News)—Thirty candidates in various degrees of negligence turned out yesterday afternoon in answer to Coach McLaughlin's first track call, at the Piler school high school. The hosts of wind and snow served to deplore the ranks of scuffle-eyed youngsters in a hurry, but not before the coach had talked over training rules for the season. An outline of the season's work was laid down, and the youngsters dismissed to report again tonight at 4 for regular practice.

A death of veteran material was apparent. Smith and Boyley are the pole vaulters, Smith will enter the weight events and the sprints. He gave promise last year, and should develop into another "Tamm." C. Boyley is out for the high jump and the bronze jumps and his brother Ed for the low jumps. Distance will all have to be developed from new material, and with a large number of candidates the prospects are good.

TRACK-PRACTICE-GIVES WAY TO BENEFIT SHOW

Track practice was called off at the high school yesterday afternoon to permit track candidates to attend the benefit show staged at the Elks hall. Unless weather conditions improve practice will be held indoors the rest of the week as it is too cold for outdoor practice. With the new building, which permits a runner who participates in a race over 220 yards to enter only one event, in force, it is imperative to develop several distance men. The fixtures are fortunate to have a number of likely candidates for the quarter- and half-mile events, and the coaches are anxious to get them started on the outdoor track.

OUTLINES VIEWS ON ARMS PARLEY

First Lord of British Admiralty Presents Ideas Before Commons; Favors Conference.

LONDON, March 14 (AP)—The British admiralty's view of the three-nation naval conference at Geneva proposed by President Coolidge was laid before the house of commons today by W. C. Bridgeman, first lord of the admiralty.

Marking the reservation that he could hold his present attitude only as long as the admiralty was able to carry out its sacred duty of maintaining a fleet equal to that of any other power and providing reasonable security for British sea communication, Mr. Bridgeman expressed the belief that nothing but good could come of such an exchange of views.

Frankness Essential

He insisted that perfect frankness between the powers concerned was essential for the success of the conference. Likewise they would have to respect and consider each other's special difficulties.

The head of the admiralty said he earnestly hoped that France and Italy would reconsider the position taken when they failed to accept President Coolidge's original suggestion of a five-power conference and would agree to take part in the Geneva meeting. But even without them, he believed Great Britain, the United States, and Japan could make considerable progress toward naval disarmament without risking the sacred obligations which he had mentioned.

APPROVE COOLIDGE PLAN

LONDON, March 14 (AP)—General approval of President Coolidge's naval limitation conference plan was expressed tonight during a long debate in the house of commons on the annual naval estimates.

Walter Humeiman (liberal) expressed the hope that a new conference would be held at the expiration of the Washington

These men are P. W. Harey, general manager of the Tounah Belmont, Earl Stone, controller, and Fred Deiling, foreman, of the same company. Harey is considered one of the best ore finders on the continent.

His company is one of the old going concerns of Tounah with a dividend record of millions, distributed in Philadelphia.

The fact that Harey and his ten tenants have become interested has started a rush to the northern hills. The reason the northern end of the camp was left open, in the mad rush of the past week is because the prevailing storms restrained the men from going to the high ground where there was so much good ground open to the south.

Judge John A. Houlahan is chafing over the delay in adjoining the Nevada assembly in Carson city because it keeps him from going out to his holdings next to the Horton mine. The judge was appointed two weeks ago a successful—discovered member of the legislature and now regrets it. He owes the good fortune of owning the best located land in Weepah to the fact that he was attorney for Frank Horton, who started the gold rush, and was advised his principal has just financed a deal in Las Vegas.

HAITIAN CHIEF FIRM IN STAND AGAINST SENATOR

Continued From Page One

New York, the senator had telegraphed to the leader of the political opposition in Haiti to the Bureau administration that he would visit Haiti to inspect conditions, presumably in company with the anti-government leader, Perceval Thely. It was indicated that President Lhuiss was incensed by this even more than by criticism of his administration by the United States and regarded it as attempted intervention in Haitian political affairs.

There have been political troubles in Haiti recently in connection with local elections and it appears possible that this situation had something to do with Senator King's resignation.

HOCKEY CHAMPIONSHIP AT STAKE NEXT MONTH

NEW YORK, March 14 (AP)—The home and home series between the second and third place teams in the two national hockey league divisions will be held at a meeting of club representatives today.

ORDER EQUIPMENT FOR ELKS LODGE GYMNASIUM

Athletic equipment and apparatus amounting to about \$200 was ordered yesterday by members of the Elks Athletic association, recently formed in the Elks club here. Upon arrival the apparatus will be sent to the Elks lodge rooms for use of members. In addition clubs, dumbbells, horizontal bar, chest weights, and mats were included in the order which is expected to arrive in 10 days. While the Elks have often sponsored athletic events in their lodge rooms this is the first time they have tried to equip their rooms with regular gymnasium apparatus available to the members. Members of the association were enthusiastic over the prospect of a gym of their own.

-the password to pipe-pleasure

GIVE the sign to the man behind the counter and he will hand you a tin of the grandest tobacco that ever snuggled in the bowl of a pipe. Throw back the lid and revel in that tantalizing aroma of real tobacco. Load up and light up. There you have it!

That is Prince-Albert, Gentlemen—smoked by more men than any other pipe-brand. This overwhelming preference didn't "just happen." It exists for the single reason that P. A. brings more deep-down, solid satisfaction out of a pipe than any diet you could put it on.

The very first pull will tell you that Prince Albert is unlike any other tobacco. Notice how cool it smokes, no matter how wide you open the throttle. Notice, too, that it doesn't bite the tongue or parch the throat, no matter how often you fill-up and pull-in.

You may think you are all set on a smoke-program. Fair enough. But don't let that interfere with your getting a first-hand knowledge of what P. A. offers in real pipe-pleasure. Where there's so much P. A. smoke, there must be the fire of truth. Try it and see!

P. A. is only procurable in five red tin, round and half-round in human form and in round and half-round in human form with a picture of a man smoking a pipe. It is always with you in a tin, box and pack moved by the Prince Albert Process.

JAMESON GROUP MEET REBUFF IN FEDERAL COURT

Holders of \$18,000,000 Worth of Junior Securities of St. Paul Road Refused Right of Separate Action.

(By The Associated Press) CHICAGO, March 14—The group of holders of \$18,000,000 worth of the junior securities of the Chicago, Milwaukee & St. Paul railway, known as the bondholders protective committee under leadership of Edwin C. Jameson of New York, met a fourth rebuff in Federal court today, when it was refused the right of separate action.

Federal Judge James H. Wilkerson, in whose court the railway went into receivership nearly two years ago, denied motions of counsel for the Jameson group asking permission to appeal from Judge Wilkerson's confirmation of the recent sale of the road for a severance from the trustees of the road and for an injunction to maintain the status quo of bonds held by the committee pending an appeal, if permission for it were granted.

Not Party to Proceedings
In denying the motions Judge Wilkerson stated that the committee had been ruled not a party to the proceedings by himself, the circuit court of appeals and the United States supreme court when their intervening petition was denied. The judge said that he would entertain a motion for a regular appeal from that part of his confirmation order concerning approval of the reorganization plans of the purchasers.

Justice Hitz Takes Time to Study Plea
The main contention of counsel for the Jameson group today was that the bonds of the railway have a market value of 11 points more than the holders would receive if they turned their bonds over to the reorganization officials, as provided in the approved plan of reorganization.

One of Our Stores Will Be Located Here Soon!

Bringing a Country-Wide Advantage to Your Door!

THE story of the J. C. Penney Company, which will soon open a link of its great family of Department Stores here, is an important chapter in the history of modern storekeeping methods. It is more than important! It is inspiring! It is a story of a business with a Big Idea behind it—an Idea that is clean, clear cut! The Big Idea with us for a score and more of years has been and is today, the patent fact that it is unflinchingly governed by the Golden Rule: "Whatever ye would that others should do unto you, do ye even so unto them." Every customer pays the one and same price! No more! No less! And that price assures a superior value! No so-called "sales"! No discounts! No charge accounts! The same square deal and just treatment alike to all—and all the time!

In all our hundreds of Department Stores, distributed over the United States,

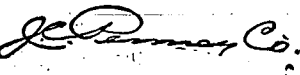

The Supreme Endeavor IS SERVICE—

- SERVICE qualified by courteous attention of sales-people to customers and their wants.
 - SERVICE by unflinchingly providing quality and enduring satisfaction.
 - SERVICE by affording prices which assure economy for superior quality goods.
- The J. C. Penney Company assures you quality and fair play.

A Personal Word:

We are addressing ourselves to the families in this community and vicinity whom we do not yet number among our customers and friends!

It being impossible to tell our story by word of mouth so that all may hear, we ask your consideration of the facts which we will print previous to our opening that you may know the kind of organization that the J. C. Penney Company is and the kind of Department Stores it conducts which "serve more than three million homes."

MR. JAMES C. PENNEY

In 1902, opened a small general store at Kemmerer, Wyoming. Such stores were typical of the times. Out of this one-town, one-man, one-store business has grown a Nation-Wide Institution of Department Stores. Its operations today offer a sharp contrast to those of a quarter-of a century ago.

Then a few hundred people were served. Now millions of people are served by the hundreds of J. C. Penney Company Department Stores which are scattered from Coast to Coast and from the Gulf to the Great Lakes.

Our Popular Department Stores

bring a country-wide advantage to the very threshold of your home—to the threshold of millions of homes in town and on the farm and in the most remote towns and communities. They bring to the housewife and to each member of her home, the great joy of personal inspection and selection of stylish, reliable goods before buying.

These hundreds of Stores—the largest unit of Dry Goods, Clothing and Shoe distributing centers in the World—are available to additional hundreds of thousands of families because of the good roads that have been built. The long, tedious journeys by horse and wagon of yester-years have been reduced to a few hours' run in the automobile.

The Meaning to You and Your Family of a 773-Store Buying Power

THE fact that the Organization of which this new Store is to be a part, is opening scores of Stores this year, naturally has little interest to you except as to how these many Stores, and particularly the one soon to be opened here, will benefit you.

Compare, if you will, the results obtained by an engine of 1-horsepower with that of one of 773-horsepower! How insignificant the little engine becomes!

The 773-Store Buying Power of this Organization assures you the lowest possible prices at all times for a uniformly reliable quality of goods. This means much to you.

Buying more we buy for less, and selling more we sell for less. Our buying and selling power means that you are to have a saving power here that will enable you to keep many additional dollars in the family purse during each year.

Cash Buying a Vital Factor to You!

Another meaning our Stores have for you: We sell for cash only! Therefore, you get the full benefit from our cash buying. Having no "charge accounts," we do not sustain losses from non-collectible bills which cash buyers are called upon to make-up by paying higher prices. The same, square, even treatment is accorded alike to all always.

We ask you to carry home your purchases. Thus you are saved the cost of an expensive delivery system.

Our constant aim is to pack all the Value into each purchase you make from us that is possible and to that end the fullest resources of this Organization are drawn upon that your every experience may be one of lasting pleasure, satisfaction and profit.

This Great Family of Stores Stands Indisputably In a Leading Position As a Nation-Wide Distributor to the People of Reliable

TURKISH PACT NOW IN EFFECT

State Department Announces Receipt of Agreement Made Necessary by Treaty Failure.

WASHINGTON, March 14 (AP)—The agreement with Turkey, signed at Ankara February 16 and made necessary by failure of the Lausanne treaty of the senate, was made public today by the state department on its receipt by Ambassador Bristol with the Turkish foreign minister, Tefrik Husuli Bey. It became effective when signed and will run 15 years.

Provision is made for establishment of diplomatic and consular relations and appointment of ambassadors. It also provides for a reciprocity in commercial relations to maintain equality of status quo as most favored nation treatment in certain matters. It also provides for nationalization of consular premises.

No Name Suggested

No name has yet been suggested to the senate for appointment as American ambassador. Those of Admiral Bristol and of Under Secretary Grew, who suggested the Lausanne treaty, while minister to Switzerland, have been mentioned for the post and there being indications that neither is now being considered in the absence of actual treaty relations and congressional authority the ambassador will have to serve a short year until confirmed by the senate.

The agreement includes providing for ratification at the earliest possible moment of the extradition treaty signed in 1923 and also provides for negotiation of consular and residence conventions.

LUMBER INDUSTRY MAY LOSE BEST CUSTOMER

WASHINGTON, March 14 (AP)—A possibility that the American lumber industry may lose one of its best customers is seen by Representative Johnson, republican, Washington, fighting now pending the Japanese tariff.

In a statement printed in the Congressional Record, Mr. Johnson said that a proposed Japanese customs bill would greatly increase the Japanese tariff on lumber.

"The result of enactment of this bill," he continued, "would be that imports of American lumber into Japan, which amount to about 1,000,000 feet a year, would be curtailed if not entirely wiped out. The proposed Japanese tariff duties are: Large squares \$4 per thousand feet; small squares \$8.50 per thousand feet; boards \$12.50 per thousand feet; and logs \$1 per thousand feet."

EFFORTS TO CURTAIL OIL PRODUCTION FAILS

TULSA, Okla., March 14 (AP)—With three new leases completed within the last 24 hours in the greater, middle oil area, attempts to stem over-production in the field failed today. The indicated production of the three new wells totaled about 10,000 barrels a day.

Operators, meeting here to perfect a plan of cooperative curtailment of the field's output, adjourned without reaching an agreement. They had under consideration a recommendation of an advisory committee of three which suggested a 25 per cent reduction. As a result of the disagreement, operators said that production will be limited only by pipe line and storage facilities.

WATER SUPPLY IN BOISE VALLEY ESTIMATED 100 PER CENT ABOVE NORMAL

BOISE, March 14 (AP)—Precipitation or water supply conditions throughout western Idaho generally are approximately 100 per cent above normal, from 20 to 50 per cent above normal, the last high-water year, and even slightly in excess of 1921, the department of reclamation announced today.

William E. Welsh, Boise river watermaster, is planning a joint survey with the federal reclamation service, the weather bureau and the geological survey to determine the probabilities of flood danger along the Boise river this spring.

"There is no question," Mr. Welsh said, "that the snow is much heavier all over the Boise watershed than in recent years, but it has long hopes, there will be no flood, but rather that the runoff will be equitable and distributed throughout the season."

More Than 20,000 Acres in Utah and Idaho Non-Irrigable

WASHINGTON, March 14 (AP)—Public land classification made by the geological survey in February under which more than 20,000 acres in Idaho and Utah were designated as non-irrigable in accordance with the enlarged homestead act were published today.

About 15,000 acres in Colorado, South Dakota and Wyoming, were classified under the stock raising homestead law and designated for entry in blocks of 240 acres or less.

Discontinue the survey of watering places public water reserves announced in Colorado, Nevada and Oregon caused the department to order an increase of these reserves of approximately 400 acres in the three states. More than 1,000 acres in Montana, Utah and Wyoming, previously included in public water reserves, were restored to entry.

Approximately 10,000 acres in Utah, previously included in all withdrawals were eliminated from the classification while 100,000 acres in Oklahoma and Wyoming were defined as within the known geologic structure of producing oil and gas fields under the act of February, 1920.

The department said 20,000 acres in California, Mexico and Washington had been classified as valuable for power.

INCREASED EMPLOYMENT SEEN IN EVERY LINE

WASHINGTON, March 14 (AP)—Prospects for employment increases were found in the report of the census bureau by the United States employment service for nearly every line of the combined labor force for February. Labor forces remained stationary at most of the important industries, though iron and steel plants and automobile production were up on more workers than during January.

From now on into this spring the unemployment service bulletin today said road construction will be started in many states on a large scale, and building operations, retarded by inclement weather are likely to gain.

The bulletin reported that the northwestern lumber industry had been making steady service, but that many hands unemployed. Textile manufacturers and shipbuilders were among the comparatively few lines of employment reported in an unsatisfactory state.

BILL GOES TO GOVERNOR

ATLANTA, Ga., March 14 (AP)—The bill repealing the amnesty measure passed two years ago in behalf of former Governor James E. Ferguson, introduced here today by Gov. Nathan Phillips, will now go to Governor Dan McFlarty for his signature, the measure having passed the senate several days ago.

Segregation Act Held Invalid by U.S. High Court

WASHINGTON, March 14 (AP)—Laws aimed to exclude negroes from white residential sections were again held invalid today by the supreme court in a case from New Orleans.

Without a written decision, the court handed down an order affirming its position of 1917, when in a case from Louisville, Kentucky, it declared a race segregation ordinance unconstitutional and discriminatory.

The case was appealed by Benjamin Barrow, a negro, who had unsuccessfully attempted to convert his residence, in a white New Orleans community into a two-family flat, the addition to be occupied by negroes. Permission was refused because of his failure to comply with city and state laws requiring consent of a majority of the white residents of the community.

DOCTOR USES SMALL KNIFE TO END LIFE

ATLANTA, Ga., March 14 (AP)—Said that police overtook a half-pint knife that police overtook, but today removed Dr. C. W. Goodrich, city physician, from accountability for shooting and seriously wounding City Manager Alan R. Johnson, a few hours earlier as the climax of a growing dispute.

Goodrich was dead in a city jail where he was being held without charges, pending outcome of Johnson's demand from Goodrich's doctor that the city manager may recover, the hospital said.

Police failed to take the physician's pulse, it is stated, and he had slashed his throat and wrists and bled to death.

THREE HELD TO ANSWER FOR CONSPIRACY TO KILL

LOS ANGELES, March 14 (AP)—Mrs. Margaret W. Rowan, evangelist of the Seventh Day Adventist reformed church and "ent of the world" prophetess, today was held for trial in the superior court on a charge of conspiracy to murder Dr. Bur. J. F. Fulmer, her former associate. Dr. J. F. Fulmer and Miss Margaret A. Wade, a nurse, given preliminary hearing with Mrs. Rowan on the same charge also were held to answer.

The three were remanded to the county jail by Judge Robert H. Fulton, charged that Mrs. Rowan instigated an attack upon him in an automobile tour of camp near here. Dr. Fulmer and Miss Wade confessed participation in the attack in which Fulmer was beaten.

Both men said they "agreed" on which the police said appeared to be "about right."

PILOT JAMES SETS NEW RECORD FOR MAIL RUN

LOS ANGELES, March 14 (AP)—Pilot Jimmy James of the western air express today broke the 800 mile air mile record between here and Salt Lake City, when he covered the 800 miles in 4 1/2 hours and 20 minutes. The previous record of 4 1/2 hours and 20 minutes was held by James and Maury Graham, major of the western air express.

James, pilot of the western air express, who announced the record, said James carried a heavy load of mail aboard his Liberty-motored Douglas plane. It flew at an average altitude of 8000 feet to take advantage of a wind at his back that the weather bureau here had charted. Ordinary flying altitude on Salt Lake City run is about 7000 feet.

GOVERNMENT TO PAY \$700,000,000 DEBT

NEW YORK, March 14 (AP)—The United States government tomorrow will issue approximately \$700,000,000 of new government bonds in payment of \$600,000,000 of treasury notes, due on March 15, and interest on the public debt. Within a few days this large sum will be paid in payment of the public's payment of about \$75,000,000 in income taxes and the withdrawal of \$27,700,000 of government funds from federal reserve banks.

FLAMES RAZE SHEARING PLANT AT PRICE, UTAH

PRICE, Utah, March 14 (AP)—One of the most complete and elaborate shearing plants in the intermountain region, burned tonight at Poudre, 18 miles east of Price. The loss is estimated at \$25,000.

The fire, of unknown origin, was discovered in the center of the pens at 2:35 p. m. and rapidly spread through the frame building, aided by a high wind.

In the lack of adequate fire fighting facilities, the inhabitants of Poudre were forced to stand by, powerless to extinguish the flames.

HOLD MEXICAN, SUSPECTS

WARSAW, Ind., March 14 (AP)—Two Mexicans, one giving the name Louis Sanchez, the other Rudolph Boman, were taken from a Pennsylvania railroad passenger train here at 10 o'clock tonight as they were riding the "blind biggest" and were questioned by Warsaw police in the belief that one of them—Boman—might be the man sought in connection with the deficit, Illinois, jail break of last Saturday.

Both men gave their names as "about right."

Secretary Kellogg Issues Flat Denial Of Printed Report

WASHINGTON, March 14 (AP)—Secretary Kellogg issued a flat denial today that he had, directly or indirectly, instructed the legation at Managua or any representative of the United States government to work for the election of Adolfo Diaz or any other candidate for the Nicaraguan presidency.

"No such document was ever sent and no such instructions were ever given," Mr. Kellogg added. In issuing the statement, the secretary took cognizance of a report, published by the Washington Post, that a secret communication had been sent to Bonnie Fireling, the nature of his long fling attending physicians who will hold a post mortem examination tomorrow morning in the hope of solving the mystery.

HEAVY SNOW IN SALT LAKE SALT LAKE CITY, MARCH 14

A heavy wet snow, accompanied by a heavy wind, broke upon Salt Lake City this afternoon, blanketing the city in the first few hours of fall. Official estimates place the fall at about four inches, with a record precipitation up to 6 p. m. of 28 inches.

POCATELLO BOY VICTIM OF BAFFLING ILLNESS

POCATELLO, March 14 (AP)—Stricken suddenly this morning with an illness that threw him into unconsciousness, from which he did not recover, Harold E. Lemming, 16, of this city, succumbed at a local hospital tonight. The nature of his illness baffling attending physicians who will hold a post mortem examination tomorrow morning in the hope of solving the mystery.

Lemming, son of Mrs. W. D. Lemming, who had been employed by the Oregon Short Line railroad, was yesterday morning about 10 o'clock, while dressing he complained of feeling ill. As he seated himself at the breakfast table he fainted and was not again revived. He was put to bed to be allowed to sleep off the stupor, but when at 4 o'clock in the afternoon he could not be aroused from unconsciousness, he was taken to a hospital, where he died three hours later.

GRANTS EXTRADITION

SACRAMENTO, Cal., March 14 (AP)—Governor C. G. Young today granted the request of the governor of Arizona for the return of Gale Mettler and Tony Musura to Miami, Arizona, to stand trial for alleged failure to provide for their minor children. Both men are in custody in Los Angeles.

Citizens Turn Out En-Masse to Greet First Supply Train

DENVER, Colo., March 14 (AP)—Citizens at Bureo, Colorado, turned out en-masse at the railroad turnout today to see the first train to reach the city in more than two weeks. The village has been snowbound as the result of blizzards which have swept the San Juan basin district for nearly a month.

The train brought fresh meat and food supplies and newspapers which it carried were eagerly snapped for the news of the world. The bundles of papers dropped by an airplane from Denver last Monday were the only ones the people of the little mining town had seen previously since the snow cut off communications with the rest of the world.

Blizzard crews tonight were fighting their way through deep drifts to reach Silverton, Colorado, in the same area and officials of the Denver & Rio Grande Western railroad today expressed the belief that they would cut a path to the town by next Friday. Silverton has been isolated for more than three weeks.

SCHOOL BOARD GETS ESTIMATE FOR NEXT YEAR

Superintendent Bloom Details Tentative Budget; Growing Population Indicates Need for \$10,000 More for Schools.

Anticipated increase in the number of pupils, based upon increasing enrollment in the past three or four years, make necessary an expenditure of approximately \$200,000 for operation and maintenance of Twin Falls public schools next year, according to a tentative budget laid before Twin Falls school district trustees in regular session Monday evening by Ernest P. Bloom, superintendent of schools.

This anticipated expenditure exceeds by approximately \$10,000 the cost of operation and maintenance of the schools this year, and would be expended mainly for additional instructional services.

Other anticipated expenditures of the district during the coming year approximating \$68,000, include \$15,000 for transportation of pupils and \$53,000 for bond interest and sinking fund, leaving the total of anticipated expenditures up to \$268,000 as compared with \$258,000 this year.

Full Faculty on Board

The trustees, besides discussing the budget at their meeting Monday evening, elected Arthur J. Surin to fill a vacancy in the board of directors, resignation of E. H. Johnson, re-elected principals of senior and junior high schools and of grammar schools, with increase in salaries and considered matters without taking definite action on nearly 20 applications for the office of superintendent of schools in the district. Ernest P. Bloom, whose resignation is to become effective June 30 next.

The principals re-elected, with the annual salaries voted to each, were as follows:

Miss Mary Ruth Fisher, high school, \$2900; Mrs. Vera E. O'Leary, junior high school, \$2900; Miss Fannie Perkins, Lincoln school, \$1900; Mrs. Ethel Overberg, grammar schools, \$1700; Mrs. Sara Fritcher, Washington school, \$1850.

Salaries of high school principals were advanced \$100 each and of the grade school principals \$75 each.

Shows Class Figuring

Twin Falls schools this year are located almost well within the limits of budget appropriations, and so closely have necessary expenditures been anticipated that it is probable that the surplus at the end of the year will approximate only \$1000, Superintendent Bloom told the trustees. The surplus two years ago, he said, was \$1700, and a year ago \$1700.

"Report on enrollment for the first six weeks' period of the second semester for school a total of 2747 pupils attending Twin Falls schools. This, Mr. Bloom explained, represented a fall of 100 under the figure for the first semester, which condition has been typical for a number of years past, but the total of 2747 represented an increase of 25 as compared with the total for the corresponding period last year. Enrollment in Twin Falls schools at four years ago, Mr. Bloom recalled, was approximately 2500.

Exhibit Budget Items

Tentative 1927-28 Budget, October 25, 1926

submitted by Mr. Bloom, provision for expenditure of \$10,000 for instructional services and \$1000 for extra and substitute teachers, making a total of \$143,000 as against \$133,000 last year. This year's budget shows an increase of \$10,000 and shows a decrease of \$10,000 as it has during the past three or four years, this expenditure is going to be necessary," Mr. Bloom advised.

In explanation of other budget items Mr. Bloom stated that provision of \$9000 for general control contemplated the amount of \$1000 for figures and ink, \$1000 for postage, \$1000 for operation and plant represents an increase of \$200.

Gravel for School Grounds

Item of \$2500 for maintenance and repair represents a reduction of \$150 under this year's appropriation, and makes no provision for laboring or hauling in the high school, but includes \$1000 for gravelling of grade school grounds.

Under the heading of fixed charges the district next year would spend only \$2000. A great reduction in fixed charges is made possible by reason of the fact that only \$100 life insurance premium is payable next year. So many of the life insurance policies, all of which are payable every three years, fell due last year that the district was called upon to pay out \$2800 on that account alone.

Other items of the tentative budget for \$3000 for debt service or interest on bonds, \$12700 for auxiliary agencies, including playgrounds, gymnasium and library \$5000 for capital outlay, including heating and lighting and paving lots.

Overcrowded conditions in the Lincoln and Bickel schools, as well as probable increase in auxiliary agencies, Mr. Bloom pointed out as making for a very tight budget for addition.

Diagnosed Conditions

Conditions which exist in the first and second grades work 16 basement rooms in the Lincoln and Bickel schools Mr. Bloom characterized as a "probable increase in auxiliary agencies, including playgrounds, gymnasium and library \$5000 for capital outlay, including heating and lighting and paving lots."

One of the prettiest social affairs of the past week was an informal dinner given at the home of Mrs. W. T. Seilly on Saturday evening with the Red Knights as hosts, given in honor of their new members. Plans were made for a party at the home of Mrs. Seilly on Saturday evening with the Red Knights as hosts, given in honor of their new members. Plans were made for a party at the home of Mrs. Seilly on Saturday evening with the Red Knights as hosts, given in honor of their new members.

The home of Mrs. T. C. Harrison on Third street north was the scene of a party last Saturday evening when the women of the Red Knights entertained for dancing club. The rooms were attractive with decorations in green and white, and the party was very successful throughout the evening.

Mrs. Thomas Rowberry and her son, Miss Alta Wickman, entertained the members of the M. P. club Friday evening at 8:30 with a social dinner. The guests were seated at four tables, lavishly with decorations in pastel shades. The hostesses were assisted in serving by Mrs. Wilbur Rowberry and Mrs. Wickman.

Lambert King, who has been transferred to Pocatello, was given a delightful surprise on the eve of his departure by a number of friends at his home on Sixth avenue east. Mrs. King and her daughter, Miss Abner, will join Mr. King at Pocatello soon, where they will make their home. The evening was spent with cards, prizes for high score being won by Mrs. Peter Ersson and Frank Toy, and by Mr. and Mrs. O. A. Schwartz.

After the games—high school—were the colors devoted to St. Patrick were served. Those present in addition to Mr. and Mrs. King and daughter were Messrs. and Mesdames Frank Toy, J. D. Ditter, Peter Ersson, Owen Buchanan, George Toy, Frank Kieffer, Charles King, O. A. Schwartz, Fred Klus of Filer, Mrs. Mary Kelly, and Misses Mary Alice and Bernice Ditter.

Chamber of Commerce Submits Proposal for Ordinance to Regulate Door-to-Door Salesmanship; Orders Drive.

A proposed ordinance designed to regulate practices of house-to-house salesmen and peddlers in Twin Falls, recently endorsed by the board of directors of the chamber of commerce, was submitted Monday evening by W. H. Edwards, chairman of the merchants' committee of the chamber of commerce.

The proposed ordinance provides that the city clerk shall be authorized to issue a license to any person who desires to operate in Twin Falls, obtain a license from the city clerk, upon depositing with him a sum of money with a badge on which will be inscribed the word "solicitor".

Immediate removal of ashes and cans from the alleys within Twin Falls was ordered by unanimous vote of the council at the close of the session.

The Sunday movies issue in Twin Falls will be referred to the election board for decision. The petition requesting some action on the part of the city council in the matter had been signed by the required number of eligible electors, according to the city clerk, who submitted a certification in this respect.

Qualified candidates for the various city offices which are to be filled by ballot next month were announced by Mr. Moo as follows:

cause together on higher ground, where they could reconnoiter the town.

The men that had lighted the sky earlier in the night had died down—others for lack of material for the flames.

From the hill where they had hidden, Selwood and his companions, recovering their horses, made their way toward the station.

Levever met them. Selwood asked for the news. Levever pointed to a pile of smoking ruins down the hill.

"McAlpin told me nothing of that," Selwood said, looking angrily down the hill.

LARGE SUPPLIES DRUG PRICES

World Shipments Other Than United States and Canada Increase; Chicago Values Drop.

CHICAGO, March 14 (AP)—Falling wheat shipments other than from the United States and Canada, together with the promising domestic crop outlook, gave a downward trend to wheat prices. Export demand for North American wheat lacked volume, sales in all positions being only 300,000 bushels. Closing quotations on wheat, although steady, were 5c to 10c net lower than the previous week.

Lowest prices yet on the present crop were quoted by May for city of wheat. Offerings here were especially heavy, but rallies proved futile. The fact that wheat shipments from the coast amounted to 1,000,000 bushels more than for the previous week stood out in otherwise sluggish markets.

Counting further against the buying side of the wheat market were reports that Kansas Oklahoma and Texas have the best moisture supply in a year, that chain stores in New England have cut 400,000 bushels in excess of the 1926-27 crop, and that the 1927-28 crop is expected to be 100,000,000 bushels in excess of last year, despite 825,000 bushels fall-sown acreage. Higher expectations for a better domestic crop further stressed wheat values based on the good-keeping quality and higher protein content than wheat from before the war.

The Best Way of Preparing Delicious Vegetable Hash

A Genuine Treat

VEGETABLE HASH

1 pint chopped $\frac{1}{2}$ cup white sauce
cooked potato $\frac{1}{2}$ cup Mazola
1 pint mixed Tomator chopped
cooked vegetable egg sauce
tablets

THE mixed vegetables may be any kind, as cooked carrots, turnips, cabbage, beets, peas, chopped string beans, lima beans, stewed corn, onions, etc. If cooked onion is not among the vegetables, a little raw, minced onion should be added. Combine the ingredients. Heat the Mazola in a medium-sized frying pan, pack in the hash an inch deep and fry until browned.

MANY jokes have been coined about hash—but in the case of Mrs. Allen's hash (see recipe above) the joke is on the person who doesn't try it.

You will also get an idea why Modern Housewives prefer Mazola for frying—because foods fried in it are greaseless when ready to serve;—because Mazola is an absolutely pure vegetable oil, pressed from the hearts of fully-ripened corn kernels.

Once you try Mazola for frying you will never go back to the old fashioned way of frying with animal fats.
