CANADA READY FOR TRADE PACT WITH AMERICA

Canadian Premier Tells Parliament of Plan; Cloak of Official Silence Envelops Suggestion at Washington.

(By The Associated Press) WASHINGTON, March 19.—The cloak of official silence which wraps around anything official in Washington is unprepared to discuss, was thrown today over the shambles of the Canadian trade pact...

ORDERS WARDEN TO HOLD DOCTOR

Department of Justice Takes Active Part in Parole Case of Noted Art Explorer.

WASHINGTON, March 19.—The department of justice stepped actively today into the controversy over the right of Federal Judge Wilson at Fort Worth, Texas, to release on probation Dr. Frederick A. Cook, Polar explorer, serving a 14-year sentence for fraud in the Laysan-walrus controversy.

TELEZ DELAYS KELLOGG TALK

Mexican Ambassador Postpones Visit to State Department; No Light on Situation.

WASHINGTON, March 19.—The Mexican ambassador's visit to the state department was postponed today because of the arrival of the ambassador from Mexico City, which was expected to appear for oral arguments.

Two Fishermen Tell Of Weird Ride With Giant Pink Devilfish

Tentacle Monster Threatens Pair With Death From Time of Capture to Dying Moment.

MOUNT VERNON, Wash., March 19.—A weird motor boat ride with a giant pink devilfish which seemed to threaten their lives, was the experience encountered today by two fishermen who plucked the threatening monster with fish until he could be brought ashore. His hideous passenger is on exhibition here.

GROUP PROBLEM FACES ATTACHES AT LIBEL TRIAL

Spirited Fight for Seats at Every Session of Ford-Sapiro Hearing; Many Attempt to 'Crash the Gate.'

(By The Associated Press) DETROIT, Mich., March 19.—Crowds that daily have tried to 'crash the gate' into the trial of the \$100,000 libel suit against Henry Ford present a serious problem to court attendants as the time for Ford's appearance on the witness stand draws near.

BEAUTIFUL GOVERNMENT

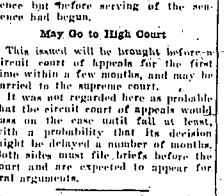

The beautiful little courtroom accommodates but a handful, when the federal building was built there was \$50,000 set aside for the story goes, and it was decided to put it into the two courtrooms.

WANTS WHOLE VALLEY

Mr. Campbell, on the other hand, would annex both halves of the valley in Idaho, declaring that it is actually territory in Idaho. All the railroad connections are in this state, while the technical title belongs to the westward.

Mountaineer Gets Life for Murder Never Committed

WILLIAMSBURG, Ky., March 19.—A woman accused, a girl dissatisfied with her lot, and a slight acquaintance formed the "eternal triangle" in a case which resulted in the mountaineer being sentenced to life imprisonment for a "murder" that never occurred.

May Go to High Court

This issue will be brought before a circuit court of appeals for the first time within a few months, and may be carried to the supreme court.

Maintain Silence

Neither the ambassador nor the state department would throw any light whatever on the present status of the dispute between the two countries, at least pending the conference.

No Official Report

It has no official report of the intention of the Mexican government to proceed to seek a solution of the struggle over oil and the right to satisfy the American demand that the legitimately acquired property rights of its citizens in Mexico be restored.

A Statement—Owing to the fact that I have other business which is going to demand my entire attention it becomes imperative that I dispose of my holdings in Filer; so I have given the man in charge orders to make such price concessions on all lines that will insure immediate sale.

# ENGLISH FARM HANDS THREAT TO FOX HUNT

### Laborers Carry on Illicit Business in Furs; One of Oldest Aristocratic Sports in Great Britain May Pass.

(By The Associated Press)  
LONDON, March 18.—Fox hunting in England, which dates back many centuries, is threatened by the activity of farm laborers who have been carrying on an illicit business in reynard's skin.  
The skin, worth more than a million pounds sterling to the fox himself while it stays upon his back, is worth but 12 to 15 shillings when peeled off its original owner and passed on to the London furriers.  
At a farmers' meeting here, the Duke of Devon, whose estate covers 52,000 acres, discussed the possibility of the fox hunting existing if farm hands were allowed to shoot the quarry which takes away the life from the hunting parties of the aristocracy.  
The Duke complained because of the increasing custom of fox hunting on the sabbath, saying the practice had already proved a danger to the sport. He urged the farmers' cooperation in discouraging fox hunting on the sabbath with hounds and hares would continue to thrive.

### Son of Margaret Letter Comes of Age

LONDON, March 19.—Lord Suffolk, whose mother is the famous Margaret Letter of Chicago, has attained his majority. He succeeded to the title at the age of 11, when his father was killed in the great war at Charlton Park, his country seat, which recently has been the scene of various mourning and jubilee celebrations.  
Charlton Park, a lovely old house built in stone, dates from the time of James I. It is square with towers at each angle and a huge interior courtyard, now covered in and converted into a hall.  
Along the west front, runs a great picture gallery, built by the famous architect Inigo Jones. It houses one of the most famous collections of old masters in England.

### Tax Collector Says Scots Best Payers

LONDON, March 17.—Jokes about stingy Scotland do not go with Sir Stanford London, an old time tax collector, who says that the Scotch north of the Tweed are the best tax payers in the kingdom.  
"The Scotch, partly because of their occupations and temperament, are the most difficult persons from which to collect the income tax," said Sir Stanford who entered the inland revenue service in 1881 and has just retired from the position of chief inspector of taxes.  
"It has been my experience that Scotland always pay up quicker than any one else," Sir Stanford explained, "although it has been suggested that they pay partly due to the fear of incurring additional expense by contesting the demand and having to spend more money in the end."  
"Jewish people are no worse than Englishmen as tax payers," said the collector, who added "The only difference is that when pressed, the Jew invariably has the money—while a great many others have not."  
"Chinese, too, pay up promptly, when they realize there is no other way out."

### High Hats Urged On Men

LONDON, March 17.—Peculiarly stragglers whose silk hats are not slightly belted at the top and do not measure exactly 5 3/4 inches in height cannot make any impression on London's fashion dictators. Also their hats must have a brim exactly 1 7/8 inches wide.  
Hunt, clerks, music hall managers, undertakers and doctors, have never abandoned the high hat in London. Bowlers also have clung to them through thick and thin. And diplomats were faithful to their uniform "even during the Zepherin fiasco." But the war put the average man into lounge clothing and he has refused to abandon soft hats and bowlers in favor of high hats and bowlers.  
The hatmakers, however, say the high hat is coming back. More have been sold in the last year in Great Britain than in any year since the beginning of the great war, and the latest shapes are plugging so hard on the head that it is pretty hard for gentlemen to get by with silk hats of ancientintage. A slight breeze instantly puts them into the class with bank messengers.

### Ask the Man Who Knows

The safest way to ascertain the real worth of a share of our building and loan stock is to ask the man who has already invested. Such a man is not hard to find for scores of your friends no doubt own building and loan certificates. When you are convinced, as soon as you can, be sure to come we'll start you on the road to financial independence.

# CAMOUFLAGE SPOTS ARE SPRING HOSIERY FAD

### Atlanta, March 19.—With the coming of spring, camouflage spots have captured Atlanta's hosiery fad. Young and old women who wear the daily parade of fringed bedazzled shoes at first thought their stockings were not spots at all, but merely by stocking which do not begin an old-fashioned stockings until several inches above the ankle. This style, which is really a part of the hose and comes in all colors—including the Scandinavian.

# Waistlines Coming Back, Says Fashion Creator of France

PARIS, March 19.—"It is not to be afraid to change," is an axiom of Yvonne Davidson, Paris' new lady dictator of fashion.  
As a result she is a leader in the Paris movement to restore waistlines to the place they used to wear hoses. "We are not going to have a fashion that they looked funny these days," she said.  
"It will look funny six months from now," she said still hovering around women's hips.  
Mrs. Davidson believes that in a few months only the women who consider it more of a fashion to have a wide waist behind the styles will be wearing hipless, straight, waiflike dresses.  
"What will you do and he it," is another formula of Yvonne Davidson's. She decided about ten years ago that she would be a Paris style creator. There is a fashion later in America and many other famous people attended the opening of her dressmaking establishment in Paris.  
Artistic in the Davidson house, Yvonne is the wife of J. Davidson, one of America's most successful. His line of hosiery, which he considers one of his best pieces of work, is sold in all the world.  
The dressmaking establishment of Mrs. Davidson reflects the family culting. The usual life, here and there, is a decoration of the style salon resembling. For this she has substituted a few pieces of valuable and genuine modern art.

### BALDRIDGE TO APPOINT MEMBER OF STATE BOARD

BOISE, March 19.—Governor H. C. Baldrige, having virtually completed his official duties, next will be required to appoint a member of the state board of education, a vacancy which occurs April 17, it was learned today. J. A. Lightfoot, Idaho City, is the retiring member.

# TO ARBITRATE WAGE DISPUTE

### Trainers' Controversy to be Settled by Board; Both Sides Withdraw Proposals.

CHICAGO, March 19.—The six rail trainmen who are on strike and their 6,000 conductors and trainmen who demand a \$1 a day wage increase, today were referred to a board of arbitrators.  
The proposals of both sides for changes in the rules under which the employees work were withdrawn.  
The arbitrator panel, from E. P. Morris, former governor of Kentucky, and S. E. Winship, members of the United Brotherhood of Carpenters and Joiners of America, is the original panel, but is thought to have been set up at the request of the union. The arbitrator panel is expected to meet in the next few days.  
Railroad spokesmen estimated that when the strike of the conductors, the total amount of the increase of wages would be approximately \$120,000,000 annually.  
Employers representatives said that railroad estimates were far too high.  
The railroads were represented at the negotiations leading to today's agreement by a committee headed by W. S. Deffen, of Omaha, Nebraska, L. W. Sheppard, president of the conductors' organization, and W. N. Deffen, president of the trainmen, headed the employers' committee. The joint committee comprised 120 men.  
The arbitrator panel was composed of two of the arbitrators and the four chosen will in turn try to agree upon a new contract. If they fail the board of arbitration will designate the neutral members.

# PORTLAND CONCERN MAKES LOW BID ON ROAD WORK

PORTLAND, March 19.—Low bids for construction of 1.8 miles of the old Oregon trail road of Glenn Ferry were today submitted to the bureau of highways of the U. S. Road & Co., Portland, with a bid of \$287,000 and the Morrison-Kanbaum company, Boise, \$270,000. Five bids submitted were opened by Joe P. Wood, commissioner of highways, and the award of the contract taken under advisement.  
The highway construction involves the building of 1.8 miles of new highway and the raising of Union Pacific main line track to eliminate two grade crossings, one of which is regarded as the most dangerous in the state.

# Career Diplomat Now at Lisbon Is Used to Bullets

WASHINGTON, March 19.—Fred Morris Haring, one time district school teacher of Columbia, Missouri, career diplomat and former assistant secretary of state, since his return to Lisbon was "shot up" during a revolutionary outbreak, is a victim of the state department.  
His office bulletin by which he is in revolution at some foreign capital, it seems that Haring, a man of middle stature and violent physical frailty, is most likely to be found.  
He received his baptism of gunfire in Havana in 1904 when President Taft was put out of office. He had gone there as secretary to the minister, but soon became secretary of legation, thus beginning his long diplomatic career.  
He found himself in the path of revolution for the second time at Mexico City, where, during the "Porfirio Tragedy," as it is called, he was almost killed. More than 100 days followed, and then having returned to his home in New York, he took his leave to Portugal in 1916, just as the clouds of revolution were closing up.  
Under the stress of existing service as a member of embassy there during those strenuous war days, when he worked far into every night, his health became seriously impaired, that he was forced into temporary retirement, thus missing the Russian revolution itself. He left the diplomatic service for a time, but returned in 1921 as assistant secretary of state, and was later appointed minister in Portugal, where he has again found himself in the familiar atmosphere of revolution.

# THREE NEGROES ESCAPE

TULSA, Okla., March 19.—Three Negro prisoners escaped from the county jail tonight after sawing a hole in their cell. The prisoners were in the night ward of the jail on the fourth floor of the county courthouse and tied strips of blankets together to make a ladder. The hole in the wall was seen by residents of a nearby hotel, but all had disappeared before officers were notified.

# DISTRICT PUTS \$25,000 ASIDE FOR SOUTH ROAD

### Twin Falls Commissioners Take Definite Action in Furtherance of Program for Construction of New Outlet.

In furtherance of a program for construction of this section of the highway south from Loggerson to the Nevada state line, to which the Twin Falls highway district has been definitely committed for some months, the district's commissioners in session authorized an appropriation of \$25,000 toward meeting the cost of the proposed improvement.  
Total cost of the proposed construction, which contemplates grading and gravelling of 20 miles of road from Loggerson to the state line, is estimated at \$120,000. Of this amount the highway district can contribute to furnish \$49,000, the remainder being allocated to the project out of federal aid funds, increment in this regard having been reached by the Twin Falls commissioners and the state highway department at a meeting in Boise last January.  
Details in connection with the project are to be considered further when J. D. Wood, newly appointed state director of highways, comes to Twin Falls some time this week.

# Nevada Takes Action

Under the agreement heretofore completed, engineers in the employ of the state highway department have completed a survey of the road that is to be constructed, and the routes indicated by the survey have been

# Impetus to the movement for construction of this road is believed to have been given by recent action of the Nevada legislature which, according to advices received here, has made application for allocation of federal aid funds from other roads in Nevada to improvement of the road south from the state line to Merrill, in White Pine county, Nevada, a distance of 220 miles, and has appropriated funds to meet the state's share of expense in this project. The road in Nevada would connect at the state line with the road from Loggerson, and would pass through Central and Wells, to effect connection with transcontinental highways to San Francisco and Los Angeles. Merrill is 25 miles north of Ely.

### View Historic Landmark

Twin Falls commissioners during their session Saturday received members of a committee of Twin Falls chapter, Daughters of the American Revolution, which has undertaken to bring about restoration of the Old Depot Station, ruins of a stage station that was an important factor in the early history of this region. The committee received the petition for construction of a road leading to the site of the old station, and the commissioners adjourned to make a personal visit of inspection to the premises. Members of the committee are:

## 25 CANDIDATES ANSWER CALL OF BURLEY COACH

East End City Lads Take Light Workouts During Week; Prospects Bright for Team; Death of Veterans.

TRIPLE, March 19 (Special to The News)—Coach Brown's first track was answered by 25 new candidates at the Burley high school gym last Monday afternoon. The first section of the season left the group of new youngsters considerably weakened, but game, and anxious for more.

The death of experienced material in all the racing events while several veterans are turning out for the field events. The track at the fair grounds is being out in shape for early use and will be ready for the inter-school meet about April 1. An invitation to participate in the annual invitation meet at Twin Falls was received and accepted. The meet will be held on Lincoln field at Twin Falls on April 16.

**Sprint Representatives**  
The sprinters will be represented by Ferguson, Moore, Arino, Burke and Hill. The latter two are new, and with such men as Tommie of Gering and Smith and Harmon of Elmer for competition, they will get plenty of exercise.  
The 440 yard dash and the distance races are events in which Hurley will have few cutters. With time for development, Rogers, Pearce, Stohler and Farber, should develop before the end of the season in the longer races while James will give anyone a good race in the 440.

**Good Men in Weight Events**  
Swindeman, Mattson, and Webb will do a heating of the shot, discus and javelin. Webb will be remembered as the boy who wrecked the Twin Falls last fall, early in the Burley-Twin Falls game. He is only a sophomore and should develop into a sensational athlete.  
Smith, who high-jumped better than 5 feet 6 inches at the district meet last year, should qualify for district honors this year.  
The long jump should go to Ferguson who has jumped better than 20 feet. Moore, Burke, Arino, and Thomas will also try to qualify. The district qualifying mark is 16 feet, which will eliminate a good many mediocre jumpers. New men will have to be developed in the pole vault which was won by Hill last season.  
James and Ferguson will try the high hurdles, and Powers, Smith and Burke the steeplechase.  
Hurley should have a good track team this year, although it is early for satisfactory predictions.

## DUMB BELLS REGISTERED PATENT OFFICE

## Fifty Track Men Report for Work At Rupert School

RUPERT, March 19 (Special to The News)—Fifty candidates showed unusual interest in track here by reporting to Coach W. E. Nixon for first day's workout. Coach Nixon faces the problem faced by a majority of the track coaches in the district; that of obtaining successful track teams at a new material during a short preliminary season, under unfavorable weather conditions. Nobby and Hugages are the only veterans to report, and have competition is already evident in all events.

Coach Nixon is representative of the track men from the Twin Falls coaches to participate in the annual invitation track meet to be held in Twin Falls early in April. With the chess meet scheduled for the first week in April it is quite probable that the invitation will be accepted. This meet will afford competition against the leading high schools in the district and will serve to gauge competition in the district meet later.

## MINERSVILLE CAPTURES HOOP TITLE OF UTAH; GO TO NATIONAL MEET

SALT LAKE CITY, March 16 (AP)—Minersville, new Utah scholastic basketball champion by virtue of its 22 to 19 defeat of the 14 to 13 tonight, will be the team to represent the state at the national scholastic basketball meet in Chicago, which is scheduled to begin March 23. The Minersville champions, coming from a school in which only 14 boys are registered are the first team from the southern part of the state to win the championship in the last four years, the L. D. S. U. breaking the string of southern winners last year, when they annexed the championship.  
The same champions played a good brand of basketball throughout the tournament, winning without much difficulty on the first three nights and outplaying the Gold and Blue five the final night.

## TWIN FALLS CLUB DRAWS BYE IN TRAP TOURNAMENT

Drawing a bye today the Twin Falls Rod and Gun club will still maintain a perfect record in the Columbia-Nasau telegraphic trapshooting tournament now in progress. The local club has five boys from an opportunity to polish off the rough spots. The schedule for today follows:  
Pocatello A. C. vs. Nampa A. C.; Washington and Adams entry vs. Cascade Gun club; Boise Gun club vs. Mountain Home Gun club; Huntington Rod and Gun club vs. Pocatello Trapshooting club; Twin Falls Rod and Gun club, bye.  
Must dispose of our furniture stock by April 15. Bargain prices at Quitting Business Sale.

## SNOW HAMPERS BRUINS' WORK

### Local High School Track Men

Take on Light Training Pending Clearing Up of Weather.

The Twin Falls Bruins have been out for track for two weeks and as yet no one has run a flight of hurdles or jumped a crossbar. Several of the boys have been reported for practice on snowshoes, and all are becoming proficient in the art of snowshoeing. Friday evening in a half-hour session, a new candidate, ran Dietrich, veteran of two seasons, a close race. The showing made by these puts a new outlook on the middle-distance situation and help materially in rounding out the team's attack. While the coaches had been expecting a good showing the outcome of the race was very gratifying, and should serve to improve the performance of both candidates.

Many Entries in Mile  
The mile, as usual, has many entries, but of the total few more than 10 will be entered. The candidates are expected to qualify, although there are several youngsters who will develop before the end of the season.  
The 440 candidates have had an opportunity to show their wares, but the coaches expect to develop five or six promising runners from the group. The apparent leaders are Dan Buehler, Knight, Haynes and Dibble, although others may show up under competition.

## Site of District Track Meet Is Still Undecided by Body

Superintendent George K. Bowman of Piler is anxious to get a decision from the district board of control concerning the location of the district track meet. Last year the meet was held in Twin Falls, but the track proved unsatisfactory to many of the district coaches. Piler has a good half-mile track at the fair grounds which can be put in shape for little expense and adequate seating space is available for a large crowd.

With the state meet on May 14, action on this question is imperative. District coaches are going under the assumption that the meet will be held at Piler and are laying their plans accordingly.

## W. S. C. WRESTLERS BEAT IDAHO ENTRIES

BULLMAN, Wash., March 19 (AP)—Washington State college wrestlers defeated the University of Idaho, 28 to 6, here today by winning four out of five bouts.  
The results were: Beedige, W. S. C., defeated Snyder, Idaho, two falls; Pappas, W. S. C., defeated Brown, Idaho, fall and decision; Clark, W. S. C., defeated Beardmore, Idaho, two decisions; Miller, Idaho, defeated Warren, W. S. C., decision and two draws; Driskill, W. S. C., defeated Patten, Idaho, two falls.

## WINE BILLIARD TITLE

WASHINGTON, March 19 (AP)—L. H. Hawk of Washington won the national amateur three cushion billiard championship tonight, defeating H. R. Hughes, also of Washington, 50 to 42, in a 25-minute final match of the tournament.

## BIRTH OWN RECORD

MIAMI BEACH, Florida, March 19 (AP)—Ear Wood, opening his Mercedes V. to limit speed, today shattered his own all water world's record set yesterday, when he travelled the two mile course, at 85.5 miles an hour. The mark was approximately two miles faster than yesterday's.

# SPORTS

## DEMPSEY PLANS STRENGTH TEST

### Former Champion to Go Into Mountain Training Camp to Decide on Comeback Attempt.

By MARVIN H. WILLARD  
LOS ANGELES, March 19 (AP)—Jack Dempsey will go into a mountain training camp next Monday morning to see if he is in physical shape to attempt to regain the world's premier pugilistic title.

And if so, he is ready to fight any man that may be selected as his opponent if the purse is right.

The big fellow, whose defeat at the hands of Gene Tunney last year upset the sports dome wherever circles are squared, will leave for Wheeler Hot Springs, 75 miles north of here, with The Wilson, his trainer, and rough it in the hills for several weeks. After that he will gather sparring partners about him and whip his arm about over-scheduled frame into condition for a comeback.

### In Good Trim Now

As to his present physical condition, Jack declared that with one small exception there was nothing wrong with him. A lower intestinal trouble, for which he underwent an operation in New York several years ago, has returned to some degree, but is not bothering him to any great extent. He admitted that his physician had recommended an operation, but said there was no present necessity for it. He declared unapologetically reports that fall in a mangle several years ago had injured two vertebrae. "I never was hurt by a fall in any way," he said.

### Plans Hard Work

"I won't take one lung to find out whether I'm the man I used to be," Dempsey said. "I intend to do a lot of hiking—clipping down trees and other hard work on in the open before I take on any boxing. If I find I can't get back into shape again, I'll hang up the gloves forever."

"But if I can come back—and I think I can—I'm ready to fight any man they want to put up if the purse is right. While I can hardly be chased so financially independent, I'll never fight as a hum and egoist. At present I am not tied up with any promoter and don't intend to sign any contracts until I know how I am hitting. I have an hour's water consideration."

SUBSCRIBE FOR THE NEWS.

## Plans for Baseball Rapidly Shaping in Twin Falls Circles

That the "Twin Falls Braves" would again be active members of the league was practically assured today. Plans for the coming season are maturing and everything is set for an early start. Officers of the local club will be elected at a meeting of the board of directors next Monday evening, at which time the final arrangements for the necessary financial backing will be discussed.

### Expect Players Back

That Apperson, Rosenburg, and Manley will again appear in Twin Falls uniforms this season is expected. All have been submitted contracts, the acceptance of which is expected daily. In this list are several managers and several players from the Sacramento club, which has assured the brain developers their support.

Bob Klefner, son of Frank Klefner, one of this city, has been tendered a contract, and local fans are anxious to see him in the Twin Falls uniform. He was star baseball and football player at the University of Idaho, later acting as athletic director at the Rupert high school. He is now acting in that capacity at the Lewiston high school. Klefner is an infielder of unusual talent and should prove a valuable asset to the team.

## AXE BEGINS TO FALL IN CAMP OF DETROIT TIGERS

SAN ANTONIO, Texas, March 19 (AP)—The axe began to fall in the camp of the Detroit Americans here today and Bill Shields, former third baseman for the University of California, was sent to Nashville of the Southern League under option with more definite plans provided for the near future.

Manager, Stormy Lindbergh, said he expects to return Frank Watt, right handed hurler, to the San Antonio club of the Texas league, or to Toronto of the International and that pitcher Stanley Sullivan, obtained from Fort Worth, and two other Tigers will be sent to Toronto.

## LOS ANGELES CLUB WINS

BERKELEY, Cal., March 19 (AP)—The Los Angeles Athletic club today smothered the University of California team and defeated under score of 25 to 16 in the dual meet held at California oval.

Claxton, Paddock and Bob Maxwell, both of the invading northern team, tied for high point honors with two first place apiece, the two supplying 20 points to the clubmen's total.

## BIG LEAGUERS IN FINE SHAPE

### Leaders of Majors in Good Condition as Fourth Week of Spring Training Closes.

ATLANTA, Ga., March 19 (AP)—The fourth week of the spring training grind of major league baseball clubs closed today and found most of the stars and lesser lights in fine fettle. With the opening of the National and American leagues now less than a month away the work out for the next fortnight is of a finishing nature and will find managers expecting veterans and youngsters alike to show "under fire" qualities.

Jack McAllister, pilot of the Cleveland Indians, seems to be the only really disintegrated leader in the south. The tribe is conditioning slowly at Lakeland as evidenced by the consistent losses in exhibition games of the last 10 days. The lineup has been shifted considerably in an effort to find a more successful combination.

### Lacking Desired Form

In two other camps, those of the New York Yanks and Philadelphia Athletics the men have not reached desired form. Several of Miller Huggins stars are not yet able to travel the route. Those included Bob Meusel and Condie. Both were rescued from today's exhibition clash with the Boston Braves at St. Petersburg. However, Eddie Moore and Babe Ruth, who have been off field for some time, were in the Yankee lineup.

### As far as the White Bishops at Fort

Leavenworth, Kansas, March 19 (AP)—Immediately south of the site of the citizens' military training camp on the government reservation at Fort Leavenworth stands a steel mounding, waiting for a ship that will never come.

### WAITS FOR AIRSHIP THAT WILL NOT COME

The mound was completed late in August, 1925. It was to have housed the ill-fated Shenandoah on its last stop before sailing back to Lakehurst, N. J., from its western trip. But the naval dirigible crashed at Caldwell, Ohio, early in the morning of September 3, killing 14 of the crew.

### The most recent voyage the gulf links

at the fort, a silent memorial to the daring men who lost their lives when the dirigible crashed and fell to earth.

## Twin Falls People To Broadcast From Radio Station KFDX

JEROME, March 19 (Special to The News)—Jerome radio broadcasting station KFDX, "The Voice of the Snake," will be on the air, starting at 1:30 o'clock today, for four hours with a varied program, ranging from an address on prohibition by Rev. C. C. Turley, pastor of the First Christian church of Twin Falls to a musical program by the orchestra of the Methodist Episcopal church of Twin Falls. The broadcast is announced Saturday by Frank E. Hart, manager of the station. The Jerome station now operating on 10 watts is broadcasting on a wave length of 293.5 meters. Reception, in spite of the low power of the plant, has been reported from points in Canada and Eastern States more than 1000 miles distant from the Jerome.

The opening program today will be given by the Famous String Quartet at 1:30 o'clock. This will consist of several short addresses on questions of local interest. The program will be broadcast on the radio of the Methodist Episcopal church orchestra of Twin Falls will present a well rounded musical program consisting of 10 classical and semi-classical numbers. The orchestra—under direction of Dr. O. A. Fuller will be assisted by Miss Beattie Carlson, mezzo soprano and A. E. French, violinist, supporting soloists.

Parsonage of the orchestra is as follows: Violins, A. E. French, Miss Helen Parrott, Luther Perce, Mrs. Harry Simek, Mrs. E. V. Jorg, Miss Alma Boebe, Mrs. Helen Warner, M. E. Mitchell, Cedric, George Smith, Richard Du Vall, clarinet, E. D. Soudgrass, flute, Charles D. Duman, T. O. Stephen, saxophone, Dr. O. A. Fuller, horn, Erick Wright, bass, H. H. Barnes, Miss Marcelle Ryan will play the accompaniment on the piano.

At four o'clock in the afternoon Rev. L. C. Curtis, pastor of the Christian church of Twin Falls will deliver an address on the subject, "Enforcement of Prohibition, Is It Possible and Profitable?" Rev. Curtis will attempt to show possibilities of the feat and will present the historical record from enforcement. Following Rev. Curtis' address the male quartet of the Christian church of Twin Falls will give a short program of sacred music.

## FLYING AMBASSADORS NO NOVELTY IN EUROPE

PARIS, March 19 (AP)—Flying has no terrors for most of Europe's diplomats who travel often by air in the interests of time saving.

Ambassador Hericik, Austria's representative in France, is one of the most enthusiastic users of commercial airplanes. He prefers air travel to any other, although he has, not always found it easy. He recently was in a forced landing on a trip to London.

London and Paris are now only two hours apart by air, but, as opposed to seven hours by land and train.

## DEAN OF PARIS WAITERS STILL SERVING AT 79

PARIS, March 19 (AP)—Baptiste Bonand, dean of Paris waiters, still serves his 80 customers daily and works his 12-hour trick, although he is 79 years old.

He began his waiting career in the employ of governors when he was two sous a glass. He was only 15 years old. Today French there is 12 to 20 sous a glass and Bonand is one of the famous waiters of Paris, the personal friend of his patron and the mascot of the restaurant Yvette.

Bonand possesses several medals of his trade, as well as the medal of the war of 1870. The corporation of restaurant and cafe proprietors has bestowed upon him its silver and gold medals. France gave him in 1914 the medal of faithful and loyal employee. He also wears the medal of merit of his particular trade.

## STRIVE TO ELIMINATE ODD SIZES IN MAELS

WASHINGTON, March 19 (AP)—Odd sizes of mail matter cause a rift in the smooth running of the postal union, as a result, the postal authorities are striving to eliminate from the mails the large and small Christmas, New Year, Easter and other special cards.

Progress has been made, but instructions have gone out to postmasters to continue their efforts with manufac-

BREVITIES

Visiting in Boise—E. J. Thompson of Twin Falls is visiting friends in Boise for a few days.

On Business in Idaho Falls—J. Woods of Twin Falls spent Friday in Idaho Falls on business.

Leaves for Portland—O. Boyd Jr., left Saturday evening for Portland, where he will spend a short time on business.

To Jerome on Business—Mrs. E. C. Brown will leave this morning for Jerome where she will spend some time on business.

Back From Boise—W. G. Stoward of the Twin Falls coal company has returned from Boise where he spent a short time on business.

On Eastern Visit—Mrs. Scott, wife of Mr. J. H. Scott, is visiting friends in Chicago. She will be away for the next three weeks.

Returns to Boise—F. P. Bald, assistant superintendent of Boise schools, returned Saturday morning in his home car, spending a short time here on business.

Take Marriage License—M. J. Midgorth and Annetta Wood, both of Gooding, obtained a marriage license Saturday at the office of the county recorder here.

Back From California—Mrs. J. H. Caldwell returned Saturday noon from Beverly Hills, California, where she has been visiting relatives for the past six weeks.

Visiting in Pocatello—Mrs. Edith Junker left Friday morning for Pocatello, where she will spend a few days on business.

Here From Portland—Rev. R. Shuler, Cambial, assistant manager for the High Evangelical church, arrived in Twin Falls Saturday and will take charge of preparations for the services which will start here during the coming week.

Back From Los Angeles—Mrs. and Mr. W. Tarr and daughter Miss Beverly Hills, California, who are in Los Angeles where they spent the past four months. The return trip was made yesterday via the Arrowhead route and road conditions were reported to be generally good.

STEERING EASE VITAL IN TRUCKS OPERATION

An important point truck owners often overlook in making their purchases is the ease with which the truck can be handled.

It is important because it makes all the difference in the world in the response to every touch of the wheel and braking mechanism is less likely to be lacking in such qualities.

Graham Brothers trucks and commercial cars are designed for easy handling and are for that reason preferred by those who know their own minds.

NEW COMPANY IS LAUNCHED HERE

Aluminum Grave-Marker-to-be Manufactured in Twin Falls; Machinery Here.

Organization of the Aluminum Grave Marker Manufacturing company, a partnership with a capitalization of \$10,000 has been completed in detail...

Three thousand dollars worth of machinery arrived here during the past week and has been installed at 138 Third Avenue south, in quarters formerly occupied at the Modern plant building.

Six orders for 1000 markers have been received during the last three days from leading jobbers of funeral goods on the coast according to Fred Beer, manager at a recent Portland convention of managers of concerns specializing in funeral equipment was endorsed as the per field of three nationally known dealers.

The manufacturing company here will be under the management of Fred Beer of Twin Falls, who will employ a number of men to operate the plant on the work and a machine shop campaign will be launched as soon as the same of business permits, it was announced Saturday night.

NEW FORDS' ARRIVAL ATTRACTS ATTENTION

First deliveries of the 1927 model Ford cars were made Saturday to the First Motor company in Twin Falls and the Jensen Motor company in Pocatello.

Today's Ford car, George R. Jones, proprietor of the Evans Motor company, pointed out, is entirely different from yesterday's. It affords new colors in gray-green finish, increased torque, better motor operation, and more power.

The new models are equipped with Holley hot spot vaporizer which has been tested out for a year on Fordson tractors, with results showing increased mileage and economy of operation.

Walnut Finish, Red, Coll. Spring, 50 lb. Cotton Mattress, regular price, \$29.50—Quitting Business price, \$21.00.

NINE DIRECTORS PUT IN CHARGE OF COUNTY FAIR

Commissioners Increase Personnel of Board and Fill Vacancies by Appointment; Propose Agreement.

Twin Falls county commissioners in session here Saturday voted to increase the number of county fair directors from seven to nine, and filled by appointment all vacancies on the fair board for the coming season.

Members of the newly appointed fair board were requested by the commissioners to meet next Friday evening in the secretary's office on the county fair grounds at Idaho Falls for the purpose of organizing the board and electing the secretary.

Seven members of the fair board were appointed Saturday, five of whom are to fill vacancies caused by resignations of former members of the board, and two to fill the positions created by increase in the personnel.

The newly appointed members are C. D. Boring, Burley; Carl J. Miller, Castleford; T. D. Coover, Piler; John H. Blass, Piler; G. W. Wilson, Kimberly; J. L. Beckenridge, Twin Falls; H. W. Graves, Piler; C. H. Peckler, Lavacon; and Neph-Linn; Book Creek; previously had been appointed, and J. E. Housner, county agent, has been designated as ex-officio member of the board.

In course of the proceedings Saturday the commissioners voted an appropriation of \$1200 for the Idaho county fair for the coming season. The Idaho Home Finding and Aid society, similar appropriation having been made annually by Twin Falls county commissioners for a number of years past.

Name Official Newspaper Action also was taken with respect to publication of the commissioners' proceedings. The Twin Falls News has long been designated for this purpose on the official county newspaper during the pleasure of the board. The vote on this proposition was two to one. James LeBaron of Hansen, demoted, having submitted propositions of two other publications, voted in the negative.

The commissioners adjourned to convene here next Wednesday at 10 p. m.

Proposed Agreement Here in County Fair

Here is the resolution and proposed agreement with respect to the county fair, which was adopted by the commissioners:

Whereas: The Twin Falls county fair is a county owned and operated institution which is a corporation as is the case with many fairs and county fairs in this state.

Whereas: Said fair is made possible by the donation of the grounds, located at Idaho Falls, Twin Falls—county fairs by the original promoters who donated the grounds, with their initial investments, to the county on condition that an annual fair be maintained in perpetuity, and

Whereas: The board of county commissioners agreed to maintain such a fair and expending by levying such special tax, under the law, as is necessary to insure the payment of all bills incurred in the promotion and holding of such an exposition, and

Whereas: Such institutions are usually conducted by the appointment of a special board of directors whose business it is to determine and put into operation such plans as will best answer the purpose for which the institution is organized, and

Whereas: The board of county commissioners has appointed such directors who have organized by electing the usual officers of such organizations, and

Whereas: A clear understanding as to the duties of both the board of commissioners and the board of directors is necessary to the successful operation of such an exposition, and

Whereas: The Twin Falls county fair has for the past 10 years been reputed to be the best county fair in the whole Intermountain country, and this year has every indication of surpassing any fair in Idaho, therefore

Be it resolved: That the board of directors shall have complete charge of the usual matters necessary to the successful operation of such an exposition, i. e. the fixing of the date for the fair, the expenditure of such funds for advertising, the offer of exhibitions, the employment of necessary help; the repairs incident to the upkeep of the grounds; fixing the rates and determining the kinds and uses to which the buildings and grounds may be put to during the season when not used for fair purposes; the classification of exhibits and fixing of premiums that may be paid on them.

Be it further resolved: That also the board of directors has the sole responsibility for the success of the fair, that they shall select the secretary, and with the concurrence of the board of commissioners, fix the salary of the same.

Be it further resolved: That the construction of new buildings and such expenses permanent improvements shall be under the supervision and only by the permission of the board of county commissioners.

Be it further resolved: That the board of commissioners prescribe and provide such methods for paying the bills of all kinds as shall best answer the needs of such an enterprise.

Resolved: That the board of commissioners agree to maintain such a fair and expending by levying such special tax, under the law, as is necessary to insure the payment of all bills incurred in the promotion and holding of such an exposition, and

Resolved: That the board of commissioners agree to maintain such a fair and expending by levying such special tax, under the law, as is necessary to insure the payment of all bills incurred in the promotion and holding of such an exposition, and

Resolved: That the board of commissioners agree to maintain such a fair and expending by levying such special tax, under the law, as is necessary to insure the payment of all bills incurred in the promotion and holding of such an exposition, and

Resolved: That the board of commissioners agree to maintain such a fair and expending by levying such special tax, under the law, as is necessary to insure the payment of all bills incurred in the promotion and holding of such an exposition, and

Resolved: That the board of commissioners agree to maintain such a fair and expending by levying such special tax, under the law, as is necessary to insure the payment of all bills incurred in the promotion and holding of such an exposition, and

Resolved: That the board of commissioners agree to maintain such a fair and expending by levying such special tax, under the law, as is necessary to insure the payment of all bills incurred in the promotion and holding of such an exposition, and

# JURY FAILS TO REACH ACCORD IN HINTON CASE

### Deliberations Extending Over Seven Hours Bring No Verdict as to Guilt or Innocence of Accused Hansen Man.

Deliberations extending over seven hours failed to bring members of the jury to an agreement as to whether the case of Willie Willis, charged with the murder of Hansen, on trial in district court here on a felony charge of receiving stolen goods, should be returned to the jury room at 11 o'clock last night for a verdict on the charge of guilt or innocence of the accused man when they went to trial in the jury room at 5 p. m. following arguments by O. W. Wilson, county attorney, and Shad L. Hodge, counsel for the defendant, and delivery by Judge W. A. Bolwick of the court's instructions.

The case for the defense was heard almost entirely on the testimony of the accused man, who was subjected to a rigorous cross-examination by the county attorney all during the forenoon session Friday, and upon the testimony of a number of witnesses as to his reputation.

**Eccher on Stand**  
Clyde Hinton, younger brother of the accused man, who is serving sentence of imprisonment for burglary, was called to the witness stand Friday by the defense. Clyde Hinton, brought from prison as a witness for the prosecution, this case had testified previously that he had stolen the rifle and other property which his brother is charged with having received illegally. Testifying Friday in his brother's defense, Clyde said that for some months before he himself was arrested here last January, he had had little or no communication with his brother. When he went north after his arrest to Frank to remove certain property from the residence of Mrs. Stella Stevens in Twin Falls, where he had been a roomer, he had said only that he had been arrested presumably for theft of an automobile.

Witnesses called by the defense to testify as to Frank Hinton's reputation were U. C. Bacon, Raymond Dink, Frank Nelson, Charles Hawkins.

**Officers in Rebuttal**  
In rebuttal the county attorney introduced the testimony of E. E. Ledington, police chief; Charles E. Jones, deputy sheriff; Albert Hartley, nephew of Mrs. Stevens; Joe Denton and Meritt Zuck.

The officers were called to refute Hinton's testimony to the effect that he had been subjected by them to treatment that had induced him to misrepresent the facts in connection with his receipt of the stolen property, and special is reference to the rifle that was discovered by the officers on

second visit to the Hinton ranch at Hansen.

Denton and Zuck were called as character witnesses. Denton said that he had known Hinton six months and that Hinton's reputation was bad. Zuck said he knew nothing about H.

### CONDITION MORE SERIOUS

Development of a trace of pneumonia marked a serious turn last evening in the condition of James S. Reed, Twin Falls city commissioner, who was rushed under his automobile when it overturned early Friday morning on Hite Lakes grade in Snake river canyon north of here. Mr. Reed spent an uncomfortable day, it was stated at the hospital. His condition, however, is reported to be improving.

## MANAGER FOR REVIVAL HERE

### Dr. R. S. Campbell Precedes Associates of Bulgin Evangelistic Party to City.

A week in advance of his associates of the evangelistic party headed by Dr. Edward J. Bulgin of Portland who is to conduct a five-week evangelistic campaign in Twin Falls beginning next Sunday, Dr. R. S. Campbell of Lincoln, Nebraska, organizer and manager for the party, arrived here Saturday afternoon to take command of the latter stages of the work preliminary to the opening of the campaign.

Dr. Campbell will today speak in a number of the churches cooperating in the campaign and, following church services this evening, he will meet with members of the several local committees to impart a missionary vision of what is to be expected in this campaign. He will address the men's Bible class of the Baptist Sunday school at 9:45 a. m. and will speak in the Christian church at 11 a. m., and in the Presbyterian church at 7:30 p. m. During the week he will address four meetings in neighboring towns, dates and places not being yet determined.

His timely, plain and inspiring message of young peoples' work, a social message of the evangelistic party will arrive here next Wednesday. Dr. Campbell stated, to take charge of the preaching of the tabernacle in which the evangelistic meetings are to be held. The tabernacle, a big wooden structure to stand at the corner of Third avenue and Second street north, is to be erected in one day's time by volunteer workmen from among members and friends of the churches cooperating in the campaign.

Dr. Bulgin and his party are to come here from Richmond, California,

## RESULTS OF TEST OF MILK HERE ANNOUNCED

Results of chemical tests during the past three months of milk supplied by Twin Falls dairymen were announced Saturday by the city meat and dairy inspector as follows:

Name	Fats	Protein	Total
Gardner & Hawkins	4.3	13.9	18.0
Greenleaf	4.2	12.7	15.9
Mullins	5.8	16.3	20.0
Merkle	5.1	15.0	18.0
Walt	4.7	14.0	17.0
Goff	4.7	13.2	16.0
Jones, T. E.	5.1	15.6	18.0
Jones, T. E.	4.3	13.8	14.0
Hark	3.9	12.0	20.0
Shonka	4.7	14.7	7.00
Shaw	3.5	12.7	5.00
Shannon	4.8	14.4	7.00
Young	4.6	13.0	14.00
Cleveland	4.3	14.1	7.00
Arrington	4.1	13.5	12.00

## Promises Action on Salmon Tract Lands

Action will be taken within two weeks by the commissioner of the general land office in regard to relinquishments by the state of Idaho of lands excluded some years ago from the Salmon River irrigation project, according to telegram received here Saturday by H. E. Powers, United States commissioner, from Congressman Addison T. Smith, maximum temperature during the same period was 42 degrees, or four degrees higher than maximum for Friday.

## High Mark for Day Is 42 Degrees Here

Forecast for today—Fair. Temperature in Twin Falls during the 24 hour period ending at 4 o'clock last night was low at 23 degrees, according to the daily report of M. Hammons, in charge of the government weather observer's station. This is three degrees warmer than weather the previous night in Twin Falls. Maximum temperature during the same period was 42 degrees, or four degrees higher than maximum for Friday.

The day was partly cloudy but wind and a slight wind from the north. Precipitation during the day was "not slight amount" at 33 of an inch bringing total precipitation for March to .25 of an inch.

## NEWS OF THE DAY AS CAUGHT BY THE CAMERA

**CARTS FORM BARRICADE IN SHANGHAI STREET.**—Old carts and odd pieces of artillery were chained together to form a barricade across this street in Shanghai to check the rush of Cantonese soldiers should they enter the city. — (International Newsreel)

**HATTLED BY QUAKE**—This picture is of one of the government buildings at Osaka, Japan. Every building in the city and the region for miles around were shaken by a terrific earthquake. Thousands were reported killed. — (International Newsreel)

**WOMAN GETS TO ENTER COUNTRY.**—Mrs. Louise Savio, New York thirty-eight years ago, was photographed as she re-entered the city. It took two years of hard hope to get past Ellis Island after a stay of two years. — (International Newsreel)

**GRACES**—“The Three Graces,” the famous work of John Singer Sargent, was reported purchased by the Metropolitan Museum of Art in New York, for \$90,000. — (International Newsreel)

**HONORED ABROAD**—Professor James Kendall, of New York University, was elected to fellowship in the Royal Academy of London for his research work in chemistry. This is one of the highest honors in Great Britain. — (International Newsreel)

**ROADS GO TO OHIO**—The eleven-ton gates at West Executive Avenue, Washington, are to be returned to the administration of President Rutherford B. Hayes, are to be terms of a bill signed by President Coolidge. They will adorn the old Hayes farm, owned by Webb C. Hayes, son of the president, near Fremont, O. — (International Newsreel)

**MISS BARRYMORE AIDS CHILDREN**—Ethel Barrymore, the actress, agreed to allow her divorced husband, Russell Cull, to join his brother, Rowell, in an attack on the provisions of the will of their father, the late Colonel Samuel Pomeroy Cull, rubber king. If successful, part of the estate will be sold, permitting the division of \$1,000,000. Shares will go to the three children of the actress and her former mate. — (International Newsreel)

**HERE'S HOW TO READ IN BED**—Note this posture and the position of the light, if you are addicted to reading in bed. It was recommended as best for the eyes by optometrists at their convention in Boston. — (International Newsreel)

# 20-YEAR BLAZE IN COPPER MINE

## Arizona's "Flaming Mountain" Celebrates Twentieth Birth- day; Fight Abandoned.

JEHOBA, Ariz., March 19.—Ariz-  
ona's greatest "long time" fire has  
celebrated its twentieth birthday. On  
that day the 20-year fire in the United  
 Verde Copper company's mine still was  
going strong.

Thousands of dollars have been spent  
by the company and scores of methods  
have been used in an effort to quench  
the flames of burning sulphur which  
make of the mountain a veritable  
"flaming mountain." Live steam and  
controlling of carbon monoxide have  
been used to kill the fire but none have  
succeeded. Lastly steam shovels were  
brought into play to combat the burn-  
ing sulphur.

Going in from the top with shovels  
and moving hundreds of thousands of  
tons of rock, the company uncovered its  
fire zone more than five years ago and  
began a systematic fight against the  
flames. Now it has stopped trying. The  
mine is now a "flaming mountain" with  
the sulphur continuing to  
burn with oxygen of the air and the  
copper-filled mountain side pre-  
sents a picture worthy of Dante's hell.

Decision of the company to abandon  
its fire fighting tactics arose from the  
discovery that oxidizing sulphur  
sulphides leaves the ore in better shape for  
smelting, eliminating in fact, the pro-  
cess of "roasting" that formerly was a  
necessary and costly operation. The  
surface only, the ore may never be  
dug out. The dynamic blast used to  
loosen the hillside for the steam shov-  
els cracks fissures and fractures the  
rock lying in the air.

Another problem, however, has been  
encountered. The mine has experienced  
shocks more than ten feet deep. At  
that depth the natural heat of the earth  
is encountered and miners have diffi-  
culty in working in the blazing tem-  
peratures. Blasts of cold air must be  
forced down to the lower levels for the  
men. A complicated system of bulk-  
heads and fans throughout the mine  
enables the operators to ventilate any  
part and to divert streams of cold, fresh  
air at will.

### Famous Colonial Lawuit

The Pursons' case refers to a law-  
suit tried in Virginia in Colonial times.  
Salaries of ministers were payable in  
tobacco. At one time the clergyman  
were in danger of becoming losers by  
the operation of the tender law. Suits  
were brought to recover the difference  
between 2 pence per pound in paper  
and currency and tobacco. The case  
was won by law the ministers were  
cut off.

# AMERICAN FIELDS OF HONOR

## SURESNES AND BROOKWOOD

Military Cemeteries  
Near the Cities  
of Paris and London

In eight cemeteries whose beauty thrills you with emotion these gallant men sleep  
for ever under white crosses that dot the landscape like the winter's snow. Next  
September 30,000 American Legionnaires will fare overseas on a sacred pilgrimage  
to these hallowed graves.

(Editor's Note: This is the first  
of a series of five articles by  
Richard Steele Jones dealing with  
the American cemeteries abroad  
where rest 30,000 American sol-  
diers who either killed in ac-  
tion or died as a result of war  
service.)

Two years after the declaration of  
war by the United States against Ger-  
many in 1917 there remain in Europe  
the traces of the American expatri-  
ment forces which proved the de-  
ciding factors in the conflict. For the  
most part, the battlefields have been  
grown up with weeds, or have been  
restored to cultivation by the army. The  
trenches, the barbed wire, the hospitals  
used have been returned long since to  
peace time uses. A few magnificent  
monuments mark certain battle scenes,  
but the official battle monuments are  
yet in the preliminary stages. The  
American Legionnaires who return to  
Europe for their convention at Paris  
next September will miss a great many  
sights which were familiar in 1917 and  
longer since. Most famous, 14,107 St. Mi-  
chel, 1918. But there are eight permanent,  
plain and prominent monuments of the  
American Legionnaires of 10 years ago—the eight

American military cemeteries overseas.  
**Well-Known Grounds**

These cemeteries, the final resting  
places of more than 30,000 of those  
who followed Perishing overseas, are  
now handsome, well kept, solemn fields  
of honor. At dawn the flag is raised  
over each of them. Each sunset it  
is lowered. In each the crosses stand in  
stately rows, white against a back-  
ground of green sod, and a first bul-  
ding of young trees gives promise of  
greater beauty as the years roll by.  
Here are the lasting records of the  
A. E. F.

Some of the American cemeteries are  
on the battlefields, on ground taken  
from the enemy by the power of Amer-  
ican arms, on ground restored to  
France and to Belgium by our deliv-  
ering sword. The other two are near the  
great cities of London and Paris. Here  
is the list of them and the number of  
those who lie therein:

Flushing Field, Waterbury, Belgium,  
1918; Suresnes Cemetery, Paris, France,  
1820; Memorial Cemetery, Reims,  
France, 1918; American Cemetery, Thiepval, 1918;  
American Cemetery, Fere-en-Tardenois,  
France, 1918; American Cemetery, Belleau,  
France, 1918.

Brookwood cemetery, London,  
England, 1917; Suresnes cemetery, Paris,  
France, 1918.

More than half of our soldier dead  
overseas were brought home to the  
states for burial. Some of these rest  
in the home town cemeteries, others in  
the national cemetery at Arlington,  
the Potomac. While it was the al-  
most universal hope of members of  
the A. E. F. that the glorious dead  
should rest in the fields on which  
they fought and fell, relatives at home  
did not share that hope, and did not  
at the time visualize the eight fine  
permanent cemeteries in Europe, and  
foresee that our government would  
spend millions of dollars to make and  
keep these fields of honor in perpetu-  
ity.

After careful studies, this commission  
outlined a complete plan for official  
battle monuments in the zones occupied  
by American forces in offensive opera-  
tions, and a corresponding plan for the  
improvement of the American cemeteries  
abroad. This thesis is now in force, and  
taking effect by gradual steps of con-  
struction, a genuine, though hastily  
sound plan for the permanent honoring  
of the American battlefields, and the  
continuing beautification of the cemeteries.

**Expensive Phase of Work**  
The most expensive phase of the  
cemetary work to be done is the erec-

tion of chapels. These will be suitable  
for sacred purposes, but non-sectarian.  
The largest will probably be a  
room that will be something of a mu-  
seum of battle relics, as well as the  
chapel room. Another matter now well  
in hand is completing masonry walls  
around the cemeteries, a work only de-  
layed in places while waiting for the  
determination of definite plans for the  
chapels, as those in many cemeteries  
will have an effect on the location of  
the walls.

In so far as personal monuments in  
the cemeteries are concerned, the com-  
mission adopted an iron clad, final rule  
that there will be no special personal  
monuments. On each grave will be a  
headstone, and these will be the same  
for officers and privates, rich and poor,  
young and old. The same rank, organi-  
zation and home state will be engraved  
on each stone. And they will lie side  
by side, as they fell, equal in glory  
as sufferers.

The plans for battle monuments are  
another and even larger task of the  
commission. They are well under way,  
and a project which should be com-  
pleted in about two years.

**Barracks in Beauty Spot**  
The first of the American cemeteries  
to be designated, and to receive the  
American flag, was that private tract  
on Mont Valerien, overlooking Paris  
and the Seine valley, and called Sur-  
esnes. It was a private tract owned by  
Suresnes, both in tribute to our heroes,  
and because there is no finer view  
of the city of Paris from any nearby  
hilltop. Suresnes is three miles from  
city limits, on the right of the Seine  
below the city. The cemetery stands  
in a park-like setting, and is un-  
interrupted for many miles.

At Suresnes are buried many who died  
in Paris hospitals from wounds sus-  
tained in battle, and others who fell  
victims of disease and accidents. It is  
most complete of all the American cemeteries  
in France, in so far as time has  
completed it by growing the trees larger,  
the shrubbery thicker and finer.  
Suresnes already belongs to the ages, a  
fit resting place for heroes, far above  
the towers of Notre Dame and the Arc  
de Triomphe, commanding forces which  
is perhaps the loveliest of the famous  
valleys of the world.

**Brookwood Near London**  
Close to another great city, London,  
is another American military cemetery,  
that of Brookwood. It lies 28 miles  
southwest of the city, easily reached by  
the train service. Here lie 437 men  
of the American forces who died in  
England or adjacent waters during the  
world war.

Brookwood cemetery is many years  
old. The cemetery is a  
entirely for our troops, and a new  
British section reserved for soldiers of  
the world war. The cemetery is a  
beauty spot, carefully cared for through  
generations. The American section lies

# English Pastor's Cabaret Competes With Corner Pub

WOLVERHAMPTON, Eng., March  
19.—It was because this town had  
been voted "absolutely dead" on  
Sunday nights that the Rev. G. D.  
Walker decided to transform the Free-  
masons' club into a Saturday night  
club, so as to compete with the corner  
pubs.

One of the cardinal rules is that re-  
ligion is not to be discussed, the pas-  
tor's idea being to arrange an enter-  
tainment which will appeal to young  
men and women and keep them off the  
streets after midnight.

Mr. Walker, explaining the purposes  
of the Sunday night club and cabaret,  
said he had been prompted to organize  
this form of entertainment to give the  
"boys and girls something to do on  
Sunday nights other than stroll about  
the streets and make remarks about  
the parents and make remarks about  
the parents."

"Wolverhampton is absolutely dead  
on Sunday night, as you all know, and  
there's nowhere to go except the  
pubs" after the churches are closed.  
The idea is to provide the kind of Sun-  
day evenings such as we should like  
to have at home," Mr. Walker added,  
that the club had already proved itself  
a success as a definite social hatti-  
tion and that it was proposed to open  
new centers in other towns as rapidly  
as possible.

on level ground, but leading toward a  
lovely, grass covered slope. An Ameri-  
can chapel will be built in this section  
under plans approved by the battle-  
monuments commission.

Some of those now resting at Brook-  
wood lost their lives in submarine sink-  
ings of transports—bearing American  
troops. Their remains were gathered  
from scattering points on the British  
east coast where they came ashore. Others  
lie here who died in training camps in  
England, or in hospitals there.

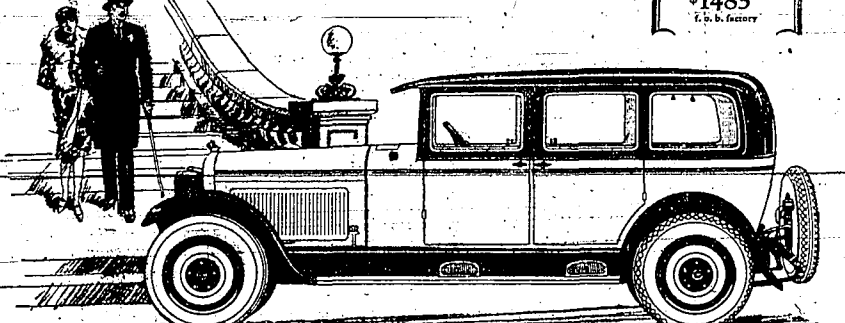

The cemetery at Suresnes, Lord As-  
ter's estate, once gave temporary shel-  
ter to the remains of several Yankees.  
Only two now rest there, the others  
have been brought home or moved to  
Brookwood.

England, like the United States, has  
been a great plains in caring for the  
graves of her honored dead. Evidence  
of this will be seen at Brookwood, where  
the British military engineers dig up  
ours. Later in France we will see the  
fine care given by our other allies to  
the resting places of their dead.

Suresnes and Brookwood are as hand-  
some cemeteries as will be found any-  
where, in any land. Both have lost the  
semblance of newness. They are calm,  
settled, complete in aspect, peaceful and  
reposed.

# NASH

Leads the World in Motor Car Value

## The Nation's New Vogue in Body Design

Styled by Nash

It is emphatically apparent today that Nash has created a new era in American enclosed body artistry with this arrestingly distinctive body design.

With its new symmetry of line, its classically beautiful French-type rear contour and French roof design, and its rich ensemble of costly car features, the new Special Sedan—pictured above possesses magnetic appeal for those most keenly perceptive of motor car style and quality.

The steering wheel is of real walnut in fitting harmony with the walnut finish of the inside window mouldings, door panels, the instrument board and the crowned panel above the instrument board. The upholstery is genuine Chasé Velmo Mohair Velvet deeply tufted.

And Nash powers it with the big 7-bearing motor—the world's smoothest type.

So that in transcendent power-economy and quietness, in lightning-fast "pick-up," and in careful roadability on the straightaway or climbing, together with a world of speed, it stands out as the most notable car of its field.

As standard equipment there are Gabriel Snubbers at front; 4-wheel brakes, of special Nash design, with the front wheel brakes completely enclosed for safety's sake; and 5 disc wheels.

A larger Special Sedan on the Advanced Six chassis, reflecting the same unsurpassed quality throughout, is offered at \$1695 f. o. b. factory.

MEN'S SUITS IN BRIGHT COLORS, FASHION DECREE

Tomato Red for Brunettes and Sunshine Yellow for Others Recommended by London Federation of Tailors.

(By The Associated Press) LONDON, March 19 (AP)—Tomato red will be worn by brunettes men on the bright spring of the reconstructions of the National Federation of American Tailors are accepted by the public. There also will be sunshine yellow for men with whose coloring it harmonizes. This is the newest shade which James Woodley, president of the federation, has espoused. Raisin purple also is very generally offered by fashionable tailors, who are giving more attention than ever before to giving men suits which do not clash with their complexions. Browns are shown in a great profusion of shades, many of them very bright. In fact, suitings are much brighter than they were for winter and London tailors are trying to convert their customers away from the traditional dark gray, blues and browns which make London streets so drab.

Radio Actors Train Voices at School LONDON, March 19 (AP)—Radio actors and actresses are under training at the Royal Academy of Dramatic Art. The British Broadcasting company has had the greatest difficulty in casting radio plays in such a manner that listeners could really distinguish between the voices of the members of the cast. Kenneth Thorpe, principal of the Royal Academy of Dramatic Art, also one of his most promising students under special training to meet the needs of the radio drama and the broadcasting company has offered substantial prizes which will be given to the two students who become most proficient as wireless actors. When students use theatrical voices listeners have little difficulty in visualizing the speakers, but such voices are not pleasant over the "wireless." If the students use a natural, easy voice it is extremely hard for the listener to distinguish between them. The great audience is often completely lost if speakers take up their cues with the same promptness they do in the theatre. Consequently they do not give the listener time to make a longer pause. This seems necessary in the legitimate theatre.

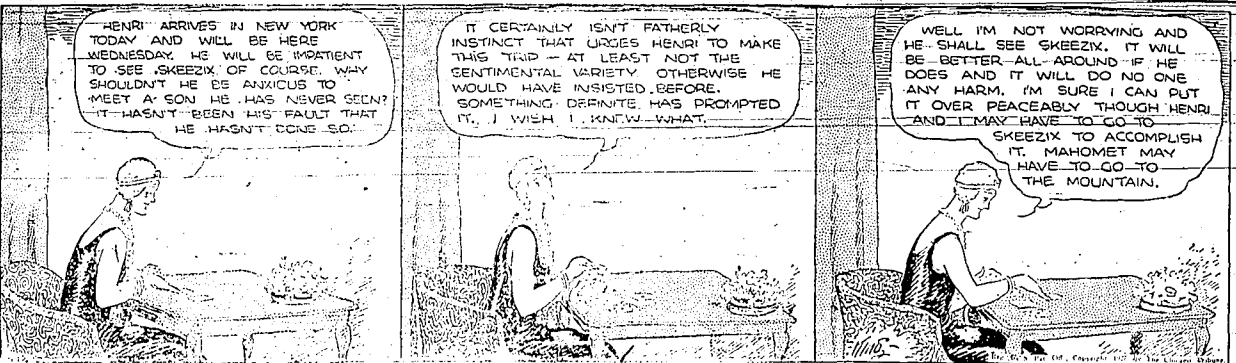

Half-Cent Bargain Lure in Abandoned LONDON, March 19 (AP)—That humble little shop, the "farthing" (half-cent), is on its last legs and will soon be banished from quotations in any guide book, where it had held sway for so many years. It was supposed to be an attraction in an article to be written in one of the farthings because it looked to the average shopper like less money than it was, although it is only half a cent. Miss Ellen Wilkinson, M. P., sound of the death-knell on behalf of women shoppers. "The farthing was always a staple article," she said. "I don't believe women ever were taken in by it, but the drapers thought they were. Certainly the modern woman is not led away by it, she is just impatient with its possession."

Hotel Chefs Devise Hot Hors d'Oeuvre LONDON, March 19 (AP)—A new dietetic series of dishes—the hot hors d'oeuvres—have been introduced in London. Four chefs at a leading hotel have each evolved six hot hors d'oeuvres. In the preparation of these dishes 220 ingredients have been used, including fish, birds' eggs, vegetables and strange fruit from all over Europe and northern Africa. The dishes are served to the hotel guests and the inventor of those that prove to be most popular will receive a handsome reward.

Chaperons Back to Help Girls Marry LONDON, March 19 (AP)—The chaperon, so wholeheartedly abolished in the years during and after the war, has come back to fashionable London. It is to be seen at dinners and other public functions than at any time since Victorian days. One reason for this, according to society gossip, is that young unchaperoned girls, while having a generally good time, have not made good marriages or have remained single, while the girls most carefully brought up and chaperoned have secured the best plum in the marriage market. It is seldom now that society girls go to a ball or dinner without their mothers or some woman relative who may be a society dame with moderate incomes are in great demand as paid chaperons.

LONDON, March 19 (AP)—Shire horses, weighing a ton each, and more, are being sold in pro-Boman days when their ancestors drew ponderous war chariots over the hilly roads, had three days to themselves at the Royal Agricultural hall here when the first monarch to recognize the "great horse," as he established a royal stud in which they predominated. Queen Anne was also an enthusiastic admirer of the Shire and had her gilded coach drawn by long-tailed mares of that breed.

GASOLINE ALLEY—CONCERNING HENRI

ROYAL BRIDES CLAIM STAGE

Monte Carlo Quits Roulette Wheels for Time Being to Speculate on Marriages.

MONTE CARLO, Monaco, March 19 (AP)—The quiet life of the young nobles competing for the fair hand of Princess Giovanna of Italy has caused a stir in Riviera society circles unexampled for many years. There is a keen speculation as to who will actually be the first royal bride of 1927. Princess Giovanna, third daughter of King Victor Emmanuel, age 20 and pretty, is perhaps the most sought after "queen of tomorrow." She has been reported engaged many times, but as to the man of her choice the princess herself says nothing. She permits even her intimate girl friends to wonder who will be the man to win the race the end. Archduke Albrecht of Hapsburg, pretender to the Hungarian throne, is said to be the most hopeful of all the suitors, though his efforts are no more serious than those of Prince Wilhelm, the 21 year old son of former German crown prince, and Prince Albrecht, son of the ex-crown Prince Rupprecht of Bavaria. To those who might object, in the prince's marriage with the archduke, more than one royal Italian family have been suggested.

Bachelor King Mentioned Bulgaria's bachelor King Boris also has been mentioned as a suitor. The prince was once reported betrothed to the son of General Duzov, generalissimo of the army during the war. They have known one another from childhood, having met in the royal nursery. Princess Hilda, third sister of the Grand Duchess of Luxembourg, is one of the wealthiest young women of the royal family in Europe, in her own name, though her husband is one of the smallest, her fortune having been inherited from her grand father, the Grand Duke Adolphus, Duke of Saxe-Coburg and Gotha, nephew of former Kaiser Wilhelm, at one time was such a persistent suitor that Princess Hilda was threatened to enter a convent if the young man did not desist.

Then on the heels of this came a report linking the name of Duke Albrecht of Wurttemberg with the princess, but this was denied, the grand duchess' councilors making it clear that there was too much opposition in the duchy to the princess taking a German as a husband. Another eligible young woman of the royal family is Princess Diana, 18-

BRITISHER DUBIOUS OF BUSINESS FUTURE

Britain in a fool's paradise? Has the present apparent improvement in the economy situated a real basis, or is there a crash ahead?

Those questions were raised by Sir Max Aitken, president of the Federation of British Industries, in an address before the Liverpool and District Bankers' association. Sir Max expressed the opinion that average investments of British people were yielding much larger returns than many persons realized and make it possible for Great Britain to finance imports far in excess of its exports. News Want Ads reach the people you wish to attract.

Beef Outranks Pork In 1926 Consumption Over United States CHICAGO, March 17 (AP)—More beef was "killed" for American dining tables in 1926 than ever before, although the average American ate during the year almost a pound less of meat than in the preceding twelve-month period. The national livestock and meat board was told today by R. A. Sillit, its chief man. Of 17,213,000 pounds of meat consumed in 1926, 8,000,000 pounds were beef, according to figures of the federal government. The 1926 consumption of meat was 20,000,000 pounds greater than that of the year before. Cattle Take Lead For the first time in many years, cattle furnished more meat than pigs. A partial reason for the decline of pig raising is that the average age of hogs which resulted from the downward trend of the market, in the wake of overproduction of hogs in 1923 and 1924, was 12.5 months. The strongest fact found in the government figures was that although the number of hogs was 1,000,000 more in 1926 than in 1925, the weight of hogs was 1,000,000 pounds less. The per capita consumption of meat in 1926 was 128 pounds, compared with 134 pounds in 1925. Production and consumption of lamb continued in 1926 the growth it has shown for several years. Production was greatest since 1911, and the average American ate 5.3 pounds of lamb meat.

Shilling Business Sale. Home for British. A. H. VINCENT COMPANY adv.

Take command of a COMMANDER

Now \$1585 f.o.b. factory, including front and rear bumpers, 4-wheel brakes and snubbers. We offer to lend you this new Big Six Studebaker Brougham to test for yourself. It will out-speed, out-climb, and out-live any car within a thousand dollars of its price.

THERE are no strings on this offer. You take a Commander. You drive it. You judge Studebaker by what the car does in your hands. No obligation except to tell your friends about it. Only by having scores of motorists in this city drive this high-spirited automobile can we win public appreciation of Studebaker's wonderful achievement.

You knew this—Studebaker dependability has long been recognized—universally. The grace and beauty of Studebaker's custom cars have won general admiration. —but not this! But the public does not yet realize that Studebaker performance is now far in advance of all competition.

We proved it—now you prove it yourself. On Studebaker's Proving Ground we checked The Commander against competitive cars—satisfied ourselves by exhaustive tests that it would out-speed, out-climb and out-live any other car, six or eight, selling for less than \$2500. Now we invite you to sit behind the wheel yourself and prove The Commander's supremacy.

The Commander is waiting for you. Try it out—no obligation!

J. A. Barrett Auto Co. 250 Main North Phone 56. STUDEBAKER Seventy-five years young. Studebaker offers a car of the type and size to fit every need and every purse. The striking Six Studebaker's new 215 liter car, in a body styles—\$1925 to \$2925. Studebaker models from \$1100 to \$2745—all prices f.o.b. factory, including 4-wheel brakes and bumpers, front and rear.

Selwood of Sleepy Cat

By FRANK H. SPEARMAN

It was precisely the way he himself should have acted if positions were reversed; and he knew Barnhart's astuteness, too well to believe he would act in the circumstances any differently.

CHAPTER XIV

Selwood Finds Charlie. The barbershop was dark. "What are you looking for?" asked Barnhart.

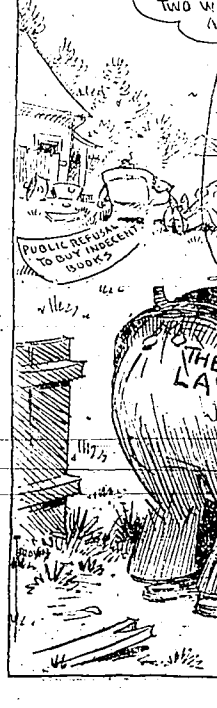

Selwood, without raising his tone, tried out a double-edged bluff—one that would work either way. "I'm looking for Charlie," he said.

"If he follows you back, Bull," continued Selwood somewhat hesitantly, "he will be in the back door; you should open that door in front of you."

"What are they?" asked Selwood. "Margaret had said, 'All of these men,' and I'm sure they're all here."

"Oh, shut up, Bull," blurted out Selwood. "Get out! Get out! Get out!"

THOSE SLEEPING LAUNDRY EXPERTS

would no longer interest Harry. With all grace, but without incontinent delay, Barnhart advanced to the door, his left wrist gripped in Selwood's.

"It was precisely the way he himself should have acted if positions were reversed; and he knew Barnhart's astuteness, too well to believe he would act in the circumstances any differently.

Scott & Bower, Bloomfield, N.J.

FRENCH CAFES  
OUTLINE CODE  
FOR DRINKERS

Hard Liquor, Shunned in Land of Light Wines and Beer; Restaurant Owners Assent True Temperance Prevails.

(By The Associated Press) PARIS, March 19.—The gentlemanly drinker has his code even in this land of light wines and beer, where, so some writers say, hard liquor is shunned and true temperance reigns.

"Some of the best signs on a little cafe in the suburbs of Paris," think moderately, pay honorably, leave amicably and go home quietly." It further enjoins its clients to recall that:

"Four glasses make a quart; two quarts a round; two rounds a discussion and a discussion one quarrel."  
"One quarrel makes a battle; one battle calls for two policemen. A justice of the peace is not a lawbreaker; a jailer equal to time or a few days in jail, plus costs."  
"Keep this in mind," the placard concludes.

**Race Bet Adds to "Black" Income**  
PARIS, March 19 (AP)—The worldly wise family Olier whose fortune was ground out by the windmill of the fortunes "Moulin Rouge" of Montmartre is again in public notice by its latest way of making money.

It takes a toll of about 7,000,000 francs a year from the race course bet of the pari-mutuel system authorized by the government and popularly supposed to be conducted by it. The betting monopoly in reality is actually operated by the various organizations that handle the race tracks.

**Paris Censors Its Noted Spy Reading**  
PARIS, March 19 (AP)—Paris is actively censoring some of its "light literature."

Scores of newspaper stands on the boulevards have been closed for three days for selling a certain collection of "frivolous" stories. Other vendors have been fined for displaying periodicals whose covers are quite realistic.

Foreigners are made the alibi. "We don't read these things," some vendors told the police. "We don't know what is in them. We buy them because the foreigners want them."

What spins adverse criticism of this censorship in the minds of those who devote all their leisure to strolling about the boulevards and the Bois de Boulogne, is that these stories also are in an easy and side streets where tourists seldom go.

Not only have these places been in existence for generations but well-known periodicals whose illustrations, text and advertisements all would be banned under the most primitive censorship, are everywhere displayed and sold.

**Pets of the Rich Wear Paw-Plates**  
PARIS, March 19 (AP)—Paw-plates for dogs of the elite are disturbing traffic on Paris boulevards.

A nice little silver chain holds a nice little half-inch silver plate on the left front leg of the dog. The plate carries the name and address of the wearer. It looks, at first glance, much like a wrist-watch, which may be the next step.

At the upper end of the dog's leash is the fair owner, who usually gets her share of attention from the staring public.

**Children Play Under Ultra-Violet Ray**  
PARIS, March 19 (AP)—An ultra-violet ray sun that is never clouded shines on an artificial sand beach in a basement of Paris. Children, wearing only a pair of trunks and smoked glasses, play there on their way to health.

This city sea-beach is a part of the Institute of Actinology, a clinic fighting tuberculosis.

Edmond Herriot, minister of public instruction, dedicated the beach at a little ceremony, while the young patients played the sand.

The beach is 40 feet square, with the walls covered with bright aluminum foil for reflection and the blinding mercury lamp above.

Premier Poincare and the chamber of deputies had a sad session recently tending to the troubles of tourist resorts. It was agreed that foreigners were few and that something must be done. Deputies told the premier tourists generally left just before the 375 franc because effective and that others avoided the country because of the tax and the annoying formalities. The tourists, they said, are going to Italy, Switzerland and other countries.

Poincare said the foreign office had opposed the anti-foreigner legislation and that various governments had protested.

YOUR BOY'S BUSINESS  
RAILROADING AS A LIFE WORK

Being the Sixth of a Series of Timely Articles by

ROGER W. BABSON

(Special to The News) BABSON LAIK, Fla., March 19.—This week Roger W. Babson discusses the important effects of the railroads both to the young men seeking employment and to the older ones with money seeking investments. This is one of the "Your Boy's Business" series, says Mr. Babson.

**Government Control**  
"Railroads like all other things in the world, have their advantages and disadvantages. The chief advantage held by the railroads is that they are a natural monopoly. Since the advent of the automobile and truck, this monopoly is not so great in connection with short haul business, but it still exists to a large extent. Certainly the long haul railroads have no competition and none is in sight. Even in the case of competing lines (as is illustrated by the Atlantic Coast Line and Seaboard Airline) competing for Florida business, there is no rate cutting. The competition is in the fare and ownership only. The fare is the same from New York to Miami whether one goes on the Coast line or on the Seaboard. Railroads are a natural monopoly, but this fact makes necessary governmental supervision. Hence we have the interstate-commerce commission with its arbitrary rulings.

At the present time the railroads are not suffering as in the past from governmental control. Since the transportation act of 1920 by congress, allowing the roads to earn 5-3-4 per cent on their valuation, the interstate-commerce commission has been controlled in many cases, to advance, rather than lower rates. This has especially helped the strong roads and made them stronger. A republican administration is also favorable to the railroads and such an administration has been in power since 1921. Everything in the way of governmental supervision is also favorable to the railroads and such an administration has been in power since 1921. Everything in the way of governmental supervision is also favorable to the railroads and such an administration has been in power since 1921.

**Problem of Unionism**  
The chief advantage facing the railroads that they can both be heard and felt by the labor union and constantly harassed by the farmers. This is not a criticism of the unions or of the farmers. Both the fight of the labor unions and the disintegration of the farmers are signs that the people are struggling for a better life. Moreover, 90 per cent of all business depends upon agriculture and payroll.

Since the railroads are a natural monopoly, they will go back to their old football games and use the railroads for the ball. A democratic administration would especially be tempted to do this.

**Railroad Stock as Investments**  
The control which union labor has over the railroads ultimately harms the stockholders of the railroads. Bond holders do not suffer so much because labor leaders dislike to be left after the government, the companies, and the bondholders are satisfied. The stockholders today get a small share; labor gets more than half of the profits in the last six years, the large railway of the United States have paid \$80,000,000 more in taxes than they paid in each dividend by amounts varying from about \$100,000 in 1920 to \$300,000 in 1925. In 1925 the excess of taxes over cash dividends amounted to about \$10,000,000. Strike changes have occurred in the past 15 years. In 1914, the year in which the interstate-commerce commission adopted the present system of railway classification, the taxes paid by the railroads amounted to 400,000,000 while their dividends were \$307,100,000. Then taxes started up, war and dividends began to decline, with the result that in 1925 taxes had increased 250 per cent over

the 1911 level, while dividends were 14 per cent below the 1911 mark. Recently railroad stocks have been very popular, especially the favored preferred ones. This has been due largely to speculation in connection with possible consolidations. It will be years before some of these consolidations ever occur, and even if they should now take place present prices for some of these stocks are, in my opinion, unjustified. On the other hand, it should be recognized that some of the large systems have been planning large scale improvements. Plans like the Atchafalaya, the New York Central, the Southern Pacific, the Northern Pacific, the Rock Island and the New Jersey Central have tremendous assets. Without doubt the railroads are in better physical condition and have a greater earning power today than at any time during the past 20 years. A 7 per cent stock today, however, is not worth what it was 20 years ago owing to the income taxes which must be paid thereon by many holders. To the extent that taxes are passed on to the ultimate consumer, so dividends of today should be discounted when compared with those of 1905.

**Transportation in Cities**  
Owing to the very hard times which street railways have had, almost no one today will buy traction stocks. Yet people are riding today more than ever. Of course, the great gain has been in private automobile riding which has greatly affected street railway earnings. Those companies, however, which are making business whenever possible are fast getting back those riders. The congestion of city streets and the increased parking regulations are making travel by automobile less convenient than by street car or bus. Young men wishing to show initiative can well afford to go into the bus business if properly backed or, what is better, get employment with some disreputable street railway operator. Here is a virgin field—large unexplored, and with great possibilities. The roads for each will grow by leaps and bounds for many years to come. Another most interesting field for young men desiring to move into business is air transportation. Some day the helicopter will be developed and then transportation by air will become more popular. Personally, I feel that motor coaches and air transportation offer better opportunities today both for young men and for investors than in any of the so-called "cheap rails" now being built.

The railroad industry is very dependent upon business conditions. Receipts from both freight and passengers increase and decrease greatly with business conditions. Railroad receipts are not afforded much more than are profits of traction companies with its auxiliaries. Railroads discharge their employees very ruthlessly when business becomes hard and when recharging on players' salaries counts for more than ability. The last one employed is the first one discharged; while the oldest in service is the last discharged. And now the Babson chart shows both railroads earnings and general business to be above normal. General business registers 6 per cent above normal and railroad earnings register considerably

Visit Innocent, Beauty Says

MRS. SARAH MILDRED PETTIE STANDISH, 23-year-old Virginia beauty and heiress of Providence, Rhode Island, was lodged in the East Cambridge, Massachusetts, jail after her husband, Granville B. Standish, declared he had found her in the room of Ormond Cook, Harvard law student. The woman vehemently denied wrongdoing. Standish recently sued for divorce, but lost his case when courts held that he had not come into court "with clean hands."

DENIES CHARGE OF LOVE FRAUD

Young Heiress Alleges Loss of \$15,000—Along With Lover; Case Before Grand Jury.

NATCHEZ, Miss., March 19 (AP)—A wealthy young heiress who charges she lost \$15,000 along with a lover, who eloped with a stenographer, now finds the bride claiming the money as a pre-nuptial settlement given by her husband in lieu of any future claim for alimony.

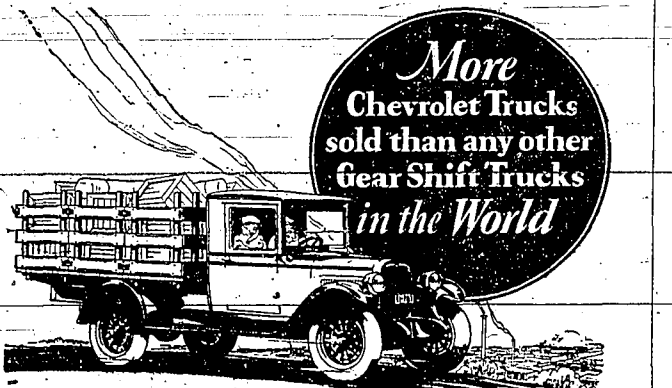

Paul R. Hymel, the man in the case, is bound over to the Adams county grand jury, which meets March 21, on charges of fraud, abduction, breach of trust and false pretenses of love. He was arrested in Little Rock, Arkansas, January 22, two days after he had married the 19-year-old Gladys Helen Stacks.

Catherine McKittick, 21, descendant of one of the South's oldest families, testified at the preliminary hearing she gave Hymel the \$15,000 in stocks and bonds for use in business after his marriage to her and thought she signed a paper to this effect.

But Hymel exhibited to officers a document which described the property as a "gift, outright, pure and simple." He returned to Natchez voluntarily, denying he deceived Miss McKittick.

**Officers Seize Bonds**  
Bonds and currency, amounting to \$12,500 and an automobile, were seized by officers when they caught Hymel in his home on 5209 Mrs. Hymel's case came forward with the claim she was protected on future claim for alimony before marriage when Hymel presented her with the property in question. Miss McKittick retained by having the money placed in the hands of the receiver until courts decide the ownership.

"Glester," a native-born home of the McKitticks, long has been one of the show places of the state. It was the residence of Winthrop Sargent, first governor of Mississippi, and on the grounds is the tomb of Sergeant B. Prentiss, famous statesman and orator.

**More Chevrolet Trucks sold than any other Gear Shift Trucks in the World**

for Economical Transportation

**CHEVROLET**

—at these Low Prices!

1-Ton Truck Stake Body	\$680
1-Ton Truck Panel Body	\$755
1-Ton Truck Commercial Chassis	\$610
1-Ton Truck Chassis	\$495
1/2-Ton Truck Chassis	\$395

All prices f.o.b. Flint, Mich. In addition to these low prices, Chevrolet trucks are equipped with the lowest handling and financing charges available.

Chevrolet stands unchallenged as the world's largest producer of gearshift trucks.

With its powerful valve-in-head motor—now equipped with AC oil filter and AC air cleaner; with a 6-inch channel steel frame, super-rugged rear axle and modern 3-speed transmission, recently improved—it is praised by users everywhere as the greatest commercial car value of all time.

Only the economies of tremendous volume production make possible such super quality at Chevrolet's low prices. Come in and see the truck that has won worldwide leadership. Learn why it has given such supreme satisfaction to so many users of every type—big fleet operators and individual owners.

**Starting Acceleration Power & mileage**

**Use this 3-way check**

ONLY a gasoline refined to produce the utmost in motoring efficiency can meet the triple test. Some gasolines give an extra-quick start but lack power; others may have an abundance of power but are too hard to start and lack a quick pick-up for traffic driving. That's why it will pay you to check your gasoline three ways: for starting, acceleration, power and mileage, and when you do that—you'll be a confirmed Conoco user.

Conoco is the triple-test gasoline. It does not deliver one requirement of a good gasoline at the expense of another. It delivers them all—in just the right proportion.

Fill your tank at the Conoco sign. Only then can you appreciate the real motoring satisfaction which Conoco supplies—in winter or summer.

**CONTINENTAL OIL COMPANY**  
Producers, Refiners and Marketers of high-grade petroleum products in Alaska, Colorado, Idaho, Kansas, Missouri, Montana, Nebraska, New Mexico, Oklahoma, Oregon, South Dakota, Texas, Utah, Washington, and Wyoming.

GERMANS STILL SEEK FACILITIES FOR BATHPOOLS

Society for Free Public Baths Inaugurates Campaign to Provide Adequate Means for Keeping Clean.

(By The Associated Press) BERLIN, March 19.—Having the slogan, "A bath a week for every man," devised by Professor Oscar Kauter in the days when Berlin had no municipal bathhouses, the Society for Free Public Baths has...

Cabinet Minister

BERLIN, March 19 (AP)—Dr. Otto Gessler, German minister of defense, who has successfully weathered several political storms during his career since the revolution in 1918, has almost become a recluse, while formerly he was to be seen at every social function.

Non-Alcoholic Berlin

BERLIN, March 19 (AP)—Alcoholic (non-alcoholic) restaurants are making headway in Berlin, where it is usually assumed that persons drink wine or beer at their meals.

Foreign Languages

BERLIN, March 19 (AP)—Study of the German wireless broadcasting system reveals a remarkable use of its facilities for educational purposes.

Housing Shortage

BERLIN, March 19 (AP)—Capital has been altogether too active in Albersweiler, Rhineland Palatinate, to suit the housing authorities. There are three or four "hot" patches for new apartment houses for newly married couples.

Postoffice Adopts Advertising of Self

BERLIN, March 19 (AP)—The German postoffice hasn't adopted the advertising proposals which have been common in England of putting out private advertising matter on letters in the form of postmarks, but it is now following the method used in both England and America and doing a little advertising on its own ground in this way.

Government Has

BERLIN, March 19 (AP)—Every minute of the working day of the German chief executive is accounted for by the secretaries of President von Hindenburg at his "white house."

WOMAN WHO WAS TOO BUSY TO WED SUCCEUMBS TO SUIT OF SENATOR

These two energetic figures in national life were united in marriage Tuesday. They are Senator Clarence C. Dill, of Spokane, Washington, and Miss Rosalie Jones, of Cold Spring Harbor, New York.

YVON SPRING HARBOR, N. Y., March 19 (AP)—Senator Clarence Dill, who once suggested that all boys be sent to farms in the country until they were fifty years old, and who, on another occasion declared that he had too much to do in life to stop for marriage, has found time to do the work and engage in fights with all former war matters which she considered she knew more about than they.

MECHANICAL THINKER FOR FRENCH OFFICES

PARIS, March 19 (AP)—A mechanical thinker in round office executives of their appointments and tasks has been invented in France.

HORSE MEAT DELICACY

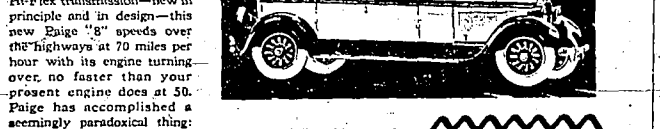

BOKHARA, Turkistan—Horse meat is considered a rare delicacy throughout the vast Kingdom of Bokhara, inhabited by several million nomads of Turkic origin.

QZAB'S LINEN SOLD

MONCOW.—Thousands of tubular clothes, markings, and tubular ornaments used by the late Emperor Nicholas and his family have been placed on public sale.

Performance such as was never known before

Paige "8" with Two High Speeds

Because of an entirely new Hi-Flex transmission—new in principle and in design—this new Paige "8" speeds over the "highways" at 70 miles per hour with its engine turning over, no faster than your present engine does at 50. Paige has accomplished a seemingly paradoxical thing: It has increased car speed by decreasing engine speed.

PAIGE-JEWETT SALES COMPANY

HARRY ATWOOD, MGR. "MILES OF SMILES" 161 2nd Ave. North. Phone 230.

Will Construct Half-Million Dollar Breakwater to Protect Helgoland, One-Time Gibraltar of Fatherland

WASHINGTON, March 19.—That Helgoland, Germany's northwestern outpost of defense during the world war, is still considered a valuable asset, is indicated by the recent appropriation of \$500,000 for the construction of breakwaters to protect the island at its most exposed parts.

Berkeley Scientist Assisting Austrians

VIENNA, March 19 (AP)—Dr. William Herzig, Berkeley, California, is trying to wrest from the ancient salt mines of Hallstatt the story of the lives of the people who lived there in the days of the Danube Basin and peoples of Asia Minor.

Old Shop-Windows Gone

Paris shopkeepers still talk of "putting up the shutters" at closing time, but actually they pull them down. The quaint, many-paned slip windows familiar in the old illustrations to the "Songs of Bressan" and the Crutche-shank, have disappeared to make way for great, solid iron "curtains," which are hauled down with a lever.

Old Shop-Windows Gone

Paris shopkeepers still talk of "putting up the shutters" at closing time, but actually they pull them down. The quaint, many-paned slip windows familiar in the old illustrations to the "Songs of Bressan" and the Crutche-shank, have disappeared to make way for great, solid iron "curtains," which are hauled down with a lever.

DODGE BROTHERS MOTOR CAR Facts that Draw Crowds and Sway Buyers

Little wonder Dodge Brothers Motor Cars today are accorded such widespread and enthusiastic commendation—Smart new body lines and attractive color combinations—A new seating arrangement that provides still more roominess and comfort—A new clutch, simple, sure, silent—Softer pedal action, easier gear shifting—Quicker acceleration, still greater steering ease—More rigid engine support—and smoother performance—New, silent-type muffler—Sturdiness and dependability made still more pronounced by vital betterments in body construction and in the propeller shaft, differential and axle shafts.

# URGES CONTROL OF LEAF PEST

### Entomologist for Idaho Agricultural Experiment Station Discusses Blister Mite.

UNIVERSITY OF IDAHO, Moscow, March 19. The leaf blister mite is a pest of apple trees which needs a good cleaning up in the Twin Falls district this spring, judging by the number of complaints that are being received by the experiment station, "Blister Mite," entomologist for the Idaho agricultural experiment station, says that fortunately it is quite easily controlled by dormant spraying and that if work is thoroughly done it does not have to be repeated again for several years.

**Presence Easily Noted**  
The presence of the leaf blister mite is first made known to the grower by the appearance of his apple or pear trees. Very soon after the first small leaves have unfolded in the spring "pimples" or blister-like, yellowish spots may be observed which, at first, are very small but which later grow in size and number until they often run together and cover large portions of the leaves. Blisters are first yellow, red or brown, become wrinkled, and affected leaf tissue becomes dead and brittle. The effects of mites on leaf tissue causes an interruption in the food-making and growth and heavily infested trees set few fruit buds for the succeeding year's crop. In addition, the mite mites cause general deformation.

Individual mites are extremely small and are visible only with the aid of a glass. They are the size of a long hair and are often present there in such vast numbers that when a leaf is examined under a microscope or a magnifying glass, it is often found to be covered with them. When laid upon a leaf in the spring, the mites become active and as soon as they leaf tips appear they bore into them and feed between the upper and lower surfaces of the leaves during the growing season.

**Control of the Blister Mite**  
The leaf blister mite is completely controlled by one application of standard lime-sulfur solution used at the rate of one gallon to eight gallons of water, and applied thoroughly. When spraying is done to combat San Jose scale, the treatment, when made at such strength, will control both pests. Effective spraying with lime-sulfur against the leaf blister mite must be done before the mites begin to feed. Some of the overwintering mites will gain access to the leaves and control will not be complete.

**Blisters Mite and Leaf Rollers**  
Oil sprays are but partially effective in controlling the leaf blister mite but they are not entirely preventive if made practicable to use them. Where San Jose scale, blister mite and the fruit tree leaf roller all occur in the same orchard it is usually possible to use oil and lime-sulfur on alternate years since either neutral controls scale and shows neither of the other two insects has to be controlled every season. By the use of lime-sulfur one season the blister mite and scale are controlled and by

# Tried for Murder of Mate

**SEVENTEEN-YEAR-OLD Frances Higgs Yates and 60-year-old Ed Powell went on trial at Henderson, Kentucky, on charges of murdering Elmer Yates, the woman's husband.**

**"TRAMP, TRAMP, TRAMP" MORE THAN MERE SONG**  
WASHINGTON, March 19. (AP)—"Tramp, tramp, tramp," the boys are marching, is more than just a song for the marine corps and Uncle Sam has quite a job keeping his sea soldiers supplied with a tramping outfit. This item for the next 12 months for the 18,000 marines in England.

50,000 pairs ruffled shoes; 200,000 pairs cotton socks; 100,000 pairs woolen socks; and 4,000 pairs rubber boots. In the way of clothing materials they will need 200,000 olive drab trousers; 250,000 olive drab shirts; 200,000 pairs handkerchiefs; 15,000 yards canvas padding; 15,000 yards black webbing; 250,000 yards green sewing silk; 100,000 yards black suitings; 10,000 yards tape; 25,000 trousseau belt buckles and a host of other articles.

**PENNY-IN-ALOT RADIO INTRODUCED IN LONDON**

There will be lectures in which individuals will sit with ear phones while listening to the wireless program until they get their pennies' worth. The professor general has sanctioned a private company undertaking the scheme.

**DROVE FIRST BOSTON AUTO**  
WATERBURY, Mass.—J. A. Jackson, one of the country's oldest chauffeurs, drove the first automobile in Boston. He says he has never been arrested or had an accident.

# IDAHO POTATO MARKET QUIET

### Weekly Review Issued at Idaho Falls Shows Reaction to Recent Heavy Shipments

IDAHO FALLS, March 19. (United States Department of Agriculture)—After the period of considerable activity of the previous week, the Idaho potato market has been very dull and sluggish this week, with slight declines in price, states the weekly market review, issued Thursday by the Idaho Falls office of the federal market news service. This reaction was largely caused by the heavy shipments which were drawn out by the recent increased demand and slightly higher prices in the terminal markets. During the week of March 6 to 12, the total United States shipments averaged 50 cars per day, the heaviest tonnage since the digging time. A part of these were of seed potatoes moving from the northern states to the south and to the west coast. The seed potato market, but this week movement is practically finished, and the subsequent shipments will be mostly of table stock.

**500 Cars From Idaho**  
The Idaho shipments during the week totaled 500 cars, averaging 50 cars per day, compared with 465 cars for the preceding week and 720 cars for the corresponding week of last season. For the first three days of this week the average was slightly lower at 72 cars per day, and indications were that the market would be quiet for a few days. Most of the shipments of the past week went east and the western demand has been light, and only 22 cars were devoted to California. Of these, 68 went to

southern California and only 11 to the northern districts, where the markets have been very quiet.

Much of the eastern demand and most of the strength in the local market was accounted for by the continued activity attracted arrivals. Receipts of 140 cars from Idaho during the week, compared with the usual receipts of around a hundred cars per week, were combined with heavy receipts of northern stock sent the Chicago track holding up to a high level. This had a depressing effect on the market, and quotations on Idaho Russets declined from \$2.80 to \$2.70 a range of \$2.70 to \$2.80. But receipts of Russets during the week had been reduced to 250 cars, indicating considerable trading there, and with the number of Idaho shipments destined to Chicago greatly reduced, lighter supplies were in prospect.

**Prices Decline**  
At Idaho shipments points, the cash track market for loaded cars of warehousing included Russets advanced to a range of \$2 to \$2.10, according to the weekly market review. Receipts of the stock, with a few cars bringing as high as \$2.45 a week ago. But with the increased demand and slightly higher prices in the terminal markets, the price had declined to a general range of \$1.80 to \$2, and trailing had been very light. The price in the growers' hands was \$1.80 to \$1.90, with a few fancy lots of large stock \$2. But under the prevailing dullness of hand cars, dealers were limiting their quotations to \$1.65 to \$1.80, mostly \$1.70 to \$1.75, and quotations by growers have been light.

There is still a considerable difference of opinion as to the amount of potatoes remaining to be shipped from Idaho, though all estimates agree that stocks are light. In a year ago at this time, the shipments to date this season totaled just 15,000 cars up to March 17, compared with 14,100 cars a year ago. The shipments to date this year are 500 cars, and the total last season was 18,271 cars. This year's crop is estimated to be 270,000 cars, and the total last season was 270,000 cars. The shipments to date this year are 500 cars, and the total last season was 18,271 cars. This year's crop is estimated to be 270,000 cars, and the total last season was 270,000 cars.

# Defended!

**ATTER CARRYING** her 15-year-old son three miles through the snow to a doctor, Mrs. Ellen Barham, of Bonon, New Mexico, confessed that she had stabbed him. But while she was making her confession, he steadily claimed that he had accidentally cut himself, and when he was confronted by her admission, the boy insisted it was his fault because he angered her.

She was charged with the murder of her son, who died of his wounds. The case is being handled by the local authorities.

# Light on Mountains Pageant to Be Given By Moscow Students

UNIVERSITY OF IDAHO, Moscow, March 19.—The Light on the Mountains pageant, which will be presented for the second time by the university student body on June 4.

The program was first presented at the university in 1923, and at that time arrangements were made that it would be given here once every four years. It was presented again in 1924, 1925, and 1926, but for presentation during the celebration of the completion of the main line of the Union Pacific through the capital city.

**Elaborate Preparations**  
Elaborate preparations will be made this year. Hundreds of students, supported by several New Mexico and other Indians from north Idaho resorts, who will be brought to the campus to represent scenes in the Indian costumes of the period when troops were stationed in the territory to make life safe for "the whites" will be used to carry out the realistic atmosphere of the pageant.

**Portrays Idaho History**  
The epic scene to portray in drama, song and dance the history of Idaho from the first of Indian occupation to the present day. A careful historical study was made of each episode by the students, and the author, Mr. Jennings, a student of the drama pageant was written, now an instructor in the department of English, is reviewing the script for the presentation in June.

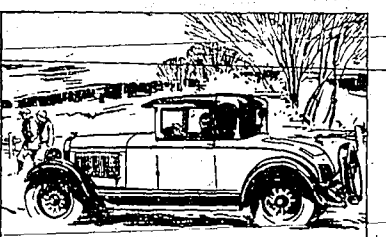

Direction and staging of the pageant has been placed in the hands of John C. Graham, head of the department of dramatics and play production. He is assisted by Merrill Spokane, who has been named as the manager of the drama pageant. Other general publicity and advertising manager.
