Three Leading Contenders for Baseball Honors Face Serious Handicap Unless Players Sign.

NEW YORK, March 22 (AP)—The permanent chances of three of the major league contenders will be seriously jeopardized if much more persistency is displayed by stars who are holding out for bigger and better pay checks.

It doesn't take the eagle eye of an expert to recognize that Eddie Bonham of the Kansas City club, the Yankees and Herbie Pennock of the Yankees are only slightly less vital to their respective franchises than the remaining 12 is to a watch.

Giants Need Outfielder With Ross Young lost for the year because of illness, and Irish Meusel gone, the Giants are badly in need of Bonham's services.

These three stars combined are worth \$3,000,000 on the market. Pennock, originally offered a three-year contract at \$1,000,000, is understood to be holding out for \$2,000,000.

MERCIFUL-BULL COMES IN LONG TERROR REIGN

Continued From Page One It is understood that this was being carried on by the Cantones against Boston. A terrific explosion also was believed to have taken place in a northern ammunition dump but this could not be verified because of the stringent martial regulation in the native districts by the authorities.

Many Innocent Victims It was impossible to ascertain the total number of dead in Chungking, but undoubtedly scores of innocent Chinese and death, some by the knives of executioners and others by wanton machine gun fire by soldiers protecting looting companies.

A series of fires, caused by exploding shells, increased the horrors of the day and made flight for the natives. All day long native refugees streamed in scores of thousands through the international barrier.

HOPE FOR ORDER WASHINGTON, March 22 (AP)—Official reports from Chungking tonight indicated that the Chinese authorities were moving to take over the city completely, which aroused hope that they would end quickly the period of lawlessness.

FISHERMEN PREPARE FOR FINAL WEEK-END TREK

With but one more week end in which to lure the hungry trout, local fishermen are busy fitting leaders and testing rods for the anticipated last fishing trip. Reports of good catches have had their effect on trading prices, and barren waters never before traversed by hook and line will have their poorer distributed by these eager anglers.

Good catches at Malad, Haldinger creek, Box canyon, Thousand Springs and Clear lakes were reported last Sunday, but to the inflated supply means that someone went there to fish.

From the luck waters of American Falls like comes the report, supposedly authentic, of a 13 pound and 5 ounce rainbow trout caught by a local fisherman, professor of business administration at the U. of T. With this mark to shoot at, local fishermen should come in with a real story next Sunday.

JUDGE BAKER DENIES MOTION TO QUASH IN BURLEY PASTOR CASE

BURLEY, March 22 (Special to The News)—The motion of the defendant to quash the information is in all respects denied and overruled to which the defendant expressly excepts, ruled District Judge Hugh A. Baker Tuesday afternoon at the close of argument on defendant's motion to quash in the case of the State of Idaho versus John T. Morris, Presbyterian pastor of Burley, where he is charged with criminal libel, the reading of certain alleged slanderous statements published in the "Burley Herald," edited by the plaintiff, against Sheriff Presley D. Jace.

Defense counsel, contending that information presented by the state contained other than that set out in the criminal complaint, argued that no preliminary hearing had been held on the offense charged in the information. Additional motions relating to the information will be filed Wednesday morning announced the defense.

Which side of the bed is the wrong side

M-J-B Coffee. That's a riddle most of us never trouble to answer. All we know is whether we hop out of bed feeling tip-top or crawl out feeling "low." But, even so, there's break fast, and that's the time to let those "fumes" go up in smoke—that fragrant whisp of smoke that curls up from your pot of M-J-B. For M-J-B has a rousing good-morning flavor—a cheerio flavor that sets you right with the world. And it is this flavor that has made M-J-B stand for contentment—no matter how you make your coffee or how you drink it, strong, mild or in-between.

TWIN FALLS MEN WILL VIEW SCENE OF GOLD STRIKE

Reports of Discovery of \$10,000 Ore on Trout Creek Ground Near Property of Local Investors Creates Stir.

A group of Twin Falls mining men will leave here today in two automobiles to make personal investigation of reports of discovery of ore bearing gold values of \$10,000 on Trout creek, about 25 miles east of Contact, Nevada.

Scene of the reported discovery is only a short distance below properties of the Vulcan Silver Mines company, owned by Twin Falls mining men and investors, from whose mines of ore bearing gold values of nearly \$800 a ton were taken last winter. A number of the Vulcan company stockholders and George Wilcox, foreman for the Vulcan company, will make the trip to Contact today. Mr. Wilcox has been here since bringing in the gold bearing sample from the Vulcan property last winter, and has been making arrangements to return to the district as soon as reading mine should open the road from Contact from that district.

Contact Crosses Hills

Contact residents, on receiving word of the strike on Trout creek, according to word received here, moved out en masse, traveling on horse back to the scene of the new find.

No word has yet been received here as to whether the Trout creek ore later reported to have been discovered by Pat Dunn, owner of a ranch on Trout creek, was one in character and an information has been received as to the condition of the roads.

Presence of gold bearing float in the Trout creek region has been known for a long time.

Uncover Ore in Place

What is believed to be the first trace of gold-bearing ore in unmined ore in that district was encountered last winter in the Vulcan company's workings. A vein of ore, over the foot wide was discovered in place. Mining men here pronounced samples taken from this vein as similar to Clipsham formation.

Assays of the samples brought in from the Vulcan property last winter showed 24 ounces of gold worth \$750 and 10 ounces of silver worth about \$12 per ton.

On the basis of such showing the Vulcan company has had the necessary arrangements for vigorous prosecution of development work in the spring.

DEATH SUMMONS IDAHO PIONEER

Montgomery T. Brown, Resident of Idaho for 49 Years, and Former Sheriff, Dies.

Montgomery T. Brown, 78, for the past 19 years a resident of southern Idaho and for a number of years sheriff of Cassia county, died at the family home seven and a half miles from Kimberly, Tuesday forenoon at 11:30 o'clock after a short illness. Mr. Brown was elected auditor and recorder of Cassia county in 1902 and after serving for six years in this capacity was elected to the office of sheriff in which he served for eight years from 1908 to 1916. After 14 years of public service, Mr. Brown moved with his family in 1902 to the ranch near Kimberly which has been his home for the past 19 years.

Mr. Brown served during the Civil war as a private in the Confederate army.

Mr. Brown was born July 8, 1848, in Kentucky and lived to attain the age of 78 years, eight months and 14 days. When 20 years of age he moved to Oakley, Idaho, in 1878. In 1892 after his election to the office of county auditor he resided in Cassia county, his family to Albion, then the county seat of Cassia county.

Mr. Brown is survived by his widow, five sons and one daughter. All were at his bedside when the end came. Hamilton Brown and Monte Brown of Portland reached their fathers' deathbed eight hours before the end came after one of the fastest overland journeys on record between Twin Falls and Portland. The trip was started from Portland at 3 o'clock Monday morning shortly after a message had been received telling of the serious illness of Mr. Brown. The funeral train arrived in Kimberly at 3 o'clock the following morning. Other sons, who reside at home are Harold E. Brown and Birch E. Brown. Floyd Brown, another son, resides on a ranch near that of his father. The daughter, Mrs. Daniel Webb, lives near Kimberly.

Mr. Brown was for many years a member of the Masonic lodge of Albion.

The body lies at the family home, where funeral services will be conducted Thursday afternoon at 1:30 o'clock. Burial will be in the Twin Falls cemetery.

Stanley Basin Under Heavy Snow Blanket

Tom Williams, well known packer and guide of Stanley basin reports that the road from Challis to Stanley should be open by April 1, and that it will be the middle of June before cars can cross the basin summit this year. At the present time there is a covering of four feet of frozen snow over the whole landscape in the basin and staggering depths are reported in the upper sections. Trout fishing will be delayed until mid-July, but should be better than usual due to improved feeding conditions. He expects the best sport season in years and predicts that mountain fishing will attract more than the usual number of Twin Falls anglers.

Changing Iron Into Gold Was the Alchemists Dream

It never came true. Alchemy's 'hokem-pokem' guess work has been supplanted by the modern, matter of fact, scientist and out of his chemistry has evolved practical things for our use. Rayon—an artificial silk—is one supreme result. The silk worm that exuded the fine filament of silk is in competition with the giant machine that with pressure exudes through fine pores a cellulose gelatine that quickly dries into a silky fibre and Rayon is the result.

The basis for chemical treatment is either wood fibre or cotton fibre—the later being very superior. These fine filaments are next gathered together and spun into Rayon yarn, the number of filaments determining the weight and strength of the yarn.

This is sold to weavers or knitters for making into fabrics which in turn are sold to manufacturers for making into garments. The determining value is based on the Rayon product whether of wood or cotton genesis—then how many filaments in the yarn—then how many threads of a certain weight woven or knitted into the fabrics and then into the garment—how full made and what workmanship. These things determine the wear or one's money's worth out of the garment. It is easy to see how it could be cheapened in many ways on its road to the consumer—and the consumer be not the wiser—thereby the reason many have had trouble with Rayon and as a consequence condemning all Rayon. Some Rayons are sold for price only—others for price and satisfaction—and that satisfaction of wear and fit is worth so much more and costs so little more—that it behooves one to buy only reputable makes.

Rayon of the right kind—rightly laundered (not rubbed or twisted) will give excellent wear.

Do You Buy RAYON UNDIES

For Price Only? Or Do You Consider Wear, Fit and Beauty?

Some people have condemned all Rayon because of one of two reasons—either they bought, on the price basis, an inferior garment; or they abused the Rayon in laundering.

These Rayon Undies Gives Satisfaction

Rush of Liquidating Sales Overwhelms Trading Pit at Chicago; Grain Prices Down.

CHICAGO, March 22 (AP)—Grain prices tumbled back and forth today in a market which was flooded with liquidating sales overwhelmed the trading pits during the last hour, and all deliveries of wheat, corn and oats went to the same buyers...

General selling began first in the corn market, and spread rapidly to oats and wheat. The stupor in sell on the part of holders seems to have been impeding for several days, many standing orders to unload and thus put a kind of artificial ceiling on the market...

Offerings of corn from territory east of Chicago had continued to be heavier than the prices current here and this fact, together with large stocks on hand, appeared to have undermined confidence not only in the corn market, but in other grain as well...

SEMAN AMBUANCE SERVICE

1902

"Jim" Penney, a young man from Hillsboro, opened a small dry goods, clothing, furnishings and shoe store in Kemmerer, then a small mining camp in Wyoming. It was known as the "Golden Rule Store."

1907

Five years later, the high ideals of storekeeping which Mr. Penney introduced and faithfully maintained, had won such signal success that two more stores were opened, operating with the same high principles.

1912

Ten years later, these business ideals had so faithfully served the public that 34 stores had been opened and were in successful operation, all known as the "Golden Rule Stores." Service was being rewarded.

1917

Fifteen years later, the greatest expansion of the business up to that time took place—50 new stores were opened, making a total of 177 stores. In 1913, the business name was changed to the J. C. Penney Company.

1922

Twenty years later, the number had been more than doubled in five years, giving a total of 371 stores operating from coast to coast and serving more than a million homes—a Nation-wide Institution of Department Stores.

1927

Twenty-five years, at the conclusion of quarter of a century of public service, the business is comprised of 773 stores with enough more planned to open in the Fall to well pass 800. And expansion goes on!

This phenomenal expansion and growth is due primarily to the keen appreciation the public has shown of the efforts the Company always has made to serve well and faithfully. Continued growth is assured.

OUR 25th YEAR

OUR SILVER YEAR

Golden Rule

"where savings are greatest"

"Big Oaks from Little Acorns Grow"

1902

A SMALL dry goods, shoe and clothing store was opened in a small town in the West, serving a few hundred homes.

1927

THE one small store has grown into a Nation-wide Institution of 773 Department Stores, serving millions of homes.

A quarter of a century of achievement . . . a period of human helpfulness

BEGINNING April 1st, we will celebrate with pride and thankfulness, our Twenty-fifth or Silver Anniversary—with pride for the privilege of serving the American public—with thankfulness for the generous response that has come to our effort.

SINCE the Spring day in April, 1902, when Mr. Penney inaugurated in a small and inconspicuous manner, a Retail Shopping Service which was destined to become one of Nation-wide Helpfulness, a quarter of a century has passed.

IT has been a period of notable growth and expansion, of winning millions of friends, of serving them faithfully, of basing achievement upon the good will of mutual satisfaction.

DURING all these eventful years, we have been mindful of our responsibilities to the legion of patrons who have contributed and are today contributing, so continuously and so generously, in helping making our Service one not of profit alone but of the confidence that rests on good will.

NEVER for a moment have we knowingly wavered from the responsibility of this relationship. It has always been to us an inspiration to reach out for greater things, that we might be the better prepared to render a Service which should prove to be more and more beneficial to the increasing numbers who come to us.

NOT only is that one little Golden Rule Store of 1902—now itself grown to far larger proportions—still serving the

people in and about Kemmerer, Wyoming, but there has sprung from its applied principles and policies, others to a present total of 773 Department Stores, scattered over 46 States.

ALL these are children of what we now affectionately term The Mother Store; all happily operate in the Service of the public under the name of the J. C. Penney Company. THE Founder of this Organization—Mr. James C. Penney—built in his pioneering days more enduring and substantially than he knew.

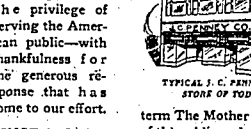

HIS ideals and practices—square treatment alike to all always—and the extent to which he packed Value into every Dollar of purchase—these constitute the pattern, according to which this enormous business has been shaped and which has caused it to grow until it has now become a Nation-wide Institution, serving more than 3,000,000 homes.

THE dynamic selective and buying power of the Company created by its tremendous volume of cash sales, which in 1926, amounted to \$115,682,737.86, gives a saving power to the public which means much to the thrift and to the economic life of the people of every community where it operates a Store.

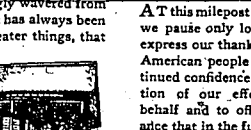

AT this milestone in our history, we pause only long enough to express our thanks to the great American people for their continued confidence and appreciation of our efforts in their behalf and to offer the assurance that in the future as in the past we shall strive to serve not only well but better and better with each succeeding business day.

TYPICAL J. C. PENNEY STORE OF TODAY

THE PENNEY HOME IN 1917

EXECUTIVE AND BUYING OFFICES, NEW YORK CITY

1902

The sales of the "Golden Rule Store" of Mr. Penney, the first year amounted to \$28,898.11—a fine appreciation of the few hundred people who then comprised the little mining camp at Kemmerer, Wyoming.

1907

Five years later, with three stores, the sales amounted to \$166,313.82—substantial evidence of the continued appreciation of the principles and policies under which Mr. Penney's storekeeping was directed.

1912

Ten years later, with 34 stores, the business passed two million dollars in sales—attracting to it the fact that its operative plan was a great boon to people desiring to practice thrift in their purchases.

1917

Fifteen years later, with 177 stores the public was so generously appreciative of the efforts of the business as to favor it with purchases totalling \$14,880,965.22. In 1913, it became the J. C. Penney Company.

1922

Twenty years later, with 371 stores, sales amounted to \$49,035,729.09—closing a five-year period which had been notable for having successfully weathered the World War and witnessed continued growth and expansion to several new states.

1927

Twenty-five years later, with 773 stores in operation and more to be opened in the Fall, sales are expected to reach \$130,000,000. Sales passed the One Hundred Million mark in 1926.

Had the J. C. Penney Company been less diligent in giving Quality, Style, Value, Service, at Lowest Possible Price, and serving everybody alike always, this success could not have been realized.
