WATER FLOOD MENACES ENTIRE VALLEY OF MISSISSIPPI

Tributaries of Great River, Fed by Continuous Rainfall, Pour Contents Into Already Heavily Taxed Stream.

MEMPHIS, Tenn., April 14.—From Cairo to the sea, the most menacing flood in recent years was sweeping down the Mississippi river and its tributaries tonight urged on by continuous rainfall throughout the basin.

High stages in the lower Ohio valley from Evansville, Indiana, to Cairo, Illinois, upward movement in the Mississippi from Cairo to St. Louis increased volume of waters from smaller streams above Cairo and the unloading of heavy surplus of the Arkansas and White rivers from Helena and Memphis forecast a surge which may reach or surpass the records of 1922 and 1923.

Keep Vigilant Watch Government levies along the Father of Waters continued to hold tonight but engineers kept vigilant watch.

Reports of three breaches in the defenses at many points in the greater valley were received here today. The levee of the Arkansas river at Bradford in Crawford county, Arkansas, cracked early today and 400 yards of the eastern wall were swept away.

Current Tastes Victory Tasting victory after two weeks vain hunting at the levee on the Mississippi at Columbus, Kentucky, overwhelmed the private dyke this morning.

Major D. H. Conolly, chief engineer, ordered the placing of a quarter tank opposite Hickman, Kentucky, with plank and log snags as a precautionary measure.

One Death Reported Despite the ferocity of the storm, which temporarily snatched many motorists and motor buses on the plains, only one death had resulted tonight.

Town Without Mail Lack in eastern Wyoming was without its mail as Chicago & North-western trains here held up.

Strong Earth Shock Lasting Almost 60 Seconds Felt Over 1000-Mile Stretch in Chile. SANTIAGO, Chile, April 14 (AP)—A strong earth shock, lasting almost a minute, which was felt over a thousand mile stretch of the Chilean coast tonight took the lives of at least nine persons.

Dog Saves Master From Death When Hog Rans Amuck STEIRLING, Colo., April 14 (AP)—A faithful dog saved his master from almost certain death today and barely escaped with his own life in so doing.

Police reports gathered in Santiago in various parts of the city set the scene in Chile.

Many buildings in the residential sections of Santiago were partly wrecked and most of those injured suffered their hurts when they were caught under falling debris.

School Boards Hold Discretionary Power In Matter of Levies

Attorney General Stephen B. Waddell

BOISE, April 14 (AP)—The levying of a one mill tax for general school purposes is discretionary with a school board, Frank L. Stephens, attorney general, announced today in an opinion furnished an Ada county school board which has refused to levy such a tax.

In an opinion furnished a Blaine county school board, Attorney General Stephens held that it is legal for an outgoing board of trustees to hire a teacher for the following school term.

TWO STATES IN GRIP OF STORM

Blizzard Over Wyoming and Colorado Enters Fifth Consecutive Day.

DENVER, Colo., April 14 (AP)—Mid-winter scenes were general tonight throughout Wyoming and Colorado as the worst blizzard of the year continued to blank highways and threaten loss of much livestock and interrupt air mail service and railroad and motor bus transportation.

PLUCKY PILOTS SET RECORD FOR STAYING ALOFT

Bert Acosta and Clarence Duncan Chamberlin, Civilian Aviators, Eclipse All Attempts at Continuous Flight.

NEW YORK, April 14.—Two American aviators who wouldn't "give up the stick" until it was dead and the gas tank dry, today rode down every word record for continuous flying when they passed, as part of mile posts, first the 24-hour American record, then the 36-hour French duration record and finally their own scheduled 48-hour stay in the air.

The record spun out perilously as the gas ran lower in the tank built in a mile above Roosevelt field, brings back to Asst. Inspector Sherman, at 51 hours, 21 minutes and 29 seconds.

Breakfast of soup, water, coffee and chocolate bars, and lunches and dinners of the same limited diet came and went with no relief for the fliers in any external thing, back and forth along the rolling familiarity of Long Island.

The shooting occurred on the fourth floor of the state capital, while both inmates were in session, just outside the room in which the young Hollywood woman maintained her office as assistant clerk of the upper house.

PARK RANGERS TO CLAIM BODY Seven Men on Snowshoes Undertake Trip to Recover Remains of Poison Victim.

MAMMOTH, Wis., April 14 (AP)—Seven park rangers hiking with snowshoes over mountain passes and through gorges here, were coming from four corners of Yellowstone park today toward Old Faithful, to claim the body of Charles Phillips, a ranger who had slipped in his cabin yesterday morning after eating what he thought to be Camas root.

At park headquarters here, the body was expected to reach the Old Faithful schroeder evening. A few hours for rest and for improvising a sled, and they will start with the body about midnight for West Yellowstone, U. P. to Hold Train.

They are expected to reach their destination Saturday. Union Pacific railroad officials agreed to hold the train until they arrive. Phillips' body is going to his old home in Missoula, Montana.

Some of the circumstances will be over "hot spots" where steam heat of earth has melted the snow, over these spots the rangers must carry the body in their sleds.

From what meager description rangers have been given, Phillips' pocket of a poisonous variety of the Camas plant. A specimen of the root, which he found by the edge of a hot pool, was sent to botanists at Montana State college.

Ford Counsel Attempts to Show Directors of Tobacco Co-operative Were Not Planters.

DEROIT, Mich., April 14 (AP)—Today's session of Aaron Sapiro's \$1,000,000 trust suit against Henry Ford, the first trial next Monday, was devoted to a defense effort to show that 17 of the 22 directors of the Kentucky Dairy Tobacco Growers' Co-operative association, organized by Sapiro, were not mere men and not planters. Senator James A. Reed, chief of Ford's counsel, finally reached his objective late in the day when he asked: "Isn't it a fact that 17 of the 22 directors were financially interested in warehouses?" "I don't believe it is a fact," returned Sapiro. "The interest of James Sims of Lexington was very large."

Run Down List Senator Reed ran down the list of names, including those of William Sims, Christy Walters, James Kehoe, Frank R. Simms, John B. Wynn, H. C. Sapiro, Ed. H. Jones, R. K. Jones, Carroll C. Ashby, Bush W. Allen, J. G. Chadlock, R. P. Taylor and William Collins, asking of each if he was not a warehouseman. Sapiro's invariable answer was that the man named was primarily a grower but as a business man might have been interested in tobacco warehouses. "Pretty nearly everybody in Kentucky was interested in warehouses," Sapiro said at one point. Senator Robert W. Higgins, publisher of the Louisville Courier-Journal and the Louisville Times, was listed as not a grower, but a member of the board representing the public. Senator Ford sought to show that the warehouse men headed the co-operative to prove as stated earlier in the case that the intention of Sapiro was trying to show that Sapiro by his own improper practice as a lawyer alienated foes which he alleged were lost because of articles printed in Ford's Dearborn Independent.

HIGH SCHOOL NOTES

The students of the Junior-high school met in general assembly Thursday afternoon at 1 o'clock. A musical program furnished by the various high bands, under the direction of Mr. T. B. Baird, musical instructor, was well received. The band consists of about 20 students, some of whom had received instruction previous to entering the class last September.

One of the most instructive and entertaining programs of the semester was presented before an audience of about 40 girls at a regular Blue Triangle meeting Thursday afternoon in the high school auditorium. This meeting on the subject "Music As a Hobby," was arranged by Helen Taylor, of the club program committee. Mrs. Wilbur Ford, the speaker of the afternoon, gave a review of the open "Hosiery Time." A comprehensive review of the life of the musician, incidents of his life, the surroundings, his personal characteristics, and their effect on his work, provided interesting listening. The meeting closed with a pleasing musical program. A Kazoo Band, with Wilbur Bands at the piano, gave a spirited rendition of "Hosiery." The Kazoo Band played an instrumental solo, "Lanterns," by Brazleton. The remainder of the program consisted of Blue Triangle club songs, as follows: "Because I Love You," vocal duet by Margaret Stalley and LeNelle Brockbridge; "The Quest," vocal solo by Marjorie Wynne; "New Lemps for Old," vocal duet by Elma Rowberry and Marjorie Wynne; "Lulu," vocal trio by Prudence Kirkham, Elma Rowberry and Marjorie Wynne.

ANNOUNCEMENT

Con W. Hesse & Son, Pioneer Jewelers of Idaho, Beg to Announce the Opening of Their Twin Falls Store, at— 121 Main Avenue East on Saturday, April 16

A Special Invitation is extended to the public to drop in and investigate this new system of merchandising. Our proposition is to sell you standard merchandise of known worth at the lowest cash prices as established by the factories but on terms to suit your convenience without one penny of interest.

BUYING THE HESSE WAY has met the approval of the public at large as thousands of people throughout the northwest are taking advantage of same and find it to be a God send, especially during gift buying seasons, as it makes gift buying a pleasure instead of working a hard-ship—in fact when you buy the "Hesse Way" you can buy as many articles as you desire on one bill and pay a dollar or so down and the balance in small weekly or monthly payments such as would suit your convenience—but remember—you do not pay us ONE CENT OF INTEREST. In this way you do not have to touch your bank or savings account but PAY US AS YOU ARE PAID. Much has been said and written regarding the "Hesse Way" no interest policy of merchandising. It has been discussed by financiers and manufacturers from coast to coast and they all concede it to be the fairest proposition ever made the public. While we appreciate these kind remarks, it is the public we wish to thank for the success of our venture.

The public certainly appreciate a square deal—According to the last report of the U. S. Internal Revenue office at Boise, Hesses paid over 16 1-3 per cent of the total jewelry tax paid in Idaho. This means that we did 1-6 of the total jewelry business (on worthwhile jewelry such as was taxable) done by all jewelry and department stores in Idaho combined.

These facts are given to the public to enable our thousands of friends to know just who we are and what we are doing. You have as much right to inquire into our reliability, financial standing and our ability to serve you, as we have to inquire into yours. You have a right to know all about the firm you are doing business with—You, our customers, are our "Board of Directors."

We make no extravagant claims for the merchandise offered nor offer any catch "bargains" and are a little skeptical whenever we hear this much maligned word applied to jewelry. We are always ready to send goods on selection for examination and comparison and are positive you will be convinced that in the field of legitimate value, our offerings compare favorably with those of any jewelry concern in the U. S.

SPECIAL OFFER—This advertisement is worth \$1.00 to you. Cut it out and bring it to our store and we will accept it as \$1.00 initial payment on purchase of \$10.00 or more.

Now is the time to select your diamond. Never before has there been displayed such a wonderful selection of beautiful diamond rings in the very latest creations in white gold and platinum, all exceptional values and offered to you on your own terms. A Hesse diamond is a good investment.

## ASSERTS CHAMP IS FREE AGENT

Discordant Note Enters Heavyweight Ballyhoo as Tunney's Manager Voices Opinion.

By ALAN J. GOULD (Associated Press Sports Editor) The heavyweight ballyhoo has a lighter but an also somewhat discordant note as the Tunney outrage heads eastward on the last lap of a winter's theatrical tour.

Around the well-illuminated offices of Madison Square Garden, where Tunney's contract to fight exclusively for Tex Rickard remains in the safe, there is some uplifting atmosphere over the optimistic assertions of Billy Gibson, the champion's manager, that "Gentleman Tom" is now a "free agent" and ready to accept with Chicago promoters or others' ambitions enough to sack the next heavyweight title bout.

Gibson has been misinformed if he has any idea that the New York losing commission has voided Rickard's contract with Tunney, according to a spokesman for the promoter, now vacillating.

## RICKARD FACES LEGAL BATTLE

Boxing Program of New York Promoter Strikes Snag When Injunction Suit is Filed.

NEW YORK, April 14 (AP)—Tex Rickard's box league program struck a couple of snags today. One of them, an injunction suit filed by Walter Taylor, Cleveland promoter, to stop the Jimmy Maloney-Jack Sharkey bout at the Yankee stadium May 16, may require a stiff legal battle before it is removed.

The other involves the disappearance of Paulino Uzcudun, who failed to show up this afternoon to sign articles for a 15-round match at the stadium, June 22, after the Spanish board of managers had come to agreement with Rickard's matchmaker, Jess McMahon, on all points involved.

When Paulino was still missing two hours after the time fixed for the signing, McMahon postponed the ceremony until tomorrow. He regards the match as cancelled as a result of Delaney's acceptance of the 15-round route preferred by Paulino.

### Basis of Suit

Taylor's suit filed in federal court, is based on the failure of Jimmy Maloney to fulfill an alleged agreement to box Johnny Risko in Cleveland on or before May 1. Risko had been informed that Rickard substantially reimbursed Taylor for promoting losses in order to cancel Maloney's Cleveland appearance but the promoter, in the papers filed, now claims he is facing further losses unless Maloney goes through with a bout in the Ohio city. His complaint cites a contract drawn up here February 15, designed by Taylor, Rickard and Paulino Carroll, Maloney's manager, who put up \$10,000 to guarantee Maloney would fight in Cleveland.

# Spring Styles in Furnishings

## LITTLE THINGS COUNT

People notice the small things. People are quick to see the little things about your dress. Be sure you are correctly outfitted, with furnishings that are newly styled. There are definite style changes in such things besides clothing. Here is accurate information about your accessories. And here are the things you'll want to be properly clothed for a new season.

### Neckties

Small regular designs on bright grounds are most correct. Diamonds and circles and checks. Stripes strong as ever. You'll like the fine Cheney silks that never wrinkle, the new silk and wools, the madagarsis and foulards—  
**50c to \$1.50**

### Shirts

White and colors split honors 50-50. Lighter weight materials for the new season of course. Pattern shirts must be of small neat designs carefully blended. And for lasting satisfaction your shirt must not only be large enough but cut to fit—  
**\$1.49 to \$3.50**

### Socks

Stylish patterns in rayon still much in demand. Some light silk and wools also good. In plain colors, Wilson Brothers and Allen A are featured. The All Weather mercerized sock a big popular favorite—  
**25c to \$1.00**

### Caps

Every man's wardrobe should include one. New ones in soft shades or the rugged English patterns. Berets for those who like to set the styles—  
**95c to \$3.50**

### Pajamas

Brighter than ever. Lighter than ever, for Spring. In silk or madras or soisette or broadcloth, and in several styles, middy no-button or as illustrated—  
**\$1.49 up**

### Sweaters

New crew-necks, the latest style idea. Or good old V-neck for comfort. Or the sweater coat. Solid colors are good this year, and patterns as strong as ever—  
**\$2.49 up**

### Hats

Spring styles finally land. The snap brim with wetting is a big thing. The roll brim for smart dressers. The saucer brim for college-type dressers. In pearl gray as a leader, with soft pastel shades, a big innovation—  
**\$3.50 to \$10.00**

### Underwear

Two big styles in light-weight underwear. The athletic type one-piece, or the trunk-and-jersey combination. You'll want a half dozen pairs to start the year off right. Boxed for you, the suit—  
**79c**

### Shoes

Oxfords have a slightly higher heel this year. And excepting sport shoes, they are much plainer; with toes not quite so broad. Sports shoes in black-and-white, tan-and-white or solid colors. Oxfords from—  
**\$5.00 to \$10.00**

## DRUMS TAKE UP TRACK PRACTICE AFTER LAY-OFF

Effects of Seven Days Enforced Rest Apparent as High School Squad Resumes Heavy Work at Lincoln Field.

After seven days enforced rest the Twin Falls high school Bruins were again in action on the Lincoln field track yesterday afternoon. The effects of the lay-off were quite apparent in all contestants, but they went to work with a will in preparation for the invitation meet next week.

Burton Perrine, team sprinter and broad jumper, suffered a painful sprain while broad jumping in practice which may keep him off his feet for a couple of days. Before injuring himself, however, he was able to add considerable to his distance and should be in the money at the meet. Both relay teams were put through a strenuous half hour of baton passing, which indicated that they could well stand more. Drift of passing the baton has more to do with winning relay races than any other factor, and the coach, who does the bat passing usually wins the race.

**Distance Men Limber Up**  
Milers and other distance men were content to take laps around the track in an effort to limber up their muscles in preparation for the time trials to be held this afternoon. All track men are to be put through time trials this afternoon to accommodate them to the new conditions on the track, which has had curb put in and new sand and finishers were added. Weight men worked out last evening and it was evident that the lay-off had not affected them to the same extent that the track men. Next the distance men of 100 feet, and Williams was able to add considerable to his javelin throw. Eddie Brant, former basketball star, although suffering from his injured arm, was working with the javelin throwers, and his assistance was helpful in developing their take-off. Sullivan, who has been showing remarkable improvement in the weights, was not out last night.

**Track in Good Shape**  
The track is in remarkable condition and after the dragging and raking yesterday it is better than ever. Starts and finishes for all the races have been marked on the newly installed curb, and additional sand and woodchips have been added to the pit for the vaulters and jumpers. There is a remarkable dearth of vaulters on the Bruin roster, and unless someone shows up soon, which they will have no entries in the district meet.

## Rock Creek Plant Ready to Handle Eyed Trout Eggs

Construction of additional facilities for handling eyed trout eggs at the Rock Creek plant of the Southern Idaho Fish and Game association was completed yesterday and 70,000 eyed eggs from Coeur d'Alene were received at the new hatching trough today. A. C. Lewis, who supervised the construction at the plant will be in charge of the eggs, which should hatch in about three weeks.  
William Kell, state fish commissioner, and C. E. Miller, state hatchery manager, arrived with the eggs from Cedar hatchery and delivered them yesterday afternoon. They will go through the stripping plant there will be started and left under the direction of Mr. Miller. Mr. Kell, it is said, is well pleased with the direction of the hatchery and the plans for handling the whole output from the Cedar stripping station here were discussed with the directors of the fish and game association. The output from Cedar should be approximately 1,000,000 eggs, which would mean an extensive hatching program here.

## Graham Chosen to Head Country Club

Members of the Twin Falls country club elected John W. Graham, president; Charles W. Neely, vice president; H. C. Edmunds, secretary, and E. H. Miner, treasurer, at their organization at a meeting yesterday afternoon. Members of the executive committee appointed were Asher B. Wilson, Edward Cooper, and Leonard Smith, was appointed chairman of the committee. The committee of the club, S. C. Smith, chairman of the executive committee, Edward Cooper of the house committee, and H. C. Edmunds chairman of the tennis committee.  
Thirty-five members signed the articles of incorporation, and expressed themselves as pleased with the prospect of the country club. The club plans to increase the membership toll were discussed at the meeting and enrollment will begin today.

## EDDIE GRIBBON AS CORPORAL

Eddie Gribbon, usually first to fight in pictures, plays a Marine corporal. "First to fight" in his latest screen part is the role of Eddie Gribbon in "Maiden" in Metro-Goldwyn-Mayer's "Tell It To The Marines," now showing at the Idaho theaters. Gribbon has been years in pictures, usually playing roles with strenuous fights in them. This one is no exception. Lou Chanezy, William Haines, Eleanor Boardman, and Carrol Myers, and a big cast appear in the new production.

## GR D ASPIRANTS GET STIFF DRILL

Spring Football Calls Large Group of Green Youngsters for Study in Fundamentals.

Spring football was given a further impetus yesterday afternoon when the candidates were drilled into squads and given a few elementary plays under the direction of former Bruin players, captain Vance and Hollis Martin handled one group, while Reggie Cox worked another. Berg handled the other. Most of the squad is made up of youngsters from the junior high school who hope to be in high school next fall. While small, they show a remarkable willingness to learn and they are absorbing the fundamentals of football rapidly.

After track the regular squad was put through a stiff practice which consisted principally of a review of last season's plays with an occasional variation. Selections for the first squad to date are: Vance, center; Hamilton and "Dime" quarters; Taylor and A. Berg tackle; Martin and Nelson ends; Perrine, T. Robertson, Lucas, Wolf, Maguire, Wardle, and Stewart line; Berg, quarterback; Berg, fullback; Maguire, halfback; Hamilton, Kenyon, A. Kempton, Wheeler, and Anderson, Vance, Purcher, and Berg, each have a full back on the young squad, who is trying to beat his elder. From the devaluation they show, the youngsters are going to have to take a back seat when they get going.

**Plan Changes in Rally**  
The coaches plan a radical change in offensive and defensive methods occasioned by the changes in the rules and by the fact that all district teams are familiar with the Bruin tactics. With little success in a rushing offense will have to be resorted to, unless a good passer can be developed from the material. William Taylor and John Finn, and a heavy backfield, the driving snappers of tackle that were an effective unit with Finn and Finn in the backfield may again be used. If pep and enthusiasm count for anything, and they always do, the Bruin should show a good team next fall, and they are all on their toes.

## PROVO CHOSEN SITE OF ANNUAL ATHLETIC MEET OF UNION PACIFIC MEN

SALT LAKE CITY, April 11 (AP)—More than 17,000 persons, including 2000 athletes from 18 western states are expected to attend the annual track and field meet of the Union Pacific system at Provo, Utah, Labor day and the day following. Joseph Neville, general secretary-treasurer of the U. P. Athletic league announced here today. Neville, who makes his headquarters in Omaha, has been in Provo for several days arranging the details of the meet.  
The meet was held at Cheyenne, Wyoming last year when about 15,000 of the fans of the railroad invited the organization this year. Selection finally was between Provo and Denver, with the decision in favor of Provo. Ample facilities for all kinds of athletic events are available. Neville said.

## FAITH IN LEVEES

NEW ORLEANS, La., April 11 (AP)—With high winds driving waves into the levees, one of the highest rises in the history of the turbulent stream in the delta of the Mississippi river and its tributaries in the lower valley tonight.  
Despite a forecast of high water exceeding the record-bank levels of 1924 and in spite of the wave wash caused by the wind, engineers believed that the raised levees with the auxiliary spillway below Pointe a la Pêche, would carry the water safely through the lower valley.

## Station Relief Workers

The river reached a stage of 55.5 today at Natchez. Relief workers of the American Red Cross arrived there last night and will be assigned to various points along the river from Vicksburg to Baton Rouge. T. G. Bushman, assistant national director of disaster relief, was in charge.  
No serious trouble was reported on the levees in the neighborhood of Natchez today.  
A revised flood forecast issued by the weather bureau today, taking cognizance of the recent and continued heavy rains in the territory drained by the Mississippi, raised the crest forecast stages along the "C" river from Natchez to the mouth to well above the record set in 1927.

The flood of that year was marked by crests at Pontchar, Louisiana, below New Orleans, and at Wexmore, near Natchez.

## Three Persons Die In Crash of Plane

MINNOLA, N. Y., April 11 (AP)—John P. Andrews only 30 years of age but a veteran airplane pilot, and two passengers, Carl C. Stoll, Jr., of Louisville, Kentucky, and Mrs. Mary Scanlon, of Groenport, Long Island, were killed today when a plane driven by Andrews crashed between Roosevelt and Carries fields. The plane was disintegrated.  
It was believed that Andrews found his motor in trouble and attempted to fly across the motor park for a landing at Carries field.  
From a height of about 125 feet the plane went into a tail spin and crashed into an embankment bordering the motor parkway.  
The crash occurred at a spot about 200 yards from the scene of the Sikorski disaster last autumn, when Captain Bone Eftick's projected flight to Paris came to an ill-fated end just as it started.

you without striking the wall near the canyon, according to indications of witnesses.  
Immediately before the accident attention of both of the boys who were standing on a ledge a few feet below the surface of the top of the canyon was called to a spot that looked like a hole in the ground and north of the canyon, the youngster leapt to the cliff. Both boys tried to ascend the white rocks of the party with his shirt. The older boy, stuck with his back to the canyon and in shifting his position lost his balance. The youngster boy said he turned just in time to see his brother make the plunge.

The ministers don't know when they will have church service. There is no money to hold one and the first services to be held in Rock-Spring will be the memorial service for its dead.  
No Lights or Water  
There is no water, no electricity, and the only telephone is the one in the rear of the wrecked telephone exchange over which this story was dictated to The Associated Press.

The streets have been cleared of a part of their debris to permit automobiles to get through with supplies. A large excavator has been doing all day near the square where piles of rubbish are being burned.  
All has come from several nearby towns. Women from Bonora have sent in clothes and food. Kerville has sent \$5000 cash with word that \$2500 more will come. Offers of aid have come from everywhere, but the most that can be done is but a pittance in comparison with the colossal loss to so small a community.

# SOUL RESTORED REVIVAL THEME

## Dr. E. J. Bulglin Draws Lessons From Story of Fraternity of David and Jonathan.

The story of Mephibosheth, crippled son of Jonathan the son and King Saul and blood brother of King David, who was sought out and brought by King David to live in the king's palace, was the theme of the lecture-rama delivered Thursday evening by Dr. E. J. Bulglin, evangelist, before an audience of about 1500 persons in the tabernacle in which union revival services are being conducted here.

"What We Know About Other Things," was the title of the lecture as announced by the evangelist, and his answer to the question was decidedly affirmative.

"Mephibosheth," the evangelist declared, "is a picture of the disabled human soul. He was a cripple and he was not to blame for it, and he is a picture of the human soul restored for the sake of another."

In his message of the week-end, Dr. Bulglin referred at length to the handicaps of the English language to express the shades of meaning and quality of three Hebrew words, and he clearly defined distinctions. The word "yaxah," he said, means to break or mix; "yarah" means to twist or break and "chatah" means to miss the mark.

### Brought Out of Hiding

Mephibosheth, the evangelist declared, was in hiding and afraid when the king's messengers sought him out.

"He thought David was going to kill him because Saul, his grandfather, had hunted David from place to place. Was that fair to David? No. Then is it fair for you to sit back and misrepresent God by saying that God hates you. God doesn't hate anyone, God loves you. It is the mark of good breeding to receive people kindly when they come to you with a desire to do you good. It is the mark of ill breeding to fault those who are trying to do you a favor."

Dr. Bulglin will speak in the tabernacle this evening. It was announced on the subject, "Neighborhood Straps."

There will be no services in the tabernacle Saturday evening.

# DEFY COUNCIL'S STAND AGAINST FILLING STATION

### Continental Oil Company Disregards City Administration and Begins Construction on Upper Shoshone Street.

The Continental Oil Company has defied the right of Twin Falls city administration to prevent construction of filling stations in residential districts, and the city council has decided to challenge and will sue the company in court.

Incidentally, Twin Falls school district is likely to take a hand in the proceedings as an opponent of the Continental company's purpose to install a filling station at the intersection of Shoshone street, Adams avenue, and the city's business district.

Challenges Veto  
The case of battle was withdrawn by the Continental company on Thursday when, in defiance of the city council's refusal to grant a permit for construction of the filling station at this point, the company began work on the station and before nightfall had completed the installation of a gasoline tank and pump. Had he been to break down the curb to permit construction of a driveway.

Present United Front  
Immediately preceding recording of this vote, members of the council engaged in some discussion of the day's developments in connection with actual construction of the filling station. Members of the council were in entire accord in their sentiments with regard to the matter, and they voted unanimously to instruct Captain E. M. Sweeney, city attorney, to take any

SKIING SEASON IN FULL SWING

King and Queen of Norway Move to Winter Residence to Officially Open Snow Sports.

OSLÖ, Norway, April 14.—The famous Norwegian skiing season is in full swing. King Haakon and Queen Maud started their move from the palace to their winter residence in the hills above Oslo. Thousands of skiers are flocking to the country from all over the world. The hills and valleys will be dotted with skiers and their sleds. Many more sleds are being used for winter sports. Many Americans interested in winter sports are coming to Norway. Skiing is a popular sport in Minnesota, Wisconsin, Maine, New York and some other northern states. Fred Feltus, a Milwaukee, Wis. resident, is president of one of the leading American ski clubs, made a special trip to Norway to study Norwegian skiing conditions.

CHURCH MAKES WASTE PAY FOR ENTERPRISES

CHILMARK, April 14.—Reduction of church expenses and maintenance of human lives has been made a religious enterprise. An effort by the church missions board of the Methodist Episcopal church to utilize "white elephants" of American homes and to give useful employment to victims of accident, ill men and old age, has spread to 24 cities, to those other denominations, and to municipalities in Canada and South America. It is called the Goodwill Campaign. In its behalf, reports R. J. Holway, executive secretary, a million homes hold no contributing material they no longer need. Eleven thousand persons added for other work are now being rehabilitated in such, beyond the benefit to the needy, who are enabled to work honestly. A goal of a small part, the proceeds of the Goodwill Campaign, fresh in farms and the projects ministering to 11,000 persons. Last year material was collected to fill and freight cars, and factories in Idaho and sold was enough to furnish 100 homes complete.

Gold Star Mother Of Idaho to Make Sacred Pilgrimage

BOISE, April 14.—Mrs. Rose Regan, mother of Idaho and mother of an Idaho world war hero, Lieutenant John Regan, who was killed in action at Fieser, August 3, 1918, will make a sacred pilgrimage to France with the American Legion next September, according to Lester E. Albert, department adjutant and France convention officer for this state.

Mrs. Regan, who is 67, will be accompanied by her two granddaughters, world war nurse, and formerly chief nurse of the veterans' hospital at this city. The party has received reservations on the Canadian steamer, Montserrat, sailing September 9 from Quebec, and will return about November 1. Mrs. Regan expects to visit the battlefield on which her son was killed.

Considerable more interest in this trip is noted among the veterans dating from the war, states Mr. Albert, who the inquiries coming into the office indicate a satisfactory Idaho representation.

"ABIE'S IRISH ROSES"  
The suggestion of Anne Nichols' witty, prevailing comedy "Abie's Irish Rose," which has taken the entire country by storm, and which the management of the Orpheum took pains in securing for one night, Tuesday, April 12, will undoubtedly prove the largest of the season's events unless the official prognosticator has been proven in his guess.

"Abie's Irish Rose" is a comedy production to local theatre-goers, for its popularity has exceeded its coming. The organization to be seen here is what is known as the Chicago and Detroit company, which has just completed a run of 28 and 29 consecutive weeks in each city, and which Mrs. Nichols will send here intact.

The sale of seats opens today.

"THE WANING SEX"  
Norma Shearer's fame also has reached about her athletic prowess will have a chance to see for themselves when "The Waning Sex," the Metropolitan picture comes to the Orpheum theatre today. Norma, first golf and tennis, swims and dives during the course of the play. It is a fast comedy adapted from the Broadway stage success, with a cast including Connel Nagel, George K. Arthur, Mary McAllen, and others.

PHILIPPINES FAST ADOPTING-ENGLISH

MANILA, April 14.—Decline of the Spanish tongue in the Philippine Islands is the fault of Spaniards themselves, then Luis de Oteiza, Spanish writer and journalist, declared after extensive travel over the islands.

Oteiza is now so woven into the warp and woof of Filipino life that only a miracle can destroy it, he said. Oteiza, deploring the decreasing use of his tongue among a people so long under the Spanish regime.

The decline of the language which brought the Philippines virtually all the American culture, he said, is the fault of Spaniards themselves. The Spanish language in which their religion was communicated to them, is due to the fact, he said, that the Spanish failed to do in 200 years what the Americans have done in less than 20.

Aside from English, Spanish and Chinese, there are likely 30 native dialects in the Philippines.

What does the cook-book say about making meringues?

To the whites of eggs and sugar add lemon juice or a little white wine vinegar. A matter of control in mixing makes all the difference. Only a few spoons at a time are roasted and a delicate uniform flavor is the result.

## Cooking food and roasting coffee are closely related

EXACTNESS is demanded in each to produce the utmost in flavor and appetizing qualities. That is why we never roast our famous blend of coffee in bulk. Controlled Roasting is the sure method—the process originated and used exclusively by Hills Bros.

NATIONAL REPRESENTATIVES: Hadden, King and Prudden. New York, San Francisco, Los Angeles, Seattle.

TWISTERS: Press accounts of the ravages of the Texas tornado, the death toll as a result of which may reach one hundred, serves to emphasize once more the need of a more adequate insurance system in the United States.

Here there is no such thing as a free winter in comparison to that of middle Western and Eastern States. There are no heavy wind storms, no electrical disturbances and only a few days in the middle of summer which might be described as hot, although the temperature records of Kansas, Iowa and Illinois.

One result of the work of the Texas twister with amazement. It is difficult to comprehend the destructive forces unleashed by nature when such a disturbance takes place. Even in the accounts of eye witnesses seem to present no very clear picture of the ravages of such a storm. But the death list speaks in eloquent language; the shattered homes present their pitiful aspect; family ties are broken up and the financial demands upon the insurance companies are real indeed.

Southern Idaho knows nothing about all this except by hearsay. Her people live in peace as far as climatic conditions are concerned, added to which the most productive soil in the world, year after year, files its return in record crops both as to quantity and quality. Over and over again the idea presents itself that the Twin Falls country is a mighty good place to live.

WAR PROPAGANDA

Says the New York World: "The drive to convince this country that its sacred duty is to fight China to uphold Great Britain's special 'sphere of interest' in the Yangtze Valley continues unabated. This duty is being urged on us in cables from London, in cables from Shanghai, in dispatches relayed by Washington.

"Strangely enough, in the whole vast scene of civil war in China, with supposedly unprincipled armies fighting each other over unimportant territory, there have been no anti-foreign incidents save at Nanking. But upon these terms, in which six foreign lives were lost, the propaganda for American intervention has seized eagerly; and because of these riots we are now to make war, if the propagandists have their way, in behalf of an antiquated European treaty system in the Far East of which this country has formally disapproved and of which, in the Yangtze Valley, Britain is the beneficiary."

It is curious how blind the American public is to the real situation. If this sort of thing continues, the one nation on earth that wants war less than any other nation may wake up some morning with a totally unnecessary and unjustifiable war on its hands.

UNCLIPPED COUPONS

A whole lot of people in this prospect one had bought Liberty Bonds during the war, but then they ran to safe places and they mostly proceeded to forget them and the nice little coupons which may be clipped twice a year and turned into ready cash.

The treasury department reports that tens of millions invested in these war bonds are "untouched." None of their interest coupons have ever been cashed. This idle sum amounts to thirty five million dollars. If it were reinvested at only three and a half per cent interest, it would net more than one million dollars a year.

There are other government securities which matured years ago but which are ignored by their owners. They are worth more than forty million dollars. Americans may be as money-minded as some of their critics assert, but they are also amazingly simple or careless in some of their financial actions. This is a number of things which could be cashed with those neglected coupons—even the smallest of them would pay for a couple of movies or a good show, and the larger ones would pay for a number of small ones would pay for more important things.

STUDEBAKER COMMANDER MAKES REMARKABLE RUN

CLEVELAND CITY, Ohio—In one of the most remarkable and thrilling tests ever made with an automobile, a Studebaker Commander has just established six new speed and endurance records for its equipped American made stock car. The contest took place at the American Automobile association, whose representatives checked and observed the entire test, which commenced the result of the run which was completed April 5 at Cedar City. The Commander covered 3000 miles in 100 hours, maintaining an average speed of 61.12 miles per hour. In establishing this record, the Commander also set four other records for American stock cars. A record for 2500 miles was set by the elapsed time of 40 hours, 12 minutes and 51 seconds, an average speed of 62.16 miles per hour. In an elapsed hour, the car had covered 3162 1/2 miles, setting an average of 62.05 miles per hour. At 1000 miles the elapsed time equaled 56 hours, 47 minutes, 22 1/2 seconds, an average speed of 61.92 miles per hour. At the end of 72 hours elapsed time, the car had traveled 1114 miles at an average of 61.3 miles per hour. The completion of the run, which was made at a distance of 81 hours, 48 minutes, 22 seconds; the average speed, 61.12 miles per hour. No automobile of any make in America has ever travelled so far, at such a terrific speed. The total elapsed time included time for stopping for fuel, oil, oil changes, etc. In view of this, the average speed of the car under actual running was far greater than a mile a minute. Except for one punctured tire, the repairment of a grease cup and two chassis lubrication cups damaged in quick greasing operations, no repairs were made on the car during the entire run. According to observers, 3000 miles at 60 miles an hour is a very high speed in ordinary driving. To demonstrate the splendid running condition of the Studebaker car, Harry Lee, Jr. drove the car at a speed of 70 miles an hour after the completion of the five thousand mile.

MOTHER!

Read This If Your Child Is Thin and Physically Below Par

The School Age is the period when mothers must watch their children. The nerve strain of study, the physical strain of play slowly but surely saps their reserve vitality. Colds and contagions find them easy prey. A growing school child needs Cod Liver Oil to build and keep up bodily resistance. And now, instead of the old-fashioned, nasty oil that children hate, you can get all its benefits in Mother's Cod Liver Oil Compound. Tablets—so easy to take as candy. Ask Schramm Johnson or any druggist. Demand Mother's, and if your child hasn't gained in weight, your druggist is authorized to refund your money.—Adv.

The "Walk-around"

REMEMBER IT? You perched on the hard, blue circled bleachers. The band struck up. And out poured the galaxy of wonders... clowns, lions, Mme. Whoop-la-of-the-tight-wire, acrobats, tumblers and the dusty, plodding elephants. All circling the main tent in the traditional "walk-around" that started the big show.

Advertising is the "walk-around" of the things life is made of. The things you eat, drink and wear—the luxuries and the necessities. And to watch is not merely to be entertained, but to learn how to make your dollars do their best.

You can study advertised products, compare them, weigh the advantages of one against the other. Unhindered you can select exactly what you want in the full knowledge that what you select will be good. For no product that does not give value received can keep its place in the open comparison and competition of the advertising procession.

Advertising introduces you to the things that make life easier

### Great Pageant at University Calls For Cast of 300

UNIVERSITY OF IDAHO, Moscow, April 14—Three hundred persons will be used in the production of the "Light on the Mountains," historical pageant of the state of Idaho, to be given during commencement week in June this spring. All of the cast, with the exception of the Nez Perce Indians who will take part in several of the scenes, will be selected from the student body.

Of the 300 characters, 25 will have speaking parts, as called for in the script. Twenty-five principal parts are to be assigned to students, probably to those in dramatic classes. The production will be under the direction of John H. Cushman, head of the dramatic department, who directed the production when it was given on the campus in 1923 for the first time. The script, which was written by Talbot Jennings, graduate of the university and now a member of the English faculty, has been completely revised.

Selection of the cast for the production has not been made. This will probably be done the latter part of April when actual work of rehearsing will be started.

### McMURTRY PAINTS & VARNISHES

Used Thruout the West Since 1889

### You Can Have Beautiful Floors

Of course you have noticed how many more homes have beautiful floors these past few years and maybe you know the reason.

It's so much easier to have them now—and so much less expensive. This is because it has been possible to develop a varnish especially suited to floors—a tough, elastic, durable varnish that goes on easily, dries quickly and will not scratch or mar white.

McMurtry Rubber Floor Varnish is just this kind of varnish. It's made to walk on. Dries hard over night. Gives you a beautiful floor that stays beautiful—the very kind of a floor you want.
