

NATIONAL HYMN RETAINS PLACE

Contest Fails to Produce Melody of Sufficient Merit to Displace American Anthem.

CHICAGO, April 21 (AP)—A new national anthem, great enough to take a place beside "The Star Spangled Banner," has not yet been found, the National Federation of Music Clubs announced tonight.

The contest, in which nearly 1000 manuscripts were entered from every state in the union, Alaska, Hawaii, England, India and Japan, failed to produce a melody of sufficient merit to put in the famous poem of Katherine Lee Bates, "America, the Beautiful."

Institution to Critics

Four nationally known music critics, Dr. Frank Benson of New York City, Frederick S. Covert of Boston, Felix Borowski of Chicago, and Dean Peter K. Lukin of Evanston, Ill., made scores reported by the judges of the contest assembly of the federation to indicate their criticisms.

"We, therefore, recommend that no reward be made," they were told they were not to pick a winner from the deluge of manuscripts unless it was of magnitude sufficient to "steer people off their feet."

No Outstanding Score

After giving careful consideration to them (891 entries) we beg leave to report that although some of the settings showed fine workmanship, none impressed us as reaching the high standard called for, none were fully adequate to the inspiring text," said the judges in their decision.

Sponsor Nation-Wide Contest

Believing the numerous attempts to set a new national hymn have not met with success, the National Federation of Music Clubs, the national music organization, sponsored the nation-wide contest, offering a cash prize of \$500. Winners of the contest will be awarded their prizes tonight. First place won a cash prize of \$500. Second place paid a cash prize of \$150.

Wyoming Governor Suggests Date for Two-State Parley

WYOMING, April 21 (AP)—Governor E. A. Bump has suggested that the two states should meet in July to consider a treaty for the settlement of the boundary between Wyoming and Idaho. This suggestion was made in a letter received today by Governor H. C. Bradford from Governor Frank D. Emerson of Wyoming, announcing the appointment of John A. Whitely, state engineer, as Wyoming's commissioner. Nathan Hicks, Bismarck, is Idaho's commissioner.

In pointing out that consent of the federal government is necessary for any boundary change, the Wyoming executive suggests that while in final action can be taken until congress has authorized the appointment of a federal commission, the representatives of the two states may well draft a tentative agreement after a survey of the field.

Military Leaders Called to Capital For June Meeting

WASHINGTON, April 21 (AP)—A dozen major generals, now commanding corps areas or army divisions in the United States, have been called to Washington for a conference in June. The meeting is being held in connection with the taking up of any subject either the judges in the field or the chiefs of the various branches of the general staff desire to present.

To Prepare Subjects

In preparation of the conference subjects suggested for discussion either by the general staff or by the field commanders are being circulated today. They may be prepared to present at the meeting.

IDAHO DEBT INCREASES

BOISE, April 21 (AP)—Idaho's total debt, floating and funded, amounted to \$6,558,559 on March 31, as compared with \$6,212,000 the previous month. The increase is due to the purchase of \$346,559 of new bonds from the public by the state treasurer, announced today. The bonded debt rose \$2,200,000 a month ago and \$5,000,000 two years ago. The increase in indebtedness came from the growth of registered warrants outstanding.

NEW YORK, April 21 (AP)—Landing a home run attack behind the bat of Alex Ferguson, Yankees discarded, the Philadelphia Nationals evened up their series with the New York Giants today by winning the second game of the series, 4 to 2. Wright Stone's homer put the Phillies in the lead in the sixth inning, while Williams hit his first circuit shot of the season in the eighth.

The Giants bunched three hits including Lindstrom's home run off Ferguson in the first inning, but failed to make a hit after the second inning. The score: R H E Philadelphia 4 7 0 New York 2 4 0

Batteries—Ferguson and Wilson; Barnes, Greenfield and Deverett.

KREMER STARS

PITTSBURGH, April 21 (AP)—Pittsburgh took the lead off the home season today by trimming Cincinnati, 2 to 1, in a game featured by the all-around play of Ray Kremer. Kremer, pitcher, pitched a walk, Deussen's sacrifice, Pitt's double and Deussen's single gave the Reds two runs in the first inning. Kremer tied the count in the third with a home run driving in a man ahead of him. In the fifth, Deussen singled, Smith and Kramenz singled off Kremer, and Kremer singled to drive in the winning run. The score: R H E Cincinnati 2 1 0 Pittsburgh 1 2 0

Batteries—Riley and Hagrave, Pritchett; Kremer and Smith.

Champion Expects Purse of \$750,000 For Title Match

NEW YORK, April 21 (AP)—Gene Tunney expects to get for his first defense of the world's heavyweight championship in September at least as much as the \$250,000 Jack Dempsey has under stand to have received in four fights last year. Tunney, just back from a transcontinental tour, declined to say whether he will receive more than he would otherwise. "Richard is making big money out of the elimination bouts," Tunney said. "Tunney declared that all his fighting this year are in Richard's hands. "It makes no difference to me who the challenger is," said the champion. He estimated he collected more than \$100,000 for his last two fights.

TUNNEY GIVES IDEAS ON GAME

Champion Likes to Dissociate Situation as Regards Himself; Disagrees With Assertion.

By ALAN J. GOFF (Associated Press Sports Editor) If there's one thing Gene Tunney, the philosopher, likes to do, it's to take apart the situation of Tunney, the heavyweight champion, and see how it fits. For instance, says Gene: "You know, the thing I have had to combat most in the opposition among the boys that I'm a pseudo-intellectual and like to wear the high hat. If my wife crosses the county, I back this down multiple else, it has helped me to counteract those ideas. "It seemed to be a shock to many of the sports writers who came to me to find out that, after all, I am just an ordinary fellow. Becoming a champion, they thought, had done something unusual to my habits and personality. So far as I know, I haven't changed and am exactly the same as I was before. "I hear all around me that it is the 'killer' of the type that Dempsey used to be, that packs 'em in for the big muscles. I don't agree with that. I think it is the champion's match that attracts the public most. These fellows see a title fight for the first time and they especially like to see a king dethroned. "Dempsey was more of a 'killer' to me like, in 1926, than he was in 1925, but he wasn't a big enough drawing card in 1926 to fill Madison Square Garden for his match with Bill Brennan. "Tex Rickard lost money on

that show, paying Dempsey \$100,000 and Brennan, \$25,000.

The threat of revolt by the Western Golf Association against the ruling of the United States Golf Association, barring Mary K. Browne as an amateur in the royal and ancient game, is the first time the amateur association has run counter to those of the sports governing strongholds of the east. The ruling powers of tennis also know what it is to have difficulty leaving their household in harmony.

"Bill" Tilden, an erstwhile, drew the majority of his support from Chicago and other middle western centers in his frequent sallies with the United States Lawn Tennis association, over questions of ranking, amateurism and player voting. Two years ago in fact it was Tilden's initiative, backed by the support of his middle western friends and others that resulted in liberalizing the player-voting rule and also in revising the national ranking list.

But Tilden now has "buried the hatchet," he says, for at least this year during which he feels that all

JACK DEMPSEY BEGINS GRIND

Former King of Heavyweights Starts Gymnasium Work in Attempt to Regain Crown.

LOS ANGELES, April 21 (AP)—Jack Dempsey today took the dust of troubles out of a pair of black gymnasium slippers and started active training at his "come back" camp in the San Rafael mountains north of here for a return fight with Gene Tunney which he hopes will bring back the heavyweight title he dropped to the big marquis.

Thirty days of cutting, trussing and hauling firewood, hustling rocks for road beds and other labor has stripped Dempsey fat off Dempsey's frame and today he weighed in at 200 pounds. He stepped into his outdoor ring and raced through two rounds with the weights a couple more with the punching bag, then two with the 200 pound bag and finished off with five minutes of shadow boxing.

Propose Slab Bet

Then Dempsey offered to volunteer that a return fight with Tunney, probably late this summer, for a side bet of from \$500 to \$500,000 would be his idea of settling the heavyweight championship question.

"I don't need a doctor to tell me I'm feeling better than I ever felt before. I'm confident that I can come back better than ever," said Dempsey as his trainer washed the sweat out of the fighter's eyes.

"For the first time I have gotten out from under the strain that must wear down a champion. Now all I have to do is fight. Tunney can do the worrying. If I meet Tunney again I will regain the heavyweight championship. If the fight would do that I should take in some warping up fight, I'm willing to do it."

Success is run on the self-service plan, also.—Lehman Reporter.

This modern age discriminates—and smokes Camels

THIS age is the hardest to satisfy—it's the most discriminating age ever known. That's why it goes to Camel for cigarette enjoyment. It takes real tobacco to satisfy modern smokers and Camels are made of the choicest tobaccos grown, marvelously blended. Smokers of today are right in demanding Camels; no better cigarettes are made, regardless of price.

To seek a real smoke is to find Camel—the choice of the modern world. Camels are a revelation of goodness, always mellow, smooth and mild. This age shows the way to smoke contentment—

CLEVER FORGER OBTAINS FUNDS

Salt Lake Officers Seeking Swindler Who Gets \$2900 From Relief Tellers in Bank.

SALT LAKE CITY, April 21 (AP)—Using what is alleged to have been a forged initial signature, a clever swindler succeeded in obtaining \$2900 from the Continental bank here on Wednesday. He later became known today as a swindler who was asked to assist in apprehending the man.

Appearing at the bank during the noon hour, the man presented a check for \$1000 drawn on the First National bank at Orem. The check was signed "A. H. Sullivan" and was cashed by J. Sullivan. Then stopping to another window he presented a check for \$1900. This check was identical in every respect to the other except for the amount.

Bear Forged Initials
Both checks bore the initials of H. H. Sullivan, a name which has been approved by him for payment. Later Callahan said the signatures were forged for mail and communication purposes and that the checks had been over-received with carbon paper.

Detectives said that a man answering to the name of Sullivan had been seen in the city in the past few days. He is a swindler, obtained in a similar way \$1250 from a bank in Shreveport, Louisiana, the check being drawn on a bank in a nearby town.

Flood Situation Briefly Told

(By The Associated Press)
Another "Outbreak" of wave spreads over parts of Arkansas, Louisiana, Mississippi, Kentucky and Tennessee, and colder weather in other valleys adds to suffering of refugees and farmers. In view of the situation in Tennessee, two missing in tornado at Melbourne, Arkansas.

Tell of developments in Mississippi, river levee breaks at Stopp Landing, Mississippi, exposing 400 square miles. Red-foot levees on Mississippi near Memphis, Kentucky, jeopardized by mud boils and waves; disease spreads in refugee camps in Arkansas.

Tell of developments in Mississippi, Tennessee and Kentucky added to 22,000 people displaced by the flood. Approximately 7500 square miles. Outlook: Flood spreading in bayous of Texas. Mississippi, Red-foot levee, being overtopped by back waters from Ohio river.

Additional losses: There will be in fact in Kentucky, Arkansas and Tennessee. The situation is a stage of 100,000. Professor J. K. Howard, Charleston, S. C., says that the situation is a stage of 100,000. Professor J. K. Howard, Charleston, S. C., says that the situation is a stage of 100,000.

NEGROES PERISH AS LEVEE GIVES WAY

(Continued From Page One)
Arkansas, with its thousands of refugees, many of them ill, huddled in improvised camps little prepared for winter, was in the path of the cold wave. Cold weather spread over other parts of the valley, while wind created waves on the river, adding to the seriousness of the situation along the banks of the Mississippi.

Blowes was reported spending at Van Buren, Wynne, Parkin and Forrest City, Arkansas. Blowes, whooping cough and mumps were increasing in some of the camps, and a call for typhoid and smallpox vaccine for 5000 refugees came from Forrest City. The vaccine was ordered from St. Louis.

The flood situation became more acute along the lower reaches of the Arkansas River. The banks in Pipe Bluff and southeast to the confluence of the White and Mississippi rivers. The Red Cross chapter at Little Rock reported today that thousands of families were in danger of drowning unless rescued within a few hours.

Bridge Washed Away
Indicative of the strength of the stream, the Arkansas washed away two spans of the Missouri Pacific bridge at Little Rock, carrying with them a string of loaded freight cars that had been run on the bridge.

Out off from all communication today, the fate of Claradon, Arkansas, remained uncertain tonight but reports from a number of persons who had escaped from the flood-stricken city yesterday emphasized the belief that all residents had escaped. A rescue party, led by a staff correspondent of the Associated Press, was en route to the town tonight.

Indicative of the strength of the lower part of the Arkansas river valley was increased today when a break—the third—occurred in the Plum bayou levee near Fayetteville, Arkansas. The break reported from this overflow, which adds to the inundation which threatens the home of Sherrill, Albiner and other communities.

Continue Work on Levees
Crews of men worked tonight on levees near England. A heavy loss of wheat, the backwaters of the Mississippi swell the Arkansas.

Debris in danger included the new Government levee, the levee at the state convict farm at Cummings and the Penitentiary levee.

The floods now coming down the St. Francis basin have come through the breach in the Mississippi river at De Leon, Missouri, where the government dikes first yielded. The St. Johns levee near New Madrid, Missouri, also has broken. They have submerged New Madrid to a depth of 5 to 10 feet and will be carried into the Mississippi just north of De Leon. New Madrid is virtually abandoned.

HUGE CROP DAMAGE
FRUIT SWITZER, Miss., April 21 (AP)—Damage to the potato crop in the Port Smith district from flood waters will amount to more than half a million dollars, Harry Kelley, veteran planter, said today. More than three-fourths of the crop is lost.

Kelley said his figures were an estimate, as a complete check can't be made yet. It is too late now to attempt a crop count, because the planted section

when the flood waters recede. Frost predicted for tonight in this section would cause even further damage, especially to strawberries.

Around Fort Gibson, Oklahoma, in the center of the potato district, 1500 to 1800 acres of choice potato lands are still under water. Three hundred farms in this county are flooded.

PREDICT KILLING FROST
KANSAS CITY, April 21 (AP)—Killing frosts with the temperature falling as low as 25 or 20 degrees in the forecast tomorrow by a general rise of the mercury were predicted by local weather observers tonight.

A temperature of 25 degrees would kill half of the blossoming fruit crop. Ira Dryden, county farm agent, said tonight, while a lower reading would mean the annihilation of all the fruit. The mercury should reach 55 degrees here and in the territory tomorrow, the government observer said, and should continue upward the following day.

APPEALS FOR AID
MEMPHIS, Tenn., April 21 (AP)—Gov. Dennis Murphree of Mississippi sent a personal appeal to President Coolidge today asking that troops from Fourth corps area headquarters at Atlanta be dispatched to Yazoo City, Vicksburg and Greenwood, Mississippi. It was understood here that the troops were leaving Atlanta tonight for the flood area to aid in relief and other work.

GOVERNMENT TO AID
WASHINGTON, April 21 (AP)—Relief operations of the American Red Cross in the flooded Mississippi valley were outlined to President Coolidge today by acting Chairman James L. Fiske, who said later that the president had indicated that the organization would have the support of the federal government in the task of feeding and housing victims.

A complete report on conditions among refugees was given to Mr. Coolidge, and he is said to have expressed full approval of the program and his own concern over the situation.

EIGHTEEN DROWNED
HELLENA, Ark., April 21 (AP)—Eighteen persons were reported drowned when the government launch Pelican was pulled through a levee break at Rowden's Landing, 20 miles south of here on the Mississippi river early this morning, according to messages received here late this afternoon. The launch was said to have been caught in the swirl of water outside the break, as it was attempting to deliver refugees from the bank to the steamer Washburn, which was moored in the river.

VIRGINIA WHITE, known to other students at the Washington Seminary of Atlanta as "Tink", was elected the prettiest girl of the institution.

FEDERALSHIP IS STILL IN PORT

United States Authorities Hold Rum Carrier Regardless of Ruling of Federal Judge.

SAN FRANCISCO, April 21 (AP)—Though Federal Judge George M. Bourquin ruled yesterday that seizure of the rum ship Federalship and its \$1,000,000 cargo was illegal, neither the vessel nor its cargo had been released by the United States authorities today.

Attorneys Harold Fisher and James O'Connor, accompanied by Captain E. R. Stone, skipper of the Federalship, were granted permission today by the collector to board the vessel.

Prevent Boarding of Ship
But command officers guarding the liquor ship would not permit them aboard.

Skuller and O'Connor, representing the ship's Canadian owners, secured the release of Captain Stone and his crew of 10 men yesterday, after Judge Bourquin's ruling. The Canadian owners declared that they would not permit the vessel, cargo and crew to be "sheer aggression and trespass," in violation of treaty rights.

Custom and coast guard officials declared today they awaited proper authority to release the Federalship and cargo.

MILWAUKEE ANNOUNCES "ROLLER BEARING" CARS

JANESVILLE, Wis., April 21 (AP)—The Chicago, Milwaukee & St. Paul railway has spent more than a billion and a half dollars in the last 10 years, declared H. E. Burger, chairman of the road, today in announcing the initial appearance of roller bearing trains by the railroad within the next few weeks.

"Roller bearings," he said, "made the automobile possible. They are the latest revolutionary developments in passenger travel on American railroads and will make the passenger trains the most luxurious means of land travel."

ANACONDA COMPANY TO CONSTRUCT NEW PLANT

ANACONDA, Mont., April 21 (AP)—The erection of an electrolytic zinc refinery on Smelter hill in Anaconda with a capacity output of 100,000 pounds of ingot zinc monthly, was authorized here today by J. R. Hollins, vice-president of the Anaconda

Copper Mining company. Already the largest smelter works in the world, the Anaconda plant is now expanded to include one of the largest electrolytic zinc refineries. This refinery is second only to that of the Anaconda company at Great Falls, which has a capacity of 200,000 pounds of ingot zinc a month.

Erection of the new plant will begin next week.

ASK GOVERNMENT HELP IN PARIS LAND SCANDAL

PARIS, April 21 (AP)—"Own Your Own Home" dreams were used in vain by some thousands of the French after years when that government and being demanded as the only decent solution of a big problem.

Frenchmen just back from the war were sold homes in new conditions. The government promised to improve them, but never made. Commisaires that have investigated conditions usually found the houses in a state of ruin. Led by newspapers, public spirited persons urged that the government must finance these districts, and must insure them against fire, and must protect the buyers from obvious fraud.

The situation is now in France because only since the war has there been anything approaching the American idea of a real estate boom.

BOYS MONOPOLIZE FLAT

PARIS, April 21 (AP)—There is a new building where only families with children are admitted and where the only flats are for boys.

A widow, with nine small children, has just opened a new apartment for large families. On one of the five floors there are 10 flats.

Mme. Barre has set a good example for 1927 by changing her party to celebrate the birth of a girl, but "I haven't opened a bottle," she says.

MORE THAN 100 ATHLETES WILL PERFORM HERE

Invitational Track Meet This Afternoon at Lincoln Field Calls Outstanding Talent of Five High Schools.

Not less than 100 student athletes representing five high schools of this district will compete on Lincoln field here this afternoon in the several events of an annual invitational track and field meet for five trophy cups that will be awarded to winners. A banquet to be given in the Park Hotel dining room this evening for all entrants in the competition.

Field in Good Shape
Grounds were placed in perfect condition for the meet by a group of more than 40 high school students working Thursday afternoon under direction of R. V. Jones, assistant coach. The program of events is to begin at 2:30 p. m.

High schools of Buhl, Piler, Rupert, Burley and Twin Falls will be represented by entrants in the several events.

Trophies are to be awarded, one to the winning school and another to the runner up, one to the winners of the mile relay race and another to the winners of the half-mile relay, and finally a cup will be awarded to the individual high point man.

Covers will be laid at the banquet this evening for about 125 persons, including student athletes, officials and guests. C. D. Thomas is to be toastmaster and brief talks are to be made by three or four speakers, including Shad L. Hodgins, Twin Falls attorney and former mayor, and George E. Brennan, principal of the Piler rural high school.

It is expected that Felix Phostino, Twin Falls athletic coach, who has been chosen director of the meet, will

BRUIN MOGULS ASK REVISION

Directors of Local Baseball Club Reject U-F Schedule; Want More Games on Home Lot.

Directors of the Twin Falls club of the Utah-Idaho Baseball league voted unanimously at a meeting here Thursday evening to reject the league schedule of games for the coming season that was adopted by the league directors at a meeting in Ogden last week. The objection was centered on the grounds that the schedule as it stands does not provide for sufficient number of games for the Bruins on the home field. Twin Falls, last season, it was argued, proved to be a good baseball town from the standpoint of gate receipts and is entitled, it was contended, to more than seven series on the home field this year.

Tramo Now Schedules

A new schedule that would give the Bruins eight series instead of seven, as originally proposed, of one week each on the home field was approved by the Twin Falls directors, and will be submitted to Fred Nye of Ogden, president of the league, and all of the league clubs.

Under the schedule as re drafted by the Twin Falls directors, the Bruins would open the season on May 17 at Pocatello and would go from Pocatello to Logan for a week, returning to open the season on the home field on May 21. This proposed schedule provides for four holiday games—House, Labor and Labor day—to be played in Twin Falls, and the Bruins would close the season at home.

Bruins would play the teams named on the home lot under the proposed schedule, as follows:

May 21-June 3, Ogden; June 7-12, Logan; June 21-26, Pocatello; July 12-17, Salt Lake; July 19-24, Pocatello; August 2-7, Idaho Falls; August 11-16, Logans; August 20-September 2, Salt Lake.

Arrive here during the early afternoon unless the condition of his father, who was stricken Wednesday by a paralytic stroke and who is now in a Pocatello hospital, should become more serious.

Buhl Wins Second Game at Kimberly

KIMBERLY, April 21 (Special to The News)—Buhl high school basketball team defeated Kimberly last night, 16 to 11, in a seven-minute game on the Kimberly school field this afternoon. It was the second game of the season between the two teams and the second victory for Buhl.

Buhl garnered 11 hits in today's game and Kimberly struck out 11 batters. Buhl's Davies, Quire and Hyde, Kimberly, Denning and Spith.

DERN LOSES TO GREEK

SALT LAKE CITY, April 21 (AP)—George Kotonarous, Los Angeles Greek champion, defeated Ivo Dern, local light heavyweight, two out of three falls here tonight. Dern secured the first fall in 43 minutes after applying a series of flying head locks which were George down into submission.

Kotonarous took the 11 minutes fall after 23 minutes with a reverse double arm body, and the third with a "key lock" after 15 minutes.

SALVATION ARMY CONGRESS

SALT LAKE CITY, April 21 (AP)—Colonel William Barker of San Francisco, chief secretary for the 11 western states and Hawaii of the Salvation Army, will be in charge of the 47th annual young people's congress which opens a two-day session here Saturday. Delegations will be in attendance from Idaho, Wyoming and Utah. Officers of the Salvation Army from the three states and others from San Francisco will participate in the sessions, five in number.

NICKLE BEER THING OF PAST IN FRENCH CAPITAL

PARIS, April 21 (AP)—The nickel schmeer of "good" beer is gone forever in Paris. It costs six cents now. Ordinary beer, at the zinc counter of the small sidewalk flavored cafe, is still obtainable at four cents for the half-liter glass, but there is always the tip to be reckoned with, even at the counter.

Heaps of silver thimbles are high because most of the crop is exported. Labor and other costs also have gone up. The government lightened the tax on beer recently, but the brewers say that didn't help much. Beer has grown in favor in France as the price of wine went up.

Foreign visitors who go to more pretentious cafes, naturally face a higher range of prices, up to 10 cents plus tip for the large glass. The small glasses, called "a-beer," go for six cents and a cent tip.

Democratic Leader Outlines Stand on Smith's Procedure

NEW YORK, April 21 (AP)—After a conference with Michigan leaders here, the New York World says, Patrick H. Callahan, democratic leader of Louisville, Kentucky, issued this statement tonight:

"The procedure of the Smith campaign committee in my judgment is a direct challenge to the constitution and is a menace to the future political destinies of our country."

Mr. Callahan said that several years ago he had been chairman of a commission on religious prejudices of the Knights of Columbus which adopted this recommendation:

"It is just as reprehensible for Catholics to vote for a Catholic merely on account of his religion as it is for any group of non-Catholics to vote against a Catholic for the same reason."

He said that he had come here from a Catholic peace conference in Washington and found certain New York papers "picking up fast corners of a political issue which, if successfully injected, will cause as much internal strife as any of the causes which are now nationally being about a war."

Railroads Use Trees

Railroads use about 120,000,000 new wood ties every year. There are 3,000 ties under every mile of track. We have to cut 500,000,000 trees every year to maintain telephone and telegraph wires, says the American Tree association of Washington. You know the size of the telegraph pole and you know that it has taken the tree that provided it a long time to grow.

ATTORNEY INSTRUCTED TO USE OWN JUDGMENT ABOUT AGENTS' TRIAL

LOS ANGELES, April 21 (AP)—Assistant United States District Attorney J. Edwin Simpson announced today he had instructions from Washington to use his "own judgment" about removing the cases of prohibition agents Frank P. Farley and George H. Hudson to federal court.

The two dry agents are under indictment for murder in state court in connection with the death of E. F. Leggett, San Pedro oil official, who was killed when his automobile was struck by a government car driven by Farley. Hudson was an occupant of the official car.

Mrs. Jessie McAllister of San Pedro, who was riding in the agent's machine at the time of the accident, was assigned today on a joint murder indictment. Her trial was set for next Wednesday.

ARTIFICIAL SUNLIGHT BRIGHTENS TEA PARTIES

LONDON, April 21 (AP)—London's fog no longer has any terrors for the tea party hostess here. Hostesses are using ultraviolet rays to add further stimulus to their social affairs.

In the old fashioned days, hostesses slumbered when the mist rolled in over the city.

But today the sun rays electric lamps which set the West End hostesses are "really quite reasonable in price," bringing cheeriness into the commodious drawing rooms.

Sometimes the tea party guests are invited to bring their sun ray suits, which are very much like bathing suits—only there is less of them. They, of course, are women parties strictly.

Banks of Japan to Suspend Payments For Short Period

TOKYO, April 21 (AP)—Hopes for an amicable settlement in the financial crisis facing Japan are seen in the announcement that beginning tomorrow all banks will temporarily suspend payments for two days, according to the newspaper Asahi.

The newspaper further reports that the government will meet and declare a moratorium for 30 days during which a special session of the diet will convene to adopt measures to assist the bank of Japan.

While no confirmation of Asahi's statements could be obtained in government circles today, it appears that an announcement issued by the new cabinet after an all day extraordinary session to consider the financial situation bears out this prediction.

The announcement read: "After careful deliberation and collecting of reports from various directions, the government has decided to adopt a thorough policy of financial stabilization."

SOUSA TO BRING HIS BAND HERE

Business and Professional Women Sponsors for First Appearance of Band Master.

John Phillip Sousa, veteran music corps band leader of world wide fame, himself with his band of 100 men, will appear in Twin Falls on October 11, 1927, under terms of a contract which was signed last evening by Mrs. M. J. Anderson, president of Twin Falls Business and Professional Women's club.

The veteran band leader has never visited Twin Falls, but last year appeared with his band in concert at Boise.

It is scheduled to give three concerts this season in Idaho and Boise and another in Pocatello, besides the one sponsored by the Business and Professional women here.

Sousa and his band are now on tour for the present season and the school will appear in Chicago on May 7.

The band was represented in the negotiations with the Business and Professional women here by William Sawyer.

WOULD MAKE HENS LAY WHEN MOST PROFITABLE

Dr. M. A. Jull, federal poultry husbandman has hit upon an idea which he says should enable egg production and hens lay during the fall and winter when prices are highest.

The average farm hen, he says, lays less than 60 eggs a year and at the spring when prices are lowest, obtain the eggs.

On the theory that 20 laid in April or May and that the ability to lay eggs is inherited, Dr. Jull advises the building up of a flock of selected females with a singular egg laying strain together with males produced by such females.

Four methods of improvement, he adds, are the selecting each year of:

- 1—Those hens which mature early.
- 2—Those which lay best after they begin.
- 3—Those which seldom go broody.
- 4—Those which lay well throughout the late summer and fall.

He says that the general purpose pullet does not begin laying until seven months old. It is obvious that October or November lay eggs should be selected in March or April.

One point poultry raisers should bear in mind, according to Dr. Jull, is that it takes fewer eggs from October, to January to pay for a given quantity of feed than during any other time of the year.

ONE NIGHT FOR CHILDREN GIVEN AT TABERNACLE

Little Folks to Be Center of Attraction at Revival Campaign Center; Dr. Bulglin Preaches on "Queen Esther."

Hundreds of children who have been trained during the past three weeks at tri-weekly meetings in the tabernacle here by Rev. G. W. Bulglin, director of young people's work for the Bogliva evangelistic party, will be the center of attraction at the revival meeting in the tabernacle here this evening which has been designated "Children's Night."

The little folks are to appear in a program of drills, yells, songs and recitations.

Each one has been urged to bring his or her parents and other relatives. Dr. Bulglin at the tabernacle last evening delivered a sermon-lecture on "Queen Esther" and drew the attention of the audience to the fact that the mediator for saving the Jews, so the Lord Jesus Christ is the mediator for salvation of all mankind.

"The Jews, being a few, saved the Jews," the evangelist declared. "Jesus, being a man, saved man. That universal decree went out, every Jew must die, and but for Esther's intervention, every Jew would have been a dead Jew. And the other decree went out, 'Whosoever shall die shall die, and for Jesus we would all be lost.' Faith is open to all mankind, but a free gift is not going to be shovelled on the people. Let the king get the sword and the scepter and fight. And when the heathen came they did not submit tamely, but they fought and were saved. So the king get the sword of the spirit, step out like men in the lists of God's soldierly and fight. And you will go to hell certainly as God's word is true if you don't make an effort to save yourself."

At the close of the service the evangelist invited church members who felt that they had been helped by the service to come forward with their offerings. "Where is My Wandering Boy Tonight," and then "Christie, Christie," and "Hail to the Chief" were sung.

Charles H. Clark, musical director of the congregation, sang "The Old Soldier," "What Will You Do With Jesus?" and "The Old Soldier." Leaders of the organization of personal workers, called for the revival campaign will meet with Dr. Bulglin at 10 o'clock in the Methodist church here this evening. It was announced.

CHURCH PERPLEXED OVER WOMAN PASTOR

MINN., April 21 (AP)—Church circles are perplexed over the propriety of a woman evangelist disposing of the holy sacrament. The question arose with the induction of the first German woman, Frauchen Kubert, into the ministry. Frauchen Kubert, of Hamburg, successfully completed her theological course at the university and was formally ordained. When the offer of a post in disposing of the Lord's supper, however, her superiors balked. It was moved enough for her to be admitted to the pulpits—could she "take charge" over the administration of the sacraments to her?

The executive board of the Evangelical Lutheran synod of Hamburg addressed a questionnaire on this subject to the other 22 synods of Germany. This year 22 churches, including the largest, Prussia and Bavaria, declared a woman must not dispense the sacrament. Only four favored full theological rights for women, while the rest sided with the conservative.

The Hamburg synod decided to give Frauchen Kubert the position of pastor's assistant in the women's prison of Hamburg. She is allowed to preach and to minister to the spiritual wants of the inmates but not to dispense the sacrament.

Fire Destroys Skyscraper's Top

NEW YORK WAS THRILLED by the most spectacular fire it has seen in many years when the scaffold in and around the 16-story tower which tops the 22-story main building of a new hotel at Fifth Avenue and Fifty-ninth street, blazed for hours with no possibility of control. Fire started on four or five surrounding buildings, but were checked. Photo shows the flames 600 feet in the air.

Berliner Solves Echo Problem by Series of Cells

WASHINGTON, April 21 (AP)—On the golden anniversary of his invention of the microphone, which made possible the commercial use of the telephone and the radio, Emil Berliner has announced the solution of an age-old problem of acoustics.

Like many important inventions, the new device appears simple, but its principles defied the builders of King Solomon's temple and of innumerable other architects. In a broad sense, Berliner, who also devised the disk record for phonographs, spent his life in 37 years working toward this achievement. He always has been interested in sound, but three years of intensive study satisfied him that he had a solution of the problem.

Demonstrated first in Washington, the device is to be installed in the building hall of the New York University, where the acoustics are so bad that the jumbling of voices has interfered seriously with the conduct of business. It consists of a series of small cells which may be attached to the walls of a chamber with an outer layer of reflective material. In the assembly hall of the Washington school in which it was first demonstrated, a speaker's word had been virtually undistinguishable a short distance away, but after the cells were installed a child of five understood clearly 75 feet away.

Beginning with the observation that balls lined with wood invariably have excellent acoustic properties, the inventor traced this quality to the natural cells in the material. The solution then was to provide cement-sand or other fine porous material used in modern halls with cells which would have the same effect on echoes that wood possessed.

GASOLINE ALLEY - RACHEL GETS PROFESSIONAL AID

AFRIMOBILE IS BEACH CARRIAGE

Vacationers at Florida Resort Ride in Chairs Propelled by Faithful Black Men.

PALM BEACH, Fla., April 21 (By) - Quiet on the long, crowded beach of the beach, but some things are noteworthy in the visitor eyes as the afrimobile, the only public transportation system.

The afrimobile is a two-wheeled contraption about the size of a chair, pushed by two men. The afrimobile, however, will carry a passenger and a trunk or baggage. The visitor is seated in the afrimobile, and is guided through polished paths, seated comfortably in the deep recesses of a high-backed chair. Seated behind the afrimobile, whose feet provide motive power, will determine the speed of the afrimobile. A half dollar extra and he will stop on the way.

The driver, mounted behind his passenger, despite the rapid way with which the afrimobile is being propelled, is pushing the afrimobile forward by means of a bicycle pedal.

Whatever the moral persuasion of the afrimobile drivers, however, it seems well developed that the afrimobile is one of the most interesting and unique modes of transportation in the world.

One boy from a well-known family, who was left for another, but they had not proceeded far before the "friend" of the family was asked to leave. The afrimobile returned comfortably for the afternoon and called for speed.

Signals for relief from the heat of the afrimobile are given by the afrimobile, and the afrimobile is left to the passenger until a sudden shower brought a dash for cover.

Some of the afrimobile drivers are young people, but the majority of them are old and the afrimobile is one of the most interesting and unique modes of transportation in the world.

CATTLE AND CROP FORECASTS ARE OPTIMISTIC IN SOUTHWEST

KANSAS CITY, April 21 (By) - Cattle and farmers in the southwest are optimistic about the prospects for the coming year in 1927. The outlook is bright for both the cattle and crop industries.

The cattle industry is particularly optimistic. The number of head of cattle in the southwest is expected to increase significantly in 1927. This is due to the fact that the cattle industry has been able to maintain a steady production of calves, despite the fact that the number of head of cattle has been declining for several years.

The crop industry is also optimistic. The weather conditions in the southwest are expected to be favorable for the growing season. This is due to the fact that the amount of rainfall has been increasing, and the temperatures are expected to be in the range of 60 to 80 degrees Fahrenheit.

That followed I could not well observe, for the fog which had seemed to be lighting, now shut in thick mist, and their movements took them to the woods, for which they were first-thoughtful, and then back in my direction, which made me crouch and squawk like a hunted hare.

Yet, excited and thrilled as I was, I experienced other sensations as well, chief among which was a very little fear... I was quite indecisive, still the rifle advanced straight for me, and though their destination was the very spot where I lay crouched.

At these words I experienced neither thrill, but of a different kind. Naturally these three men were all unknown to me, and I had not traveled enough to have made many acquaintances in other towns.

After a few minutes of these evolutions on the part of the two men... I stood, then, going back and receiving the spade, he proceeded to dig, and soon had a large pile of earth and sand thrown up by his side.

And then, wholly without warning, a terrible thing happened. The big man, who had done the bulk of the digging, now stood leaning on his spade, and looking blankly into the fog, when I saw the man who had done the leader's deed quietly to be behind the dressing plant and crouch down.

Mean while the man who had knelt had risen to his feet again, and I saw that he held a pistol in his hand, ready to fire. And for an instant, indeed, it seemed that there might be need, for the fallen man, whose vitality now

Widespread Freezing Weather and Crop Damage Rumors Bring Rise in Wheat.

CHICAGO, April 21 (AP)—Widespread freezing weather, with reports that crop damage sustained and of increased delay in seeding northward, caused a wheat advance today. The volume of future delivery trading was the largest witnessed in many weeks, and North American export sales totaled more than 1,000,000 bushels.

Wheat closed strong, 1 1/2 to 2 1/2 cent higher, some bid to 2 1/2 cent. The market was active, with advances and positions varying from 2 1/2 to 4 1/2 to a rise of 5.

UP TO HIM
Whether or not Nicola Sacco and Bartolomeo Vanzetti die in the electric chair depends upon action taken by Governor Alvan C. Fuller. Friends of the condemned men appealed to the governor, declaring that prejudice entered the trial at which they were convicted of murder in a payroll robbery.

School Year at Eden Nears Close

EDEN, April 21.—The Eden schools that close the first five weeks of school began work here Monday morning on the final examinations. Plans for the next are being worked out by the different principals of the various schools of the first segregation that are to complete for January. The usual number of planes are already being planned. To effect the good work that came over the last five weeks of school, the final examinations will take up the first month of the school year. From all reports, the school year just went many things will have to be looked over before the closing day, which is set for May 15. First among these are the two kinds of equipment for the next year that will hold the interest in the service provided for Monday teachers. The students and teachers of the school will be used by the boys of engineers that tried out the same color scheme at the first segregation trial next that are to arrive this week to begin work. They will be held here on Friday, May 6, and a surveying a tract of land north of here.

WAZELTON PUPILS In Minstrel Show

HAZELTON, April 21.—The students of the fifth, sixth, seventh and eighth grades, presented a minstrel show on Thursday evening which was well received by the patrons of the school. Much credit is due to the students who coached and directed it. The Ladies' Aid society of the Community church was slightly entertained Wednesday afternoon by Mrs. Frank Roman and Mrs. Elmer Roman at the home of the latter. Mrs. H. R. Roberts, Mrs. E. Evans, Mrs. D. G. Longenecker and Mrs. J. B. Dickinson attended Primrose, the health lodge at Twin Falls, Tuesday evening. The meeting was presided by a banquet in honor of the president of the Rebekah assembly, Mrs. Effie West. Mrs. West made her official visit at this time. Mrs. Walter Nowell, who is visiting in Oregon, is confined to her bed with a severe attack of the flu, according to word received here.
