BANK IN HAZELTON WELDS SMALL SUM TO BARRING CASHIERS

Two Young Men Without Masks Lock Cashier and Assistant in Vault and Make Escape With \$637 in Bills and Silver.

HAZELTON, June 30 (Special to The News)—Two young men without masks during the hour today robbed the Hazelton bank and made their escape with \$637 in money, after locking the cashier and her assistant in the bank vault.

It was the second time the Hazelton bank had been robbed within four years. Officers throughout southern Idaho and northern Nevada are investigating in the bandit hunt which last night had brought no results.

Chief W. L. Mitchell, assistant cashier, entered in the bank when the robbers appeared at 12:10 o'clock. One of the robbers presented a check. On it were written the words, "We want your money; stick up on us; no more law."

The cashier looked up at glancing at the check to face a big man who took the hands of the bandit. The second bandit covered the assistant cashier with his gun.

"Work fast, Jim," were the only words that passed between the bandits before they turned the lock on the vault.

Mr. Gundelfinger, after making his escape from the vault, furnished official air mail dispatches between Chicago and San Francisco, the Boeing airplane company of Seattle, a private contractor, bring to consummation the original plan to connect the department at mail service. The government will be relinquished by the government to the National Air Transport of Chicago on July 31, at midnight.

PACIFIC FLIERS WILL RETURN ON STEAMER

Lieutenants Lester J. Maitland and Albert Hogenberger, Heroes of Flight, to Come Home.

HONOLULU, June 30 (AP)—Lieutenants Lester J. Maitland and Albert Hogenberger, who landed here yesterday morning after a flight from Oakland to San Francisco, will return to Pacific coast were planning today to leave for San Francisco Wednesday on the steamship Mauna. The plane fliers, which made the longest flight over water, will be taken to Hawaii for inter-land flying by any aviators.

Walt Grogan plane like the traditional low of the sailer for his ship, was proved today when Maitland and Hogenberger visited the great monument which stands 100 miles in the air in the history making flight of 25 hours and 53 minutes.

Hawaiians marveled at the endurance shown by the twin young men fliers. Hunger, typical of healthy manhood, was the only thing that troubled them on their long flight, and they were marked today for the good natured rallying of friends for a pool table to find their trip and a public reception at 8 o'clock was the evening program arranged for the fliers.

They called upon Major General Edward A. Lewis, commanding the Hawaiian department of the army, then Rear Admiral John D. McDonald and upon Governor Wallace R. Farrington. They were guests of honor at a community luncheon.

A dinner at the home of Colonel John H. Howard, department air officer and a public reception at 8 o'clock was the evening program arranged for the fliers.

Residents Begin Work Of Clearing Wreckage From Course of Flood

Clear Weather Greets Workers in Colorado San Juan Basin; Rehabilitation Is Under Way.

DURANGO, Colo., June 30 (AP)—The San Juan basin today began to clear the wreckage and repair the damage caused by one of the worst floods in the history of southwestern Colorado. Rivers in all sections of the basin were receding, and clear weather greeted the workers. All highways leading through the San Juan basin have been badly damaged, and no accurate estimate can be made yet of the cost of rebuilding on the length of line that will be required to put them into condition for traffic.

Railroads have suffered exceptionally heavy loss in the flood area. All trains except the Rio Grande Southern are being held in central Colorado. The Rio Grande Southern will be able to go as far as Manitou, 30 miles from here. The Silverton track, so badly damaged that it will be impossible for long trains can be run to the mining town.

PROF. CONDITIONS IMPROVE IN JUNE

Winter Wheat Harvest Coming Into Full Swing and Haying in Progress Over Country.

WASHINGTON, June 30 (AP)—While substantial improvement was made during June, crop conditions continue to be favorable, and haying is well advanced in the June review of the agricultural situation.

Winter wheat harvest is now coming into full swing and haying is in general progress, says the review. Corn, potatoes, and other crops are well behind time, though they made progress during June. Corn has a very poor start, but a cool, wet season does not necessarily mean crop failure. In the past the yield of corn has averaged above normal in the wet season. Corn has not yet been planted in some sections, and the amount of rainfall is the dominant factor governing the yield of corn.

Yield is Low Early threshing of winter wheat has been completed, and the yield is low. Rains in Kansas last month damaged the grain and seriously handicapped the harvest, but conditions are favorable to a record crop in this state. Spring wheat is reported to be making excellent progress, with a similar report from the north. In the flooded central valleys immediate planting of a second crop is being urged, and farmers have been working nights in the effort to bring cultivation to normal.

BULL ATHLETIC FIELD THREATENED BY BLAZE

BULL, June 30 (Special to The News)—Fire this afternoon threatened to destroy the Paris athletic field and big grandstand. It was extinguished by the prompt action of several citizens living in that part of the town, together with the Bull fire department. Little damage was done, but a quantity of dry weeds adjoining the fence were burned. Cause of the fire is not known, though it is believed to have been started by some boys cutting fireworks.

HOME RUN SAVES FILER FROM SHUTOUT AT BULL

Interested Fans at Edon Meeting to Work Out Plans for Six Team League.

BULL, June 30 (Special to The News)—A home run in the last inning by Roy Landis, Filer twirler, saved his team from being shut out in the game here here last evening between the Filer and Bull baseball teams. There was no one on bases and this, the second hit of the game by the visitors, gave them their only score. Bull drove out five hits for three runs. Batteries for Bull were D. Penneb and Foster, and for Filer, Landis and Frier. Dinky Bull, slugging, robbed a visitor of a hit when he made a catch deep in the center garden running at full speed with the ball.

A committee of interested fans will go to Edon tonight for the purpose of organizing a baseball league. The "twink" which will have representatives at the meeting and which will be taken into membership, according to present plans, are Bull, Filer, Edon, Hazelton, Wendell and Jerome.

"Big Bill" Tilden's chances to stage his comeback on the championship courts of Europe, went with it. Close at the heels of his defeat last month by Rene La Coste in the final round of the international hard court championship at St. Louis, came today's beating in the semi-finals of the men's singles of the Wimbledon championships at the hands of Cochet in a heart breaking five set match which score was 2-6, 4-6, 7-5, 6-4, 5-3.

A Chautauque season ticket is the greatest investment in good entertainment and worthwhile "easy to make" knowledge yet invented. The whole book costs less than a good seat for one of the plays anywhere else. On sale at Public Library, Mastic Pharmacy and Schramm Johnsons—Adv.

THE SPORTS OF A DAY

BRUINS WIN OVER SPUDS IN BATTLE OF HITS AND RUNS

Local Bludgeoners Crash Off 19 Hits in Spectacular Game; Double Killings Feature in Day's Work; Newbill Falls.

The Twin Falls Bruins, earning every run, won from the Idaho Falls Spuds 5 to 3 in the tenth inning when they singled, scoring Apperson. Two players released by the Spuds figured in the defeat. Apperson singled and the tenth inning after Flynn had hit for Canfield in the ninth, holding the Spuds helpless, when they "bore a former Spud player, scored the winning hit. The mighty Newbill, trying vainly to uphold his record, was unable to cope with the bludgeoning Bruins and allowed seven hits in three innings to lose the game that had been handed him, five out of the seventh. The Bruins, who for two days had been vying to equal Apperson's hit, swung victoriously yesterday afternoon and played a game that was as much a battle as any they have ever fought. Though Canfield, their pitching ace, was off form, and wild, allowing 12 runs in five innings, the Bruins, led by first base. Rallying to his support after his wildness had filled the bases, Apperson, in the seventh, singled, double plays in the first three innings, to lead the visitors scoreless until the fifth, when six base hits and Apperson's second home run, scored the double play in the tenth, when Burke hit a scorcher to Kravovich, after which Collins walked a pitched ball, making a total of four double plays in one game, and saved for three games.

DUMB BELLS

Idaho got his third two-base hit over Apperson, scoring Alloway. Gardner threw a walk and Collins singled. Apperson fouled out to third.

Fifth Inning Idaho Falls—Hutton got a sizing up through third base. Collins singled through short, and Hutton scored on Rudy's error when the ball rolled through him. Burke drew a walk. On the next play, Collins fired a called ball to when Coleman's ground ball hit Burke on his way to second. Apperson was safe at first on the play. The argument which followed, when Ferguson reversed the ruling and called Burke safe at third. Collins fired on the play, and Hutton scored through short and Burke scored. Coleman was held at second. Thompson pitched to Apperson, and Hutton went to third. Cronin was out at the plate when he tried to come in on a bunt. Alloway, who had been called by Collins, went out to second. Thompson scored on Callahan's double to left. Ferguson pitched to Apperson. Twin Falls—Fisher fled out to Burke. Rudy singled through third base, after which Collins walked a pitched ball, making a total of four double plays in one game, and saved for three games.

Table with columns for player names and statistics (runs, hits, errors, etc.).

Sixth Inning Idaho Falls—Hutton went out, Canfield to Apperson. Apperson pitched to Apperson, and Hutton scored through short, and Burke scored. Coleman was held at second. Thompson pitched to Apperson, and Hutton went to third. Cronin was out at the plate when he tried to come in on a bunt. Alloway, who had been called by Collins, went out to second. Thompson scored on Callahan's double to left. Ferguson pitched to Apperson. Twin Falls—Fisher fled out to Burke. Rudy singled through third base, after which Collins walked a pitched ball, making a total of four double plays in one game, and saved for three games.

Manager Apperson Releases Farrell

Tom Farrell, built right-hander, was released by the Bruins yesterday afternoon and will return to Sacramento, according to Bill Apperson, Bruin manager. Lee Veneberg has been named to replace Farrell. Farrell, a member of the league, was the best hurler in the league when he was here, but was unable to win in his last start.

Seventh Inning Idaho Falls—Thompson fled out to Apperson. Apperson pitched to Apperson, and Hutton scored through short, and Burke scored. Coleman was held at second. Thompson pitched to Apperson, and Hutton went to third. Cronin was out at the plate when he tried to come in on a bunt. Alloway, who had been called by Collins, went out to second. Thompson scored on Callahan's double to left. Ferguson pitched to Apperson. Twin Falls—Fisher fled out to Burke. DUHL AT WORK FOR AIRPLANE LANDING

Committee Consults Congressman Smith Relative to Regulations in Effect Elsewhere.

The committee which was named a week ago to look after procuring an aviation landing field for Duhl has been the matter up with Congressman Addison T. Smith to learn what rule applies to other sections of the United States and what plan is generally followed to secure the necessary ground for that purpose.

Miss Alvinne Webb arrived in Duhl yesterday afternoon from Boise, where she has been visiting relatives. While in Duhl she will be a guest of the L. Adams family, being a cousin to them.

Miss Lily Robertson left this morning for Salt Lake, where she has a vacation with her family.

Charles Hyde and family arrived here last evening by auto from Indianapolis to be guests at the home of his mother, W. S. Hyde and family.

Byrd forced to land on coast of France.

At Le Bourget field, the announcement of the landing was made by Commandant Hervey and the prefect of police. Later they admitted that their information was erroneous and that the plane was still en route, trying to find a landing place.

Just before 4 o'clock the aviation fliers in the vicinity of Paris and along the coast from there north were ordered to burn lights to guide the Americans.

The radio stations, with the exception of Havre, had ceased all calls and were listening for any signals. There was none.

COURT FIXES DATE FOR HEARING PLEASE

Perspiring Army of Lawyers Succeeded in Securing Postponed Date for Scandal Clients.

LOS ANGELES, June 30.—Bankers, brokers and motion picture magnates dragged by the law from their neglected duties to the bar of justice, were arraigned here today on criminal charges in connection with the Julian Petroleum hundred million dollar stock scandal.

From among the august, perspiring army of lawyers, outnumbering their half a hundred clients nearly ten to one, came the shouted motion to postpone the date to July 11.

After ten days of the trial in district court at Jerome, the case was transferred to the superior court.

Both men with their trial, Smith, brother of Roy Smith, subsequently delivered judgment and were sentenced to 25 years in the San Quentin penitentiary and the Smith brothers were sentenced to serve shorter terms.

NEWS OF THE DAY AS CAUGHT BY THE CAMERA

WHERE FRENCH FLIERS NARROWLY ESCAPED DEATH—This marks end of the attempt of Captains D'Oisy and Gonin to fly from Paris to India. Too heavy a load required a forced landing after the plane left Le Bourget Field. The landing gear broke, the gas tanks exploded, and the fliers jumped in time to save their lives. (International Newsreel)

TO COMMIT MATRIMONY—Most elaborate conventional wedding of the year in Hollywood is that of Vilma Banky and Noel La Roche. Film stars, Samuel Goldwyn was cast for the part of giving the bride away. Picture shows Vilma and Noel getting license. (International Newsreel)

FOR GLIMPSE OF HEROES—Chamberlain and Levine are heroes of the hour in central Europe. Picture shows part of the vast crowd that fought for a view of the fliers during their visit to Berlin. (International Newsreel)

FASHIONABLE—Fashion modes follow women into aviation.—Mrs. T. Higbee-Embry, Cincinnati flier, displays the latest, a soft tan leather helmet to match flying togs. The helmet may be used for street wear. (International Newsreel)

EMPERESS—The dusky Empress Zauditu of Abyssinia, said to be a descendant of King Solomon and the Queen of Sheba, visits Rome. Her nephew and regent, Ras Tafari, accompanied her. (International Newsreel)

PLEASE—Tessie Green displays some of the petitions, bearing some of the names, asking clemency for Sacco and Vanzetti, gathered by their defense committee in Boston. (International Newsreel)

A NOTED REAPER—Premier Mussolini turns farmer, helping the harvesting of grain from his farm near Carpegna, Italy. His son, Vittorio, is at the right. (International Newsreel)

GERMANY ABOLISHES ADVERTISEMENTS ON MAIL RECEIPTS

Officials Issue Decree Ordering Disappearance of "Ads" on Letter Boxes and Conveyances of Department.

BERLIN, June 28.—All advertising on mail wagons and letter boxes, as well as on postal receptacles, in the telephone book and in time tables, will be allowed to continue, the German postmaster announced today.

By this act the postal department, which voluntarily sacrificed a very valuable source of revenue in the first months after "the" war, has now introduced the postal department a net profit of \$4,000,000 in 1927. It had lost \$2,000,000 in 1926. It reached \$200,000.

The reason given for abolishing this method of advertising is that it is a competitor with printed demands of many advertising firms to abate this method of a governmental department. It is certain firms in a position to will to pay for such ads; and, second, because many parliamentarians in the Reichstag objected to having the government's bright yellow mail wagon decorated "by hideous signs promoting the best margarine on the market" and "other undesirable literature for the youth."

Berlin Post-Newsweek, July 1.—The Reichstag has decided to abolish the advertisement on mail receptacles of Wagram in Bavaria was not a little surprised and pleased recently when he received a handwritten letter from the Reichstag.

FLY-GIRL FLITS HIGHER

Mrs. LUDO PHILLIPS, Russian refugee who hopes to span the Atlantic in an airplane, flung up a new record before her start. She soared 11,000 feet over Roosevelt field, New York, with six men in the ship, which is higher than any woman has flown before under similar conditions. She is shown being congratulated by an army lieutenant.

EVENING IN PARIS IS DANGER HOUR FOR UNWARY PEDESTRIAN

Automobile Takes Greatest Toll at Six o'clock States French Prefect of Police; People Are Tired at End of Work Day.

PARIS, June 30 (AP)—Automobiles take their greatest toll at six o'clock in the evening. Most of the deaths of pedestrians in Paris streets—which average one every 18 hours—occur at that hour, says the prefect of police, Jean Chiappe. It is because hundreds of thousands of workers are crowding the streets homebound, although that is a contributing factor. He thinks there are some psychological causes and he has begun a series of tests and observations to learn the cause so that he can look for a remedy.

Other observers suggest that people are tired and nervous at the end of the day, the light is poorer and the day's accumulation of sleep-depriving exhaust gas deadens the sensitiveness of all, making mental reactions in emergencies much slower.

Bill to Protect Servants

PARIS, June 30 (AP)—Thirty-six days off a year are proposed for household servants in France. A bill before parliament calls attention to the lack of legislation to protect personal servants. The eight, nine and ten-hour laws applied in industry to many factories and stores there is either a Saturday afternoon or Monday forenoon, half holiday, a normal servant, a full day on Sunday afternoon off and two to four weeks' vacation on pay. They usually work about 14 hours a day. The 36 days suggested as a legal minimum would cover both vacation, and days off. The latter might be given in half-day units, as is the present custom.

Writers Like Goose Quill Pens

PARIS, June 30 (AP)—The typewriter is generally accepted by American authors as the quickest and most satisfactory method of setting their thoughts on paper. But in France, where art is still spelled with a capital letter, much of the literary output is from quill pens. The goose quill is a standard article at the writer's home.

The Importance of Quills

The importance of quills came to light recently when a newspaper correspondent asked a group of writers to discover whether they were music-lovers. Many of the literary people asserted that to their ears the squeaking of the quill was the squeaking of their quills.

Island to Be Like Fortress

PARIS, June 30 (AP)—Fortress-like concrete pillars are to protect some of the traffic safety islands in the most dangerous of Paris streets. Badly driven traffic is a constant menace and hurt people on these rednecks that the city traffic commission has decided to build masonry is the only adequate protection.

Another aid to traffic is proposed in the standardization of regulations. There are 79 communities around Paris all so closely built up as to form really one great city. Each of these has different speed and traffic regulations, and it is planned to draft rules that will apply alike to all.

Ban All "Hard" Liquor

PARIS, June 30 (AP)—Hard liquor is on the blacklist in French sports. Light wines and beer are not mentioned, but "strong" and "hot" drinks are persons run grays in training camps. This "temperance" stand was taken for the first time by French sporting federations at a recent Olympic committee meeting. Although it was not mentioned at the time, temperance newspapers now publish the text of the declaration, which reads: "Alcohol is a pernicious beverage which excites temporarily. This excitation is followed by depression and a diminution of strength. The use of alcohol impedes effort. It diminishes a dancer, whether in sport or professional work. Anyone, sportsman or professional worker, who seeks an increase of strength in alcohol will find only deterioration and dilution."

Stenographers Gone From Cafes

PARIS, June 30 (AP)—Stenographers have disappeared from Paris cafes. The few customers who detect their correspondence while they drink their beer had their pictures published in the newspapers. Cafe proprietors have learned, however, that the busy business man of France isn't busy enough to work while he's playing. The stenographers failed to earn their salt after the first few days, and the click of a typewriter no longer holds the attention of the old school gentlemen who regard their aperitif hour on the sidewalk, just before dinner, as a solemn tradition.

Parisian Horse Cabs Ready

PARIS, June 30 (AP)—The old horse-drawn cabs of Paris is getting ready for the museum. There are 51 of them left. Both drivers and horses show age and wear. In 1900, the year of the big exposition, there were 12,529 of them. Those left are one-horse cabs with room for the driver and passenger on the seat and a narrow folding seat facing him. Once in a long while some very aristocratic-looking old lady or white-bearded old gentleman, in an obsolete carriage, but traffic jams and smiles tend to make their appearance constantly rare.

FLORIDA EVERGLADES TO BE RECLAIMED

Twenty Million Dollars in Reclamation Bonds Have Been Authorized by State.

TALLAHASSEE, Fla., June 30 (AP)—Defiant through many years of struggle to claim its marshes for civilization, the Florida Everglades now are to fall before millions of dollars and the skill of engineers. Twenty million dollars in reclamation bonds have been authorized by the state legislature. The first \$10,000,000 have been sold, and preparations are under way for the program which will drain 4,000,000 acres of swampland and wastelands that will become the sites of new towns, farms and industries.

Governor John W. Martin, who arranged financing of the project, will don overalls and go into the Everglades to push the work. In doing so he will be carrying on a struggle begun over 20 years ago by Governor Jennings. Day after day giant dredges bit their way through the lowlands. Millions of feet of earth and rock were excavated. Gradually a small network of canals was formed, running from Lake Okechobee, second largest fresh water lake in the country, to the Atlantic ocean.

What once was a seemingly unending expanse of water became in the hands of man a fertile, productive land. Having sprang up and grew into a thriving little town. Here and there the low, swampy lands and tall grass became dotted with pillars of the soil. But the Everglades largely held its own. Reclamation cost money—and when Governor Martin came into office the work was almost stopped and the bonded indebtedness had grown to \$10,000,000. Then came the tornadoes of last year. The wind caught up the waters of Okechobee and flooded Moore Haven, drowning many people. Once more reclamation became a vital issue. The legislature with only a few dissenting votes passed the governor's financial measures to reclaim the area. Already one railroad has built a line across the marshes and one of the state's largest highways winds its way through the lowlands. With the drainage other rail beds and highways are expected to come. No time has been lost for the completion of the project, but it is believed that where now mucky swamps extend as far as the eye can see—towns, farms and industries will be the view within ten years.

SECRET SECT IS SPREADING

KRUJA, Albania, June 30 (AP)—The development of the Bekkahi sect, an offshoot of Mohammedanism, but sufficiently liberal to admit Christians, has proven that women can keep a secret. The Bekkahi is a secret sect so secret that none but its members know exactly what its tenets are. In the austerity and simplicity of life among its members it resembles the Society of Friends. The sect has spread rapidly during recent years, especially among the Mohammedans of both sexes.
