Florenz Ziegfeld, famous theatrical producer, writes:

"As the producer of 'The Ziegfeld Follies' I know full well how important it is for my stars to have clear voices at all times. Several years ago, when I first began to smoke Lucky Strikes, I noticed that my voice remained unimpaired after a most strenuous time directing rehearsals. I passed this information on to my stars and now we are all agreed: Lucky Strike is a delightful smoke and most assuredly protects the voice, eliminating any coughing, which often interrupts a perfect performance."

You, too, will find that Lucky Strikes are mild and mellow—the finest cigarettes you ever smoked, made of the finest Turkish and domestic tobaccos, properly aged and blended with great skill, and there is an extra process—"It's toasted"—no harshness, not a bit of bite.

ELEN DIAMOND ARTISTS WIN FROM JEROME TEAM

Northside Ball Club Retains Hold on Ocellar Position; Loose Contest by 7 to 3 Score.

JEROME, Aug. 1 (Special to The News)—The local baseball team was completed to maintain its position in the color of the Rim-to-Rim league for another week when it let the Eden team go home with the long end of 7 to 3 score in the regular scheduled game played here Sunday afternoon before a small crowd. The Eden registration played fast ball from the start and at no time during the game was the Jerome team able to tie a rally. Eden put the game away in the first inning of play by scoring three runs in the opening half and two more in the second. One more in the fourth and seventh innings gave them a total of seven runs. Jerome put their first run on in the third on two walks and a single by Lawrence. The locals had home plate once more in the sixth and seventh but were unable to score. Fitzpatrick and Johnson worked on the mound for the Eden team and kept the locals to five scattered hits. The Eden team gave its hurlers excellent support and the breaks of the game were also with the visitors. Jerome had good chances to score in the fourth and fifth innings but lacked the necessary hits. In these innings, Fitzpatrick tossed four bise on balls and then pulled out the hole by strike-out two batters. The Eden team had full again in the sixth and two down, Nichol fell a victim of the hidden ball throw and was out. In the ninth Jerome threatened to score again when Venneman went to first on a hit but the Eden team had a quick Salady drove walk and Venneman was caught trying to score. In the ninth inning the Eden team pulled out the hole by strike-out. Venneman was nicked for five life drives of varied lengths and two extra bases. He hit three Eden batters, walked two and struck out four. Blakmore was on the receiving end of the Eden home run. In the sixth inning, Eden with Fitzpatrick pitching the first six innings and Johnson the rest three. Jerome will travel to Bull for tomorrow next Sunday.

HAZELTON BASEBALL CLUB DROPS GAME TO KIMBERLY

Many Errors Feature Game Between Two Bim-to-Rim League Teams; One Homer.

HAZELTON, Aug. 1 (Special to The News)—Hazelton's baseball team dropped its first game in the Rim-to-Rim league for the season when the Kimberly team invaded the local lot Sunday afternoon and went home with the long end of 10 to 2 score. The game was loosely played from a Hazelton standpoint. The Kimberly team took well to the offerings of Schenk and Lindsay, which with the many errors gave the visitors an early lead. Schenk started for Hazelton but was relieved by Lindsay in the early stages of the game. Lindsay fared well for two innings but was unable to hold the Kimberly batters in check. Schenk was called upon to finish the game. Good support might have made it a different story for Kimberly. Extra base hits for both teams. Kimberly had credit for one home run. The locals will mix it with the Eden team at Eden next Sunday.

West End City's Crew Emerges From Hot Contest With Short End of 3 to 2 Score.

BULL, Aug. 1 (Special to The News)—Bull's baseball team dropped its game to the Filer club on Sunday afternoon in one of the closest games of the season. The score was 3 to 2. Filer put over two runs in the first inning on a walk, an error and a single. They then tucked away the game 2-1; another run in the seventh inning. Bull's second catcher was a home run by Brooks with no one on base. Errors by Bull kept their chance to win, the tie being chalked against them to two for Filer. Battery for Bull was Paix and Foster, and for Filer, Pranzillo, Lantini and Mentel. Paix allowed five hits while Bull got as many off the Filer hurler. Road Improvement Bothers Chamber

Directors Discuss Bettering of Highway Leading to Brink of Shoahone Falls.

Plans for improvement of about 200 yards of road extending west to the brink of Shoahone Falls from the gravel road to the ferry above the falls came in for a major share of attention at the regular meeting of Twin Falls Chamber of Commerce directors last evening. Directors agreed that the roadway should be improved and discussed ways and means at length. Finally turning the problem over to Carl E. Lind, chairman of the roads committee, for solution. The proposition is complicated because of the fact that there are three owners of the territory through which the roadway passes—the federal government, the state, and a private owner. The roads committee chairman also was authorized to post suitable signs along the gravel road near the falls for guidance of visitors in order that they might view the falls without first following the road to the ferry and then turning about on a steep slope at the landings.

CHARTER-FORFEITURE NOT FATAL TO CLAIM

Supreme Court so Decides in Foreclosure Suit; New Rule Regarding Liens Established.

The fact that a corporation has forfeited its charter is no sufficient ground for cancellation of a contract with the corporation, according to the Idaho supreme court decision in the case of the Ferguson Fruit and Land company against I. G. Gooding, an action for foreclosure of a real estate mortgage. The supreme court, according to advices received Monday by Charles A. North of counsel for the company, has denied Gooding's petition for rehearing in the case in which the supreme court previously had reversed a district court decision in favor of Gooding.

Facts in Case The company in this case held 80 acres of land in the Deep Creek district to Gooding in 1912, delivering a deed and accepting mortgage executed by Gooding. Subsequently the company acted for foreclosure of the mortgage and Gooding based his defense on the claim that the company had forfeited its charter at the time the contract of sale was entered into. Counsel for the company argued that Gooding had dealt with the company as though it were a valid corporation and for some years had carried out provisions of the sale contract.

Writes New Law In the case of John Thomas against J. I. Stridley and the O. J. Childs seed company, an action for forfeiture of a farm laborer's lien, the supreme court has sustained the district court's decision against Thomas and his written new law in relation to labor liens, according to advices received here Monday. Counsel for the seed company, Thomas, faved upon beans in the possession of the seed company that had been used by the Stridley farm on which Thomas had been employed. The decision turned on the question of whether Thomas had filed his lien within the 60 day time specified by statute. Evidence showed that the beans were delivered to the seed

company on October 2, 1924, and that "the" following January 7, 90 days later, Thomas had filed his lien. Counsel for Thomas argued that the time limit had not expired because Thomas had continued working in stridley's employ. Defense attorneys, who were successful in both district and supreme court, argued that work done by Thomas after the beans had been delivered to the seed company had been done on the owner's crop, and so that the lien period had expired when the crop was filed.

FORGERY OF CHECKS CHARGED TO WOMAN

Complaints Are Filed Against Blond and Man Accompanying Her; Held in Montana.

Complaint charging forgery against Patricia Smith, alleged to have passed bad checks in various Utah towns, and in Twin Falls and other places in this county, as well as Pocatello, Hurley, B. Hughes, secretary of the Twin Falls County Credit association, following receipts of photographs of the woman, and the man with her, from Big Timber, Montana. She is charged with having passed a bad check at the Hub in Twin Falls and the man is charged in another complaint with passing a fictitious check at the Penny store. The photographs received were: It is said, identified by merchants from Twin Falls, Havelon and Kimberly. The letter from the sheriff at Big Timber said that the woman was held for three days—a misdemeanor charge with a penalty on conviction of about 14 days. She was arrested at Havelon, Montana, and taken to Big Timber. The man is 30 and the woman 22. He is a slightly paralyzed. They have three children, one boy and two girls—between the ages of one and four years. Most of the alleged fictitious checks were for sums of about \$25.

Why should I keep it to myself? AS THE song had it, "but I won't be happy, till I make you happy, too." I want you to share with me the joy of a pipe and Prince Albert. I may be prejudiced, but I don't believe you can find the brand of pipe-joy I'm talking about in any other way. Why, the very moment you open the tidy red tin and breathe that glorious P. A. aroma, you know—then and there—you are going to like this tobacco, and like it lots. And, if you still have the slightest doubt, it will vanish the instant you taste the smoke itself. Cool as a March rain beating against the window-pane. Sweet as the flowers that attract the honey-bees. Mild as the greeting of a rival—mild, but with that full tobacco body that makes the perfectly balanced smoke. A whole world of satisfaction in every single puff. Prince Albert has pleased more pipe-smokers than any other tobacco before or since. You can ask any jimmy-piper. But the way to really know is to buy yourself a tidy red tin, tuck a load into your pipe, and light up. That's better than anybody's opinion. P. A. is sold everywhere in tidy red tins, packed and held together in handy doses, and packed in special glass tins with cork stoppers and with cork stoppers, always with every tin of size and pack covered by the Prince Albert process.

PRINCE ALBERT —the national joy smoke!

He says that she has misbehaved since in spite of his efforts to reconcile her, and that she is now serving a jail sentence on a liquor charge in Twin Falls county.

Misses Study was displayed on the person of Colleen Moore for scenes in her newest comedy, "Naughty but Nice," now at the Opticon.

The outfit represents the idea of linen entertained by a plain, awkward, fructed girl on an isolated Texas ranch, and she wears it when she sets forth for Washington, D. C. to enter a smart girl's finishing school near there.

Strangely, and yet naturally enough, this costume, with its outlandish pieces was far more difficult to assemble than the stunning frocks worn by Miss Moore in other parts of the picture.

The supporting players in "Naughty but Nice" which was produced at the First National studio by John McCormick, include Ronald Reed, Claude Gillinwater, Hallow Cookey, Kathryn McGuire, Edith Chapman and Gladys McLary.

BULL MARKET REACHES NEW PEAK ON MARKETS

NEW YORK, Aug. 1.—The 'bull' movement in stock prices, which has been under way with few interruptions for three years, reached a new peak today when a broad buying movement developed as a result of further casting of the credit situation generally.

With the heavy month-end demand for funds largely taken care of, money was again in plentiful supply, dropping from a recent rate of 4 to 3 1/2 per cent.

Recent buying of high grade stocks presumably has been followed by the rate and current dividend yields, but the market is still in a state of uncertainty.

BUHL MAN SWEARS TO COMPLAINT, DECLARES FAKER GOT CURRENCY

Youth Avers That "Professor" Webb—Receives \$1700—in Two Deposits in Advance for "Funding" of Fortune.

Complaints charging John Dew, alias "Prof. Webb," with grand larceny for the alleged felonious taking of \$1700 were filed and seem to have been withdrawn by Edward Herzog, a young farmer who lives near Buhl, and who is the only person who has been identified as a complainant. The sum alleged to have been taken was, according to the complaint, received by the defendant on two occasions: \$700 on July 5 and \$1000 on July 9. Bills are said to have been used in making both payments.

According to Herzog, the professor spoke excellent English fluently, was extremely polite and inclined to be amiable. He was dressed in a suit and himself in any way, either in regard to his birth place or to his past record or present means. He was of rather tall build but not heavy set and was about 35 or 40 years of age.

Reports of others—Police Chief J. E. Johnson stated that he had heard of others who were reported to have made deposits with the fortune teller for the same purpose. He said that it was rumored that one old man had been told that he could be put next to a treasure near Preston and had named \$1000. Chief Leighton said he had heard of others who gave fees of from \$5 up, and that all were told to come back before July 11. That date the only source of information had been gone two days. Had complaint been made on that day, the task of hunting down the alleged criminal would have been much easier.

The Buhl victim, who swore to the complaint, and who was to have received tens of an alleged treasure of \$40,000, according to his statement, is said to have been put through a sort of horoscopy which permitted catching a few, so that one witness was substituted for the one with currency.

Young Dane Escapes Prison When Record Proves to Be Good

Because of previous good record since coming to America from Denmark three years ago, Judge W. A. Lebeck Monday suspended during good behavior issuance of order on sentence of from one to 14 years pronounced on Valdemar Knud Pedersen, a 20-year-old youth, who entered a plea of guilty to a forgery charge made against him, Clinton Smith and David Green, who are now serving terms in the state prison. Warm recommendations were received from former employers of Pedersen in California.

According to the best information available Smith was the prime mover, officers said. He met Pedersen in California, where the latter was employed and induced him to come to Twin Falls, where he said work was plentiful. They came here and Smith, who was to spend all money received by him, and then suggested the issuance of fictitious checks. It is reported, Pedersen went to Kimberly to work Monday afternoon.

HEALTH WEEK IN DENVER DENVER, Aug. 1.—Health week in Denver closed today. Forty health talks were given over Denver's radio, and there are noonday addresses at clubs, offices and shops. It started with lay health sermons in a large number of churches on Sunday. All these are parts of the health educational campaign which features the thirty-first annual convention of the American Orthopedic association.

IDAHO WHITE BEAN INDUSTRY GROWING

Rapid Strides Are Made, Recent Survey Shows, Is "Home" of Great Northern Variety

No other state in the union has made such rapid strides in the development of the white bean industry as Idaho. It is shown in a survey of the industry just completed by the Idaho state chamber of commerce. The state department of agriculture and the federal crop reporter are the authorities for the information.

The industry in this state around the Idaho Great Northern bean, a white bean similar to the ordinary navy bean, but far superior to its competitor in quality and size. People generally do not know the difference between the two grades, but department of agriculture officials say that once the Idaho Great Northern bean is tried the navy bean loses its mere customer.

Idaho is second in the nation in the production of white beans, Michigan being the only state to supercede it and Michigan does not produce the Idaho Great Northern bean. Yield per acre in Idaho is increasing faster than in any other state. Statistics show that the three years ending with 1923 the average in Idaho was 214 bushels—50 per cent increase over the preceding three years—and this year reports from the Twin Falls region, the principal producing center, indicate a yield from 45 to 60 bushels to the acre. No other state has shown such a phenomenal increase in production per acre and some of the important states have actually shown a decrease.

The increase is explained by the fact that early in the industry beans were used as a recuperating crop for the land, but now they are usually sown following alfalfa when the land is its best.

PAVING PROTESTS ARE REJECTED BY COUNCIL

Several From Third Street East Appear and Get Week for Substituting Private Work.

All protest against the formation of the street grading and graveling improvement district were rejected, but signed by Twin Falls city council, which adopted the following resolution:

That the protest in view of the importance of the improvement and the benefits to be derived therefrom, should not be deemed sufficient to stop the formation of the district and the construction of the improvement. Residents of that part of block 25, north of the city, bounded by streets between Fifth and Sixth avenues north, were given until next Monday night to submit their protest that they will be able to construct the improvement there according to city specifications, and their own initiative and that they will do so.

Several Written Protests In addition to making written protests, the following property owners in the district named in the block stated, appeared in person: S. S. All, Mrs. James M. Wall and Mrs. Ethel Hartman. It was stated that the protest was already filed and that the construction is considerable. It was further stated that the protest was not intended to delay, but to get the city, all expenses in connection with the district considerably reduced, the cost over the provisions of the prior law. The expense, outside of the actual cost of construction, can be saved if the owners all get together and do their own work. It was accepted.

Thickness Is Increased The cost of the actual construction is somewhat greater than last year, because of slight increase in the price of gravel entering throughout, and an increase from two inches to four inches near the curbline. Besides those who appeared in person, protests were on file from James M. Wyke and August Kolb of Twin Falls; J. J. Cooney, White Pine; Montana; Mary D. Beall, Omaha; A. Hooves, Salt Lake, and C. O. White, Seattle. The protests were from blocks No. 53, 54 and 56. There were none from No. 55 or 57.

W. H. Edinger, former mayor, protested against failure to spruce Third street and Sixth avenue—north side Sunday and believe enough opposition was not being done in that part of the city where traffic was heavy. It was stated that the driver was hit Sunday on that route. Building permits were granted to F. M. Stone—agent for the property at 228 Main avenue north, put in a partition and flooring at a cost of \$250, and to W. W. Young to build a frame structure in lot 17-1-2 east of lot No. 2, block 140, at a cost of \$150.

\$575 Twin Falls to Salt Lake City, and return August 5th. Limit August 14th. Union Pacific System—Adv.

FORMER NEBRASKANS HOLD ANNUAL FETE

Picnic and Renewing Acquaintances Chief Division; Katharine Provost, President.

Several hundred former residents of Nebraska enjoyed their annual picnic Sunday afternoon at the Twin Falls county fair grounds at Piler. A program of sports among the younger generation formed the chief amusement while the older folk enjoyed music by the Salvation Army orchestra and renewed old friendships.

Big Certified Check in Roseworth Action Is Taken by Plaintiff

One of the largest certified checks ever deposited in the district here was taken down Monday by Hodge & Hodge, attorneys for the Idaho Farm Development company, on filing of retainer with Ira Bracker. The check for \$51,000 was filed eight years ago by E. T. Meredith, former secretary of agriculture at the beginning of the proceedings. Mr. Meredith is a director of the farm development company.
