UTAH WOMAN DROWNS WHILE AUTO PLUNGES INTO CANAL WATERS

Mrs. Minnie Rager of Salt Lake, 76 Years Old, Meets Death When Machine Crashes Through Bridge Guard Rail.

An automobile plunged through the guard rail at the west approach to a bridge over the canal 17 miles east of here late evening carrying Mrs. Minnie Rager of Salt Lake, 76 years old, to her death in nearly 10 feet of water in the canal.

W. W. Rager of Salt Lake, cashier of the United States Smelting, Refining and Milling company, was the driver.

Mrs. Rager was returning from two weeks vacation trip to Vancouver, Washington.

In a second car were Mr. and Mrs. Leland Walker and their children, Betty and Leland, of Bluffham, Utah, who had made the trip to Vancouver with the Ragers and were close behind the Rager car when it plunged into the canal.

Spent Day in Twin Falls Members of the party and the driver in Twin Falls wore new bearings were placed in Mrs. Rager's car, and left here about 6:30 o'clock last evening.

The party was returning from two weeks vacation trip to Vancouver, Washington.

Forest Fire Threatens Little Washington Town

PORTLAND, Aug. 6 (AP)—Sixty inhabitants, 20 miles northwest of here, was threatened tonight by a forest fire in the Columbia national forest. A dirt fire line was being hastily thrown up half a mile from town by volunteers.

In its approach to the town the fire swept out the Ryan and Irwin logging camps, killing several men and mules. A hill in the wind has so far made a mill one mile from town, but the property was still in danger.

The population of the town was kept down to about 100, the fire tonight was still working extinguishing roof fires started by embers from the advancing flames front.

BLAST WRECKS HOME OF BALTIMORE MAYOR

Explosion of Dynamite Bomb Splinters Porch and Sells House on Fire; Chief Away

BALTIMORE, Md., Aug. 6 (AP)—Explosion of what police believe was a dynamite bomb today nearly wrecked the rear of the home of Mayor William P. D'Arcy. The explosion splintered the floor, cracked the wall and set the house afire.

The mayor's wife and two children, aged 10 and 12, were in the house at the time. The mayor was in town at St. Louis and Fort Worth, Texas.

Firemen Give Theory An explosion was evinced by a fireman that the blast was probably caused by accumulated gases in the cellar ignited from an electric refrigerating plant.

George O. Henry, acting police commissioner tonight declared he believed the wreckage was caused by a bomb. He declined to attribute the outrage to the "Irish" because the department officials assumed a similar theory.

INDIANS KILL MEXICAN AND WOUND AMERICAN

NOGALIAS, Ariz., Aug. 6 (AP)—A dispatch from Nogalias today reports that a Mexican mine worker was killed and an American citizen wounded seriously Thursday when a band of about 30 Yaqui Indians held up a truck carrying miners on a busy road between the La Guadalupe mine and the small town of Tecuipa, Sonora, Mexico.

The American, Joseph Killack, was in charge of the crew of miners. He was taken to the hospital in Hermosillo. He had been shot three times. The La Guadalupe is the property of General Antonio Amador, and is operated by an El Paso, Texas, syndicate.

MINERS HEAR FACTS OF FAMOUS MURDER

Members of Industrial Workers of the World Call for Strike of Members in Colorado

WALDENBURO, Colo., Aug. 6 (AP)—A mass meeting of miners here tonight heard the facts of the famous Sacco-Vanzetti case. A. H. Emery, executive of the Industrial Workers of the World here, said that the organization had called a strike of its members in the southern Colorado mines.

The strike, Chairman Thomas Anderson of the state industrial commission said, would be in effect September 1. He added that the commission would do its utmost to prevent it, as the state law requires 30 days' notice before any organization may make a strike effective.

Officials of the Colorado Fuel and Iron company, operators of large coal properties in the southern section of the state, did not believe the strike would be effective if called, as the majority of miners belonged to company unions operated under the Rockefeller plan. Those officials said that they understood the strike had been called in sympathy with Nicola Sacco and Bartolomeo Vanzetti, whose case is being reviewed by the federal grand jury here.

The convention decided that all corporations, policemen, sheriffs and deputies, and all federal officers, shall be eligible. Annual meetings are provided for, and annual election of officers.

Officials of the Colorado Fuel and Iron company, operators of large coal properties in the southern section of the state, did not believe the strike would be effective if called, as the majority of miners belonged to company unions operated under the Rockefeller plan.

TAKE DRASTIC STEPS TO AVOID BOMBINGS

Peace Officers Throughout the World Order Extraordinary Precautions to Eliminate Repetition of New York Doings

Throughout the world extraordinary precautions are being taken wherever police think it necessary to avoid repetition of such incidents as the bombing of two New York subway stations, supposedly by Sacco-Vanzetti sympathizers.

New York's 14,000 police have been put on 14-hour shifts, all vacations revoked, and every oil can, shovel and heavy guard put on duty at subway, railroad, elevated stations, prominent buildings, and strategic points.

Close scrutiny of storage places of explosives ordered with daily check all withdrawn under permit. Preemptive measures in connection with fire, especially if there is any suggestion of explosive origin.

Boston National guard patrol federal building, police is limited to use of only door duty of postoffice police stations revoked, and policemen ordered to sleep on roofs at stations instead of going home when off duty.

President Grant Valient of the United States Coast and Geodetic Survey, who is not reinforced—military guard increased from one to three men.

Washington—Guards of public buildings ordered to look out for suspicious characters; Justice and state departments given extra protection; which is being assigned to homes of officials.

Philadelphia—Guns, churches, subways, elevated and trolley lines, and prominent buildings, water police placed on duty.

Baltimore—Guards ordered to surround public buildings; additional police assigned to homes of officials.

Buffalo—Orders issued for inspection of buildings under an international peace brigade led by J. P. M. Bunn, and heavy guard ordered to protect Prince of Wales, Premier Baldwin, and other dignitaries.

Chicago—Twenty-three federal agents tonight assigned to duty of federal buildings and are ordered to stand.

GOVERNOR GENERAL OF PHILIPPINES DEAD

General Wood Arrives in Boston Following a Major Operation

General Wood arrived in the United States a few weeks ago in ill health and entered the Boston hospital, where he died, only two days ago. He lived to attain the age of 67 years.

General Wood was operated on for a hernia in Manila last January and came east for treatment as soon as he felt conditions in the islands justified his absence. Dr. Lambert advised Mrs. Wood announced her husband to the public, but went into seclusion as soon as General Wood went to the hospital.

MINERS AND OWNERS MUST SETTLE ISSUES

Dealings for Entire Ohio Coal Field Area Impossible, Executive Tells Governor Donahy

COLUMBUS, O., Aug. 6 (AP)—Coal miners and operators of each district must work out their own wage scale agreements and further the settlement of the R. H. Bohns, president of the Ohio coal operators association, told Governor Donahy.

On the part of Illinois operators, he rejected the governor's invitation to a conference of miners and operators of western Pennsylvania, Ohio, Illinois and Indiana, at Toledo, August 15.

Make No Dealings The governor's office made no comment on the statements of either Miller or that of R. H. Bohns, president of the Ohio coal operators association, told Governor Donahy.

On the part of Illinois operators, he rejected the governor's invitation to a conference of miners and operators of western Pennsylvania, Ohio, Illinois and Indiana, at Toledo, August 15.

PRESIDENT COOLIDGE PAROLEES PRISONER

Vuco Perovich, Convicted of Murder 22 Years Ago, Receives Executive Clemency

ST. LOUIS, Mo., Aug. 6 (AP)—Vice President Coolidge today received a pardon for Vuco Perovich, convicted of murder for which he was arrested, tried and convicted in Alaska 22 years ago, and for which he served 10 years at Fort Leavenworth prison.

Perovich, a Montenegrin, was sentenced to life for the killing of a man in a brawl near Nome in August, 1907. In 1908 the sentence was commuted by President Taft to life imprisonment. The case first attracted wide attention when Perovich protested against commutation of the sentence, saying that it was a violation of his constitutional rights and declaring that he would rather die than suffer life imprisonment for a deed of which he claimed no guilt.

He was released from Leavenworth under a writ of habeas corpus in 1923 and began his fight for a pardon, which he won when the order of executive clemency was served today.

DUHL ROTARIANS FAVOR SERVICE CLUBS' PICNIC

DUHL, Aug. 6.—(Special to The News)—The Duhl Rotary club will join the Twin Falls Rotary, the Twin Falls and the Klamath clubs in a picnic to be held at Filer fair grounds some time during the month, according to a resolution passed at the meeting here last evening. Dr. A. H. Murphy was appointed to the committee to confer with the other clubs and set a date for the meeting which will be announced later.

A number of Duhl people went from here to Oakes today to attend the funeral of Ray Dwyer, former business man of this city and member of the Duhl Rotary club, who died there of Bright's disease. The deceased was a member of the Duhl masculine lodge, which organization had a part in the funeral services. John A. Brown, past master of the lodge here, had charge of the service. The Duhl Rotary club, in a letter to Mrs. Dwyer, expressed the sympathy of the membership to her.

Club Women Entertain Cold War Women's club members entertained this month at the school house last evening with a social and program.

Hensel's Establishment Frank Huston is converting his building now occupied by the vintaging "Burr" into a modern structure. The site will be cleared, the ceiling will be plastered and a new modern floor to take the place of the old one. Mr. Huston expects to reorganize his business by putting in a stock of miscellaneous accessories.

Kill Sharks With Knives An authority on sharks says that it is killed that the natives of the South Sea Islands swim under sharks and with daggers kill the shark and kill them.

### AFRICA IS LEADING DIAMOND PRODUCER

Discovery of Precious Stones in Mouth of Kei-River in Cape of Good Hope Is Important.

WASHINGTON, Aug. 6 (AP)—The discovery of diamonds at the mouth of the Kei river in Cape of Good Hope has once more established South Africa as the most prolific producer of the most precious stone. Says the National Geographic society.

In Cape of Good Hope, which is richly endowed with a source of diamonds ever discovered since the discovery of its mines 60 years ago this region has produced close to \$100,000,000 worth of the rock. The total production in South Africa as a whole is valued between one and a quarter and one and a half billion dollars.

**Newest Territory**  
In South Africa's newest territory, the mouth of the Kei river, the discovery of diamonds is probably the most important discovery since the first found in the 1870s. The new territory was established in 1926, and was the first to be discovered in the shallow coastal waters. Now five or six million dollars worth are being produced annually.

South Africa ranks next to Brazil as a diamond producing country. In 1926, it produced 4,000,000 carats of diamonds, valued at \$100,000,000. The United States and the United States are found in Arkansas.

**Crystallized Carbon**  
A diamond is crystallized carbon, and is made of the same material, essential, as coal. India led the way in the use of the diamond as a gem. It was known at all in the west in early times. It was only as a pretty pebble that the Greek soldiers returning from India in 327 B. C. introduced the cut stone into the Mediterranean countries. India was the sole source of diamonds until their discovery in Brazil in 1728.

The diamond is the hardest substance known. In grinding the facets for gems diamond dust must be used. Hence the adage, "Diamond cut diamond." Approximately 99 per cent of a rough diamond is cut away in shaping it to its "brilliant" form. It is from this discarded material that diamond dust is obtained, and also fragments of diamonds for use in drills, lathe tools, dies, etc.

**Among Crown Jewels**  
The Koh-i-noor, now among the British crown jewels, is probably the most widely known diamond. It belonged to several Indian rajahs and changed hands a number of times in the history of war. Finally it was presented to Queen Victoria by the East India company. The largest diamond ever discovered was the Cullinan, it originally weighed one and one-third pounds and was as big as a man's fist. It was cut into 105 brilliant stones by King Edward VII of England. The two largest are the "Star of South Africa," weighing 520 1/2 carats, and the "Lesser Star of South Africa," weighing 317 1/2 carats. They are respectively the largest and the next largest cut diamonds in existence.

**Preaching and Practice**  
Preachers say, "No man can say, 'I do' but if a physician had the same disease upon him that I have, and he should tell me of one thing and I should say, 'I believe, could I believe him?'—No, no."

**Illegible Pot Hooks**  
Dwellers on the island of Crete were writing on clay tablets more than 5,000 years ago. However, their pot hooks have never been found, and the handwriting has never been deciphered. Archaeologists have not yet found any to tell what they were writing about.

### WOMAN IS LONE FOREST GUARD

MISS MARGARET LUTHER is the lone forest guard of a 3000 acre tract of White Sulphur Springs, New York. Her father is the owner. She maintains watch from a tower.

### SOUTH POLE FLIERS WILL CONFRONT NEW OBSTACLE

WASHINGTON, Aug. 6 (AP)—In attempting his flight to the south pole, Commander Richard E. Byrd confronts obstacles that make his hazardous north pole trip seem, at least to the layman, like child's play in comparison.

In the Arctic he had a land base. In the Antarctic his permanent supply base probably will be established 200 miles from the pole, on Stewart island in the New Zealand group. Since the distance prohibits a take-off from his base, as was possible on the north pole flight, Commander Byrd is planning to fall by ship to New Zealand and from there into the ice field, to set up a series of camps.

From one of these with two planes, he would try a dash to the pole, he said. To reach the ice field from Stewart island, he would have to sail along the little known coast of South Victoria land into Ross sea, the open bay entered by Captain James Cook, English explorer, in 1841. That coast is described by the National Geographic society from available records as being a wild range of ice covered rock peaks, rising at times to a height of 15,000 feet, without vegetation of any kind.

A vast continent is believed to stretch beyond that range. Somewhere further east, he said, lies a plain, 10,500 feet above sea level, wind kept and perilous to aircraft. Within it lies the south pole, unmarked by any topographical feature.

### STUNT FLIER TRY FOR OCEAN FLIGHT HONOR

LOS ANGELES, Aug. 6 (AP)—One of those who intend to carry Southern California's colors in the Hawaiian air race August 12 is Arthur C. Ober, stunt flier and soldier of fortune. He will pilot a monoplane and probably go alone, although at the last minute he may, he said, decide to take a navigator with him.

Groebel is credited with colorful, exciting aerial adventures. A few years ago he went to South America and joined the air forces of a South American republic which was threatened with invasion by a neighboring republic. He trained pilots and helped establish a small air force, which was not needed.

### CATHOLIC COLLEGES HAVE INCREASE IN ENROLLMENT

Bureau of Education of Welfare Conference Show 74,849 Students in Private Schools.

WASHINGTON, Aug. 6 (AP)—Catholic schools in America enrolled 74,849 of the 800,000 men and women attending American colleges this year. These figures are issued by the Bureau of Education of the National Catholic Welfare Conference in a survey—just completed.

Although it does not include almost 25,000 theological students in the United States, it represents a large increase over the enrollment of 1924 when the last compilation was made. The increase was described as particularly noticeable in the attendance of women at Catholic colleges, 35,413 being registered this year as compared with 20,796 in 1924 and 18,491 in 1922. No new colleges for men were founded during the last two years, but 15 new women's colleges were started.

Approximately 20,000 of the 1927 enrollment were registered courses in the arts and sciences. The professional schools were well attended, with law and commerce leading.

A number of the Catholic schools are ranked among the "big colleges" of the country. In point of attendance, Fordham University has 8,017 students; Loyola, at Chicago, 5,812; Marquette, 4,267; and Notre Dame, 2,227. Catholic University of America, in Washington, had an attendance of 1,612—all large numbers of whom were graduate students, making this institution one of the most largely attended graduate universities in the country.

### Jilts to Wed

PARENTAL BLESSINGS have been given to the Gremmels before the fortune of Charles Gremmels, Montclair, New Jersey, really operator, and Frank Youmans, Jr. who were wed in Manchester, Vermont, after Miss Gremmels jilted wealthy Duke Foster, to whom she was engaged. The couple are honeymooning in Canada.

### BELGIUM PRINCESS TO MARRY PRINCE

Belgians Believe That Marie-Jose, Only Daughter of King and Queen, Will Wed.

BRUSSELS, Aug. 6 (AP)—The Belgian people believe that Princess Marie-Jose, only daughter of King Albert and Queen Elizabeth, is soon to marry Prince Umberto of Apulia, nephew of Victor Emmanuel III of Italy.

Announcement of the betrothal is expected daily, and all classes are rejoicing that Princess Marie-Jose, like her brother, Prince Leopold, who married the beautiful Princess Astrid of Sweden because he loved her, is to marry the mate of her choice.

The royal Belgians are immensely pleased that their princess is to be so happily married to the heir to the throne. Prince Umberto is known and liked in Brussels, where he recently visited the royal family for three weeks. Princess Marie-Jose returned the visit almost immediately as the first of Prince Umberto's visits. She and the Duchess of Anjou, the princess first made the acquaintance of the duke and duchess when she was a student 11 years old at an Italian school in Florence. Since that time she has been a high favorite with the Italian royal family.

Aside from sentiment, a match between Italian and Belgian royalty is considered advantageous by the Belgians.

considered advantageous by the Belgians. Princess Marie-Jose is 23, a pretty blonde with curling hair. She speaks Italian, French, English and the Flemish language of her country.

## Idaho Power Company Announces

# New Bargain Rates

### For Domestic Electric Services

These new optional rates, now in effect, are applicable in Idaho to service in residences and individual family apartments and will effect for average users of current, a marked saving in cost per month or allow an increase in the use of domestic labor-saving appliances at your present cost.

OUR new Bargain Rates for Domestic Service are so constructed that all current is furnished through a single meter and under a single rate. All current in excess of the minimum bill is furnished at very low kilowatt-hour cost. The minimum bill is based on the number of principal rooms in the house and includes a quantity of current which makes the highest net cost per kilowatt-hour to all consumers using the full quantity of current allowed under the minimum bill approximately 6¢. This is a reduction of 40 per cent from the first "stop" cost of the present lighting rate.

These new Bargain Rates are adaptable to practically all individual needs and such combination services as the following may be enjoyed by our customers.

1. Lighting and Cooking.
2. Lighting and Refrigeration
3. Lighting, Cooking and Refrigeration
4. Lighting, Cooking and Water Heating
5. Lighting, Cooking, Water Heating and Refrigeration.

Under the Bargain Rate the cost of current to the average consumer using lighting and cooking or other combination service will be under six pence per kilowatt-hour and for consumers who will use all services the average rate will be substantially under 2 1/2¢ per kilowatt-hour.

These rates are so constructed that as your use of electric service increases the cost per kilowatt-hour progressively decreases. In other words the more current you use the less you pay for it. Thus you can, by using these combination rates, operate more labor-saving appliances in your home at very little increase in cost.

These Bargain Rates are optional with the customer who may elect to receive service under them, if they work out to his advantage, or retain the present rate if that is to his advantage. It is believed, however, that the rates will be to the advantage of customers using or desiring to use a combination of service and that they will enable a greater use of electricity in domestic service because of the extremely attractive rates offered for the increased use.

We invite you to come in, or telephone for a representative to call to explain these new Bargain Rates in detail and discuss their adaptability to your requirements. The advantages of these Bargain Rates are now available to you and it may be decidedly to your benefit to investigate them.

# IDAHO POWER COMPANY

FOR TWENTY TWO YEARS

this institution has been identified with the business interests of Twin Falls, the agricultural and stock raising interests of Twin Falls County, and the personal life of an increasing number of men and women of the community.

The character of its service and the confidence which its policies and practices have inspired have helped it to become the "preferred banking home" of an ever increasing number of patrons.

We will be glad to add you to our constantly growing number of customers.

# HIGHWAY DISTRICT SEEKS RIGHT OF WAY TO LINE OF NEVADA

### Steps Are Taken to Avoid Delay When Bids Are Called For—Condemnation May Be Necessary in Some Cases.

The Twin Falls highway district board in session Saturday afternoon discussed the matter of right of way for the road south of the Nevada line to the Nevada line, Yellowstone highway. Without definite information as to details, Chairman Robert Hays said that they were considered that bids for the contract would be called for by the government before long, as he believed that the cooperation of Nevada would be secured.

Gridding Right of Way  
The board is endeavoring to secure the right of way all the distance by the line that bids for construction are called for. Much of the right of way is "old" government land, but part of it crosses land on which homestead claims have been made. In some instances the positive addresses of the owners are unknown and unless these can be secured, condemnation proceedings will have to be instituted. Mr. Hays said that reports from Nevada indicate a desire to cooperate and are encouraging the feeling that the district will not be delayed.

# IDAHO DOCTORS TO HEAR SPECIALISTS

### Outstanding Personalities in Healing Art to Attend State Medical Association Meeting.

A number of outstanding specialists in the fields of medicine and surgery will be invited to address the annual meeting of the Idaho State Medical Association and to deliver papers covering a wide range at the thirty-fifth annual meeting of the Idaho State Medical Association, which will be held in Health League of Idaho to be held in Twin Falls August 20-21.

The program for the three days meeting, announced last evening by the committee in charge of arrangements, indicates that opportunity will be provided for medical men to learn at these sessions something of latest discoveries in the healing arts.

The visiting doctors will be welcomed at the opening of the first day's session by R. E. Bobber, Twin Falls mayor.

The South Side Medical society will entertain for the doctors and their ladies at a social dinner on the evening of the first day, and it is to be held a public meeting. On the evening of the second day the association's annual banquet is to be served in the Hotel Oregon hotel and round table luncheons are to be held during the noon hour each day at the Park hotel.

# THOUSANDS CHEER FIRST TRAIN TO TWIN FALLS 22 YEARS AGO TODAY

### All Day Celebration Marked Historic Event: Banquet, Addresses, Sports and Other Events Feature Occasion.

Here and there a tar-papered shack. At the edge of town a shining new track.

An eager crowd of pioneers. Who had blazed the way with smiles and tears.

Their cherished stream had now come true. For Twin Falls' first passenger train was due.

Too! Too! It came, a rousing cheer. Burst on the air, as it drew near.

The streets were dusty, the air was dry. The sage marked many a vacant lot.

And the faith that was born that summer day. Has builded a city that is beyond today.

In the ranks of the best, our own Twin Falls. And wherever we roam, her people

Twenty-two years ago today was a red letter day in Twin Falls. It was the day that marked the coming of the railroad and the first train from home steamed into the station.

Hardly had dawn broken before the first whistle was heard and the long train that marked the construction of Twin Falls with the main line crossed into the city while crowds—oh, waiting cheered. Those in the train looked at the windows and waved their hats and lent their voices to the happy occasion.

The second train of the day pulled in shortly after noon and the demonstration was even greater that which greeted the early morning arrival.

The occasion, which was heralded as the greatest event up to that time in the history of the "Magle City," called forth a great demonstration in which the entire citizenship of the town, numbering some 5000 participated.

Citizens attended from Twin Falls, Kimberly, Harrison and Rock Creek. Long tables in the hotel were filled with picnics and were decorated with flowers, grown in some of the gardens.

# REAL ESTATE VALUES SHOW LITTLE CHANGE

### Alteration in Schedules Results in Slight Slump; Personal Property Report Incomplete.

There is a slight decrease in the assessment roll for Twin Falls county real property this year from last year, though the difference is relatively small. The 1926 valuation was \$22,659,875, while the 1927 valuation was \$22,659,875, according to figures compiled by the county auditor. The auditor has been taken to task by Claude Stewart, county assessor, who will attend the meeting of assessors on Monday.

The following is the complete list: Agricultural land, \$10,700,000; other lands, \$1,370,000; other real property, \$2,429,525; improvements on lands, \$4,722,125; cattle, \$207,800; horses, \$167,500; sheep, \$101,500; hogs, \$215,000; poultry, \$8000; bees, \$4800; other property, including merchandise, household goods, etc., \$250,286.

The above does not include new schedules of personal property, which will augment the total considerably.

Major Fred R. Boyd opened his address by calling for three cheers for President Roosevelt, the friend of reclamation and the friend of the state. The cheers were given with a will and a thousand flares lit.

To the pioneer women, who were struggling with the men, to make homes on the desert, he paid a high compliment. He referred to them as the true home-builders and mothers.

Program of Sports  
Following the speaking a real program of sports was held, and the remainder of the afternoon. There were horse races, races for boys and girls, races for fat and lean men, an axe and spoon race and a pile sitting contest.

A baby contest was the interesting feature of the afternoon for men and women. Blanche Harrah, the first baby born in Twin Falls, was the winner. Other winners, Edna May Rettig and Joseph Henry Nay also won awards and the paper says that the judges had not seen another baby in Twin Falls would have been remembered.

Something of what the Twin Falls project could produce was shown by the agricultural exhibit. It was quite a complete one for that time and papers throughout the state commented upon what could be produced here, many of the judges had not seen another project of this kind.

# High Temperature One Hundred Above

The maximum temperature for the month of July was 100 degrees on July 18, according to the report furnished at the official station at the famous ranch by H. Hamilton. The lowest was 38 degrees on July 5. The mean temperature for the month was 71.2; the maximum 92.9 and the mean minimum 50.8. There were 17 clear days, 13 partly cloudy and one cloudy. The precipitation was .04 inch.

# PLENTY OF LABORERS AVAILABLE AT PRESENT

"At present there is a surplus of labor for all farm work on the Twin Falls tract," says Charles L. Hart, federal employment agent, with headquarters in the chamber of commerce office.

He continued, however, "that this labor is of the transient character, here looking for employment" and anticipates that within another week or two that there will be a greater demand for help when harvesting of the bumper crops gets under way.

Mr. Hart says that if there was a little more cooperation between the farmers and the employment office—that the farmers could be secured of better service, that is, it would be possible to supply just the class of labor that was desired as the harvest has a reduction of men available, and notes the class of work each is the best fitted for.

Mr. Hart says that if there was a short time before the office would secure a permanent institution here.

# OPEN GRANGE MEETING

The Kimberly grange will hold an open meeting to which all are invited Tuesday evening at the Kimberly Methodist church. Sherman M. Coffin and Asner D. Wilson will speak.

# INSURANCE RATE CUT FOR IDAHO POSSIBLE

### Agents Returning From Boise Intimate Deviation of 30 Percent Favored; Rate Discussed

Twin Falls insurance men who attended the Boise conference Friday afternoon with D. C. Nelson, director of insurance, returned Friday night, intimating that a reduction of 30 percent from the rates of companies on the interstate risks, and that this matter will be taken up at San Francisco at a meeting of companies to be held there August 15.

Both board and non-board members were represented at the Boise meeting. One of the topics current, though unconfirmed, is that Idaho agents have been ordered by board companies to discontinue affiliation with non-board companies under penalty of not receiving board business.

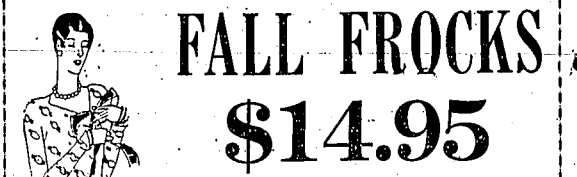

# FAMILY OF 12 VISITS PARK

Oklahoma holds the record for sending the largest family to the Twin Falls Tourist park this season, states S. Dorresteyn, superintendent. During the week Mr. and Mrs. C. H. Jackson from Oklahoma and their 10 children registered there, their young son being a baby but a few months old.

TWIN FALLS, IDAHO, SUNDAY MORNING, AUGUST 7, 1927.

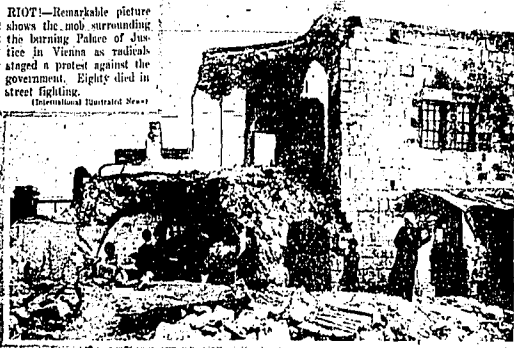

## NEWS OF THE DAY AS CAUGHT BY THE CAMERA

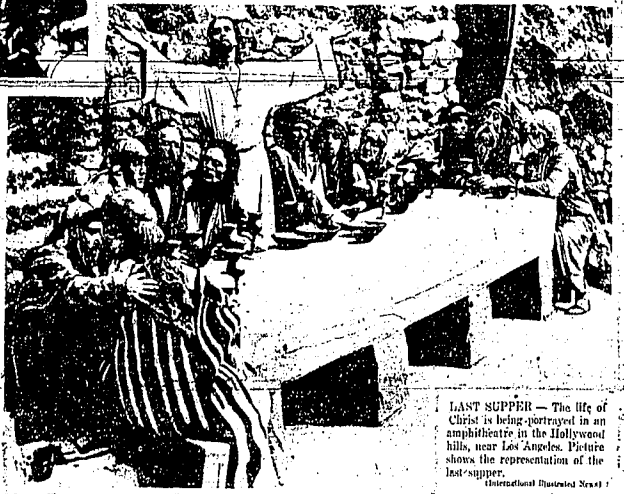

**RIOT!**—Remarkable picture shows the mob surrounding the burning Palace of Justice in Vienna as radicals staged a protest against the government. Eighty died in street fighting. (International Illustrated News)

**LAI-D-L-O-W**—Starkey is shown on a stretcher in a Boston hospital where he was treated for injuries caused, his motor says, by a low blow in his fight with Jack Dempsey.

**NEW PICTURE SHOWS ACTUAL QUAKE DAMAGE**—The Holy Land is slowly digging itself out of ruins caused by a severe earthquake. Picture shows a collapsed house on the Mount of Olives, Jerusalem, where three were killed. (International Illustrated News)

**LAST SUPPER**—The life of Christ is being portrayed in an amphitheater in the Hollywood hills, near Los Angeles. Picture shows the representation of the last supper. (International Illustrated News)

**YES! IT'S REAL!**—George Thomas actually captured the fish shown here. It's a 570-pound member of the swordfish family. Mrs. Charles Barker, Catalina Island taxidermist, stuffed it for him. (International Illustrated News)

**DARK HORSE**—Nicholas Longworth, Speaker of the House, is shown on his favorite animal, a dark horse, vacationing in Montana. (International Illustrated News)

**ROBERT E. LEE**—Augustus Lukeman is working on his model of Robert E. Lee, one of the figures for the colossal Stone Mountain Memorial in Georgia. Model is being made in New York.

**JUST A BUNCH OF GOOD SCOUTS**—The Swedish Crown Prince and Princess lead a procession of scouts from all parts of the world at the International Scout Encampment near Stockholm.

**A CITIZEN**—Herat Balchen, who flew with Commander Richard E. Byrd, takes the oath necessary to becoming an American citizen in the Federal Building in New York. He was once a member of the Norwegian Navy.

### CASSINA NATIVE TEA IS COMPARABLE TO IMPORTED PRODUCT

#### Industrial Organization and Capital May Open to Agriculture. Unexploited Heritage From American Aborigine.

WASHINGTON, Aug. 6.—Industrial organization and capital, federal credit, the decline might open to agriculture an unexploited heritage from the American aborigine.

Years before the white man came with his tea and coffee, Indian tribes from the Amazon brewed a stimulating beverage from dried leaves of a picturesque shrub.

The called it "cassina." Science named it tea cassina, and the common name, brewed from the brilliant red fruit, the "Christiana berry."

Only the dependent of civilizing, the south of the table, the tea, brewed from the brilliant red fruit, the "Christiana berry."

First in South America, the tea, brewed from the brilliant red fruit, the "Christiana berry."

### EVEN STERN PALACE GUARDS SMILE WHEN LIMEX URCHINS VISIT QUEEN

LONDON, Aug. 6.—For once in their 200-year-old lives the stern palace guards smiled when the king's children, the Duke of York and the Princess Alice, visited the queen at the palace.

The king and queen came out to meet the children, and the guards, who were usually stern, smiled and bowed.

## THE FASTEST FOUR IN AMERICA

Mile-a-Minute Performance

\$875

F. O. B. Detroit—Full Factory Equipment 4-Door Sedan (Not a Coach)

## Few New Cars Have Received a Welcome so Emphatic and Sincere

As Dodge Brothers expected, this brilliant new Four has instantly won a vast and enthusiastic following—is already a spectacular national hit.

Within two days after the first public showing orders were received for \$3,250,000 worth of the new Sedans.

Mile-a-minute performance at this unheard-of price is one striking reason—and here are a few of the others:

From 0 to 25 miles an hour through gears in less than 7 seconds!

Longest springbase of any car under \$1000. 25 miles per gallon of gas at 25 miles per hour. 19-foot turning radius!

Chic, smart, up-to-the-minute body lines—fashionable pastel colors!

Plenty of seat-room, leg-room, head-room—a big, luxurious interior, richly upholstered!

Built to last long and re-sell high. And the lowest priced sedan in Dodge Brothers history. See it—drive it—and you'll deliberate no longer.

### KING GEORGE'S LAGER IS SPECIALLY BREWED

LONDON, Aug. 6.—King George's Lager beer is a special brew, brewed in England, and is supplied to no other table, it is said.

The king is known for being remarkably abstemious in diet. Lager beer, which, after the war, was in considerable vogue in England, is a summer beverage. It is in demand this year, probably because of the unseasonable coolness of the weather.

EUROPEAN NATION HEADS HAVE VARIETY IN VACATION PLACES

President of German Republic Spends Short Time in Switzerland's Alps; King George and Queen Mary Visit Coast.

By The Associated Press LONDON, Aug. 6.—Mountains and seashore each have their vacation heads of European nations.

The German president, who is fond of hunting, will live in the old castle of a Bavarian nobility, then von Meiner, his quiet vacation spot, and others and topped by a tall chapel, done in late Renaissance style, which makes it visible for miles around.

For once the president will enjoy complete privacy, for the region is difficult of access, and the nearest village, Dietmannsdorf, has less than a dozen houses.

Holstein castle, summer home of King George, is built with granite and slate. Its name is as old as the reign of King Malcolm of Scotland, son of the Danes murdered by Macbeth.

One day, the story runs, there sailed up the Firth of Forth, within sight of Malcolm's castle at Edinburgh, a few Saxons galleys. They bore letters to the English throne, who drives from their inheritance by William the Conqueror, had set out for the continent, but had been pushed northward by adverse winds.

King Malcolm fell in love with the eldest of the royal fugitives, the fair Princess Margaret, and married her when she was still a child. With her Margaret had brought a priceless relic, a Holy Hood which Malcolm equally treasured, for it was believed to contain a part of the true cross, on which Christ was crucified.

Malcolm, always at war, had claimed life through many engagements, but one day he marched to the battle of Alnwick and never came back. Queen Margaret died of grief. At her death her Holy Hood was taken to St. David's abbey, lying far below the castle heights, and the abbey has since been called Holyhood. The relic was carried off, returned.

JOHN'S GIRL ON VACATION

Florence Trumbull, daughter of the Governor of Connecticut and reputed girl friend of John Coolidge, is spending part of her vacation in Detroit. She's shown on a picnic boat there.

SETUP OF SOVIET RUSSIA NOT SIMPLE

Supreme Authority of State Meets Only Once a Year; May Convene Every Other Year.

By The Associated Press MOSCOW, Aug. 6.—While the 2000 men and women of the Soviet government are busy with their work, the far-in and wide of Russia, the central executive committee, the government executive.

For the first time since the revolution, the supreme authority of the Soviet state meets only once a year, in Moscow, and there is under discussion in proposal to limit its sessions to once in two years.

Composed of Two Groups The central executive committee is composed of two groups of delegates, known as the council of the union and the council of nationalities, both elected by the congress of soviets from representatives of united soviets and allied and autonomous republics, respectively.

The province of the central executive committee is to manage the work of legislation and administration, and to determine the scope of activity of its own president. It has the right of pardon and amnesty.

The president of the central executive committee is the supreme legislative, executive and administrative body in the union between the sessions of the committee, which meets twice a year. It supervises the application of the constitution of the union and the carrying out of the resolutions of the congress and of the executive committee, with the right to suspend such resolutions and refer them for confirmation to the full committee. It is responsible to the executive committee.

It is made up of 21 members, seven from the two "councils" composing the executive committee and seven at large appointed by the congress.

Under the jurisdiction of the central executive committee is a supreme court whose business it is to direct the action of supreme courts in the various republics, to review their decisions, decide legal conflicts between republics.

Although Seneca and Brock plan to fly the same plane and engine, arrangements have been made for the landing of extra engines at points enroute.

Honesty Pays

LEONARD W. PROSE, 10-year-old son of Leonard Prose, San Diego, California, found that honesty paid one per cent. The boy was rewarded with \$100 when he returned to the owner a purse he found, containing \$100.00.

There is also approved by the central executive committee a council of people's commissaries to direct the several branches of administration, foreign affairs, war and marine, trade, transportation, post and telegraph, labor and finance.

The united states political department, known as the G. P. O., is a body attached to the council of commissaries. Its province is "to combine the revolutionary efforts of the united republics in the fight with political and economic counter-revolution, espionage and sabotage." Its president has an advisory voice in the deliberations of the council of commissaries, and a representative vote in the plenary sessions of the supreme court.

1927 Apple Crop Lowest in Five Years Says Department of Agriculture Report

Twelve Million Barrels is Anticipated Western Production During Coming Season; Market Men Foresee High Price.

By The Associated Press WASHINGTON, Aug. 6.—The estimate of the crop has its importance, because market economists hold that a bumper apple season should be profitable in stock and shipping.

A chart shows the prospective 1927 crop to be the lowest in five years, and to be lower than the best crop in 1926.

About 12,000,000 barrels is the anticipated western production, 2,000,000 barrels less than last year. Approximately 10,000,000 barrels is predicted for the east and midwest, an 11,000,000 barrel reduction as compared to last year's record crop.

"New York state," investigators say, "may have a commercial crop of but 1,000,000 barrels, compared with 6,500,000 in 1926 in the Virginia-Maryland-Pennsylvania region, only 3,250,000 barrels are indicated as against 7,000,000 last year.

Michigan expects a crop almost as big as last year's, but it still is far below average. Maine and Kansas are about the only barrel states expecting more commercial apples than in 1926. Idaho probably will exceed last season's crop. Washington will be at least 1,000,000 barrels short of the 1926 figure. Oregon may have only about half of last year's total, and California appears to lack one-fourth of the 1926 commercial production.

PRIESTS BLESS HARBOR

LOHRENT, France, Aug. 6.—A new fishing port has been opened at Lohrent with a religious ceremony. Clergy went out to small boats and blessed the sea, the big trawlers and all the newly built wharfs and plants, making good catches and prosperity.

DETROIT MAN PLANS FOR FLIGHT AROUND WORLD

DETROIT, Aug. 6.—A trip around the world in 15 days is the objective of the first long distance airplane flight sponsored by Detroit.

Edward F. Seneca, president of the Wayne Oil corporation and Wayne Air Services, Inc., with William Brock as pilot, will make the flight. They plan to start from Detroit, fly to London, and then to Tokyo.

From Japan they have mapped out a jump to the Hawaiian Islands with a stop at Midway Island. They would return to the American continent at San Francisco and complete the round trip with a flight from the Pacific coast to Detroit.

Although Seneca and Brock plan to fly the same plane and engine, arrangements have been made for the landing of extra engines at points enroute.

PESIMISTIC REPORTS RAISE PRICE OF CORN

Rumors of Backward Condition of Crop at Hand From All Parts Except Southwest.

CHICAGO, Aug. 6 (AP)—Corn soared today to the highest price which the December delivery has reached yet in this season. Speculative reports about the backward condition of the corn crop were at hand from nearly all parts of the belt except the southwest.

Corn futures advanced on news that the crop was not so good as it had been reported to be. The market was buoyed by reports that the crop was not so good as it had been reported to be.

QUOTED VALUES REVEAL FURTHER PRICE DECLINE

NEW YORK, Aug. 6 (AP)—The stock market experienced a further downward movement, and a further decline in today's brief session. Selling was for both accounts, the real-time sales of professional traders, who had built up large positions in three weeks of almost steadily rising prices being curbed by the liquidation of securities purchased for supporting purposes after Wednesday's drastic break and by the offerings of "bear" traders, who acted on the theory that the market was reaching its peak.

Rapid City dispatches indicating that Frank Goodwin, a Republican, is to be a candidate in 1928 was final may have had an influence as hope was held out in many banking and brokerage circles on the subject.

LOS ANGELES LIVESTOCK MARKET. For week ending August 6, 1927. Closing top 127.50; bulk 120.00; packing 125.00 to 130.00.

HOSTON WOOD MARKET. In demand is reported by several domestic wood houses. The best call is for fine French oak, 115c.

### SUDAN GRASS HAS IMPOSING RECORD

Centuries Old at Headquarters of Nile, Is Becoming Important Forage Crop in Corn Belt.

WASHINGTON, Aug. 6 (AP)—Sudan grass, centuries old at the sources of the Nile, is becoming an important forage and emergency hay crop in the United States corn belt.

Federal agricultural scientists, in an effort to emphasize in the middle west place last year's feeding will about 4,000,000 acres.

There is no other record on record in the history of foreign plant introduction. They say that the Sudan grass has grown from an eight-lime packet of unknown African seed to a \$100,000,000 American farm crop.

The package from Khartoum, imported of extraordinary significance, reached the department of agriculture March 16, 1899. Apparently an off-color strain of Johnson grass, destined for its native host, was sent to an experimental farm at Chilesburg, Texas.

Neither a perennial, legume, nor soil improver, Sudan grass cannot be rotated successfully into any other rotation.

"In certain southern states," authorities say, "it may be used as a cover crop of our northern states as one of the money crops. Its chief value is in its quick growth in a moist soil, its cop when alfalfa, clover or timothy run short, as a summer pasture in the dairy sections, and as an annual forage crop in the great plains."

WASHINGTON, Aug. 6 (AP)—Considerable progress this year in the enactment of forestry legislation is recorded in the annual Forestry Legislative Survey of the American Tree Association.

Delaware, Florida and South Carolina joined the states having forestry organizations, bringing the total to 42, while Nevada and Utah entered legislation dealing with the subject but, like Wyoming and Arkansas, established no organization to conserve and develop its natural resources.

The survey shows that 73,000,000 trees were planted during the year and that the area of state forests was

### IT'S HOT TIME TO PICK YOUR WINTER FUR COAT

THE NEWEST CREATIONS of the style artists in fur appear with the thermometer's still at the top of the tube. These models forecast some of the trends in the furery creations American women will wear this winter. Left to right, Mary Phillips wearing brown karabel with blue and white; Jane Marlowe in her new coat of natural pony and brown Alaskan seal; Barbara Kent wrapped in a roan pony goat with red leather trimmings.

### SEVENTY-THREE MILLION TREES PLANTED IN 1926

Considerable Progress for Last Year Is Recorded in Annual Survey of Association.

WASHINGTON, Aug. 6 (AP)—Considerable progress this year in the enactment of forestry legislation is recorded in the annual Forestry Legislative Survey of the American Tree Association.

brought to a total of 6,828,936 acres, approximately half the land in tree planting, setting out 27,916,029, followed by New York with 2,500,000 and Michigan with 10,000,000. Pennsylvania also led in forestry appropriations, with \$1,203,485.

Charles Lathrop Peck, president of the association, in announcing completion of the survey, asserted that the "Mississippi-river-flood" has directed the attention of the nation as nothing else could to the need of preserving forests at the headwaters of the Mississippi and its tributaries.

"This phase of flood prevention, while it will not stop floods, will aid in preventing them," he said, "and is the only one I know of that will pay dividends in future years."

### MISSOURI RESIDENT PAID BONUS FOR PAST DEEDS

TOPEKA, Kan., Aug. 6 (AP)—Grateful to "Kansas" for "a bonus paid" in recognition of his military service in the World war, Captain Richard Whitcomb, although living in Missouri, has determined to remain forever a citizen of the Sunflower state.

Whitcomb, who is general commercial training supervisor for the Southwestern Bell Telephone company, comes home to visit and to help Kansas carry out its part in providing for the national defense. He is president of the Kansas State Military committee, a civilian organization devoted to encouragement of the national guard and the organized reserves.

Newsp Man Adds reach the people you wish to attract.

### FINANCIAL REVERSES HIT JAPANESE PEERS

TOKYO, Aug. 6 (AP)—A number of Japanese banks who formerly rode in high-priced automobiles and entertained lavishly are reported to be virtually bankrupt as a result of a money situation which caused the government to declare a three weeks' moratorium.

The suspended bank which caused most distress among the first families of the empire was the Fifteenth Bank, called the "peers' bank" because its depositors and stockholders numbered most of the peers of Japan. When it closed its doors many of the nobles, having all their money in the institution, went into temporary retirement. They are said to be in difficult straits regarding food and clothes.

Prince Matsukata, son of one of the veteran statesmen of the Meiji era, was managing director of the peers' bank. He has given part of his private fortune to help pay the bank's liabilities and has announced that he will surrender all of his wealth, if necessary, to pay the debt.

Prince Shimazu, head of another of Japan's oldest families and a heavy sufferer in the late succession, announced his intention of selling his palatial mansion in the suburbs of Tokyo, a mansion for his beautiful children. Prince Shimazu had deposits of 1,200,000 yen in the Fifteenth Bank and held stock amounting to about 1,000,000 yen in a dockyard concern. His financial straits, the Shimazu family fortune was once estimated at 20,000,000 yen.

OVER A YEAR OLD—AND STILL A YEAR AHEAD

## A Year Ago You Read—

"Whippet's advanced design will make millions of light cars obsolete"

More leg-room

It is inevitable that other manufacturers must eventually follow Whippet's example. The greater economy, greater safety of 4-wheel brakes, increased roominess, lower center of gravity and higher speed of this modern car were enthusiastically acclaimed by light car buyers everywhere.

Today Whippet enjoys the tremendous advantage of more than a year's lead. Its advanced design and up-to-date features have been definitely proved to more than 120,000 owners.

**A New Car Built for American Use and Sold at an American Price**

Open American roads—congested American streets—lowering American hills—trails deep with American sand.

Oakland engineers had them all in mind when they designed the new All-American Six—when they gave it American power and never-failing reliability—when they made it a car for the world to admire.

It's entirely new—new bodies—new chassis—new engine—new low prices.

New bodies by Fisher—fashionably smart—longer, lower and reflecting the best American traditions of motor car beauty.

In the new chassis—new length and strength from a longer, deeper frame—new comfort and high-speed roadability from a longer wheelbase (117") and a lower center of gravity.

And the engine—the largest used in any car of Oakland—priced at 212 cubic inches displacement—

78 1/2 lb. crankshaft—bridge truss crankcase construction for rigidity.

Oil, air and gasoline filters, new vacuum-type crankcase ventilation and gasoline pump to the carburetor for economy and peak performance. Oakland's rubber-silencing principle and the Harmonic Balancer to eliminate vibration. Never before such an engine! Prove it yourself at the wheel.

All America is enthusing about the All-American Six. Come in today—and join the crowd!
