DEATH LIST IN ZONE OF AFRICAN FLOOD RISES TO 500 MARK

New Reports Indicate Disaster in Algeria Was Worse Than First Supposed; Steady Rain Menaces Devastated Area.

(By The Associated Press) PARIS, Nov. 29.—Every new report from Algeria reveals that the floods thought to have taken 600 lives over the week-end, were much worse than were supposed at first. In addition hard and steady rains continued today to menace the devastated province of Oran.

The efforts of two generations have been wiped out, said Albert Sarraut, minister of the interior, today after receiving more complete reports of the situation. He estimated material damage at \$30,000,000, mostly at Perregaux, Magerat and Tisse. Many small villages, however, have been washed away entirely.

Although reports still are meager it is believed that the whole triangle of territory which has its summit at Mascara and its base between Tunes and Saint Denis, is paralyzed. The entire plain today was covered with mud and sand a foot deep and the deaths still were uncounted.

CARL MILLER LOSES LIFE IN RAILROAD CROSSING ACCIDENT

Prominent Man of South Idaho Meets Instant Death When Freight Train Strikes Auto on State Highway at Curry.

Carl J. Miller, of Castelford and Buhl, director of Twin Falls Canal company and former state representative, who had been prominently mentioned in connection with Idaho's governorship, was instantly killed at 11:40 P. M. yesterday when the automobile in which he was returning from Twin Falls to Buhl was struck by the freight train, four miles west of here, by a special eastbound freight train.

Mr. Miller's body was thrown clear of the wreckage and was hurled 45 feet from the crossing by the impact. Examination made at Twin Falls county general hospital showed that the skull had been fractured in two places, the lower jaw and third vertebra and four ribs and the right leg crushed. The body was removed last evening to the L. J. Johnson mortuary at Buhl.

Arrangements for funeral services had not been completed last evening but it was stated that the rites probably would be held Thursday afternoon at the Methodist church in Buhl under auspices of the Idaho county general hospital. The funeral will be held at the former home at Walls, Walling, Washington.

A preliminary investigation into the tragic accident was made yesterday by P. J. Orsman, coroner, who stated last evening that he had not yet received the body for autopsy. He said he would be guided by that regard largely by wishes of the family. It was known, however, that the body was being removed to the hospital for autopsy.

CHICAGO GANGS USE BOMBS; ONE DEAD

Windy City Police Charge War Between Bandits With Slaying and Trio of Explosions.

CHICAGO, Nov. 29.—(AP)—The Chicago police charged the war between rival gangsters with responsibility for one slaying and three bombings.

The body of Carmen Ferris, Chicago, was found at the corner of Benvenuto, Illinois, west of Chicago, with a bullet through his head. He was wearing a military uniform, was untouched through many of identification had been ripped from his clothing.

Police decided that Ferris had been "taken for a ride," shot through the head and his body dumped from a speeding gangster's automobile. Although his connection with the gang fight had not been made clear, a guard in the car was killed.

Three bombings were attributed to the quarrel over which gang shall rule the gambling, vice and bootlegging. One of the places bombed was a real estate office and soft drink parlor owned by John F. Remus, former state representative. Remus said he refused to buy alcohol from two Italian two weeks ago and attributed the bombing to this. One of the other places bombed was a west Madison street saloon.

IMPORTANT FACTS ABOUT THE NEW FORD CAR

*Complete details of the new model
will be available this FRIDAY
in this city*

FRIDAY of this week will unquestionably be one of the most important days in the entire life of the automobile industry. On that day, complete details of the new Ford will be available in this city.

You will be surprised when you get the facts about the new Ford car, for you never have dreamed that such a really fine car could be produced at a low price. As Henry Ford himself says—

"The new Ford car embodies the best results of our experience in making 15,000,000 automobiles. We consider it our most important contribution thus far to the progress of the motor industry, to the prosperity of the country, and to the daily welfare of millions of people."

The new Ford car is distinctly a new and modern car, designed to meet new and modern conditions. It is more than a new automobile. It is the advanced expression of a wholly new idea in modern, economical transportation.

*An entirely new car
in every respect*

The minute you see it—ride in it—you will realize that it is not a mere refinement of the former model T Ford, but a new car from radiator cap to rear axle! Many features of it are exclusive Ford developments. Some are wholly new in

respect, a new and modern
car, designed and created
to meet modern conditions.*

automobile practice. There is nothing quite like it in quality and price.

The new Ford car has unusual beauty of line and color. . . . It has a 40-horsepower engine. . . . It will do 55 and 60 miles an hour with ease and has actually run 65 miles an hour on road tests. . . . It is quiet and smooth-running at all speeds. . . . It is remarkably quick on the get-away. . . . It has specially designed mechanical four-wheel brakes. . . . It has hydraulic shock absorbers. . . . It has a standard, selective gear shift. . . . It is quick and easy to handle in traffic and steady and sure on the open road. . . . It runs 20 to 30 miles on a gallon of gasoline, depending on your speed. . . . And it has the stamina and reliability that you need for mile-after-mile and year-after-year service.

*The new Ford car will sell at
a surprisingly low price.*

When you think of such features as these, you think instinctively of a car costing much more than the new Ford. The low price is as unusual as the appearance and performance of the car itself.

The low prices of the six body types are undoubtedly lower than you thought they would be when you first heard that Ford was making a new car. They are, in fact, lower than we thought they could possibly be when we started to make this car.

We determined to bring new comfort, beauty, speed, safety, economy and reliability within reach of everybody who drives a car, and then forced ourselves to find ways to make the low prices possible.

The new Ford car is the result of years of careful planning. Every part of it has been tested and retested in actual practice. There is no guessing as to whether it will be a successful model. It has to be. There

*The new Ford has
unusual speed and power. It

hour with ease and has run 65
miles an hour on road tests.*

is no way it can escape being so, for it is the sum total of all we have learned about motor car building in the lifetime of the Ford business.

*Some of the features of the
new Ford car.*

In this connection we call your particular attention to the new engine; the new pump, splash and gravity oil system; the multiple dry-disc clutch; the new pump and thermo-syphon cooling system; the new battery, coil and distributor ignition; the low center of gravity and minimum unsprung weight which combine with the hydraulic shock absorbers to make the new Ford such an easy-riding car; the irreversible steering gear, with the column and the housing of the steering gear mechanism welded into a single all-steel unit; the seamless, all-steel torque tube; the new one-piece, welded, steel-spoke wheels; the three-quarters-floating rear axle in a forged-steel housing of exceptional strength; the theft-proof coincidental lock; and the aluminum pistons which were selected after many tests because of their light weight and heat-conducting qualities.

*"The new Ford car embodies
the best results of our experience in
making 15,000,000 automobiles.
We consider it our most important
contribution thus far to the progress
of the motor industry, to the
prosperity of the country, and to the
daily welfare of millions of people."*

Henry Ford

Steel forgings are used throughout except, of course, for the engine castings. More steel forgings, in fact, are used in the new Ford than in almost any other car, regardless of price.

WE ARE able to sell this new Ford car at a low price because we have found new ways to give you greater value without a great increase in our own costs. Because we own our own ore mines, coal mines and timber lands and the source of most of our raw materials. Because we make virtually every part used in the new Ford car. Because it is the Ford policy to make a small profit on a large number of cars, rather than a large profit on a small number of cars.

*There is nothing like it in
quality and price*

No other manufacturer can possibly duplicate the new Ford car at the Ford price because no other manufacturer does business the way we do. The public made this business possible. We believe we should share our profits with the public by continually giving greater and greater value for the money.

There are good and substantial reasons, therefore, why the new Ford car is the most unusual value ever offered in a low-price car.

By all means, learn about the new Ford on Friday when it is officially announced in this city. You will know then that there is nothing quite like it in quality and price.

AVAILABLE SUPPLY OF WHEAT LOWERS PRICE

Closing Quotations on Cereal Heavy; Corn Off; Oats Down; Large December Deliveries.

CHICAGO, Nov. 29 (AP)—Increasing estimates of the Argentine exportable wheat surplus and rapid piling up of the world available supply did much today to force wheat prices down.

An unexpected sudden downturn in wheat prices at Liverpool gave an early advantage today to the selling side of the wheat market here. Indications pointed to prospective large deliveries of Argentine wheat contracts at Liverpool, and it was stated that not only were Argentine offerings to Europe increasing but were also 3 to 6 per cent a bushel cheaper. On top of this came unofficial estimates that the Argentine yield of wheat this season would be 24,000,000 bushels, an amount materially surpassing the most recent previous forecast.

Argentina Has Surplus Toward the end of the day, suggestions current, as also that Argentina would have as much as 100,000,000 bushels exportable surplus, and it was announced that the world's available supply had increased 8,542,000 bushels for the week, making the Argentine surplus 24,000,000 bushels against 344,225,000 bushels a year ago. Under such circumstances and with fresh news being taken of the Argentine surplus moving northward to the seaboard, the market here finished but little above the day's lowest level. Evening up of December wheat contracts by active traders who were making replacements in May comprised a large part of the business. Export transactions from North America were slow, about 250,000 bushels all told.

Corn went lower with wheat. A forecast of colder weather has some bearing effect on corn, as being likely to promote hoarding and facilitate the movement of the crop. Some guidance of considerable demand from investors. Provisions were easier early but rallied despite low quotations. Some improvement was noted in the call for meat.

CASTLEFORD MEN FACE CHARGE OF GAMBLING

Officers Describe Raid; Defendants Deny Guilt and Say They Sold No Poker Chips.

The state had rested its case and the direct examination of the defendants had been completed in the prosecution of Council Kelley and Ernest McDowell, charged with gambling in McDowell's barber shop in Castleford, when court adjourned at 9:30 last evening. Kelley and McDowell denied the charge. They were found guilty in the probate court and November 10 appeared in the district court from there.

Witnesses for State

Witnesses for the state testified relative to the raid on the pool hall were Deputy Sheriff E. E. Prater and Charles E. Husted, Husted, Hurl chief of police, and E. E. Ulrich.

The substance of the testimony of the officers was that they went to Castleford shortly after 1 o'clock on the night of Sunday, November 6, and found the door to the pool hall fastened and that they could hear clicking like that made by poker chips inside but heard nothing else incriminating. As two persons inside arose to leave and opened the front door, Deputy Sheriff Jones blocked the door with his foot and told those who were coming out to go. The officers said they then walked quietly to where a game was going on and watched it for a couple of hands and then they passed. Finally one of the players looked up and said "Hello, Prater." Thereafter the players tried to push the chips together but were stopped. There was no money in sight.

Says He Bought Chips

Mr. Ulrich testified that he was in the game and that it was a regular gambling game. He said that he had \$2 for chips to Kelley and gave him a check. He paid 5 cents for white chips, 25 cents for red ones and a dollar for blue ones. He declared. All witnesses for the state were subjected to a vigorous cross-examination by E. V. Larson, attorney for the defense.

In his own behalf, McDowell testified to the effect that he had been running the barber shop for some time and as Castleford is only a small population, the boys congregate more or less in the pool hall and barber shop. Sometimes they play "treese cut," a game like poker, but never for money. On the night of November 6, a Castleford merchant got married and, when charivari was a dance in the town. About midnight McDowell and the gang went to his place of business. Some sat around and others played. He said that the door was fastened and the front door was closed with a bar put there by the owner to keep the door from blowing open. He said Ulrich wanted to get him to cash a check and he did not do it. Ulrich then spoke to Kelley who went off to cash it. He denied that the offer of the check to him was for chips or for any other contribution other than to accommodate him. County Attorney C. W. Williams cross-examined the witnesses closely. McDowell could not recall some of the alleged incidents. Asked if he knew one Ray Hager, one of the players, he did not recall. He said asking if it was "one-eyed guy." Asked if he did not hear Hager testify at the first trial that he bought chips from Kelley, Hager has gone to Arizona, and further examination along this line was stopped.

Kelley testified that he had cashed the check intended in evidence as an accommodation to Ulrich. He denied all sales of chips and denied that there was gambling. He said he had worked in oil fields of California some years. He has been around Castleford about a month, the evidence showed. He and McDowell denied collusion and partnership.

COUNCIL CALLS IN BIG WATERWORKS BOND ISSUE

Call was issued for \$375,000 waterworks bonds by an adjourned meeting of Twin Falls city council last night. Of these \$275,000 will be paid from a levy made for that purpose. The balance will be refunded through J. E. Edgerton and company, a Pocatello bonding house.

MAYOR BOBIER INDORSES CHRISTMAS SEALS SALE

R. E. Bobier, Twin Falls mayor, gave out last evening the following interview relative to health work financed by the annual sale of Christmas seals.

"I call upon all citizens to buy Christmas seals to the limit of their ability. The remarkable achievements of the public health movement which in the past 10 years has increased the average of human life by two and a half years prove the wisdom of the Seal sale and justify the maximum contribution on the part of every citizen, that this work may go on to greater heights and that every child born into the world in the future may look forward to a longer, healthier and happier life."

Check Artist Tells Officers That They Can Get Classification of Him in Many Places.

"Officers take up all my time finger printing me," laughed Kit Allen in custody on a bad check charge, as the police started to take the prints last evening. "And you don't need to do that to get my classification," he added, "as you can get it at Drummond, my home town in Oklahoma, in Oklahoma City, New York and other places."

Allen was arrested Monday for giving two checks against an imaginary fund in the office way. Last night Sheriff Rhodes at Rigby telephoned to Chief Leighton here, saying that Allen was wanted there and had broken jail Saturday while in custody on a bad check charge. Sheriff Rhodes said he had passed through here Monday on his way to Coeur d'Alene where he believed Allen had gone, but had not called the officers here. In Coeur d'Alene, Allen was arrested and had been after for a year and arrested there. He came back through Twin Falls Sunday, bought a News and brought the Gooding man to file with him. Looking over the News last evening he discovered that Allen was in custody here.

"I did not break jail," Allen said. "The sheriff let the door open, and I walked out. I could open your door, if I wanted to."

Whether Allen will be prosecuted here before returning to Rigby or not is unknown. He is about 35 years old and believed to be part Indian. He takes his inconvenience philosophically. "You folks acted too soon for me here," he told Chief Leighton.

WOMAN ASKS OFFICERS TO TELL BROTHER OF DEATH

Sheriff M. E. Finch received a letter from Mrs. James Renahall, 561 Reed street, Portland, Oregon, yesterday asking him to locate J. Cartwright and notify him that a death had occurred in his sister's family. Cartwright, according to the letter, is employed in a sheep camp in this vicinity.

THREE MOTORISTS FINED FOR CROSSING FIRE HOSE

Three motorists were fined in police court yesterday for driving their cars across a hose stretched by firemen yesterday at the roof fire at Jeps Jensen's residence, 40 Second avenue east. Milo Davis, who officers state was driving just a bit too fast, was fined \$15 for rolling across the hose. J. A. Brown of Castleford and W. M. Lerman were assessed \$5 each as a reminder not to drive over a hose when they next meet up with one.

Million Dollars for Idaho Bean Producers

More than \$1,000,000 will be paid to Twin Falls growers by the Southern Idaho Bean Growers' association this season, officials estimate. The second one cent payment on each bushel of beans marketed with the association has just been made, totalling more than \$400,000. Officials said yesterday that a third payment will be made about Christmas time.

WOMAN ASKS OFFICERS TO TELL BROTHER OF DEATH

Sheriff M. E. Finch received a letter from Mrs. James Renahall, 561 Reed street, Portland, Oregon, yesterday asking him to locate J. Cartwright and notify him that a death had occurred in his sister's family. Cartwright, according to the letter, is employed in a sheep camp in this vicinity.

THREE MOTORISTS FINED FOR CROSSING FIRE HOSE

Three motorists were fined in police court yesterday for driving their cars across a hose stretched by firemen yesterday at the roof fire at Jeps Jensen's residence, 40 Second avenue east. Milo Davis, who officers state was driving just a bit too fast, was fined \$15 for rolling across the hose. J. A. Brown of Castleford and W. M. Lerman were assessed \$5 each as a reminder not to drive over a hose when they next meet up with one.

Million Dollars for Idaho Bean Producers

More than \$1,000,000 will be paid to Twin Falls growers by the Southern Idaho Bean Growers' association this season, officials estimate. The second one cent payment on each bushel of beans marketed with the association has just been made, totalling more than \$400,000. Officials said yesterday that a third payment will be made about Christmas time.

MEMBERS OF HIGH SCHOOL LANGUAGE FACULTY MEET

Instructors of the language department of Twin Falls high school met at 4 o'clock yesterday. A discussion of tests and their administration was the main consideration of the group. Miss Eva Dungan reviewed an article on the subject of vocabulary drill which appeared in a recent number of the Classical Journal.
