LINDBERGH PLANS FOR JOURNEY TO MEXICO

Famous Aviator Undismayed by Reports of Poor Weather Conditions; May Fly in 10 Days.

WASHINGTON, Dec. 12 (AP)—Undismayed by reports of poor weather conditions, Colonel Charles A. Lindbergh pushed steadily forward today with preparations for his flight from Washington to Mexico City.

Senate Follows House Lead. Meanwhile the senate followed the lead of the house in voting unanimous approval of a congressional medal of honor, one of the nation's highest awards, to be conferred on the famous young aviator in recognition of his heroic feat.

At the navy department the flier supplied the hydrographic office with the necessary data for a comparison in order that the conditions predicted before the flight were being reported by hydrographic officials said that with the exception of about 700 miles in mid-ocean, Lindbergh's report of the weather had been much as forecast.

Lands on Potomac River. The new army plane of the amphibian type, one of the few classes of aircraft with which Colonel Lindbergh is not entirely familiar. Despite a muddy field he made a perfect take-off and after circling overhead made practice landings on the Potomac river, Washington, D. C.

Colonel Lindbergh is well satisfied with the overhauling of his plane. "The Spirit of St. Louis," he said "is in such perfect mechanical condition that I have no doubt of my ability to make no plans for extending my trip to Havana, Cuba, until after reaching the Mexican capital.

ARGENTINE WHEAT MOVING WHEN LOWERS PRICES ON MARKET

South American Crop Comes to Market Already Well Supplied With Relatively Large Stocks.

SALT LAKE, Dec. 12—Relatively large stocks of wheat in commercial channels, together with increased offerings of new crop grain from Argentina, weakened the wheat market during the week ending December 10 and prices trended downward, according to the weekly grain market review of the United States bureau of agricultural economics. Colder weather favorable for drying the corn crop, hands full of wheat, and the fact that Jimmy Walker, Danville Street, got his knees riddled with wheat, "kiss, tryin' to escape in woman's clothes."

With the commercial stocks of wheat in store in the United States, Canada and Argentina together with stocks on ocean passage totaling 50,000,000 bushels more than at this time a year ago and new Argentina wheat being offered freely for January shipment, the wheat market developed a weaker tone. Stocks in the United Kingdom are also larger, totaling about 9,000,000 bushels compared with about 3,000,000 bushels a year ago. Argentine wheat for January shipment is being offered freely in Liverpool at about \$1.42 1/2 per bushel compared with quotations of \$1.48 1/2 for Canadian No. 3 Manitoba. Liverpool prices, however, held steady with the December futures at \$1.52. Native wheat in the principal European countries also held practically unchanged except at Paris where native wheat was quoted at \$1.23 1/2 compared with \$1.50 a week ago and \$1.52 two weeks back. Prices at Winnipeg and Buenos Aires, however, were slightly lower and declines in these markets were reflected in slight decline in United States futures.

MEMBERS OF SHIPPING BOARD RESIGNED POST

Other members of the shipping board expressed themselves as being "a victim of unfortunate circumstances." They called a special meeting of the board and announced that a plan up of the board is contemplated and that Mr. Hill's displacement was the president's first move toward getting rid of members who did not follow his wishes in the management of the merchant marine.

the grand jury session which will commence January 9.

Prosecutor Seth Paulson said he would not summon a special session. This means the girl's trial will get under way early in February.

After the hearing Paulson issued a statement that he would appeal to the common pleas court tomorrow for a writ of habeas corpus which would admit Mrs. West to bail.

Mrs. West, called to the court ordered to stand, coming into the packed court from the same noble expression that has marked her since her arrest in Cleveland last Wednesday, without making an eye, she sat through the testimony of five state witnesses, some of whom described the details of how she beat her young husband to death with a hammer after a quarrel.

But when Judge Paulson ruled she must stand trial on the first degree murder charge, with the hazard of the electric chair before her, she sprang from her seat and defame table with a piercing scream, and slid to the floor.

Before restoratives could be administered she rallied. Rising to her feet she again was swept by a wave of hysterical sobs, and, continuing, "This time I was several minutes before she gained consciousness. Later she went back to her cell."

On the roll call only one democrat, Blaise, South Carolina, joined with 20 republicans in voting against a continuation of the committee's authority. Sixteen republicans and the one farmer laborer, Minnesota, cast their votes with 41 democrats to reassert the authority of the committee.

Heavy Corn Receipts

Receipts of corn in the principal markets were more than 2,000,000 bushels larger than during the previous week. The increase was principally in the southwestern market but with colder weather favorable for drying the crop, a larger movement is expected and the market lost some of the recent advances. Reports of a heavy quality of corn were partially confirmed by private estimates which now place the crop about 100,000,000 bushels, below the November 1 officials estimate. Demand has held quiet active, however, and stocks in the markets have shown no material increase during the past several weeks. Elevator interests have taken good amounts but eastern buyers in the central west and in the Pacific coast have also taken good amounts. New corn is not comprising the bulk of the trade in most of the central western markets and the best quality of the new crop is selling within a few cents of the best quality of the old crop grain.

At Chicago the old crop grain of the lowest grades is selling 6 to 8 cents over the new. No. 6 mixed being quoted at 8 1/2 to 7 1/2 cents under the December price (premium) 2 1/2 cents under a good crop. No. 2 yellow corn was quoted at 81 1/2 to 91 1/2 cents at Chicago and No. 3 yellow at 85 1/2 to 86 cents and No. 3 low at 81 cents per bushel.

Weather Lowers Receipts

Below wintry weather in the north-west reduced receipts of cash grain, primary receipts in the domestic market dropping off around 2,000,000 bushels from last week's movement. Light offerings of good looking wheat caused some advance in prices, but volume and it is doubtful whether larger offerings could be absorbed at the higher prices. At Minneapolis 13 per cent protein No. 1 dark northern spring was quoted at 21-22 cents over the December price, which closed December 9 in that market at \$1.25. Fourteen per cent protein for the same grade brought 11 to 14 cents over the December price. At Kansas City, the December price for No. 3 hard winter wheat was quoted at \$1.59 to \$1.65 compared with a quotation for No. 3 hard winter wheat at \$1.40 to \$1.45, the Winnipeg cash market declining more than the futures during the week.

Duluth offerings were very scarce and premiums were advanced about 5 cents at Duluth but held steady at Minneapolis. No. 1 amber durum was quoted at Duluth at 30 cents over the December price which closed at \$1.20 1/2, practically the same as at the close of the previous week. No. 1 amber durum at Minneapolis sold at 28 cents over the Duluth December price. Hard winter wheat markets were rather irregular. Local mills were the principal buyers at Kansas City while non-western mills were taking moderate amounts at Wichita. Eastern demand was increasing at Omaha. Twelve and one-half per cent protein hard winter wheat was quoted at Kansas City at 14 to 16 cents over the December price which closed December 9 at \$1.25. In that market. Export trading was of small volume, bids ranging around \$1.45 delivered truck. Gulf ports for No. 1 hard winter wheat, No. 2 hard winter was quoted at Omaha at \$1.25 to Chicago, \$1.31, and St. Louis \$1.26. Soft winter wheat held at substantial premiums over the hard wheat with offerings in the principal markets below current requirement. No. 2 red winter was quoted at the close of the week at St. Louis at \$1.40, Chicago \$1.40, Cincinnati \$1.41 1/2 to \$1.37, and Toledo \$1.39 1/2 to \$1.40. Pacific wheat markets were practically unchanged.

There was a good demand at Los Angeles where Bart wheat was quoted at \$2.30 per 100 pounds. The market at Portland was rather dull with exports generally out of the market because of the limited export demand. Both and western white wheat were quiet in that market at \$1.27 to \$1.21. Large quantities of wet wheat was still available in that market but this is moving rapidly.

Have You Received Your Invitation Yet to This Stag Party for Men Only?

I haven't, and I can't figure out why, if there's anything I like it's a nice warm room, good smokes, a bunch of good fellows together, floors you can throw matches and ashes on and some good jazz music that makes your feet tingle. And here I've spent more good time and anxiety on this party than any one else and not even an invitation. Well, I'll bet this is the last "Teaser Ad" I ever fall for. I'm going to start bridge lessons tomorrow.

Your Detective has ascertained the following facts:

1. Men only.
2. Free Smokes for Everyone.
3. Big Jazz-Orchestra entertainment.
4. Prohibition Agents invited if they'll behave.
5. You won't have to shake hands with Santa Claus.
6. I'm not invited.

CANAL BOARD HEARS TENTATIVE DATA ON LOWLINE DROP LEASE

Engineer Stoutnour to Make Formal Report Soon; Buhl Meeting Hears of Plan and Asks Questions of Speakers.

The Twin Falls Canal company directors met yesterday to discuss the proposed leasing of the lowline drop to the Murtaugh irrigation district. The board heard a report from Engineer Stoutnour, electrical engineer of Redlands, California, who is here collecting data for an estimate of value of the power generated at the drop. Only tentative figures were given, and no recommendation was made.

It was agreed that the sale value of potential power depends upon the terms on which it can be sold or the use that may be made of it. The engineer will make a more definite report within a few days. Mr. Stoutnour served for eight years on the public utility commission of Utah before leaving Salt Lake for California.

There was a large meeting of stockholders held at Buhl Saturday night under the auspices of the Pomona grange, at which the proposition to lease the drop was discussed at length without definite action being taken. Attorney Shad L. Hodgin, attorney for the Murtaugh district, and D. W. Stuver, representing the Puget Sound Bridge and Dredging company of Seattle, explained the proposition which had been made by the canal company. Many questions were asked and suggestions made. Judge James R. Bohlert, attorney for the canal company, was asked about a number of legal matters involved.

Will Get Out Report
As soon as the Stoutnour report has been received the canal board will issue a pamphlet setting forth all the facts obtainable including a summary of the legal issues involved.

Merrill, J. E. Tomlin, J. H. Collins, F. E. Pond, H. M. Hines, R. Werner, C. Jones, H. B. Smith, F. Flanagan, J. S. Feldman and U. N. Terry.

The probable lineup for the Junior high school is as follows: Jim Weaver, Ronald Tyler, Elmer Givens, Glenn Moon and Grey.

of Agricultural Products," by R. E. Shepherd of Jerome, chairman of the Federal Reserve Bank at Spokane, and "Credit for Products of Agriculture Stored in Bonded Warehouses," by F. J. Burch, president of the Burch-Walsh and Storage company of Pueblo, Colorado.

Work of the Intermediate Credit bank will be discussed by W. H. Gibson, manager of the Spokane bank, and reports on warehouse and storage facilities in the Idaho territory will be given by state chairman.

The meeting on Wednesday will open at 9:30 a. m. with an address by W. H. Gibson, president of the Twin Falls Chamber of Commerce, and will continue throughout the day. All sessions will be held in the Elks' hall.

The board's executive committee, at a meeting here Tuesday afternoon, will among other things, elect a chairman for the coming year, and W. H. Gibson of Boise, who was last April elected general chairman of the board.

The Twin Falls meeting is the third meeting of the board to be held in Idaho and will be perhaps the most important meeting affecting agriculture to be held in Idaho during the coming winter months. The people of Twin Falls have arranged a program of entertainment and luncheon to be held in Idaho during the coming winter months. HOLIDAY GREENERY DISPLAY APPROVED

Council Takes Action for Lamented Post Decorations; Warning not to Hook on Autos Given.

Authorization for purchase of trees to decorate the danger posts in the four blocks around Twin Falls principal intersection was voted last night by the city council. The cost of the trees, estimated at \$25, was approved. The mayor and members of the council had the Christmas spirit and agreed that the decorations would add much to the attractiveness of the town. This, with the tree for the park put in under the direction of the town engineer, which the council agreed, would give a holiday air to the Yule-tide season.

Police Pay Double For Jug of Moon

This time it was the Twin Falls police who had to pay. The police have a standing offer to the youth of Twin Falls of a reward of two-bits for bringing in information regarding a booze cache within the city.

Monday afternoon two boys appeared at police headquarters and asked if the reward was still open. They were told that it was, and they were given a jug of moon.

G. Tomita Claims C. F. Johnson Misrepresented Facts to Him About Spud and Onion Seed.

Suit for \$17,771.86 was instituted in district court here yesterday in behalf of G. Tomita, by his attorney, T. E. Beckman, against C. F. Johnson, for losses which he alleges to have sprung from misrepresentations and illegal acts on the part of Johnson. Sheriff M. E. Finch was appointed receiver pending trial of suit.

Claims Heavy Losses
Tomita claims that he farmed land under the control of Johnson and bought from him 100 sacks of Earl-st of all potatoes; 300 sacks of Canadian Gem; 100 sacks of Burbank and 100 sacks of Idaho Russet to plant on his land with the understanding that they were certified seed. He says that instead they were diseased so badly that he could not sell the product.

You, too, will find that LUCKY STRIKES give the greatest pleasure—Mild and Mellow, the finest cigarettes you ever smoked. Made of the choicest tobaccos, properly aged and blended with great skill, and there is an extra process—"IT'S TOASTED"—no harshness, not a bit of bite.

Eddie Dowling, Noted Producer and Stage Star, writes:

"Honeymoon Lane" has just broken the thirty-three year record of The Knickerbocker Theatre.

"The role of 'Tim Murphy', in point of the amount of singing and speaking I have to do, is the most exacting I have ever taken, and smoking, as I do, fifty cigarettes a day could never be indulged in but for the non-irritating, soothing, quality of 'Lucky'.

"In more than a year of continuous playing in 'Honeymoon Lane' I have not missed a single performance and I have never been so free from throat irritations as I have been since smoking Lucky Strikes."

WEATHER FORECASTING STATION FOR BURLEY

BURLEY, Dec. 12.—Receiving and broadcasting stations for forecasting weather reports will be established at Burley and Strevell, and the Varsity air line between Salt Lake and Boise. W. E. Kline, representing the federal department of commerce, spent Saturday in Burley, looking over the site for the installation of the station here near the Burley landing field. The station will be installed at an early date, and it is proposed to keep a competent radio operator on duty permanently. Air mail lines now follow the railroad closely located from Idaho, it forming an ideal guide during rainy or cloudy weather.

GRADING OF RACE HEAD DEFENDS YOUTH

Dr. Charles Wesley Tenney in Address Here; Points to Advance in Work of Churches.

Dr. Charles W. Tenney, president of Gooding college, who is representing the Methodist board of education in all the eastern Oregon and southern Idaho churches, was in Twin Falls yesterday. Dr. Tenney, in his address, argued that the world is getting better rather than worse, that the young people of today are the best and most progressive in the history of the world and that they will continue to step up to the mark of their parents, teachers, preachers, and others have in them.

After comparing present day conditions with those of the good old prohibition days, Dr. Tenney quoted figures furnished by the Methodist board of education to show that the work of the prohibition church is not on the wane. "For example," he declared, "the enrollment by the Methodist Sunday school has increased 30 per cent, and the average attendance 30 per cent since 1908, while the population of the United States has increased only 10 per cent."

During the same period the young men and women at Gooding college have held 144 institutes with 40,000 in attendance and have issued 30,000 certificates to those who completed the course.

Besides caring for 100,000 students at state universities, Methodism maintains 39 secondary schools, 49 colleges and 44 institutions with 400,000 in property and \$64,000,000 in endowment, which colleges have

OIL CASE CONTEMPT HEARING UNDER WAY

(Continued From Page One)

To a question by District Attorney Gordon he said emphatically that it was not his intention to sue the agency and for years had only advised his sons in his management. Ruddy and the other witnesses were not aware of the surveillance of the jury until after a mistrial had been declared in the case.

While the prosecution continued to introduce reports of detectives in the conspiracy hearing, Senator Walsh, democratic Missouri, asked the senate to take steps to enable the government to get the testimony of M. T. Everett, son-in-law of Albert B. Fall, former secretary of the interior. Everett refused to testify at the trial in October on the ground that his testimony might incriminate him.

Senator Walsh introduced a bill to reduce from six to three years the term of the clerk, terms, each under the fraud cases. Everett, it was charged by the government, delivered to Fall \$20,000 in Liberty bonds which the government attempted to prove came originally from Sinclair.

WHEAT VALUES TEND DOWN; OATS SHADE UP

Increase in United States Visible Supply not as Large as Expected; Exports Slow.

CHICAGO, Dec. 12 (AP)—Influenced by the fact that a decrease shown in the United States visible supply was not as large as expected, wheat values declined today.

Visible Supply Falls Off. In connection with 2,223,000 bushels falling off today in the domestic wheat visible supply total, it was estimated that the decrease still leaves the aggregate supply at 88,813,000 bushels against 68,152,000 bushels last year.

On the other hand, it was current talk that 75,000 bushels of hard wheat for export is being loaded out for all-shipments to New Orleans from Chicago.

Increasing receipts of corn both here and at Kansas City and Omaha, exerted a depressing influence on the corn market, and likewise did better weather.

Provisions were responsive to a downturn in hog values.

NEW HIGH FOR STERLING EXCHANGE ESTABLISHED

NEW ORK, Dec. 12 (AP)—Establishment of a new high since December 14th, by sterling exchange and gold movements in stock prices divided speculative interest in today's markets.

Upon more mature consideration of the federal court decision in the St. Louis and other cases which involved the determination of methods regarding railroad valuations, Wall Street was inclined to take a more hopeful view than the final adjudication of the suit by the United States supreme court would uphold the railroad's contention or that changes would be made in the transportation act itself.
