ment before though larger than in previous years, employment showed a slight decline for the first time in the history of the bureau.

The bureau's statistics show that the number of industrial workers decreased by 10 per cent in 1927, while the number of non-industrial workers decreased by 12 per cent.

Under the heading "industrial activity," the report states:

"In all industries, industrial production declined steadily after April, falling in July below the level of 1926 and after October below the level of 1925."

To popularize this slogan, Hugo Hirsch, composer of the music in "Iola in Love," wrote a marching song, "Everybody Once in Berlin," which you've been in Berlin, you'll always come again."

Some 5,000 bands throughout Germany have promised to play, "Iola in Love" at the end of the year, and every German phonograph company has complete figures, available in smaller cities, in any month since November, 1924.

BERLIN, Dec. 31.—(UPI)—What shall become of the 800,000 students in Germany now that they have been admitted to universities? This question is giving grave concern to German faculties.

Never before has so high a percentage of the population been enrolled in higher institutions of learning, and it is expressed that there may not be enough jobs to accommodate all the various professions chosen by young men.

In addition to learned professions, such as the medical and the legal, public appeals have been issued to prospective students not to enter those branches that offer the chances for making a comfortable living are meager.

BERLIN, Dec. 31.—The German stork who carries the one-child system, bringing babies, trinkets, and even quadruplets to 15,000 families, according to statistics just published for 1925.

Of the 15,000 pairs of twins, mixed twins were most frequent with boy twins second. But the stork equalized that by bringing three girls to forty-four families and boy triplets to only thirty-two families.

Two homes received families of an old fashioned size when they were blessed with quadruplets, in one case

with triplets.

HIGH PRICES LURING WOMEN TO SHOPS IN OPINION OF BACHELOR

Bargains Are Not Only Thing That Draw Fairer Sex's Attention

gle Judge; Men are Similar.

(By The Associated Press) LONDON, Dec. 31.—The bachelor's opinion of shopping, Mr. Justice McCordie, London's bachelor judge, held that women are more lured now by bargains than by anything else.

Men, too, like buying expensive things, the court pointed out during trial in King's bench division of a firm's suit against a woman who contracted for a lot of fashion clothes for which she had never paid.

"I really believe that if champagne were six pence a bottle," remarked the judge, "tomorrow far less of it would be sold." The bachelor's opinion of shopping, Mr. Justice McCordie, London's bachelor judge, held that women are more lured now by bargains than by anything else.

Justice McCordie discussing the attraction of high prices with plaintiff's counsel freshly suggested that women favor coats chiefly on account of their cost.

"Women can afford it," commented the judge, "usually buy cloth-

ing on the first point that it would be expensive. It seems to me."

Justice McCordie went on to say that he would be surprised if women greatly surprised to hear of the enormous cost of buying silks for skating.

"I suppose," he added, "that it is the desire of one to have the best fitting and comfort which is supposed to attract the women so much."

WINTER TIME HIKING PROVES PAINFUL FOR YOUNG DODGE WOMAN

Striking Events in History of Twin Falls During 1927

Coldest Day Bring Aches, Bites to Feminine Walker on Road to Pocatello.

Perils of "hitch hiking" in the winter have become painful, apparent to a young Dodge woman whose husband was taken aboard a moving automobile about a mile east of Kimberly yesterday forenoon after she had been walking for a number of hours while walking about a mile on the highway. The young woman was taken to a farmhouse near Muriel where snow and cold water were applied to her feet and feet were wrapped in pullover-cotton stockings. Full county commissioners met in the day advanced their railroad fare to her destination at Pocatello. She wore only thin slacks and stockings.

The young couple registered Friday night at a hotel here, giving the name of Mr. and Mrs. Pailey of Boise.

They started early this morning they said from Boise going to "Pocatello white Pailey expected to obtain employment in the railroad shops. They were last seen at the station on the way from Boise to Twin Falls, and returning their trip yesterday morning with mercury four below zero they were found in Kimberly. Setting out on foot from Kimberly, they walked only about a mile when pain from freezing of her feet made them unable to walk.

The wife at the roadside until Ivan G. Lincoln of Twin Falls, traveling in an automobile to his ranch at Muriel, stopped and took the aboard. The woman was in poor condition, Pailey carried a heavy suitcase.

Mrs. Pailey made no objection when Mr. Lincoln advised them to abandon the automobile and walk to Pocatello, where attention was given her frostbitten feet at the farm home of W. R. Sicus.

The commissioners advanced funds for the purchase only of the woman's ticket to Pocatello. Pailey was left to continue the journey about, if lie so desired.

CHICAGO MUSIC STUDENT HONOR GUEST AT PARTY

Miss Charlotte Vogel, a student at the College of Music at Chicago, who was guest of honor at a fancy dinner at the Hotel Idaho Saturday afternoon. A number of Mrs. Culbert's advanced pupils attended the party.

After a good-time session during which many musical pieces were played, Miss Vogel gave a talk concerning the life in the college of music, and told of numerous operas which she has seen in Chicago. At the close of the talk, the students gave Miss Vogel a vote of thanks. Four selections were played by Miss Vogel—illustrated points in her talk.

After the dinner, a musical program was served to the guests at 5 o'clock.

Those present were: The Misses Grace Basile, Ruth Lister, Carol Clark, May, Clara Bow, C. Johnson, Thea Jenkins, Marguerite Kennedy, Marucette Ward, Alain Calme, Dorothy Provat, Elizabeth Bonwell, Ben Smith, Marion St. John, the Team, Cleo Hitchey, Charlotte Vogel and Alice Garhart.

CHEVROLET

**Bigger
and
Better**

**See the
New Chevrolet
now on display!**

Today, Chevrolet presents the crowning triumph of sixteen years' continuous progress—a great new automobile so impressive in appearance, performance and sturdiness that it marks the opening of a new era of luxurious transportation at low cost.

Built on a 107 inch wheelbase—4 inches longer than before—the Big and Better Chevrolet is impressively large, low and racy. Its new Fisher Bodies are finished in new Duco colors and offer rich new upholstery and handsome appointments. Its improved valve-in-head engine has numerous impressive features such as alloy "Invarstrut" camshafts, hydro-laminated camshaft gears, mushroom type valve燕appets, AC oil filter and AC air cleaner. The chassis also has been redesigned. As a result, the new Chevrolet provides delightful smoothness throughout the entire speed range—a wide margin of power for hill-climbing.

Come in—see the car—and learn how Chevrolet has again electrified America by creating a bigger and better motor car and offering it at prices so low as to be actually amazing!

Every feature of advanced design demanded in the finest cars now offered in the New Chevrolet! Read this partial list.

It's the
Man That
Pays

and Pays—and Pays

The sad, sad story of a young bachelor who becomes a father the day before his wedding. And it costs him plenty! Every time he digs into his jeans, you get a million-dollar worth of laughs. It's always a big give, but one whopping round of laugh after another.

GOOD LUCKS

Another Year of Life

RICH in rewards, and to be heightened perhaps with just the right amount of tribulations.

On 1927's accomplishments rests the possibilities for this new year, and thoughtful Americans will profit by last year's experiences.

Science and invention and the broader intelligence of man has made this a better world in which to live and made in fact 1927 a year of harvest.

The harvest of one year carries over to the next—that is the law of each individual. Provident Americans will see that their storehouses are filled now with what 1927 produced. And with the same spirit they will see how much 1928 can be made to bring them for the next year.

Happy New Year—to you and yours. May your Dreams come true, not by idle coincidence, but by honest thinking, conscientious effort and the laws of the Golden Rule.

QUOTATIONS ON GRAIN

TAKE UPWARD TREND

Upturns in Liverpool Wheat
Followed Promptly by Advances on Cereal in Canada

wheat, and to possible serious crop damage in domestic winter wheat territory. Citing quotations on wheat were unsettled at the same as yesterday's "final" at the exchange, contracts were up 1 cent, carrying from 1¢ decline to 1¢ advance and provisions unchanged to a rise of 2¢.

Upturns in Liverpool wheat today were followed promptly by advances in Canadian cereals, which had been fought for transoceanic shipment. Stimulating effects on the wheat market, meanwhile, were noticeably emphasized by word of the winds in Canada, which called about drift, leaving many fields virtually bare of any protective covering and subjected to sub-zero weather.

End of the year trading in December wheat was very active shortly before the close the December price advancing to 2¢ under May. Related efforts to get wheat to fill December contracts had caused the bulge, but when these were answered by a return back to about 4¢ under May, premiums continued strong for all good milling grades of wheat.

Heavy snows throughout the country have delayed the movement of corn to market and to change feeding demand. As a consequence corn values advanced rapidly with strength in wheat a factor in the firm. Sympathizing with other grain.

Pravitions were responsive to weather conditions which were indicative of a falling off in hard arrivals. Some improvement was noted in cash demand for large stocks.
