

'FOX'S' CONFESSION AGAIN BEFORE JURY

REALISTS TEST

Youthful-Slayer-Admits He
Knew the Penalty for Murder
and Kidnaping Before Taking
Little Parker-Girl's Life.

(By The Associated Press)
LOS ANGELES, Feb. 6.—William Edward Fox, 21, who was charged with the kidnaping and murder of nine-year-old Marion Parker, admitted today that he knew the penalty for murder and kidnaping before taking the girl's life.

He was asked by the jury if he knew the penalty for murder and kidnaping before taking the girl's life. He answered "Yes."

He also admitted that he knew the penalty for murder and kidnaping before taking the girl's life. He answered "Yes."

Saves drayage!
Mrs. D. W. LUKE of Medford is pleased: "I used your material last year and obtained very good results; in fact, just as good as the liquid material even given me—I used the strength recommended by the company. The fact that I could haul your material out in my car and thus save drayage and had no barrels to return, was a decided advantage to me."

Better than liquid!
Mr. T. W. SCOTT of Medford, Oregon writes: "For the last three years I have used S-W Dry Lime Sulfur for the control of San Jose scale. I have been getting good results with 30 lbs. of powder to 200 gallons of water spray on conditions using the dry lime sulfur as my control of scale has been better with the powder than with the liquid. I have experienced no difficulty in dissolving the material or of clogging strainers and no burning has been a convenience and a time saver, and I feel the net cost is no more than the liquid."

Secures 100% control!
Mr. W. E. SHERMAN of Hood River is an enthusiastic user: "In the fall of 1926 I discovered that I had San Jose scale in my 40 acre apple orchard. In the spring of 1927 I applied a dormant spray of lime and sulfur, using S-W Dry Lime Sulfur; 25 lbs. to 100 gallons of water, with 100% control of the scale. I prefer using the dry material on account of time saved in applying the spray and had no trouble whatever dissolving the same."

SHERWIN-WILLIAMS SPRAY MATERIALS

SPORTS

IMPORTANT CHANGES IN 1928 GRID CODE

making a forward pass, who has crossed the line of scrimmage may interfere with an opponent until the ball has been touched, thereby doing away with what the committee believes has been unfair blocking and checking to screen the pass receiver by players who have not yet touched the ball.

These were the only changes effected by the rules committee, which in its week end session at the Seaview club at Absecon, N. J., rejected several other suggested alterations on such of the goal posts as may be used in the national game.

SECOND DO-NUT TOURNAMENT OPENS WITH DOUBLE BILL

Members of the Seaview Club are closing their season with a double bill of do-nut tournaments.

The Musketeers defeated the Engineers by a score of 50 to 4, and the Engineers were victorious over the Gophers by a score of 10 to 0.

Pacific Coast League Adopts 1928 Schedule

San Francisco, Feb. 6 (AP)—Directors of the Pacific Coast league today adopted a schedule for 1928, meeting in a special session at the city's hotel.

The season will be split in two parts, the first part opening on April 3 and closing on July 1. The second half of the season will also open on July 3 and close on October 4, with the championship play, which will be held at the home of the winners starting on Oct. 10.

alterations in rules designed to correct abuses and confusions: Passes Involved.

Two of three changes made, those affecting the lateral pass, and limited punt, represented a compromise with the opinion of a majority of college football coaches, who at their bi-monthly meeting, went on record as favoring a return to the 1926 code of these points.

This point of view was met before the committee by the newly appointed advisory group of three coaches—Kaulea Rockie, Notre Dame; Hugo Berdek, Penn State, and Bill Spaulding, University of California, southern branch. In addition to their criticism and modification of the rules, they also urged that the lateral pass be allowed, but not advanced beyond the kicking line.

That either a muff or fumble of a punt may be recovered by the kicking side, but not advanced beyond the kicking line.

That no player on the side

Expressing faith in the people of Twin Falls, the directors of the Twin Falls club in the Utah-Idaho baseball league, have decided to enter the Bruins in the 1928 season.

The directors' impression last night started plans for the financing of the club this year.

A definite proposition was wired to Phil Legend in California to become the pilot of the Bruins as the first step in the organization of the club for the season. With seven players and local fans all paid for, the directors felt that everything pointed to a prosperous season. The ruling of the league directors at the Oden meeting last month allowing each club to keep its home gate receipts was a big factor in the decision of the local directors to continue the Bruin club. Figures from the past two seasons demonstrate that if this rule had been in effect during the past two years the Bruins would have been at least even financially.

One week stands will be played again this year and the only difference will be that ten clubs will take all of the "extra receipts" from the games and stand their own expense on the trips away from home. Twin Falls was the second club in the league in the point of attendance last year being exceeded only by Idaho Falls. Very little money will have to be spent in the way of equipment this season as the uniforms, bases and catcher's equipment is already purchased.

Annual meeting of the league directors will be held in Idaho Falls next Sunday. Final arrangements will be submitted for consideration of the league officials. It is probable that the schedule will also be ready for approval of the league soon. The season will open May 14 and a schedule of 120 games will be played.

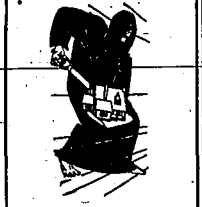

TRAP SHOOTERS LAUNCH SEASON WITH PRACTICE

Less than a dozen shooters were on hand for the opening spring practice shoot at the Twin Falls Rod and Gun club grounds Sunday. High score in both singles and doubles went to E. Patrick, with Bill Bailey a good second and Harboure and DeKloiz third and fourth place respectively.

Weather conditions were good but the state of the roads leading to the club grounds were probably responsible for the small attendance. Shoots will be held weekly hereafter.

The following scores were made:

Shot	At	Hit
DeKloiz	100	81
E. Patrick	75	72
Cerrilla	75	39
J. Patrick	50	38
Bailey	50	36
Schneke	25	19
Read	25	13
Thompson	25	38
Fenney	50	14
Pellyjarov	50	14
Harbour	75	68
Doubles		
DeKloiz	24	14
E. Patrick	24	16
Read	24	10
Thompson	24	16
Harbour	24	18

FLOWERS FROM TOMBS
Hesperian botanists have planted seeds taken from an old Etruscan tomb, deposited there long before the days of Columbus, and these seeds have grown and blossomed.
Similar experiments with seeds found in old Egyptian tombs have never succeeded. One success of this kind has followed the digging of an old city near Cairo. We may yet have flowers, grains and fruits produced from seeds buried in long-forgotten tombs of Peru, Mesopotamia, China and other seats of long-dead civilizations.

Aside from the romance of such restorations, it would be interesting to see for ourselves the living things cultivated by those long-vanished races. We should find, no doubt, some primitive forms of tubers, yams, potatoes, etc., which have been developed to a high degree of perfection. We might find some varieties now extinct, and have the pleasure of restoring them to the world. There is doubtless a limit, however, to the life of even the hardiest seed, preserved under the most favorable conditions. Only one kind of seed may be depended on to last as long as civilization lasts. That is mental seeds—ideas.

CROWDING BABY OUT
Santa Cruz, California, is none of our business. But there is the inalienable right to criticize, provided it is done in the pursuit of providence. Here is an edict that stirs emotions. A baby carriage no longer will be allowed on the highways south of Santa Cruz.
Since when has a baby carriage, containing a baby, of course, lost its constitutional and sentimental right to appear anywhere, in any city, in free America? Authorities of Santa Cruz point to an old ordinance that has been lying dormant for fifty years. They ought to put it to sleep again. With a hurried look we would stand aside to let the baby pass safely. Every baby is the inheritance of the world. It is his until he outgrows his title. Santa Cruz authorities may not know this. If they did they would not resort to such an ordinance which to crowd baby out.

NEW MEASURES FOR OLD
The days of the ancient past, the golden and the pound are numbered in this land, in the opinion of Professor A. E. Kennedy of Harvard. They have tough constitutions and no end of stubbornness and will die hard—they cannot forever withstand the assaults of their younger and more efficient rivals, the meter, the liter and the gram. Writing on the metric system in the Scientific Monthly for January, Professor Kennedy does not venture to predict just when the old standards of measurement will give way completely to the new, but he shows that the process of transition is already well advanced. The metric system, with its convenient decimal parts, is now used in practically all scientific work in the United States and is gradually finding its way into everyday language. The soldiers came back from Continental Europe after the war with their hands on the metric system, kilograms and the like. Professor Kennedy calls attention to the fact, which most of his readers have forgotten, that in the only two countries, the only two countries which still cling to

their ancestral yardsticks, there is by no means complete uniformity of measurement. He names fourteen units which have different meanings in England and the United States. These are: the hundred weight and ton, which in the days are long in England and usually short in the United States; the bushel of dry measure; the minim, dram and ounce of apothecaries' measure; and the full pint, quart, gallon and bushel of liquid measure.

Queen Anne, while the British Empire changed long ago to the imperial gallon, which is about twenty per cent larger.
The country, having already a decimal monetary scale, is likely to adopt the metric system before England and her dominions do. No one will deny that this is a good thing.
The metric system is a whole lot more desirable. Yet the race as a whole is slow even to grasp benefits if the grasping is attended with a little temporary inconvenience. The twentieth century king who save his subjects for a measuring rod a piece of wood that reached from the tip of his nose to the end of his thumb never dreamed how long they and their descendants would be satisfied with it.

The Colfax Bookplate
AGNES MILLER
"On examining the bookplate on this copy of the book, I was struck by the subject that bore the same pattern—mixture of course—as the arrangement of these sixteen bills you see on that paper. I took the subject as a model of logical instrument. As it was on a table with others I could identify each of the sixteen bills. This instrument had sixteen slots, six down the center, and six on each side of the central row.

CITY WILL PUNISH THOSE DESTROYING LIGHTS ON BRIDGE

Shoshone Street Structure Is Said To Be Dark Due To Marksmanship of Miss Gault; Many Reports Are Filed

Twin Falls city council last evening made an appeal to residents of South Park and others specially benefited by the maintenance of lights on the Shoshone street bridge to assist in the arrest and prosecution of anyone who finds diversion in the frontier pastime of shooting them out. No formal resolution was passed, but members of the council pointed out that the offense constituted violation of several laws, and pledged the city to prosecute those guilty of the offense. There are now no lights left on the bridge. It is stated.

Traffic Ordinance Goes Over
The traffic ordinance went over for another week after considerable discussion. The question whether 15 minutes parking time would be sufficient during the closed hours between 2 and 5 p. m. was considered, without determination. Harley Rayburn, superintendent of streets, said lack of modern sewer system was responsible for much of the present difficulty. "We are not parked in front of hotels or elsewhere and the streets washed, those whose cars are spotted often come down and protest," he said.

Requests Check Reduction
The International Paper company of Denver reported that all of the 2,277,000 waterworks bonds refunded had been called in except about \$20,000 and wanted its certified check of \$10,000 reduced to \$10,000. The council deferred action pending further information.

Not in Market
Representatives of the Fairbanks-Morse-Socoles company are present to talk scales and a representative of the Casey-Parker company to talk sale of a bridge. The ground is not in the market for either.

Permits are Granted
W. C. Hulbert received a license to run a dance hall at 350 Second avenue south. J. M. Cameron received a permit to conduct a second hand store at 202 Second avenue south.

W. J. Elliott was granted a permit to erect an addition 16 by 24 to his residence at No. 115 Jackson street, at a cost of \$800.
Billie Wrenn's \$4000 bonds were also sold. These comprised general fund, drainage and special assessments totaling \$200 to Twin Falls county for street control on the streets and in alleys during the year.

Police Chief's Report
The report of R. E. Leighton, chief of police for the month showed a total of 41 arrests. Of these there were 10 for violations of minor ordinances. The most traffic violations were for alleged misdemeanors and felons under state laws, and 20

were for intoxication. There were two fires during January, one auto and two bicycles. One motor and the same number recovered. There were 104 meals served at the city hall; fines assessed, \$10,471.50.

Health of County Shows Improvement
Castelford Quarantine Raised by County Physician; Jail Population Grows.

Health conditions are good as a whole. Dr. G. D. Weaver, Twin Falls county physician, told the county commissioners yesterday afternoon. The quarantine for cerebral spinal meningitis has been raised at Castelford, the only community in the county where it appeared, and all steps required have been taken to prevent its recurrence.

The scarlet fever subsiding. The scarlet fever cases at the tourist park, all of whom have been released from quarantine along with a dog which was also in quarantine and which was properly fumigated. Three cases on the Kimberly road are improving.

There are a number of cases of chicken pox. The only case of small pox reported recently has recovered, and the quarantine has been raised.

Jail Population Grows
The jail population of the county increased during the month of January. At the beginning of the month there were 41 prisoners under the care of Sheriff M. E. Finch, and at the end of the month the number had grown to 51. It was a transient population. Only 27 of those in jail at the beginning of the month were "milling through" to the end. Twenty-four moved out, some at the expiration of jail sentences and some to begin terms in the penitentiary. However, the supply of prisoners was replenished with interest by 24 admissions during the month.

The time of service by those incarcerated aggregated 653 days. There were 1274 meals served by Sheriff Finch at 40 cents each, or \$509 all together.

MERCHANTS DECLARE FOR CELEBRATION OF NATION'S BIRTHDAY

Fourth of July One of Four Events Scheduled for Community Observance—Baseball Meets With Favor

The Fourth of July should be observed with a suitable celebration in Twin Falls this year, it was the expressed opinion of about 30 Twin Falls business men at a support meeting under auspices of the chamber of commerce merchants bureau at the Rogeran cafe last evening.

The meeting recorded no further action relative to the celebration of the nation's birthday anniversary, but it adopted a program recommended by a committee providing for observance of four community events during the year in Twin Falls, one of which is the Fourth of July celebration. It authorized appointment of a com-

CASSIA COMMISSIONER TEL

BURLEY, Feb. 6.—Irae N. Cindmunden, chairman of the board of Cassia county commissioners, is reported seriously ill at the L. D. R. hospital in Salt Lake. Mr. Gudmunden, who was elected to the board last June, is Burley about six weeks ago with an acute illness, was removed to Salt Lake two weeks ago and there operated on.

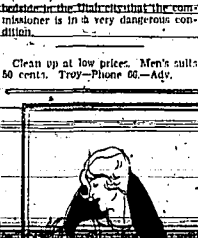

Word has been received here from members of his family who are at his bedside in the hospital that the commissioner is in a very dangerous condition.

...I thought you was mad at me, but I was 'cittin' on our back fence eatin' a piece of pie an' he come an' helped me eat it just as friendly as ever.
