SENIOR SENATOR OF GEM STATE DEFENDS

Withdrawal of American Marines Now Would Leave Little Nation in Turmoil and Civil War, Idaho Solon Declares.

(By The Associated Press) WASHINGTON, April 19.—A declaration that withdrawal of American marines from the Philippines today would leave that country to strife, turmoil and bloodshed, was made today in the senate by Senator Norris of Idaho.

Moreover, he said, it would endanger the liberals whom senate critics of the administration policy would protect, and likewise would forfeit whatever faith the liberals of Central America have in the justice of the course of the American government.

Opposes Blaine Measure Speaking against the Blaine amendment to the naval bill, which would force the marines out by next Christmas, the Idahoan held the senate floor for an hour and a half, during which he reviewed the history of events in Nicaragua since the first American intervention in 1910 and responding vigorously to the many interruptions by critics of the administration.

Reminding his audience—and an unusually large one, it was reported—of the United States had entered into an agreement with the Nicaraguans to withdraw its troops, he said, "I feel it fair to say that the United States has been the victim of a conspiracy to cause it to withdraw its troops from Nicaragua."

POLITICAL BY-PLAY  
DIVERGENT COAL PROBE

Distant Kin of President Coolidge Gives Testimony Before Special Senate Committee.

Committee on coal investigation today while W. H. Coolidge, Lancaster, Massachusetts—who claimed distant kinship to President Coolidge—was on the stand as chairman of the board of the Island Creek coal company to defend its labor policies.

Coolidge attributed credit for most of beneficial industrial legislation to civic organizations and the churches, disparaging the claim that organized labor was primarily responsible. He expressed the opinion that government is becoming too regulatory and centralized, characterizing that tendency as the paramount issue before the American people. Regulation of gold labor should be left to the industries concerned, he said.

"There is no coal problem so far as the company I represent is concerned," he said.

Coolidge cited federal reserve statistics indicating an increase in the cost of living on the basis of price index in 1913-14 to 170 per cent in 1927, adding that in the same time his company had increased wages 125 per cent.

"Our mines," he continued, "have never been under the domination of either the United Mine Workers or the International Union of Mine Workers. Our experience with the United Mine Workers, their attempts to unionize mines and the resultant murders and deaths of mine workers, and our experience in other companies with the United Federation of Coal and Industrial Workers of the World, in California, Kansas and elsewhere, have given me the impression that the union which we ought never to permit our property either for the sake of our employees or of our stockholders, to enter into the domain of the United Mine Workers of America."

"Their history in the last 10 years we believe to be worse as to murders, than even the history of the Industrial Workers of the World, or of the United Mine Workers. I never have the officers of the United Mine Workers ever expressed any regret as to the murders and killings by the United Mine Workers."

Need No Remedy  
Regarding a "remedy" Coolidge asked, "remedy for what?" He added: "Shall the law attempt to fix prices? That is the question. Coolidge contended the supreme court has decided that the Lever act, fixing prices even in time of war, was unconstitutional. "The Lever act," Coolidge contended, "and there ought to be no law that gives to any man the right if he gives up the right to force or otherwise to let some other man, who is willing to work, go to work. Class legislation should cease."

STALESVILLE, N. C., April 19 (AP)—Stale, of D. M. Staley, 25, 2301 W. of the Commercial National bank and disclosure that there was a shortage of \$224,000 in the company's receipts were followed closely by announcement that the bank had been closed by the directors.

Attributed to Jefferson.  
It is supposed that "bellie" was coined by Thomas Jefferson. At least he gave the word currency. During his Presidency an English magazine writing of the faults of American writers, said: "President Jefferson talks of belittling the productions of nature." Here, of course, the word means to make smaller. Usually the term is now used to signify speaking of a person or thing in a depreciatory or contemptuous way.—Pittsburgh Magazine.

Bottles of Deliberation  
A pitch battle is a regularly planned and deliberately executed battle. We are informed by the Army War College that all great battles are pitch battles, such as the battle of Waterloo, the battle of the Marne, the major part of the battle of Gettysburg, etc.

Visions of the Truth  
The world is his who can see through its pretension—what deafness what stone-blind custom, what overgrown error you behold in these by substance by your own eyes. See it to be a lie and you have already dealt it its mortal blow.— Ralph Waldo Emerson.

West Indian Appellation  
A name is the offspring of a white person and a quadroon. It is a West Indian word, a contraction of mestizo.

PRESIDENT CONSIDERS FLOOD-CONTROL BILL

Chief Executive Has Under Advisement Proposed Revisions for \$325,000,000 Measure.

WASHINGTON, April 19 (AP)—President Coolidge late today took under advisement the proposed revisions of the tentative \$325,000,000 flood-control bill which had been drafted after a series of conferences between house Republican leaders and flood-control proponents, in an effort to meet the chief executive's objections to the bill.

Mr. Coolidge was presented the proposed revisions at a conference at the White House, by Representative Tilton, Connecticut, the Republican floor leader, Chairman Madden, of the appropriations committee, and Chairman Smell, of the rules committee.

Would Evade Cost  
The proposed changes of the bill, outlined by Mr. Tilton, include the placing of the cost of the rights of way of levees on the Mississippi river upon the states instead of the federal government and the diminishing of the proposed planning board of the flood project from five members to three members, the chief of engineers, president of the Mississippi river commission and one civilian. The bill in its present form would have the federal

government pay for the entire work. "That the president 'took the matter under advisement' was the only statement Mr. Tilton and the other house leaders made on leaving the White House. They would not say when the president would make his decision.

BIJGER PAYS WITH LIFE FOR CRIMES

Southern Illinois Outlaw Goes to Scaffold With Smile on Face; Crowd Sees Hanging.

Mayor Joe Adams, West City, Ill., with a smile on his face, Bijger was hanged in the yard of the Franklin county jail in the presence of more than 500 persons who crowded into the stockade. It was the last legal hanging in Illinois as the electric chair has been substituted for the gallows.

Bijger was led from his cell at 9:45 A. M. by Sheriff James Pritchard, and seven minutes later deputy sheriffs were moving the crowd towards the exit, shouting "It's all over. Move out now." The execution had been scheduled for exactly 10 A. M., but Bijger told the sheriff to "get it over with."

Bijger ascended the scaffold followed by J. R. Meier, East St. Louis rabbi, reading from the Bible. Execute "Left Face"  
Walking directly to the spot where he was to stand, Bijger halted, smartly executed a "left face," turned as a cavalry man in the army, glanced around and remarked "beautiful world." He nodded to several friends among the spectators, while a deputy sheriff strapped his legs together.

### TRIGUIERO-CREDITOR ARGUES ESTATE WAS DELIVERED IN TRUST

Twin Falls Attorney Holds Stockman's Beneficiary Role

Responsible for Payment of Claim, for Legal Services.

Mauricio Guerrero-Cabrera, who received from his former employer, the late Frank Triguero, Castileford stockman, an estate valued at approximately \$18,000 shortly before Triguero's death in October, 1927, is defendant in a suit in trust for the benefit of Triguero's creditors, according to claim set forth by E. M. Wolfe, Twin Falls attorney, in a petition in district court here yesterday.

Guerrero-Cabrera established his claim to the estate after a long fight in the courts where he was opposed by Triguero's surviving relatives including two brothers in California and a sister in the Azores, to whom nothing was bequeathed.

Defends Stockman In suit instituted yesterday the attorney on his own behalf seeks for \$400 attorney's fees for services rendered to Triguero in December, 1925, when Triguero was defendant in an action for \$15,000 damages for alleged malicious prosecution. Triguero had been the complaining witness in a criminal action against John Taylor, a minor, who was accused of forgery and who was acquitted. The attorney in his complaint asserts that Triguero paid him \$100 as a retainer and agreed to pay a "reasonable fee."

Triguero's estate, it is asserted, was transferred by deed and bills of sale to Guerrero-Cabrera a few hours before Triguero's death. The transfer being "conditioned" on agreement that the estate of Triguero's death Guerrero-Cabrera should pay all of Triguero's debts.

### ACCUSED AUTO DRIVER'S TRUE NAME DISCLOSED

Court proceedings here yesterday disclosed the true name of the young man who is accused of having driven his automobile late Wednesday evening into collision with another machine owned by Mrs. Mathilde Leth and parked at the time in front of her residence at 418 Second avenue north. Revealing the name of Jack Baker and other fictitious names that he had given to the officers—the young man on arraignment in probate court admitted that his true name is Victor Newton. He was held under \$500 bond to answer in district court to a charge of driving an automobile while intoxicated.

He pleaded guilty to the charge on arraignment before it was explained that the offense alleged is an indictable misdemeanor calling for district court action.

### DEPUTY HAS STAKE IN PRISONER'S RETURN

Grand Junction Man Who Furnished Bail Bond to Take James Eachus to Colorado.

James Eachus, 40, wanted at Grand Junction, Colorado, for beating a \$500 bail bond after being convicted on a burglary charge about a year ago, will leave here this morning returning to Colorado in custody of E. E. Miller, Grand Junction deputy sheriff, and special deputy sheriff's commission. Miller furnished the bond under which Eachus was granted a few days' liberty after being convicted, he said. Eachus was detained by the police when he arrived here last Monday evening in an automobile in which he was traveling, he said, to the Pacific coast. He said that he interpreted liberty in which he was admitted after being convicted as a hint that he should leave the country. He denies guilt of the burglary charge which was committed, he said, by other persons who gave him a part of the stolen property, including a gun that is alleged to have been stolen from a cattle pump near Grand Junction.

The Colorado special deputy and Lon Blom, also of Grand Junction, arrived yesterday noon, making the trip in an automobile in which they will return, with the prisoner, to Colorado.

### COUNTY PHYSICIAN EXPLAINS MEASURES

No General Quarantine in Twin Falls; Regulations Are Proving Effective.

Dr. Weaver, county physician, told a number of business men here last evening. Measures adopted here for prevention of possible spread of cerebrospinal meningitis, Dr. Weaver said, have been confined to quarantining only of the home of Bob Stewart, son of C. Claud Stewart, county assessor, who was stricken by the disease last week. The county board of health's order, as a precautionary measure, was issued the next day closing the schools, theatres, lodges and churches and prohibiting public meetings for 10 days. These measures, Dr. Weaver said

further, seem likely to prove entirely effective. He expressed confidence that freed for these restrictions would be passed with the expiration of the 10-day period. The period for development of the disease after exposure, Dr. Weaver stated, ranges from 5 to 10 days. It was the opinion of some of the business men who conferred with Dr. Weaver last evening that the period of danger for persons who had come in contact with the Stewart boy would end 10 days from the day of last week when he attended school for the last time before becoming ill early next morning.

Dr. Weaver stated that, other than the closing order should remain in effect 10 days from the time of its issuance at midnight Thursday of last week. He stated that students in school on Thursday of last week might have been exposed to infection from the same persons who might have carried it to the Stewart boy. Continued improvement was reported last evening in the condition of Bob Stewart, who is the only person in Twin Falls known to be suffering from meningitis.

### CASEIN-PLANT AT BOULDER TO RESUME OPERATION

Repair Work Following Fire Nearing Completion; Reports Show Business Improving.

Milk will be received Saturday or Sunday following the recent fire. The plant was closed for several days following the fire, but repair work following the recent fire is now nearly completed. The plant will resume operation Saturday or Sunday following the recent fire.

fire which damaged the roof and ceiling of the plant will have proceeded sufficiently to permit the resumption of operations there this week end, Mr. Nelson stated. During the time the plant was closed for repairs the association marketed its milk collections with the Bego Milk Products company at Boulder. Additional space is being provided by the construction of a new addition to the building, 20 by 30 feet in size. Increased business has made this addition necessary, Mr. Nelson said. At the regular monthly meeting of the association here Wednesday evening, reports showed that the business was in excellent condition.

Mr. Nelson, secretary of the association, Harry Nelson, field man, announced last night. Repair work following the recent fire is now nearly completed. The plant will resume operation Saturday or Sunday following the recent fire.

**BOSTON, April 19 (AP)—** Clarence H. Demar, the wry, smiling little type-setter and Sunday school teacher of Melrose, is still the king of American marathon runners, but there is a new crown prince of the testing. Jole Wray, long the monarch of the millers, Demar, in as brilliant a race as he has ever turned in, stepped out over his favorite hills and dales today to win the classic Boston Athletic association marathon in record-smashing style from the greatest distance running field ever assembled. The heroic figure of this astonishing spectacle, however, was gallant little Jole, who finished third in his first marathon of his career with an ability exhibited as any footrace ever has known. They lifted Demar on the shoulders

# POOR CONDITION OF WINTER CROP BOOSTS WHEAT PRICE RANGE

Unfavorable Production Prospects and Firmer World Situation for Broad Grains Important Factors.

SALT LAKE CITY, April 19.—Confirmation by the United States department of agriculture in its April crop report of an unusually poor condition of winter wheat, together with the generally firmer world market situation for broad grains, forced domestic wheat prices to the highest point of the season since the beginning of April 14, according to the weekly grain market review of the United States bureau of agricultural economics. The market also advanced sharply, influenced by the poor showing of the crop, the advance in wheat and a continued strong demand. Corn and oats were also firm and prices tended slightly upward. The barley market was steady but not noticeably changed.

The condition of winter wheat April 1, according to the department, was unusually low and was estimated at 68.8 per cent of normal. Only in 1917 and 1923 has the April 1 figure been so low since the beginning of the department's record in 1870. In hard winter wheat areas, conditions were reported about average but in the Ohio valley states where most of the soft red winter wheat is grown, the condition was the lowest reported for April 1 since the department's record began. Conditions in Ohio, Indiana and Illinois were 32, 28 and 27 per cent of normal, respectively, while low temperatures and snow storms interrupted seeding operations in the spring wheat area, the condition in the northwest is considered quite satisfactory with the season still a week or ten days earlier than last year.

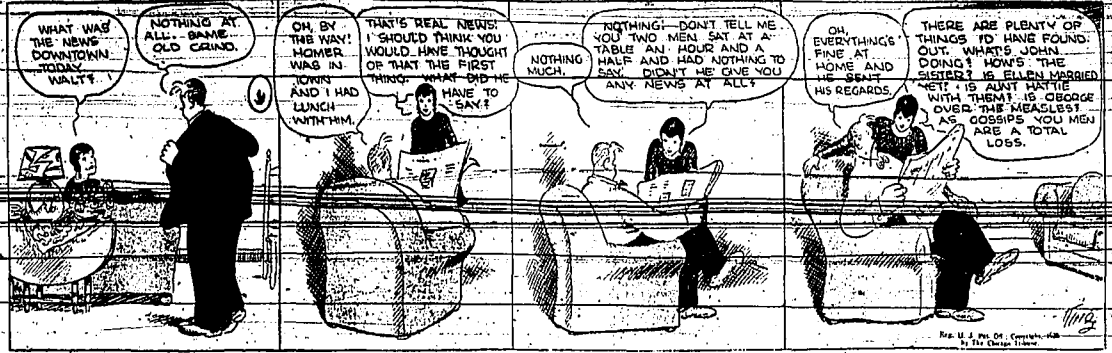

European Situation Not Too Good. The condition of winter wheat in the principal European countries is also reported to be not quite as favorable as last season at this time. The winter wheat crop in Germany at the first of April was 91 per cent of the average for the preceding ten years. This is the lowest condition report as of April 1 since 1922. In northeastern Europe and also in France considerable winter killing has taken place according to semi-official reports. While the principal foreign markets did not follow the full advance of the domestic wheat markets, the world market situation continued firm. The 1928 wheat crop in

the Punjab which produces more than one-third of the Indian crop, is now estimated at about 12,500,000 bushels, or about 4,500,000 bushels below last year's harvest—in that area. Prices of native wheats in European markets advanced 2 to 3 cents per bushel. Foreign wheats were quoted slightly higher at Liverpool. No. 3 Manitoba for June shipment being quoted at \$1.02; 63-lb. Rosafé to arrive at \$1.04; and Australian wheat for June shipment at \$1.03; per bushel.

Sharp Price Advance. Prices of cash wheat in United States markets were advanced sharply with soft winter wheat prices quoted as much as 10¢ higher than a week ago at some of the central western markets. Stocks of soft winter wheat are reported to be practically exhausted at Chicago, St. Louis and other soft winter wheat markets. Farm and elevator stocks are also small and the advance in prices reflected to materially increase offerings or receipts. At St. Louis, No. 2 red was quoted at \$1.90 to \$1.92 and mills were reported turning to low protein hard winter to supplement the supply of soft wheat. This demand is also drawing soft wheat from the far northwest where soft wheat was quoted at 1.45 to 1.50 per bushel.

Hard winter wheat prices advanced 2 to 3 cents but local demand in the various markets was not urgent. Crop conditions were reported as mostly satisfactory in the hard winter wheat area with the exception of some damage from dust storms in western Nebraska. The supply of soft winter wheat was limited and premiums held firm. No export sales were reported as domestic wheat shows export baskets in it. Receipts of spring wheat were

# GASOLINE ALLEY—NO NEWS IS NO GOOD NEWS

smaller than usual at the principal markets and a large percentage was of low grade red spring or durum. Speculations for good quality high grade wheat were advanced with No. 1 dark northern quoted at Minneapolis at 29 to 37 cents over the any price for 15 per cent protein wheat. The week's advance in domestic wheat prices widened the spread between the United States and Canadian wheat.

Exporters were practically out of the market at Portland, Oregon, and southern markets were over bidding them for wheat. Exporters were bidding \$1.19 at country points for new crop white wheat for July delivery. This was around 25 to 30 cents below current prices. Wheat was firm and in good demand at the principal markets where No. 1 hard white was quoted at \$2.05 and food wheat at \$2.00 per 100 pounds. Good milling wheat ranged from \$1.75 to \$2.72, at Los Angeles where the demand was rather slow.

Corn Market Firm. There were no important changes in the corn market situation but the high price of bread grains set a firm tone to the market and prices advanced 4 cent per bushel. Receipts at the principal markets were fairly large but there was a continued good demand from feeders, industry and shippers and shipments from the markets were reported only slightly smaller than current receipts. Cash prices advanced with futures, No. 2 yellow being quoted at the close of the week at Chicago at \$1 to \$1.02, Kansas City \$0.94 to \$0.95, Minneapolis \$1 to \$0.95 cents.

Local Hay Market. Demand fair, supplies light. Better grades most all consumed. Price to farmers delivered Salt Lake \$17 to \$17.50 for alfalfa. Timothy \$17 to \$18. Ten cars sold past week. Farmers receiving \$16 per ton f. o. b. cars at Nephi.

### ELECTORS AT EDEN TO CHOOSE TRUSTEE

Two Candidates in Running for Three-Year Term on District School Board.

EDEN, April 16—Interest in the school election to be held here Saturday has gathered momentum the past few days. The school board is the most important feature of this year's annual event. Two candidates have been nominated. They are George Phillips and Ed Little. The term of N. Swenson expires this year. Holdover members are A. M. Black and L. W. Bebout. Mr. Swenson is the present chairman of the board and L. W. Bebout, clerk. The annual budget for the coming year was arranged at a meeting of the board Thursday evening. Other questions to be submitted for vote Saturday besides the election of a trustee will be the fixing of the last day and the length term of school. Similar elections will be held the same day in the Hillside, Russell-Lane and other districts.

To Teach at Hillside. Mr. and Mrs. Clark McQuinn, formerly of Hollister but who are now attending the Albion Normal School, have been employed to teach the Hillside school during the coming year. Mrs. A. M. Kierkoff, who has taught at Hillside the past four years, will teach in Eden. With the first month of school for the Eden grade school beginning Monday morning, plans for the closing week are being mapped out by the teachers. At least 12 students will write on the eighth grade subject sent out by the board of education during the January examinations will not be presented but a few students who failed to make the required average will be given another opportunity to raise their grades. Many interesting affairs are in store for the students before the closing day on May 11. Among these events will be the annual field and track meet at Hazelton May 4, the usual class picnic, and closing day exercises. Plans for the eighth grade graduation exercises have not yet been formulated. Mrs. Frank Fulton, who attended the meeting of the Idaho Parent-Teacher association at Pocatello last week, as a representative from the Eden organization, went off to Moscow Saturday to spend a few days with relatives before returning home.

Parent-Teacher Election. Report of the meeting of the Idaho State Parent-Teacher association last week at Pocatello was presented to the Hillside organization at the regular meeting held at the school house Monday evening. Mrs. R. D. Bebout gave the report of the three days' session of the state organization. Mrs. Henry Schwab had charge of the program of the evening which included a few songs and a play. Mrs. A. G. West, community folder, read by Mrs. Schwab; special number by Mrs. L. C. Anderson and Mrs. Everett Webb; demonstration of first grade reading, with the parents acting as students, by Mrs. A. M. Kierkoff; trombone solo, R. D. Bebout, accompanied by Mrs. H. A. Painter. Election of officers for the coming year took place during the business session. Mrs. A. G. West was elected president; Clara McQuinn, vice president; Mrs. Chester Rotze, secretary; treasurer.

The trash-bin is always larger than the strong-box. The waste-basket is usually twice the size of the letter-tray. Quality, or the lack of it, is what determines the importance of everything in life, whether it is shoes or sermons, poetry or pigs.

Some people claim that price is the most important consideration in our stores. They are wrong. No article ever crosses our counters that hasn't a backbone of Quality. Seconds, job lots, articles that won't wear well are too expensive in the long run for us to offer our customers.

Quality—always at a saving. This is more than a slogan with us. It is the foundation on which we built a successful business.
