TEXAS CONVENTION
FOR WOMEN OPENS

Executive Board Hears Recommendation That Organization Demand Congressional Probe

SAN ANTONIO, Texas, May 29.—Recommendations that the General Federation of Women's clubs seek a special charter from Congress were heard by the executive board of the federation here today.

The federation now operates under a special charter granted by Congress. Originally the federation devoted itself almost wholly to cultural activities, but in the last few years it has taken on civic and other interests to which the Henderson club objects.

The federation itself is seeking a new charter from Congress enlarging its scope, but the present charter is being renewed and the federation is being organized as a national organization.

Mrs. Sherman's recommendation that the Henderson club be investigated by Congress was also accepted.

The Henderson club is a Spanish speaking club for the children from all sections of the United States and the thirteenth biennial convention of the federation formally opened tonight.

Sheriff's Officers of Four Counties Draw Plans for New Campaign; Believe Posses Out.

(By The Associated Press) OAKLEY, Kan., May 29.—Somebody in the recesses of the Smoky Hill river country in western Kansas, the four gunmen who robbed the First National Bank, Lamar, Kan., and took three lives in their break for liberty, are believed to be hiding in the opinion of police authorities.

Working along this theory, sheriff's officers of Dodge City, Garden City and Russell Springs, Kansas, met here today with Sheriff Alderman, Lamar, and drew plans for a new campaign.

Poses Disorganize
While posses which combed the region for four days have been disappointed, the sheriff is expected to have a vigilant search which they expect may also reveal the bodies of one of the robbers and of E. A. Kesinger, manager of Lamar bank.

Officers believe Kesinger was slain by his captors and that Charles Clinton, colored Colorado convict, identified as the leader of the band, died of wounds suffered in the gun fight in the Lamar bank.

A. N. Parrish, 42-year-old president of the Lamar bank, and his son, John F. Parrish, cashier, were shot and killed by the robbers during the raid.

New Mexico Democrat Joins Montanan Defending Bourbon Party; Dakotan's Statements Cited as Misleading.

(By The Associated Press) WASHINGTON, May 29.—Assertions concerning the Democratic party which were made by Chairman Nye of the Senate subcommittee in his report to the investigation of the Continental Trading Company were challenged in the closing hour of the session today by the Democratic committee members, Walsh, Montana, and Bratton, New Mexico.

Three statements were cited as misleading by Bratton, who opened the discussion by telling the senate that he believed portions of the report were not justified by the testimony.

Expressing a desire that the actual evidence concerned might be known, the New Mexico senator denied that he had not copied his contributions to any one political party as declared by the report.

Bratton said only two witnesses had so testified.

Turning to the assertion in the report that Edward L. Doherty, who leased the Elk hills naval oil reserve, had been liberal with his contributions to both parties, Bratton recalled that the oil man had said he had contributed \$75,000 to the Democratic party and \$25,000 to the Republican party.

MINIDOKA SETTLERS DELVE INTO GOODING PROJECT'S STATUS

Irrigation District Committee and Grangers Question Ability to Pay Maintenance and Assessment Charges.

BURLEY, May 29—Committees of men from the north and south sides of the Minidoka irrigation district, and from the granges on both sides of Snake river, met with E. B. Darling, project manager, Monday night to discuss phases of the proposed Gooding extension of the Minidoka project. The question also came up of the development of the North Side Minidoka extension.

It developed that the estimated cost of the Gooding extension was seven and a half million dollars. The settlers on this project had already brought 65,000 acres of land under irrigation for many years with sufficient water supply, that there was 17,000 acres of intermingled lands not yet under cultivation and 20,000 acres of raw sagebrush land.

Project Not Yet Approved: Water was to be delivered to the cultivated lands first, and until the sagebrush lands were brought under irrigation, the project was to bear the entire cost of the project. It was found that this project had not yet been approved by the secretary of the interior, and that all data concerning the project were in his hands and awaiting his consideration and action.

Doubt was expressed by some present as to the feasibility of the project from the standpoint of the ability of the interior, and that all data concerning the project were in his hands and awaiting his consideration and action.

Among those present at the conference were W. O. Paul, president; R. L. Willis, manager, and W. C. Trahen, secretary-treasurer of the Minidoka irrigation project. Haven Leigh, president of the Burley irrigation district; managers and members of various granges; including H. W. Peterson, H. Hooper, A. W. Hester, and H. H. Judd. rich Koenemann, a German navigator, was mentioned as a probable choice. Miss Ratche's plane will have a capacity of 700 gallons of gasoline, she said, and will be capable of sustained flight for more than 50 hours. The plane will carry a new device called a "cocked champagne" that will automatically send out signals traceable even if the plane is at the bottom of the ocean.

It was said a group of New York business men had subscribed \$50,000 to back the expedition.

This was almost an exact reversal of the 19 to 9 score in favor of American Falls on their own home grounds.

ESTIMATES OF CROP
LOWER WHEAT PRICE

Bread Cereal Undergoes Sharp
Sababack-Closing Quotations

Unsteady Cereals and Outlook

CHICAGO, May 29 (AP)—Wheat, un-
settled, a sharp decline in early trading
today as a result of predicted liberal
increase of domestic winter crop
estimates looked for on Friday. Houses
and eastern connections took a lead-
ing part in heavy selling which car-
ried the market down.
Closing quotations on wheat were
unsteady, 2 1/2 to 3 1/2 net lower, with
corn 1/2 to 3/4 to 5/8 off, oats 1/4 to
1/2 down, and provisions vary-
ing from 2c to 5c net lower, an equal
advance.

Unsettled Weather

A forecast of unsettled weather in
the Dakotas and of showers in Can-
ada tended to stimulate selling, and
so likewise did news of export
demand for wheat from North
America. Cereals and Europe—wheat
about 300,000 bushels.
Cooler temperatures in the spring
wheat belt, especially west of nec-
essary down to freezing at various
points in North Dakota, did a good
deal also to offset reports of persistent
lack of adequate moisture. Some
of the eastern connections took a lead-
ing part in heavy selling of the spring
crop of South Dakota, the plant having
been in good condition. Some
sales were taken at times of official ad-
vice telling of winter deterioration
from fly damage and root rot in
several eastern Kansas counties.

IMPRESSIVE RECOVERIES
ON-DAYS STOCK MARKET

NEW YORK, May 29 (AP)—The
stock market, having recovered from
the shock of 6 1/2 per cent call money
rate yesterday staged an impressive
recovery today, with more than
two score issues were elevated
to new high levels for the year, or
longer. Net gains of 1 to 2 points
were scattered throughout the list
with a few high price specialties
closing 6 to nearly 17 points higher.
The refined sugar market was
pre-highly active, the day's sales
aggregating 3,478,000 shares.
Motor shares gave one of the most
impressive recoveries—of great
strength on buying influenced by
merger reports. Dodge Brothers and
Packard were notably strong, the
latter of which were announced after
the close of the market, were the
leaders. Dodge Brothers preferred
advanced 2 1/2 points to 83, the high-
est since January, 1927, and Chrysler
advanced 2 points to a new
peak at 88 1/2 each closing, with the
fraction of the point. The terms of
the merger provide for an exchange
of these issues on a share for share
basis. The turnover was 41,000
shares, and in Dodge preferred 297,

Less Favorable Weather Con-
ditions Advance Prices of
Most Classes of Bread Grain;
Lack of Moisture Factor.

SALT LAKE, May 29—Less favor-
able weather for spring wheat in the
United States and Canada together
with unfavorable crop conditions in
Europe, influenced the wheat market
during the week ending May 26 and
prices of most classes of bread wheat
advanced, according to the Weekly
Grain Market Review of the United
States bureau of agricultural econom-
ics. The market was generally firm,
influenced by the rather poor pros-
pects for the new crop and the light
stock remaining for market. Com-
modity prices were generally steady,
demand. Oats continued independ-
ently firm but the new crop made
a sharp advance. Barley held fairly
steady, while flax advanced with
wheat.

WHEAT MARKET FIRM
WHEAT CORN LOWER AS
CROP MAKES GROWTH

Dry Weather—Cuts Prospects
Lack of needed moisture in the
spring wheat areas of both the United
States and Canada brought about a
less favorable condition for the spring
wheat crop than was expected. Hard
winter wheat was reported as doing
well, bids for new crop soft wheat
were around \$1.40 to \$1.42 for
August delivery and \$1.35 for Sep-
tember. Bids for new crop western red
were around \$1.55. Best Blue
Northwest was around \$1.60 and the
close of the week at \$1.56, soft and
old winter wheat \$1.47, hard winter,
good, new crop and western red \$1.45,
all western crop grain. Some new crop
wheat was being contracted for at
San Francisco at around \$2.50 per 100,
and at Los Angeles \$2.50 for hard
white wheat. Threshing has not yet
begun in Central California. The
local market at Salt Lake City is
quiet but demand was slow as buyers
were apparently awaiting lower prices.
\$2.25 per 100 for No. 2 Montana
hard white wheat and \$2.50 for No. 1
California wheat for June shipment or
was offered at \$2.25 per 100 or \$1.11
per bushel.
