

NUMBER OF RESCUES IN ARCTIC MOUNTING

(Continued From Page One)
and Finnish airplanes from Foyu Island where they had taken refuge. The report in the morning will have been the first coming out of Spitzbergen since the crash of the Itala.

The Braganca is reported to be making an effort to reach the Russian aviator, Chukhrovsky, and his four companions marooned by drift-ice to their plane near Cape Platen. Light sledges which have been sent over the ice are believed to have good chances of reaching the men. Ice conditions were reported favorable.

NO TERROR OF KRASIN

LONDON, July 14.—Ice floes and fog have no terrors for the Russian ice-breaker Krasin, which, with seven of the Noble polar expedition aboard—rescued when all hope seemed gone—is searching for other groups of missing men in the Arctic wastes. Dispatches indicate that the work of the Krasin is being delayed by the fog, but the vessel is under orders from Moscow to keep at her task so long as there remains any possibility of finding the group of six men carried off in the fog of the train on May 25 when the gondola of the dirigible crashed, and Captain Roald Amundsen, Lieutenant Gullon and their companions who set out in a French plane from Norway weeks ago and have not been heard from since.

SEARCH FOR AMUNDSEN

There is no inkling of the whereabouts of Amundsen and there is only a vague idea that the other group, if still alive, is some 30 miles or more from where disaster overtook the dirigible. With unfavorable atmospheric conditions the task of the Krasin is considered a most difficult one. The body of Dr. Finn Malmgren, noted meteorologist, is not aboard the Krasin. His companions of the "walking group" of three, Captains Marino and Zappi were rescued, and they told today of how after he had died from exhaustion on June 15, his body had been left behind. The Swedish government has already ordered the Swedish rescue expedition to search for Malmgren's body, which, if found, will probably be taken home on a warship.

Captain Sora Tells Story
GROCHOLM, Sweden, July 14 (AP)—The story of the effort of Captain Sora and two dog team leaders, Van Dongen and Varming, to get provisions to the Noble survivors near Foyu Island, and their failure and the eventual

NIAGARA OF THE WEST DINGS MAN-MADE RAIMENT OF LIGHT

GLITTERING IN AN INTENSE LIGHT that measures 25,000,000,000 candlepower, Shoshone Falls, "Niagara of the West," has taken on a new beauty that causes it among the scenic wonders of the country. For years, these falls, with their wild setting in the canyon of the Snake, have attracted thousands of visitors to their rocky brink.

Recently, the Idaho Power company installed a large group of flood lights that illuminate the falls from dusk until midnight. Included in the lighting system is a color display which, when played on the white waters of the falls, lights the rainbow in beauty. The lighting system was dedicated on the evening of May 24 when Mrs. Lena Mazzoni Phillips, national president of the Business and Professionals Women's club, turned the switch which threw the power of 25,000,000 candles against the wall of water transforming it into millions of brilliantly illuminated particles. The falls are 80 feet higher than Niagara and are located on the Old Oregon Trail through southern Idaho. A short-trip of less than seven miles from Twin Falls, brings one to the brink of the canyon and in full view of the falls. (Photo, Copyright by Johnson & Son, Boise.)

rescue of Captain Sora and Van Dongen by Swedish and Finnish aviators, came out of the North today.

Having developed a route to the hind near Cape Brun because of being blinded by the reflection of the sun from the snowfields. But he has stores in plenty and rescuers are en route to him. The aviators who brought back Sora and Van Dongen make light of their

feat. Lieutenant Lihl, pilot of the Finnish flying boat Turku, said that the trip to Foyu Island and back was made on his regular route with that plane between Stockholm and Heligfors. Captain Tornberg, leader of the Swedish relief expedition, and Lieutenant Jacobson, another Swedish flier, piloted the machines that accompanied the Turku.

The three machines started from the relief ship Quest in the vicinity of Virgo bay on Thursday evening. There was dense fog but after flying 90 minutes a rift in the mist showed them two men on the ice waving their arms. A water-lane appeared by and on it the planes landed. The men proved to be Sora and Van Dongen. They were bearded and dirty.

BORAN IS CONFIDENT WORLD WILL ACCEPT TREATY BANNING WAR

ounce the legitimacy of war. But in this proposal war is rejected as detestable, and a solemn pledge is made by the nations to hereafter adjust their controversies and disputes through peaceful means. The nations are that the proposal will be accepted as proposed. Germany has signified the willingness to sign without modification or without reservations. Great Britain and France are moving in that direction. Should they accept the proposal, it is entirely probable that other leading nations will follow, if they do not actually precede.

Exceptional Service

Secretary Kellogg has performed an exceptional diplomatic service in holding this treaty down to the plain proposition of renunciation of war. France in the first instance proposed that it be limited to wars of aggression. This was rejected. Secondly, that defensive wars be excepted. This was rejected. Third, that the treaty be not accepted until all governments should have signed. This France has waived. The treaty, as now proposed, declares:

"The high contracting parties solemnly declare in the name of their respective peoples that they renounce recourse to war for the solution of international controversies and renounce it as an instrument of national policy in their relations with one another."

"If this is signed, it constitutes the first and a most momentous step toward the outlawing of war."

Essex popularity in Chicago is but part of a national and world preference that makes Essex sales the largest of any size-class car in history.

\$735 and up
War Tax Off

ESSEX mirrors public choice

The enormous spread of Essex success is due to an accumulation of values never approached under \$1000, which is perfectly obvious to the ordinary buyer as well as the expert.

At \$735 and up you not only get the brilliant performance and reliability of the famous Essex chassis; you also get a satisfaction in appearance, richness and comfort, never even considered within hundreds of dollars of the price.

As you lounge in the roomy, high-backed form-fitting seats, every evidence of quality and comfort surrounds you.

You have before you every control in their most natural and handy place. And all about you, the panelling, the weather-stripped doors, the silenced body construction, the floor matting and the hardware in graceful silvery patterns speak quietly and certainly of quality.

The Essex Super-Six high compression motor is patented and exclusive, and is so far as we know the most powerful of its size in the world.

THE WORLD HAS A NEW AND FINER MOTOR CAR

Salon Body Designs

Other Important Features

No other car has all of them

- Twin Ignition motor
- 13 Air Craft type spark plugs
- High compression
- Bornalite aluminum pistons (Incar Straps)
- 7-bearing crankshaft (Hollow crankpins)
- Houdaille and Lovejoy shock absorbers (exclusive Yash mounting)
- Torsional vibration damper
- New double drop frame
- Stijer centralized chassis lubrication
- Exterior bodywork chrome plated over nickel
- Short turning radius
- World's easiest steering
- Wheel-nut bumpers and bumpers

The new Salon Body design for the new "400" series was developed after extended personal study by Mr. Nash himself of the latest creations by European body artists of international fame.

Original ideas in body artistry were co-ordinated with the most modern developments revealed in foreign and American Salons.

And the Salon Nash design is the perfected result—a new body type of the most modern beauty.

It could fittingly adorn a chassis priced at many thousands of dollars.

Nash invested a fortune in dies and machinery to create it.

But you may avail yourself of it on a line of cars notably moderate in price.

In body design, as in other important features, Nash has again outstripped all competition.

The World has a new and finer motor car—with a radically new and finer type of body.

FOUR FORMER BRUINS FALSE REPORT TENDS STILL PLAYING BALL IN UTAH-IDAHO CLUBS TO UPSET CHAMPION

Coleman, Pitcher and Outfielder, Wanted by Pittsburgh Pirates, Goes to Boise Under Deal Made Before Withdrawal

Disintegration of the Twin Falls league baseball team is almost complete, according to reports of the activities of the various Bruins since the withdrawal of the Bruin club from the Utah-Idaho league.

At least four of the Bruins are still playing ball in the Utah-Idaho league. Mike Maloney and Coleman are with the Boise club and both have been playing the past week.

Considerable controversy developed over the services of Coleman and it is believed that the deal was made as soon as he received word that the Bruins would withdraw, endeavored to get berth for the Bruins and received an offer from the Pittsburgh Pirates for the services of Coleman and transfer of the outfielder was in Twin Falls when the team returned from Ogden. But the Bruin directors had already disposed of Maloney and Coleman to the Boise club so that Coleman finally reported to the Boise club at Pocatello.

Players Free Agents Under the national rules all of the Twin Falls players were free agents after the last game Sunday and the local directors made attempts to dispose of as many Bruins as possible before the season closed but were unsuccessful in selling only Maloney and Coleman.

Walters signed with the Salt Lake Bees and has been playing with them this week. He has pitched every day since he has been with the club and won the first full game he pitched by shutting out Ogden. Ray Dwyer was slated to go with the Bees but did not come to terms and the Bruin shortstop went on to California.

Returns to California Kasch signed on with Ogden and will no doubt finish the season with the Utah-Idaho club.

Tunney Quoted as Saying One Commission Is Controlled by "Thugs and Politicians."

SPECULATOR, N. Y., July 14 (AP)—The statement that the New York boxing commission was controlled by "thugs and politicians" attributed to Gene Tunney by one of the metropolitan newspapers so affected the champion tonight that he was unable to display his best form in the training ring.

Gene was so excited about the truthless report that he neglected his roadwork and was unwilling to put on the gloves with Harold Mays and Billy Vidabeck, his sparring partners.

A brief shower fell here during the afternoon and during the downpour, Tunney said to several members of his camp: "I hope the rain continues. I don't feel like working today. The rain ceased a few minutes before it was time for Gene to enter the ring, which he did much against his will. He punched the bags for four rounds and then sparred half heartedly with Mays.

The champion, who is training for his title bout with Tom Heeney on July 26, was far off form. Mays tore after him in the first round, landing several hard left and right hooks to the champion's head and during the rest of the practice bout Tunney looked like a body-punch, which he should have blocked or side-stepped.

Tunney looked better against Vidabeck but the latter has great trouble avoiding a right-hand punch and the champion had no great difficulty landing that club. Fitzgerald, Benjamin, Robertson and Peteroff all returned to California and will probably play ball in that state. Gene Allen went to the Connor league in Utah. Earlwood and Lyke returned to Caldwell and probably will not play the balance of this season. Earlwood had his tonsils removed just after the last game.

Manager Leard returned to the Golden Bear state also and his future plans were not disclosed.

ing this blow to all parts of his body. Gene's footwork was much slower in both bouts though he appeared in better physical shape than in his first red spectators paid 50 cents each to watch the workout, the proceeds going to charity. Richard Visitor

Tex Richard, promoter of the coming bout, arrived tonight with a party of 52, which included one railroad president and several prominent bank officials.

Richard made the trip his first to Tunney—acclaimed haven—to witness the champion's signature to the New York boxing commission's contract for the titular bout.

The champion had finished training when the party arrived but he has agreed to break his rule of no work on the Sabbath tomorrow to entertain the party.

HEENEY BACK IN TRAINING

FAIRHAVEN, N. J., July 14 (AP)—With automobile headlights flooding the scene, Tom Heeney went back to his training grind tonight after loafing for 24 hours. The challenger for the world's heavyweight championship boxed in his outdoor ring, under the glare of five 1000-watt lights and in the presence of residents from nearby communities.

Heeney slipped the rope, shadow-boxed and punched the bag in the interior of his old barn, where the spectators began to gather soon after dusk. After the New Zealander finished with his bag punching, he observed his way through the crowd to his outdoor ring.

Several changes will be made in the line of sparring partners tomorrow. Oak Till, a middleweight, who once trained with Gene Tunney, will join the crew. Charley Harvey, Heeney's champion hand-punch, will bring a fast lightweight into camp to speed up "Honey's" training.

Up "Honey's" training in the remaining few days of training, Jay Lawless, Newark's light heavyweight, also will rejoin the sparring staff. Rosy Boutot and Jack Desimos departed tonight.

Chances Are Good The first expression from one of Heeney's board of strategy concerning the new "zealot's" chances against Tunney in their championship battle July 26 came from Harvey tonight on his arrival in camp after an absence of several days. If the battle goes past the tenth round, Harvey says Heeney stands an excellent chance of knocking Tunney out.

Harvey did not attempt to present Heeney as the greatest heavyweight.

WINCHESTER AND I. D. STORE TEAMS MATCHED

Two of Twin Falls Twilight league teams will clash at Twin Falls baseball park this afternoon in a spectacular exhibition of the national game. Contesting teams are those of the Twin Department store and the Winchester. Both teams have strengthened their lineups for this contest—the game to be called at 7:30.

Ralph Smith, Los Angeles, California, took a bad afternoon in the first two rounds of the challenger's boxing program tonight. Heeney slugged the body and floored him with a left to the body and a right to the head. Smith, who stands 6 feet 5 1/2 inches high and scales 250 pounds, hit the floor with a dull thud but was able to regain his feet in short order. Heeney then called Paul Swickard, Syracuse light heavyweight, into the ring. Two rounds of sparring with the latter completed the challenger's boxing for the evening.

INTER-CITY VIEW CHICAGO (AP)—Milwaukee residents may see the tip of the projected apparel mart, 75-story Chicago building on clear days, say Professor Henry J. Cox, United States meteorologist. Plans call for completion of the structure by 1930.

MISSIPPOI MAN AID FIELD LE BOURGEOIS, France (AP)—Flocks of sheep driven to Le Bourget airport each morning and back to their barns at night, keep the grass down at the field. Herders keep them out of the way of planes.

The Certainty of Satisfaction

What's it Worth to You?

THE most valuable thing that anybody can get for money invested in a motor car is satisfaction in the use of it.

The looks of the car—the name of the car—first impressions of the car—are not sufficient to guarantee satisfaction. Only the character and the facilities of the local dealer can give such assurance.

We run this business with a full realization of our responsibility for the satisfaction of every customer, no matter what he buys.

Subscription Rates: One Year \$10.00, Six Months \$6.00, Three Months \$3.50, One Month \$1.00

Entered as second class mail matter, April 9, 1918, at the postoffice at Twin Falls, Idaho, under the name of March 3, 1919.

MEMBER OF ASSOCIATED PRESS. The Associated Press is exclusively entitled to the use for publication of all news dispatches credited to it, or also the local news published herein.

(A) means Associated Press. The News is a member of the Audit Bureau of Circulations, from whom all information as to circulation may be obtained upon application.

NATIONAL REPRESENTATIVES: FRUDDEN, KING AND FRUDDEN. New York, Chicago, San Francisco, Los Angeles, Seattle.

SUPERSTITION: Those who believe in signs and portents, in other words those who are superstitious, may point to an unusually lengthy list of airplane accidents and fatalities which look place on Friday.

Even over-populated China could absorb farming. If she had an adequate transportation system, farm machinery, factories and warehouses for the preserving of food for the unproductive months, and an intelligent farming class.

FILIPINO DISCONTENT EBBS: Since the World War there has been just one Asiatic possession to which imperialism can point with pride and say: There is a people for whom the principle of foreign ownership is working well.

THE TROUBLE WITH THE FISH: Here's a yarn for fishermen and moralists. From a shale cliff in Rocky River, Ohio, a geologist has just dug a fossil that is a greater catch, and a more fearsome one, than any living fish.

ANNOUNCEMENTS: The Community church will hold election of officers Tuesday evening, July 17. After the business meeting the Ladies' Aid will serve an ice cream social.

THIRTEEN PUPPIES BORN ON FRIDAY: A litter of 13 puppies was born on last Friday, July 13, to a German police dog owned by C. A. Denton of Jerome, according to word received here yesterday.

How long has that taken? Four hundred million years, says the head of the Cleveland Museum of Natural History, which is mounting the specimen. There is venerable antiquity for you!

That armored fish dominated his watery world, at the same time dominated the land long afterward. And about three hundred thirty-five million years after the armored fish was imbedded in the mud that became Rocky River shale, it was outcropping and, perhaps, being used as a building stone, and, perhaps, even as a road.

And that's the way it always is, in the long run, in a contest between the strong and the weak. And, incidentally, since, though to this day, military might can't see it. Armor in the animal world has always been a substitute for brains.

THE CONTRAST: All that is known in the Yellow World that there never is enough food for all the people and that famine and pestilence follow war. The Orient has seen this happen many times and will see it happen again. It is a part of the immemorial tragedy of the East.

The American cannot understand why there should be famine any place in the world. He sees plenty of food on all sides and is told that the United States must guard against a surplus rather than against a shortage.

I saw a grapple on the street, he'd left a leg in France; He gave it for his country, to halt the foe's advance. To uphold the nation's honor, he sacrificed his leg. It's far too honorable to steal, and yet too proud to beg.

He sat upon the sidewalk huddled close against the wall; He lost his place in commerce, when he answered duty's call. His wife and child he left at home, awaiting his return. To share with them his crust of bread, if so much he could earn.

He offered cheap lead pencils, to those who cared to buy; If they refused, he only smiled, he asked no question, why. A policeman touched him on the arm, and this, I heard him say: "You have no right to be here, you will have to move away."

I saw a smile steal over his face, and then a wince of pain; I gave my country all she asked, the best I had to give; Did I in giving, lose the right, to share my baby love?

I turned my back upon the scene, in shame I hid my face. And when I passed that way again, a dog lay in his place. That dog lay unmolested there, while with the undertaker, We felt that crime a hungry child, to read in God's green grave.

THE PRICE HE PAID

By D. R. CHURCHILL

When God in His grand wisdom, Creator of the earth, He drew from its dust the embryo, and gave the nation's birth; He created mankind equal, while He rules over all. Without the least distinction as to the great or small.

He shared the burden of the earth, and gave it unto man; To share its richest blessings, he gave him this command; "Be patient with the erring one, turn not the lame away. My blood stood frozen in its veins, by what I saw to day.

I saw a grapple on the street, he'd left a leg in France; He gave it for his country, to halt the foe's advance. To uphold the nation's honor, he sacrificed his leg. It's far too honorable to steal, and yet too proud to beg.

He sat upon the sidewalk huddled close against the wall; He lost his place in commerce, when he answered duty's call. His wife and child he left at home, awaiting his return. To share with them his crust of bread, if so much he could earn.

I saw a smile steal over his face, and then a wince of pain; I gave my country all she asked, the best I had to give; Did I in giving, lose the right, to share my baby love?

I turned my back upon the scene, in shame I hid my face. And when I passed that way again, a dog lay in his place. That dog lay unmolested there, while with the undertaker, We felt that crime a hungry child, to read in God's green grave.

The RED LAMP

MARY ROBERTS BEMKART

The poor old chap was frightened. We'll say no more of his offer in this land, and Cameron didn't see it. Maybe there was an argument and Cameron knocked him down. But he got an uplift, and he managed to drop the letter into an open drawer; after that, his heart talked and he left the food.

What seems true probably is that Cameron had very early recognized the advantages of the house for the possible and scientific experiments he had in mind, was that he finally submitted the idea to old Hilday. With what growing horror and indignation they were received we know from his letters.

They turned a possible evil into an angry and dangerous enemy; the rejection of the proposition; with the threat which accompanied it, left Cameron stripped before the world as an enemy to society. He went home and brooded over it.

"But he couldn't let it rest at that," Hilday says. "He went back. And the old man was at his desk. That's all danger to Cameron that night, and

But aside from this, much of the explanation of that tragic murder becomes pure guesswork. We have, however, elaborated the following as a fulfillment of our requirements as to the situation.

We do know, however, that after he had had this lamp for three months or so, he got in touch with Cameron, and it seems probable that experiments as were made there at night with this lamp roused Cameron to fever heat.

Mrs. Livingston believes there was a quarrel between them, the usual one of the first to "pass over" to come back if possible. We do not know that, but it seems plausible. Neither Hilday nor I believe, however, at all odds, that Cameron killed the old man, in a fit of rage over the rejection of his proposal to carry their investigations to the criminal point.

What seems true probably is that Cameron had very early recognized the advantages of the house for the possible and scientific experiments he had in mind, was that he finally submitted the idea to old Hilday. With what growing horror and indignation they were received we know from his letters.

and his belief that those who pass over suddenly on a full health, are more apt to manifest themselves. The spots are numerous instances of manifest ones, whom tradition has never had expected for months of vengeance, but he himself believes that this ability to return is due to the strength of the unaccounted vital principle. The whole spirit, he calls it. And although he manuscripts itself does not deal with and Cameron's self he may have made during the long sleep, perhaps not. But he that certain pages of notes which seem to prove that he made more than one experiment along those lines during his occupancy of the house.

"At the same time, Hilday feels that the experiments were not necessarily to be with life and death; he suggests that they were to be, rather, with the mind, and that it was under this mental that Maggie Morrison, for one, succumbed.

Among Cameron's papers, later on, we found a curious document entitled "The Identity of the Soul Through a Study of the Effects of Chloroform and Curari on the Animal Economy," with the note in Cameron's hand: "The soul and the body are separated by the agency of anesthesia. The soul is not a breath, but an entity."

Of the nature of the further tests made we have no idea. Hilday believes that, shown the space behind the wall by Horace Porter, he later utilized it to conceal such apparatus as he needed for his experiments.

It seems that full of anger he says, "the night I found it." But later on, as the case narrowed, he got rid of it—by his own night, probably throwing it into the bay. This is borne out by the fact that, late that following autumn, going back to Twin Falls to look over the property with a real estate dealer, I found a note pinned to the back of the battered fragments of a camera.

Only a portion of the lens remained in the frame, but this lens had been of quartz. As a quartz lens, I can discover the theory of quartz used in such a manner is to photograph the ultra-violet. In other words, I dare say, to make visible that "strong" which may be a magical light spectrum and our normal vision.

Did he obtain anything? We shall never know. But sometimes I wonder, Suppose a man to have done what he had done

to prove the immortality of the soul, to have taken lives and have risked his own, to give to the world the surest proof after death of so pathetically graves. And he fails; there is nothing in his own conviction—his own weakened, but it's proofs are not there.

Then, in the twinkling of an eye, he himself breaks through the veil. With that idea dominant, he passes over to the other side, perhaps to the long sleep, perhaps not. But he that certain pages of notes which seem to prove that he made more than one experiment along those lines during his occupancy of the house.

"At the same time, Hilday feels that the experiments were not necessarily to be with life and death; he suggests that they were to be, rather, with the mind, and that it was under this mental that Maggie Morrison, for one, succumbed.

It seems that full of anger he says, "the night I found it." But later on, as the case narrowed, he got rid of it—by his own night, probably throwing it into the bay. This is borne out by the fact that, late that following autumn, going back to Twin Falls to look over the property with a real estate dealer, I found a note pinned to the back of the battered fragments of a camera.

Only a portion of the lens remained in the frame, but this lens had been of quartz. As a quartz lens, I can discover the theory of quartz used in such a manner is to photograph the ultra-violet. In other words, I dare say, to make visible that "strong" which may be a magical light spectrum and our normal vision.

Did he obtain anything? We shall never know. But sometimes I wonder, Suppose a man to have done what he had done

to prove the immortality of the soul, to have taken lives and have risked his own, to give to the world the surest proof after death of so pathetically graves. And he fails; there is nothing in his own conviction—his own weakened, but it's proofs are not there.

Then, in the twinkling of an eye, he himself breaks through the veil. With that idea dominant, he passes over to the other side, perhaps to the long sleep, perhaps not. But he that certain pages of notes which seem to prove that he made more than one experiment along those lines during his occupancy of the house.

"At the same time, Hilday feels that the experiments were not necessarily to be with life and death; he suggests that they were to be, rather, with the mind, and that it was under this mental that Maggie Morrison, for one, succumbed.

Among Cameron's papers, later on, we found a curious document entitled "The Identity of the Soul Through a Study of the Effects of Chloroform and Curari on the Animal Economy," with the note in Cameron's hand: "The soul and the body are separated by the agency of anesthesia. The soul is not a breath, but an entity."

Of the nature of the further tests made we have no idea. Hilday believes that, shown the space behind the wall by Horace Porter, he later utilized it to conceal such apparatus as he needed for his experiments.

It seems that full of anger he says, "the night I found it." But later on, as the case narrowed, he got rid of it—by his own night, probably throwing it into the bay. This is borne out by the fact that, late that following autumn, going back to Twin Falls to look over the property with a real estate dealer, I found a note pinned to the back of the battered fragments of a camera.

REMODELING HOME OF POWER COMPANY

Workmen Employed Night and Day Begin Expansion of Local Building

Workmen, employed in two shifts, began last evening the remodeling of the Idaho Power company building at the corner of Main-avenue and second street north, to provide for expansion of sales and office work commensurate with the recent expansion of the company's business in the Twin Falls division. Local workmen have been employed and the work is to be pushed with view to completion in six weeks. Estimated cost of the work is approximately \$800,000.

Some of the division offices are to be removed to the rear half of the second floor, which for the first time since construction of the building more than 20 years ago, will be occupied by power company offices. Under the new arrangement the power company will occupy three-fourths of the building, whereas when it was constructed only one-fourth of the whole building was used by the power company.

NEW YORK GOVERNOR TURNS ON POLITICAL FOE; DENIES CHARGES

(Continued From Page One)
 Section of any bills to open avenues on Sunday ever reaching the floor. As for zoning restrictions, he said that in 1911 the courts had ruled that a hotel with liquor license or a saloon could not operate their bars if, after they had been established, a church or school was located nearby, and he said that the legislature would have to correct the law's requirement in this respect.

have been to close the bars in such New York hotels as the Astor, Knickerbocker and Whitcomb in a church school were established close by. The governor said that Miller had been violating the attacks against him for 10 years, and as a result of his efforts and those of his friends have been getting a bigger vote every year.

WHITE RETRIATES CHARGES EMPORIA, Kan., July 14 (AP)—William Allen White, Emporia editor, in a statement issued on his recent appearance before the United States senate campaign funds committee.

"I never heard of the man Miller," he, according to Governor Smith, gave me his record in the New York legislature," the statement said. "In my speech at Olathe I said that these measures (which Smith was accused of supporting) were probably riders on otherwise satisfactory measures and I laid no great stress on that part of Smith's record. My whole contention was that his Tammany connections and his hatred of prohibition made him a menace to American institutions."

Judges Growing Old

"And because Smith is smart, because he is brave for convictions, because he hates the Volstead act and the prohibition amendments, he is dangerous. He will not wait for a dry congress. Many learned, respectable, intelligent amendments are being introduced. The underwriters are looking wisely right now at three members of the United States supreme court, and with Smith as president he would have in that court, as quickly as he could name them, three of those distinguished, learned, respectable, intelligent amendments to get supporting him. Tammany, Democratic party. These lawyers would declare the eighteenth amendment unconstitutional before any sensible lawyer, from the seaboard, who are also conservative enough to get supporting the business interests, how could they do that?"

"Everybody should sing," she says. "In all European countries all people sing. They don't think that you have to be an operatic prima donna in order to sing."

"In the older countries, particularly in the small towns, everybody belongs to a singing ensemble, and, though none of them are soloists, they produce some very fine music all together. That's what Americans ought to develop, a national feeling for music. We ought to start singing in all the schools, let every youngster have a chance to sing instead of saying that some can't sing and therefore should not try."

"Smith's leadership comes from the amalgamated Tammanites of our great cities from Boston to San Francisco. His new cult resents the old American. To Smith it is, as it was to Jerome, the smart district attorney of New York who declared that the American ideal is the moral yearnings of our rural communities. 'I know that we have our Republics, Daugherty, Fall and Vane. But how do they stand by them? Republicans are ashamed of their crooks and will wipe them out as fast as the crooks appear. But Smith is wedded to Tammany and proud of its unholty alliance. 'Smith's nomination raises two simple questions. 'Should Smith, Tammanyize America or shall we Americanize Smith's Tammany?'"

Everybody Sing, Urges New York City Choral Leader, to Aid Music Cause

By The Associated Press
 NEW YORK, July 14—Singing in the bathub of a bright sunny morning, though not a social habit, is condoned by Miss Margaret Desoff, New York choral leader, as a method of developing a national musical organization.

Miss Desoff, the daughter of Otto Desoff, a prominent German-American musician, and the teacher of many of today's conductors, is trying to develop her theory of music for the uninitiated in her work with three choral groups in New York.

"Everybody should sing," she says. "In all European countries all people sing. They don't think that you have to be an operatic prima donna in order to sing."

"In the older countries, particularly in the small towns, everybody belongs to a singing ensemble, and, though none of them are soloists, they produce some very fine music all together. That's what Americans ought to develop, a national feeling for music. We ought to start singing in all the schools, let every youngster have a chance to sing instead of saying that some can't sing and therefore should not try."

Miss Desoff, when she took up music as a career at the age of 18, went directly against the wishes of her father, who desired to keep her from the same discouragements that he had suffered.

She began giving singing lessons and in a few years had conceived her idea of ensemble singing to a point where she had under her direction a woman's chorus. Desoff's Old-Fashioned Chorus, known through New York and in 1917 was invited to take part in the Brahms Festival in Frankfurt.

In 1922 Miss Desoff came to the United States for a visit, but became so interested in the musical possibilities that she left her fatherland for good, settled in New York and spent three years learning the English language and American ways.

She now is conductor of the Adachi Chorus, a group that has grown from 20 to 60 women's voices, and is director of choral music at the Institute of Musical Art.

"This country is so young, so vital," she explained, "that music has just started and has a great future. And I want to have my part in this development that is bound to come."

PRICES REDUCED on all Firestone Built TIRES

30 x 3 1/2 CORD \$655	30 x 3 1/2 CORD \$555	30 x 3 1/2 CORD \$420
29 x 4.40/21 \$780	29 x 4.40/21 \$670	29 x 4.40/21 \$525
31 x 5.25/21 \$1390	31 x 5.25/21 \$1095	30 x 3 1/2 CORD \$795
29 x 4.40/21 \$1000	31 x 5.25/21 \$1615	

Never before have you had a tire-buying opportunity like this. Prices on these four famous tires have been lowest in history. Now they are further reduced—and you get the benefit of our service.

Because of the complete Firestone victory over rubber restriction and the reduced prices on raw rubber that resulted, Firestone has been able to reduce prices to us and we immediately pass these lower prices on to you.

Our startling reductions apply on every size of the four world-famous Firestone-built Tires, shown here.

The Firestone Gum-Dipped Tire is The Tire Supreme — holding all records for speed, safety and endurance.

The world's first practical low-pressure tire was the Full-Size Gum-Dipped Balloon pioneered and developed by Firestone. It was an outstanding contribution to the rapid development of the modern fast and high powered car. No manufacturer has been able to duplicate this tire in comfort or in the amazing mileage records it established.

The well-known Oldfield Tire is priced lower than any other standard tire. For over four years it was sold by the Oldfield Tire Company at prices higher than were asked for other standard brands. Firestone economy of production and distribution enables us to sell this tire at most attractive prices.

In the medium-priced field, the Courier Tire and Tube are unequalled. Never before have we seen a tire built like this one—oversize, rugged—with rut-protected sidewalls—at prices far below many unknown, untried brands.

The Airway is offered to the owners of light cars at a price that cannot be duplicated anywhere.

These Firestone-built Tires serve every purse and purpose. Back of every tire we sell stands our service-giving organization and full value is assured.

300 MOOSE CONVENE FOR ANNUAL FROLIC

Twin Falls Lodge Host to Delegates From Jerome, Gooding, Glenns Ferry, Rupert, Buhl.

Three hundred members of the Local Order of Moose gathered in Twin Falls last evening to join the local lodge in its annual frolic. Delegations came from—Rupert—Glenns Ferry, Jerome, Buhl and Gooding. Quest of honor at the frolic was Al J. Sartori, Spokane, northwest supervisor, who is on his way to the supreme council of the fraternal order to be held in Cardiff Wales, July 29.

At the banquet which followed, Mr. Sartori gave an address, telling of the growth of the fraternity, its origin—history—aims—and accomplishments. He also commended the southern Idaho chapters for their activity and progress.

"Estimates of officials of the order state that the greatest growth in Moose history can be expected this coming year. Mr. Sartori stated that from 1906 to the present time the order has grown from 100 members to 750,000 in the United States and Canada alone.

YOUNG PEOPLE BUSY AND HAPPY AT INSTITUTE

Four hundred and eight young people, including Twin Falls delegation of 50, are busy and happy at the Wood River Epworth League Institute, Dr. H. J. Humphrey, pastor of the Twin Falls Methodist church, reported yesterday. Dr. and Mrs. Humphrey and daughter, Martha, returned yesterday afternoon from the institute. Dr. Humphrey will preach in the Methodist church at 11 o'clock this morning.

CHILDREN IN TRAILER HURT IN AUTO CRASH

Portland Man Held in Boise, to Answer Charges Preferred by Colorado Visitors.

Whether L. W. Walther of Portland charged here with reckless driving, will be returned for trial from Boise where he is now in custody was not fully determined by Twin Falls officers last evening. The case against Walther is based on the charge of D. D. Harsh of Greeley, Colorado, who was returning Friday from a trip to the coast with his wife, four children, and his wife's father—and mother, Mrs. and Mrs. Meadows, of Pueblo, to visit H. H. Hedstrom and family here. Mrs. Hedstrom and Mrs. Harsh are sisters. According to Mr. Harsh, his wife and Mr. and Mrs. Meadows were riding in his car, while the four children were riding in a trailer. When they reached a point three miles south of Hangerman he says, they saw the Walther car approaching at a high rate of speed. It turned close to the bank at the right side of the road, despite which, he asserts the Walther car struck a slanting blow to their automobile and then crashed into the trailer on which the four children were riding. The trailer was demolished and the son of Mr. Harsh injured or less cut and bruised, though the injuries are said not to be permanent. Mr. Walther suffered a severe cut on his arm. Walther was held in custody accompanied by two children and his mother-in-law. Officers here telegraphed to Boise to stop Walther. This was done, but it was stated last night that the matter might be adjourned without prosecution.

MARRIED NICE PHILADELPHIA, July 14 (AP)—Newlyweds Marjorie Marland, millionaire oil-man of Oklahoma, was married today to Miss Lydie Miller Roberts, his niece.

The Weather FORECAST FOR TODAY

Maximum temperature for the 24-hour period ending at 6 o'clock last evening was 94 degrees, while the minimum for the same period was 51 degrees. On Friday the high mercury level was 93 degrees and the low, 54.

BUHL MEN AT LAW OVER POSSESSION

Question of Character of Relationship in Business Is Considered by Probate Judge.

Suit of E. E. Converse against Nathan Converse and his wife for possession of lands in the Buhl neighborhood was tried before Probate Judge C. A. Bailey yesterday and taken under advisement by the court. E. E. Converse claims that he leased the land which he asserts that he owns, to Nathan and that at the expiration of the lease, he gave due and legal notice to quit, which Nathan ignored. Nathan denies that the land, says it was not rented under conditions claimed and that if any relation exists it is that of mortgage and mortgagee.

KANSAS DEFIES EXPORTATION KANSAS CITY, July 14 (AP)—Barney Goodman, well-known Kansas City real estate dealer, sat in his office in the fifteenth floor of the Commerce building today armed with a revolver and with two armed guards as his answer to the demand of extortionists that he pay them \$25,000 and turn over to his wife a jewelry.

TWIN FALLS, IDAHO, SUNDAY MORNING, JULY 15, 1928

NEWS OF THE DAY AS CAUGHT BY THE CAMERA

LAST FAREWELL—Here are members of the Italia's ground crew waving good-bye as the dirigible left King's Bay on its ill-fated trip to the Pole, the last picture taken of the flight.

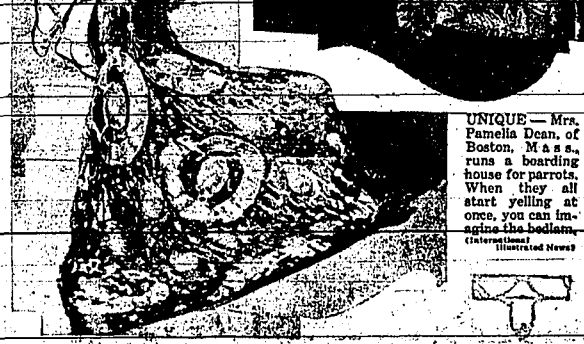

UNIQUE—Mrs. Pamela Dean, of Boston, Mass., runs a boarding house for parrots. When they all start yelling at once, you can imagine the bedlam.

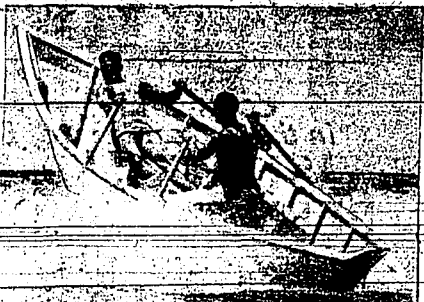

ROYALTY DANCES—Her Majesty, Queen Victoria, of Spain, doesn't care particularly for dancing, but she consented to tread a graceful measure with the Duke of Lececa at the fete organized by the Marchioness of Arguelles. Proceeds went to her favorite charity.

FIRST—C. E. S. Gordon shows the way over the high jumps during the Southern athletic championships at Ilfey road track near Oxford, England.

FILLS-BIBB—Gipsy Rhouma-je, American dancer, is contortionist supreme at revue in Paris. It is a wonder that she can get herself back in shape again after some of the twists she takes.

BUCKING THROUGH—Here you see the champion lifeboat crew of Southern California maneuvering its craft through heavy breakers off the beach at Santa Monica in the annual life-saving competition.

SPILLS THE BEANS—This snappy waitress, "Nippy," almost won the "waiting" race at Sudbury, England, but she slipped. Good thing a customer's neck wasn't underneath.

ONE-POUNDERS BARK—Members of the R. O. T. C. unit at Plattsburg are here pictured firing their one-pounders across Lake Champlain. They are commanded by Major C. S. Clark, U. S. A., and Captains Homer Brown and F. A. Heimbald.

A REAL THRILL—For the first time since outboard motor racing became "the thing" in Florida waters, they are used to pull aquaplane riders through the surf. The picture shows how it's done in Biscayne Bay.

TRANS-OCEANIC PLANE—Sketches of the plane construction are being integrated in the plans of the Savoia-Marchetti plane above, in which Captain Arturo Ferrarin, Major Carlo del Prete flew 4,000 miles from Rome to Brazil. Unlike the craft flown by Chamberlain, Chamberlin and Byrd, it is of the "pusher" type, the propeller being in the rear.

FILER KIWANISANS HEAR TALK ON CHERRY CROP

FILER, July 14.—Guests at Filer Kiwanis club Tuesday, were G. W. Crump of Peckham, Colorado, John G. Orlin and Miles Arline Ruggs of Filer. It is a fact before the club, Mr. Orlin gave some interesting figures on the volume of cherries shipped from this territory last year. He gave a very interesting reading entitled "Wild Zindleria." Ernest Caldwell of Wiley City, Washington, and Miles Arline Ruggs of Filer were invited to give a talk on "A Waterhouse" they get immediately for Wiley City, where they will make their home.

The families of M. J. Coode, M. H. Clark, C. H. Fox, F. J. Klass, T. S. Nicholson, E. A. Beem and G. W. Crump gathered at the T. D. Wilson home Monday evening for a pot luck dinner. The occasion was the twenty-fifth wedding anniversary of Mr. and Mrs. Wilson.

Mr. and Mrs. A. E. Schollen returned Saturday, having spent the week camping at Cold Springs.

Mr. and Mrs. H. J. Weaver are guests of Mr. and Mrs. Wm. Duncas at their cabin at Easley Springs.

Mr. F. A. Dwight and daughters Harriet and Marion, and their guest, Mary D. Deemer, left for an outing at Easley Springs Thursday morning.

Mr. and Mrs. C. W. Crump of Peckham, Colorado, returned to their home Thursday morning, accompanied by their daughter, Mrs. E. A. Beem and children, who will visit in Peckham for a short time.

Mrs. J. H. Singer was pleasantly surprised Thursday evening by Messrs. and Mesdames O. Davis, J. Brennan, Mr. Schollert, Mr. Cantor, and Mr. Weaver, the occasion being Mrs. Snyder's birthday. The evening was spent playing pinocle, after which refreshments were served.

Mrs. M. E. C. Graves, Raymond Graves and Bernice Graves, entertained with a charming 10 o'clock bridge luncheon Wednesday at the home of Mrs. Raymond Graves. The rooms were attractive with garden flowers in pastel colors. The color scheme was used in decorating the tables. Mrs. W. D. Ollis won high score and Mrs. L. H. Ollis second high.

Mr. and Mrs. O. J. Childs and son Winston, left Wednesday morning by motor for Portland, Seattle and other coast points.

Fred E. Hammerquist of Rapid City, South Dakota, agent for the New York Life Insurance company, and his brother, H. E. Hammerquist of Filer left the entire United States on paid application for 1927-28. Harry E. Hammerquist of Filer ranks first in volume of applications for the month of June in the state of Idaho by William Diefenthaler of Decatur, Illinois, leaving Sunday to look after the Decatur Orchard company's business interests.

Mr. and Mrs. O. Meade of Nez Perce were guests of Mr. and Mrs. A. E. Schollen the first of the year.

Mr. and Mrs. G. E. Beem and Mr. and Mrs. H. E. Hammerquist entertained

Last Picture of Road Amundsen

THIS IS THE LAST photograph taken of Roald Amundsen before his ill-fated Polar explorer hopper off with Lieutenant Dietrichson and Captain Guibaud from Tromsø, Norway, to search for the lost members of the Italia's crew. The explorer had just finished testing his plane when the cameraman asked him to pose for the above picture.

Fifteen Years Ago in Twin Falls

Taken From the Twin Falls News File, Thursday, July 14, 1928.

An important meeting of the potato growers of the county will be held in the Odd Fellows' hall next Saturday afternoon, July 19, at 8 o'clock. At this time the advisability of affiliating the organization with that of the fruit growers will be discussed. All persons interested in potato growing are urged to be present.

The proposition to issue bonds to the extent of one hundred thousand dollars for roads and bridges in Twin Falls county is one which should receive the unqualified endorsement of the voters. The value to Twin Falls county of such improvements can hardly be estimated in dollars and cents.

Dr. and Mrs. H. W. Glouchek have returned from an extended visit to Chicago and eastern points.

Mrs. R. N. Cookham and son are making an extended visit with friends in and about Boise.

In his annual report to the board of education, which he has just completed, Superintendent of Schools O. M. Elliott presents many interesting

figures regarding the growth of the Twin Falls city and independent district schools. There was a total enrollment of 1700 students in the city schools during the past year. An increase in enrollment of 400 over the previous year. The report shows that there are more girls than boys enrolled in the high school—there were a total enrollment of 347 students this year—159 boys and 191 girls.

Paul Smith, who has been inspecting his farm near Burley, returned a few days ago.

Harley Butler one of Twin Falls' well known diamond cutters, went to Rupert last Sunday to help him cut a defect Burley in a gate of ball.

J. L. Butolph, George Dew and G. W. Shroust have gone south on a hunting trip.

J. H. Bronaugh of the Alco clothes store, went to Salt Lake City on a business trip the first of this week.

MORE IRON FOR JAPAN
TOKYO (AP)—Japan is making efforts to increase domestic pig-iron production. Contemplated projects include two 300-ton blast furnaces in the government steel works at Yawata and one furnace in the Anshan works of the South Manchuria railway. Additional smaller furnaces would increase total annual production to 2,500,000, or about enough to meet present requirements.

CREPE DE CHINE BLOUSE
PARIS (AP)—Double-breasted crepe de chine sports blouses are offered as an alternative to sweaters for the three-piece sport suit. The blouse is cut off the blouse may be of navy blue crepe de chine with white polka dots.

BIDDY POOLED AGAIN
KINSTON, N. C. (AP)—A hen sat for several weeks and hatched—four baby alligators. Henry Crawford found an alligator's nest and put four of the eggs under the biddy. She got perfect results.

ITALIAN OVERA-BIGGER
ROME (AP)—Two hundred seats will be added before fall to the Royal Opera, and improvements suggested by Governor Potenziani after visits to New York and London will be effected.

Auburn gives you more value per dollar than any other automobile.

I have come to the conclusion that the go-getter, high-pressure selling methods do not serve the best interests of the public. . . . Motor cars are an economic necessity for our individual and collective existence. Why then try to stampeaded sales and risk creating inflated or artificial value? . . . A motor car is a machine to manufacture transportation. Its value is in how WELL and how LONG it runs and how GOOD an investment it proves to be.

E. L. CORD.

Auburn had to give more value per dollar to succeed as it has.

In the last analysis, the purchase of an automobile is a strictly-business proposition.

All manufacturers of automobiles have only one thing to sell you—miles!

The difference in automobiles is the difference in the way they give you miles; the kind of miles they give you; and how long they can keep on doing it.

Of course, there are such things as body designs, interior refinements and other niceties that are highly desirable.

But, "all is not gold that glitters." Motor car buyers have found that out!

Today the average buyer of a car is a well informed purchaser. He or she has had considerable experience with different motor cars.

They know exactly what they want a car to do and how they want it done.

A salesman's persuasion can no longer substitute for a car's performance.

To meet this critical market Auburn has gone to unprecedented extremes to produce a car of extraordinary ruggedness and stamina.

We submit the Auburn to you on this basis—

Drive it, compare it, and if it does not do everything that you want a car to do, better than any other, you will not be asked to buy.

AUBURN

THE SPORTS OF A DAY

SALT LAKE RALLIES TO DEFEAT GUNNERS

Umpire Deeble's Decision in Sixth Inning Causes Sensation; Leaves Lot With Police.

OGDEN, July 14 (AP)—Salt Lake rallied in the late innings to win the fifth game of the series from the Gunnerys. The Gunnerys, who had won the first three games, proved the most sensational of the game when two decisions by Umpire Deeble, one on a foul roller and another, on a play at the plate, brought a storm of protest from the fans.

Deeble was escorted from the park at the close of the contest by four policemen.

Camilli, Salt Lake first sacker, eluded a homer in the eighth inning.

Johnny Walters, former Twin Falls pitcher, who worked the final four innings on the slab for Salt Lake, was shut-out in his last game.

DUMPS BELLS TO DEFEAT PHILADELPHIANS

Chicago Gets Jump on Philadelphia

CHICAGO, July 14 (AP)—The Chicago Cubs got the jump on Philadelphia in their five-game series by taking the series—game today—doubleheader, winning the first, 10 to 3, and the nightcap, 3 to 2.

First game—R. H. E.
Chicago..... 10 12 0
Philadelphia..... 3 12 1
Batteries: Ferguson, Walsh, Lennon and Seaver; Malone and Hammett.

Second game—R. H. E.
Chicago..... 3 12 1
Philadelphia..... 2 12 0
Batteries: Frust, Seefeld and Lerian; Neft and Gonzales.

NEW YORK 4, CINCINNATI 2
CINCINNATI, July 14 (AP)—The Giants regained second place by defeating the Reds, 4 to 2, here today, in the first game of the series.

The score—R. H. E.
New York..... 4 9 0
Cincinnati..... 2 6 2
Batteries: Benton and Hogan; Elsky, Kohn and Pleinich.

PITTSBURGH 10, BOSTON 0
PITTSBURGH, July 14 (AP)—Pittsburgh scored its sixth consecutive victory today when Burleigh Grimes shut out the Braves, 10 to 0.

The score—R. H. E.
Pittsburgh..... 10 10 0
Boston..... 0 6 4
Batteries: Brandt, Hollingsworth and Spohrer; Grimes and Hargrave.

BROOKLYN 5, ST. LOUIS 2
ST. LOUIS, July 14 (AP)—After a considerable period of comparative inactivity, the big bat of Del Bossett broke forth with a roar this afternoon to hammer Grover Cleveland Alexander into submission, and with him the Cardinals' Bossett's eighteenth home run, with one on in the seventh; and his ninth-inning triple were the burrage under which the "roomies" marched to a 5-to-2 victory in the first game of their series against the league leaders.

The score—R. H. E.
Brooklyn..... 5 10 0
St. Louis..... 2 13 0
Batteries: Pety and Koch; Alexander, Johnson and Wilson.

Summary: Home run—Camilli; three-base hits—Kennedy; two-base hits—Walters, Hammeck, Hand, Lavigne; sacrifice hits—Jones, Nielsen; 2-hand, Woodson, McShane, Young; hit with pitcher ball—Verges; by Feeley; struck out—by Young 1, by Feeley 1; bases on balls—off Young 6, off Feeley 1; winning pitcher—Walters; losing pitcher—Young; double plays—McShane to McFarras to Verges; Hammeck to Tedevich to Hand; Walters to Tedevich to Camilli; runs batted in—Kennedy 3, Tedevich 1, Hammeck 1, Camilli 1, Hammeck 2, hand 2, Feeley 1, Woodson 1; game 2:24; umpires—Deeble and Herrick.

BASEBALL "BIG SIX"
(By The Associated Press)
With the American league half of the "big six" slitting dice in the rain, the National league members failed to set the world on fire in yesterday's games. Paul Waner did get two singles in four attempts as the Pirates stamped the Braves at Forbes field, but that was the sum total of hitting in the "big six" group. Waner's efforts lifted his average two points to .366—but Hornsby's inability to reach home cost the Boston manager three points and dipped him beneath the 400-mark to 398. Frank Pritch, returning to duty as a pinch-hitter after a long absence, was not retained in the first division.

Summary: Home run—Camilli; three-base hits—Kennedy; two-base hits—Walters, Hammeck, Hand, Lavigne; sacrifice hits—Jones, Nielsen; 2-hand, Woodson, McShane, Young; hit with pitcher ball—Verges; by Feeley; struck out—by Young 1, by Feeley 1; bases on balls—off Young 6, off Feeley 1; winning pitcher—Walters; losing pitcher—Young; double plays—McShane to McFarras to Verges; Hammeck to Tedevich to Hand; Walters to Tedevich to Camilli; runs batted in—Kennedy 3, Tedevich 1, Hammeck 1, Camilli 1, Hammeck 2, hand 2, Feeley 1, Woodson 1; game 2:24; umpires—Deeble and Herrick.

WOMEN PAID LESS THAN MEN WORKERS

Chief of Bureau in United States-Department of Labor Reports Survey Findings.

WASHINGTON, July 14 (AP)—Women as a rule are still paid less than men in similar positions, and the pay differential is increasing, according to a survey of 115 government departments generally underpaid, Miss Mary Anderson, chief of the Women's Bureau of the United States department of labor, has concluded on the basis of statistics relating to women in the government service.

Nearly 80,000 of the half million employees in the executive branches of the government service are women, she found, but only six of these are appointed by the president.

"These women," Miss Anderson said, "have proved themselves at the top of their class. They are not merely political creatures, but hard working, forceful, earnest executives. Wages and salaries may sound big to the average person, but the highest paid woman in the group, who gets \$7500, if her position were compared with that of an executive of similar capacity outside the government service would be found to be receiving a very small part of what a business firm would pay."

A survey of federal positions made by the bureau revealed that only 73 per cent of the women—in contrast to 90 per cent of the men, were receiving more than \$1500 a year.

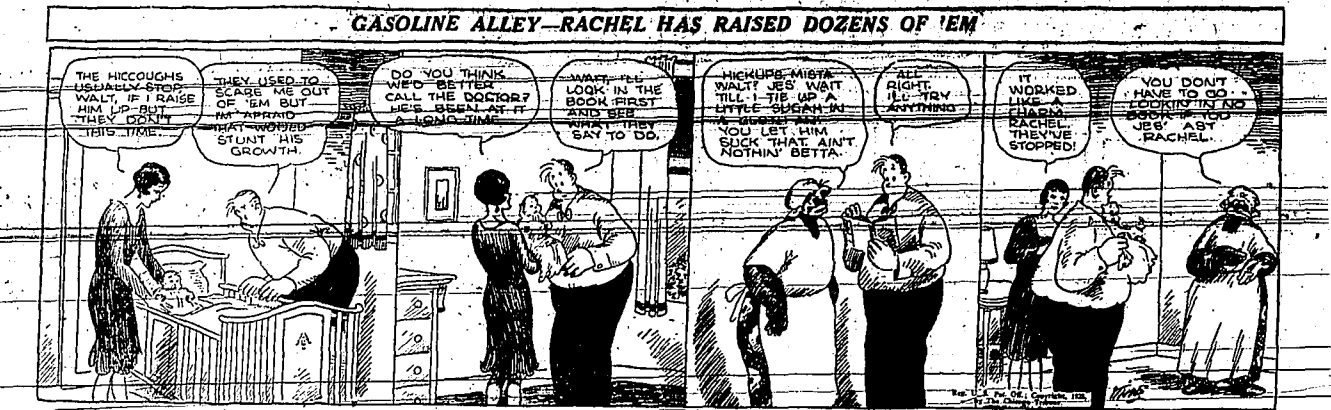

Besides Miss Anderson, the other women in executive positions in the government who are appointed by the president are: Mrs. Mabel Walker Willebrandt, assistant attorney general; Mrs. Beulah Barker, transportation chairman employes compensation commission; Miss Jessie Dell, member, civil service commission; Miss Grace Abbott, chief, children's bureau, department of labor; and Mrs. Mahel Feltecke, director of the Chicago bureau of internal revenue.

Costly Dresses at Fetes in Brittany

LOCRONAN, France, July 14 (AP)—Ten to fifteen thousand francs, \$400 to \$600, is a common price for a belle of Brittany to pay for the dress she wears on special days such as saddle days and wedding festivals.

Once bought, the dresses are carefully looked after. They are given a wonderful costume of sky blue with silver trimming tells with pride that it belonged to her grandmother 70 years ago.

MORE SOAP FOR ORIENT
SINGAPORE (AP)—Malaya, which always has made its domestic soap by hand, is to use the products of a new 4000 factory located here and operating many handling the gasoline whistles. Annual capacity will supply scarcely a third of the demand, however, and it is expected that the importation of more than 16,000,000 pounds a year will not immediately be affected.

Commands Saratoga

REAR ADMIRAL John Halligan, formerly chief of the navy's bureau of engineering, has been appointed to succeed Captain Harry E. Yarnell as commander of the aircraft carrier USS Saratoga (CV-3) at Pensacola, Florida, for a course of instruction in aviation.

Theatres

Screendom's Best In "Lady Be Good"

Two of the screen's most popular and talented players, Dorothy Mackall and Jack Mulhall, unite to produce an evening of entertainment in "Lady Be Good," the first National faced comedy scheduled for showing today and tomorrow at the Oppenheim Theatre.

Based on the musical comedy hit of the same name, "Lady Be Good" promises to be the most popular picture in which the Mulhall-Mackall team has appeared this season. Richard Wallace directed the picture, which boasts a supporting cast including John Muir, Yola d'Arville, James Finlayson, Dolores Farley, Nita Martin, Aggie Herring and others.

Marion Davies at Idaho in "Patsy"

King Vidor, director of "The Big Parade" and accounted one of the top directors of filmdom, wielded the camera on the new Marion Davies production, "The Patsy," which comes to the Idaho theatre this afternoon for a two days' run.

Miss Davies is seen in the title role of the recent season of the famous stage play in which Clara Bow starred in New York and Kay Hammond in Los Angeles. The play is one which Miss Davies has wanted to screen for a long time and in it she does some of the best work of her career. The Davies-Vidor combination is also regarded as an especially auspicious one.

Marion Davies is one of the big stellar drawing cards of the Metro-Goldwyn-Mayer galaxy of stars, and

Paris Soviet Packs Clothes for Vacation

PARIS, July 14 (AP)—Stylish creators are concentrating on their winter collections, but fashionable Paris is in a vacation mood.

With the Grand Prix at the end of the social season, there will be an exodus from Paris. The smart tourists will be on the streets and in the night clubs will be displayed by tourists from other lands.

Only those whose social status is assured remain in Paris after the "Big Week."

Grace Moore, the actress, purchased pyjamas for Lido wear at Lelong. They are of heavy white crepe de chine with long, slightly flared trousers. The coat has a whole fleet of small sail boats putting out to sea. Beatrice Lillie, Lady Peel, selects from the same house a coat for travel and motor wear, which is woven in a square design and has an upstanding collar and wide beaver cuffs.

HATS TRIMMED WITH BANGS

PARIS (AP)—Bangs made of real hair trim the close fitting hats which are designed to resemble either the head curls. These hats from a short distance are utterly deceptive. Bangs fastened beneath the edge of the loques, are of brown, blond, black and red hair.

OREGON TRAIL STAGES

AGAIN VICO WINS

Selected by officials of Boeing Air Transport, Inc. after very strenuous tests of nearly every oil refined in the United States

THE CROWN of victory again goes to Vico! The story of this latest and most far-reaching recognition of Vico should be of particular interest to everyone who uses motor oil, in airplane or motor car.

Vico was selected from among a long list of America's finest oils for use in Boeing planes, beginning July 1st—BECAUSE it meets or surpasses the requirements of Boeing officials! Because the quality of Vico commands the confidence of these officials! Because, among other desirable qualities, Vico has an unusually high "flash point," which means that it resists the heat of roaring motors!

With the advance of air transportation beyond the pioneering stage—with the building of larger, more powerful and faster planes—with the carrying of heavier loads and the establishment of more exacting schedules—there has come the demand for better and more dependable lubricating oil. Higher standards and specifications are demanded by officials of air transport lines! An oil must reach, or surpass, those specifications before it will be selected by the men responsible for the operation of the carriers that wing through the trackless sky!

add four new twelve passenger ships to the fleet. The map below shows the territory it serves. Every Boeing plane flying both of these long routes will, from July 1st on, use Vico for motor lubrication!

What This Means to You!

There is a valuable lesson in this for every motorist who wants to get the best performance, the most economical operation and the longest useful life from his car. If an oil merits the confidence of such men as the Boeing officials, who chose Vico on the results of impartial tests, surely this oil merits YOUR confidence. If you could apply similar scientific tests yourself, you also would find that there is no better oil on the market than Vico!

Try Vico for your next 1000 miles. For the correct grade for YOUR car, consult the Vico chart at service stations and dealers. The Vico you buy there is exactly the same quality as that used in Boeing planes.

Manufactured and Guaranteed by UTAH OIL REFINING CO. Salt Lake City

America's Longest Air Line

The recognized standing of the Boeing lines among the country's air transport companies, gives Vico additional credentials of indisputable character. Operating the transcontinental air route from Chicago west to San Francisco, and a Pacific Coast line between Seattle and Los Angeles, the Boeing organization has the longest line in the United States. It has thirty planes in operation and soon will

get **VICO** PARAFFIN OIL

SWIFT WORKERS IN BENEFIT SOCIETY

Sick and Death Benefits Are Given by Organization—Now Celebrating Coming of Age

Over three thousand employees of Swift & Company in all parts of the world celebrated the twenty-fifth birthday of the Employees Benefit Society of that company, July 12.

At that time the company, said Manager H. H. Barnes, of the Twin Falls plant yesterday.

"A total of \$100,000 worth of insurance is carried on the lives of these employees," said Mr. Barnes. "Workers at every packing plant, branch house, produce plant, oil mill and refinery are members of the Employees Benefit association, which was organized in July, 1907, with 25 members."

"At that time the company agreed to pay the operating expenses of the organization, and guaranteed any benefits that might arise. At the end of the first month, it had 258 members. Now more than 80 per cent of the employees of the company are members."

Grows to Volting Age

"During the 21 years in which the organization has been growing to volting age, it has paid out nearly \$1,000,000 in sickness and accident and death benefits."

"The Employees Benefit association plant, as it is known, pays to employees in return for a small weekly contribution, from \$1 to \$18 a week sick benefit, and from \$400 to \$200 death benefit. Two years ago, in order to make more protection available to its members, the association took on a group insurance plan, which members who wished to take it additional insurance in amounts of from \$2000 to \$100,000 worth of insurance was added by this plan, 38,000 members subscribing."

"Seventeen of the 20 original members of the association are still living, and with other representatives from each division of the company, make up the 29 members of the advisory committee which met in Chicago to revive the past record of the association and make plans for the future years."

Set's Duration Mark

CORNELIUS RISTICZ, above, who with Hans Zimmermann, Junkers pilot, remained continuously in the air for 15 hours 31 minutes, thus beating the Italian duration record by nearly seven hours. The two German fliers dodged severe storms throughout, remaining over Leipzig and Dessau most of the flight.

HONEY HARVEST ON IN MINIDOKA AND CASSIA

BURLEY, July 14—Honey harvesting is now on in Cassia and Minidoka counties. Two cars of cans are being unloaded at Burley for the producers of these two counties. Nearly 50,000 tin-sounding cans will be used for this year's crop, together with about 2000 smaller cans.

The first shipment of the product will be in September. The big producers pack extracted honey only. The market is the Pacific coast, as a rule. Some of the honey goes on to Hamburg, Germany, shipped from San Pedro harbor. In these Snake river counties the bees work in sweet clover, red clover and alfalfa, and pop-over-pure white product of excellent flavor which is in good demand. According to bee men here, no honey is in better demand on the market.

Among heavy producers here are Frank Beach, A. A. Larson and Budge brothers, the latter firm having yards in other counties as well as here. It is estimated that there are some 5000 hives in Cassia and Minidoka counties. Producers look for satisfactory prices this season. In California crop being reported considerably below the average.

BUHL CLUB STUDIES WELFARE ACTIVITIES

Ensign Lottie B. Schell of Salvation Army Addresses Women's Organization.

BURLY, July 14—Ensign Lottie B. Schell of the Salvation Army of Twin Falls addressed the members of the Home Culture club Friday on "Welfare work in Twin Falls county." The meeting was held at the home of Mrs. Alf Livingston with Mrs. Sam Feeler and Mrs. McQuillie assisting. During the business session election of officers for the ensuing year resulted as follows: President, Mrs. N. J. Jordan, vice president, Mrs. Davis; secretary, Mrs. McQuillie, and Mrs. Erickson acting as treasurer.

A special meeting will be called August 10 to discuss plans for the fall work of the club. Refreshments were served to 17 members with their families and five guests.

Byringia club was entertained at the home of Mrs. Stephan Scully Thursday evening with Mrs. Sam Feeler, Miss Funnio Post, present. The afternoon was spent with "500." The next meeting will be with Mrs. Harlan Set, July 26.

The Misses Georgia and Nellie Pierre, Mabel and Gerda Sandmeyer and Mildred Tepley, will spend a few days in Boise over the week-end.

Mr. and Mrs. Roy Blake of Chicago are guests in the home of Mr. and Mrs. V. C. Innes. Mrs. Blake and Mrs. Innes are sisters.

Mrs. Isabel Meredith of Los Angeles is spending a few days at the home of her son, F. C. Meredith, on the route home from Des Moines, Iowa.

Mrs. C. D. Starr and children, Audrey and Bernard, are spending a few days in Portland.

Miss Mary Van Dusen, home demonstration agent, gave the fifth lesson on nutrition to members of the Cedar Road club at the last meeting held at the home of Mrs. John Lunte. Twenty members were present with Mrs. Fred Parish, Mrs. Louise Lunte and Miss Mabel Compton guests. No definite plans for the next meeting were made as the date will conflict with the dates of the women's camp at Guyer. Mrs. John Lunte is attending from the club.

MASONS PLANNING PICNIC

An annual Masonic picnic is to be held on the sunny-fair grounds near Filer on Sunday, July 29. It has been determined by members of a committee of Twin Falls lodge, A. F. and A. M., named to arrange for the affair. Masons and their families throughout this district are invited to attend. The committee is working out detailed arrangements.

WARREN STONE ORCHESTRA TO PLAY FOR DANCE HERE

Warren Stone, leader of the popular demand orchestra, and his orchestra, who appeared during the week at the Orpheum theatre, have consented to return in Twin Falls to play for a dance to be given at the Danahall pavilion on Tuesday evening next, it was announced last evening. The orchestra under leadership of Mr. Stone is a nationally known organization, and has twice toured the Panhandle circuit and played in some of the country's largest theatres.

canning suggestions. A reading, "Her Aliments" was given by Mrs. Goodhue and a reading, "Sensible Driving" was given by Mrs. Beech. Musical numbers were played by a group of the members. Two delegates, Mrs. Clay Cox and Mrs. J. W. Campbell, were appointed to attend the meeting of the West End club July 17. The next meeting will be the annual children's picnic in the city park on July 25. Refreshments were served to 17 members and the following guests: Mrs. Baxter; Grandview; Mrs. Ryan; Rupert; Mrs. Mabel Perry; Pilsner; Mrs. Farley; and Mrs. Ruben Graham.

Mr. and Mrs. J. B. Averill of Oakland, California, are the guests of their daughter, Mrs. Roy Hopkins. They were accompanied by a daughter, Mrs. Ray Ward of Reno, Nevada. The group are all former residents of Elahi.

Mr. and Mrs. Cross Mathews of Sheridan, Wyoming, are guests at the home of Mrs. Mathews' parents, Mr. and Mrs. G. M. Harding.

Mr. and Mrs. A. E. May, Mr. Smith, non-attended sessions of the annual convention of Idaho postal clerks, carriers and rural mail carriers and the auxiliary in Twin Falls Friday and Saturday.

Miss Mary Van Dusen, home demonstration agent, gave the fifth lesson on nutrition to members of the Cedar Road club at the last meeting held at the home of Mrs. John Lunte. Twenty members were present with Mrs. Fred Parish, Mrs. Louise Lunte and Miss Mabel Compton guests. No definite plans for the next meeting were made as the date will conflict with the dates of the women's camp at Guyer. Mrs. John Lunte is attending from the club.

Blight in Bean Fields

Blight has hit a large number of fields of early beans in the West End. Estimates of the damage range from 10 per cent of the crop to one-third of some plantings and some fields are nearly a total loss. Beans planted prior to the cold wet season seem to be affected.

Mrs. Davis Baxter is spending several days in Boise as the guest of friends.

Mrs. S. L. Thurman was hostess Wednesday to the Sunnyvale Social club. Roll call was answered with

Scalded in Shower

A BURSTED STEAM PIPE in her shower scalded Juanita Hansen, stage and screen beauty, that she was unconscious for two days. Now she is in a hospital for skin-grafting operation.

PORTERS LEARN ENGLISH

PARIS (AP)—Just enough pigeon English to get Anglo-Saxon travelers started "hotelewards" is being taught employees of the North Railroad station here. The road is the first to start English classes for its men.

SUN ALL THE TIME

PARIS (AP)—Houses on merry-go-round platforms, to bring the sun to any room at any time, are on exhibit here. Press a button and a four-horsepower motor makes east or west.

IOWA TOMATOES

DES MOINES, Iowa, (AP)—Iowa has been visited by an average of ten tomatoes a year for the last ten years, says the state weather and crop bureau, but most of them were insignificant.

BOY SCOUTS IN BRAZIL

RIO DE JANEIRO (AP)—Boy scouts in Brazil number 32,000—six thousand of them in Rio alone. One of the largest rallies gives a page a week to scout activities.

PLANS FOR HONORING VETERAN ARE OUTLINED

Plans for commemorating the centennial of the birth day of Horatio Harkness, Civil war veteran, last Friday evening, July 20, at 6:30 p. m. have been agreed on by a committee composed of Mrs. Joseph Blake representing the Ladies of the G. A. R.; Merlin Batley, representing the American Legion; and Carl J. Tompcoe, Frank J. Smith and J. W. Boulton, representing the Spanish War veterans at the home of Mrs. Blake Friday evening.

There will be a picnic "baggy" dinner to which members of patriotic organizations, all of Mr. Hart's friends, and all who are interested are invited. An informal program of brief talks and vocal and instrumental music will be given, the details of which have not yet been completed.

Have Perfect Floors

Clean, Smooth, Sanitary, Beautiful

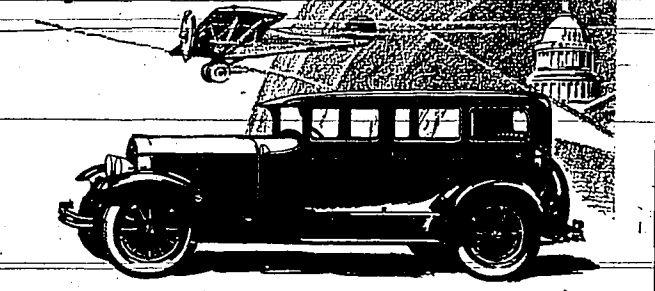

There is no reason for having dirty, worn, unsightly floors. The American Universal Floor Refinisher will clean, brighten, remove old varnish or paint, smooth up the worn spots and make the old floor as good as new. Oak, maple, hard pine, birch, or any wood is easily cleaned and made as smooth as glass. They can be refinished same as when first put down.

Old Floors Made Like New

Newly laid floors are easily and quickly brought to a clean smooth surface by the American Universal method. This method saves the builder or general contractor of back-breaking labor and does the work much quicker, better and at less cost.

VELIE aircraft engine approved by United States Department of Commerce

THIS certificate of merit bestowed upon the sensational Velie aircraft engine which powers the celebrated "Monocoque" is entirely logical.

For this Velie aircraft engine, which has received the endorsement of Uncle Sam, is a refinement—a development of the Velie airplane type automobile motor found in the distinctive

VELIE MOTORS CORPORATION, Moline, Illinois

More than eight years ago Velie recognized the demand for a better automobile motor and designed and built the famous Velie airplane type motor. The Monocoque airplane is powered by the Velie four-cylinder, radial, aircraft engine—a tribute to the efficiency and reliability of its motor motor—the Velie velie-in-head motor which powers the Velie automobile.

Why Buy a 1927 Tire in 1928?

Don't be old-fashioned in tire buying!

The Goodyear Balloon with the new-type All-Weather Tread specially designed for balloon-tire performance is the popular choice for 1928.

This tire—"The Greatest Tire in the World"—will revise all your ideas about balloon-tires.

Its tread insures slow, even wear—no more cupping, "pot-holing" and such troubles. It gives positive, gripping traction. It is a real non-skid tread.

You won't be satisfied with an out-of-date tire, when you see this one!

Come in and see it—Now!

New Low Prices. Lower Than Ever Before
