Many of State's Most Prominent Political Leaders Engage in Fistic Fights; Foes of New Yorker Meet Outside Hall

(By The Associated Press) DALLAS, Texas, Sept. 11.—A maddest scene in Texas history unfolded today at a convention of the state Democratic party here today and organized a separate convention of their own in the blazing sun on the steps of a hotel where the regular party...

Eyes blackened and noses bled as the insurgents, trooping from the hall amid jeers and shouts of "get out, Republicans," attempted to attack the delegates of loyalists. Uniformed officers broke up a half dozen melees before order was restored and the Hooverites repaired to their meeting place on the front steps.

Meeting apart from the regular convention, the Hooverites elected former State Senator Thomas B. Love temporary chairman, named committees and listened to several addresses before adjourning to a convention and leaving direction of their future activities in the hands of the executive committee headed by Alvin S. Moody, Houston.

Both Love and Colquitt addressed the delegates, telling them to go to the homes and prepare for the fight. A set of resolutions adopted by the Hooverites branded the nomination of Governor Hoover as "a gross error" and condemned the "high-handed and lawless methods of the regular convention."

THE SPORTS OF A DAY

WORLD'S CHAMPIONS BATTER PHILADELPHIA INTO 5-TO-3 DEFEAT

With 40,000 Roaring Fans in Stands New York Continues March to American League Title; Ruth Hits Home Run

(By The Associated Press) NEW YORK, Sept. 11.—With 40,000 fervent fans roaring for the kill, the world champion Yankees battered down the Philadelphia Athletics 5 to 3 today, and just about clinched the American League title by pushing Connie Mack's struggling warriors 2 1/2 games behind them.—It was the Athletic's third straight defeat in this super-cruel series.

The kill was cut off until the eighth inning. The Yankees then tied the score with none out, and George Herman Ruth waddled to the plate, found his home-run Lou Gehrig, and sent the home-run home. Mack and Bob Grove elected to fight it out with the Great Bambino rather than frank him to first base, and the battle began.

The Babe, seizing his chance, strove to cross the opposition by bunting the first one, but it was foul on the third base line by a shade. Mr. Ruth next took a called ball, and then it happened.

Yes, into his own right-field bleachers it rode for home run number 40, with all the earmarks of a home run fastened upon it. More than 40,000 strangely partisan New York throats belatedly and almost as many pairs of hands reached for straw hats and handkerchiefs to wipe away the triumphant procession of Lou and the Babe.

Now that the Yankees have been threatened, New York seems to want them to win. The bent form of Connie Mack, the old master, stood on the steps of the Athletic dug-out with a worried wrinkle upon his brow as he peered out at the bedlam and the triumph of the enemy. He was visibly shaken by the blow which shattered his dreams of baseball empire. He then steadied himself and employed his usual tactic of a final assault upon young Henry Johnson, arch-nerveless of the 1924 maximum.

The ninth inning saw Ty Cobb, Eddie Collins and Wally Ferns stride up in turn, first line reserves of the Athletics. The first two had these names, as names alone, would have been enough to frighten the average young pitcher out of the box, but Johnson today.

The young Floridian got to you a shot to knock, stride on a foul by the same gentleman on the defense and French on a weak pop to Meusel. The Yankees had won, and the sporting Mackmen by two and one-half games.

Minibus of Mack Tire
All that remains is that fourth game of this most crucial engagement tomorrow and the finally tally through the week—15 games for the Yankees in the second and 11 for the Athletics.—The trail is now the end of the pennant rainbow and the end of world series play, and the millions of Mackmen are tired.

MANY ASPIRANTS FOR BRUIN TEAM BERTHS

Thirty Sophomores Join First-String Men; One 200-Pounder Tries for Position on Line

Lincoln field was thickly populated with aspirants last night with the addition of 30 Sophomores to the first-string men that have been turning out tonight to the football population when the Freshmen report to Coach Collins. Equipment is already a problem and more money must be raised before the first-year men than ever before in the history of the school.

First-string men received much the same dose last night as in previous seasons. A great deal of hard work on the machines for conditioning, with the backs working at punting and passing. Permittals will be given the Bruins for tonight's work in preparation for the Autumn game a week from this Friday.

200-Pounder Out
While the material that has turned out so far this season does not promise an extra-heavy team there will be weight enough for any high school aggregation. Whoever who tips the scale at 200 pounds is out for his last season and will strive for a berth on the line. Anderson, another 200-pounder has not yet entered school but will probably report this week. Bolf these youngsters have some experience on the line and will be battling for line positions. Baker and Streifus have been holding down tackle berths in preliminary practices and both are husky men with some line experience. Lincoln and Brasfield, veteran guards, both show their old time form. Finch at center performed for one of the hardest days of the season in the district. Martin and Taylor are holding down end positions both have had experience in the same positions. In the backfield, Ward, Pultzer, Shoemaker and Kempton all with experience are fighting for positions. There are a number of men from last year's second string showing up well for early season.

SENSIBLE "DRIVES"

Directors of Twin Falls Chamber of Commerce, in their recent "right" direction - when they advised officers of the Salvation Army and their advisory committee to undertake a "dollar drive" for funds to maintain the army's relief activities in this county...

Only one thing perhaps, would have been better than the suggestion made by the Chamber's directors - and that would have been the establishment of a community chest out of which needs of all organizations which depend to greater or less extent upon gifts of money would be supplied.

There can be no quarrel with any suggestion that tends to relieve the merchants of an excessive share in contributions of this kind. Altogether too often advantage has been taken of their accessibility when drives for funds are launched.

Another thing there were to be but one of our financial drives during the year, there could be no objection at all to the suggestion made by the Chamber's directors. But, as a matter of fact, there are certain to be not one or two, but perhaps a dozen campaigns for funds for various organizations, all of them engaged in commendable work, and all of them worthy of public support.

Work involved in carrying on these various drives, to say nothing of wear and tear on the road will and the patience of contributors, tends to assume monumental proportions. The community chest would be well worth while if for nothing more than concentrating the effort that now is expended in a multiplicity of financial campaigns.

The archeologists, however, did not find the "down-in-the-earth" type of dwellings... they are regarded as ancestors of our own race. They may have been the ancestors of the present Monstrellans and Eskimoes.

It has been fairly well demonstrated that there are at least two elements that have failed to prevent the other, inhuman treatment of those found guilty. The man deprived of his liberty is apt to be harshly treated...

ENROLLMENT IN LOWER GRADES SHOW DECREASE

There is a slight falling off in initial registration in the junior high and grade schools this year as compared with the opening week of 1927.

The total registration in the six lower grades for the present year is 115, compared with 120 at the opening of 1927. The junior high opened with 330 this year and with 323 last year. On the other hand the exact registration of the high school for the first day last year was 725 against 835 this year.

The totals for the system for the two years are 3928 for 1927 and 3904 for 1928. Last year the Lincoln school opened with 615 pupils, the Bickel with 535, and the Washington with 490. This year the Lincoln has 642, the Bickel 411, and the Washington 430. However, the entire sixth grade of 210 pupils has been moved to the junior high school so the discrepancy is not nearly as great in the grades as the figures of entrants to the elementary grades would indicate.

DEMURRER IS FILED IN FELONY ASSAULT CASE

Denying that it would have been impossible for Cio Bush to have used both a pistol and a knife at the same time in an alleged assault, W. L. Dunn, attorney for Bush yesterday interposed a demurrer to the felony complaint filed by the county attorney's office which charges Bush with assault with a deadly weapon upon George Jasper at a Piler dance hall last May 10.

In argument on the demurrer before Judge W. A. Babcock here yesterday, O. W. Witham, county attorney, contended that it was not alleged that Bush used a knife and a pistol simultaneously, but that he used both weapons in the course of a single assault.

The demurrer was submitted at the hour that had been fixed to receive Bush's plea. Judge Babcock reserved his ruling on the demurrer until 2 o'clock this afternoon.

A general demurrer interposed by Mr. Dunn as a defense counsel in the case of John Bradley, charged with second offense liquor possession, attacked the record relative to court proceedings in Bradley's prior conviction of violation of the liquor laws. The demurrer was overruled by the court.

Chicago Introduced To Idaho Potatoes By Twin Falls Man

The Idaho potato, which is marked for its excellence on many eastern hotel menus today, was first introduced to the cultured Chicago epicureans at the Blackstone hotel in that city on November 24, 1911, by H. C. Gettler, Twin Falls. The bill of fare of that hotel on the day mentioned has this entry, "Idaho potatoes boiled or baked." Mr. Gettler still has the menu.

It is an issue of the Chicago Tribune of August 30, 1928, the Belden Stratford, the Webster and the Parkway hotels advertised in their family menus "SPERM Idaho BAKED Potatoes."

Mr. Gettler was in Chicago at the time of this entry, attending the National Land show, which was then conducted there. He stayed at the Blackstone, with the managers of which he had been identified in business and gave them enough Idaho potatoes to furnish a meal.

He suggests that if hotel men throughout the east could be induced to advertise the Idaho bear in a similar way, it would greatly increase its value.
