HURRICANE'S DEATH ROLL SOARS HOURLY IN FLORIDA SECTION

Red Cross Estimates Fatalities at Between 700 and 900; Property Damage Over \$30,000,000; Disease Menace

HURRICANE'S DEATH ROLL SOARS HOURLY IN FLORIDA SECTION

(By The Associated Press.) WEST PALM BEACH, Sept. 20.—A death toll of between 700 and 900 persons, mostly in the Lake Okechobee everglades region of Florida, was estimated by Red Cross officials to have been taken by last Sunday's disastrous tropical hurricane, which after passing through the Florida section, wrought destruction in the thickly populated Palm Beach county of that state.

HURRICANE'S DEATH ROLL SOARS HOURLY IN FLORIDA SECTION

The menace of disease arose as hundreds of thousands of refugees, white, relief workers, worked day and night to alleviate conditions. Property damage estimates ranged from \$20,000,000 to \$75,000,000 for the county, while it was reported not more than 5 per cent of the population in the Florida section.

HURRICANE'S DEATH ROLL SOARS HOURLY IN FLORIDA SECTION

Chapman Howard W. Selby of the Palm Beach county Red Cross committee, declared that virtually all the dead are in the everglades district around Eustachia, South Bay and Canal Point. Previously a death list of 600 had been estimated in the county.

HURRICANE'S DEATH ROLL SOARS HOURLY IN FLORIDA SECTION

Declaring that health conditions are growing worse every minute, Selby said he expected a death list to blank the whole area of 100 square miles under quarantine.

HURRICANE'S DEATH ROLL SOARS HOURLY IN FLORIDA SECTION

A method of remedying conditions was proposed by the Red Cross chairman "to spray the whole section with lime from airplanes."

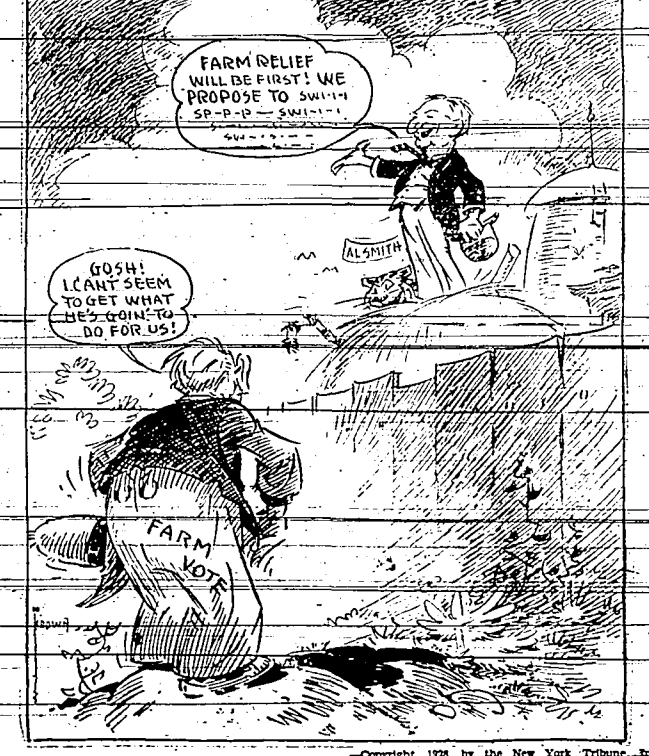

HURRICANE'S DEATH ROLL SOARS HOURLY IN FLORIDA SECTION

Under bodies are recovered and buried by the Red Cross, but a complete evacuation of that territory will have to be effected, including relief workers," Selby said.

HURRICANE'S DEATH ROLL SOARS HOURLY IN FLORIDA SECTION

Workers, he declared, are resorting to burying the bodies in guilddine, and many are being taken up and brought them to the cemetery.

THAT WHISPERING CAMPAIGN

THE SPORTS OF A DAY

MANY GREEN ELEVENS IN MID-WEST FOOTBALL ROCKNE ILLINI STRONG

BRUIN-ALUMNI TILT TO OPEN GRID YEAR

Old-Timers Rest After Second Practice Session; Student Eleven Holds Light Workout

Veteran prison warriors of Twin Falls high school alumni tilted in their camp last evening while Coach R. V. Jones put players of his first-string team through a light workout with kick-off and mental practice on the eve of the clash on Lincoln field this afternoon that is to mark the opening of the 1928 football season for Twin Falls high school.

Alumni players have engaged in two practice sessions in preparation for the game, one last Sunday and another on Wednesday evening. Their work was confined almost entirely to signal practice.

The game this afternoon is to begin at 4 o'clock.

The probable line-up as announced last evening by Coach Jones and by pilots of the alumni squad, is as follows:

HIGH SCHOOL	ALUMNI
Anderson	ends
Brailford	quarterback
Lincoln	guards
Finch	center
Ward	quarterback
Frazelle	Nicholson
Spencer	Kime
Taylor	backfield
Wilkinson	Nye, alumni substitute

WITH A PILE of intersectional games scheduled, the mid-west looks forward to a big year for green teams out in the Mid-West this year, and the prospects are bright. Niemic, Notre Dame and the big ten where Bob Zupke is favored to duplicate his 1927 championship eleven.

CHICAGO, Sept. 20 (AP)—It's going to be a big year for green teams out in the Mid-West this year, and the prospects are bright. Niemic, Notre Dame and the big ten where Bob Zupke is favored to duplicate his 1927 championship eleven.

But—feared teams of veteran players, names of some of the old favorites, including Notre Dame and Illinois, stand out among the pre-season favorites. Nebraska and Missouri also will have strong teams.

Knute Rockne, minus such stars as Christy Flanagan, Buckey Dalman, John Smith, and Elmer Wynne, simply cannot see a winner for Notre Dame. Team followers, however, don't see anything else.

Has Star Half

Knute Rockne, a brilliant half, back to help console him and the straight dope is the great Rockne will arrange to put out his usual high grade team.

Ample test will be available to bring out the real talents of the Rocks. They have their usual hard schedule. For his personal clash with a Big Ten team, Coach Rockne has counting on for much brighter than Wisconsin, billed as one of the best outfits that may surprise. The Bad Jim itself for good or bad on paper gets replace Minnesota, the Rocks' pre-season reckoning, Michigan in annual for three years ending last season.

After the Wisconsin game the Hoosier crew plays the Navy, the Army, Cornell Tech, Penn State and Southern California. There are a lot of other games on several Notre Dame schedules but these are the ones to occupy the attention of the varsity. The "B" and other teams will have regular schedule of their own to entertain them between training clashes with the regulars.

Over at Illinois, whose lettermen have gold footballs as token of their "percentage" 1927 Big Ten championship, everybody but the coaches is talking of great things ahead on the gridiron. The Illini are almost universal choice to repeat in the conference, mainly because Coach Bob Zupke has 15 lettermen back. And these lettermen carried the brunt of a battle in the successful Illini drive of 1927.

Michigan Peer

One team the experts are not counting on for much brighter than Wisconsin, billed as one of the best outfits that may surprise. The Bad Jim itself for good or bad on paper gets replace Minnesota, the Rocks' pre-season reckoning, Michigan in

50 TRY FOR BERTHS ON COLLEGE ELEVEN

Coach Erb Will Choose First String at State University Soon; 13 Lettermen Report

UNIVERSITY OF IDAHO, MOSCOW, Sept. 20—A squad of 50 men, including 13 lettermen and prospective army aviators, are candidates for 15 varsity and freshman squads, is being sent through two workouts daily by Coach P. Erb, head of the football coaching staff at the University of Idaho. From this squad half a hundred, Erb will pick twelve in the next few days a first string and a squad of reserves to oppose Montana-State college here September 29. Montana State has met Idaho in the Vandal opening contest for the last two seasons and each time the Bobcats have proved a tough foe.

Candidates Contend

Arthur G. Cheyne, Oscar d'Aene, William E. Fellen, Otis, California, and Kenneth R. Barrett, Pocatello, have been tentatively placed in the signal-bearing positions. Another active candidate probably will be found in the form of Les Aman, Albion Normal school star, who has indicated he will re-enlist. James S. (Monk) Halliday, Malad, an outstanding end on the freshman squad of 1928, is another to be given consideration in filling the backfield and remainder of the backfield group is in excellent shape with William L. (Big Bill) Kreshinsky, Burley, setting 212-pound fullback here for his second year of varsity play. As running mates he will have Paul V. Hutchinson, Chewelah, Washington; Orville L. Hull, Burley, and Fred R. Robertson, Boise, all outstanding lettermen of last year. Sammy E. Perkins, Albion, is expected to return this week. A wealth of last year's freshman backfield material promises keen competition.

Line Appears Strong

Another heavy line which should rival any of the coast for weight and speed, is shaping itself under Erb.

As a starter, Harvey C. Sumpter, 200-pound guard, will be on deck and has as a running mate, Loyl W. Barker, Hagerman. Center, Lester H. Kishpatrick, Spokane, is a letterman at center and was given first call this year. Coach Erb has tentatively shifted Maurice C. Brimley, Pocatello, outstanding guard of last year, to play opposite S. Gordon Diehl, Piler, regular tackle of last season. Both are past the 200-pound mark.

Fresh Show Promise

Shifting of William R. Rosenbaum, Burley, 168-pound freshman fullback for the other wing, will be expected aid to Erb in maintaining his heavy line. Plenty of competition for the position is promised by the freshmen of last year: Bruce J. Spry, Boise; George H. Scatterday, Caldwell; Elmer H. Martin, Boise, and William D. Bear, Klamath Falls, Oregon, guards; Richard S. Thomas, Walla Walla, tackle; Harold D. Carlson, Warrenton, center; and George R. Seldman, Declo, and J. Peyton Sommercamp, Weiser, ends.

high ground while many negro laborers lived behind the dunes. Chairman Selby denied reports that any slaying had occurred in the stricken area. Plenty of armed guards are on duty, he said.

RAILROAD GRANTS RATES FOR COLLEGE GRID GAME

An excursion rate of a fare and a third for the round trip to Twin Falls for the College of Idaho University of Idaho, southern branch, football game to be played here October 5, has been granted over the Oregon Short Line according to advices received yesterday by Secretary Newell E. Wright of the Twin Falls Chamber of Commerce from D. L. S. Spencer, Ball Lake City, general passenger agent for the Union Pacific system.

COLONIAL RANGES

and water heaters in blue, green, white and yellow all enquire. Trade in your old ranges. Standard Ranges, 312 South Main—adv.

BURLEY ELEVEN TO PLAY ALBION NORMAL SCHOOL

BURLEY, Sept. 20 (Special to The News)—Albion Normal will come to town Friday to play the football season by playing Burley high school at the fairgrounds. Coach John Williams of the home eleven has been whipping a team of practically all new players into shape for this game. The only veterans back to play with the Burley Bobcats this season are Devere Face, who played right tackle last year; and Allen Foregone, who played right halfback.

Coach Williams, who has taken a place of Leslie Bowen, is a Utah Agricultural college graduate and for three years coached the strong Fifth teams. He has from 25 to 40 men on the practice field and believes that this is sufficient material to develop into a satisfactory team. As stated by Principal Earl Ramsey, however, this material is raw and inexperienced and work must be done from the ground up.

GUILTY OF MURDER

LOS ANGELES, Sept. 20 (AP)—Russell St. Clair Belzot, young printer delinquent, today was found guilty of murder in the first degree for the alleged slaying of Barbara Manger, 19 waitress of the Pennsylvania city. No recommendation accompanied verdict making passage of the death sentence mandatory.

CHICAGO WOMAN HONORED

DENVER, Sept. 20 (AP)—Miss Hazel Koppert Riley, Chicago, was elected national president of the Daughters of Union Veterans of the Civil war, at a meeting of the organization in conjunction with the national re-anniversary of the Grand Army of the Republic here today.

WOMEN BANKERS IN POSITIONS OF TRUST

Five of Fairer Sex Presidents of Financial Institutions; Many Hold Important Posts

PHILADELPHIA, Sept. 29 (AP)—How successfully women have won their way to prominence in the realm of finance is disclosed in the list of delegates to the sixth annual convention of the Association of Bank Women, which opens here September 30 to October 4.

Five women bank presidents, three vice presidents, a dozen cashiers and a number of trust company treasurers and secretaries, members of boards of directors and loan committees are expected to attend the sessions in conjunction with the annual convention of the American Bankers' Association.

Miss Flora Buck, Genoa, Illinois; Miss Emma Dierwaechter, South German town, Wisconsin; Mrs. Cora A. Jipson, Blufffield, Michigan; Mrs. E. D. Keith, Sharon, Oklahoma; and Mrs. D. B. Stephens, Allie, Oklahoma, are the bank presidents who will be delegates.

The feminine vice presidents include Margaret I. Kelly, Denton, Texas; Miss Lily M. Hansen, Chicago; and Miss Naomi O. Williams, Long Beach, California.

Among the delegates from 33 states, Hawaii and the District of Columbia, there will be Mrs. C. C. Callender, attorney for a bank at Los Angeles and member of the board of directors and of the bank's loan committee. Also on the list are Mrs. J. W. Callender, secretary and treasurer of a trust company of Gary, Indiana, and secretary-treasurer and director of a finance company in Miss Emma.

The Association of Bank Women reports that 11 women are cashiers of banks, six are members of boards of directors, one a trust officer, one treasurer of a trust company and two trust company secretaries.

The number of women who hold responsible positions in banking is rapidly increasing it is no doubt due largely to the fact that they are prominent in the expansion of facilities for women depositors and women investors that is taking place everywhere in America today, said Mrs. Mary E. Steben, who is with a New York bank.

New ideas for the women's banking department, "Breaking Down Women's Prejudice Against Corporate Fiduciary," credit requirements and informative financial statements are among the subjects on the program.

MISS WILSON LI

BLOSSBURG, Pa., Sept. 29 (AP)—Miss Agnes Hart Wilson, daughter of William B. Wilson, secretary of labor and president Wilson, and herself the Democratic candidate for congress in the sixteenth district, was reported tonight to be critically ill. She underwent a major operation today.

8000-Acre Lake Bed Grows Record Crop

LAKE PRESTON, S. D., Sept. 29 (AP)—Six thousand acres of old lake bed near here have been made to produce one of the largest small grain crops this section has ever seen.

The acreage was the crop that it required 10 threshing machines to harvest the 6000 acres.

The old lake bed formerly was Lake Preston, from which this city got its name. The ground was farmed on a cooperative basis, farmers who own land adjoining the former lake dividing the work as well as the crop.

RAINSTORM DAMAGE TURNED TO PROFIT

Deluge Covers Ranches With Sand-Which Farmers Sell to Road-Building Contractors

SPARTANBURG, S. C., Sept. 29 (AP)—Farmers in several sections of Spartanburg county have not been long in turning in good account the heavy rainstorm which fell there a month ago which wrought havoc to their lands and crops. They are selling, for road-building purposes, hundreds of tons of sand washed into their fields.

The storm was typical of the kind that means disaster so late in the crop season. It flooded the fields, damaged crops, destroyed highways as well as washed out the highways themselves in various places, and otherwise harassed the country.

But "luck" in its turn, the water washed up great banks of high-grade builders' sand.

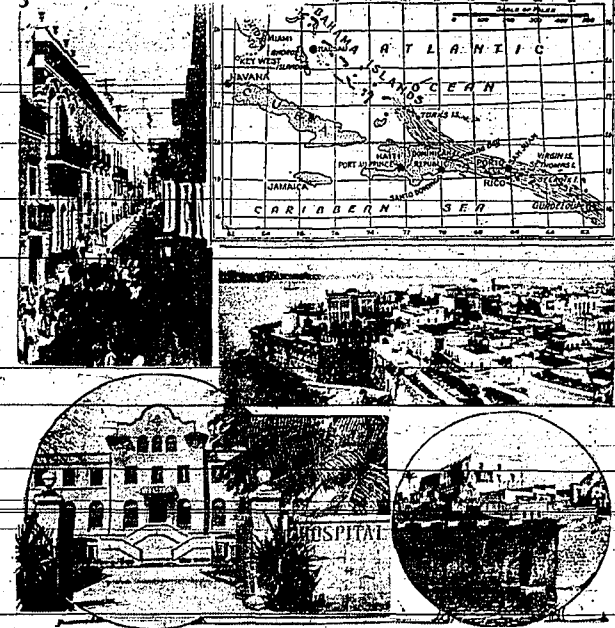

The first single farmer saw the advantage of the storm. It was not enough to compensate him for the loss he had suffered, but it helped to mitigate it. Others joined him and he was "up" long before every farmer whose land had been flooded was hauling sand to nearby towns and cities or removing it to home for highway construction.

The fact that many sections of paved highway are under construction in the county has led to a wide market for sand. The price averages approximately \$1.25 a cubic yard, and during the slack season between planting time and harvest, the farmers are profitably employing their teams and spare hours.

SEARCHERS FIND BODY OF MISSING PROMOTER

LOS ANGELES, Sept. 29 (AP)—Rocks and earth dumped down a canyon by road builders on the Eldorado Route highway, north of here, today gave up the body of Fred J. Walker, missing La Jolla, California, oil promoter, late Tuesday the bodies of Mr. and Mrs. Albert Laitus, wealthy Zeeland, Michigan, residents, were found at the same spot beneath the wreck of Walker's automobile, in which

City Laid Waste by Hurricane

BEAUTIFUL SAN JUAN, Porto Rico, is a city of sadness following tropical hurricane which killed scores, injured hundreds and rendered thousands homeless. Map shows progress of storm which twisted out of Caribbean near Virgin Islands and headed over Porto Rico toward Florida. Left, street scene in San Juan; center, panorama of city; bottom left, Presbyterian hospital, almost demolished by tornado, and, right, famous Casa Blanca, once the home of Ponce de Leon.

the promoter had left Bakerfield August 8, with the couple to inspect all lands in which Laitus had invested \$75,000 through the promoter.

DOCTORS WORK TO SAVE OLD TEMPERANCE TREES

EVANSTON, Ill., Sept. 29 (AP)—Frances E. Willard, founder of the Women's Christian Temperance Union, 80 years ago planted two chestnut trees, marking: "As these two chestnut trees grow and spread their branches so the cause of temperance shall grow and spread."

Now the trees are sick, their leaves are withering and are doctors are working to save them. If successful the Women's Christian Temperance Union will revive the practice of posting bulletins of prohibition election victories on their trunks.

Overseas Short Wave Signals Stronger Now

DANVILLE, Va., Sept. 29 (AP)—Short wave voice signals from across the Atlantic are beginning to improve, listeners here report.

With the days growing shorter and the daylight band across the ocean narrowing, music from P.G.J., Blind

hoven, Holland, 31-4 meters, and GSW, Chemsford, England, is increasing in volume. Particularly is this noticeable with GSW between 5 and 6 P. M., Eastern standard time.

Mauretania Clips Own World Record For Atlantic Trip

NEW YORK, Sept. 29 (AP)—The Cunard liner Mauretania, started tonight, claimed to have clipped 43 minutes from her own world's record for the Atlantic crossing from Cherbourg to New York. She completed the voyage to Ambrose channel light in five days, two hours and 34 minutes, Captain McNeil, master of the ship.

Her previous record, made last July, was five days, three hours and 17 minutes.

TRANSPLANTING MACHINE HELPS PHILIPPINE RICE

AMES, Iowa, Sept. 29 (AP)—Silvero Capistrano, graduate student at Iowa state college, is the inventor of a device that is believed by college authorities to be the first ever transplating machine of its kind ever made.

It plants two rows at a time, with the plantings 16 inches apart each way. It has been tested satisfactorily from a theoretical standpoint and soon is to be tested for practicability.

Rice in this country, is drilled much after the manner of wheat, but in the Philippines it is sown in beds and transplanted by hand. The machine is designed especially for work in the Philippines where water buffalo supply the motive power. Philippine students at Ames have been actively concerned with agricultural problems of their native land and the machine was inspired by a desire to facilitate the rice transplanting process which is one of the chief farming pursuits.

ONE SuperMaid-Cooked Meal Will Quickly Prove that there is a difference

A delicious and healthful eight course meal—cooked and served by the Super Maid representative at his own expense—will be a lasting pleasure and bring a new knowledge to you and your guests. You will understand the advantages that Super Maid Service offers through a Super Aluminum— that cooks without water, bakes without an oven, and fries without smoke. A Super Maid luncheon will enable you to realize how much easier it is to prepare a variety of novel, tempting and nourishing dishes.

The Secret Process used in making **SUPER MAID COOK-WARE**

is the reason why it will do things no ordinary cooking utensils will do

It's a million dollar secret—but the results speak for the wonders accomplished by this discovery. You can't see the difference, but you can taste it. You can cook potatoes, spinach, corn, turnips, cauliflower, peas, and meats of various kinds without water. The life-giving vitamins and minerals are there—and so tastily cooked that every bit of a Super Maid meal means health as well as delight.

In Your Own Home—the Super Maid Representative will demonstrate as much difference as between platinum and tin

Let the Super Maid representative tell you all a Super Maid Free Luncheon the interesting story of Super Maid Service. He is at your disposal—willing and anxious to serve you with a real treat and a new knowledge of life time health.

GIRL RESERVES OPEN DRIVE FOR FINANCES

Campaign Launches With Noon Meeting of Delegates From Four Centers; Goal \$2300

Delegates from Twin Falls, Eden, Hansen and Hazelton attended the luncheon meeting at the Rogers home yesterday which officially launched the Girl Reserves campaign for \$2000, which with donations of \$300, will meet the cost of maintenance of the center in the Twin Falls district during 1929. Built will raise the quota apportioned to that center without public subscription, and files the same work in the district, will complete its drive today.

Twin Falls will, according to plans, raise \$100 during the campaign here. Ten meetings were appointed at the meetings yesterday to conduct the drive in Twin Falls. Reports on the success of the collectors will be made at a meeting at 4 o'clock this afternoon in the Blue Triangle club room in the high school.

Girl Reserves Sing The meeting yesterday was presided over by Mrs. E. W. Warner, district president, and Mrs. C. V. Parks arranged the luncheon. After songs by Twin Falls Girl Reserves, several addresses were given by the representatives of the organization and its activities. Superintendent W. B. Smith of the Twin Falls schools declared that the organization has a character building agency and cited B. C. Forbes, famous business expert, as saying that the greatest discovery in the realm of business is that the biggest losses are caused by wrong thinking due to wrong thinking. He said that preventable losses could be largely eliminated through such agencies as the Girl Reserves.

Lists Work's Values Mrs. Frankie Barnhart spoke on the value of the work to the individual girl. Miss Elizabeth Black, New York, Young Women's Christian association financial expert who is district campaign director, explained the budget and gave final instructions to the teams which expect to complete their canvase this week.

The personnel of the tennis is: Mesdames D. O. McCulley, T. C. Bacon, E. Ashby, O. C. Hall, D. D. Alvord, C. C. Patton, Ray Arce, J. N. Cline, C. A. Pool, O. W. Williams, W. H. Eldridge, B. N. Tendall, C. D. Twin, Jack Pennington, Glen Fritchler, Parks, H. L. Haviland, A. C. McMaster, William Baker, Richard Smith, T. H. Hodder, E. W. Bolin, J. M. Maxwell.

From Twin Falls via Oregon Short Line Railroad. Tickets good only in coaches or club cars and limit for return to home destination before mid-night of October 1st.

Willie Willis FROM ASSOCIATION

It looks as ever time I'm trying to be good some old cat will come along when I've got a rock in my hand

MOTOR ASSOCIATION TO ENROLL MEMBERS HERE

The membership campaign of the Metropolitan Automobile association of California will be continued in Idaho with complete sanction of Idaho state and county officials. It was determined as a result of a conference here Wednesday evening between representatives of the Idaho state department of insurance, the Metropolitan association, and O. W. Williams, Twin Falls county attorney.

Accidental to the conference it was agreed that complaint against M. F. Arnold, an agent of the Metropolitan association, should be dismissed. Mr. Arnold had sold a number of membership certificates in and about Twin Falls, was arrested in Boise some weeks ago at the instance of some Twin Falls insurance department, which charged that he had violated terms of the Idaho insurance license law.

STUART TAYLOR BECOMES SCOUT DRIVE TREASURER

Appointment of Stuart H. Taylor to be treasurer of the drive for fundations by various Twin Falls organizations were named. Members of the first committee which it is to interview concerning the Twin Falls Scout Council who is general secretary of the drive, committee to handle important phases of the campaign also was announced by the chairman.

HEIRS ASK \$25,000 FROM ASSOCIATION

Family of K. S. Peters, Former Local Man, Alleges Employer Would Not Pay Award

Heirs in Long Beach, California, of K. S. Peters, one time manager of the Mutual Building and Loan association, are suing the California Building and Loan association, Peters' employer at the time of his death, for \$25,000 damages for alleged refusal to pay an award made by the California industrial accident commission. The suit is expected to be tried in Long Beach next Monday.

Word of the suit came to Twin Falls in letters from Long Beach attorney Charles E. Jones. Twin Falls county deputy sheriff, who about a year ago made an exhaustive investigation of circumstances in connection with Peters' death, and who it was thought, might be called to California is a witness in the trial of this action.

Question Identity Conclusion reached by Mr. Jones as a result of his investigation was that Peters had died from effects of over exertion, heat prostration and intoxication. The body was buried in the Death Valley desert of California, some weeks after Peters had left his home in Long Beach for a business trip early in the summer of 1928. There was considerable doubt over accuracy of the identification of the body, which was cremated soon after its discovery.

On the basis of Mr. Jones' report, the state of California issued a death certificate and Peters' life insurance policies were paid to his widow. Seek Greater Judgment In the great judgment, Mrs. Peters and other heirs are seeking judgment for damages five-times the amount of the maximum award of \$5000 which industrial accident commission. Soon after making the award, it is stated, all members of the commission refused their offices and their successors repudiated the award. It is alleged in defense against the claims of Peters' heirs that Peters had "died" come to his death as a result of an accident, and that the California commission does not have jurisdiction except in case of accidents.

NO "SALES"
but Low Prices Every Day of the Year
Why Don't You Hold "Sales" Like Other Stores?—We Are Frequently Asked
Our Answer Is—
We buy, and sell only standard, first-quality goods. We do not handle bankrupt stocks, imperfect goods or "seconds." Hence we have no pretext for "reducing prices."
New goods are arriving at our store almost continuously. Nothing remains on our shelves long enough to become shop-worn. Hence there is no occasion for our holding "price slashing events" to get rid of such obsolete merchandise.
When new merchandise is received at this store the lowest possible price consistent with the market value of the goods is placed on it. You get the advantage of this low price EVERY DAY and not alone on special "sales" occasions.

Winning Confidence Every Day and on Every Purchase Is the Foundation of This Business!

TWIN FALLS, IDAHO, FRIDAY MORNING, SEPTEMBER 21, 1928.

NEWS OF THE DAY AS CAUGHT BY THE CAMERA

WINGS! WINGS! WINGS!—Like a swarm of bees do these airplanes look roaring over Los Angeles, Calif., in the greatest aerial demonstration since the war. They are just a few of the 500 craft of all kinds which put on a show at opening of National Air Races.

ROYAL VISITOR—While H. R. H., the Prince of Wales, and his brother, Prince Henry, are en route to Africa for a big game hunt, their brother, the youthful Prince George, is a visitor in California. He is shown above with Captain C. L. Coleridge, of H. M. S. Durban.

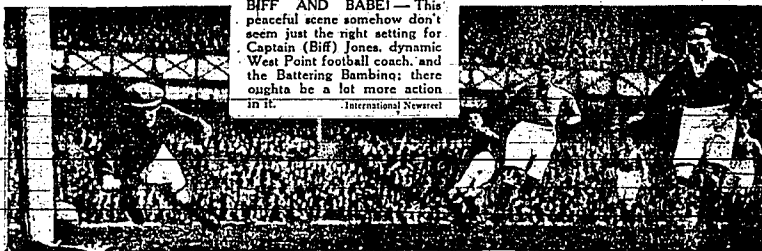

BIFF AND BABE!—This peaceful scene somehow don't seem just the right setting for Captain (Biff) Jones, dynamic West Point football coach, and the Battering Bambi; there oughta be a lot more action in it.

VICTORY AT LAST—Though Ishak Helmy, giant Egyptian, tried for 10 years to swim English channel, it wasn't until the other day that he was successful. The picture shows Helmy (left) and his trainer at the end of the swim. His time was 23 hours 41 minutes.

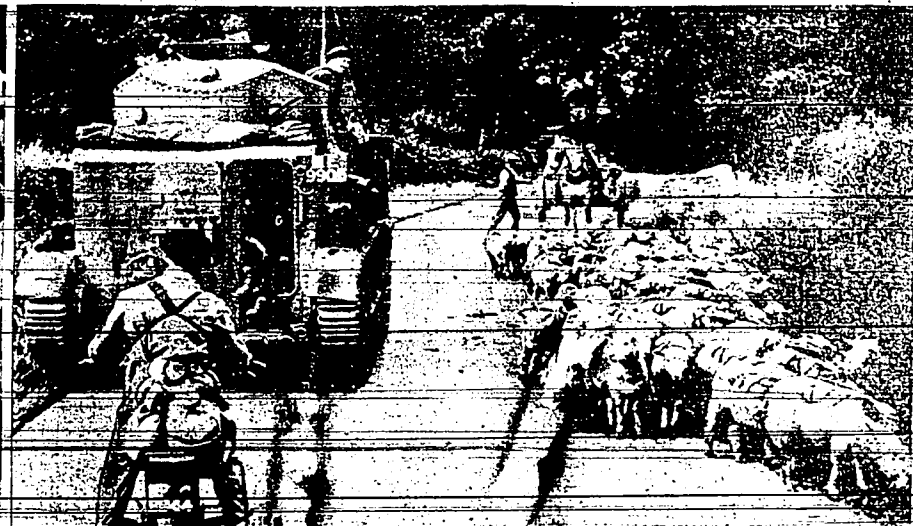

BREATHLESS SPEED—Here's a ticklish moment in Ulster Grand Prix (for motorcycles) with three of leaders—Johnson, Andrews and Taylor—riding hard to take the pole. Graham Walker captured first place with speed of more than 98 miles an hour.

OVER THE LINE!—Here's the first goal in soccer game between Everton and Portsmouth (England), made as result of thrust by Dean, centre-forward, of first named team. The opposing goalie made desperate though ineffectual attempt to prevent the score. The Everton team was victorious.

A FRAGONARD COMES TO LIFE—Louis XV and Mme. Pompadour are portrayed above in a pageant of the great days of Versailles. The actors in the historical tableaux comprised officers of French army and their families.

WAR AND PEACE!—This photo of war and peace on quiet English countryside was taken during recent British maneuvers. It shows one of newest type tanks passing shepherd and his flock.

BABSON DISCUSSES CALL MONEY RATES AND TYPES OF LOANS

Banks Offer Surplus Funds to Brokers Under Demand Contracts; Sky Proves Only Limit to Interest Percentages

(Special to The News)

BABSON (Special to The News) Sept. 20.—Judging from much that is written and spoken nowadays on call money and call money rates there is often a lack of clear understanding of just what they are and how they fit into the financial picture.

Roger W. Babson, finance expert, in his weekly "Interview," there are, of course, several kinds of loans, and call loans differ from the others in certain vital respects.

There are commercial loans, time loans, acceptances, mortgages, etc., but all of these are for longer duration than call loans which are payable any time on "call" demand. Also there is the kind of loan which the college boys know as "kathleen-Mavournean-loan" it may be for years and it may be called. Call loans certainly are not of this kind. They are either paid when collected or the securities held by the bank are sold. Also, they may be paid off at any time the borrower wishes.

Call Loans Finance

The purpose of call loans is to finance "margin" securities. They are made by banks to brokers at rates fixed by a committee of the stock exchange. Many loans are also placed on loans for the account of their out-of-town correspondent banks, for individuals, and corporations. Usually the broker who represents the bank either on salary or commission. Each day the lending bank determines the amount of surplus funds which it wishes to place temporarily in call loans. The bank notifies the loan broker of the amount and size of blocks in which it wishes its loans made. Ordinarily, stock-exchange loans are placed in blocks of \$10,000 or over, but lately the recent ruling of the New York clearing house banks making that figure a minimum of blocks of \$25,000 up were occasionally placed.

No note is used in making stock exchange call loans, but a contract which covers all loans so long as the broker continues to borrow is lodged with the bank. This contract gives the bank the right to sell the broker's securities deposited with it, or to make further note after a call for payment is made and is not forthcoming the same day. In calling a loan the bank notifies the broker before 12:15 and he must pay it before 2:15 and receive his deposited securities. If he wishes he can arrange to obtain in loan clew, a process known as "shifting loans." Thus call loans are a very liquid type of investment.

Interest on Call Loans

As stated above, the rates on call loans are determined each day, and in times of great market activity such as the present, are apt to fluctuate widely depending upon the supply and demand. Although the interest rate may change many times during the month, the custom of the street is for banks to collect their interest monthly.

There is no limit to how high this interest rate may rise. In 1920 call loans were at 25 per cent for a brief time. Of course when the rates get too high it is evidence of an overloaded condition and is a signal for caution. Liquidation of security markets is the only way such a situation is relieved. That is why many conservative bankers are today issuing warnings about the tremendous in-

Prince George at Hollywood

Call Loans and Corporations

"New York banks have been accustomed to placing call loans for their correspondent outside banks and also for corporations and individuals," says Babson. "There are, of course, several kinds of loans, and call loans differ from the others in certain vital respects."

There are commercial loans, time loans, acceptances, mortgages, etc., but all of these are for longer duration than call loans which are payable any time on "call" demand. Also there is the kind of loan which the college boys know as "kathleen-Mavournean-loan" it may be for years and it may be called. Call loans certainly are not of this kind. They are either paid when collected or the securities held by the bank are sold. Also, they may be paid off at any time the borrower wishes.

Sources are Shown

"This clearly shows that the vast sums of money being getting into the stock market are coming mostly from sources outside of New York City and to a large extent outside of the United States," says Babson. "The rising rates for call money have attracted huge amounts of such money from rich companies this year. While investing in the call market has long been practiced on a moderate scale by wealthy corporations and individuals, never before have they had so much surplus cash for investment, at a time when call rates were paying the college boys more than bank deposits of income. As a result there has been an increase of over \$10,000,000 in loans for others' since January 1 of this year. At the same time New York banks have been reducing their own call loans. Since the beginning of May these banks had reduced such loans from \$1,229,000,000 to \$700,000,000."

Charge For Call Loans

The banks are determined, however, that they will charge something for placing call loans for the account of others. The new rules of the New York clearing house banks, which have just gone into effect, provide a fee of one-half of one per cent to the banks for placing such loans. Also they limit the amount to a minimum of \$100,000, thereby helping to eliminate a lot of bothersome small blocks. These rules do not have any noticeable effect on the amount of new loans placed, and have not caused corporations to withdraw their call loans. The service charge of one-half of one per cent still leaves a good return at 7 per cent, or 8 per cent, call rates, better than they can obtain on bank deposits or in short term bonds. Therefore, total brokers' loans continue to increase and the stock market situation becomes increasingly more dangerous.

Call Loans Assets

Look at the balance sheets of our big corporations as of June 30, 1928.

PRINCE GEORGE of England, youngest son of the present king, recently spent a day in the neighborhood of Hollywood and Beverly, California, where he dined at the home of Douglas Fairbanks and Mary Pickford and met several other motion picture stars, including Gloria Swanson, Lili Damita and Lupe Velez. Here he is in informal conversation with Miss Collier. The prince is said to be earning quite a reputation for the immediate good-fellowship out on the coast.

Many of them show items on the asset side ranging from \$1,000,000 to \$10,000,000 under the heading "call loans." They are lent to the stock market because the rates are high, the loans very liquid, and, with proper handling by the bank's loan department, are very safe. This is perfectly legitimate. However, the question arises as to how much further ex-

panation in loans, the supply of money outside of additional banks, can support. The Federal reserve banks have "served" notice that they do not intend to supply funds for the call money market or for collateral loans. They had hoped that member banks would reduce their reliance at their respective banks in preparation for the fall money demands for crop moving

Hills Bros' Arab says

★ HILLS BROS

Coffee is more than something hot to drink

Hills Bros' process of Controlled Roasting gives their coffee an exclusive flavor.

Look for the Arab! That's the sign of the genuine Hills Bros. Coffee. It's famous coffee of uniform deliciousness because every berry is roasted evenly by Hills Bros' exclusive continuous process. No ordinary method of roasting could produce such a marvelous, full-bodied flavor.

Hills Bros. Coffee is packed in vacuum. All the rich flavor and exhilarating aroma come to you intact. Ask for Hills Bros. Coffee by name and look for the Arab on the can.

Frank from the original Hills Bros. Coffee

and business. But the banks as a whole continue in an over-extended condition.

Special means of expansion the call loan market gets most from outside the bank. The speculators should remember that the call market is over-extended. The supply of credit outside of the banks they may suddenly come up against a surprise. From a time of course, high call rates will attract increasing funds, but if they get too big and the supply gives out, a big smash in the stock market will be the only remedy. Business by the Nationalist continues at 2 per cent. below normal.

News Want Ads reach the people you wish to attract.

Mothers Proriteer With Marriageable Daughters-in-China

SHANGHAI, Sept. 20 (AP)—The Nationalist government has decreed that mothers of marriageable daughters are entitled to no more than \$150 from future sons-in-law.

If the gift is in violation of the limit, \$100 Nationalist authorities took action after examining evidence of profligacy by mothers, particularly in South China. A "duci" of the Communist front, their say has been due to the fact that young men are attracted in large numbers by the Communist aim for free marriages. By controlling the marriage market they believe they are striking indirectly at Communism.

RING LOST SIX YEARS

HARRISON, Mo. (AP)—Rains and freshets of six years failed to disturb a ring lost on the bank of Crooked river. The ring who lost it in 1922 has recovered the ring at the spot where it disappeared.

MEMORIAL FOR EDITOR

PORTLAND, Ore. (AP)—The memory of Harvey W. Scott, noted western editor who died in 1925, is to be honored. United Burgum, Scott was asked to come to Portland to consult with relatives of Scott and pick a site for the memorial.

TEMPERATURE RISES OVER ENTIRE STATE

Fruit Harvest Progresses In Twin Falls Area; Light Rains General; Frosts Do No Harm

BOISE, Sept. 20—Weather conditions changed from cool temperatures and light to heavy showers to temperatures above normal for this season during the week ending last Tuesday, according to the weekly weather summary issued by the Boise weather bureau of the federal department of agriculture.

In southwest Idaho, including the Twin Falls district, the week opened with light to moderately heavy rains in the lower country and snow on the ridges through this district. Following the rains, which interrupted plowing or so, frosts occurred in many localities, but no material damage resulted.

In northern Idaho the first of the week was cool with light rains in the valleys in the south and snow in the mountains in the north. Light to heavy rains in the north were reported in the northern sections and in the mountains. When harvest is practically completed and threshing is about completed, some potatoes are being dug for market. The range is very dry and it is too dry for fall plowing or the seeding of winter wheat.

In north Idaho cloudy and unsettled weather with light rains was followed by ideal autumn weather. Temperatures were below normal but have risen to above normal at present.

Investing in completed. Seedling of fall wheat is in full swing. Apples are coloring rapidly and picking has begun in Lewiston orchards and Clarkston Heights. Grapes and tomatoes are still quite plentiful.

Notes From The Field: Rupert, Blaine county, weather conditions are generally good. Third cutting of alfalfa is now starting in favorable localities, but will average light and yields will be cut on many farms. Wheat is not as good as last year; very few potatoes in this section.

NATIONAL GIRLS' WORKER AIDS BUHL DRIVE STAFF

BUHL, Sept. 20 (Special to The News)—Miss Elizabeth Bick, national finance worker of the National Girls' Worker, was here today to assist the Adult committee of the Girl Reserve Wednesday afternoon to discuss the drive for funds to complete the work of the district during the coming year. The local organization plans to raise funds toward the aid of potatoes in the Twin Falls district during the past year gave candy and cooked food, also to replenish the treasury.

Dead Stunt Flier

Dr. Helen Fritz was re-elected president of the Business Women's club at a recent meeting and Mrs. A. J. Fink was elected to serve as the president. Miss Nell Sandgren is secretary and Miss Pauline Herman, treasurer. A lengthy business session was conducted and plans were formulated for a membership drive which will be conducted in the near future.

Senior class officers who have been elected to serve the coming year are: President, Mabel Weaver; Secretary, Frankita Ott; Councilman, Glenn Davis. The senior advisor has not yet been appointed.

BUHL RESIDENT DENIES CHARGE OF TRESPASS - BUHL, Sept. 20 (Special to The News)—Ed Abbl, Buhl, accused by W. L. Tooley of tearing down a fence and leaving a gate open last Monday, denied the charge. Tooley filed a misdemeanor charge of trespass on arraignment in probate court here yesterday. Judge C. Bailey did not fix definitely the time for hearing in the action.

BURLEY REBEKAHS ELECT DELEGATES TO ASSEMBLY - BURLEY, Sept. 20 (Special to The News)—Rebekahs have selected delegates to represent the Burley chapter at the assembly to be held at Moscow the week of October 15-17. The delegates are: Mrs. E. C. Stephenson, first delegate; Mrs. Effie Howell, second delegate; Miss Pauline Congdon, third delegate. Miss Congdon is an instructor at the state university. Mrs. Stephenson was also elected secretary. The assembly will be held at the home of Mrs. Congdon. Rebekahs will meet at Moscow during the session of the sorority conference of the Independent Order of Odd Fellows.

Growth of Antlers - The antlers of elk and deer are shed once a year, usually in February. The growth of the antlers is completely developed. The material of which the antlers are composed, internally, is the same as that which forms the hair. A healthy and vigorous elk or caribou grows its antlers at the rate of one-third of an inch per day. New ones are fully started in the fall.
