THE SPORTS OF A DAY

RAIN HALTS YANKS' MARCH TO WORLD'S CHAMPIONSHIP FLAG

Commissioner Landis Authorizes Postponement of Fourth Game; 400 Fans Turn Mournfully Away; Wait For Hours

(By The Associated Press)

ST. LOUIS, Oct. 8.—The Yankees were stopped today in their rush toward a second successive world's championship, but not by the Cardinals. A downpour of rain early this morning swamped the playing field at Sportsman park to such an extent that Commissioner Landis authorized postponement of the fourth game. The weather prospects favor resumption of the series tomorrow, and playing prospects indicate its abrupt end unless the National league champions show a remarkable reversal of form. The decision to postpone the game, made at 10:15 A. M., more than three hours before the scheduled starting time, not only disappointed thousands of fans but aroused considerable protest. After virtually three hours of steady rain, Sportsman park was a morass, with big pools of water in the outfield and the streets along the foul lines slippery with mud. But the infield proper was fairly well protected by heavy tarpaulin, carrying off most of the downpour, and the field dried quickly when the sun came out and a brisk breeze blew up.

Experts disagree. The ground still was a bit soft in spots at 1:15 P. M., but it seemed to the small cluster of disappointed fans and experts who gathered to inspect the situation that an emergency corps could have put the field in good playing shape.

Commissioner Landis, however, after poking his celebrated cane into the turf, backed up the earlier decision and expressed the conviction it was too soft for combat. It was a bitter blow, however, to some 400 of the faithful who had turned up to witness the game after several hours' waiting in the reserved sections were not opened at their scheduled hour, 8:00 A. M., but the fans stuck to their positions and took a thorough wetting for two hours more before the game was called off.

About 30 enthusiasts had been in line all night, including several women. Breathing spell. The effect of the postponement, first since 1925, when the contending teams was variously interpreted. For the Cardinals, it was at least a breathing spell, a chance to rest and perhaps check the demoralization that has so far gripped the National league champions.

But if the day of rest benefited the Cards, it also had its advantages for the aching limbs of the Yankee cripples. In addition to giving Walter Hoy, one of the New Yorkers' twining staff, a four-day interval of relaxation before tackling the Louis tomorrow.

Hoy, who held the Cardinals to three hits in the opening game with a masterful exhibition, is the definite choice of Manager Miller Huggins. The extra day also benefits Willie Sherdel, veteran Cardinal southpaw, who will attempt to break the tie tomorrow and beat the champions. Willie has yet to get a decision over the Yankees in three starts.

McKechnie hopeful. It would be a miracle for the Cardinals to stage a winning comeback after the way they not only have been outplayed and out-hit but also outsmarted in the first three games, out-

YANKEES WIN THIRD GAME OF SERIES BY 7-3, LARGE CROWD

Gehrig, Batting Hero of Day; Lashes Out Two Home Runs; 39602 Fans Witness Contest Which Dimis St. Louis' Hopes

(By The Associated Press)

NEW YORK, Oct. 8.—The New York Yankees splitted the St. Louis Cardinals by a score of 7 to 3 Sunday, taking the third straight game of the world's series and their seventh straight victory from a National league contender in the fall classic. A record crowd for Sportsman park—39,602—paid attendance—was the National league's worst for a defeat that about ruins their

chances for winning in the world's series. Gehrig was the batting hero of the day, lashing out two home runs. The official box score...

BRUIN CUBS TO MEET CASTLEFORD'S SQUAD

Underclass—Pigskin—Chas. & r. in First Offensive Scrimmage; Prepare for Battle

Twin Falls Bruin cubs took on their first offensive scrimmage last night in preparation for their first game which is scheduled for next Thursday afternoon at 3 P. M. at Castleford. Although the Cubs have furnished resistance for the first string, they have never been able to use their signals against an opposing squad. Last night Coach Peck brought over his underclass squad and the cubs proceeded to do things to the opposing line.

The cubs were late in getting under way this season and have a good many of last year's string back and have developed some new material that is promising. Vance at quarter; Thomas and Smith at halves; and Town at full back make up the backfield. Stripes at center, Assen-drup and Davis at guards, Murphy and Larson at tackles, and Weaver and Stumpf at ends, make up the line. The cubs have plenty of drive and are developing plays to be used later in their schedule.

The first string Bruins last night took on a hard signal drill in addition to the regular blocking and tackling work. No serious injuries were recorded—as a result of the Bruin contest. Lincoln received a cut under an eye that required four stitches to close but was out last night with a bandage. Baker has been out of practice for the past week but has not yet been able to report for work. He is a likely candidate for a tackle berth, and his absence is felt.

The game with Oakley Friday will not be a setup, according to the Bruin manager, as the game against Pocatello. The game will be called at 3:30 P. M.

MRS. REED SMOOT ILL WASHINGTON, Oct. 8.—Mrs. Reed Smoot, wife of Senator Smoot, Utah, was reported today to have had a relapse and her condition was said to be serious. She has been in poor health for two years. Senator Smoot, who is in Salt Lake City, was advised of his wife's turn for the worse.

Demand for Reserved Seats for Grid Game of Colleges Developed

Vigorous demand has developed for reserved seats at the College of Idaho-University of Idaho, southern branch, football game to be played on Lincoln field here next Saturday afternoon. It was stated last evening.

A block of seats in the middle section of the bleachers has been reserved. Other seats in this section have been made available first to fans of neighboring towns.

A prime incentive for securing reservations is the fact that no greater price is charged for reserved seats than for general admission to the grounds on the day of the game, so the advantage of early purchase is plain.

EVEN UP SERIES CHICAGO, Oct. 8.—Playing with their backs to the wall the White Sox today evened up the series for the city baseball championship, defeating the Cubs, 7 to 1, in the sixth game at Comiskey park before 10,000 fans, the smallest crowd of the series.

MOTORISTS RECONSIDER REFUSAL TO PAY TOLL

Two automobile travelers made a hasty payment of toll for crossing the Twin Falls-Laramie bridge late Saturday night when it was reported to the police that they had declined to pay a toll. They were overhauled here a few minutes later by A. M. Peters, merchant's police officer. Report to the officers stated only that they were carrying a "red" colored license plate had evaded the toll-taker.

The offenders have the names of W. M. Shearer, Warsaw, Idaho, and his companion, Clarence D. Criswell, Kansas City.

Bill McKechnie, their manager, is still clinging to what slim hope is left.

Miller Huggins starting put on his lineup and will start Tony Luzzari again at second base tomorrow in spite of the obvious handicap of the second baseman's bad throwing arm.

Huggins has been meeting some shifts, as situation have offered, but regards Luzzari as the infield keystone, even in "dubious" condition. "Earle" Combs' injured wrist has healed rapidly but Huggins intends to start Ben Paschal in centerfield tomorrow, if Sherdel pitches, or Celtic Duroch if a right hander takes the mound for the Cardinals.

PERMIT CALLS FOR INTERPRETATION OF ZONING REGULATION

Application for Permission to Build Addition for Residence Purposes to Grocery Presents Question to City

Application for permit to build an addition for residence purposes to a suburban grocery presented a question of interpretation of the lately adopted zoning regulations that Twin Falls city council in session last evening checked up on Mayor R. E. Zobler in his capacity as building inspector.

The application was presented by Mrs. James Burmeister, owner of the property. It asked for permit to build an addition, 14' by 28' feet, on the north side of the building occupied by the Elm Park grocery on Blue Lakes boulevard between Fifth and Sixth avenues east. Cost of the addition was estimated at \$300. The property is situated on the line between first and second class residence districts as defined by the zoning ordinance. The ordinance prohibits establishment of new business houses in either of these zones. The council voted to grant the permit subject to the building inspector's approval.

Two other applications for building permits received approval of both the council and the building inspector. Ray E. Logan obtained permit to build a workshop, 8' by 12' feet, costing \$150, on lot 2, block 6, and Helen A. Lind, 244 Fourth avenue north, was granted permit to build a garage, 18' by 24' feet, at a cost of \$400.

The council deferred its decision with respect to acceptance of a lease tendered by the Oregon Short Line embracing a strip of land approximately 7000 feet long at the edge of Mirinda street, which is property owned by the railroad but which has been graded and is used as part of the street which is narrow at this point.

Receipts of the city scales during September totaled \$141.20. It was reported to the council. Issuance of warrants in payment of bills totaling \$1832, and including \$240 in payment for the mechanical stock or lately installed with the new furnace at the city hall, was voted by the council. Bills were distributed among the several departments and special funds as follows: Waterworks and streets, \$398.22; general, \$479.92; police, \$223.1; administration, \$144.6; street cleaning, \$24.42.

CLEANER FINDS AMMUNITION ONCE-SLAVER'S PROPERTY

A broken box of cartridges from which it is believed, "Blacky" Miller took the cartridge with which he fatally shot "Billie" Jack "Burr" Burley (taxicab owner, last February, was brought to light in a lodging house here yesterday. In the course of housecleaning in a room at the establishment, the cartridges were found in a chest adjoining the one that is believed to have been occupied by Miller shortly before the crime. The cartridges, R. E. Leitchon, police chief stated, would have fitted the gun that Miller says he used to kill the taxicab owner. Miller is now serving a life term in the state prison.

Increase in United States Visible Supply of Bread Cereal
Tends to Upset Grain Market

CHICAGO, Oct. 8 (AP)—Confronted by announcement of United States visible supply figures of record-breaking size for this time of year, wheat markets today toppled over. A huge increase of 630,000 bushels for last week made the total 116,577,000 bushels compared with only 50,000,000 bushels a year ago. The fact that government crop from Washington is due tomorrow appeared also to have a bearish influence. Closing quotations on wheat were heavy, 1/2c to 1 1/2c lower. Corn finished 5/8c to 1 1/2c lower, oats 1/2c to 1/2c off, and provisions varying from 1/2c decline to a rise of 5/8c to 1/2c.

In addition to the bearish effect of the prices on domestic stocks of wheat, the market today topped over much more than had generally been expected. Advances were also at hand that 1928 production of wheat in all countries will probably average 4,122,130,000 bushels against 2,896,190,000 bushels in 1927. Under such circumstances, wheat prices are expected to be further depressed in the day more than wiped out, and the close was at almost the bottom level reached. That wheat was the first of a fourth of export business was being done in wheat from North America, both Canadian and domestic. No. 2 hard winter wheat from the United States, however, was said to be yet out of line for export.

No Charge for Consultation
The successful expert C. F. Redlich for Scientific Rupture Appliances calls: "The 'Perfection Retention Shields' hold the rupture perfectly, no matter what position the body assumes or how heavy a weight you lift. They give instant relief, contract the opening in a remarkably short time and strengthen the weak tissues (the real cause of rupture) so that they frequently recover their previous natural contour, never needing no further outside support. Stomach trouble, backache, and constipation often caused by rupture promptly disappear. Truly remarkable results have been obtained with recent and yet fully developed ruptures and many old ones also."

THARP MAY PLEAD SELF-DEFENSE TO CHARGE OF MURDER

Slain Woman's Husband Denies Friction Between Families; Alleged Killer Admits Ownership of Gun; Appears Shaken

Attorneys for Ward Otis Tharp, 61, charged with first degree murder of Mrs. Lois May Bowen, 32, here last September 26, indicated by questioning at preliminary hearing in probate court yesterday that they might undertake to plead self-defense in Tharp's defense. Tharp was held without bond to answer to the murder charge in district court.

No evidence in his behalf was offered at the preliminary hearing and he spoke only once during the proceedings when he was asked by his own attorneys to identify the culture revolver with which he is alleged to have killed Mrs. Bowen and wounded her husband, Charles E. Bowen.

The prosecution introduced testimony of only three witnesses: Bowen, husband of the dead woman; P. J. Crossman, coroner, and Dr. John H. Morgan, who traced the course of three bullets through Mrs. Bowen's body, two of which passed through the heart from the left side of the rear.

May Plead Self-Defense Questions that indicated purpose of Tharp's attorneys to undertake a plea of self-defense were put to Bowen by J. W. Porter of defense counsel in summing up cross-examination. In reply to these questions Bowen stated that neither she nor his wife nor their 14-year-old daughter, Waleeta Siletta, were in the road in front of their house when Tharp stopped his truck there in response to Mrs. Bowen's command.

Neither Bowen nor his wife nor their daughter went at any time to the side of Tharp's truck farthest from their doorway.

No one touched Tharp before he got out of his truck with the gun in his hand, and began shooting; first at Bowen and then at Mrs. Bowen.

Tharp did not say anything during the whole affair, and the only words uttered were by Mrs. Bowen, who commanded, "You stop!" when she halted Tharp with a gesture as he passed the Bowen residence in his truck, and who cried: "Oh, stop!" when she was struck in the leg by Tharp's first bullet and caused to run from the house.

Bowen Denies Friction During closing stages of the detailed cross-examination, Bowen denied that he had owned a gun for Tharp or that he had owned a gun that they had had any trouble between the two families, and stated that so far as he had known, relations between the two families were good.

Defense attorneys were blocked by a court ruling in an attempt to develop by Bowen's testimony some facts relating to the friction between the two families, a neighbor, to the Bowen home five or 10 minutes before the shooting occurred. O. W. Witham, prosecuting attorney, objected to this line of questioning on the grounds that it had no bearing on the issue in the murder case.

Mr. Porter explained that he sought to throw light on the reason why the Bowens had intercepted Tharp.

"I could go out an' play, but two of the fellows was passin' through our alley an' seen me wipin' dishes."

declared, "undertook to show why they halted Tharp, but was blocked by defense counsel. Now they want to bring it in from another angle."

Allege Attack on Girl The prosecutor referred to defense objection to Bowen's refusal to state his daughter, Waleeta Siletta, had told when she returned home in tears and with clothing torn, it is alleged, by Tharp and his two younger sons a few minutes before the fatal shooting occurred.

Tharp seemed to be considerably disturbed at the close of the preliminary hearing. Surrounded by his family for whom nine chairs had been placed at his left hand, he had manifested little or no concern throughout the proceedings, but he leaned backward and stumbled once or twice when he left the courtroom with his wife, their arms clasped about each other.

Tharp was asked to identify the gun after the prosecutor had waited for some moments for a deputy sheriff who, with a police officer, had received it from Bowen shortly after the shooting.

"We will waive objection to its being introduced in evidence if you will let us look at it," J. W. Porter of defense counsel suggested.

Tharp Identifies Gun The gun and the leather belt and holster in which it had been carried were shown in front of Tharp, who nodded an assent in reply to his attorneys' questions. Mrs. Tharp also identified the gun and the belt and holster.

The sheriff stated that Tharp had appeared active enough in his cell just before the court proceedings.

Gutter stress of emotion that was none the less evident for being well under control, Charles E. Bowen, on the witness stand, told a plain, straightforward story of the facts.

Bowen said that he is 41 years old and the father of three children, Waleeta, Siletta, 14, Cecil, who was four years old two days after her mother's death, and Jane, who will be four months old next Saturday. He and his family, he said, had lived for two years on an acreage west of Twin Falls, for which he admitted under cross-examination, there is no water right and which he had not attempted to farm.

Mother Hails Tharp On the morning of the shooting, Bowen said, his eldest daughter came home crying shortly after she had started to school. Father, mother and daughter, he said, stood in the gateway in front of their home as Tharp came along in his truck.

"My wife commanded him to stop," Bowen testified. "She wanted an understanding, to know why he had attacked the children. Tharp said nothing but stopped the truck, picked up the gun off the seat, and came out of the cab on the side farthest from us. He came around toward the front

of the truck and shot first at me, quartering over the radiator. He missed me and turned on my woman. He shot her first in the leg. She turned a quarter way around and cried: "Oh, stop!" He shot her twice more in the left side and she dropped dead.

Turns Gun on Husband "I made an effort toward him," Bowen continued, "and Tharp turned his gun on me. He snipped the gun, but the cartridge did not fire. He snipped it again and the bullet struck me over the heart, and ranged upward. I seized the gun after he had hit me on the head with the butt of it. I gave the gun to the police officer."

Defense counsel's questions developed that Bowen had grabbed with Tharp after Mrs. Bowen was slain. "I caught him by the clothing and put him on the ground," Bowen testified. "He dropped the gun and my daughter (Waleeta Siletta) picked it up and beat him over the head with it. Then Tharp said, 'I have enough.' Those

were the only words he had spoken. I let him up. My daughter gave me the gun. Tharp got into the cab of his truck. He sat there about a second and then drove on toward his own home."

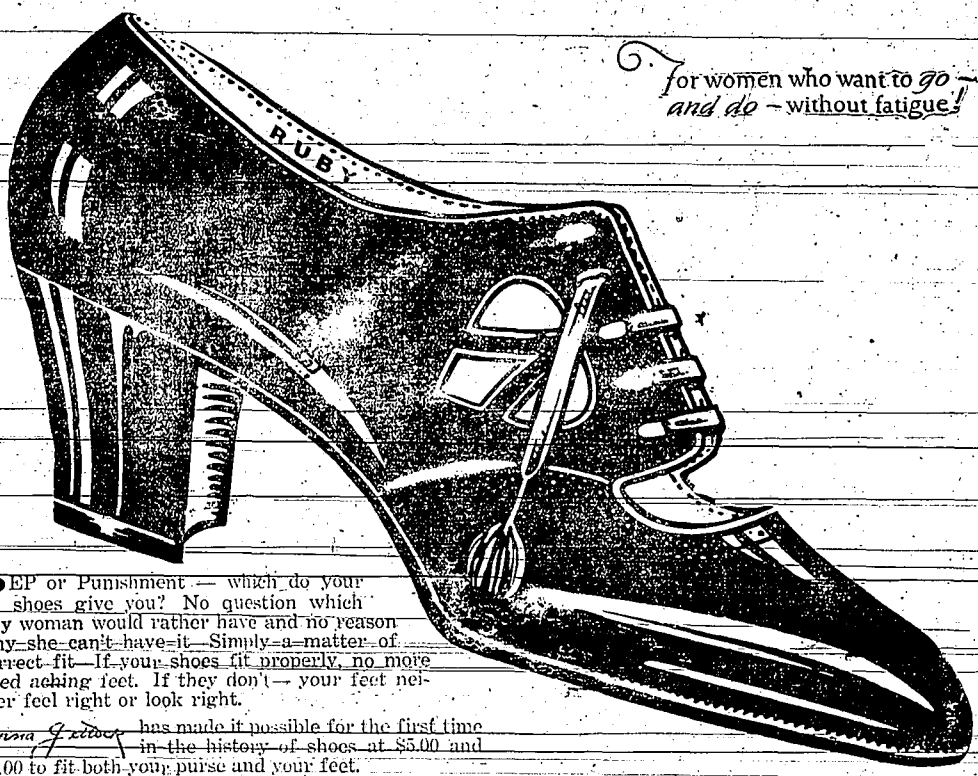

After Tharp's departure, Bowen testified, he was examining the gun, and snipped the trigger several times.

Tharp, he testified, had fired five shots. The sixth was discharged during Bowen's examination of the gun. The sixth bullet went through the first finger of Bowen's left hand.
