

BOORHON'S NOMINEE CHALLENGING FOES' CLAIMS OF ECONOMY

Governor Smith Declares Administrations of Coolidge and Harding as 'Wasteful as Any Country Has Ever Seen'

(By The Associated Press) SEDAIA, Mo., Oct. 16.—A challenge to the Republican economy in administration of the federal government was issued tonight by Governor Alfred B. Smith, who declared in an eight-minute address prepared for delivery before a Missouri audience that according to his idea the Harding and Coolidge administrations had been as "wasteful as any country had ever seen."

"They attempted to give away our national resources," he said. "They have postponed and neglected the most pressing needs."

"The Democratic nominee explained there were three pictures he desired to paint before the President. The first was that which the Republican party would like to have the American people believe, showing great efficiency and great economy."

Expenses increase. The second, he added, was a picture setting up real facts which show that the government is costing more to run than when President Coolidge took office, and the third he argued disclosed the "Republican lack of ability, lack of efficiency and lack of business methods."

The governor contended that Republicans were "hitting an' hitting" and that reason had attempted to put into the minds of the people what they are pleased to term "Coolidge economy" and declared he regarded this as the "grossest misrepresentation in the history of this country."

Herbert Hoover, the Republican standard bearer, in a large picture was the painting of this false picture when in his speech of acceptance he said:

"By rigorous economy federal expenses have been reduced by \$200,000,000 per annum."

Asserting that "no more misleading statement could be made in the campaign," the Democratic nominee added that Mr. Hoover "knows better, or should know better."

He said that the Republican governor went on, that the \$200,000,000 reduction is the difference between the peace-time cost of government. "If he was talking out straight forwardly and fairly to the people," he said, "he would say he chooses to lower to attempt to conceal the true state of facts, I challenge him to make good his statement. The Republican economy made a difference of \$200,000,000 in the cost of running of the government. He knows that is not so."

HOOPER PLANS FOR CAMPAIGN'S CLOSE

Candidate May Address Gatherings in St. Louis, Chicago, Milwaukee and Minneapolis. WASHINGTON, Oct. 16.—Herbert Hoover, in spite of the fatigue of his New England campaigning, turned new today to the consideration of plans for his return trip across the continent during the closing days of his drive for the presidency.

With three of the four speeches he is to make in the east out of the way and arrangements virtually completed for his journey to New York next Monday to deliver the final one, the Republican candidate is close enough to the time of his departure to begin mapping out the itinerary for the trip.

The transcontinental journey will see the delivery of his last speech but one of the campaign. Just where he will be next yet has to be decided, but it was indicated at his personal headquarters today that serious consideration was being given to proposals for his delivery at St. Louis, Chicago, Milwaukee and Minneapolis, also have been suggested.

ROCKY MOUNTAINS IN WINTER'S CLUTCHES

Greater Section of Colorado Under White Blanket; Sheepherder Dead; Trio Stranded

DENVER, Oct. 16.—Winter made a flying assault on the middle and southern Rocky mountain range today, spreading a thick mantle of snow over the area as the season's first storm was driven down from the northern states of Montana and Wyoming by rising temperatures and sunny skies.

The greater part of Colorado was blanketed in white. Moving swiftly from the north where it left a toll of one dead and hampered air, rail and motor transportation, the storm belted the Colorado mountains and plain areas and made itself felt in northern New Mexico and adjoining states.

A crest of towering Pike's peak near Colorado Springs, more than 14,000 feet above sea level, three persons were left stranded by the elements when a Colorado safety mountain and the little party found it self unable to penetrate the huge snow drift which blocked the automobile highway.

"They were safely housed in the summit house at the peak tonight, waiting the arrival of a cog road train to take them to safety tomorrow. Four other motorists were marooned at Glenwood about midway up the mountain on the automobile road, where 18 inches of snow made the highway impassable.

In Wyoming, Joe Miller, 65, a farmer, was killed today when a storm in Altrinal plains resumed their flights in Wyoming today after having been delayed in some instances as long as four days. Mountain view the storm in retrospect, as clearing skies and higher temperatures prevailed.

On many parts of the Colorado plain and snow fell steadily throughout the day.

The report was given in the case of Joseph Wisnot, 19, who when arraigned last week on a charge of speeding, told the court in reply to a question that he had decorated his second car in "kandy colors—just to be merry."

JUDGE IN POCATELLO TO DECIDE ISSUE

Issue Involving Jurisdiction of Tribunal Will Be Presented to Judge J. Stanley

The question whether the construction of the Foster decree relative to return flow waters in the Snake river between "Neley" and the "Mindkoo" shall be passed on by the federal district court or by the Idaho state courts will be presented in Pocatello today to Judge J. Stanley Webster.

In place of Judge C. G. Cayman who disqualified himself from passing on the issue. The title of the case is "Twin Falls Canal company against C. W. Carter, commissioner of reclamation, et al."

The Foster decree, so called, was issued in 1917 by Judge E. A. Walters, sitting as judge of the fourth judicial district of which Twin Falls county was a part. The title of the case was "Twin Falls Canal company against Charles N. Foster and others."

Foster represents the government in the person of the secretary of interior and other defendants included settlers on the Mindkoo project.

Ownership Disputed

It is the contention of the Twin Falls Canal company that the decree by its terms holds that the water returning to the Snake river beyond the points named is part of the natural flow of the river and that as such it belongs to the company here. The commissioner of reclamation and the water master, G. Clyde Baldwin, deny this construction and have demanded the water to the Mindkoo project.

Action was started by Judge James R. Bothwell for the canal company about a year ago in the federal district court of Twin Falls county to have the Foster decree interpreted. It was requested that the water in controversy be decreed to the Twin Falls Canal company.

H. E. Ray, Boise, United States district attorney, and E. Stoutemyer, Portland, attorney for the United States reclamation service moved to have Hubert Work, then secretary of the interior, removed from the case which they petitioned to have removed to the federal district court. The motion and petition were granted.

BOURBONS' NOMINEE CHALLENGING FOES' CLAIMS OF ECONOMY

(Continued From Page One)

and he could never in his lifetime make good his misleading claim.

"The finishing touches were put to the false picture by the journal in the treasury Mr. Mellon, in a talk over the radio only a few nights ago when he said that Governor Smith and the other Democratic speakers were seeking to 'without credit' to the Coolidge administration for reducing expenditures."

"Well, we certainly are, because there has been no reduction. In fact the expenditures have been increased and Mr. Mellon and Mr. Hoover know that to be the fact."

"Now that I have finished the false picture, let me paint for you the real picture. Anticipating just such a speech as this, the Republican campaign manager prepared a picture in advance. The destroy the false picture when in their campaign book of 1928, they say the following: 'More money is being appropriated to operate the government than was appropriated three or four years ago. The nation is in a financial straits which a comparison between 1921-when the country was on a war-time basis and the present situation would in no way reflect the true situation. 'So the real picture, let me first call your attention to the fact that \$200,000,000 worth of assets acquired during the Wilson administration for the purpose of progressing the war effort, are being cashed in peacefully by the succeeding Republican administration and no credit given on the Wilson side of the ledger. This is the secretary of the treasury admits in his annual reports.

"The annual report of the secretary of the treasury for the year 1927, shows that if it had not been for the assets left behind by the Wilson administration, there would have been deficits in the years 1923, 1924, 1925, and very substantial reductions in the surplus in the years 1924, 1926, 1927 and 1928."

"It is possible to discover this would be compelled to delve into the treasury reports—We would never hear of it from Republican campaign orators. We would never hear this from the political bookkeeping of Mr. Hoover and Mr. Mills, or the Republican national committee."

"But, of course, when you are painting a false picture, overlooking a little item like \$2,000,000,000 is not of much importance."

The governor declared he wished to add that the "fiscal reports of the Department of the Interior are as near to a Chinese puzzle as anything he had ever seen. He declared it looked as if the 'whole system was devised to confuse and mystify.'"

"Certainly that has been the effect," he added.

The Democratic candidate ripped into President Harding. It was possible to discover the budget bureau established under President Harding. It was possible to come within \$48,000,000 of reducing the cost of government by \$2,000,000,000 between 1921 and 1925."

"The true explanation of this reduction, however, he did not discuss," the nominee continued. "How a man of General Hottel's caliber could get into his mind that the people of this country would be prepared to believe that you could reduce the cost of government by \$2,000,000,000 simply by the introduction of a budget bureau is more than I am able to understand. Some of the samples from his report are both interesting and amusing."

The governor said the budget director had told of messengers going through streets and red tape in the navy department to salvage pins, paper clips and pieces of pencils; also the administration of blue stripes from mail bags and red tapes from towels; and of an American consul who had rearranged the lighting in his office to save 452 1/2 a year.

Refers—Flood Control

Referring to the question of flood control, in which the nominee said the state of Missouri was vitally interested, he contended the handling of this issue constituted as fine an illustration "as you can get of Republican publican shuffling."

"While the have been discussing this and con and back and forth on the share that should be borne by the government and by the state for flood control on the Mississippi, millions and millions of dollars worth of property, and even human life, have been

IDAHO SOLON LAUDS WOMEN FOR ROLE IN POLITICAL CAMPAIGN

(Continued From Page One) never have been written into the constitution and without the women and their leadership it cannot be kept in the constitution and enforced. Senator Borah reiterated his charge that the Democratic presidential nominee desired to "tear down" the prohibition law and said that Smith in his Milwaukee speech proposed "to destroy the effort which you women have made to protect the American home." "One can read speech," Borah said, "and doubt the purpose behind the fight in this campaign." The senator added that John D. Raskob, chairman of the Democratic national committee and Pierre DuPont, a Smith supporter, also "let the Republic fall" in order to "wipe out prohibition."

Old Fight Continues There never has been a law upon the statute books," Borah continued, in reference to big liquor control, that the liquor traffic has not opposed the effort which you women have made to protect the American home. "This is the old fight and another form on a broader scale and means a million times more than it ever did before."

"Speaking for myself and myself alone," he sincerely declared, "I would rather see my party go down in defeat, eat the dust of defeat, than to see it temporize or cowardly betray the cause of prohibition in the United States. It is in the constitution; it was put there through your efforts and I want to see it upheld and enforced. The constitution of the United States is in the constitution; it is probably one of the most important invasions of the Republican party into the 'good South' in a national campaign in many years and as a result a coast-to-coast radio hook-up has been arranged for the Charlotte address tomorrow night. The speech at Charlotte will be delivered in the auditorium, but speakers have been installed in three other halls in the city to take care of anticipated overflow crowds."

COACH LABORS OVER RESERVE MATERIAL

Mentor Switches Bruin and Cub Backfields For Scrimmage; Two Teams to Go Eastward

Coach Jones divided the Bruins last night and sent the two squads through a tough scrimmage session. With the first-string back field a second string line and the Cub backs behind the Bruin forward wall, the contest waxed hot for a few minutes. Late in the session the backfields twice switched—and the Bruins got away for considerable gains.

Coach Jones is planning to taking two complete teams to Pocatello Friday. Following his plan of building up the reserve strength, he is sending many Cubs with the Bruins. Smith, Torking, Vance and Stumpf were working behind the line last night and, while they need practice to perfect their execution of play, they displayed ability at packing the pigskin.

ROBINSON ATTACKS WILLIAM E. BOBAH IN BOISE ADDRESS

(Continued From Page One) should be applied in partial reimbursement of veterans' bureau or alien property, custodian funds solely owned by elected politicians appointed through political influences. It never occurred to Senator Borah that the rule should be applied to equity can not be returned to relief by the party who perpetrates a fraud.

The senator has a habit of saying much and doing little. After a number of eloquent speeches in the senate he was content to refer to the content of the sum collected and abandoned all efforts to purge his party for the corrupt receipt of Borah's money. "His championship of Mr. Hoover presents a striking contrast to his utterances in the senate." Upon completion of his speech here tonight, Senator Robinson took his journey eastward. He will speak in Oregon tomorrow night.

Senator Robinson reached Boise after a trip through Oregon that permitted the citizens in the western part of that state to see him and hear him discuss the issues of the campaign briefly from the rear platform of his private car.

To the 5000 who daily become owners of the new Ford car

THE service obligation of the Ford Motor Company and its dealer organization is now growing at the rate of 5000 cars a day. It is to these new car owners that this message is addressed.

The new Ford is a remarkably fine car for one that costs so little. It is simple in design, constructed of the finest materials, and built to unusually close measurements.

These are the reasons it performs so wonderfully. These are also the reasons its service requirements are so few and the up-keep cost so low.

When you receive your new car, the dealer will explain the simple little things that should be attended to at regular intervals to insure the best performance. He will also tell you something of his own facilities for doing this work promptly and at small cost.

With the purchase of your car, you are entitled to Free Inspection Service by your dealer at 500, 1000 and 1500 miles. This service is due you and we urge you to take full advantage of it. Proper care during this breaking-in period means a great deal to the life of your car.

Included in the Free Inspection Service is a check-up of the battery, the generator charging rate, the distributor, the carburetor adjustment, lights, brakes, shock absorbers, tire inflation and steering gear. The engine oil is also changed and chassis lubricated.

No charge whatever is made for labor or materials incidental to this inspection service, except where repairs are necessary because of accident, neglect, or misuse.

The labor of changing the engine oil and lubricating the chassis is also free, although a charge is made for the new oil.

We believe that when you see the good effects of this inspection you will continue to have it done regularly throughout the life of your car.

You will find the Ford dealer very helpful in keeping your car in good running order for many thousands of miles at a minimum of trouble and expense.

He operates under close factory supervision and has been specially trained and equipped to do this work promptly, thoroughly and economically.

Dunn told comprehensively of the eight proposed amendments to the state constitution to be voted on at the coming election. During the business session the class voted to give up its classroom to a large class of young girls.

Continuing his discussion of the subject, "Four Pictures Taken on a Fishing Trip," H. August Hunderup, Fort Worth, Texas, evangelist, delivered an

eloquent sermon at the evangelistic services at the First Baptist church last night to a large congregation. The sermon was in the nature of four pictures taken from the Book of Life, designated as "Failure," "Futility," "Futility and Fellowship," and was based on the incident in the gospel where the apostles having fished all night without success saw one fish net again because they had faith in the word of Christ. The result was a fullness from which followed fellowship.

JOSEPH WYNN DIES FOLLOWING MISHAP

Shock and Loss of Blood Prove Fatal to Twin Falls Man Injured While On Hunting Trip

Joseph P. Wynn, 42, 612 Fourth avenue west, Twin Falls, died at 6:10 o'clock last night in St. Valentine's hospital, Wendi, as a result of a gunshot wound, accidentally inflicted by a companion while hunting pheasants last Sunday.

Mr. Wynn was wounded when a 20 gauge shot, gun in the hands of a companion was accidentally discharged at a distance of about 20 feet. The entire load of birds was in the right leg above the knee, severing the arteries and muscles of the limb.

Amputation of the leg at the thigh was found to be necessary and the operation was performed at 2 o'clock yesterday. Loss of blood and the shock had so weakened Mr. Wynn's vitality that he died about six hours later.

Mr. Wynn is survived by his wife, Cliff L. Wynn, daughter, Miss Vera Wynn, and his parents, Mr. and Mrs. Patrick Wynn. He is well known here. He conducted a stage line from Rogerson to Arbutot for several years. He had interests in other stages at Rogerson and Kimama.

The body was brought here last evening and rests in the Grossman funeral parlors. Funeral arrangements have not yet been made.

DEATHS

THOMPSON—Mrs. Gertrude Thompson, 63 years old, mother of William Thompson and Frank Thompson, died last evening at the home of her son, Frank Thompson, in the vicinity of Knaul. The body was taken to the Grossman funeral parlors. Arrangements for funeral services will be announced later.

FUNERALS

KNIFE—Funeral services for Ida Knapp will be held last Saturday evening at the county hospital where she had been a patient for some months. The body will be taken to the Twin Falls cemetery at 11 o'clock this morning. Rev. Rami S. Keyzer of St. Edward's Catholic church officiating.

SOUTHERN GIRL WAGES WAR ON RODENT PESTS

War on rats and mice in the Twin Falls region has been declared by Miss Ann Wright, Portsmouth, Virginia, who arrived yesterday from Lewiston, Idaho, to spend the next two weeks in a campaign of extermination against rodent pests in grain elevators, business houses and homes.

Word was brought to Miss Wright that there are no rats in the Twin Falls country. It is her purpose, she stated, to determine whether that report is accurate, and if it is to center her activities here upon extermination of mice. Mice and rats are all one to her, and she treats them impartially and effectively.

Miss Wright is said to be one of only three women rat and mice exterminators in the world. It is a unique vocation, which she declares, she adopted as a means of seeing the world, and since her graduation from college eight years ago, she has carried the war on the rodent pests from Maine to Hawaii.

TWIN FALLS POTATO HARVEST AT HEIGHT

Rome Beauty Apples Uninjured By Frosts; Bean Season at End; Shipments Sluggish

Potatoes are coming in in large quantities from the fields to the warehouses and spud collars for storage. The largest part of the crop is still in the fields, however.

Apple picking is now confined almost exclusively to Rome Beauties, other varieties being mostly picked. The Rome Beauty crop is giving better yields this year than other varieties and contributes about 25 per cent of the total apple yield. It is stated the crop was not injured by the sharp frost Saturday night, warehousemen say.

Bean Harvest Closing. The bean crop is mostly in. The large fields are threshed and work is confined to smaller fields. It is estimated that it will take another week of good weather to get the entire crop threshed and stored.

Shipments from Twin Falls continue small. Only 10 cars were billed out yesterday. The bean and seed crop harvest in the Murtough district is still at its height. T. T. Rutledge of that town said yesterday. Yields of both are large and farmers are busy saving them.

Potato digging is under way, but the bulk of the crop is still in the ground. C. A. Callen, who has five acres in potatoes, harvested 250 sacks per acre.

DEBATE CLUB CONSIDERS STUDENTS' FRATERNITIES

The affirmative team was declared victorious in a debate on the subject, "Resolved: That High School Fraternities Should Be Abolished," at a meeting of the New Forum club, debate organization of Twin Falls high school, in the Blue Triangle club room last night. The judges' decision was 2 to 1 in favor of the affirmative.

Members of the teams were: Affirmative, Perry Wirth, Dorothy Wosver, and Ruth Leiser; negative, Helen White, Owen Keefer, and Richard Durvall. Judges were: Miss Gertrude Baker, Harold Salisbury, and John Estes, all high school instructors.

The revised constitution of the club was read. Adoption was postponed until the next meeting at the high school building. The question of raising the membership limit of the club has been brought up. At present the membership is limited to 30, 15 boys and 15 girls. Present applications for admission to the club greatly exceed this limitation.

Vernice Richards and Lois Richards, sisters, played three selections on the saxophone and piano.

The next meeting of the club will be at Durkey's lake.
