

CHICAGO WELCOMES BOURBONS' NOMINEE AT RAILWAY STATION

Throngs Greet Governor and Mrs. Alfred E. Smith After "Satisfactory" Trip Through Southland; Plan Conferences

(By The Associated Press)
CHICAGO, Oct. 17.—The special train bearing Governor Alfred E. Smith, Democratic candidate for the presidency, arrived at the Union station in Chicago at 10 P. M. A large crowd, which had been waiting for more than an hour, cheered as the nominee appeared.
The governor smiled broadly as he viewed the crowds.
"Hello, boys, how are you?" he shouted above the roar of the crowd and the booming of the train whistles. When Mrs. Smith followed her husband down the steps from the railroad car, the official welcoming committee greeted her with a huge bouquet of flowers.

SMITH SAYS DRIVE THROUGH SOUTHLAND SATISFACTORY

SMITH SPECIAL TRAIN EN ROUTE TO CHICAGO, Oct. 17 (AP)—Swinging eastward after what he described as a "satisfactory" drive through the border states, Alfred E. Smith arrived tonight on Illinois soil to give added impetus to a determined Democratic bid for the third largest vote in the electoral college.

For two full days and a part of a third—the Democratic nominee—will stay in Chicago for conferences with party chiefs in the state with 20 electoral votes which is exceeded only by New York and Pennsylvania as a political prize.
Normally Illinois is a Republican stronghold.
The only formal speech in the state will be given Friday night at the 131st national guard armory from which a radio hookup again will carry his voice over the nation. He has not disclosed the subject for that address.

Questioned About Trip

On his way to Chicago, the governor at a press conference in the club car of his train was asked his views concerning his swing through the southern tier of Southern states and the border states of Kentucky and Missouri.
"They are all right," he said, and to another question as to whether he thought he would carry the states he had been through he replied: "Why, of course."
"Yes, I am satisfied of it. I am."

entirely satisfied that they are all right.
The nominee also was asked if he thought the bid for the presidency. Herbert Hoover, in his address at Boston had intended his remarks on the tariff to apply to the Governor's tariff speech at Louisville.
"Of course, the only thing you can say about it," the candidate answered, "is that the speech (Hoover's) was apparently written long before I made by Louisville speech."
"Senator Moses said if Governor Smith's program can possibly be adopted, it would mean the turning over of the constitutional power of congress to a tariff commission."
"Nothing could be further from the truth than that. I took no other position than that taken by Taft 20 years ago, and by Wilson 12 years ago."
The governor added that the Democratic party took two positions on the tariff.
"This means there is to be no bill introduced in congress generally regarding the tariff."
"Yes, that—all the special and favored interests can come and log roll and trade and scratch backs to get what they want."
"Second, specific changes must be made in specific schedules only after thorough investigation and fact-finding by a body properly equipped to get the facts."
The governor was asked if the revision would be done by congress, he replied: "Why, of course."
"There is no suggestion that it will be anything else."

HOOVER VICTIM OF UNJUST CAMPAIGN, DECLARES DR. WORK

Chairman of National Republican Committee Says Question of Nominee's Citizenship is Entirely Out of Place

(By The Associated Press)
WASHINGTON, Oct. 17.—Simultaneously with the formal declaration by the state department that Herbert Hoover had always been an American citizen, Chairman Work of the Republican national committee, today charged that the Republican presidential nominee "has been the victim of one of the most unjust whispering campaigns in the history of presidential contests."
Chairman Work charged that a fund had been raised by the proponents of the whispering campaign to misrepresent the nominee's citizenship. He declared that this would be an outrage on Mr. Hoover and a fraud on the American people.

Mr. Hoover through the publications of photographs of English voters' rolls listing the nominee's name. He declared that this would be an outrage on Mr. Hoover and a fraud on the American people.
"because," he said, "Mr. Hoover never applied for British citizenship, was never a British citizen, never voted, or attempted to vote in England and was never entitled to a vote at the presidential contest because he was an American citizen."
The whispering campaign has been to the effect that Mr. Hoover was at one time a British citizen, applied for British citizenship, Chairman Work said, adding that he denounced "all statements to that effect as false and all purported copies of such applications as forgeries. For some time, he continued, he had in his possession a certificate of the application of this character or a similar character was ever considered or presented."
The formal statement issued by the state department over the signature of Assistant Secretary W. R. Castle, Jr., declared that when Mr. Hoover was abroad he maintained his residence in the United States and that there never has been the slightest suggestion of Mr. Hoover's American citizenship.

As long ago as 1920 the state department heard a rumor that at one time Mr. Hoover had applied for British citizenship, the statement continued. The department made careful inquiries at the time and it was proved to the entire satisfaction of the department that the rumor had no basis, Mr. Castle wrote.

IDAHO'S ONION CROP COMMANDS MARKET

Product Brings Return of Over \$1000 An Acre; Demand for State Food Good in East

BOISE, Oct. 17.—Idaho onion growers are experiencing one of the most profitable years in the history of the state's agricultural development. Although the crop, estimated by government statisticians at 1000 acres, forms but a small part of the state's agricultural product, yet at the prices being paid onion growers will receive more than \$1,000 per acre this year. Most of the crop is moving at 40 to 42 cents per 100 pounds.
A majority of the fields are under irrigation, but here and there some farmer has "gone in heavy" and planted 20 to 30 acres and the return of better than \$1000 per acre is holding for the large acreage as well as the small ones.

Spanish Preferred

In Idaho the sweet Spanish variety of onion is preferred by growers and production this year has been above average. The 1927 state average was 170 bushels per acre. This year many of the fields are running better than 1000 bushels to the acre and in isolated instances growers have taken as many as 1750 bushels of onions from one acre of land.

Growing conditions are excellent in Idaho. The long season prevailing in the valleys, coupled with abundant sunshine and plenty of irrigation water matures the crop perfectly and Idaho onions, they believe, will prevent their lands from becoming infested.

One New York dealer came all the way to Idaho this year to buy onions because no other onion producing section of the country, he said, can equal Idaho for quality and production. No disease infestations hinder the development of the Idaho crop and growers have planned a crop rotation which they believe will prevent their lands from becoming infested.

The size varies from two and one-half inches to five inches and in the more favorable producing sections a majority of the crop is above four inches in size. These large onions are usually better than any other variety in large eastern cities where they are used for slicing. The southern trade prefers the smaller variety and Idaho onions find good market in the centers of this part of the country.

FRUIT-GROWERS' GROUP RUNS FIVE ENTERPRISES

CLEVELAND, N. Y., Oct. 17 (AP)—Promoters of cooperative fruit-grading stations point to the five lines of business conducted by the Clevelander Fruit Growers' association, Inc., as a model for agriculture.

Organized in 1919, the association's first business was to market the fruit of its members and to provide storage for the fruit until it was marketed. Now, in addition to its cold storage and marketing business, it operates a fruit package factory, handles fertilizers and farm supplies, and conducts a wholesale gasoline and oil business.
Originally the association was financed with collateral notes of \$500 each, given by its members. As soon as the cold storage plant was built, mortgages were placed on the property and bonds of small denominations, bearing seven per cent interest, were sold. Provision was made to set aside regularly a portion of net income to retire the bonds.
Plans are being developed to enlarge the storage plant and increase its capacity from 25,000 to 52,000 barrels. Fruit sales for the 1927-28 season amounted to \$150,000. Income for storage was \$125,000, and the sale of fertilizers and farm supplies amounted to \$67,000. The package factory was operated at a loss, but the gasoline and oil business, with an income greater than that from all other lines combined, produced a net earning of \$2194.

Please Answer, Mr. Ross

In your Rexburg speech you said that the Twin Falls and Idaho Falls sections have different viewpoints upon the potato grading.

We asked you at Idaho Falls to explain your meaning.

Do you believe the State should regulate the marketing of potatoes, requiring the use of standard grades and branded containers?

Or do you believe there should be no regulation, except upon one brand, used by everyone who desired and that the shipper who did not care to pack standard brand would not be hampered by State regulation?

The potato growers of Idaho are entitled to know just what you propose to do.

In your Idaho Falls speech you answered as follows: "They have asked me the question, what my policy is going to be and the only reason, ladies and gentlemen, that they want me to answer that question is that they can go down to some other audience, where conditions are different and attack me for stating a definite plan."

Would you, as Governor of Idaho, have different "plans" for different communities?

Are you in favor, as Carl DeLong alleges in this letter, of non-compulsory regulation for the branding and shipping of Idaho potatoes?

The potato-growers are entitled to know before election.

You state in your Idaho Falls speech "We paid three hundred dollars for one advertisement to create a market for your potatoes."

Is it not true, Mr. Ross, that you spent that \$300.00 on a page ad in The Packer of February 11, 1928, a paper published at Chicago?

Didn't you sign your name in three places to that ad? And didn't you misrepresent the facts?

In that ad, didn't you say there were only 8,000 cars of potatoes unsold in Idaho?

Didn't Idaho, after that advertisement carrying your statement, ship and sell 14,360 cars?

Didn't your mis-statement cause such distrust of Idaho reports that the price of potatoes dropped and as you admit in your speech at Idaho Falls, "some of the boys lost money and I regret it, but it cannot be helped."

Isn't it true that the potato crop is four million bushels less this year in Idaho and that Eastern buyers refused to believe it because of the disrepute you have placed on Idaho reports, and isn't it true that every potato grower in Idaho is suffering from low price, as a result of your misrepresentation?

The Packer, the publication in which you placed this ad, wired R. V. Whiting, their Idaho agent, as follows: "Complaints are coming in thick and fast that Idaho page ad we printed some time ago was a gross misrepresentation as to Idaho stocks as actually proved by shippers since made and present holdings. X X X we are being criticized right and left for permitting such misrepresentation in our columns and we are now called upon to expose and denounce what is claimed to be fraud and crooked tactics of an advertiser. What are the facts?" This telegram was signed The Packer.

Please explain the meaning of this telegram, Mr. Ross?

IS THIS THE PLAN OF CAMPAIGN YOU REFUSED TO DIVULGE WHEN YOU WERE ASKED WHAT YOU WOULD DO IF ELECTED GOVERNOR?

The following is taken from a letter from Carl DeLong of Twin Falls (against whom the potato growers' association has obtained an injunction restraining further shipment of potatoes in violation of the Idaho regulation), to W. B. Mitchell of Parma, dated August 28th, 1928:

IS THIS YOUR PLAN?

"I presume now that Mr. Welch will concede that we were right last May when we told him that Ben Ross would be the candidate for Governor on the Democratic ticket. Mr. Ross made the statement to our friend Ed Hamrick that he not only would be a candidate for Governor but would make a campaign on the potato question, using as his platform that there should be no regulations except upon one brand, and could be used by everyone who would pack it accordingly and the shipper, or the grower that did not care to pack that standard would not be hampered in any way by State regulations. So, evidently, we are going to have a clean-cut campaign on Welch's theory on compulsory regulations and Ben Ross' theory of non-compulsory regulations."

Why Wait Mr. Ross? Speak Up!

NEW YORK WOMAN IN WATER 72 HOURS TO BREAK WORLD RECORD

Mrs. Lottie Moore Schoemmel Clammers Out of Hotel Pool After Three Days and Nights in Natatorium; Defeats Sailor

(By The Associated Press)
NEW YORK, Oct. 17—Mrs. Lottie Moore Schoemmel today clambered out of the hotel swimming pool which had been her bed and boarding place continually for three days and nights. She brought out with her a new world's endurance record of 72 hours, two minutes and 40 seconds. Restoring supremacy in this strange form of athletic activity to the so-called weaker sex, the new mark displaced the former standard set by Jimmy Sherry, an ex-sailor, in London on a Sunday night, not long ago. Mrs. Schoemmel took the water here. The blonde New York woman, 29, mother of two children, stayed in seven hours and 40 seconds longer than Sherry.

Although she had announced a voluntary desire to stay as long as the Graf Zeppelin did in coming from Germany, Mrs. Schoemmel decided on the third day drew to a close Sherry's record by a close margin.

SPORT SLANTS

By ALAN J. GOULD
 Associated Press Sports Editor

NEW YORK, Oct. 17—Football's recent restriction on know no sectional barriers or restrictions. Last Saturday the big jam of the day was on Chicago's lake front, where two teams that may both be out of the championship running this year, but who possess the most dramatic players in this week's main event, from the spectacular viewpoint, will be at Berkeley, where California and Southern California meet in the first of the major tests of Pacific coast conference strength. Anywhere from 25,000 to 100,000 fans are expected to view from this locale from the hill sides if not altogether from the bill board itself.

The following week should shift the spotlight back to the West Coast, with Yale's big arena-packed to its usual limits of around 50,000 for the colorful visit by West Point cadets.

Besides the Southern California-California game, the Hoosiers appear to have whatever edge the "dope" indicates, there are these outstanding games:

Rocky Mountain champions, engaged with University of Utah, in an effort to keep at the top of this sport's standing, now share a Syracuse team anxious to wipe out last year's decisive defeat in Lincoln.

Ohio State and Michigan at Columbus with the Duckeyes favored over the Waterloos for the first time in some years.

Other big Ten games in which Minnesota, Wisconsin and Illinois should keep their slates clean, and although the Illini face strong opposition from Indiana.

Army and Harvard, at Cambridge, where the hucky catch eleven will meet who gives each a show of being the best horizon-coached eleven yet developed.

It is a trifle early to take up the all-American angle, but the fall crop at least appears to offer some of the best material in recent seasons.

SELL MISHAUNDED NEED
 WASHINGTON—Two dozen firms have been found selling adulterated or misbranded reseed seed in a survey by federal officials. Names and addresses of offending firms have been published, in accordance with an act of congress.

BRUINS READY FOR POCATELLO CONTEST

Gate City Team Has Reverses; Dope Favors Twin Falls in First Inter-District Game

Conceded R. V. Jones and 22 Bruins will leave this afternoon for Pocatello to play the Gate City high school Friday afternoon. It will be the first inter-district contest for the local team. Pocatello has met reverses in her games so far this season, but "dope" reports an "improving team."

The Bruins went through considerable scrimmaging last night in perfecting plays for the game, and will probably arrive in Pocatello in time to limber up a bit tonight.

In taking the large stand to the Gate City Coach Jones apparently is planning on using many of his reserves to give them experience. The Bruins face a hard schedule from now on and the loss of dependable substitutes is urgent.

Many of the cubs have been showing the stuff that will make players the first order, but all need experience. Should the Bruins have an easy time with Pocatello it may provide the chance to give the Cubs a chance to gain some game experience.

24 IDAHO WANDALS ENTRAIN FOR SOUTH

Erb's Men to Meet Stanford in First Game Since 1924; Warner to Use Line-Backs

UNIVERSITY OF IDAHO, Moscow, Oct. 17.—Twenty-four Idaho Vandals flush from their victory over Willman, departed Tuesday morning for San Francisco to launch their 1928 Pacific Coast conference season against Stanford in the Kezar stadium Friday afternoon. In this game eleven meet Stanford for the first time since 1924 when the Cardinal eleven won, 3 to 0.

Coach Charley Erb's men have pointed for the Stanford game over since donning suits in the middle of September. The Willman game offered the first hint of what Idaho fans might expect of Idaho's scoring machine at its best. Idaho now has an offensive and a defensive but lacks reserves.

"Straight" Football Expected.

Foxy "Pop" Warner apparently is planning to use a line-back system, consistent line-plunging game that crusted Oregon and the University of California, Los Angeles. Warner got his reserves to the work Saturday against the newest members of the coast conference, these "one-and-three" string-men running up seven touchdowns. The varsity rested and nursed injuries, as Warner intends to start them against the Vandals.

What Erb has in store for Stanford fans is as much a matter of speculation at Idaho's San Francisco. Whether it will be line-plunging or passing, only Erb himself knows. Stanford, however, expects a hard game and ever since 1924 has held the most cordial respect for Idaho's grid prowess. That year at Portland, Idaho outplayed the Cardinals, but lost 3 to 0.

Stanford will enter the game an overwhelming favorite, and with the experience of two conference wins behind her, Idaho has played three non-conference games, losing the first, tying the second and winning the third. Idaho is the last of the conference teams to start conference play.

The following squad is making the Stanford trip: Arthur Norby, Paul Hutchins, Kenneth Barrett, James Halliday, Herbert Owen, John Bookman, Hal Hays, Fred Robertson and Arthur Cheyne—quarterbacks; Harold Kerahank, fullback; Willard Carlson, Lester Kirkpatrick, centers; Maurice Brimhall, Earl Stark, Elmer Martin and Hugh Sprout, guards; Jimmie Schramm, Johnson.

Twin Falls Bowlers To Organize League

Bowling with an extra incentive engendered by competition, is to be afforded in Twin Falls during the coming winter season through the agency of a bowling league, which is to be organized at a meeting to be held at the bowling alley, next Friday evening.

Organization of a league of several teams is contemplated, and some inter-district contests are in prospect. Participation is extended to all persons interested in bowling.

UZZUQUIN MEETS ORLEANS BOY; LAST-OUTDOOR-BOUT

NEW YORK, Oct. 17—The job of rimping the lid on the outdoor boxing season, as difficult a task as the prize-off process in the rains of last spring, will be undertaken next tomorrow night at Ebbets field. The final outdoor show will bring together Paulino Uzzuquin, the Basque heavyweight, just returned from a trip to Spain, and "Big Boy" Peterson, New Orleans, who will substitute for Roberto Roberti in a 10-round bout.

The Italian giant scheduled first to close the season against George Godfrey, and later with Uzzuquin, took the hits that delayed both matches to the X-ray machine and found that he had been broken ribs. Peterson, who lost to double Roberti on a foul was called on to substitute.

"El Waffle" Scales 114 Pounds After Racing Around Track 12 Miles; American Tracks

NEW YORK, Oct. 17—El Omfi, brown-skinned Algerian 1928 Olympic marathon champion, paced 12 miles today at Madison Square Garden working out the muscle kinks for his 26-mile race with Joie Ray and a half dozen other distance stars here Sunday night.

No time was taken for the distance covered by the wiry, muscled running machine that weighs only 114 pounds. "El Waffle" scaled that before he started and to the amazement of onlookers he ran the few ounces lighter when he finished. He perspired little and finished at a fast clip in fine condition.

Ray Trains Outdoors

Ray, for years the American mile champion, is training out-of-doors for the winter season of his picturesque career and his professional debut.

El Omfi, who learned to run following his father's three-camel caravan in Algeria prior to the World war, soon will celebrate his thirty-first birthday. A strict vegetarian, he was the fastest dispatch bearer in the French army before winning the Olympic trophy of 1924 and finishing seventh in the international classic of that year.

Rather naively, the Arab, explained today through an interpreter, that he took-up running as a sport because it cost him nothing. All the equipment necessary he said was the normal afternoon attire of Algerians and that does not even include shoes.

DETROIT CLUB MANAGER DESIGNS FROM POSITION

DETROIT, Oct. 17—George Moriarty, manager of the Detroit baseball club of the American league, resigned tonight at the expiration of his two-year contract with the team.

The resignation was contained in a letter to Frank Navin, president of the club. Beyond stating that the resignation had been accepted, Mr. Navin refused to comment.

Stanley Harris, former manager of the Washington Americans, valued Detroit last week, ostensibly for a conference with Navin, and following the visit it was rumored that he would pilot the club next year. Quoted tonight, President Navin said he had no statement to make on the subject at this time.

Senator Borah's address was delivered to probably the largest number of auditors so far assembled during the campaign trip that he has made in the past three days through the "solid South" states of Virginia and North Carolina. Three halls in the city were equipped with amplifiers to carry the speech from the auditorium to expected overflow audiences. His speech was broadcast over the nation by a coast-to-coast radio hookup.

Senator Borah left directly after the speech on his private car for Chattanooga, Tennessee, where he will deliver a speech tomorrow.

STOCKHOLM, Oct. 17 (AP)—A mammoth grave containing the bones of 1800 men killed in battle has been found by excavators outside the city wall of Visby, on the Swedish island of Gotland. The discovery is said to be unequalled in archeological annals as to size and historical value. Within the grave were found large quantities of armor, weapons and a variety of household implements used in medieval warfare. The bones date from 1361, when the Danish King Valdemar Atterdag invaded Gotland for the purpose of conquering Visby, a wealthy Hanseatic stronghold.

BABSON DISCUSSES WHOLESALE TRADE MARKET PROBLEMS

Merchant Using Methods of 40 Years Ago Can Not Hope to Succeed in Present Cash and Carry Age, Expert Says

BABSON PARK, Mass., Oct. 17 (Special to The News)—The wholesaler who succeeds during the next five years will be the one who has the courage and the courage to adopt new policies to meet them, stated Roger W. Babson in his address to the business conditions.

Various reasons have been given for the reduction in the size of average retail orders, among which are the competition, desire of retailers for quick turn-over, purchasing by retailers from several different sources, thereby reducing the amount purchased from each and unsatisfactory credit conditions among the retailers.

retailers are to be successful in meeting chain store competition. The alternative encouraging...

Recent experience has shown that the retailer is only too ready to get his staple goods from the wholesaler's warehouse if he can obtain a substantial price reduction. Also this cash and carry plan, where it has been thoroughly tried, has resulted in increased both in gross business and in net margin of profit.

FOUR ESCAPE INJURY IN ACCIDENT NEAR KIMBERLY

KIMBERLY, Oct. 17 (Special to The News)—Four Kimberly residents escaped injury in a near-serious accident near the Elmer Requa ranch last Saturday. The machine-driven by Capt. Cox who was accompanied by Elmer Requa, Otto Steinberg, and John Savage, dived into the ditch near the sudden application of brakes and overturned, throwing the occupants of the car into the ditch. Minor cuts and bruises were the only injuries received by the passengers. The car was slightly damaged.

F. M. Jayne is here from California looking after property located west of Kimberly.

Miss Gretchen Bager returned from Seattle last week to spend the fall season with her parents, Mr. and Mrs. J. M. Bager.

Miss Odette Critchfield, Oakley, was a house guest of Miss Eloise Croft several days last week.

The Misses Marion Turner, Lucille Requa, Hazel Brown, and Roscoe Scott, were home from Gooding to spend the week-end with their parents.

Miss Aetha Garrison is spending several weeks at Lava Hot Springs in the hope of benefiting her health.

Norma Ross, niece of Mrs. George Croft, is a patient at the general hospital in Twin Falls, where she underwent an operation for appendicitis Sunday.

Mr. and Mrs. Roy Davis have rented the C. H. Cetter farm east of Hansen and will move there about November 1. Mr. and Mrs. Ted Mason will farm the Fred Kennedy ranch the coming year.

Beginning of Shortland The first English treatise on shorthand in which marks represented words was published in 1588 by Thomas Digges, M. A., under the title, "Character, or An Art of Short, Swift and Secret Writing by Characters."

Shortland was practiced by the ancients for its secrecy as well as brevity, and a work is extant on the art which is ascribed to Tim, the freedman of Cicero.

O'd Celluloid Collars A patient for celluloid collars was located in 1872. The material used was composed of a celluloid composition combined to a piece of corn starch, the cloth being placed between the two.

In 1872 the manufacturer began the celluloid collar made of solid starch, approximately twenty thousands of a neck thick.

A business meeting followed the dinner. Plans were made for the remainder of the semester. The committee favored the adoption of the project plan as outlined by Miss Zada French, New York, national secretary, at the cabinet dinner last Tuesday, when the Filer girls entertained 200 cabinet members. This plan will be submitted to the club at the regular meeting Thursday.

Members of the committee are: Mary Elvira Kinas, chairman; Leah Slater, Eleanor Hurst, Pearl Barriekman, Belva Stutzman, Harriet Dwight, Mildred Cobb, June Anderson, Lucile Steinhuis, Lorene Hawkins, Hazel Orm, Jane Ennis, Beryl Love, Maude Davenport, Edna Kinas, Dorothy Kloppenburg, and Mary Beemer.

Use of Medicines It is instinct for human beings to take medicine when they are not feeling well, but the indiscriminate use of medicines does more harm than good. The home medicine chest, which is usually located in the bathroom, should be planned with care and it should be located high enough so that small children cannot reach it.

Bird Long Extinct The moa was a wingless bird found in New Zealand, somewhat like an ostrich in appearance. It varied from the size of a turkey to 12 feet in height. They were edible, and their extermination more than 500 years ago is probably due to this fact.

Pretty Sampler

The old-fashioned sampler consisted of a square of perforated canvas, the rows of perforation being equally spaced. Designs were stamped on the canvas and filled in with different colored wools, the stitches forming little "x's". On the finest canvases this would almost give the effect of a painting.

Among the local young people who take part in the cast are: Winifred Langlois, Paul Selby, Natalie Christensen, Owen McBride, Forrest Varney, and Wesley Stearns. EAST END YOUTHS WRITE COMEDY TO BE PRODUCED

BURLEY, Oct. 17 (Special to The News)—"Glory," a play written and set to music by Idaho young folks, will be produced here under the auspices of the Legion Auxiliary, October 22. Ralph Herron and Bob Deiss collaborated in the comedy, while Marjorie Alberson, a university of Idaho girl, wrote the music.

Herron has had experience in play production, having had one of his plays presented in Burley by the Auxiliary two years ago. With Deiss Herron was employed in Yellowstone national park during the summer months, and together they wrote the play after working hours. The play narrates the career of three college graduates who set out in search for glory.

Prosperity didn't "just happen"

As shown by Herbert Hoover's statements

Every man has a right to ask of us whether the United States is a better place for him, his wife and his children to live in, because the Republican Party has conducted the government for nearly eight years. Every woman has a right to ask whether her life, her home, her man's job, her hopes, her happiness, will be better assured by the continuance of the Republican Party in power.

Acceptance Speech, August 11, 1928.

Higher Wages

The average of real wages is higher today than ever before. And the arduous hours of labor have decreased. We can easily prove this. As a standard of comparison, let us take the purchasing power of wages in 1913 or before the war. In purchasing power we consider both the dollars and the cost of living. Taking this standard we shall find that real wages at the height of the war inflation were about 50 per cent over 1913. Despite the great after-war slump they have risen until today they are over 50 per cent greater than before the war. Viewed in another way, while the cost of living today is about 60 points on the index above pre-war, wages are 127 above. Parallel with this increase in real wages the average hours of labor have steadily decreased.

Moreover, our real wages and our standards of living are the highest in the world. And I am again speaking of the real buying power of wages.

Newark Speech, September 17, 1928.

High Standard of Living

Our workers with their average weekly wages can today buy two and often three times more bread and butter than any wage earner of Europe. At one time we demanded for our workers a "full dinner pail." We have now gone far beyond that conception. Today we demand larger comfort and greater participation in life and leisure.

Most of all, I like to remember what this progress has meant to America's children. The portal of their opportunity has been ever widening. While our population has grown but 8 per cent we have increased by 11 per cent the number of children in our grade schools, by 60 per cent the number in our high schools, and by 75 per cent the number in our institutions of higher learning.

Acceptance Speech, August 11, 1928.

More Jobs and More Wages

On any calculation our exports have increased by over one billion dollars during the past seven years. This is an increase of 31 per cent since 1922 and an increase of 58 per cent over pre-war.

It is no accident which has brought about this unique situation in the United States. It is not chance that has brought this added employment for American workmen, and added markets for American farmers. Things like that don't happen.

More than two million families in the United States earn their living today producing goods for export,

and another million families earn their living in the manufacture of raw materials which we import in exchange for our exports. This increase in exports has brought a living to 500,000 families. This means more than statistics. It means higher standards of living—more jobs make more wages. Foreign trade is no artificial stimulant to employment. Its development is a vital contribution to the welfare of the American workman and the American merchant and the American farmer. I propose that we shall continue this service to our people.

Newark Speech, September 17, 1928.

Cooperation Stated

I have already stated the position of the Republican Party in positive support of free collective bargaining. I have stated that it is necessary to impose restrictions on the excessive use of injunctions. It is my desire and the desire of every good citizen to ameliorate the cause of industrial conflict. To build toward that end, cooperation which must be the foundation of common action for the common welfare. The first requisite to less conflict is full employment. By full employment we are steadily reducing conflict and loss.

One of the oldest and perhaps the noblest of human aspirations has been the abolition of poverty. By poverty I mean the grinding of undernourishment, cold, and ignorance and fear of old age of those who have the will to work. We in America today are nearer to the final triumph over poverty than ever before in the history of any land. The poorhouse is vanishing from among us. We have not yet reached the goal but given a chance to go forward with the policies of the last eight years, and we shall soon with the help of God be in sight of the day when poverty will be banished from this nation. There is no guarantee against poverty equal to a job for every man. That is the primary purpose of the economic policies we advocate.

Having earned my living with my own hands, I can not have other than the greatest sympathy with the aspirations of those who toil. It has been my good fortune during the past 12 years to have received the co-operation of Labor in many directions and in the promotion of many public purposes.

Acceptance Speech, August 11, 1928.

Avoid Disaster

At such a time as this a change in national policies involves not — as some may lightly think — only a choice between different roads by either of which we may go forward, but a question also as to whether we may not be taking the wrong road and moving backward. The measure of our national prosperity, of our stability, of our hope of future progress at this time is the measure of what we may risk through a change in present policies. More than once in our national history a change in policies in a line of advancement has been quickly followed by a turn toward disaster.

Newark Speech, September 17, 1928.

- A**merican standards of living are the highest in the world—and steadily improving.
- American wages are by far the highest in the world—and steadily advancing.
- American workers have the shortest hours in the world—and they are steadily becoming less.
- American homes have more conveniences, more comforts, and more luxuries than any other homes in the world.
- Americans own more automobiles, wear better clothes, have more amusements and more plentiful food than the citizens of any other country in the world.

Hold Herbert Hoover on the Job!

"Real wages and standards of living of our labor have improved more during the past seven and a half years of Republican rule than during any similar period in the history of this or any other country"

says Herbert Hoover—and he knows—for, as Secretary of Commerce for Calvin Coolidge, he more than any other individual directed the business policies which made it so!

Our National progress has been built upon time-tested Republican policies—not untried and doubtful experiments. **WHY CHANGE NOW?**

Republican tariff protection has increased the comfort and happiness of every American citizen—man and woman—housewife and clerk—worker and farmer—merchant and manufacturer.

Republican restricted immigration has protected American wage-earners from a flood of cheap labor that would lower wages and cause unemployment.

Republican export policies have increased our foreign sales of American surplus industrial and agricultural products from \$3,750,000,000 in 1922 to \$4,840,000,000 in 1927—over a billion dollars increase—the means of livelihood for more than two million American families.

Why trade such proven benefits for a phantom glass of beer?

Under able management we can confidently expect these proved Republican policies to produce even greater prosperity in the future.

Let's elect as President America's best business administrator—Herbert Hoover—and keep our jobs and our prosperity.
