

MONOPLANE HURTTLS WESTWARD THROUGH NIGHT; SEEKS HONOR

Yankee Doodle Leaves Runway in New York Like Projectile; Heads Toward Los Angeles; Captain Collyer at Controls

(By The Associated Press) ROOSEVELT FIELD, N. Y., Oct. 24.—The cigar-shaped Lockheed-Vega monoplane, Yankee Doodle, took a wild projectile from the runway this afternoon and headed for Mines field, Los Angeles, in an attempt to beat a record that has stood for more than five years.

Harry Tucker, owner of the plane was in the rear seat, dressed in an ordinary business suit, while the controls were in the hands of Captain B. D. Collyer, sky writer and joint holder of the round-the-world speed record.

Goebel Record Recalled Last August, Tucker, piloted by Art Goebel, crossed the center in one hour from Los Angeles in 18 hours and 34 minutes, beating by almost 8 hours the flight made from east to west by Lieutenant John MacGregor, and Oakley Kelly in 1923, their time being 28 hours and 34 minutes. In the flight Tucker and Collyer and Tucker will attempt to beat MacGregor and Kelly over their own course.

The route of the Yankee Doodle on its latest flight over Kentucky, Pennsylvania, Columbus, Indianapolis, Terra Haute, Wichita, Albuquerque and the San Bernardino mountains was reported to be good all the way.

Plane in Previous Race The Yankee Doodle one before has raced from the east coast toward the West, but without success. In the transatlantic air derby non-stop, last month Tucker and Goebel first arrived at Mines field, but when they were acclaimed as winners they told of having had to make one stop en route. As none of the other entries succeeded the race was declared a contest.

The ship took the air easily today after a run of 1200 feet, in 30 minutes and 35 seconds at 4 o'clock. The flight was from east to west in flight of 24 hours and Tucker and Collyer hoped to land in Los Angeles about noon tomorrow.

Witnesses Relate Details in Probe Seattle Woman Denies Charge That She Used Office to Circulate Utilities Propaganda

WASHINGTON, Oct. 24 (AP)—Two witnesses were heard today in the federal trade commission's power utilities investigation, one testifying that she had been in contact with Louisville, Kentucky, editors in a letter previously introduced to the other, denied that she is superintendent of public instruction in Washington state had circulated propaganda favorable to private utility interests in the schools of the state.

Manager Identifies Letter Robert Montgomery, sales manager of the Louisville Gas and Electric company, identified a letter written by him last February to George E. Osley, publicity director for the National Electric Light association. "I never kept a copy of the letter," Osley informed on all matters of importance to the industry at large, such as the Boulder dam controversy, which has been the subject of the case.

Appears Voluntarily The school superintendent said she appeared voluntarily "because of misrepresentation" by saying that she was voicing the use of certain utility propaganda by some of the teachers. Some of the teacher-training institutions and the alleged spreading of pernicious propaganda in the public schools.

After hearing these witnesses briefly, Commissioner Osley recommended the inquiry until tomorrow. To date, more than 4000 documents have been put into the record of the investigation which has now covered all states except California.

Poor Visibility and Rain Keep Dirigible in Lakehurst Hangar

LAKEHURST, N. J., Oct. 24 (AP)—The Middle Western flight of the transatlantic air liner Graf Zeppelin, tentatively scheduled until tomorrow night because of rain and poor visibility over the Allegheny mountain region.

Dr. Eugene Eslinger, commander of the airship, said a low pressure area moving across the Great Lakes, toward the mountains, while placing the ship in no danger, would likely obscure the craft from a line of observers below and hide the country from passengers.

A training flight of the Los Angeles, also scheduled to begin tonight, was definitely postponed until tomorrow.

The score of passengers selected to make the trip hung impatiently about the air station, disappointed at a delayed schedule.

Reports Indicative of Unusual Prosperity in Idaho During Year, Says Commissioner

BOISE, Oct. 24 (AP)—A gross gain of \$20,000,000 in deposits during the year ending with the last bank call, October 3, was reported today by E. W. Porter, commissioner of finance, in summary of bank statements submitted by the 94 state banks of Idaho.

The call revealed \$48,407,947 in the state banks as against \$32,845,911 a year ago.

A corresponding increase in national bank deposits in the state would bring the total increase to over \$100,000,000, in the state, there being about half as many national banks as state banks in Idaho.

Especially interesting, reports the commissioner said in his report, "are always interesting to one familiar with Idaho's economic conditions as indicative of unusual prosperity in the state during the last year."

Returning Confidence "A decrease to \$121,000 in the item of "other real estate" indicates remaining confidence in the state, and farming activities of the state, since this amount of property formerly belonging to the banks has been disposed of during the year.

Band of Gypsies Holds Canadian Boy Captive

BOISE, Oct. 24 (AP)—A band of Gypsies who passed through Idaho Monday were reported to have kidnapped a boy, a captive in the camp, Sheriff Emmet Frost of this county said today.

Officers at Caldwell have been notified and the boy is being investigated will be pressed as soon as the tribe is located. The Gypsies are believed to be in the vicinity of Parma.

AMERICAN PIONEERS OF INDUSTRY HONOR GUESTS AT BANQUET

"The list enabling us to hold Body and Soul Together and Give Wider Opportunities for Development," Says Schwab

(By The Associated Press) NEW YORK, Oct. 24.—Pioneers of American industry were guests tonight at a dinner given jointly by Columbia university, the Institute of American Meat Packers, the New York State Chamber of Commerce and New York City Merchants association.

The men honored included: Thomas A. Edison, Henry Ford, Orville Wright, Charles F. Brannan, George Eastman and Harvey S. Firestone. Cyrus H. K. Curtis and Glenn H. Curtiss had been included in the list but were unable to attend the dinner, given at the Hotel Astor, followed upon the fifth conference of major industries held during the year at Columbia under the auspices of the university and the Meat Packers' institute with the cooperation of the chamber of commerce and the merchants association.

Frank B. Noyes, president of the Washington Star and of The Associated Press, represented the printing and publishing industry at the conference. Answering critics of newspapers, he maintained that the press was making steady progress in accuracy in breadth of information and in ethical standards.

Clark Assails Hoover for Agriculture View

MALDEN, Idaho, Oct. 24 (AP)—The views of Herbert Hoover upon the farm problem, as given in his New York speech were attacked by Chase J. Clark, Democratic nominee, United States senator, in a speech here tonight.

"Mr. Hoover calls Governor Smith a Socialist," said Clark, "and I think Mr. Hoover does this honestly. Mr. Hoover always has been connected with big financial interests in the word of Senator Borah."

"I cannot see the small taxpayer," he thought is horrifying to him for Smith to suggest we can go into the United States treasury and make an appropriation to help the American farmer."

Utah Youth, 18, Faces Manslaughter Charge

SALT LAKE CITY, Oct. 24 (AP)—Winnifred Carter, 18, was committed today to the district court today for trial on charges of voluntary manslaughter, after City Judge N. H. Tanner denied a writ of habeas corpus from the district court today for the fatal shooting of Charles (Chuck) Carter, October 19.

The youth had testified that he fired the fatal shot to halt Carter's fight from the home of Miss Virginia Carter, after Carter had threatened the girl.

WAR VETERAN, 88, WEDS HOUSEKEEPER, 70 YEARS YOUNGER; IN ILLINOIS

ST. LOUIS, Oct. 24 (AP)—After falling in an attempt to get a marriage license in Belleville, Illinois, October 13, 88-year-old Novena Smith, 88, and Edward N. James, 88, convinced the license clerk at Belleville, Illinois, that today they had been married in the State of Missouri. Today, however, they told the clerk they lived in Coltonville, Illinois.

When applying for a license in Belleville, the young bride and her older bridegroom identified themselves as residing in the State of Missouri. Today, however, they told the clerk they lived in Coltonville, Illinois.

James said he is a retired farmer and veteran of the Civil war, while his bride says she has been a housekeeper for three years.

LOCOMOTIVE PILOT DIES; TRAINS CRASH

Engine With Dead Man's Hand On Throttle Plows Into Rear of Freight on Wyoming Line

GREEN RIVER, Wyo., Oct. 4 (AP)—An Oregon Short Line freight train with the hands of a dead engineer at the throttle today crashed into another Oregon Short Line freight standing in the yards at Flat Out, 100 yards west of the Green river, and demolished four cars. The engine overturned and rolled down an embankment.

Ray Welker, Montpelier, Idaho, the engineer was believed to have died before the crash. Clarence L. Boynton, fireman, also of Montpelier, jumped from the cab before the collision and received minor injuries. Boynton said Welker had not spoken after the train left Oranor, 30 miles west of Green River, and made no effort to jump when the collision was inevitable.

GEM STATE SENATOR CHARGES DEMOCRATS WITH POOR DEFENSE

Robinson, Glass and Daniels "Unable to Uphold Stand of Leader on Liquor," Says Senior Solon From Idaho

(By The Associated Press) JOPLIN, Mo., Oct. 24.—Senator Joseph T. Robinson, Democratic vice-presidential candidate, Senator Carter Glass, Virginia, Josephus Daniels, former secretary of the navy, and Governor Dan Moody, Texas, were described by Senator William E. Borah, Idaho, in a speech here tonight "as being unable to defend Governor Smith's liquor stand, so they are trying to attack me."

"It is easy to catch the deflagrant," the senator declared in his speech which ended his Southern campaign trip for Herbert Hoover's presidential candidacy. "Now they are not really attacking me at all; what they are doing is displaying the agony of mind which comes from trying to make a speech in favor of a candidate in whose principles and policies they do not believe."

The Democratic leaders had previously been attacked by the senator in a speech in Washington, D. C., last week.

THOMAS POINTS WAY TO CONTINUED PROSPERITY

IDAHO FALLS, Oct. 24 (AP)—Describing his economic achievements of the Coolidge administration as largely responsible for the present prosperity of America, Senator John Thomas Gooding, declared here tonight that this prosperity could be prolonged with assurance of its increase by the election of Herbert Hoover.

Turning his attention to his fellow candidates of the Republican party, Thomas declared Congressman Addison T. Smith and Burton L. French to be the men of proven ability with the interest of their state at heart and advocated their re-election. In regard to Governor Baldrige he stated that the administration has been sound and most efficient.

Coincident with their visit, a telegram from a group of social workers in Chicago was made public at Hoover's headquarters here today by Jane Addams and a score of others and detailed five reasons why they expected a vote for Hoover.

The first reason, was attributed to the humanitarian services as a private citizen, his appointment to public office and his record as a public official.

Canadian Dairyman's Cow World Champion

MOOSE JAW, Saskatchewan, Canada, Oct. 24 (AP)—Canary Korndke cow belonging to the herd of Ben H. Thomas of Bonanza, Saskatchewan, has been declared the world's champion butterfat producer.

Mr. Thomas received a telegram from the livestock commissioner at Ottawa, notifying him that his cow had won the world championship with some margin to spare. Her record for 305 days was 1080 pounds butterfat, or 106 pounds more than any previous record holder. In the 305-day period the cow produced 262-3/4 pounds of milk with an average test of 4.04 butterfat.

INFLUENZA EPIDEMIC IN SAN FRANCISCO DISTRICT

SAN FRANCISCO, Oct. 24 (AP)—Dr. Walter M. Hinkle, head of the state board of health, said today that an epidemic of influenza in San Francisco, California, continued at present to the cities of the San Francisco bay region. Few deaths have been reported but since October 1, several thousand cases have been brought to the attention of the health board.

Candidate Outlines Farm Relief Plans

Standard Bearer of Grand Old Party Announces Theme For Address

(By The Associated Press) WASHINGTON, Oct. 24 (AP)—Herbert Hoover will make waterways and the problems of agriculture the subject of his Middle Western speech at St. Louis on November 2.

The speech, which will be next to the last one the Republican candidate will make before the election, will be delivered in the Coliseum over a nationwide radio hookup.

Hoover now expects to leave Washington week from tomorrow on his transcontinental trip to his Palo Alto home to vote.

The candidate expects to arrive in Palo Alto on the afternoon before the election and probably will make a radio address that night in which he will urge all citizens to vote.

Hoover had no comment to make today on an announcement that Senator George W. Norris, Nebraska Progressive, would raise his voice in advocacy of the campaign of Governor Smith.

Main Purpose To Vote In making public his plans for the Western trip, Hoover made it clear that the main purpose of the journey was to carry him home to vote and that the speech was only an incident to the main purpose of the trip from St. Louis to the coast.

The route westward would carry Hoover from St. Louis to Grand Island, Nebraska, through Cheyenne, Wyoming, Ogden, Utah, and Reno, Nevada, to San Francisco and thence to his home in Palo Alto, California.

The candidate spent most of today working on his speech and laying the plans for the final trip to the West. During the morning he received a delegation of civic leaders and social workers within the advertising staff.

"The great tasks of life-saving in which it was my privilege to have a part with you, are thank God, being done," he said. "I am sure that a more hopeful world, he said, will be the result of the war in behind us."

Today we have but one thing to do, and that is to bring up those who lay in the great march of progress to the front ranks."

Coincident with their visit, a telegram from a group of social workers in Chicago was made public at Hoover's headquarters here today by Jane Addams and a score of others and detailed five reasons why they expected a vote for Hoover.

The first reason, was attributed to the humanitarian services as a private citizen, his appointment to public office and his record as a public official.

BOURBONS NOMINEE IN BOSTON ASSAILS REPUBLICAN LEADER

New Yorker Declares Former Commerce Secretary's Utterances on Water Power Not Satisfactory; Crowd Noisy

(By The Associated Press) BOSTON, Oct. 24.—The Madison Square Garden speech of Herbert Hoover drew fire to-night from Governor Smith, who today carried the Democratic standard into the normally Republican state of Massachusetts to be welcomed by a shouting crowd which swept 200 policemen before it in an effort to catch a glimpse of the nominee and his waving brown derby.

The yelling reception the governor received upon his arrival at South station kept up without a break during a parade of the city and broke out anew after nightfall when in Arena Hall he opened his final drive for the presidency with a verbal bombardment of the Republican candidate whom he accused of using words "to conceal rather than convey a meaning."

Before reaching the arena Governor Smith made brief remarks to gathering thousands here and then declared: "Thousands here massed at both arenas when Governor Smith arrived and he was greeted with loud cheering. At this point, Governor James M. Curley, Boston, introduced him at Mechanics building as the greatest humanitarian in the world."

After the governor's departure from the arena the crowds remained in the Mechanics building to listen to his Arena address which was brought to them by radio end speakers.

The address was introduced by Mrs. Curley, who said she was proud to have her husband with her.

NEBRASKA SENATOR TO SUPPORT SMITH

Hoover's Stand On Water Power Given as Reason for Norris' Action; Views for Differ

PORTLAND, Oct. 24 (AP)—Governor Alfred E. Smith, Democratic presidential candidate, won to his banner today a new recruit in United States Senator George W. Norris, before leaving for his home in Nebraska.

Senator Norris, who is listed in the congressional directory as a Republican but who referred to himself as a Progressive Republican, announced here today that he would support the Democratic nominee.

The announcement did not come as a total surprise to either Democrats or Republicans here as the way had been paved by statements yesterday in Tacoma and Seattle. Before leaving for his home in Nebraska, Senator Norris said that Mr. Hoover's stand on water power "will, I think, drive me to support Governor Smith. The Nebraska was referring to the Republican presidential nominee's speech in New York Monday night.

But Governor Smith said he would make his first Smith-for-president speech in Omaha next Saturday night. He said he would not make any conclusion but to support Governor Smith for president," he said. "For a Progressive there is no other place in the country where the real campaign is not with Governor Smith on his stand on prohibition, but I think that will be worked out satisfactorily if he is elected. But his stand on the water power monopoly on relief of the farmer is right."

Senator Norris said the great battle ground of this campaign should be in the Middle West—in the agricultural section of the country.

"I am sure that this section will vote," he added, "no one can forfeit, but the farmers and those who depend on the farmers for their prosperity should support Governor Smith. The truth is, as has been announced in a number of his speeches, will give the farm section the best of the deal."

At present, the Republicans offer nothing except a few kind words. "As for the power problem, it is a most evident fact that Hoover will do nothing to curb this giant trust. It is tightening its grip on the country and the only way you will add us as I see it, Smith, Secretary Hoover, campaigned in the interest of Progressive candidates for the senate. From now on, I shall stand on the side of the Democratic national ticket."

## LOS ANGELES SQUAD LEAVES FOR MOSCOW TO BATTLE VANDALS

Over Two Score Players Off for Northwest; Team Confident of Victory; Dope Favors Californians Slightly

(By The Associated Press) LOS ANGELES, Oct. 24.—The University of California, Los Angeles football squad, numbering 25 players, departed for the Northwest tonight for the first of two jaunts into the territory for Pacific coast conference contests. The Bruin footballers, encouraged by the fact that Idaho suffered an even more decisive defeat at the hands of Stanford than they, entrained confident of victory in the clash with the Vandals at Moscow Saturday. Idaho was defeated, 47 to 0, by the Cardinals in an earlier, spotted-the-Bruins, 45 to 7.

Open Style Plays His Bruins outwitted by the Vandals about 10 points the man Coach William Spaulding is expected to send his men into the Idaho game with orders to use open-style plays designed to attack the speed of his backs and the passing of Captain Joe Fleming, halfback, and Buddy Foster, quarterback. A light afternoon wind drill was held this afternoon before departure. Spaulding will send his men through a workout on Millmoch field, Portland, Friday. Spaulding took the following men: Ed. Tackman, Bishop Adams, and Dick Jackson, Brown, Huse, Tandy, Jacobson and Zimmerman; guards; Gould, Noble, Goodstein, Gibson, Simpson, centers; Rensch and Epstein, quarters; Duncan and Porter, halves; Captain Fleming, Labrucherie, Simpson, and Angell, fullbacks; Field, Libby and Tice.

## BRUINS HOLD FIRST PRIVATE PRACTICE

Injuries Deplete Filer Lineup; Wildcats Develop New Quarter; Smith's Boots Long

Behind closed gates with guards patrolling the fences the Twin Falls Bruins went through their practice session last night without spectators. Just what the changes in system will be could not be ascertained, but from the length of the session it is inferred that new formations were given to the Bruins.

Wildcats Not Idle The Wildcats have not been idle this week, and much time has been spent breaking in a new quarterback, Paige, regular quarter. It was not able to play against Nampa last week. One regular end, Shering, is also out of the game, and Smith's position, on the sidelines with a bad knee, Smith, Schockley and Harnberger, however, are in good hand. The big linebacker some of the work-off Smith and has been credited with much of the yardage made by the Wildcats.

Boots to Go Smith has been punting as usual and this factor alone makes it hard on any opponent. His boots average nearly 40 yards and a 60-yard boot is not unusual. While the dope favors the Bruins to win, traditional rivalry between the two schools makes the game of major importance. The game is called at 3:15 P. M. Friday on the Filer field. Officials are: Andy Gaffney, referee; Max umpire, and Hunter, headlinesman.

## AMERICAN PIONEERS OF INDUSTRY HONOR GUESTS AT BANQUET

(Continued From Page One) Smith takes pride in the service he renders the nation. That that pride does not prevent recognition of the work of the industrial pioneers is growth possible. These conditions consist of a public component and easier to use than any inventions. Mr. Schwab, a speaker as well as guest at tonight's dinner, asserted that the efforts of the industrial pioneers raised the question of whether, in an era of machinery and unmanly machines, the human element was likewise "moving forward spirally on an equally wide front." "Some one has said," he asserted, "that modern machinery is destroying the soul of mankind. The fact is, as I see it, that science is enabling us to hold body and soul together and giving wider opportunities for the soul to develop."

## SALES VOLUME INCREASES

AKRON, Ohio, Oct. 24 (AP)—A volume of sales greater than any corresponding three months period in the history of the company was reported at the B. F. Goodrich company directors' meeting today. ## BUHL MAN WILL APPEAL FROM LIQUOR SENTENCE

John Bradley, Buhl, convicted of second offense illegal possession of liquor and sentenced to serve two to five years in the state prison, has applied to the district court here for a new trial. Through his attorney, W. L. Dunn, Twin Falls, he also filed yesterday notice of appeal to the supreme court from the judgment in the liquor trial that was entered in district court here last Friday. Among other grounds alleged as basis for the application for new trial it is argued that no evidence was introduced to show that the contents of a four-gallon keg and a frolic bottle was an intoxicant, or that either the keg or bottle, although found in Bradley's possession, was actually in his possession.

## DAIRY COWS BRING AVERAGE OF \$124.13

Sale of Carl Middlestadt Jersey Herd State's Best, Believes Head of County Club

"The Jersey cattle sale of the estate of the late Carl Middlestadt a mile and a half from Buhl today was, all things considered, the best Jersey sale ever held in the history of Idaho," said S. H. Kayler, president of the Twin Falls County Jersey Club, last evening on his return to Twin Falls. There were 69 head of stock sold, said Mr. Kayler, "including 15 small calves and three aged bulls for a total of \$9698.87—an average price of \$124.13 a head." Prices were remarkably uniform. The top bull brought \$310, the top cow \$285, and the top heifer \$185. The high priced cow was bought by P. C. Doono, Twin Falls. "Buyers were present from different parts of Twin Falls county and from Blackfoot, Idaho Falls, Rupert, Burley, the North Side, and the Boise valley," Colonel E. O. Walter, Filer, con-

At the annual convention of the National Dairy Industry Association, held in Chicago, San Francisco, Los Angeles, Seattle.

THE DAIRY INDUSTRY

With a thriving dairy industry of its own, and a constantly increasing butter production that contributes annually a good many thousands of dollars to its income, the Twin Falls county is vitally interested in the welfare of the butter industry and the safeguarding of its markets.

Government statistics show that each person in the United States consumed last year seventeen and four tenths pounds of butter, which was two pounds more than in nineteen hundred twenty-six.

Production of butter in the United States has doubled since 1918, and price advance and increasing consumption have been maintained in the face of this production increase.

Price of butter has been higher in this country than it is at the present time, but never before have production, price and consumption been maintained at the same time on a high scale.

In this connection, it is interesting to observe that ninety-five per cent of the butter produced in the United States is sold in home markets, and only ten per cent of every dollar's worth of butter goes for food supplies.

It is pretty well established that consumption of food supplies, and particularly of butter, bears close relationship to urban employment and unemployment, and declines rapidly in periods of industrial depression.

Concomitant with the butter industry, that during the past six or seven years, indicate a wholesome condition throughout the country generally and maintenance of this condition is a prime consideration in the present political campaign.

A PIONEER PASSES

Dominant traits in the character of the late James A. Waters tend to make his life story an inspiration and a benediction. His sudden death has left a void in the Twin Falls country and brings a distinct sense of loss and of appreciation.

SMALL LOANS

Credit is growing democratic. It spreads out and down. A big corporation is being organized in New York to operate on a national scale, lending sums of three hundred dollars and less to wage-earners and others of small means.

There has always been plenty of bank credit for "safe risks" of large income. The person of small income, especially the wage-earner, has seldom been able to borrow as much comparatively, or to borrow on anything near such favorable terms.

Now this is to be remedied. It seems the little man will have access to whatever credit he deserves, paying no more for the accommodation than is warranted by the risks and costs of collection of an honest and efficiently operated system.

This, says a financial reviewer, is the second step in a movement which began in the United States consumed last year seventeen and four tenths pounds of butter, which was two pounds more than in nineteen hundred twenty-six.

That is true enough. Yet where there is so much credit available, it is only right to pass it around. Economic equality of opportunity is the American ideal. And all must learn from experience.

THE FORUM

BELLS AND BELLTOWERS Editor Twin Falls News. Dear Sir: A news item in today's News has requested our mayor to have church-bells sound at the opening of the polls on November 6. This idea is not a new one.

But the Eastern suggestion, as viewed from another angle, is interesting, nevertheless. It would seem to the citizens of Twin Falls that church bells, well, well! What backwoodsness these Woodbury folks have! They are so backward in the impression that the East was far ahead of the West—and now we find that they still ring church bells in our Mayor's office.

It would be wrong, however, to create the impression in the East that we have lagged all forms of progress behind since we have retained some of the more ingenious kinds. We have and we permit every conceivable kind of progress to be made in our town.

STUBBORN ROOF-FIRE IN MASONIC TEMPLE

Firemen Conquer Blaze After Hour's Battle; Stove Origin of Flames; Damage Slight

Firemen battled for an hour yesterday afternoon to put out a stubborn fire between the ceiling and the roof in the east corner of the Masonic temple, corner of Second avenue and Second street west.

Origin of the fire was traced to a stove pipe passing with inadequate protection through a partition wall of lath and plaster separating the lodge room from a small closet in which the janitor's office was stored.

The smoldering blaze was confined by the firemen's efforts to a small space between the ceiling and roof, at the top of the partition wall just above the stove pipe. Damage from fire was small, but no estimate had been put on the amount of damage to the building.

Two lines of hose were used by the firemen. One played on the fire through a hole cut in the roof immediately over the burning area, and the second line of hose was directed at the stairway at the entrance at the rear of the building, and diagonally across the lodge room. Water escaping from a hole in the line of hose taken inside the building drenched a considerable area of the new carpet.

The fire was discovered by the janitor soon after he had kindled a fire in the lodge room stove at about 3 o'clock yesterday afternoon in preparation for a meeting last evening of the Twin Falls lodge, A. F. and A. M. If the first time a fire had been kindled in this stove, which had been installed only recently. The janitor stated that he watched developments closely being fearful of possible damage to the wall, and that he summoned the fire department as soon as he saw a thin curl of smoke issuing from the wall near the ceiling above the stove.

The room was filled with a dense smoke of the fire which was extinguished. The lodge meeting that was to have been held last evening was postponed.

JAMES A. WATERS WILL BE LAID AT REST HERE

Neighbors and friends throughout the Twin Falls country will join today with associates of fraternal orders and with the bereaved family in paying an impressive tribute at funeral services for the late James A. Waters to be held in the Methodist Episcopal church at 2:30 P. M. Services in the church will be conducted by Rev. Arthur O. Pearson, pastor of Twin Falls Presbyterian church and chaplain of Twin Falls lodge of Masons. Pastoral members of Twin Falls commanders, Knights Templar, in a body will attend the services in the church, and will have charge of services at the graveside in Twin Falls cemetery. Knights Templar will have a pall-bearing.

Members of other orders of which Mr. Waters was a member also will attend the services. These organizations include the Knights of Pythias, Woodmen of the World, and Order of the Eastern Star.

Relatives who are here to attend the services, include: Mrs. Nellie Milbury, Twin Falls, Washington, and Mrs. H. L. Sommer, Parkside, Oregon. Sisters of Mr. Waters, Mrs. Sommer was formerly, Mrs. Cora Cronk, Twin Falls. She is accompanied by Mr. Sommer.

The three daughters of Mr. and Mrs. Waters also will attend the services. They are: Mrs. Essene Emery, Spokane; Mrs. C. F. Hoekstra, Wendell; and Mrs. B. E. Eider, Twin Falls.

MAN FACES LIQUOR POSSESSION CHARGE

Frank 'Pancake' Turner Taken at Cache of Alleged Boozer; Wife Breaks Jug in Jussle

Frank Turner, familiarly known as 'Pancake' Turner, has again come off second best in an encounter with the officers here, and is lodged in Twin Falls city jail last night to face prosecution on a felony charge of second offense illegal possession of liquor, involving upon conviction, a minimum term of two years in the state prison. In the second encounter, in an irrelevant similar affair, Mrs. Rose Turner, wife of Frank Turner, destroyed the evidence.

Officers Watch Cache - Police officers watching where a carton including a jug which they stated contained moonshining whiskey that had been cached a short time before in woods on Blue Lakes boulevard north, arrested Turner when he ran his wife put in their appearance, and, according to the officers, Turner went without hesitation to the cache and picked up the jug.

When the officers made their presence known, it was reported, Turner (passed the jug to his wife, Dale, and she, police officers, attempted to take the jug from her, and in the attempt, it fell to the pavement and was broken. Turner, the officers said, put up a good fight against arrest, but was overpowered and brought in to the police station with handcuffs about his wrists.

Has Police Record - Turner, according to police records, was convicted two years ago of illegal possession of liquor - this had been cached in or near a canal in the east part of town. When arrested on that occasion, the officers recalled, Turner had offered to do battle with Roy Davis, then deputy sheriff, whose efforts were supplemented by those of C. E. Jones, former deputy sheriff. Mrs. Turner, the officers stated, had figured conspicuously in a raid made by the police on the Turner residence last winter when she is said to have thrown a jug of moonshine whiskey into a stove, causing a conflagration that occasioned a visit by the fire department.

Mrs. Turner the records show, was convicted recently of sale of liquor to a Jerome county deputy sheriff.

CLUBS TO COMPLETE SCOUTS' FUND DRIVE

Kiwanians and Rotarians Will Conduct Whirlwind Finish of Campaign for Boys' Work

Ten members of the Kiwanis club are to be recruited today to serve with an equal number of Rotary club members in a whirlwind campaign next Friday morning to complete subscription of the Twin Falls Boy Scout \$2500 fund for the coming year.

Approximately one-half of the total remains to be subscribed, and about one-fourth of the territory remains to be canvassed, it was stated last evening.

Volunteers serving in the final phase of the campaign will begin work at 7:30 A. M. tomorrow, and expect to complete the undertaking within two hours. The fund to be raised now for the scout work is the only money that will be collected for this activity during the year. Somewhat more money than was collected last year is being sought in order to complete during the coming year a swimming pool that was started last summer at the Boy Scout camp in Shoshone basin.

COMPANY BRINGS ACTION TO COLLECT \$2000 NOTE

Suit of the Twin Falls Securities company against Mrs. Hortense Perrine, involving claim for collection of a \$2000 promissory note and about \$1000 interest, was brought to trial before Judge W. A. Babcock in district court here yesterday. Presentation of evidence occupied only a few minutes.

Mrs. Perrine's defense was based on claim that the note in question was a renewal note for which she had received no benefit. The original note, it was stated, had been created by Mr. and Mrs. Oranville Haight, and was secured by a number of sheep. The sheep, the evidence showed, had been sold and the proceeds applied to the reduction of the original note. The note on which suit now is brought, was executed at that time.

The case for the securities company was represented by Walters and Parry, and Mrs. Perrine was represented by G. T. Hamilton.

## BEN ROSS DISCUSSES AGRICULTURE

"I want to say that we can  
forget the public utilities, the  
railroad companies, the bank-  
ing interests, and the mercan-  
tile interests, and everything  
else in Idaho except agricul-  
ture—and that is the reason  
of this campaign—and I am  
going to confine the most of  
my remarks to that great in-  
dustry, x x x So I am talking  
tonight to the farmers.—And  
I think you will agree with  
me—and I am not going to  
give you the remedy tonight—  
I think I have a remedy,  
but I am not going to give it to  
you tonight, because that is  
not my mission."—Ben Ross'  
American Falls speech, Sep-  
tember 17.

"But I don't want to take a  
lot of time to talk about agri-  
culture because I must get on  
to talking taxes."—Ben Ross'  
Nampa speech, October 10.

"I am not going to talk long  
about agriculture, because I  
think there is another important  
subject that I want to talk to  
you about tonight. I don't believe  
agriculture is the most impor-  
tant subject in Idaho."—Ben  
Ross' Payette speech, October  
31.

"Instead of talking tonight  
about agriculture, I am going  
to talk about the next impor-  
tant thing in Idaho and that is  
taxes."—Ben Ross' Lewiston  
speech, October 15.

"I am only talking to show  
you, the farmer, that the agri-  
cultural industry is the big-  
gest thing in this country. I  
will talk some about taxation."  
—Ben Ross' Preston speech,  
Sept. 21.

"I will cut out part of my speech  
tonight that part that deals  
with the agricultural situa-  
tion."—Ben Ross' Burley  
speech, Oct. 4.

"In view of the fact that you  
have had other speakers here  
this evening, I am not going  
to talk about agriculture."—Ben  
Ross' Jerome speech, October  
5.

"I am not going to talk agri-  
culture tonight, because it is  
rather late and I do not want  
to keep you too long."—Ben  
Ross' Gooding speech, Octob-  
er 6.

"And tonight, in view of the  
fact that I have already had  
two or three speakers, I am  
not going to talk about agri-  
culture."—Ben Ross' Idaho  
Falls speech, October 8.

"I just want to talk about the  
greatest thing in all the  
United States, and that is agri-  
culture, but I am not going  
candidate who has said that  
after I am elected I will ap-  
point a committee to solve that  
great question. I must get to  
the other next great important  
thing—that is taxation."—  
Ben Ross' St. Maries speech,  
October 17.

"Ordinarily, I talk about agri-  
culture, but I am not going  
to do so this evening because  
it is late."—Ben Ross' Twin  
Falls speech, October 8.

Ever since Mr. Ross'  
speeches were taken by a  
reporter. We have care-  
fully compiled Mr. Ross'  
discussion of agriculture  
in these speeches so that  
it may be passed on and  
approved by the heads of  
the great agricultural or-  
ganizations of America.  
We are sure you will agree  
that Mr. Ross has solved  
the problem.

TWIN FALLS, IDAHO, THURSDAY MORNING, OCTOBER 25, 1928.

NEWS OF THE DAY AS CAUGHT BY THE CAMERA

HAZEL WHITE holding the largest flower at the dahlia show conducted by the St. Louis Horticultural society.

COMMANDER H. C. MacDONALD, British aviator, who started out over the Atlantic in a tiny moth plane seeking new transatlantic honors and his proposed route.

MICKEY COCHRANE'S brilliant work behind the bat wasn't sufficient to put the Philadelphia Athletics on top but it brought him the American league most valuable player trophy and \$1000 in cash.

HANS LUDWIG (above) and Knut Eckener (below), son of the commander of the Graf Zeppelin, who crawled out on the damaged port fin to make repairs while the giant dirigible was high above the ocean, enabling the airship to complete her long voyage. The damaged fin from which the wind tore part of the covering is shown.

POKES TOLD Frank H. Lovett (above) that he was wasting his time trying to persuade Herbert Hoover, Republican nominee to add Elizabethton, Pennsylvania, to his Southern itinerary. Nevertheless Lovett persisted. And Mr. Hoover not only

"stopped" in Andrew Jackson's old home town, but he made his principal speech there. Mr. Lovett is editor and publisher of the Daily Star when he isn't busy boosting Elizabethton.

CHARLES BERRY and his "binking" dog, Don Alamo. With good backing, Don does a lot of chores around Berry's home, dogged if he doesn't.

FIRST OF HER SEX to fly the Atlantic as a passenger—if one excepts Boston's Lady Lindy, Amelia Earhart—Lady Drummond Hux is here shown conversing with Dr. Hugo Eckener as the Graf Zeppelin bucked headwinds en route to the United States.

WALTER JOHNSON, veteran pitcher, will return next year to manage the Washington American league club with which he played for 21 years. Johnson (right) is shown signing a three-year contract with Clark Griffith, president of the Senators.

BERT HASSELL and Parker Cramer, pilots of the plane Green Rockford in its flight from Rockford, Illinois, to Greenland, stopped in Washington on the way home and paid a visit to Herbert Hoover. Front, left to right: Parker Cramer, Herbert Hoover, Jr. and Bert Hassell.

CHEERS AND A STORM of paper and ticker tape welcomed Dr. Hugo Eckener and members of the crew of the Graf Zeppelin when they paraded up Broadway to receive New York's official welcome.

A CASPIUS ROMANCE will unite two prominent California families when Ruth Jordan becomes the bride of Dr. Dwight L. Wilbur at Stanford. Dr. Wilbur is son of Dr. Ray Lyman Wilbur, president of Stanford, and nephew of Secretary Wilbur. Herbert Hoover, Jr., will be best man.

ANNA LYNCH, 17, who is held with Roy Edwards by Chicago police in connection with the death of their baby. They are charged with manslaughter. Dry-eyed, the girl-mother said wearily, "Why, the baby's better dead."

### FARMERS IN FAVOR OF HERBERT HOOVER

#### "Ninety Per Cent of Idaho's Ranchers to Vote Republican Ticket," Says W. W. Deal

BOISE, Oct. 24.—W. W. Deal, master of the Idaho state grange, has returned to Boise after a recent visit throughout the eastern and southeastern parts of the state, where he was in contact with many people largely interested in the present campaign and where he had opportunity to meet many people.

Mr. Deal, in discussing the situation said, "I am wonderfully hopeful for the success of Hoover and the Republican national ticket. A very large percentage of the farmers of Idaho, I would say 90 per cent, will, I believe, vote for Hoover."

**Hope for Farm Relief**

"There are two reasons," stated Mr. Deal, "First, because he is the farmer's hope for immediate farm relief in the way of the care for the surplus crops and co-operative marketing which must be attended to. Mr. Hoover gave me the impression that in case of his election those matters would be given first attention along with a complete readjustment of the transportation system, giving the farmers and producers of the country equal opportunity with other industries and this case in point the farmers of the country must have in order to hold their own with other lines of endeavor.

Second, there must be a readjustment of the tariff applicable to the needs of agriculture placing that on a par with other industries.

**Baldridge Satisfactory**

"Governor Baldridge is gaining ground as the people of the state make a study of what he is doing and what he has done and the result is satisfactory so far as his entire administration is concerned. Governor Baldridge has volunteered and has given a record of his official acts, and there is no criticism or objection to the record. Governor Baldridge has told me that it is the plan for a complete readjustment of the tax plan in order that there may be a more equitable distribution and he should be given another term in order to finish what he commenced in 1927. Governor Baldridge is to be elected. In all my travels I have not heard one farmer say a word against John Thomas. He has been in politics for 20 years and does not have an enemy. He is a fit man to represent the farmers and others in the state and to work with Senator Borah."

### BUHL BUSINESS WOMEN AT HALLOWEEN PARTY

BUHL, Oct. 24 (Special to The News)—Witches and goblins gathered in joint session at the Monday evening of the Business and Professional Women's club at the home of Mrs. L. J. Johnson. The party was entertained by a group of young girls who sang and danced until a late hour. Six of the members were business women. The next meeting will be the benefit dance at the Odd Fellows hall next Tuesday evening to raise funds for the scholarship fund which the club is sponsoring. Special features have been planned and the music will be furnished by Benoit's orchestra.

R. Brooks, Harry Wilson, Frank

Rhoda, W. H. Wright, and Dr. J. H. Murphy opened the drive for funds for the benefit of the five local Boy Scout troops Wednesday morning with the goal set for \$1200. The funds will be used to cover expenses incurred last year and to assist with the work of the organization during the coming season.

The West End Women's Hoovers-Curtis committee will meet Thursday in the Presbyterian church at 8 P. M. Miss Gladys Terhune, Republican national committeewoman, and Mrs. H. W. Clouchek, both of Twin Falls, will speak. A short musical program will be followed by refreshments. The public is cordially invited to attend.

## Puts This Efficient Porcelain Washer In Your Home

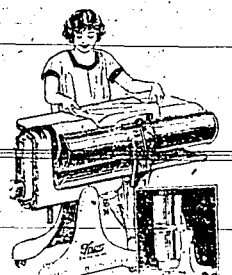

# ABC SPINNER

There is scarcely anything far you to do on wash-day when you have an ABC SPINNER. In the smooth, square, porcelain tub an aluminum agitator sends the sudsy water through your clothes until they are spotlessly clean—it takes only a few minutes in the SPINNER.

The Spinning dryer quickly whirrs the water out—no more buckets to replace—no deep cresses to iron out. The ABC SPINNER is the most efficient and most economical wash-day assistance you can get.

And now you can secure this wonderful assistant for only \$5.00 down. The balance can be paid in convenient monthly sums you will scarcely miss. Come in and let us tell you about it.

### Thor Model 20 Automatic Electric Ironer

An automatic electric ironer will make ironing a joy. No lever—no machinery. Just a touch of the fingers starts it. You simply guide the clothes through. And it will iron anything a hand iron will iron. The Thor Ironer operates silently and folds up when not in use to occupy a small space in closet or corner.

# MARTIANS FAIL TO ANSWER LONDONER

### Postal Officials Collect For Message; Newspapermen Exasperate Scientist's Wife

LONDON, Oct. 24 (AP)—Small ears and long antennae in England strained in vain today to catch a return message from the big eared folk of Mars, to whom a wireless message was dispatched early this morning.

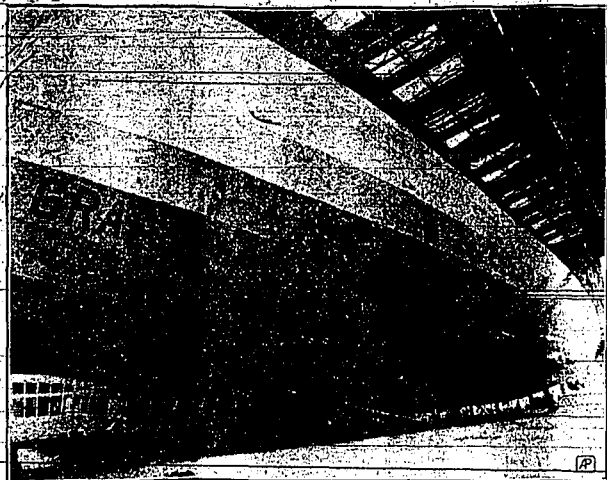

Postal Service Collects  
The wording of the message to Mars remains a mystery. The postal authorities collected their one-shilling postage per word. It is purely a matter of business to them, and they are not at liberty to discuss the contents of the radiogram. This went on an 18,700 meter wave length, and not a sound came back. Dr. Robinson thinks the wavelength was too short. He hopes that some American millionaire will put up a few shillings for a 30,000 meter wave length.

Wife is Skeptical  
She declared boldly that the experiment was nonsensical and is quoted by the Evening Standard as saying: "It's all foolishness. Messages cannot be sent to Mars. I don't know what my husband is doing. I don't know if a message was sent to Mars and I don't care. I don't know if my husband got a message back. I don't expect he has, but I am not interested, and I don't even know where Mars is."

# TWIN FALLS BOYS STAGE ORIGINAL MUSICAL PLAY

BURLEY, Oct. 24 (Special to The News)—"Glory," a romantic musical comedy written and produced by young Idaho authors, was given here under the auspices of the Women's Auxiliary of the American Legion Monday night. Ralph Herron and Bob Deles, both of Twin Falls, were the dramatic authors, and Margery Albertson wrote the music, with the exception of the song "Wyoming-Blue" which was written by Margaret Bailey. The production committee was made up of the following Auxiliary women: Mrs. J. C. Ring, Mrs. Ross Youmans and Mrs. Truman Wolfe. The play was well received by a large audience. Characters in the cast were taken by the following members of the Burley school: Dorothy Crockett, Gene Trup, Natalie Christensen, Owen McBride, Forest Varney, Harriet McCulloch, Paul Bell, Winifred Lange, and Edna Erickson. Laura Campbell, Wesley Stearns and by Herron and Deles the authors. Elaine Jacobs was piano accompanist, and George Stanley, violinist; Ray Johnson, cornetist; and Ray Ellis, drums. A large number of school students took part in the choruses and dances.

# Tax on Gasoline Brings \$5,772,392 Into Coffers of State Since 1923

(By The Associated Press)  
BOISE, Oct. 24 — Idaho automobiles and trucks have burned up 191,199,039 gallons of gasoline since inauguration of the gasoline tax in 1923, bringing into the state \$5,772,392 to be used on the highways of the state, a report of George Jordan, director of the motor fuel department, revealed today.

# EPISCOPALIANS TO EXPEND \$7,225,680

### Rev. Thomas Jenkins, McMinnville, Oregon, Chosen Nevada Bishop, Reports State

WASHINGTON, Oct. 24 (AP)—The Episcopal church will expend \$4,225,680 for annual maintenance during the next three years and an additional \$3,000,000 during the period for special projects. It was determined today when the house of deputies in general convocation here ratified the plan approved yesterday by the house of bishops.

Consider Marital Laws  
A proposal that the deputies approve a resolution, urging uniform marriage and divorce legislation, particularly in the case of marriage of defective and diseased persons, was referred to a committee for further consideration.

Dean George H. Powell of the Pacific Province Divinity school, said that the lack of majorities was due to the fact that some of the bishops were on the golf links during sessions and said "I don't see why we should be called upon to enlarge the army of Episcopal golfers."

# Vote for Hoover and Stability--

# WHY GAMBLE ON THE FUTURE?

SENATOR JOHN THOMAS

## A Faithful Public Servant

### HE GETS RESULTS

Senator John Thomas is a man of deeds rather than words. Throughout his life he has been close to the farmer and his problems. His close contact with agriculture makes him a valuable and sympathetic friend to the farmer. As a financier, stock raiser and farm operator he has a thorough knowledge of the problems, the hopes and aspirations of Idaho's farmers and Idaho's business.

Much credit is due to Senator Thomas for the great part he has played in the development of reclamation in Idaho. He has been and is one of the biggest factors in the development of the dairy and poultry industry. His association with Senator Gooding in the latter's legislative work at Washington has given Senator Thomas access to those places where Idaho's problems are solved.

Results are what count. Senator Thomas gets them. A vote for him is a vote for Idaho progress and for her best interests. He and Senator Borah will make an ideal combination for Idaho in the nation's legislative halls. They can work together. Senator Thomas has been a staunch supporter of Senator Borah.

## Maintain Idaho's Strength in Congress

Re-elect Burton L. French and Addison T. Smith

**BURTON L. FRENCH**, Idaho's Senior Congressman, has served eleven terms in the House of Representatives. He has given twenty-two years of real service to his state. He sits as a member of the most important committee in the lower house, the committee on appropriations. He is also chairman of the sub-committee on naval appropriation.

Because of his long service in Congress and his membership on the important committees Mr. French has been able to give great strength to the cause of the West in its battle for needed legislation. Much credit is due him for the success of the bill providing for the construction of the Black Canyon project. Idaho must maintain her seniority in the House gained through Congressman French's long service.

**ADDISON T. SMITH**, Idaho's Congressman from the Second District has served eight terms in the House of Representatives. As Chairman of the committee of House on Irrigation and Reclamation, Addison T. Smith has done and is in a position to do much for Idaho and all of the arid section of the West. He was largely responsible for bringing about the building of the American Falls dam.

What is true of Congressman French (in his strength for Idaho in the House of Representatives because of long service and his membership on important committees) is equally true of Congressman Smith. Idaho should maintain her seniority in the House gained through Congressman Smith's long service. Vote for Congressman Smith and reward his faithful service, and his characteristic way of getting things done promptly for his constituents.

## AND NOW ABOUT FARM RELIEF

### Hoover's Plan:

Mr. Hoover pledges himself by the creation of a federal farm board of representative farmers to be clothed with authority and sufficient money to aid the farmers' co-operative associations and the farmers' pools, and to assist in general farm problems.

He favors the APPROPRIATION OF SEVERAL HUNDRED MILLION DOLLARS of the government funds, WITHOUT OBLIGATION OF THE INDIVIDUAL FARMER, for the purpose of controlling the sale and price of the surplus farm products. Mr. Hoover says: "THE WORKING OUT OF AGRICULTURAL RELIEF CONSTITUTES THE MOST IMPORTANT OBLIGATION OF THE NEXT ADMINISTRATION."

### Al Smith's Plan:

Governor Al Smith of New York in an interview to the New York (Democratic) Times, Jan. 27, 1927, says: "A CHAIN OF FARMS MIGHT HELP THE SITUATION. At least the business methods embodied in the situation would bring the only relief I can think of."

"When the farmer stops sitting on-top of the world and begins thinking, and keeping the rules of economics he will begin to help himself. I have suggested more new things in the last six years for this state than any other man, I fully believe, but I can't think of any way of really helping the farmers. If they could bring me a good suggestion, I should be glad to adopt it. The fact is, they are the only ones who can save themselves."

# "One Good Term Deserves Another"

## The Administration of Governor Baldridge Is a Record of Achievement

A vote for Governor Baldridge is a vote for a continuation of efficiency and economy. His administration has made good. All departments of his administration have functioned efficiently.

He has been a friend alike of Agriculture and Business. Idaho has prospered under his administration. His has been an administration through the application of business methods. And now note the achievements of that progressive, yet economical administration:

**Road Building**—Idaho's crying need—1065 miles of state highway, constructed, reconstructed, surfaced or oiled within the past two years. Reduction of the bonded debt amounting to nearly \$400,000 and a reduction of \$500,000 in the treasury note debt. The people have been saved annually \$50,000 by reduction in interest charges and improved methods of handling state funds. Through the activity of the State Board of Publicity headed by Governor Baldridge \$2,000,000 has been attracted to Idaho through various sources.

Hundreds of thousands of dollars have been saved to shippers in freight rates. Large revenues have been derived from state lands, and the sheep industry, mining, stock raising and lumbering have all been encouraged. The best interests of the state will be served through re-election of Governor Baldridge.

On Al. Smith's Scheme for Regulating Liquor, Sen. Reed Smoot Says: "Governor Smith suggests that your state, my state, become a manufacturer and a peddler of booze. God forbid."
