General Attack On Railroads' Contentions Regarding Costs of Operation Features Last of Session; Utah Testifies

(By The Associated Press) BOISE, Nov. 9.—Hearing on the application for a partial return for the general reduction in freight rates from the Pacific coast into Idaho ended today with a general attack on the railroads that operate in the mountain Pacific territory than in the Southwest and plains states territory.

The attack was made by H. W. Prickett, attorney for the Shippers' Traffic Association, who cited figures on costs and income over a number of railroads in the mountain Pacific territory and compared them with costs and revenues from railroads in the other two sections.

Prickett generally speaking, the cost of operation in mountain Pacific territory is lower than in the other territory to which he refers, the attorney for the railroads interrupted after Prickett had recited a long list of comparisons.

Prickett countered the facts speak for themselves, Prickett replied. Prickett took the stand in the interests of Utah after the railroads had introduced testimony in an attempt to justify rates to southern Idaho over the Rogerson-Wells cutoff, and likewise to justify rates on coal shipped into southern Idaho from the east.

Prickett said that certain Utah concerns were in competition for the Idaho trade with the railroads. He said that he did not want the present rate schedule upset. He contended the rate was established on a competitive basis and apart from the Idaho situation.

Much of the afternoon was taken up with testimony by E. H. Hobbs, assistant general freight agent of the Utah Pacific system, Salt Lake City, relative to rates on coal shipped into Idaho from the east and on coal shipped to Washington and Montana.

Coffin Testifies Hobbs contended that a low level of rates must be maintained into the Spokane territory to compete with the products of the southern and territory. Sherman Coffin testified.

A BIRDSEYE STYLEVIEW IN TWIN FALLS STORES

Review of Current Fashions Gleaned From an Inspection of Local Firms BY THE NEWS SHOPPER

TAKE OFF YOUR HAT - Can you take off your hat without a little assistance? Of course you undoubtedly paid a lot for the hat just because it so improved your appearance...

You have probably given your hair some care, and maybe have tried frankly to improve it with a hair cream, hair oil, hair treatments and what not, without knowing exactly what was wrong or why.

Maybe your hair was once as beautiful as you could wish, or perhaps it has always been a bit drab and dull. Anyway, as near as you are able to discover your hair is not first clean, and must have exercise.

After you have brushed, and brushed and brushed, you must wash your hair. But you mustn't wash it too often. That is a real problem, knowing when and how often. A beauty school attendant who knows hair dressing can probably tell you how often your own hair should be washed.

And if your hair is inclined to be thin or flakey it needs in addition to brushing and massage, just a bit of the tonic I found in one of the Twin Falls beauty shops. Four or five times a week you can apply it well into the scalp. It strengthens the hair, stimulates the flow of blood into the scalp, thus preventing dryness, and does away with dandruff.

So many women have polluted their hair with dyes and preparations for preventing grayness. Such dyes may not be at all dangerous or destructive in the hands of a skilled beauty shop operator, but may spell hair destruction if carelessly applied.

And if the water is brackish, have a permanent. But treat your hair with due respect and deference. Hair varies in the individual, and should be treated as an individual problem. It must first be tested, scientifically, to find if it will be "set" or "wavy" or of close structure, and to determine the "wave" pattern.

As their traps needed their attention, the boys took no time in studding their feet with the thick and all-weather emergency outfit to the hidden camp in the thick snow swamp at the head of the stream. There it was, the safe, after the most snow had blown out their trail. They with Kona and Yellow-Eye hidden in scrub on either side of an old hundred yards from the camp, the trappers hid their faces, and their hands and feet started snow.

Before dawn, when Brock rolled out of his cabin to start the tent stove, he had started in surprise at the empty benches of his tent. But by the time breakfast was ready, a thick frost thrust through the double flaps of the tent.

CHAPTER VII Drum-Beat of the Blizzard

"The following night, Brick and Shag returned from the trap to find a blanket of snow waiting for them. 'Hi-yaw!' he shouted in the number of the snow as he thrust his head through the roof flaps. They were sitting in the snow, their feet tucked in, waiting for the snow to be blown off. 'Where did you get that?' Gaspard asked a one-sided grin. 'Oh, I got that from a fence' or snow. 'You ran into one? That's what?' demanded the aroused youth. 'Where's your holding back on me? Hurry up!' Gaspard related the details of the night's experience to his despondent friend.

**STORES WILL CLOSE FOR ARMISTICE DAY TENTH ANNIVERSARY**

Boise-Twin Falls Championship Football Game, Battle Spectacle, Dance, and Veterans' Luncheon Program Features

Tenth anniversary of Armistice day will be celebrated in Twin Falls Monday with suspension of business and a program of events including the Boise-Twin Falls high school football game on Lincoln field in the afternoon. Afternoon session military spectacle in which national guard units of B. H. Stuberly and Twin Falls will reproduce a night battle on the western front 19 years ago, and the annual Veterans' Legion Armistice day ball. The military spectacle is to be presented on the county fair grounds at 7 P. M. beginning at 7:30 P. M.

Twin Falls business houses will be closed all day Monday in conformity with agreement reached through the chamber of commerce, merchants' bureau last year, and in keeping with a proclamation lately promulgated by Idaho's governor.

Public schools in Twin Falls will be dismissed at noon for the rest of the day.

**Plan Luncheon**  
One of the interesting events of the day will be a luncheon meeting of the Twin Falls American Legion post in which veterans of the Civil war and of the Spanish American war are to be guests. This meeting is to be held in the hall at noon. Election of the organization's commander for the coming year and installation of newly elected officers will take place at this time.

Observance of the actual anniversary of the armistice on Sunday, November 11, will be marked in Twin Falls churches with morning services in which lessons of the World war will be stressed. Ministers of the several churches in arranging these services welcomed suggestions coming from the American Legion that the day be thus observed.
