OWNERS OF AUTOMOBILES MUST OBTAIN COMPLETE TITLES TO GET LICENSES

BOISE, Dec. 3 (AP)—Everyone who owns an automobile license for 1929 will have to have a complete title... "Owners have had a year in which to prove up their titles... In 1927 we had 110,000 titles to prove, and the work was naturally congested. Now this has been cleared out of the way and there remain but 5000 titles to be proved... We can clear up this work in December and will be glad to do it so the owners will not be inconvenienced."

Smoking In Sacred House Costs French Army Officer Life

FEZ, Morocco, Dec. 3 (AP)—Smoking in a house, considered sacred by Mohammedans, was responsible for the killing of a French officer. The death was described as "saturnally slow." Dr. Parrish said one-third of the deaths reported in the county were due to "complications" rather than to influenza.

PLANE CRUMBLES IN AIR BUT PILOT SAVES LIFE

WASHINGTON, Dec. 3 (AP)—The wings of a Curtiss fighting plane collapsed here today 6000 feet in the air in the midst of a full power dive, but the pilot landed safely by a parachute. James Collins, Garden City, New York, a Curtiss employee, was testing the ship for one navy. When the break-up occurred, he scrambled safely over the side and floated down with little or no injury to a small flying field. The plane had not yet been accepted by the navy.

ACCIDENT ON RACE TRACK ENDS TWO MEN'S LIVES

BUENOS AIRES, Dec. 3 (AP)—Two persons were killed and five severely injured in accidents during the automobile race at El Plata today. The racing car, driven by Julia Beltroni, struck a man attempting to cross the track during the progress of the race, overturning the car. Both were killed. A brother of the driver, lost control of his machine and crashed into a pillar at the track. He was injured. Another car smashed through the guard rail into the spectators injuring four persons.

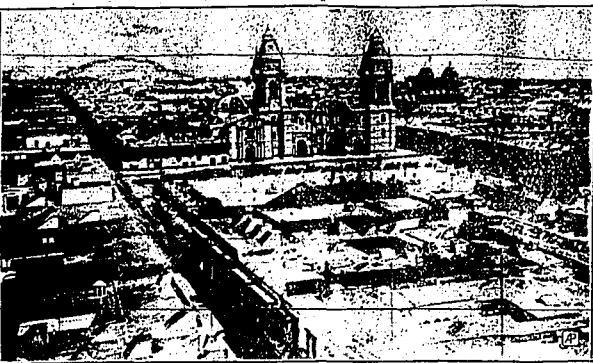

Smallpox Epidemic Demands Quarantine Measures In Alaska

NOME, Alaska, Dec. 3 (AP)—Strict quarantine measures have been adopted at Kotzebue, about 150 miles north of here, where telegraphic messages today reported hundreds of cases of smallpox. At Deering, across Kotzebue sound from the stricken city, dog teams are stopped and all mail is fumigated. Forty-six cases are reported at Unalakleet 150 miles beyond Nome. Doctors are awaiting favorable weather for an attempt to fly to the places affected. Smallpox is regarded by doctors as generally fatal to the natives of Alaska.

IDAHO RECEIPTS IN TWO YEARS TOTAL \$26,360,995

STATISTICS REVEAL COMPLETE RESULTS OF RECENT ELECTION

Figures Indicate Population of Idaho Growing; Congressman French Polls Highest Percentage of All Ballots Cast

(Special to The News) Boise, Dec. 13.—The election is passed and the official canvass by the state board of canvassers has just been completed and the returns for the statistics to have their full comparisons are being made. Percentages figured, majorities computed, and representation in the legislature determined.

Idaho boosters, as well as Republican politicians, are finding consolation in the figures of the returns show Idaho is growing. This year's vote for governor, and that vote is usually the basis for all computations, exceeds by several thousand the vote for governor in any other election in the state.

Ballot Polls 58 Per Cent The gubernatorial vote this year was 151,625, of which Governor H. C. Burdick received 87,081 or 57.8 per cent. The figures for the returns were received by Congressman Durion L. French in the first district where 68.9 per cent of all votes cast for him. French in percentage of vote on the state and national ticket in Idaho was Fred E. Lukens, secretary of state, who gathered 68.5 per cent. Third in line were the Republican presidential electors who will cast their votes for Herbert Hoover. The electors received 64.3 per cent of all votes cast for president, and Congressman Smith received 61.1 per cent. The candidate receiving the largest vote was Stewart Campbell, state mine inspector. His poll was 102,568 but democratic opponent. This situation brought his majority to 88,728. Next to him was state Senator John E. Lukens who reaped a harvest of 94,495 and a majority of 44,136. Mr. Hoover's vote was 9,232 and his majority 44,308.

Amendment Vote Lighter Seven of the eight proposed amendments to the state constitution passed but the largest vote on any one of them was for only two-thirds of the total vote for governor. The amendment proposing an increase in the salary of the governor was defeated by 1870. The record-breaking vote also set a new mark for membership in the legislature. The 1928 legislature, membership of which is based on the 1926 election, will be the largest in the history of the state. This year's election added 11 new members, the lower house bringing the total to 70. The following counties gained the number of representatives over the 1926 session set next to their names: Ada 2, Blaine 1, Bonner 1, Canyon 1, Fremont 1, Idaho 1, Kootenai 1, Latah 1, Nez Perce 1, Twin Falls 1.

WOMEN HOLD MISSIONARY DAY HOME OBSERVANCE

There was wide observance in Twin Falls last Sunday of annual Women's Missionary day, the home of members of the missionary societies of the several churches in which they are organized. It had been the intention to hold the usual services in the churches on Sunday in honor of the fifty-fourth anniversary of the organization to sponsor the gospel abroad. The quarantine prevented observance in the churches and the members observed the occasion in their homes. This year a stirring appeal was made to all members by Mrs. C. L. Brown, president of the Christian Missionary society, to unite in spirit and in fact with the movement, to pledge allegiance to Christ and His service, and to increase knowledge of all members to world needs. presented to the house and senate. The speaker, forthcoming today were all from the house side and were of sectional, rather than national concern, with the exception of several principally farm bills. All the bills, including the tariff and farm measures, were referred to committees. The senate, led by the total number deposited in the house bill basket, was estimated by the speaker at about 500. There were, however, were old proposals dressed up in new legislative language. Those drawing major attention, in view of the contemplated complete revision of the tariff law, were the ones by Representative Williamson, Republican, South Dakota; Taylor, Democrat, Colorado; and Howard, Democrat, Oklahoma, proposing tariff changes on a number of commodities, principally farm.

The Williamson proposal would place higher duties on crude tallow, corn, alfalfa seed, and eggs, and would repeal the law on drawbacks and refunding on wheat imported for milling purposes. The measure proposed by Taylor would increase the duty on iron and cattle hides while Howard's would increase the tariff on imported crude oil and would place duties on all imported petroleum distillates. A proposal by Laguarda, Republican, New York, sought to revise and make more stringent the shipping laws in an effort to improve the safety at sea. He also submitted a bill to fix the liability of owners and masters of seagoing vessels in case of loss of cargoes by fire and other disasters.

Old Friends United The day served to bring under one roof again his old friends who split forth in the recent national campaign under different colors. Senator Curtis and Senator Robinson, Arkansas, who fought for the vice-presidential post, were among the first to greet each other in the senate. As leaders there of their respective parties, they found themselves together on the committee appointed by Vice President Dawes to inform the president that congress was in session. Senator Hefflin, his broad shoulders protruding, was the center of a group of senators, Republicans as well as Democrats. Reaching the chamber just ahead of the opening hour, Senator Norris, who supported Governor Smith, seated himself as customarily beside Senator Borah, who went up and down the land campaigning for Herbert Hoover. They spoke to each other. It was only a year ago that the Idahoan was advocating Norris for the Republican presidential nomination.

First Step Taken Toward Change Tariff Law WASHINGTON, Dec. 3.—The first step toward revising the present tariff structure was taken at the opening of congress today with a decision by Republican members of the house adjourned, to start hearings on a new tariff bill January 7.

While the decision was unofficial, Chairman Hawley said there was no doubt the full committee, which has been called to meet tomorrow, would approve the move. The announcement was strengthened later by Representative Garner, Texas, ranking Democrat on the committee, who said that any revision apparently was acceptable to the Democrats would offer no opposition to the opening of hearings.

Twin Falls Merchants Cooperate in Decorating City's Thoroughfares in Garb of Approaching Holiday Season

Evergreen Festoons to Remain Until After New Year's Day; Two Tons of Shrubbery Arrive From Washington Hills

Twin Falls today will take on holiday garb in recognition of the approach of the Christmas season. Two tons of evergreens from Spokane Hills—and hundreds of yards of scarlet bunting—have been assembled here for use in building of the festoons that are to be swung across the thoroughfares on two blocks each way from the intersection of Main and Main streets.

Each festoon of evergreens, on account of width of the streets, is to be 42 feet long and will be suspended by means of bands of scarlet bunting tied with big bows. A scarlet Christmas bell inside a giant evergreen wreath is to be suspended from the center of each festoon, and there are to be four or five of these festoons on each block. The holiday decorations will remain in place until January 1. Nearly 80 Twin Falls business men, cooperating in the enterprise, have engaged services of S. H. Chase, Spokane, to provide the materials and put up the decorations. He has had many years of experience in this work, having provided similar decorations for Spokane and Portland and other cities of the Northwest Pacific coast. His clientele this year includes Emmet, Caldwell and Nampa, Idaho.

Twin Falls first decorated the streets at Christmas time two years ago when the municipal street department retained hundreds of little evergreen trees and displayed them on the street lighting posts in the center of the business district. BURLEY LODGEMEN ELECT BURLEY, Dec. 3 (Special to The News)—Burley lodge of Odd Fellows have elected Frank Toner, noble grand, and M. W. Crouch, vice grand, to hold office for six months. George Pracewicz was elected secretary, and Hazel Leigh, treasurer, for a term of one year. John Shumate was elected trustee. The new officers will be installed in January, when W. L. Geyer, district deputy grand master, will have charge of the ceremony.

RESIDENTS OF EXCELSIOR SUFFER FROM INFLUENZA

EXCELSIOR, Dec. 3 (Special to The News)—Influenza has taken a heavy toll among the residents of this vicinity, almost every family in the neighborhood having one or more members ill. Most of the victims of the malady are now on the road to recovery. Mrs. Leith and daughter, Ethel, have moved to Rogerson to make their home. Mr. and Mrs. Arch Colney are visiting their old home in Illinois. Mr. and Mrs. Dick Whittington have leased the place 'J. A. Welch' has farmed the last five years. Mr. and Mrs. Herman Kast have returned from a short trip to California. They have secured a place there and will move shortly. Mr. and Mrs. M. B. Taylor have returned from an extended visit in the Northwest. Mrs. Frank Schlegel is seriously ill with pneumonia. E. B. Wilkerson is on an elk hunting trip near Ashton. Miss Merle Byram, Three Creek teacher, has spent the last week here. She is recovering from an attack of tonsillitis. The George Jones family, Twin Falls, were Sunday guests at the H. H. Harnes home.

WARD OTIS THARP WILL RECEIVE LIFE SENTENCE

WARD OTIS THARP, convicted slayer of Mrs. Lois May Bowen, last September 26, will be led into the district court room here today to hear Judge Hugh Baker pronounce sentence of life imprisonment in accordance with the verdict returned by the jury nine days ago which found him guilty of first degree murder. Tharp, since the fatal shooting, has been held a prisoner in the county jail here. His attorneys have indicated that they will serve notice of appeal from the judgment on conviction to the state supreme court. Sentence is to be pronounced by Judge Baker at 1:30 P. M.

GREATER DEFENSIVE SKILL FEATURES IN REVIEW OF FOOTBALL

Reduction of Number of Set-Up Teams Keep Total Points Accumulated by College Machines Below Crop of 1927

(By The Associated Press) NEW YORK, Dec. 3—Greater skill in defense and a decided reduction in the number of set-up teams have kept the total points accumulated by this season's college football eleven down to considerably below the bumper crop of 1927.

The college average team, as determined by The Associated Press from the records of 150 aggregations representing every college in the country, totaled 127.3 points in the course of the season and 14.88 points per game.

The highest scoring machine in the country in the present season, which is now all over but the shouting except for the University of Florida, with 324 points in eight games. This average of 40.5 points per game is quite a far cry from the 65.9 points per game which is the all-time record.

WEST END PREPARING FOR CHRISTMAS TREE PROGRAM

## Constantly we are finding new and better ways of doing things

**T**HE new Ford was a good car when it was first introduced. It is a better car today. Constantly we are finding new and better ways of doing things. Ceaselessly, untiringly, our engineers are working for the improvement of the car. Every new idea that seems to promise advancement is studied and tested in every conceivable way.

Not only in the laboratory, but out on the road in actual running. As soon as we are sure of its value we put it into the car.

The result is an automobile that is always new. There is no such thing as saving improvements for a yearly model designed to speed up sales or capture a passing fancy.

No matter when you buy a new Ford—in January, May, August or December—you know that it embodies every latest development that has proved sound and good.

You know more than this. You know that in design, materials and workmanship it is the best car that can possibly be made at a low price. The deciding thought behind every move is not sales or profits—but *"What will give the most service to the public?"*

Our whole effort is toward simplicity—to give you complete, well-rounded performance with the least amount of machinery and without sacrificing quality anywhere along the

line. You cannot make a complicated car at a low price without cutting corners somewhere.

The new Ford is a truly great car because it brings you a proved, sensible balance of every essential feature of an automobile. No one part has been over-developed at the expense of another.

You get remarkable acceleration and smoothness at all speeds. You get speed of 55 to 65 miles an hour. You get uncommon power and hill-climbing ease. You get reliability and economy of operation that will save you many dollars in the up-keep of your car.

You get more than this... a fully enclosed, silent six-brake system—four Houdaille hydraulic shock absorbers—Triplex shatter-proof glass windshield—the full and immediate advantage of many improvements developed exclusively by the Ford Motor Company.

Arrange now to see the new Ford and know the thrill of driving it. Judge it not only on acceleration, power and speed, but also on safety, comfort, ease of control, reliability, economy—on its long life and the security of its trade-in value.

You will know then that today, more truly than ever before, there is nothing quite like the new Ford in design, quality and price.

### TEMPERANCE UNION MEETING SUCCESS

#### National Boston Session Best in History; Twin Falls Woman One of Idaho Delegates

The national meeting of the Women's Christian Temperance Union recently held in Boston was pronounced the most enthusiastic and successful in the history of the organization was the statement made last evening by Mrs. Joseph Blake, southern Idaho district secretary, who returned Sunday from the convention and from a tour of inspection in the district.

The city attorney advised that the face and interest of these bonds would exceed \$10,000, and that the proposition simply constituted a loan. He said in no way in the bonds were less than par value, and accrued interest at the date of maturity in the hands of the city.

A special train for delegates from the West was made up at Chicago. The trip was made by way of Niagara Falls, where the train stopped for four hours in order to let the delegates visit the great cataraict.

Mrs. Blake attended the meeting as representative of the southern Idaho district, acting as alternate for Mrs. John L. Brady, Blackfoot, district secretary of the southern Idaho district, who was unable to attend.

There was a large attendance at all sessions of the national convention, which was held at the Hotel Waldorf Astoria in New York City. At times the three galleries of the Waldorf were full and much interest was shown.
