TALES OF LOSS AND RECOVERY OF STATE PAPERS SHED LIGHT

Records Show Senator Borah and Nebraska Solon Have Demanded Official Investigation by Federal Government

(By The Associated Press) WASHINGTON, Jan. 10.—Tales of the mysterious disappearance of state documents and their equally mysterious recovery today formed another chapter for the long record on Capitol Hill involving Mexican documents and Russian documents, now branded as forgeries, in which the names of United States senators appear as the principal recipients of large sums of money.

Testimony taken before a senate committee yesterday indicated the subject was not an account by a state department official who told of the disappearance and subsequent recovery of a number of papers belonging to the American embassy in Mexico City. They were turned over, the testimony said, by the American consul in that city, a paper man but where Mr. Baker got them was not made clear.

Incidentally, the testimony showed that Senator Borah, Idaho, who, with Senator Norris, Nebraska, was named in documents published yesterday as having received \$100,000 each from Soviet Russia, had demanded an official investigation by the American government to determine who forced these papers upon him yesterday were branded as spurious by Chairman Reed of the committee.

Senator Borah's inquiries today said he had initiated steps to have the Russian government find out who the forger was. The committee record also included a typewritten note purporting to show that the soviet ambassador at Paris had authorized payments to "Joe" and "Harry" New York publicity organization and who recently wrote a book on Russia.

The record likewise embodied a statement from Chairman Reed that "there is reason to believe that the typewritten note purporting to show that the soviet ambassador at Paris had authorized payments to 'Joe' and 'Harry' New York publicity organization and who recently wrote a book on Russia, the committee had been unable to find out who manufactured the papers.

Under questioning by the committee, the Senate record, Republican Pennsylvania, Arthur Bliss Lane, chief of the Mexican affairs division of the state department, accounted that a year ago the state department, after negotiations obtained almost 300 papers from the soviet ambassador, 200 of which were genuine documents taken from the American embassy.

The committee also developed testimony that Mr. Baker was a "sort of liaison officer between Mr. Hoover and the state department in regard to the recent Latin-American food-will tour.

Among the Baker documents were some spurious ones, Mr. Lane said, purporting to show transfers of money from this government toward Mexico. These documents were different from the Mexican documents published in numerous columns on page 2, column 2.

LOS ANGELES, Jan. 10.—Milton Pike, former employee of the Gettoff Spring street, tailor shop, who with Jacob Herman will share the position of star witness at the trial of the trial of former District Attorney Asa Keyes and five others for bribery, was called by the witness stand today by Judge Edward J. Butler, tried that a witness could wear what he pleased—Pike described the interior of the store establishment, and the position of the mirror through which he told the grand jury he watched the Julian defendants "fix their case with Keyes."

DEPUTY DISTRICT ATTORNEY JULIAN RICHARDSON, chief prosecutor of the Julian case, in which the Rosenbergs, and other witnesses were accused of over-issuing the oil company stock to the extent of \$400,000,000 testified that Keyes, the district attorney, had confessed to him that he had not tried to convict Ed Rosenberg and Lewis Herman, brother of Jacob, who were turned state witnesses against Keyes.

\$410,000 FUND FOR IDAHO FOREST ROADS

Amount Allotted to Seven Highway Construction Jobs to Be Undertaken During Year

BOISE, Jan. 10.—During the next year \$410,000 in forest highway lines will be spent in Idaho along lines mapped out today at the regular forest highway conference here.

Engineers from both the fourth and first districts of the forest service were here as well as representatives from practically all districts of Idaho. The money was allotted to seven highway construction jobs, all of construction work. Expenses of equipment and material will come from other funds.

The money, half the biennial appropriation and will be used on the following projects: Clark Fork highway between Clark Fork and Cabinet, 2 1/2 miles of new construction from the end of the present forest road toward the Montana line—\$50,000.

North and South highway, between Emida and Harvard, a continuation of Clark Fork project already under way—\$100,000.

SHEEPMEN OF IDAHO RETURN BURLEY MAN TO HIGHEST OFFICE

R. C. Rich to Serve Second Term as President of State Wool Growers' Association; M. C. Claar Again Secretary

(By The Associated Press) BOISE, Jan. 10.—R. C. Rich, Burley, was re-elected president of the Idaho Wool Growers' Association at the close of their three-day annual convention here today.

F. S. Geddes, Malad Valley, Idaho, was elected vice president, M. C. Claar, Burley, to secretary.

Consent was urged to appropriate about \$300,000 for use by the intermediate credit bank in extending financial aid to agriculture in situations in one of a series of resolutions adopted by the convention.

Another resolution called on the president to appoint a committee with powers to modify the association's consent decree to permit the large packers to engage in retail business as well as in the business of distributing wheat, flax, fruits, cereals and other foods on a basis of equality with other competitors.

Resolution on Infringers The state legislature was asked to draft legislation that would curb the activities of "truck raiders" who carry away livestock in trucks out of reach of the vigilance of the packers.

Adjustment of the tariff to protect the market required by the increasing number of sheep was advocated with the recommendation that the tariff be lowered.

WOMAN REFUSES TO QUIT HER HOME IN CEMETERY

RACINE, Wis., Jan. 10.—Mrs. Celia Engel, 75, here, has refused to quit her home in a cemetery.

Now comes the town of Mount Pleasant and seeks to evict her. She claims squatters' rights, and says the house will stay. The town says that squatters' rights don't apply even though the time has expired, and that the house is no more her home.

Mr. Engel's house and its grounds occupy nine burial lots. The town occupies the whole cemetery on the site for a park as all bodies have been removed. The circuit court will hear the argument.

FARMERS' CHAMPION FORECASTS SPECIAL SESSION FOR RELIEF

Chairman of Powerful House Ways and Means Committee After Confering With Hoover Publishes Prediction

WASHINGTON, Jan. 10.—Herbert Hoover has today over to conferences chiefly with congressional leaders on the question of farm relief, tariff revision and last called Representative Willis C. Hawley, Oregon, after being closed with the president-elect on the tariff, farm relief and other subjects, about the middle of April.

Hawley, chairman of the powerful house ways and means committee which already has started hearings on tariff revision, emphasized that he was voicing his own views as Mr. Hoover himself had said nothing on the subject.

Makes Prediction The Oregon member, however, said it was his opinion that the congress would meet in the middle of April, and that an attempt would be made to put tariff and farm relief bills through by July 4.

"In my judgment," he continued, "we should have an extra session and have it early to get through by the Fourth of July, so that the farmers could have the advantages of tariff adjustment this crop season. From the standpoint of business also, that would be better, for the sooner we let the country know what the tariff is to be, the sooner they can adjust manufacturing and prices correspondingly."

PRINTING FOR STATE LEGISLATURE BRINGS PROSPECTS OF FIGHT

Rumor—Has Highest Bidder of Three Competitors—Winning Award; Flurry Brightens Day for Solons in Capitol Hills

(By The Associated Press) BOISE, Jan. 10.—Possibly that there would be an outbreak in the legislature tomorrow on the matter of awarding bids for printing state documents tonight when it was rumored about the house floor that of three competitive bids offered for printing the house bills for the year 1920 had been recommended for acceptance.

The printing flurry brightened a legislative day that had been made dull because each house was waiting for the other to start something. The senate has met for the first time in 11 o'clock. The house met an hour earlier but after attaching two attaches for the employes staff, recessed while the president of the senate signed the emergency appropriation measure and returned it to the house for the speaker's signature. It was later signed by the speaker.

The senate again took up the appropriation measure and immediately a storm of protest arose from various members whose allowances had been reduced all the way from 20 cents to several dollars. The resolution was returned for the second time to committee for further checking.

Reports were current on the floor of the house after adjournment that a minority report would be issued in connection with the printing award with a view of obtaining an extension of the minority's action. Approval of the report and no announcement was forthcoming until the afternoon when it would submit the majority and minority reports.

An act providing for licensing automobile operators and chauffeurs was recommended for adoption by the senate last night. It was reported today by the commission in uniform laws.

The report states that an automobile operator or chauffeur who causes or attempts to cause any intentional damage to be driven by those who are physically or mentally unfit to drive, or who are intoxicated or under the influence of any narcotic or liquor shall be liable.

There probably will not be a race riot in Twin Falls, Idaho, after all, but at least that body is faced with the necessity of solving a race problem.

Public Health Officials Mobilize to Lay Plans to Combat Epidemic of Influenza

WASHINGTON, Jan. 10.—Public health officials and scientists from all over the United States mobilized here today for an attack on influenza which has been spreading over the country.

They gathered, however, without the presence of the commander-in-chief, Surgeon General Hugh S. Cumming, who called for the mobilization only to find himself afflicted with the disease and unable to be on hand when the session began.

At the outset of the meeting Assistant Surgeon General Draper, president of the session, appointed three committees on epidemiology, prevention and research, to summarize the deliberations and distribute them in a form which may be distributed to the public for information.

Musical Marvel of 60 Years Ago Dies

CHICAGO, Jan. 10.—Isabella Colombo, Chicago child prodigy, died today, aged 60 years.

She was the first white child born in Auburn, California, and was brought to Chicago when she was three years old. Nine years later she had become the leading soprano of the Holy Family church. The Chicago Press club financed her musical education in Europe, where she studied in Milan and London, and then returned to Chicago to achieve fame during the world's fair of 1893. Afterward she took to concert throughout the country.

Her real name was Mary Scanlan.

NATURAL LIFE-SPAN

Sir Arthur Keith, eminent British scientist, holds that Nature's plan for man was a life-span of only fifty years.

"I was disappointed," he says, "I would not try to prolong human life into old age. On the contrary, my idea would be to frame a body which would maintain its complete physical fitness to fifty years, then suddenly disappear."

Without making any pretense to knowledge of nature's plan in his "Science of Living," a century background outlook, may be permitted to question Sir Arthur's theory.

Does not prolonging the life-span help the younger generation? It is chiefly by decreasing the infant mortality rate and promoting healthier childhood and youth that people arrive to a ripe old age.

TREASURER'S REPORT BLEND HISTORY AND STATISTICS OF IDAHO

Byron Deffenbach Reviews Conditions Within State During Year; Taxable Wealth \$1,285,000,000; Population Up

History and statistics are blended in the pages of the nineteenth biennial report of the state treasurer of Idaho, just given to the public by Byron Deffenbach, state treasurer. The report contains many comments on conditions from the viewpoint of the treasury department.

On page 31 is found the following historical and statistical data regarding Idaho and its present resources and population.

The territory of Idaho was organized in 1853. William H. Wallace, then being appointed governor by President Lincoln on March 10 of that year. The first territorial legislature met in 1854. The state was admitted to the Union in 1890.

Among the 48 states of the Union at this time Idaho ranks in area fourth, in population forty-third in wealth, forty-first in per capita wealth, thirtieth.

The actual taxable wealth of the state is estimated at \$1,285,000,000, or \$2703 per capita. The assessed valuation in 1927 was \$482,695,615. The United States census of 1920 shows the average rate of assessment to be 50 per cent of actual value, the difference being accounted for by liberal exemption laws and considerable cuts from assessment.

Area of the square miles of the state is 83,351 square miles, or 63,346,600 acres, divided as follows: Agricultural land, 3,943,991 acres, or 74 per cent; mining, out-over and waste, 4,754,803 acres, 16.4 per cent; privately owned timber land, 1,233,450 acres, 1.9 per cent; and public lands, 37,418,814 acres, or 59.7 per cent.

The rest of the area of Idaho is made up of state lands aggregating 2,677,021 acres, 3.3 per cent; forest reserve lands in 10 reserves, 10,779,529 acres, 32.2 per cent; federal and unappropriated lands, 17,177,034 acres, 22.2 per cent.

1928 Population 465,000. The population in 1927 was 421,893 and in 1923 was estimated at 465,000. The school population in 1927 was 129,490 or 30 per cent of the total, the rate for 1928 in 1927 was 151,635 or 32.6 per cent of the total.

In Idaho there are in the total area of the whole state five and a half persons to each square mile, and in the populated area 33 persons to each square mile. Canyon county is most densely and Owyhee county is least densely settled. Custer county is the center of race, Camas county the center of population, and Blaine, Gooding county, the most practical, that is the most accessible center.

CITY PRISONERS MAY BEGIN CUTTING WOOD

Attorney Sweeley Suggests Form of Labor for Inmates Lodging in Jail in Twin Falls

Substitution of wood saws and poplar logs for the rock pile of Wallidan is being considered by members of Twin Falls city council as a means of dealing with prisoners for whom mere imprisonment, as a measure making for reform seems to be ineffective.

Suggestion that prisoners might furnish employment in these cases was advanced by members of the council at a recent meeting when Captain Attorney Sweeley, city attorney, laid the problem before the council.

A jail holds no terror for some of the more frequent inmates of Twin Falls city jail, it was explained to the councilmen, holds no terrors and occasions no regard. In fact, it was stated, in some instances, the jail sentence is regarded by the prisoner as a gratuity on the part of the city.

With means for employment of prisoners provided, it was suggested, rule should be invoked requiring them to work if they would eat.

There is no provision now, either in the city or county, for regular employment of prisoners.

MICHIGAN TO COOPERATE WITH IDAHO AUTHORITIES

Twin Falls Police and Officers of Wolverine State Exchange Stolen Pistols' Descriptions

Michigan's state department of public safety will give to Idaho authorities some of the advantages of Michigan's compulsory registration of all pistols bought, sold or carried in that state, according to a letter from the Michigan division of pistol registration received by R. E. Leighton, Twin Falls police chief, yesterday.

The letter requested Twin Falls police to report to the Michigan authority the descriptions of all pistols found in this state.

"We have a number of pistols reported that were not bought, sold or registered in Michigan," the letter stated, "we believe that this method may be the means of solving some crimes committed outside our state."

Descriptions of a number of pistols missing from Twin Falls will be transmitted to the Michigan authorities, Mr. Leighton stated.

FORMER TWIN FALLS BOY RESCUES CHILD

Boyd McGinn, Grandson of Dr. and Mrs. T. O. Boyd, Eligible for Scout Life Saving Medal

Boyd McGinn, 12, former Twin Falls boy and grandson of Dr. and Mrs. T. O. Boyd, Twin Falls, has been recommended for reception of a life saving medal from the national honor committee of the Boy Scouts of America, according to a clipping from a Long Beach newspaper containing the story of the boy's heroism, which appeared in the Manila Times of December 7. The mother of the boy, Mrs. Lucian Boyd McGinn, was on her way to Manila, accompanied by her son and daughter, to join Mr. McGinn, who is an employe of the Dollar steamship line, when the incident took place.

Officer Relates Story
The story of the rescue is told by Chief Officer F. F. Boyd, of the Dollar line steamship President Cleveland, on which it occurred, as follows: "While en route from Honolulu to Yokohama at about 11 A. M., November 22, Master Boyd McGinn, aged 12 years, a native-born American, came to his assistance in the swimming tank of the above named vessel. Bruce Meyers, age 6 years, ... On the above mentioned vessel children were in the tank. Bruce Meyers, who cannot swim, lost his hold on the life ring floating in the tank and was drifting in the water. The boy, who was on the deck below, came to the boy's assistance.

On arrival on the platform around the tank, the boy found the child small and somewhat frail for his age, holding up Bruce Meyers with one arm. The boy, who was forcing his head above water, was only able to tread water with his feet and his head was almost completely submerged.

RICKS COLLEGE DEAN SPEAKS IN EAST END

Professor Manwaring Discusses Proper Use of Leisure Time On Leadership Week Program

BURLEY, Jan. 10 (Special to The News)—Professor Hyman Manwaring, dean of Ricks college, was the principal speaker at the session of the southern Idaho Leadership week here Wednesday. Dean Manwaring asserted that if there is one thing more than another that the American people need, it is to lead their leisure time in an improved manner by themselves and not by improved methods of living. We know what keeps our bodies clean and vigorous, our intellects clear and our spiritual being right. We should therefore make use of our leisure to perfect ourselves in all these things.

One of the principal activities carried on during leadership week is the "counterfeit" course for administrators. Dr. James, executive officer of Snake river council, Boy Scouts of America, is instructing a class of 10 administrators in proper leadership during the week. The administrators enrolled are taking the second lap of a five-year course. Instruction during the week is in leather working and first aid. Sessions start at 10 A. M. and continue throughout the day.

Committee members in the Snake river council are Campus Blaine, Shoshone, Gooding, Jerome, Twin Falls, Cassia and Blaine.

During Wednesday evening a diversified entertainment program was put on by 16 junior members of the several churches of the latter day saints church.

FABLY MORNING BLAZE BURNS BELLEVUE HOME

HAILEY, Jan. 10 (Special to The News)—In spite of efforts of residents of Hailey and Bellevue, fire completely destroyed the residence of the John Breshnars family at Bellevue early Wednesday morning. The fire was discovered at 4 A. M. at which time the entire upper story was in flames. A trunk was the only thing saved. The fire is believed to have originated from a match dropped by members of the family while searching for a coat in an upstairs closet. The residence was owned by Mrs. Wm. Breshnars.

WRITER GIVES VIEWS

COPENHAGEN (AP)—Emil Ludwik, German writer of biographs, told a group of Danish friends recently that truly great literature could be born only in small nations. He cited Denmark and Norway as examples of countries which produce more than their proportional share of good literature.

Choice of Leading Hostesses

because it Jells so WELL

SUCCESSFUL hostesses say the simple, attractive dessert is more the Vogue.

Note how completely Jell-well fits this formula.

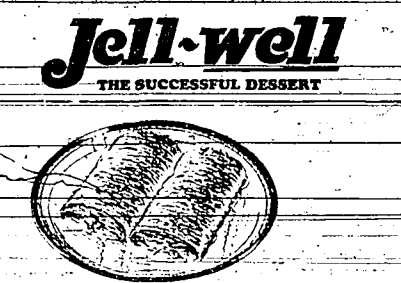

It's easy to make, beautifully transparent and pleasing to the eye. In fact, comparative test from Jell-well superior to any other dessert for its firmness and color.

And it's some finger-lickin'-Guests will suspect that you have added fresh fruit juice to produce that tart, luscious flavor.

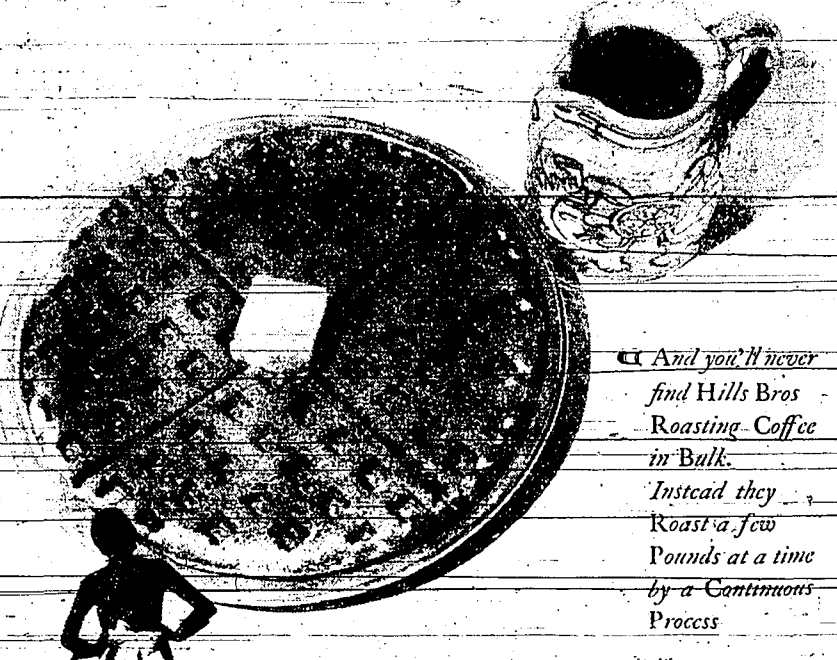

Jell-well is healthful, too—an aid to digestion after a heavy meal.

And economical! One 10-cent package serves from 4 to 6.

Make it a point to look on Jell-well in the light RED box. The dessert that always jells so WELL.

You won't find a Recipe in your Cookbook for Making Six-Foot Waffles

And you'll never find Hills Bros. Roasting Coffee in Bulk. Instead they Roast a few Pounds at a time by a Continuous Process

MEASURING and mixing the ingredients—controlling the heat—can be done much more exactly when you make several small waffles than mammoth ones.

As you follow this principle, in cooking all food, so Hills Bros. apply a similar rule to roasting coffee. They roast their coffee a few pounds at a time by a continuous process instead of in bulk. As a result every berry is roasted evenly and the rich flavor of the rare blend is developed to the utmost.

No other coffee can taste like Hills Bros. because none is roasted the same way. Controlled Roasting is Hills Bros. process exclusively. And the full-bodied flavor and rich aroma come to you in all their fulness because Hills Bros. Coffee is packed in vacuum.

Coffee-lovers everywhere overwhelmingly prefer Hills Bros. Coffee. Ask for it by name and look for the Arab, Hills Bros. famous trade-mark on the can.

Great New Playhouse Will Rise in London

LONDON, Jan. 10 (AP)—One of the most up-to-date and palatial theatres in the world is soon to be erected on "the north side" of Leicester Square by Mr. Jack Buchanan, popular British comedian and actor-manager, who recently paid \$2,500,000 for a big site in this part of London's theaterland.

The purchase is looked upon here as involving one of the most important building schemes that have been undertaken since the war. The building now standing on the property will be demolished next March and Mr. Buchanan hopes to erect his new theater within fifteen months afterwards.

Picture of 13 New Fascisti Melts Duce

BOSCOMBERGO, Italy, Jan. 10 (AP)—Mussolini has broken his own rule about not sending his autographed photo to fathers of big families, or parents of triplets and twins. A group portrait of a Lombard family of this town, father, mother and 13 lusty offspring, melted the Duce's heart. He sent Mrs. Wani in return adorned with a warm congratulatory message in his bold hand.

WASHINGTON (AP)—Consideration is being given a proposal to adopt standard uniforms for officers of the American merchant marine in an effort to avoid confusion caused by the present variety. Uniforms similar to those worn by naval reserve officers may be approved, with changes in distinctive insignia denoting the flag of the line served.

STATEMENTS—EPIDEMIC PARIS (AP)—An epidemic of severe colds among statesmen has aroused agitation against the old custom of "hats off to the dead." At public functions in memory of war victims, ornaments are often required to remain bareheaded for long periods.

CLUB LEADS TO SUCCESS
COLLEGE STATION, Texas (S)—Getting her start in a home demonstration club in El Paso county, Mrs. F. Barner has developed a flourishing confectionery business with sales amounting to an average of \$800 a month.

Twas Said:
On the corner of a block in a downtown section of a big city is a restaurant with a glowing sign: "Never Closed." On the other corner a drug store displays its motto: "Open All Night."

Between the two Wu Ting Lung has his modest laundry. Not to be outdone by the Yankee, he has hung up an electric sign that can be read for a block or more. It reads: "Me Wake Too."

"And you can count us in on this story too, for we're never asleep to the needs of our customers—always on the job—using care in selecting good grade merchandise—marking prices as low as possible—always trying to improve and give the quality at reasonable prices."

GRAIN BUYERS BOOST MARKET QUOTATIONS

Wheat and Corn Prices Soar 5 Cents Per Bushel During Session; Oats Make Advance

CHICAGO, Jan. 10.—Ardor to buy grain future deliveries broke out afresh today, and hoisted wheat and corn both to about 5¢ a bushel above quotations prevalent Thursday. In the bulge, corn and oats established all-around new high price records for the session. In wheat, high quotations on part of many traders, was found in reports that President-elect Hoover has a definite and specific program for agricultural relief. Quotations on corn were unsettled, 1¢ to 1½¢ net higher, with wheat 1½¢ to 2¢ up, oats 1¢ to 1½¢ advanced, and provisions showing 2¢ to 3¢ gain.

Legislation Gains Attention

Throughout the day, various reports about prospects of farm legislation in Washington were given attention among grain traders, but it was not until toward the close that developments regarding the subject became apparently the dominating influence.

Wheat owed some of its strength to the fact that developments regarding comprehensive reports that is outlook for domestic winter wheat, is not nearly so favorable as at the first of the year.

SCORES OF ISSUES UP ON STOCK MART

Developments Tended to Strengthen Belief That Reserve Bank Will Not Raise Rates

NEW YORK, Jan. 10.—Developments tending to strengthen the belief that the New York Federal Reserve Bank will not raise rates today gave impetus to operations on the stock market.

The outstanding development in the day was the unexpectedly large increase of nearly 300,000 tons in the unfilled orders of the United States Steel company during December, the unusually brisk mill activity of the month.

Merchandising, chemical, tobacco and steel shares were prominent in the upswing.

Stromberg Carburetor advanced more than 200 points, an announcement of a large airplane carburetor program, and Stewart-Warner made a like gain as a result of a similar announcement.

In the 2 1/2% Paul preferred touched 61 1/2, the highest price since the reorganization, and Pere Marquette climbed 10 points.

American Express fell more than 9 points and National Tea lost 4, while General American Tank and Commercial Solvents, Greene Cananea, and Commercial Investment Trust sagged 2 to 3 points.

SOUTHERN COUNTIES WAGE WAR ON WEEDS

Twin Falls Makes Aggressive Fight Against Weeds; Chem- icals Placed on 802.5 Acres

UNIVERSITY OF IDAHO, MOSCOW, Jan. 10 (Special to The News)—An aggressive weed eradication campaign was carried on in nine counties of southern and southeastern Idaho during 1928, reports C. B. Ahlson, field agronomist in charge of the University of Idaho agricultural extension division and state seed commissioner. The campaign, according to Ahlson, was the most effective fight against weeds; pests were Castia, Twin Falls, Jerome, Jefferson, Blaine, Malheur, Gooding, Blaine, and Bannock.

There were 23 spray outfits in operation ranging from barrel sprays requiring two men to operate to power sprays requiring three men. Three chemicals were used in the work during the year, salt, carbolic acid and sodium chlorate. Sixty-five carloads of salt, or 18,123 tons; 17,898 gallons of carbon bisulphide, and 3,071 1/2 pounds of sodium chlorate were used in the battle.

The salt covered 80 acres of weeds and cost \$7.30 per ton delivered. The most efficient spray outfit was the power spray, mounted on a light truck, with a pump handling two hoses and operated by three men. The area covered amounted to 1,000 one-half acres to and seven-tenths acres per day per outfit. The weed patches were not large, requiring frequent movements of the outfits. Several acres of weeds in large areas can be covered in a day.

BANKERS WILL TAKE UNIVERSITY COURSE

Stock-Judging Contest Feature; Professional Man in Secure Broader View of Agriculture

UNIVERSITY OF IDAHO, MOSCOW, Jan. 10 (Special to The News)—Approximately 40 bankers of Idaho are expected to attend the first banker's short course at the University of Idaho, January 17 and 18. This course is sponsored by the college of agriculture in cooperation with the

agricultural committee of the Idaho Bankers' association. The bankers' committee and the college of agriculture staff have arranged a program that will touch the multitude of Idaho farm problems from more or less banker's viewpoint. It is the aim of the short course sponsors to give the banker a broader knowledge of agriculture that will be helpful to him in his community.

This short course is probably the first of its nature in the Northwest. Through arranged primarily for bankers, the program will also be of interest to all farmers, who are welcome to participate.

Bankers Judge Stock

The program includes talks by both agricultural specialists and bankers. Several lighter vein numbers are provided, the leading one being a livestock judging contest among the bankers.

Dean E. J. Tidings of the college

of agriculture, will welcome the bankers to the campus for the course. Frank Dabstrom, chairman of the bankers' agricultural group, will respond Thursday evening, January 17, a banquet will be held at the Moscow hotel with J. S. Heckathorn, president of the First National bank, Moscow, as toastmaster. J. W. Bradley, vice-president of the Old National in his community, will speak—Idaho farm problems such as wheat control—need certification, marketing of potatoes, poultry, livestock will be considered in both technical and economic light during the two-day short course.
